

BUILDING MOMENTUM

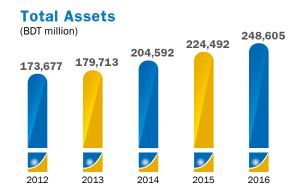

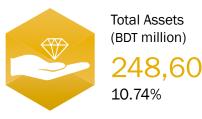

BRAC Bank Limited commenced its renewed journey in November 2015 with new leadership and zeal of its employees. The simplification of processes, talented recruits, enhanced employee benefits and training to the employees have resulted in an overwhelming business growth and improved customer services. The bank has recast its branch banking model with the introduction of Corporate Branches to provide tailor-made services to the big corporate customers. The bank has also focused on the emerging businesses and middle market customers to expand big-ticket business loans outside Dhaka and Chittagong. The bank has also opened 10 branches across the country. With a network of 181 Branches, 469 ATMs, 81 CDMs, 448 SME Unit Offices

and 229 remittance delivery points, the bank has got the basic foundation in place for future growth.

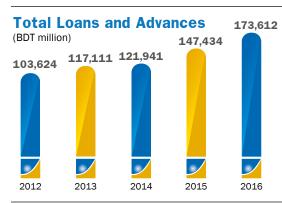

With its wide network and diversity with the subsidiary operations like bKash, BRAC Bank has created the basic foundation ready to be the best bank of the country in terms of quality of service, good governance, compliance, ethics, transparency etc. In 2016, the bank built the business growth momentum to shift gears to the next level. The journey to be the best bank has just begun. The flight is on the tarmac and is about to take off and spread its wings to reach greater heights. The potential is unlimited.

LETTER OF TRANSMITTAL

To
All Shareholders
Bangladesh Bank
Bangladesh Securities and Exchange Commission
Registrar of Joint Stock Companies & Firms
Dhaka Stock Exchange Limited
Chittagong Stock Exchange Limited

Dear Sir(s),

Annual Report for the year ended December 31, 2016

We are pleased to enclose a copy of the Annual Report, together with the Audited Financial Statements of BRAC Bank Limited as on December 31, 2016 for your kind information and record.

Yours sincerely

Apmal

Rais Uddin Ahmad Company Secretary

FORWARD LOOKING STATEMENT

Our public interactions frequently include spoken or written forward-looking statements. Statements of this type are based on hypothesis, ballpark figure. Statements with such considerations and future prospects are included in this document, and may be included in other filings with Securities and Exchange Commission, or in other communications. Forward-looking statements may include comments with respect to the Bank's objectives, strategies to achieve those objectives, expected financial results (including those in the area of risk management), and the outlook for the bank's businesses. Such statements are typically identified by words or phrases such as "believe," "expect," "anticipate," "intent," "estimate," "plan," "may increase," "may fluctuate," and similar expressions of future or conditional verbs, such as "will," "should," "would" and "could."

Forward-looking statements involve numerous assumptions, inherent risks and uncertainties, both general and specific, and the risk that predictions and other forward-looking statements will not prove to be accurate. Do not unduly rely on forward-looking statements, as a number of important factors, many of which are beyond our control, could cause actual results to differ materially from the estimates and intentions

expressed in such forward-looking statements. These factors include, but are not limited to: volatility of Interest rate, instability of capital market, changes of CRR and SLR of the Banks, changes of lending rate, changes of corporate tax, change in national political and economic conditions, changing government policy issues; changes in the demand for BRAC Bank Limited's products; ups and downs in international prices of essentials which influence the foreign exchange market, changes in economic conditions generally or technology spending in particular; changes in the competitive markets of the country, changes in global capital markets activity, judicial and regulatory proceedings. The bank's ability to attract and retain key executives, risk management of lending portfolio often requires stresses which are based on sophisticated mathematical tools and cannot solely be dependent on existing MIS. The level of technology in banking industry is yet to acquire that sophistication.

All the terms mentioned above in the forward looking statements may be altered at any point of time. The bank won't be accountable to update the amended information in the annual report, which may be effected with a future progression.

ANNUAL REPORT 2016

NOTICE OF THE 18TH ANNUAL GENERAL MEETING

Notice is hereby given that the Eighteenth Annual General Meeting (AGM) of BRAC Bank Limited will be held on April 27, 2017 at 10:00 a.m. at BRAC Centre for Development Management (BCDM), Khagan, Savar to transact the following business:

AGENDA

AGM-18-01-2017: To receive, consider and adopt the audited financial statements for the year ended December

31, 2016 and the Auditors' and Directors' Report;

AGM-18-02-2017: To declare dividend for the year ended December 31, 2016;

AGM-18-03-2017: To elect /re-elect Directors;

AGM-18-04-2017: To appoint auditors of the Company for the year 2017 and to fix their Remuneration;

All the shareholders of the Company are requested to make it convenient to attend the meeting.

By the order of the Board

Rais Uddin Ahmad

Company Secretary

NOTES:

- a) The "Record Date" is April 10, 2017.
- b) The shareholders whose names would appear in the Register of the Members of the company on the record date shall be entitled for the dividend.
- c) A member eligible to attend and vote at the Annual General Meeting may appoint a proxy to attend and vote on his/her behalf. Proxy form must be affixed with the revenue stamp of BDT 20.00 and submitted to the Registered Office of the company not later than 72 hours before the time fixed for the Annual General Meeting.
- d) Shareholders and Proxies are requested to record their entry at the AGM well in time. No entry will be recorded after 10:00 a.m.
- e) As per Section 54 (1) (b) (ii) of the Income Tax Ordinance 1984 (as amended in the Finance Act 2014-2015), Members are requested to update their 12 digits Taxpayer's Identification Number (e-TIN) through your member house. In default, to update 12 digits e-TIN, the tax from cash dividend will be deducted @ 15% instead of @10%.
- f) No Gift /Gift Coupon/Food Box etc. to be distributed at the 18th AGM, in Compliance with the Bangladesh Securities and Exchange Commission's Circular No. SEC/CMRRCD/2009-193/154 dated 24 October 2013 and Regulation 24 (2) of the Listing Regulations, 2015 of both the Stock Exchanges (DSE & CSE).

March 28, 2017

CHAIRMAN'S MESSAGE

A MESSAGE FROM THE CHAIRMAN

We would like to put on record our appreciation to each and every customer of the bank for their unwavering trust and support. We congratulate the employees of the bank for another impressive performance in 2016. Our team members have played a critical part in this accomplishment.

Sir Fazle Hasan Abed, KCMG Chairman

Dear Shareholders

It is my pleasure to welcome you all to the 18th Annual General Meeting of BRAC Bank Limited.

At the outset, I would like to express our gratitude to you for your continuous trust, support and patronage of BRAC Bank Limited. On behalf of the Board of Directors, it is my privilege to present to you the audited financial statements for the year ended 31 December 2016.

BRAC Bank has performed remarkably well and made its presence felt in the banking industry, posting very good results for the year 2016. The bank performed up to our expectations under its new leadership, led by its Managing Director and CEO, Mr. Selim R. F. Hussain. Considerable investments were made in restructuring and technological advancements and we are confident that, very soon, we can build on this momentum in pursuit of being recognized as the best bank in Bangladesh in terms of service, governance, compliance and profitability.

Value-Based Bank

BRAC Bank is among the 40 proud members of the Global Alliance for Banking on Values (GABV). Driven by our 3P Philosophy – People, Planet and Profit - we continue to engage in contributing to the building of a viable future for the financial industry across the nation. GABV plays a leading role in the debate about how to build a sustainable financial future by managing joint projects among members, experts and partners to help deliver this future and by advocating for change. BRAC Bank is the only GABV member in Bangladesh and is also a pioneer in adding value to build a sustainable, environment-friendly Bank.

Green Banking

Green Banking considers all social and ecological factors with the aim of protecting the environment and conserving natural resources. BRAC Bank, as an active member of the financial sector of Bangladesh, has a responsibility to safeguard the environment. BRAC Bank plays a pivotal role in conserving natural resources; it took several initiatives, such as e-statements, online

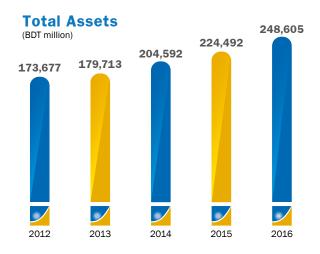

banking, online bill payments, e-business, and SMS banking, to encourage green banking for customers with satisfactory service levels.

BRAC Bank's Financial Performance

Small and Medium Enterprises (SME) are treated as the engines of Bangladesh's economic growth. The bank started in 2001 and focused extensively on SMEs in a bid to ensure the small entrepreneurs' access to finance. We feel proud to have contributed in a significant way to the growth of the SME business in Bangladesh. In 2016, BRAC Bank has disbursed around BDT 56,270 million SME loans, which was 30% higher than the previous year. We successfully acquired 38,456 new SME borrowers and reached a portfolio size of BDT 27,954 million in SME deposits during the year. To date we have served 324,788 SME borrowers and lent BDT 365,756 million. In 2016, the bank's net profit rose to BDT 4,460 million from BDT 2,435 million in 2015. Operating profit for the bank increased to BDT 9,267 million, growing by 18.8 % from BDT 7,799 million recorded in 2015. In 2016, our consolidated net profit rose to BDT 4,062 million from BDT 2,340 million.

We achieved a revenue growth of 14.2% and total asset growth of 10.7% in 2016. Revenue growth was driven primarily by an increase in the net interest income and investment income. Our total assets stood at BDT 248,605 million in the year 2016.

The bank's net interest income grew by 24.6%, the total assets increased by BDT 24,113 million, and customer

deposits increased from BDT 150,221 million to BDT 168,860 million.

The bank's SME and Retail businesses soared during the second quarter of last year. We were successful at de-risking our corporate portfolio for better return in the near future. The bank earned its highest revenue in the fourth quarter of 2016.

Earnings per Share (EPS) of the bank rose to BDT 6.28 in 2016 from BDT 3.43 in 2015. The Net Asset Value (NAV) increased to BDT 30.18 per share from BDT 26.53 in 2015. In 2016, our consolidated EPS rose to BDT 5.47 from BDT 3.19.

As per regulatory requirements, we are obliged to meet the capital requirement in order to expand the bank's business in the years to come. At present, we need to maintain a minimum capital of 10% (10.625% including buffer) of Risk-Weighted Assets (RWA). We are pleased to inform you that, at present the bank's capital adequacy ratio is comfortably higher than the regulatory minimum requirement: Tier-I capital and Tier-II capital stand at BDT 19,707 million and BDT 3,389 million, respectively. The bank has complied with the requirements of the Standardized approach for Credit Risk and the Basic Indicator approach for Operational Risk under Basel-III, as directed by Bangladesh Bank.

It is pertinent to mention here that, as per Bangladesh Bank guidelines for implementing BASEL-III, we shall have to maintain a capital adequacy ratio of 12.5% by 2019. The bank's present Capital to Risk Weighted Assets ratio remained at 12.26% on December 31, 2016.

In 2016, the stock market went through a difficult time. Many of the investors had to make provision in their profit and loss account due to the low market price of their investments. Despite the adverse market conditions, the share price of BRAC Bank Limited rose to BDT 64.10 on December 31, 2016 compared to BDT 48.70 recorded on the same date in 2015.

Brief on Subsidiaries

Mobile banking is an alternative delivery channel for providing money transfer facilities to both unbanked and banked people. In fact, in some remote areas mobile banking has become the only delivery channel for money transfer. BRAC Bank Limited formed bKash Limited in 2011, a subsidiary of BRAC Bank Limited, that began as a joint venture between BRAC Bank Limited and USA-based Money in Motion LLC. In April 2013, International Finance Corporation (IFC), a member of the World Bank Group, became an equity partner and in April 2014, Bill & Melinda Gates Foundation became the investor in the company. In 2016, bKash made BDT 387 million in

profits. With 26,172,245 customers, it is the leader in the mobile banking industry in Bangladesh.

BRAC Saajan Exchange Limited, an Exchange Company incorporated in England and Wales, is a subsidiary of BRAC Bank Limited. The Company mainly provides remittance services to the large Bangladeshi communities living outside Bangladesh. Apart from remittance services, the Company also caters to the investment needs of non-resident Bangladeshis through its parent organization, BRAC Bank Limited.

BRAC IT Services Limited, biTS, is a proud member of the BRAC Bank family and is one of the largest IT-based service-providing organizations in Bangladesh. It has more than 350 talented, highly-qualified, efficient and innovative employees who are committed to helping clients achieve operational efficiency through the transformation of their existing operations using our best-valued solutions and services.

BRAC EPL Stock Brokerage Limited is one of the leading stock brokerage houses in the country. It is a member of both of the country's stock exchanges. Presently there are 7 branches of this venture. BRAC EPL Investments Limited provides a whole range of investment banking services including traditional merchant banking activities. It has already established itself as one of the top portfolio managers, serving more than 4,600 clients from seven locations around the country. It has earned considerable respect and reputation for managing public offerings efficiently. During 2016, BRAC EPL Stock Brokerage Limited delivered BDT 95 million profit against BDT 7.9 million in the previous year.

All public issues, initial and rights, managed by BRAC EPL Investments Limited have received an encouraging market response. It takes pride in jointly bringing the first public issue to the Bangladesh capital market under the newly-introduced Book Building Method.

Subsidiaries' Performance

Among the bank's five subsidiaries, four performed competently and were profitable in 2016. BRAC IT Service Limited, bKash Limited, BRAC Saajan Exchange Limited and BRAC EPL Stock Brokerage Limited have made profits of BDT 48 million, BDT 387 million, BDT 3 million and BDT 95 million respectively. However, BRAC EPL Investments Limited recorded a loss of BDT 901 million due to provision made for negative equity loan portfolio.

Summary of Business, Risks and Risk Mitigation

2016 was a year full of milestones for BRAC Bank. With the new branch banking model in place, a trained sales

force, synergy between sales and branch management, together with the shortest turnaround time for disbursement, the bank was able to achieve one of the largest Retail Banking portfolios in the industry. We have also become the market leader in loan products - Home Loan, Auto Loan and Personal Loan. The bank has developed a strong footprint in the SME sector, focusing more on productivity and performance in the face of margin pressure. The de-risking of the corporate portfolio provided the much-needed consolidation required for the long-term sustainable business. The launching of corporate-focused branches gave a new window of opportunity to reach out to untapped segments driving synergies and cross-selling.

I am proud to say that we have the required human resources, network and infrastructure to be the best bank in the country. BRAC Bank currently has 181 branches dispersed across the country. We are in the process of opening 10 more branches in order to facilitate greater access to funds. Our distribution channel consists of 448 SME Unit Offices, 469 ATMs and 81 CDMs. With our vast and diverse network, I am convinced we can achieve greater success in the years to come.

Change Management and Challenges

We live in a time of unprecedented change. In the business sector, we are experiencing an exceptional number of challenges as well as opportunities that are both unpredictable and complicated. The advantages we enjoyed yesterday are being continuously replaced by the new trends and innovations of tomorrow. There is no scope for comfort or complacency. We have to continuously evolve and improve in order to stay relevant and strong in the industry. Therefore, we have to constantly work on improving our services and processes to better serve our customers. This approach is already under way at BRAC Bank.

Quality Service and Value for Money

Competition in the financial marketplace is generally over products that are not markedly different. Service quality thus becomes a primary competitive weapon. Furthermore, banks that excel in service quality can have a distinct marketing edge in view of the fact that improved levels of service quality are related to increased cross-selling ratios, higher customer retention, higher revenues and expanded market share. You will be happy to know that we have also taken initiatives to provide excellent customer service through our entire delivery channel during 2016 and have reorganized, revamped and renamed Service Quality as the Customer Experience Division.

Corporate Social Responsibility (CSR)

BRAC Bank prioritizes its CSR programs that aid people and the planet in accordance with its 3P philosophy. As a part of the BRAC family, social work is embedded in the bank's DNA. The bank has contributed to social welfare as a part of its mission to serve the community. BRAC Bank streamlines its CSR programs to help support the people and protect the planet. Consistent with its brand promise - 'unshakable trust' - BRAC Bank supports initiatives that realize the potential of the Bangladeshi people. We are proud to be part of an initiative, 'BRAC Bank-Prothom Alo Adamya Medhabi Trust Scholarships', which assists meritorious students from underprivileged families to pursue a higher education. BRAC Bank and Dhaka University's Department of Biochemistry and Molecular Biology have been organizing a Biochemistry Olympiad annually since 2009 to inspire the young generation to pursue education in pure sciences. In addition, we support UCEP Institute of Science and Technology to facilitate technical education, Bengal Classical Music Festival to promote classical art and culture, and the BRAC Bank - Samakal Literary Awards to support and promote Bangla literature. In a unique initiative, BRAC Bank organizes Daur -the annual fundraising mini-marathon - to stand beside the less advantaged people in our communities. We are partners of The Thalassaemia Hospital, National Heart Foundation Sylhet and the Centre for the Rehabilitation of the Paralyzed. We are also the proud team kit partner of our National Cricket Team.

I am proud to say that we have the required human resources, network and infrastructure to be the best bank in the country. BRAC Bank currently has 181 branches dispersed across the country. We are in the process of opening 10 more branches in order to facilitate greater access to funds. Our distribution channel consists of 448 SME Unit Offices, 469 ATMs and 81 CDMs. With our vast and diverse network, I am convinced we can achieve greater success in the years to come.

Responsibility towards BRAC Bank Team Members

BRAC Bank has always pursued a balanced and comprehensive Human Resources policy. We are committed to building our human capital in order to attain sustainable growth. In line with this, the bank conducted training programs to develop employees' skills, knowledge and competencies. In 2016, 21,202 participants completed 256,129 training hours, indicating an average of 12 training hours per staff member.

Well-being is a vital part of creating a great place to work. We offer a wide range of well-being initiatives and benefits to help maintain our employees' physical health.

Corporate Governance

BRAC bank is fully committed to adopting the best Corporate Governance practices. The objectives of Corporate Governance are to enhance the Stakeholders' value by pursuing ethical practices in business and maintaining a high standard of disclosure and transparency. The bank has adopted best practices and standards of governance which are monitored by various committees of the Board. The Board, the executives and other team members have well-defined roles in achieving the corporate goals and towards enhancing Shareholders' value.

Contribution to the National Exchequer and the Economy

BRAC Bank has always been responsible towards the duties to country laws and regulations. Our contribution to the national exchequer and the economy in 2016 are set out below.

* Advance Income Tax for the year 2016 has been paid BDT 1,302 million to Govt. Exchequer as per Income Tax Ordinance 1984.

Dividend

The bank has a dividend policy that balances the dual objectives of appropriately rewarding shareholders

through dividends and retaining capital in order to maintain a healthy capital adequacy ratio and support future growth. Consistent with this policy, we are delighted to inform you that the Board of Directors recommended a 10% cash dividend and 20% stock dividend to its ordinary shareholders.

Future Outlook

As we continue our journey to become the best bank in Bangladesh, our prime focus will be on expanding business outside the metropolitan areas of Dhaka and Chittagong. Apart from SME and Retail, we will expand our trade business and explore untapped corporate territory.

Appreciation

In conclusion, I am grateful to all the regulatory agencies of the Government, in particular the Bangladesh Bank, Bangladesh Securities and Exchange Commission, the Registrar of Joint Stock Companies and Firms, Dhaka and Chittagong Stock Exchanges, Central Depository Bangladesh Ltd., for all of their continued support. I would also like to take this opportunity to thank the members of the Board of Directors for their valuable guidance and support.

We should also like to put on record our appreciation to each and every customer of the bank for their unwavering trust and support. We congratulate the employees of the bank for another impressive performance in 2016. Our team members have played a critical part in this accomplishment.

I assure you that the Board and management are focused on delivering value to our shareholders and our customers, and are extremely grateful for your patience as we cover new ground. We look forward to continuing to work together on our mission to be best bank in Bangladesh.

Sir Fazle Hasan Abed, KCMG

INTERVIEW OF THE MANAGING DIRECTOR & CEO

INTERVIEW OF THE MANAGING DIRECTOR & CEO

We at BRAC Bank consider values and performance as the two most important parameters in our business and operations. Ethical business practices with full regulatory compliance and proper employee behavior are our first priority. Business performance follows naturally. Governance, compliance, ethics and transparency are the four cornerstones of our banking model.

Selim R. F. Hussain Managing Director & CEO

In a Question and Answer session with Mr. Selim R. F. Hussain, Managing Director and CEO, BRAC Bank Limited, we learnt about his vision for the Bank and how he plans to align the values and mission in accordance with the Board. He put forward his views on the impact that the macro economy has had on the overall financial industry. He also highlighted the 2016 financial performance in this session.

What is the strategic vision of BRAC Bank?

In a single line, BRAC Bank has set its sight on becoming the Best Bank in the country in terms of customer service, business volume, human capital, governance, compliance, ethics and transparency, as well as profitability. We will emphasize on values-based business with strong business ethics.

What is your vision regarding business portfolio?

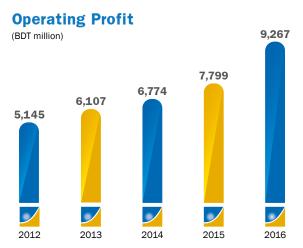

The usual tendency in our banking sector is to prioritize the corporate and commercial segments

as they require less investments in technology and manpower. BRAC Bank has adopted a strategy of rebalancing its portfolio as it is looking forward to increase its focus on Retail and SME banking. In 2016, for both the Retail and SME businesses, our average assets have grown about BDT 15 billion. Our growth has not been equally strong in the corporate segment and that has been a part of our deliberate strategy where we rebalanced our portfolio by moving from one type of customer to another.

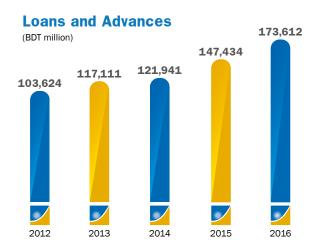

What sets BRAC Bank apart from its competitors in the industry?

We at BRAC Bank consider values and performance as the two most important parameters in our business and operations. Ethical business practices with full regulatory compliance and proper employee behavior is our first priority. Business performance follows naturally. Governance, compliance, ethics and transparency are the four cornerstones of our banking model. BRAC Bank aims to be the bank of customers' choice. We aspire to be the role model

and reference point of the regulators when it comes to compliance, customer care and service quality. We want to be the 'top-of-mind' or 'go-to' bank for all the products and services the industry has to offer. BRAC Bank further aims to become the most employee friendly bank with the best working environment and benefits that will attract the best

talent in the industry. As a proud member of the Global Alliance for Banking on Values (GABV), we always conduct business keeping in mind the 3P Philosophy – People, Planet and Profit.

When we work for People and the Planet, Profit automatically follows. We believe in responsible

financing that cares about the environment. Apart from this, we have a unique Board of Directors who give full freedom to the management to run the bank in line with good corporate governance, maintaining accountability and transparency as per local and international best management practices.

How was the Global economy and Bangladesh economy in 2016?

In 2016, the Global economy was influenced by the Brexit referendum in the United Kingdom in June and the Presidential elections in the United States of America in November. It can be assumed that the US interest rate will increase in the coming years. From the movement in demands and businesses it is clear that the emerging markets will grow in 2017.

The investment scenario in Bangladesh was not vibrant in spite of the declining interest rates in the banking industry. The entrepreneurs were wary about the investment climate. Import of capital machinery was only slightly higher than the previous year. The banking sector was sitting with excess liquidity, however, the economy was benefiting from the government's mega infrastructure projects like Padma Bridge, Payra Seaport, Dhaka-Chittagong & Dhaka-Mymensingh four lane highways and the Dhaka Metro Rail. There were pockets of scope for the private sector banks in these mega projects.

GDP increased by 0.5 percentage, from 6.55% to 7.05%. Industrial sector registered a growth of 9.6%, services 5.8% and the manufacturing sector recorded 10.3% growth compared to the previous year. Growth of credit to the private sector stood at 13.2% against a target set at 15%. Drastic fall in interest rate lead depositors to divert fund from the banking system and invest in the savings instruments making it challenging for the banks operating in Bangladesh.

What was the key highlight of 2016 and especially any risk faced?

2016 was the initiation of restructuring, remodeling and rearranging for BRAC Bank. We launched new branch banking model with all the branches playing the role of distribution centers serving all our valued Retail, SME and Corporate customers. We clearly distinguished the role of the Branch Operations teams and the Branch Sales teams to put focus on Customer Service and Sales. This enabled our businesses to build a growth momentum that clearly

helped us outshine our competitors in the industry. As part of our expansion drive across the country, we are opening Sales Centers, Trade Centers and ROCs in different cities across the nation. By empowering and refurbishing the SME Unit Offices to leverage more on the unique distribution channels we have and we will be further able to tap and capitalize on the unexplored markets of Bangladesh. We are now in a much better position to focus on our long term aspiration - to transform the bank into the number one bank for customer service, trust, and advocacy. We are already seeing the benefits of our service-led strategy in the financial performance of the core bank. We became the market leaders in Retail Loan products - Home Loan, Auto Loan and Personal Loan. Our SME businesses have also grown substantially in the credit market. In spite of de-risking the corporate portfolio, BRAC Bank was successful in optimizing the portfolio mix in order to drive quality growth that contributed to the bank's overall profitability.

We achieved a record growth of 18% in assets portfolio. All the business segments- SME and Retail and Corporate assets have contributed to this record during a year full of milestones with a revenue growth of 14%. Our Fund under management (FUM) increased from BDT 297,655 million to BDT 342,472 million in 2016. Our cost income ratio and Non-Performing Loan (NPL) ratio improved from 48% to 46% and 5.99% to 3.40% respectively in 2016.

What is the underlining meaning of 'Building Momentum?

If there's anything that's true in business, it's change and change denotes that each component of a business is either improving or deteriorating. BRAC Bank Limited commenced its renewed journey in November 2015 with the mission to become the best bank in Bangladesh. The simplification of the processes, talented recruits, enhanced benefits, training to employees and investments in technological advancements all collectively resulted in an overwhelming business growth with improved customer services. In the third quarter of 2016, the bank recorded a staggering net profit growth of more than 80% over the same period last year. The bank recast its branch banking model with the introduction of Corporate Branches to provide tailormade services to big corporate customers. The bank also focused on the Emerging and Middle market business to expand big-ticket business loans outside

26

Dhaka and Chittagong vicinity. With a network of 181 Branches, 469 ATMs, 448 SME Unit Offices and 229 remittance delivery points, we are well placed to secure greater gains in the future.

The impression that every initiative that we undertook and implemented carried along by a tailwind that increased our efficiency and propelled the bank to an excellent growth made us feel we have created a burst of energy within the organization. We have had an incredible year with all the changes that were made and that reflected on our financial performance. With the new set up we have in place, we believe that the journey to be the best bank in Bangladesh has just started. We built the momentum that we needed and are ready to spread our wings and take off towards the unlimited heights of the sky.

What are the bank's key Unique Selling Points (USPs)?

With the world's largest development organization BRAC as our parent organization, BRAC Bank has the "BRAC" brand attached to its name. Whatever we do, our work has to resonate with the good that our parent organization is known for all over the world. Our ability to give back to the country in terms of the SME Financing as well as our profit being ploughed back to BRAC is another USP. Our wide distribution network and presence throughout the country is a key USP. Our flexibility in the way we operate is yet another USP that we offer. We offer products from large scale corporate loans to the smallest of personal loans while focusing heavily on the Small and Medium Enterprises. Our agility and expertise in scoping out the perfect product for our customer is something that we are proud of.

We work tirelessly to help people realize their potential - be it our customer or our co-worker. We believe in the dreams and aspirations of the people of Bangladesh, and this philosophy encourages us to work as enablers and partners. Our customers trust us.

BRAC Bank is not like any other bank out there. The future of the country and its people is important to us. We strongly understand that whatever we do today will have an impact on the future. Therefore, we act accordingly and responsibly. Majority of BRAC Bank's shares belongs to institutional investors and as a Member of the Global Alliance for Banking on Values, we operate in values based financial

services and for the financial inclusion of people. All this is combined with sound corporate governance over all the activities we are involved in. BRAC Bank has already earned its name in SME financing. With its wide network and diversity with the subsidiary operations like bKash, BRAC Bank has established itself as a unique financial institution in the country.

What do you think about the economic outlook in 2017?

Bangladesh economy is in a promising position in terms of the macroeconomic indicators for 2016. Low interest and low inflationary environments will boost economic growth in 2017 and the economy may break out of its 6% GDP growth trap. The Central bank is likely to continue with the stable exchange rate policy. Export is expected to show a modest growth as well. We are hoping for more political stability in 2017, while the reopening of manpower market will boost remittance income in 2017.

Things, however, may not be as bright for the banking industry. Interest rates are likely go down further. There is intense competition in the industry due to the large number of banks (56 banks) operating in Bangladesh. As a result, spread for the banks is likely to get squeezed further. NPLs still remain a major problem for the banking industry. It is unlikely that

With the world's largest development organization BRAC as our parent organization, BRAC Bank has the "BRAC" brand attached to its name. Whatever we do, our work has to resonate with the good that our parent organization is known for all over the world. Our ability to give back to the country in terms of the SME Financing as well as our profit being ploughed back to BRAC is another USP.

the asset quality situation will change anytime soon. However, an improvement in business confidence is likely to induce credit growth in 2017 and this should relieve some pressure on the banking operations.

What are the strategic focus in the coming years?

2017 will be a year of great significance for BRAC Bank. Major technology investment projects – Core Banking Upgrade, ERP - will go live this year. This will be instrumental to continue our business momentum, reduce turnaround time (TAT) to improve customer service. The new branch banking

model will come into fruition making all branches the distribution points to provide SME, Retail and Corporate Banking solutions. We will take leverage of branch network to generate the business of the Emerging Small and Middle Market and Trade Service. We will continue the ongoing restructuring for the simplification of the processes, reducing turnaround time (TAT) and customer service. We will continue to invest in people development and technology. All of our initiatives will accelerate the Bank's growth,quality of services, area of business, enrich our image and goodwill and help us become the Best Bank in the country.

INTEGRATED REPORT

Integrated Reporting

Integrated reporting is a reporting process where the entity communicates with its stakeholders about value creation by the entity over the period of time. BRAC Bank Annual Report 2016 has been presented as an 'Integrated Report' with the aim of articulating how BRAC Bank Limited, as an organisation, has effectively managed its business to deliver consistent value to its stakeholders. It encompasses the efforts the company has undertaken towards contributing to economic prosperity, environmental sustainability and social well-being for a brighter and more optimistic future.

Scope

BRAC Bank is considering integrated reporting for the first time. As a forward-looking enterprise, in presenting the Integrated Report, we have referred to the guidelines issued by the Institute of Chartered Accountants of Bangladesh (ICAB) in the form of 'Integrated Reporting Checklist', which is in congruence with the integrated reporting framework prototype issued by the International Integrated Reporting Council (IIRC). The detailed report is attached at the end of this book.

To explain the Company's operations and financial performance, financial information has been extracted from the Audited Financial Statements for the financial year ended 2016 with relevant comparative information. The financial statements consistently complying with the requirements of:

- Bangladesh Accounting Standards (BASs) and Bangladesh Financial Reporting Standards (BFRSs),
- Companies Act 1994;
- BRPD and other circulars
- Securities and Exchange Rules 1987;
- Income Tax Ordinance 1984;
- Relevant rules & regulations of Bangladesh Bank (The Central Bank);
- And other applicable laws and regulations of the land.

The disclosure of the non-financial information has been extracted from the internally-maintained records reported for the statement of financial position, unless otherwise stated that it has been extracted from a reliable source.

To report our corporate governance practices, we have drawn reference from the revised Corporate Governance Guidelines (CGG) issued by Bangladesh Securities and Exchange Commission (BSEC).

The scope of our Annual Report comprises of activities that have been carried out within the geographical boundaries of Bangladesh and places where we have got subsidiaries.

External Assurance

The company has obtained external assurance on the following reports in the reporting period under consideration:

SI. No.	Description of Report	External Assurance
1	Audit Report on Financial Statements	A Qasem & Co., a member firm of Ernst & Young Global Limited
2	Corporate Governance Compliance Certificate	Hussain Farhad & Co., a member firm of ASNAF Group
3	Audit Report on Provident Fund	Hoda Vasi Chowdhury & Co.
4	Audit Report on Gratuity fund	Hoda Vasi Chowdhury & Co.
5	Eligibility Compliance of BRAC Bank Limited for participating in the Investment Promotion and Financing Facilities (IPFF) project	A Qasem & Co., a member firm of Ernst & Young Global Limited
6	Cyber Security Assessment	KPMG Rahman Rahman Huq and A Qasem & Co. (EY)
7	ISO 27001; 2013 Certification	TNV, UK

Availability of the Annual Report

The hard copy of the Annual Report is sent to all the shareholders, prior to holding the Annual General Meeting, giving due period of notice. Separately, for the benefit of all stakeholders, our report has been made available in the website https://www.bracbank.com/.

Responsibility over the Integrity of the Integrated Report

I acknowledge the responsibility to ensure the integrity of the disclosure contained in the Integrated Report presented herewith which comprises the discussion and analysis, disclosures pertaining to stewardship, which should be read in conjunction with the audited financial statements. In the opinion, the integrated report, incorporated in this annual report has been prepared in accordance with the practiced integrated reporting framework and addresses the material matter pertaining to the long term sustainability of the group and present fairly the integrated performance of BRAC Bank Limited and the impacts thereof.

Selim R. F. Hussain Managing Director & CEO

34 BRAC BANK LIMITED

BRAC BANK PANORAMA

In 2001, BRAC Bank began its journey unlike any other conventional bank. The visionary founder of the bank realized that the previously neglected Small and Medium Enterprises (SME) sector plays a significant role in generating growth and creating employment in the country. Over the previous decades, traditional Banks were reluctant to invest in this sector. At a time when it was almost impossible for the SME entrepreneurs to get financing from the banking sector in Bangladesh, BRAC Bank stepped forward to help these unbanked SME entrepreneurs and continues to provide financial support to them.

BRAC Bank is a performance driven organization, where its Values founded at the core of every activity. It is the sole member of Global Alliance for Banking on Values (GABV) from Bangladesh. The Global Alliance comprises 27 financial institutions operating in countries across Asia, Africa, Australia, Latin America, North America and Europe; serving 20 million customers; holding up to USD 100 billion of combined assets under management; and powered by a network of 30,000 co-workers.

BRAC Bank shares the 3P Philosophy – People, Planet & Profit with other partners of GABV. We believe that we have responsibility towards the people we work with and the places we operate in. As a mission-driven bank, we choose to work for the welfare of our people and society.

Today, the bank has grown into a dominant player in the industry with 181 branches, 14 Premium Banking Lounges, 469 ATMs, 81 CDMs, 448 SME Unit Offices all across the country. With a team of over 6,000 employees, BRAC Bank caters to more than 1,500,000 customers through its diversified range of SME, Retail and Wholesale Banking solutions. Following are the Solo Key Financial Performance:

Over the last decade, BRAC Bank has emerged as the market leader in SME business. However, over recent times, the focus has increased on Retail and Corporate businesses to cater to the full set of banking needs of potential markets as well as to diversify the portfolio. Having laid this strong foundation and started building the momentum relying on the trust and confidence of more than 1.5 million customers, your bank - BRAC Bank -is speeding ahead to become The Best Bank in the country in the coming years.

COMPANY PHILOSOPHY

FOCUS ON PEOPLE:

We are dedicated to the people of Bangladesh because we believe in the faith and hope of 160 million.

BRAC Bank Ltd. has long been a catalyst for the SME development in Bangladesh. Since its inception, BRAC Bank Ltd. has disbursed around BDT 365,750 Million across the country. It has played a pivotal role in the development of the SME sector by creating a unique model of collateral free SME lending, which has enabled the SME entrepreneurs (the missing middle) get easy access to finance. Furthermore, with its wide distribution network, BRAC Bank Ltd. reached greater population at the distant corners of Bangladesh.

FOCUS ON PLANET:

As a major player in the financial market, BRAC Bank influences communities, people and the environment – directly and indirectly through its customers, suppliers and employees.

BRAC Bank cares for the planet and as a founding member of Global Alliance for Banking on Values (GABV), it has ensures that the enterprises receiving SME loans from the bank meets common environmental standards.

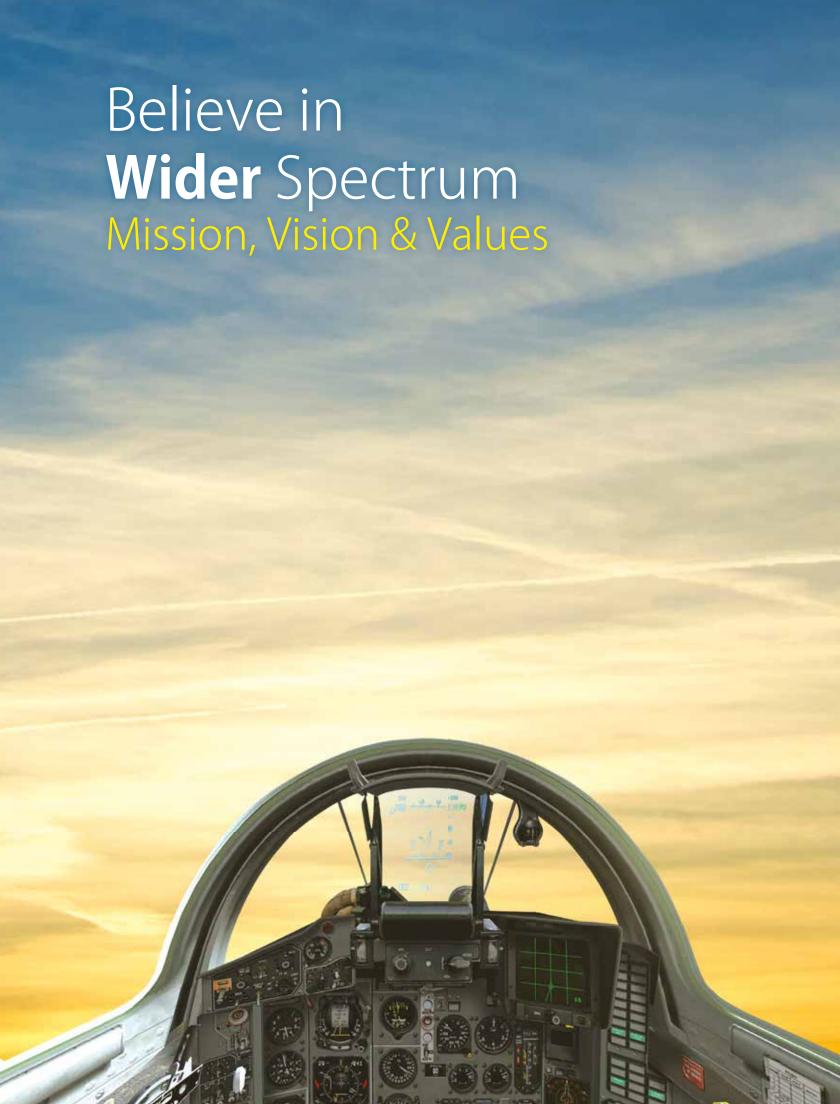

BRAC Bank Limited in partnership with renowned international organizations and local banks have initiated a capacity building program for Bangladeshi bankers. The aim of the Program is to support commercial banks / bankers in Bangladesh to build their knowledge and capacities to address Environmental and Social (E&S) risks and opportunities and identify innovative and bankable green opportunities.

FOCUS ON PROFIT:

BRAC Bank believes that if banks look at the nature of the projects they support, they can become drivers of sustainable progress. As a values-based bank, our profits are generated by investing money with the intention that it serves the communities we work in.

MISSION, VISION & VALUES

Corporate Vision

Building a profitable and socially responsible financial institution focused on market and business with growth potential, thereby assisting BRAC and its stakeholders build a "just, enlightened, healthy, democratic and poverty free Bangladesh".

Corporate Mission

Core Values and Ethics

An institution's Code of Ethics must reflect the organization's policies, controls and processes. BRAC Bank's code of ethics comes from its mother concern BRAC, the largest NGO in the world. Since inception, BRAC Bank has put an enormous effort to build an ethical environment that is practiced within the organization on its 7 core values – CRYSTAL:

- C stands for being Creative that focuses on individuals coming up with innovative ideas at work
- R stands for being Reliable that emphasizes on individuals being worthy of reliance at work
- Y stands for remaining Youthful that underlines energy and vibrancy among its team members
- S stands for being Strong that highlights on the willingness to move forward and apply conscious choice, willpower, discipline and passion at work
- T stands for being Transparent that shows openness and honesty through clear and direct communication

- A stands for being Accountable that stresses the importance of individuals taking responsibility for the outcomes of their actions
- L stands for being Loyal that calls attention to being compliant and dedicated at work.

There are 3 basic elements that make ethical behavior conducive to BRAC Bank Limited:

- a) Written code of conduct
- b) Equality & safety at workspace
- c) System of confidential reporting

Code of Conduct:

BRAC Bank Limited has a written Code of Conduct for its employees which is available in intranet of the bank. Here are the excerpts ---

HR Mission

To be the preferred employer of choice

All of our activities and decisions must be based on and guided by the CRYSTAL values.

Protection Of Assets

The bank's employees who will be dealing with cash, securities, or other valuables will be bound under a standard form as prescribed by the Board.

It is expected that each employee will keep foremost in his/her mind the need for using every precaution in handling the assets of the Bank and of its customers so that maximum protection is ensured at all times.

Every employee shall as and when required by the bank furnish information as to his/her assets disclosing liquid assets and all other properties, movable and immovable and including share certificates, insurance policies and jewelry.

Personal Responsibilities

- Be role model for ethics
- Protect and enhance the company's assets and reputation
- Understand and comply with laws, regulations and company polices that apply to your job
- Serve the bank with honesty, integrity, sincerity, diligence and with utmost dedication

Work Place Responsibilities

- Treat colleagues with respect and dignity
- Support company's commitment to diversity and equal opportunity employment
- Provide a work environment free from intimidation and harassment
- Do not hold any positions with, or accept business opportunities from, anyone who does business for or competes with the company

- Do not accept any outside employment, honorary or stipendiary, or undertake part-time work or hold any office of profit without the prior permission of the competent authority
- Not to act as agent of any insurance company or accept commission, directly or indirectly, otherwise than as an agent for and on behalf of the Bank
- Not to make any personal representation to any Director of the Board or any outside authority to intervene on his/her behalf in any matter
- Not lend activities in his/her private capacity to borrow money from or place him/herself under any pecuniary obligation to a customer, broker, money lender, employee of the bank, candidate for employment in the bank, or any firm or person having or likely to have dealings with the bank
- Comply with the company's travel and expense policy
- Not pressure employees to contribute to or support political candidates or causes
- Invest money in the business of the bank's clients
- Protect company property
- Retain key and classified corporate documents

Market-Place Responsibilities

- Safeguard the privacy, confidentiality and security of customer data
- Protect confidential information and trade secrets from others
- Protect company trademarks, copyrights and patents
- Not buy or sell company securities when you posses material non public information
- Make only factual and truthful statements about the company's products
- Not communicate directly or indirectly to press, public or to any other agencies any information or document which will come to his/her knowledge and possession either in the ordinary course of his/her official duty or other wise unless directed

42 BRAC BANK LIMITED

- Not participate in any activities which may undermine the prestige or image of the bank or set up/join any organization which is not permitted

Diversity, Equal Employment Opportunity and Freedom from Harassment

As a Bank, we are committed to equal opportunity, unbiased treatment of all individuals based on job related qualifications and without regard to gender, age, national origin, religion, creed, marital status, disability, veteran status or any other basis not prohibited by law.

The bank's policy is to provide a work environment that is free from intimidation or harassment. Such harassment by co-workers, supervisors or outsiders is prohibited. Harassment includes behavior, whether in person or by other means, such as by e-mail, remarks of sexual nature sexist or racist comments, religious slurs and ethnic jokes, if such behaviors interfere with an employee's work performance or creates an intimidating hostile or offensive work environment.

Diversity in the workplace means having employees from a wide range of backgrounds. BRAC Bank ensures equal employment opportunity and anti-discrimination in the workplace and have employees of different ages, gender, ethnicity, physical ability, religious belief, work experience, and educational background. BRAC Bank also ensures equal opportunity for and believes it to be a useful way to promote diversity within the workplace. BRAC Bank Ltd. has developed an extensive Code of Conduct based on ethics and business processes in a written format which is approved by the Chairman of the Board.

COMPANY PROFILE

BRAC Bank is a performance driven organization, where its values lie at the core of every activity. It is the sole member of Global Alliance for Banking on Values (GABV) from Bangladesh.

Bank's Profile:

BRAC Bank Limited began with a vision to take banking solutions to the mass, informal suburban entrepreneurial initiatives. More than half of BRAC Bank's lending is for the small and medium enterprises – popularly known as SMEs.

In 2001 BRAC Bank began its journey unlike any other conventional bank. The visionaries of the bank realized that the previously neglected Small and Medium Enterprises (SME) sector played a significant role in generating growth and creating employment in the country. Over the previous decades, traditional banks were reluctant to invest in this sector. At a time when it was almost impossible for the SME entrepreneurs to receive financing from the banking sector in Bangladesh, BRAC Bank stepped forward to help these unbanked SME entrepreneurs and continues to provide financial support to them to this day.

BRAC Bank is a performance driven organization, where its values lie at the core of every activity. It is the sole member of Global Alliance for Banking on Values (GABV) from Bangladesh. The Global Alliance comprises of 40 financial institutions operating in countries across Asia, Africa, Australia, Latin America, North America and Europe; serving 20 million customers; holding up to USD 100 billion of combined assets under management; and powered by a network of 30,000 co-workers.

BRAC Bank shares the 3P Philosophy - People, Planet and Profit with the other partners of GABV. We believe

that we have a responsibility towards the people we work with and the places we operate in. As a mission-driven bank, we prefer to work for the welfare of our people and society.

Today, the bank has grown into a dominant player in the industry with 181 branches, 14 Premium Banking Lounges, 469 ATMs, 81 CDMs, 448 SME Unit Offices all across the country. BRAC Bank caters to SME, Retail and Wholesale Banking solutions.

Over the years, BRAC Bank has emerged as the market leader in SME business. Since its inception, it disbursed more than BDT 350,000 million to the SME borrowers all across the country and thus played a pivotal role in overall socio economic development. However, over recent times, the focus has increased on Retail and Corporate businesses as well to cater to the full set of the banking needs of potential markets as well as to diversify the portfolio. Having laid this strong foundation on the trust and confidence of more than 1.5 million customers, BRAC Bank is speeding ahead to become The Best Bank in the country in the coming years.

BRAC Bank Limited's subsidiary bKash has become a household name in mobile banking industry. With its presence in each and every village of the country, bKash now serves more than 25 million customers with about 100,000 agents all over the country.

BRAC bank is now ISO 27001:2013 Certified. We are the 1st local bank with this certification and a pioneer in the financial sector with this achievement having fulfilled

the regulatory mandate. ISO 27001 is the international standard for Information Security Management and formally specifies management system that is intended to bring information security under explicit management control. Accredited certification to ISO 27001 demonstrates to existing and potential customers that our bank has a defined focus on the best-practice information security processes. ISO 27001 is invaluable for monitoring, reviewing, maintaining and improving

information security management system and will give stakeholders greater confidence in the way they interact with our business.

We are committed to establish the best cyber security practices in line with our organizational goals and to continuously improve to protect valuable business information asset.

Information about the bank:

Network:

Businesses of the bank are broadly segmented into three divisions: Corporate, Retail and SME Banking.

Corporate Banking's 3 wings in Dhaka are clustered as the Large Corporate Units 1, 2 and 3. These units cover the large corporate houses and business conglomerates. A similar unit also operates from Chittagong.

- A new wing called Local Corporate has been added within the Corporate Banking umbrella to cater to the medium segment clients. Earlier this wing was under the SME Banking Division.
- 9 Branches have been selected as Corporate Branches to source and serve clients who were outside the reach of the centralized Corporate Banking team.
- A transaction banking team has been formed in order to facilitate trade related and other transactions of customers.
- A Green Financing unit equipped with personnel with the technical know-how has been formed in line with our strategy for environmental conservation.

Retail Banking customers are served through a network of 181 branches, 14 Premium Banking Lounges, 469 ATMs and 81 CDMs. The bank has its presence in major cities/towns in the country including Dhaka, Chittagong, Sylhet, Khulna, Barisal, Rajshahi, Rangpur, Comilla, Mymensingh and in most of the districts.

SME Banking customers are served through 448 SME Unit Offices countrywide located across the country.

50 BRAC BANK LIMITED

ir Fazle Hasan Abed is the Founder Chairman of BRAC Bank Limited and the Founder and Chairperson of BRAC, the largest NGO in the world ranked first by Geneva-based 'NGO Advisor' in 2016 in terms of innovation, impact and governance. Sir Abed rejoined the Board of BRAC Bank Limited as the Chairman in March 2013. Established in 1972, BRAC's primary objectives are alleviating poverty and empowering the poor. It operates across eleven countries in Africa and Asia.

During his work with micro-credit financing for the poor, Sir Abed became aware that there was a substantial amount of small entrepreneur class, the "missing middle", with no access to any institutional financing. This realization led him to establish a full-service commercial bank –BRAC Bank Limited – with a view to focusing attention to the financing of Small and Medium Enterprises (SME).

Sir Abed has received numerous national and international awards for his achievements in leading BRAC, including the Ramon Magsaysay Award for Community Leadership (1980), Inter Action Humanitarian Award (1998), Olof Palme Award (2001), Schwab Foundation Social Entrepreneurship Award (2003), Gleitsman Foundation International Activist Award (2003), UNDP Mahbub ul Haq Award for Outstanding Contribution in Human Development (2004), Gates Award for Global Health (2004), Palli Karma Shahayak Foundation (PKSF) Award for Lifetime Achievement in Social Development and Poverty

Alleviation (2007), Henry R. Kravis Prize in Leadership (2007), Inaugural Clinton Global Citizen Award (2007), David Rockefeller Bridging Leadership Award (2008), Entrepreneur for the World Award (2009), Inaugural WISE Prize for Education (2011), CEU Open Society Prize (2013), Leo Tolstoy International Gold Medal (2014), Spanish Order of Civil Merit (2014), Trust Women Hero Award (2014), World Food Prize (2015) and Thomas Francis, Jr. Medal in Global Public Health (2016).

In 2009, he was appointed Knight Commander of the Most Distinguished Order of St. Michael and St. George by the British Crown in recognition of his services to reducing poverty in Bangladesh and internationally.

Sir Abed is recognized by Ashoka as one of the "global greats" and is a founding member of its prestigious Global Academy for Social Entrepreneurship. In 2010, Sir Fazle was appointed by UN Secretary General Ban-Ki-moon to the Eminent Persons Group for the Least Developed Countries.

Sir Abed has received many honorary degrees, including from Yale University (2007), Columbia University (2008), the University of Oxford (2009) and Princeton University (2014).

Sir Abed was born in Bangladesh in 1936. He completed his secondary education from Dhaka College, after which he left home to study Naval Architecture at the University of Glasgow. Sir Abed later joined the Chartered Institute of Management Accountants in London, completing his professional education in 1962.

52 BRAC BANK LIMITED

hib Narayan Kairy was re-appointed as a Nominated Director of BRAC to the Board of Directors of BRAC Bank Limited in April 2014. He is also serving as a member of the Board Audit Committee of the Bank.

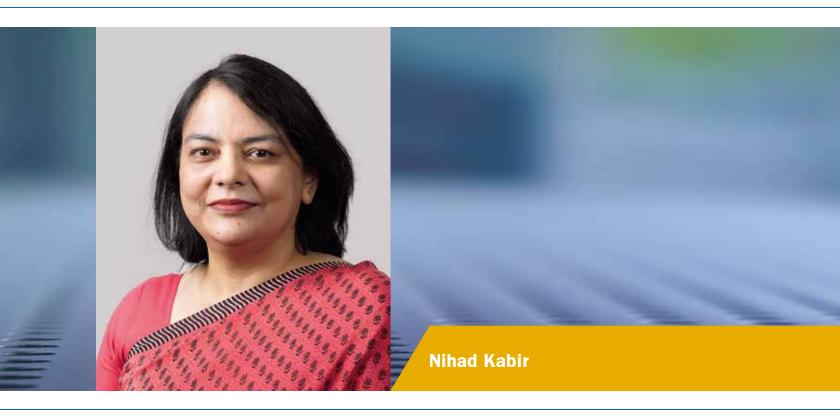

Mr. Kairy is the Chief Financial Officer of BRAC and BRAC International. He is also a member of the Executive Management Committee, the organization's management decision-making committee. After joining BRAC in April 1982, he progressed through the roles of chief accountant, finance manager, head of finance, director of finance and accounts, and was appointed to his current position in May 2011.

Mr. Kairy supervises the overall financial control and management over the sources and applications of funds.

His responsibilities include ensuring effective financial control, transparency and accuracy of financial data and reporting. Mr. Kairy also oversees the Monitoring, Legal, Compliance, Construction and Maintenance Department.

Besides being the Chief Financial Officer of BRAC & BRAC International, Mr. Kairy is also the Director of BRAC EPL Investments Limited, BRAC EPL Stock Brokerage Limited, BRAC Industries Limited, BRAC Services Limited, BRAC Karnafuli Tea Co. Ltd., BRAC Kaiyachera Tea Co. Ltd., and BRAC Kodala Tea Co. Ltd.

Believe in Inspirational Paradigm Directors' Report

DIRECTORS' REPORT

Our wide-ranging presence across the country, the people we work with and serve and our opportunities to grow as a business are all important to making BRAC Bank the number one bank in Bangladesh. Our strategy aspires to build an ethical and sustainable organization for our customers, employees, shareholders and society.

The Board of Directors of BRAC Bank Limited is pleased to present the annual Directors' Report 2016. This report comprehensively outlines the performance of the bank for the year ended December 31, 2016. The Board of Directors has reviewed the financial statements to ensure effective financial control, transparency and accuracy of financial data and financial reporting of the bank. The report will briefly summarize the global and local economic performance and then present the detailed analysis of the bank's performance for the year 2016.

GLOBAL ECONOMY

Global growth has started to pick up and expected to attain 3.1 percent in 2016. The growth projection is even stronger for 2017 and 2018 at 3.4 percent and 3.6 percent respectively. The forecast reflects a more divergent outlook for advanced economies following the June U.K. vote in favour of leaving the European Union (Brexit), the US election in November and strong recovery in the United States. These developments have put divergent monetary policy and global interest rates, as US is expected to increase interest rate while most other developed economies is now expected to remain accommodative for longer. Although the market reaction to the Brexit shock was reassuringly orderly, the ultimate

impact remains very unclear, as the fate of institutional and trade arrangements between the United Kingdom and the European Union is uncertain.

Financial market sentiment toward emerging market economies has improved with expectations of lower interest rates in advanced economies, reduced concern about China's near-term prospects following policy support to growth, and some firming of commodity prices. But prospects differ sharply across countries and regions, with emerging Asia in general and India in particular showing robust growth and Sub-Saharan Africa experiencing a sharp slowdown. In advanced economies, a subdued outlook subject to sizable uncertainty and downside risks may fuel further political discontent, with an integration policy platforms gaining more traction.

Several emerging market and developing economies still face daunting policy challenges in adjusting to weaker commodity prices. These worrisome prospects make the need for a broad-based policy response to raise growth and manage vulnerabilities more urgent than ever. Conservative candidate becoming US president has put world economy into further uncertainty due to his proposed unconventional and unprecedented proposed policy.

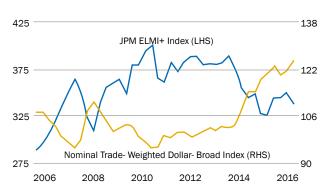

Emerging Markets

2016 proved to be a less uncertain year for most emerging economies than had seemed likely. Expectations of a U.S. tightening cycle in 2016 dissipated as the year progressed—the first rate hike was ultimately postponed until the end of the year—and the green back rally stalled. This prompted many emerging market central banks to cut interest rates, boosting disposable income. Moreover, investors went back on the hunt for higher-yielding assets, capital flowed back into emerging markets and bond issuance likely reached a record high in 2016.

Nonetheless, market participants' bigger appetite for emerging-market debt was partly due to the absence of returns in developed economies, rather than a vote of confidence for riskier assets. Emerging markets GDP growth, which has fallen in four of the past five years, stabilized in 2016 and is expected to rebound nicely into 2017. Current accounts, which hit their lowest point in 2013, have posted three consecutive years of improvement. In 2016, a bottoming of commodity prices provided crucial fundamental support to emerging markets assets, which were additionally boosted by a continued global search for yield. For emerging markets debt in particular, political and economic changes across the emerging world was an important catalyst for returns. From India and Indonesia (2014) to Argentina (2015) and Brazil, Peru, and Ghana (2016), traditionally fiscal conservative, pro-business parties have won the executive branch, prompting substantial foreign inflows of capital and boosting local business confidence.

Emerging Markets' Currencies Are More Resilient Than Before

As of 31 December 2016

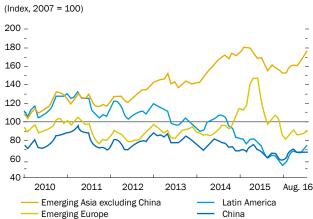

Source: IMF World Economic Outlook, October 2016

Emerging Markets' Currencies Are More Resilient Than Before

Equity prices have generally firmed up in recent months, reflecting improvements in the operating environment for corporates in emerging market economies with the pickup in commodity prices and lower borrowing costs. Vulnerabilities, however, continue to accumulate in some cases as the credit-to-GDP ratio remains on an upward path.

Equity Markets

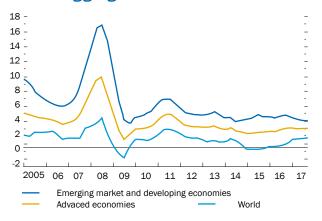

Source: IMF World Economic Outlook, October 2016

Global Inflation

Headline inflation inched up in advanced economies as the drag from lower commodity prices faded. In emerging market and developing economies, headline inflation has held steady as currencies remained broadly stable, or appreciated in some cases.

Global Aggregates: Headline Inflation

Source: IMF World Economic Outlook, October 2016

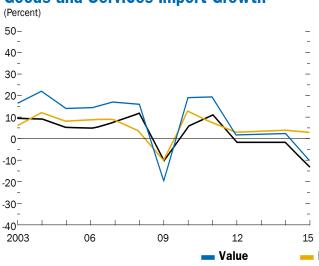

Global Trade

Global trade growth has decelerated significantly in recent years. After its sharp collapse and even sharper rebound in the aftermath of the global financial crisis, the volume of world trade in goods and services has grown by just over 3 percent a year since 2012, less than half the average rate of expansion during the previous three decades. The slowdown in trade growth is remarkable, especially when set against the historical relationship between growth in trade and global economic activity.

Between 1985 and 2007, real world trade grew on average twice as fast as global GDP, whereas over the past four years, it has barely kept pace. The decline in real trade growth since 2012 has been remarkable, especially when set against the historical relationship between growth in trade and global economic activity.

Goods and Services Import Growth

Goods and Services Import Growth

Brexit

The Brexit vote was a genuine shock for markets, given investors had been confident that the UK would stay in the EU. In the event, sterling dropped to a 31-year low, in line with a large number of forecasts. The options market continued to be heavily bearish towards sterling post-Brexit.

74

US Election

Donald Trump won the US election on the 8th November 2016 and became the 45th US President. Wall Street reacted positively to the election, despite his victory sparking panic on global markets earlier in the day real trade growth is widespread, both in absolute terms and relative to GDP growth. The trade growth may further dampen due to the new policy to be taken by the newly elected US President.

- The Dow Jones up 1.4% to 18,590 points.
- The S&P 500 up 1.1% to 21,163.
- On the currency markets, the dollar hit its highest in nearly four months against the Japanese yen. It had fallen 4% in overnight trading. The Mexican peso plunged 13%, before stabilizing at 8.7% at 19.91 pesos to the dollar.
- US 10-year Treasury yield rose above 2% the highest level since January.

Global Economic Outlook

- Economic activity is projected to pick up pace in 2017 and 2018, especially in emerging market and developing economies after a lacklustre out turn in 2016.
- As China, Brazil and India are expecting growth in future, so we can also hope to keep pace as a growing developing country.
- Specifically, global activity could accelerate more strongly if policy stimulus turns out to be larger than currently projected in the United States or China.

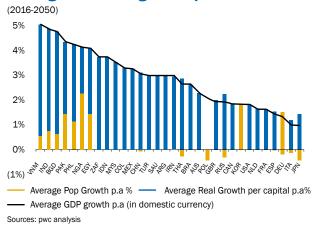

BANGLADESH ECONOMY

Bangladesh is one of the fastest growing economy right now. By 2050, we will be the third fastest growing economy and are projected to become the 23rd biggest economy in the world from its current position, 31 as per the latest research of Price water house Coopers (PwC).

As per the analysis, Bangladesh has the potential to be among the fastest growing economies in the world between 2016 and 2050 with an average annual growth of 5% approximately. We will benefit from our youthful and growing working-age populations, boosting domestic demand and output. But as the above figure shows, growth in the emerging countries like Bangladesh is driven even

more by real GDP per capita growth, suggesting capital investment and technological progress to deliver real labour productivity, enhancing benefits. To realize this potential, growth needs to be supported by sustainable economic reforms, strengthening macroeconomic fundamentals, institutions and, crucially, mass education to ensure our rapidly growing working populations contribute productively to long term economic growth.

Average real GDP growth p.a.

Sovereign Ratings

Bangladesh achieved Ba3 (Moody's sovereign Rating) and BB- (Fitch Long-Term Foreign- and Local-Currency Issuer Default Ratings) with stable outlook. Bangladesh's ratings balance strong foreign-currency earnings and high and stable real GDP growth against weak structural indicators, significant political risk and weak banking-sector health. Bangladesh's real GDP growth is high at a five-year average of 6.5% compared with the 'BB' category median of 3.5%. Bangladesh's external finances are supported by comfortable and gradually rising foreign-exchange reserves, amounting to USD 32.1bn in December 2016 (7.9 months of current external payments, compared with 4.4 months for peers in the 'BB' category).

GDP: SECTORAL PERFORMANCE

Agriculture Sector

According to the Directorate of Agriculture Extension (DAE), the target for total cereal food grain production for FY17 in the country has been set at 39.23 million metric tons (mmt) which remains almost same as the last year's actual production, while the target for acreage has been set at 12.28 million hectares, 0.77 percent higher than the previous year. After a year of good harvest, the target for the total rice production for FY17, which constitutes the lion's share of the total cereal crop, has been set

at 35.08 mm, among which production target for *aush*, *aman*, and *boro* are 2.48 mmt, 13.54 mmt and 19.06 mmt respectively which are almost the same as previous year's actual production. Among the non-rice cereal crops, wheat production target has been set at 1.35 mmt for FY17, slightly (0.52 percent) lower than the previous year's production, while the target for maize production has been set at 2.76 mmt.

Industry Sector

During Q1FY17, the industry sector activities seemed to register a satisfactory growth, benefited by the improvement in electricity supply, pragmatic fiscal policy and accommodative monetary policy. During July-August 2016 electricity production posted a robust growth of 24.35 percent (year-on-year) and large and medium scale manufacturing industry registered a noticeable growth of 9.53 percent during the period under review. The growth of large and medium scale manufacturing industry stemmed largely from the high growth of the production of non-metallic mineral products (23.93 percent), rubber and plastic products (16.70 percent), pharmaceuticals (13.68 percent), leather products (22.98 percent), textile (12.56 percent) and wearing apparel (8.92 percent) among others. On the other hand, at the same time, food products, basic metal and transport equipment registered negative growth.

Service Sector

A number of proxy indicators (such as trade financing, bank advances to transport and communication sector, cargo handled through Chittagong port, etc.) depicted a picture of strong growth in the service sector activities during Q1FY17. Data on bank advances shows that credit (outstanding) to trade and commerce, and transport and communication sector rose by 15.80 percent and 7.30 percent respectively during Q1FY17 compared to the level of Q1FY16. Similarly, cargo handled through Chittagong port picked up by 7.89 percent in Q1FY17 compared to the same period of the previous fiscal year.

FISCAL SECTOR

Expenditure

During Q1FY17, a preliminary estimate of total expenditure was BTD 575.2 billion (16.9 percent of annual target), which was 10.2 percent higher, in nominal terms, than that of Q1FY16. The current expenditure increased by 4.7 percent to BTD 412.3 billion whereas ADP expenditure grew substantially by 58.5 percent to BTD 107.9 billion (9.7 percent of annual ADP target) in Q1FY17 compared to that of Q1FY16.

Revenue Collection

In the first quarter of FY17, revenue collection of NBR increased by 17.1 percent to BDT 364.4 billion from BDT 311.2 billion in Q1FY16 which was 17.9 percent of the annual target for FY17. Revenue collection from income tax, value added tax (VAT), custom duties, and other source were increased by 10.2 percent, 14.8 percent, 17.5 percent, and 34.2 percent respectively in Q1FY17 compared to that of Q1FY16.

EXTERNAL SECTOR

Export

According to the Export Promotion Bureau (EPB) data, exports earnings increased by 4.1 percent to USD 8.08 billion in Q1FY17 from USD 7.76 billion in Q1FY16 (on adjusted fob basis export earnings increased by 3.5 percent to USD 7.91 billion in Q1FY17 from USD 7.64 billion in Q1FY16). Exports of RMG grew by 3.52 percent to USD 6.67 billion during the quarter under review, as export to European countries increased by 10.9 percent in Q1FY17. Among other major export items, tea increased by 20.0 percent and frozen shrimps and fish increased by 10.9 percent while earnings from export of raw jute decreased by 5.5 percent.

Import

Import payments increased by 17.3 percent to USD 11.11 billion in Q1FY17 from USD 9.47 billion in Q1FY16 (on adjusted fob basis). Import of food-grains increased from USD 176.8 million in Q1FY16 to USD 268.6 million in Q1FY17. Imports of consumer and intermediate goods increased by 6.6 percent to USD 5.78 billion during Q1FY17 from USD 5.43 billion in Q1FY16. In Q1FY17, the opening of import LCs increased by 10.16 percent to USD 10.77 billion, of which LCs for petroleum and petroleum products (3.37 percent), consumer goods (23.62 percent), intermediate goods (12.32 percent), machinery for miscellaneous industries (17.68 percent), and capital machinery (18.44 percent) increased, while LCs for industrial raw materials (- 3.63 percent) decreased.

Remittance

The inflow of workers' remittances decreased to USD 3.25 billion in Q1FY17 compared to USD 3.93 billion in Q1FY16. During Q1FY17, remittance decreased in most of the sources except Qatar, Germany and Japan. On the other hand, overseas employment for Bangladeshi workers increased in Q1FY17. A total of 173,380 Bangladeshi people migrated abroad compared with 132,238 people migrated in the corresponding period

of FY16. During Q1FY17, remittance from the Gulf region decreased by 16.9 percent to USD 1.85 billion, attributable mainly due to a large decline in remittances from Saudi Arabia (-23.1 percent), UAE (-21.2 percent) and Bahrain (-41.3 percent) compared to Q1FY16.

Remittance from the Euro region during Q1FY17 decreased by 26.4 percent and from the Asia Pacific region decreased by 7.9 percent. Remittance from the rest of the world (including the USA) also decreased by 21 percent in Q1FY17 over Q1FY16 (Table IV.4).

Foreign Direct Investment (FDI)

Gross FDI inflow during 2016 reached USD 1,793.32 million and the size of disinvestment during the period reached 489.62 million. Net FDI inflows decreased by 23.08% compared to the same period in 2015. Total inflow's 58.93% were as Equity Capital, 27.18% as Reinvested Earnings and 13.89% as Intra Company Loans. Major portion of FDI flows came from Singapore (USD 225.96 million), United Kingdom (USD 160.94 million), USA (USD 139.87 million), South Korea (USD 128.94 million), Norway (USD 122.25 million), Hong Kong (USD 65.02 million), Netherlands (USD 53.50 million), and India (USD 52.79 million).

Balance Of Payment

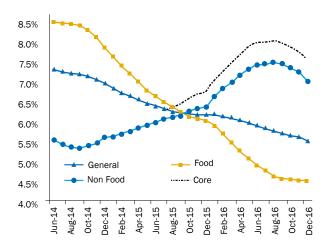

The current account balance (CAB) recorded a deficit of USD 504 million in Q1FY17 compared with a surplus of USD 1,663 million in the same period of the preceding fiscal year. The deficit in the CAB in Q1FY17 was due to the large deficit in the trade balance and negative growth of remittance inflow. The financial account recorded a surplus of USD 2,045 million in Q1FY17 compared to a surplus of USD 377 million in Q1FY16 and the capital account also recorded a surplus of USD 60 million compared to a surplus of USD 88 million in Q1FY16. The overall balance of payments (BOP) recorded a surplus of USD 1.79 billion in Q1FY17, lower than the surplus of USD 1.97 billion recorded in Q1FY16. The foreign exchanges reserve stood at USD 31.39 billion at the end of September 2016.

Inflation Rate

CPI inflation was 5.03 percent (point-to-point) in December 2016, pulling down annual average to 5.5 percent. Inflation dynamics in Bangladesh significantly benefited from the declining food prices as the weight of food items in the CPI basket is pretty high (over 56 percent). Non-food inflation has eased to 4.5 percent (point-to-point) in December, down from 7.1 percent a year ago, reflecting favourable domestic production and global commodity prices. Average core inflation

(non-food, non-fuel), a traditional measure of underlying long-term inflation, has also nosed down but remains elevated at around 7.6 percent in December, indicating inflation can pick up if buffeted by adverse shocks.

The global commodity outlook suggests some upward price pressures may emerge from higher import prices. According to the BB's latest inflation expectation survey of December 2016, the one-year-ahead inflation expectation hovers around 6 percent, implying a strong persistence in the way expectations are formed.

Source: Bangladesh Bureau of Statistics, * Twelve Month Moving

Average

Exchange Rate

The weighted average nominal exchange rate remained same at BDT 78.40 per US dollar in September 2016 compared to June 2016, but higher than BDT 77.80 per US dollar in September 2015. The REER based exchange rate increased to BDT 113.10 per USD at the end of September 2016, compare to BDT 108.45 per USD at the end of June 2016. Bangladesh Bank continued its intervention in the domestic foreign exchange market with a net purchase of foreign currencies amounting to USD 1.51 billion during Q1FY17.

Monetary Policy

The movements of money and credit market indicators were loosely followed by the program path set in the monetary policy statement (MPS) for the first half (H1) of FY17. Broad money (M2) growth (13.40 percent) remained below the program path despite a high growth of net foreign asset (21.09 percent) and moderate growth of private sector credit (15.34 percent). Domestic credit growth (11.89 percent) fell short of program rate due to negative growth of public sector credit (-3.27 percent). On the other hand, the growth of reserve money (16.70

percent) was higher than the target path, implying that money multiplier became smaller in Q1FY17 than in Q1FY16.

Money Supply And Credit Growth

Broad money (M2) growth stood at 13.8 percent in November 2016. Private sector credit grew by 15.0 percent in November. Credit to the public sector, however, declined by 1.3 percent in November 2016. The government did not borrow from the banking system to finance the budget deficit (planned bank financing of budget at Taka 389 billion). Instead, it repaid outstanding loans to the tune of Taka 111 billion. Non-bank budget financing shifted from market-based tools (bank loans and government securities) to non-market instruments, e.g., National Savings Certificates (NSCs). During July-November, 2016, net NSC sales, at Taka 203 billion, has already exceeded the full-year target of Taka 196 billion in FY17. Such large scale recourse to non-market borrowing is creating an environment stifling development of bond market, pension funds market and so forth. In order to keep reserve money growth in line with the program path and prudently manage liquidity in money market, during the first half of FY17, Bangladesh Bank mopped up excess liquidity from the banking system through various monetary operations.

Interest Rate

During June-November 2016, the weighted average lending and deposit rates have declined by 45 and 25 basis points to 9.94% and 5.29%, respectively, leading to a narrowing of average spread by 20 basis points to 4.65 percent. The decline in interest rates reflects favourable inflation performance, ample liquidity, and an increase in competition in the banking system.

Although inflation has steadily declined in recent months, considering the fact that core inflation and inflation expectations remain elevated and inflation risks from higher commodity prices are on the upside, Bangladesh Bank's policy rates has been kept unchanged at the current level, with repo rate at 6.75 percent and reverse repo rate at 4.75 percent in the recent MPS.

Call Money Rate

The call money rate decreased to 3.64 percent at the end of September 2016 from 3.70 percent at the end of June 2016. The spread between lending and deposit rates slashed down to 4.76 percent at the end of September 2016 compared to 4.85 percent at the end of June 2016.

Bangladesh Economic Outlook

- Economic activities in 1st half of FY 2016 witnessed a strong expansion in all respects of macro economy especially infrastructural development and investment of government. It is mentionable that GDP growth reached 7% level for the first time in FY 2015-2016.
- Government of the Peoples' Republic of Bangladesh is very optimistic that Bangladesh would be able to reach 8% GDP growth in next two years focusing more concentration to less developed area. This will create huge employment, earnings and market demand which in turn expand the economy with credit demand.
- In spite of rivalry among the banks, there will be a pressure from various corners of demand side to reduce lending rate which will create more competition in money lending.
- If Government can ensure political stability, there might be chance of increasing private sector credit demand in coming years.
- The performance of capital market especially from second quarter FY 2016 demonstrated that investors are confident about their investment performance in capital market. As a result, more money will flow in capital market from money market, this may result increasing deposit rate in money market.
- At the same time, the Government's ambitious vision for 2021 sets strong development targets for Bangladesh that seeks to transform the country's socio economic landscape.

Foreign Exchange Reserve

The foreign exchanges reserve stood at USD 32.10 billion at the end of December 2016. Steady garment exports and remittances from Bangladesh is working overseas, two mainstays for the country of 160 million people, have helped build reserves in recent years.

We strive to create a sustainable future for our customers

Our wide-ranging presence across the country, the people we work with and serve and our opportunities to

grow as a business are all important to making BRAC Bank the number one bank in Bangladesh. Our strategy aspires to build an ethical and sustainable organization for our customers, employees, shareholders and society.

Extensive service within reach...

BRAC Bank Ltd. takes pride in providing more extensive services within reach, with the object of building a trusted and valuable brand, avoiding unnecessary risk and grow confidence among our customers.

Delivering value to customers...

BRAC Bank Ltd. is always concerned in meeting the demands of the customers and develops its products and services to expedite and enhance the overall experience for our customers across all channels.

Creating a sustainable banking unit...

BRAC Bank Ltd. has been successful in applying the sustainability lens to its mission and business designing products with sustainability features and ethical standards at their core.

STRATEGIC HIGHLIGHTS

Balance Sheet Strength

In the midst of a number of disappointing trends in the banking industry of Bangladesh, accompanied by competitive market forces, it is imperative for banks to maintain a strong balance sheet in these uncertain times. BRAC Bank has been successful in implementing the following series of actions in effect during 2016:

- Customer relationship programs have been intensified through relational intelligence and automation
- Extended our reach to include more people in mainstream financial services offering easy accessibility
- Productivity of our cross-selling efforts have been sharply raised
- Focused on providing multiple banking services

Towards Sustainable Growth

Growth has to be obtained in the right way and BRAC Bank has always prioritized to ensure sustainable growth. In order to facilitate this progress, we have:

- Concentrated on specific markets using our strong distribution channels
- Continued to harness technology to fuel growth and efficiency
- Devoted more resources to promoting sustainable growth
- Invested heavily in technology and human resources

FINANCIAL REVIEW

Bangladesh has been beleaguered with more than a few disappointing trends for some time. This has taken a toll on the banking system and resulted in huge losses for the sector. One of the perennial problems is the rise of non-performing loan (NPL). It is observed that the NPL percentage drops down towards the last quarter of each year but begins to climb up afterwards. One of the probable reasons behind this lower NPL towards the end of the year could be restructuring and rescheduling of loans in December of every year. However, due to reemerging of political stability, the banking industry of Bangladesh benefited from the increase in advances and deposits that grew over time as the year progressed. As the banking industry of Bangladesh slowly but surely enters a new phase in its post-crisis journey, banks need to step up with their efforts and act proactively in order to maximize their profitability in the years ahead.

In an effort to become the best values-based banking in the country, BRAC Bank Ltd. took another step forward in creating a powerful channel for citizens' voices in financial inclusion, enabling people to make more active and informed decisions about their financial needs and their choices. While we continue to focus on SME Banking and maintain our leadership position, we have strived for excellence in the emerging business sector as well. Our improvement in earnings is the result of our continuous effort on prudent recovery, credit risk management initiatives and better quality financing base expansion.

Investing in our Future

With evolving customer needs and expectations from the financial system, BRAC Bank has been committed to continuously develop new solutions while upholding a strong, healthy and secure infrastructure. We devoted significant attention to upgrade our core banking system. Technology is the lifeblood of our organization and is a key differentiator in driving future growth in all of our businesses. Our strategic priorities have become more embedded into our technological advancements to assure the delivery of the secure products, platforms

and services to our customers. Data and analytics innovation delivers enhanced insights to uncover new business opportunities and do business in smarter ways to improve our competitive edge. BRAC Bank has intensely turned its attention to recruit the top talents in the industry and focused on training our next generation of leaders across the organization.

The veterans hired by the bank has made remarkable impact on our financial performance during 2016 and going forward, we will carry on strengthening our team to cover key growth sectors and adapt to the changing environment and not be content with previous achievements as we move forward to become the best bank in Bangladesh.

Rearranging the Pieces

Assessing the minimum scale of change required for compliance, BRAC Bank has rearranged its existing structure to grow in a sustainable manner and achieve greater value and efficiency, gradually eliminating non-compliant and non-viable options. Structural changes had implications on our customer interactions and

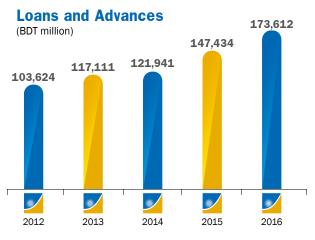

accelerate growth plans. Some of the initiatives that had been taken are summarized below:

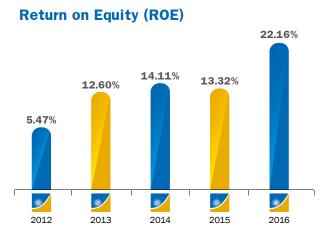

- Implementation of matrix structure to efficiently use the resources through sharing of information that can speed up the decision making process
- Transformation of Branch Banking Management structure to better serve Retail and SME clients
- Outsourced various business functions to cut costs
- Staff rationalization exercise was undertaken to help the bank remain efficient and competitive;
- 'Value destroying' services/products are being identified and discontinued

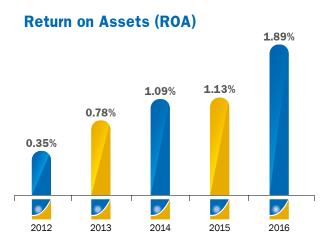

Operating Performance

High resource efficiency through motivating our employees and solid cost management equipped us with the investment capacity necessary to become the best bank in Bangladesh. Paying attention to our stakeholders' expectations has been critical to our success in recent years.

(BDT million) 168,860 134,646 127,892 2012 2013 2014 2015 2016

Financial Performance - Profitability

At the core of our Strategic Plan lies our shared vision of promoting the good of the people of Bangladesh by maintaining monetary and financial stability. The bank's loans and advances that grew by BDT 26,178 million over last year, generated 25% higher net interest income on solo basis and 23% on conso basis for 2016. As the loan processing fee for SME business was lifted from April 2016, the bank experienced a decline in commission and fee income.

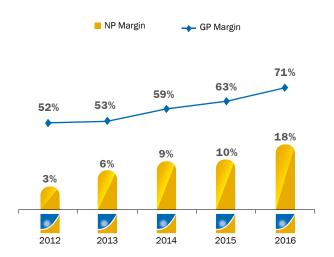

Staff costs increased by 18% during 2016 due to a one-off adjustment for the increased cost of living. BRAC Bank has made significant investments in technological advancement to modernize its infrastructure and deliver banking products and services more conveniently and effectively - thus creating new bases of competition. This prompted the operating cost to rise by 9% in 2016. Loan loss provision also decreased by 25% driven by better quality acquisitions as well as significantly improved collection efforts. After consolidation, net profit before tax increased by 48% which is 55% in solo basis.

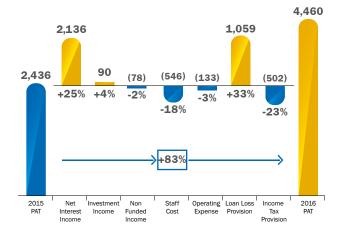

BDT million

Our unique customer-focused banking model concentrates on three critical elements: breaking down product silos, understanding our customers, and enhancing customer's experience.

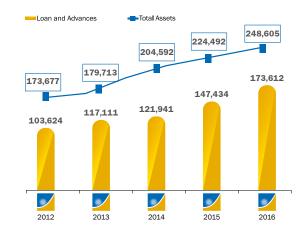

Bangladesh's banking sector has been plagued by poor asset quality, low capital adequacy ratio, and poor risk management that continue to weigh on profitability and pose threats to financial solidity over the short-to-medium term. In spite of an average year for the banking industry, BRAC Bank has been successful in not only growing its loan portfolio but has also been incredibly effective in their collection efforts for the year 2016.

As the year ahead looks promising in light of the recent political stability, improving macro environment and declining interest rates, the bank has strategically made deliberate investments in people, technology and structural changes to build on this year's momentum and ensure BRAC Bank Ltd. to become even a stronger force in the banking industry.

FINANCIAL PERFORMANCE – PORTFOLIO ANALYSIS:

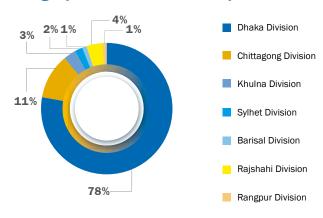

BRAC Bank Ltd. registered a 10.7% growth in their total assets from 2015. Despite a weaker credit demand, the bank was successful in reaching a 17.8% loan growth during the year.

Total Assets/Loans & Advances (BDT million)

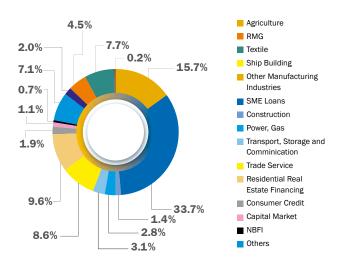

Since its inception, BRAC Bank Ltd. has been largely involved in focusing on the SME financing sector of Bangladesh as far as their loan concentration is concerned. The geographic concentration of credit portfolio is illustrated below:

Geographical Location wise portfolio

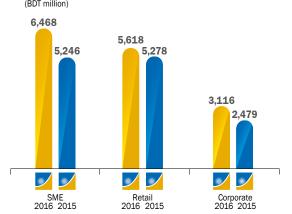

The chart below shows that 34% of BRAC Bank Ltd's loan portfolio is to the SME sector, whereas 16% of it is to the other manufacturing industries.

The bank's investments during the year 2016 were predominantly concentrated in Government securities.

BRAC Bank has been successful in not only growing its loan portfolio but has also been incredibly effective in their collection efforts for the year 2016.

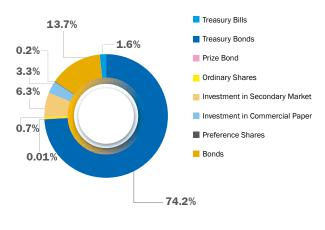

Segment-wise Performance - Total Revenue

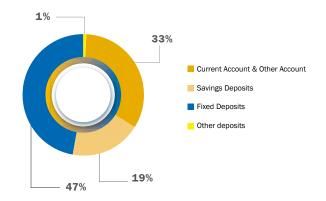

NPL Status of Segments in 2016

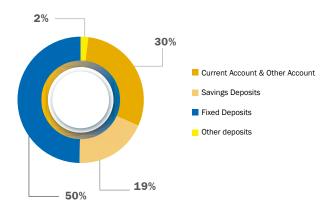

Investment Mix 2016

Deposit Mix 2015

Deposit Mix 2016

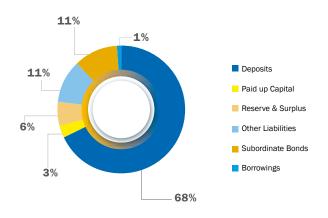

Total liabilities at December 31, 2016 amounted to BDT 227,165 million, increasing by 10% over last year.

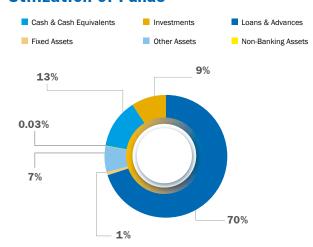

Deposits increased by 12% over last year as well. A lion's share of BRAC Bank's sources of fund comers from its customers' deposit accounts; bulk of which is utilized in loans and advances as can be distinguished from the charts below.

A portion of it is kept in the form of cash and cash equivalents to maintain CRR and SLR ratios.

Sources of Funds

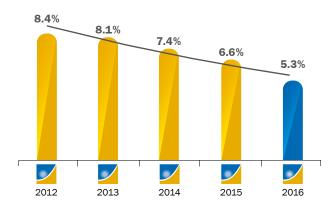

Utilization of Funds

The bank's cost of fund has declined over last year mainly driven by overall reduction in the interest rates in the market as well as efficient management of assets and liabilities.

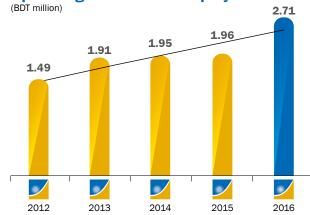

Cost of Fund

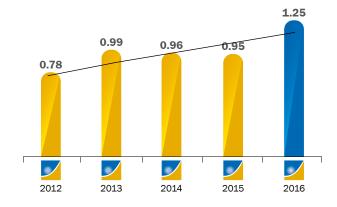

Financial Performance – Efficiency Review

The Bank's operating income per employee increased in 2016 by 38.4% from last year. However, operating cost per employee escalated by 32.4% from 2015.

Operating Income Per Employee

Operating Cost per Employee (BDT million)

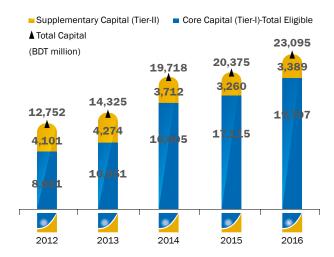

The bank maintained a total capital to Risk-weighted Asset Ratio of 12.26% as opposed to the current regulatory requirement of 10.625%. At the end of 2016, the ratio of core capital and total capital to Risk Weighted Assets (RWA) were 10.46% and 12.26% respectively.

- * Core capital (Tier I) includes paid-up capital, share premium account, statutory reserve and retained earnings.
- ** Supplementary capital (Tier II) includes general provision (on unclassified loans and off balance sheet items), preference share, and subordinated debt and exchange equalization fund.

Total Capital to Risk-weighted Asset Ratio (CRAR)

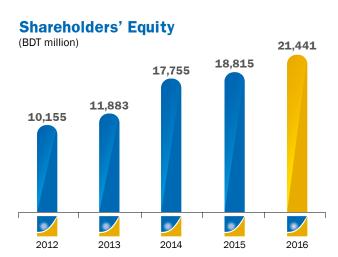

Subsidiary Performance

Our subsidiaries have also performed well during 2016. Mobile banking service provider, bKash has delivered a profit after tax of BDT 387 M, which is 63% more than the previous year, with year on year increase in revenue by 41%. BRAC EPL Stock Brokerage Limited made an operating profit of BDT 86 M, which is BDT 23 M higher

than previous year. IT solutions and service provider BRAC IT Services Limited (biTS) made a Net Profit of BDT 48 M against BDT 66 M loss in 2015. BRAC EPL Investment Limited made a loss of BDT 901 M in 2016 impacted by one-off loss booking for against negative equity portfolio as well as poor stock market. Our Subsidiary and a leading foreign currency remittance company in our country, BRAC Saajan, made a net profit of BDT 3 M this year, whch is lower than 2015 due to adverse exchange rate impact.

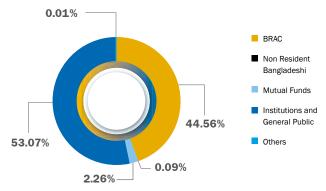

Financial Performance – Shareholders' Value

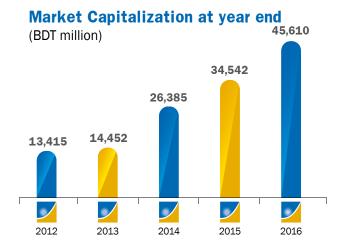

The shareholders' equity has increased by BDT 2,626 M compared to the previous year.

Within the sponsors, BRAC maintained its 44.56% shareholding position.

The shareholding position of the bank as of December 31, 2016 is exhibited below:

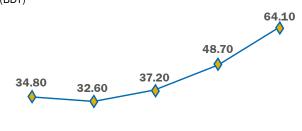

With its effective board, composing of a united team of competent directors, along with quality human capital and state of the art technology, BRAC Bank is always trying to maximize its shareholders' value. The year-end share price of BRAC Bank Ltd. as of 31 December 2016 rose to BDT 64.10 reflecting a 32% year on year growth.

2012	2013	2014	2015	2016

According to the Bangladesh Bank's BRPD Circular No. 06 dated July 05, 2006 and in order to improve the risk management and corporate governance as well as to safeguard the interest of investors, depositors, creditors, Shareholders; the Bank was rated by Credit Rating Agency of Bangladesh Limited (CRAB) for the year ended 31 December 2015. We are pleased to inform that the Credit Rating Agency of Bangladesh Limited (CRAB) has affirmed "AA2" (pronounced Double A two) rating in the Long Term and "ST-2" rating in the Short Term to BRAC Bank Limited. Commercial Banks rated in this category is adjudged to be very strong banks, characterized by very good financials, healthy and sustainable franchises and a first rate-operating environment. Rating in this category is characterized with commendable position in terms of liquidity, internal fund generation and access to alternative sources of fund. The credit rating of BRAC Bank based on financial statements for the year ended 31 December, 2016 is under process and will be published in due course.

BRAC Bank Ltd. has transformed itself to be one of the strongest financial institutes operating in the Bangladesh economy. It has contributed much to the national economy in collecting Government Revenue and depositing the same to Government Exchequer according to the prescribed laws prevailing in the country. Bank authority deducts tax, VAT and excise duty at the time of making payments for goods and services. Besides these, the bank also pays income tax on its earnings.

(BDT million)

Year	WHT	VAT	Excise Duty	Income Tax	Total
2012	1,182	498	171	1,468	3,319
2013	1,316	442	206	1,102	3,066
2014	1,295	450	261	1,338	3,344
2015	1,356	514	307	1,759	3,936
2016	1,407	587	517	* 2,688	5,200
Grand Total	6,556	2,491	1,462	8,355	18,865

* Advance Income Tax for the year 2016 has been paid BDT 1,302 million to Govt. Exchequer as per Income Tax Ordinance 1984.

Basis for Related Party Transactions

We need to conduct transactions with our related parties in the normal course of business. The nature of the related party transactions are either loans and advances or deposits made with us at arm's length price or fair market value.

Appointment Of Directors

Pursuant to the Articles of Association and the Companies Act 1994 the following Directors will retire from the Board of BRAC Bank Limited in the 18th Annual General Meeting.

- 1. Dr. Hafiz G.A. Siddiqi
- 2. Zahida Ispahani

Both of them are eligible for re-election.

A brief detail about the above directors is given below:

1. Dr. Hafiz G. A. Siddigi

Dr. Hafiz G. A. Siddiqi was re-appointed as an Independent Director of BRAC to the Board of Directors of BRAC Bank Limited in April 2015. He was also the Chairman of the Board Audit Committee and Risk Management Committee of the Bank. He is educated in Bangladesh, United Kingdom, United States and Switzerland. Dr. Siddiqi has more than 50 years of experiences as Professor, Researcher, International Consultant and Business executive.

Currently, he is Professor Emeritus, School of Business, BRAC University. Before joining BRAC University, Dr. Siddigi voluntarily retired from North South University (NSU) after serving for about 19 years. He was Professor and founding Dean, School of Business, NSU, the first private university of Bangladesh. He provided leadership to North South University as its Pro-Vice Chancellor for 5 years and Vice Chancellor and Chief Executive officer for more than 10 years. He worked for the Institute of Business Administration, University of Dhaka for 18 years in various capacities including its Professor and Director. Besides, he taught more than 7 years at two US universities, namely, Ohio State University, Columbus, Ohio and Minnesota State University at Mankato, Minnesota as Professor of International Business and Management.

Dr. Hafiz Siddiqi obtained Ph.D degree from Manchester Business School, University of Manchester, United Kingdom, MBA from Graduate School of Business, Indiana University, Bloomington, Indiana, USA, MPIA (Master of Public and International Affairs), from Graduate School of Public and International Affairs, University of Pittsburgh, Pennsylvania, USA, M.A (Economics) and B.A (Honours in Economics) from Dhaka University. Dr. Siddiqi worked as international consultant of (1) World Bank, (2) Asian Development Bank, Manila, (3) UN/ESCAP, Bangkok, and (4) International Trade Centre, GATT/UNCTAD. He advised many agencies of the government of Bangladesh on various aspects relating to management development, marketing, performance

evaluation, human resource development, technology transfer, etc. He is the author/ co-author of 13 books and many articles.

Besides, he serves the society by holding the following positions:

Director, BRAC EPL Investment Ltd.

Director, BRAC IT Services Ltd.

Independent Director, Asia-Pacifc General Insurance C. Ltd.

Director, Micro Industries Development Assistance Services Ltd. (MIDAS)

Chairman, Risk Management Committee, BRAC Bank Ltd.

Member, Board of Trustees, Dhaka School of Economics, Dhaka

2. Zahida Ispahani

Zahida Ispahani was elected as an Independent Director to the Board of BRAC Bank Limited in August 2012. She has been an Honorary Adviser at Ispahani Islamia Eye Institute & Hospital since 2015. She started her career as an educationist. She is an Executive Committee Member of Ispahani Girls School & College. She was Secretary at United Nations Women's Association in Bangladesh. She was also the Founder Secretary & President of the SAARC Women Association in Bangladesh. She is an organizer and member of several orphanages, social and community trusts and organizations. Zahida Ispahani is a graduate in Economics from the University of Punjab, Pakistan.

The Board of Directors of BRAC Bank Limited in its 216th meeting held on 20 March 2017, approved to appoint Mr. Asif Saleh as nominated director from BRAC and Mr. Ahsan H. Mansur as independent Director. They will be appointed subject to the approval of Regulatory bodies.

With its effective board, composing of a united team of competent directors, along with quality human capital and state of the art technology, BRAC Bank is always trying to maximize its shareholders' value.

Board Meeting Attendance:

SI.	Name of the distance	David david david	Presence of the directors in the meetings during their tenure				
No.	Name of the directors	Designation	No of Meetings	Present	Absent		
1	Sir Fazle Hasan Abed, KCMG	Chairman	18	15	3		
2	Ms. Tamara Hasan Abed	Director	6	5	1		
3	Dr. Hafiz G. A. Siddiqi	Director	18	17	1		
4	Ms. Nihad Kabir	Director	18	14	4		
5	Ms. Zahida Ispahani	Director	18	9	9

7	Mr. Kazi Mahmood Sattar	Director	18	16	2		
8	Mr. Kaiser Kabir	Director	10	7	3		

Note: Ms. Tamara Hasan Abed Retired on the 17th AGM, 02 June, 2016. Mr. Kaiser Kabir Joined from the 202nd Board Meeting, July 2016.

Remuneration of the Directors

Directors, including the independent directors were paid the followings amounts in 2016 for attending the board meetings, board audit committee meetings and risk management committee meetings held during the year:

Name of Directors	Remuneration Drawing (BDT)
Sir Fazle Hasan Abed, KCMG	108,000
Ms. Tamara Hasan Abed	36,000
Dr. Hafiz G. A. Siddiqi (Independent Director)	208,800
Ms. Nihad Kabir	100,800
Ms. Zahida Ispahani (Independent Director)	64,800
Mr. Shib Narayan Kairy	201,600
Mr. Kazi Mahmood Sattar (Independent Director)	201,600
Mr. Kaiser Kabir	50,400

Risk And Concern

In our country the main risk is uncertainty which can be caused by political turmoil, terrorist attack, and global decisions by major powers, etc. If political stability is ensured in 2017 then it can be said that the economic condition of market will be better. Terrorist attacks which led to problems especially in the 3rd quarter of 2016 should not rise in 2017. If all these can be ensured then

we are optimistic that we will be able to achieve our target.

To ensure internal control and compliance we have preset policies and procedures, guidelines to identify, mitigate and protect lapses of any operational risks and compliance risks. However, we have separate Internal Control and Compliance department that is responsible for monitoring all operations regularly and reporting to the Board Audit Committee bi-monthly.

Preparing The Annual Report

While preparing the annual report, true and fair presentation has been given priority. Maintaining proper books of account have been ensured. Appropriate accounting policies have been consistently applied while preparing the financial statements and the accounting estimates were based on reasonable and prudent judgment. International Accounting Standards (IAS)/ Bangladesh Accounting Standards (BAS)/ International Financial Reporting Standards (IFRS)/ Bangladesh Financial Reporting Standards (BFRS), as applicable in Bangladesh, have been followed in the preparation of the financial statements and any departure there-from has been adequately disclosed.

Going Concern Basis

The report has been prepared by considering our bank on a going concern basis. From our financial performance,

business portfolio and operational strength it can be assumed that our business is on going concern.

Dividend

In order to maintain a healthy capital adequacy ratio of the Bank, the Board recommended 10% Cash dividend and 20% Stock dividend for the year ended 31 December 2016, subject to the approval of the 18th Annual General Meeting.

Appointment Of Auditor

The existing Auditors, M/S. A. Qasem & Co. Chartered Accountants, 7, Gulshan Pink City, Suites #01-03 (Level-7), Plot # 15, Road # 103, Block CEN(C), Gulshan Avenue, Dhaka-1212 completed their audit session for the year 2016. However, they are eligible for reappointment for the year 2017 and hence they have expressed their willingness to work with the bank. The Board of Directors has recommended M/S. A. Qasem & Co. Chartered Accountants, a member Firm of Ernst & Young to appoint as auditors of the bank for the year 2017. The appointment of auditor will be confirmed at the 18th AGM.

We express our gratitude to all our shareholders, customers and business partners for their continuous support and placing their trust in us. Our management team and employees have been successful in building an exceptional organization that is one of the most trusted and respected financial institutions in Bangladesh. It has been their dedication, fortitude and perseverance that made this possible.

Thank you for giving us the opportunity to serve you.

Sir Fazle Hasan Abed, KCMG

Chairman

VALUE ADDED STATEMENT

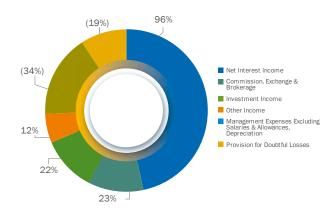

Value Added Statement

The Value Added Statement is an informative report which shows a detailed account of total value addition and the disbursement of the value created by the organization. BRAC Bank adds value by creating wealth through Wholesale, SME and Retail banking. It also contributes positively to socio economic development through the payment of salaries and allowances towards its staff, through the payment of consistent dividend towards its shareholders, through obeying regulatory rules and regulations by paying tax and VAT while ensuring sustainability and growth.

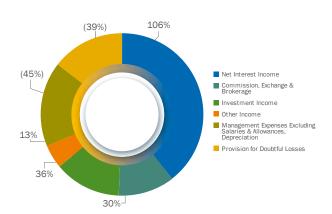

The following value added statement shows the total worth created by BRAC Bank for the year ended 31 December 2016 and how we distributed for the socio economic development.

Economic Value Added (EVA) Statement

The Economic Value Added Statement is a statement which shows the surplus generated by an entity after meeting the cost of total invested equity. Here cost of total invested equity means the equitable charge towards providers of capital. It is the post tax return on capital employed less the cost of capital employed. Again, here the post tax return on capital employed is adjusted for the tax shield on debt. Organizations which earn higher returns than the cost of capital add value. On the other hand, organizations which earn lower returns than cost of capital decrease its value to shareholders. That is why shareholders are always conscious about the return on capital invested. As a responsible bank, we are sincerely concerned for ensuring value to all of our equity providers.

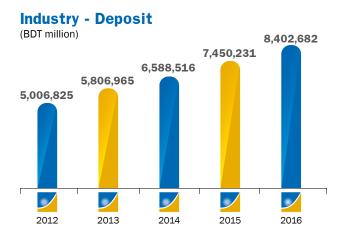

At the same time, the EVA also shows management the success, they are responsible for. It is calculated by the following formula:

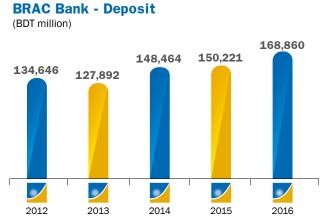

EVA = Net Operating Profit - Taxes - Cost of Capital

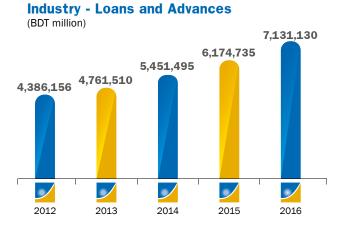

Economic Value Added (EVA) Statement [EVA= (NPAT-Cost of Average Equity)]

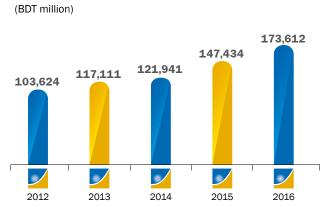

(BDT million)

For the year end	2012	2013	2014	2015	2016
Shareholders' Equity at the year end	10,155	11,883	17,755	18,815	21,441

BRAC Bank - Loans and Advances

Market Value Added (MVA) Statement

The Market Value Added Statement is a reflection of the Company's performance evaluated by the market through the equity of the company. It is a measurement of external performance. It is a measure that shows how the market has judged the company's performance in terms of market value of shares compared to book value of shares. It is the difference between the market value of equity and the book value of equity invested in the company.

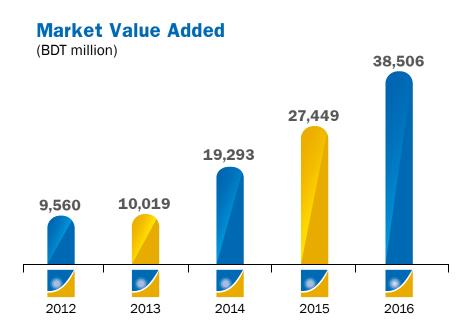

A positive MVA is a better indication of performance and it shows that the company can add value to shareholders wealth. A negative MVA is an indication that the value of management's actions and investments are less than the value of the capital contributed to the company by the capital market.

During the year 2016, we were able to make a positive Market value addition of BDT 38,506 million.

Market Value Added Statement

Market Value Added	9,560	10,019	19,293	27,449	38,506

COMPETITIVE INTENSITY AND OUR STRATEGIC RESPONSE

Operating in the banking industry in Bangladesh is very challenging due to exposure to several risks, both internally and externally. Some of these risks are beyond control. However, with matured experience, BRAC bank has witnessed various industry cycles, economic turmoil and hence has developed and adjusted itself with a risk-identification and mitigation framework that not only protects the company from unfavourable conditions, but also helps to enhance operating viability and ensure sustainability.

We have provided a detailed analysis of the competitive intensity we deal with while operating in this dynamic and challenging banking industry and our responses to minimise the impact of these risks on our business model. To show our risk framework we have depicted it through Michael Porter's risk analysis structure as well as the SWOT analysis.

Competitive rivalry:

- Number of competitors: In Bangladesh, the banking industry faces stiff competition from 56 banks and 33 NBFIs.
- Switching cost: The switching cost is low due to a high concentration of service providers.
- Quality difference: Though BRAC bank belongs to the top quartile of banks but still it is being seen as a Retail and SME oriented bank. Other banks are also trying to provide the best services where BRAC bank has to compete.
- Customer loyalty: Traditionally, BRAC Bank customers have been loyal; however, the competition from 56 banks in the industry, along with the intense price war had led to a decline in the number of loyal customers, making the banking industry extremely competitive.

Buyer power:

 Customers possess a higher bargaining power because of a relatively low switching cost due to the number of banks in the industry.

- SMEs have generally been less rate sensitive; however, rising competition in this market segment have made it considerably more price sensitive, as a number of banks are entering into the SME sector.
- Corporate clients have also become more price sensitive compared to the past, as their access to other banks and NBFIs have turned out to be a lot easier.

Supplier power:

- Recent rate cuts in deposits, triggering from a highly competitive lending market have directly impacted the number of deposit customers.
- Source of funds, the likes of customer deposits and borrowings from other financial institutions, is largely based on the market. Therefore, their power is often considered to fluctuate between medium to high.

Threat of new entrants:

- In the past few years a number of new banks and NBFIs have entered into an already competitive market.
- 6 new banks will be commencing their operations in the near future. As a result, the threat of new entrants is reasonably high, with so many new banks entering the market.

Threat of substitute products:

- Some of the banking industry's largest threats of substitution are not from rival banks but from nonbanking financial institutions. They have begun to offer specialized financial services that were traditionally only available from banks.
- Thus, the threats of the 33 existing non-banking financial institutions are moderate.

SWOT analysis

STRENGTHS

Strengths	Strengthening further	
The BRAC brand		
largest banks in terms of loan portfolio focused on customer satisfaction.	BBL will continue to invest in the brand to enhance customer experience to bolster its brand image even more.	
Our Strength emanates from our owner - BRAC, the largest NGO in the world.	With a strong foundation, BRAC Bank will carry on its growth momentum and reach greater heights and become the best bank in Bangladesh.

- Be open and fair during our communication
- Be fair in all dealings
- Be simple with our customers by ensuring simplicity of terms and covenants in our contracts

Sustainability outcome

- Economic value
- Social value
- Environmental value

Value Chain Process of BRAC Bank Limited:

PESTEL

ANALYSIS

Macroeconomic factors	Impact on the industry	BRAC Bank front
P-Political		
Growing political stability since the beginning of the year after a tumultuous couple of years is a challenge for the banking sector. Terrorist attack in various places has become an issue for businesses.	Most of the businesses are coming out of the slump suffered due to political turmoil in the earlier years. It will take time for them to generate operating profit. However, terrorist attack in various places in the country has led to problem for restaurant businesses.	BRAC Bank has a well-diversified portfolio to reduce risk or volatility. Our focus will remain on quality acquisition and regularizing default accounts. NPL is also expected to improve if the political stability remains calm for the rest of the year.
E-Economic		
The GDP in Bangladesh has expanded 7.05% in 2016, the highest ever recorded. Growth in Bangladesh in the Fiscal Year 2016 (ended 30 June 2016) exceeded expectations, aided by revived exports and sustained domestic consumption. Inflation was lower than projected, while larger exports and modest imports kept the current account in a larger surplus. A rapid rate of economic growth is expected over the next five years.	Credit growth in the first 11 months of the fiscal year stood at 13.80 percent, 1 percent below the monetary policy target of 14.80 percent. Loans at larger quantum to the SMEs, mega projects floated by the government and declining cost of funds have been pushing the credit growth up due to low fund cost & supply demand interactions. High interest rates in the local market also compelled entrepreneurs resorting to take low-cost foreign currency loans. This brought down loan disbursement by local lenders.	BRAC Bank will continue to grow strongly in the SME segment where margins are still higher. The Asian Development Bank (ADB) has signed the loan agreement with BRAC Bank under the \$30 million loan facility approved by ADB's Board, which will be used to finance the construction and upgrade of ready-made garment factories in Bangladesh that have taken steps to meet globally agreed standards for structural improvements and worker rights and safety. The loan will also be used to build badly needed effluent treatment facilities in the textile and garment industry.

ANNUAL REPORT 2016 131

weighted average lending rate came down to 10.64 percent in March 2016 from 11.93, a year before. The deposit rate also saw a sharp fall due to excess idle liquidity with banks. The interest rate on deposit came down to a mere 5.00% in March 2016 from 7.06 percent a year

before.

Macroeconomic factors	Impact on the industry	BRAC Bank front	
S-Social			
Although per capita income is now \$1,466, it is built up of income of the super wealthy, ultra rich and high income group. Farmers of village areas earn no more than \$400 a year. If rational distribution of income and wealth is not encouraged and ensured, poverty will not diminish. Changing technology, internet and social networking have all impacted the businesses.	Social factors will fragment customer needs, tastes and preferences. Banks will need to think about their Customer Segments and offer products and services accordingly.	BRAC Bank aims to increase overall standard of living through their funding (especially SME), creating jobs, boosting economy, increasing per capita income that eventually contributes to GDP growth. BRAC Bank will continue to focus on offering products and services as per customer preferences, ensure sustainability and continue to invest in CSR and other social initiatives.	
T-Technological	T-Technological		
Technological advancement has made customers more sophisticated and altered expectation levels.	Growing dependence on technology to meet customer demands mean further investment in technology are required to keep up with the pace in the industry.	BRAC Bank has made heavy investments in technology and is in the process of upgrading to a state of the art core banking system. Manual processes are being automated to increase efficiency and reduce TAT further.	
E-Environment			
There is growing focus on green, or more broadly, sustainable finance, both in financial markets and in the international political arena.	This has led to increased regulatory focus on sustainable reporting.	BRAC Bank is committed to sustainable development through the creation of long term value in terms of our environment, stakeholders and community.	
L-Legal			
Industries are faced with tighter rules and regulations and application of rules are more standardized and stringent than in the past.	Focus has to be put on the application of loan loss provisioning and capital adequacy. At the same time strict implementation of stress testing is needed.	BRAC Bank's track record of strict adherence with legal and regulatory compliance places it in a good position within the banking industry.	

OUR

BUSINESS MODEL

The company's business model has been structured around meeting customer needs and giving customers a better banking experience both on the lending and deposit fronts.

BRAC Bank Limited is one of the fastest-growing banks in Bangladesh with its Fund under Management (FUM) reporting an average 12% growth over the past five years. We put customer satisfaction and experience at the heart of our business model – so we can deliver better customer service and focus on our ambition to be the number one bank in the country. BRAC Bank has created a new role to reflect its ongoing commitment to create value for its entire stakeholder ecosystem. The bank recognizes the importance of it business model to be a pivotal component of integrated reporting and made great strides to make our business more thoughtful to the world around us.

Inputs

With more than 15 years of extensive experience in the banking industry, BRAC Bank witnessed numerous market cycles. During this period, it has gathered enormous amount of knowledge and expertise to develop a resilient and risk-mitigating business model that has been effective in driving its business across all the sectors in a successful manner. The intellectual capital of our employees has been collectively the most important asset for our firm. The company recruited 1,558 members during 2016 and its total workforce grew to 6,355 members at the end of the year. Workforce productivity was drastically enhanced through comprehensive training programs and workshops. BRAC Bank prides itself on being able to recruit and maintain

top talent in the industry that allows it to become even stronger and better equipped to uphold its competitive edge.

As a result of its asset-liability management team of veterans, the bank was able to report 83% increase in their profit after tax with a healthy CRR that is above the limits stipulated by Bangladesh Bank. Technology is the lifeblood of our organization and we have made extensive investments in order to enhance business sustainability to support decision making process and better customer experience. We believe that by doing so will result in a strong, flourishing and stable platform to improve transparency, detect bad accounts as early as possible and enable environmental preservation through the optimized use of paper.

The bank offers a comprehensive range of products and services and operates in the SME, Corporate and Retail segments of Bangladesh. We also offer a diverse range of long, medium and short term savings products that enable us to meet the financial security and liquidity goals for a number of customers. BRAC Bank has five subsidiaries that provides various financial and capital market products and solutions.

Business activities

BRAC Bank Ltd. provides financial solutions through BRAC Bank Limited, bKash Limited and BRAC SAAJAN

Exchange Limited. It delivers capital market solutions through BRAC EPL Investments Limited and BRAC EPL Stock Brokerage Limited and offers IT solutions through BRAC IT Services Limited (biTS). BRAC Bank offers loans to its three well-structured and focused divisions:

Capital markets: BRAC EPL Investments Limited and BRAC EPL Stock Brokerage Limited are two of the BRAC Bank's subsidiaries engaged in providing brokerage, merchant banking and a wide range of capital market services.

Mobile money transfer service: BRAC Bank's subsidiary, bKash Limited, is catering to customers using mobile phones to avail money transfer services in Bangladesh.

Money exchange services: The bank is providing remittance and exchange services from UK through its subsidiary, BRAC SAAJAN Exchange Limited.

IT solutions: BRAC Bank is providing IT solutions to its customers through its subsidiary, BRAC IT Services Limited (biTS).

Innovation

BRAC Bank nurtures its spirit of innovation through its investments in human resources and new technologies as it strives to be at the forefront of the banking industry. Technology and innovation are embedded in all of our businesses in order to enhance our business operations to deliver simple, personalized customer experiences.

Outcomes

Some of the company's key financial and non-financial outcomes include the following:

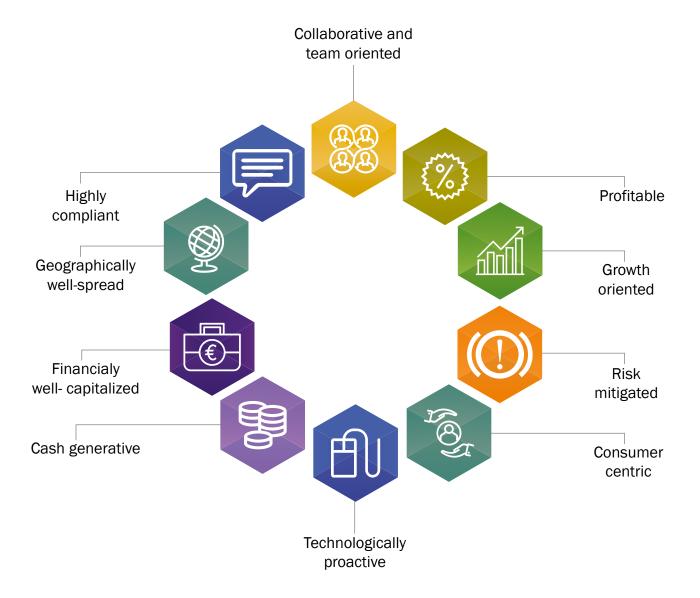

- Average assets have grown 14% over the past five years. This growth is among the fastest in the banking industry in Bangladesh.
- Overall average deposits have grown at 11% over the past five years
- Most notably, Small Business PAR & NPL reduced by 3.8% and 3.3% respectively. Major reasons for this improvement are healthy growth in Small Business portfolio with proper credit mitigation techniques and monitoring the movements of PAR and NPL through strong coordination with Business team and SAM.
- Average loan turn around time remains amongst the best in the industry, ensuring high levels of customer service

External factors

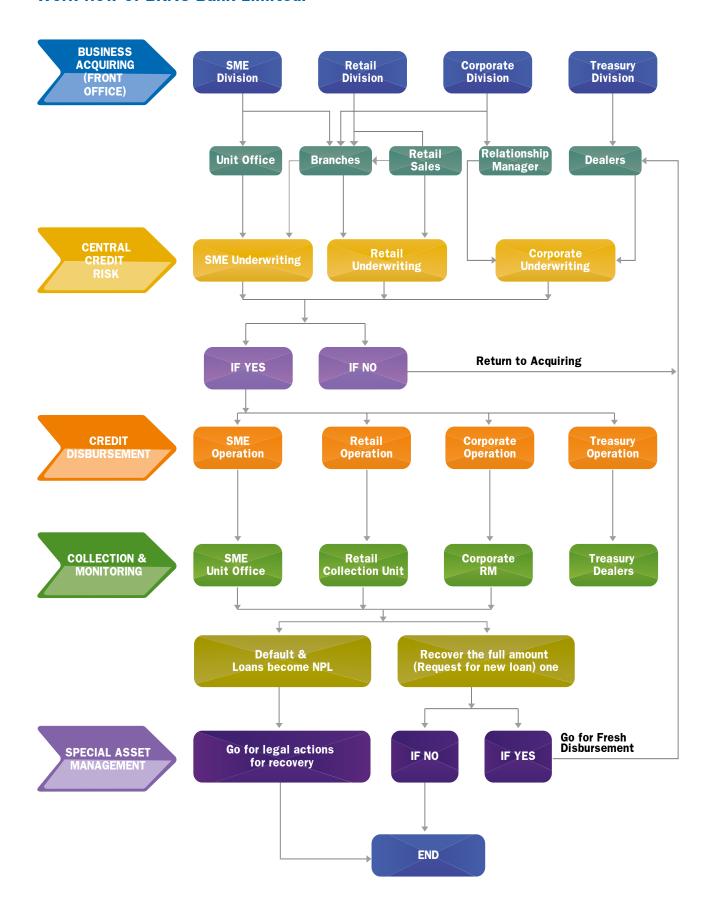

Some of the key external factors that have an effect on our business include:

- Prevailing interest rate regime stipulated by the Bangladesh Bank
- Political turmoil impacting business
- Economic slow down disrupting the investment plans of corporates and other businesses
- A general decline in the risk-taking appetite of the country, impacting its entrepreneurial capabilities
- Attractive alternative investment opportunities affecting the market for deposit products

BRAC Bank's operations are guided by a business model that is built on the following premises:

Work flow of BRAC Bank Limited:

STRATEGY AND RESOURCE ALLOCATION

Aligned with our focus on enhancing shareholders' communication and reporting on an ongoing basis, we detail below our strategy, resource allocation approach and our future plans in a Q&A format for lucid appraisal.

Q. How is the overall situation of the banking sector in Bangladesh?

A. Investments in corporate or commercial sector in Bangladesh has been fairly lower in recent times due to infrastructural limitations. Over the last three decades, Banks of Bangladesh have generally focused in Corporate banking. Retail and SME sector were not focused on for a long time as it was exceedingly difficult to sustain in these sectors. As local investment demand drops, a large amount of money remains idle in both public and private commercial banks. Banks are slowly but surely moving away from their traditional focus and directing towards diversifying in deploying their fund.

Q. Where does the organization intend to go and how does it expect to get there?

A. BRAC Bank aims to be the best bank in Bangladesh and with this in mind, we have revolutionized our business culture focusing on "customer centric" strategy with the intention of putting our customers first, and at the core of our business. Each and every one of BRAC Bank's employees is well informed about the significance of this approach and we are all working collectively towards this vision. We are also emphasizing on setting up proper value system at the same time, which would incorporate 'good governance, compliance, ethics and transparency' with this new approach.

The management of the bank was able to successfully optimize the bank's portfolio with the right rebalancing strategy and focus more on Retail and SME banking. The banking industry of Bangladesh is inclined towards prioritizing the corporate and commercial segments since it requires less investment in technology and manpower. BRAC Bank has rather strategically concentrated on the Retail and SME sectors for sustainable and long term growth. Our growth has not been equally strong in the corporate segment, which was done deliberately to rebalance our portfolio by moving from one type of customers to another that fits our business strategy.

The bank's strategy is to grow in all the three segments – Corporate, Retail, and SME in the long-run. Even though the banking industry was plagued with high non-performing loans (NPLs), BRAC Bank was able to reduce its NPL from 5.99 percent in December 2015 to 3.40 percent in December 2016.

Q. What are the organization's short, medium and long-term objectives?

A. Unambiguously, our short term goal is to position our Bank well enough to capture the prospects of a stable and growing economy. The FY2017 growth projection is stated at about 3.4% and 3.6% in 2018, which not only makes our country one of the fastest-growing nations of the world but this growth also opens up a lot of opportunities in the financial services space.

Our medium-term goal is to sustain our growth in the SME and Retail sectors. We intend to do so through our unwavering focus on ALCO and quicker re-pricing of our deposit and lending products in response to market demand. We are trying to bring in more people under the banking inclusivity who are not getting any banking facility from others. We are also trying to achieve efficient synergy between the bank's branches, SME unit offices and BRAC field offices for the delivery of remittance, along with the other products and services provided by the bank. We also realize that we cannot be out-priced in this highly competitive market and hence, in addition to the attractive lending products and solutions, we will ensure that our robust customer service standards continues to remain our key differentiator.

Our long-term vision is to emerge as the best bank in Bangladesh in terms of customer experience, business volume, human capital and compliance & corporate governance. We will continue emphasizing on values based business with strong business ethics.

Q. What are the strategies that we have in place that will help us achieve these objectives?

A. At BRAC Bank, we have taken several strategic initiatives to achieve our objectives. Some of these are as follows:

Focusing on growth opportunities:

Sustainable growth has always been our universal priority. In order to facilitate this progress, we have taken steps to shift our focus on specific markets in consistent with our strong distribution network.

Investment in Technology:

As the data and analytics functions develop, meeting informational demand from regulators and other stakeholders become increasingly challenging. In order to derive greater value from data sets, we are aligning our risks and finance functions, business operations and other support functions with the help of technology to build better data management capabilities. We have initiated to upgrade our existing technology and have made substantial investment to make it successful.

Bringing structural changes:

We are moving away from a 'One Segment Branch Model' towards an 'All Segment Branch' Model. In

short, this means that we want our branches to move away from the current scheme of SME or Retail focus and become BRAC Bank Branches that will service all kinds of customers and market all kinds of businesses – Retail, SME and Corporate. We need a structure that will encourage Branches to become impartial to client segments and welcome all businesses.

Investing in our staff:

As a bank, we are committed to support our staff's well being, safety, development and training. Our continued effort to invest substantially has paid dividends as far as the financial statements are concerned. The bank will continue to support its employees' in reaching their true potential by creating opportunities to develop and improve their skills. We believe this support contributes greatly to our staff engagement levels throughout the organization and trust their strengths to making BRAC Bank the top performing bank in Bangladesh. We take pride in our employees who continuously participate in various activities that contribute to our community.

Q. What is our resource allocation plan, how are we going to execute our strategy?

A. At BRAC Bank Ltd., we are continuously on the lookout to recruit the right talent that fits our long-term corporate goals and plans. We not only offer industry-leading remuneration standards and other benefits but also focus on helping them advance their careers by exposing

Our long-term vision is to emerge as the best bank in Bangladesh in terms of customer experience, business volume, human capital and compliance. We will continue emphasizing on values based business with strong business ethics.

As a bank, we are committed to support our staff's well-being, safety, development and training. Our continued effort to invest substantially has paid dividends as far as the financial stats are concerned this year.

them to knowledge enhancement sessions and training and workshops. Even though we believe that we are well-staffed at the moment to execute our long-term plans, we will continue to look for experts who can fill vacant positions resulting from natural attrition, creating a pipeline of talent for succession planning and leadership development.

Q. How will we measure the efficacy of our short, medium and long-term plans?

A. This is an interesting point and the outcome of our short, medium and long range plans will be the most visible in our numbers. While we are focused on growing both our deposit and lending base in the short-term. we have kept a strong eye on the quality of this growth through reduced NPLs. Our stated target is to bring our overall NPLs under 3.40% in 2017 and even lower as we go forward. During 2017, we also intend to sustain our growth in all the areas - Retail, SME and Corporate, despite operating in a falling rate regime. Our wellenunciated long-term target is to be the best bank not only in terms of business volume but also in terms of customer experience, human capital and compliance. As stated earlier, our quality of human resources has given us the confidence to carry on with this momentum and effectively make sustainable progress.

Q. What are the changes required in our business model to enable us to meet our strategies and enhance our organization's ability to adapt to these changes accordingly?

A. Since we have amassed considerable expertise in understanding the growth and risk profiles of our SME customers, we intend to focus aggressively on this space since it is not only relatively less competitive but also demands high levels of customer service that we are equipped to provide. The other change that we expect to mandate in our business model is to look for opportunities in our corporate division as far as quality is concerned since this segment is marked by high ticket loans and are more prone to delinquencies. Having said that, we are actively appraising opportunities in our emerging sector and trade services. More importantly, we will continue to tweaking our business model to not only enhance relevance in a dynamic market but also infuse improved levels of sustainability across the Bank.

Q. What are the identified risks and opportunities and the risk management framework that we have in place to absorb any contingencies?

A. By the very nature of our business, we provide growth capital to large segments of our customers that, in turn, exposes us to certain inherent risks associated with default. However, to mitigate this key risk, we have some extremely stringent credit checkpoints in place that have to be fully met by a potential customer before a loan sanctioned. Besides, we are in strong position as far as cash reserve ratio (CRR) and statutory liquidity ratio (SLR) is concerned, which is well over what has been stipulated by the regulatory authorities. We have improved significantly in our NPL ratio and would continue to do so in the long-run as well. Our SAM team is well equipped and capable of following up and recovering loans from potentially riskier clients, that has significantly contributed to the improvement of our NPLs.

Q. What differentiates our organization from others and what is our source of competitive advantage?

A. Our ear-to-the-ground approach enabled us to continuously put focus on innovating new products and services. Our nationwide 181 branches, 448 SME Unit Office and over 469 ATMS have enabled us to literally reach to the door steps of customers so that our customers find us wherever they want. BRAC Bank has embarked with a renewed policy to provide "best-in-the-class" services to its diverse range of customers spread across the country based on latest information technology. As a proud member of the Global Alliance for Banking on Values (GABV), we strive to practice what we preach and aim to come to the aid of bringing changes, turning hope into reality and fulfil ambitions.

Q. What is the role of innovation in creating and sustaining our competitive advantage and how does Technology help in doing so?

A. Innovation is at the core of everything we do at BRAC Bank. We believe the only way to sustain our competitive advantage is to do everything better today through embracing innovative thinking at all levels of the

organization. While we already talked about continuously innovating new products to address the specific needs of our customers, innovation takes a greater view at BRAC Bank and revolves around the 3P philosophy in mind. When we work for People and Planet, Profit automatically follows. It is imperative to constantly improve the way we manage our Human Resources – through innovative compensation management, performance based incentive structure and efficient training and development infrastructure. The responsibility to ensure this is entrusted with the senior line management and the Human Resources department of the Bank. Finally, process innovations are brought about with coordination among different teams like Operations, Technology, Business, Risk Management, etc.

Technology plays one of the most vital part in our pursuit for continuous improvement through innovation. In this day and age, technology is constantly changing the rules of competition, rendering many traditional business strategies and processes obsolete. BRAC Bank is a front runner in the industry in terms of utilizing technological advancement for increasing business and process efficiency. The Bank has invested further to upgrade its system to the latest version to secure its competitive advantage in the industry.

Q. Finally, how does the organization develop its intellectual capital?

A. We continue to invest in people as they are the principal driving force for the Bank. We expose our human resources to an inspiring work environment and a culture that fosters and encourages collaboration, sharing and teamwork. We maintain the highest standards of ethics and behavior at the workplace and have a 'no-compromise' stance to any deviations. We contribute to the development of our human resources by providing them with ongoing as well as specific trainings. In fact, the number of hours of training at our company has increased by 43% (256,129 man hours) in 2016, indicating our focus on sharpening our talent pool.

Discovering Unexplored Horizons SME Banking

Launching of New SME Product - NIRMAN

In line with the increasing demand of the accommodation facilities for workers and jobholders around the industrial and commercial areas across the country, NIRMAN is a loan facility for construction and/or renovation of residential facility and/or commercial complex for rental purpose under Equated Monthly Installment (EMI) loan facility. This product was launched in November, 2016.

AGRICULTURE FINANCE

Agriculture is a major source of livelihood throughout the world, especially for the majority of poor people living in rural areas in developing countries like Bangladesh. Bangladesh has made commendable progress over the past 40 years in achieving food security, despite frequent natural disasters and population growth (food grain production, for example, tripled between 1972 and 2014, from 9.8 to 34.4 million tons). Bangladesh's agricultural sector has benefited from a sound and consistent policy framework backed up by substantial

public investments in technology, rural infrastructure, human capital and access to finance.

In order to sustain and amplify this rate of progress, BRAC Bank Ltd. has worked hand in hand with Bangladesh Bank, top MFIs / NGOs and USAID to make finance accessible to the agricultural sector.

In 2016, BRAC Bank Ltd. has shown drastic growth in business through MFIs / NGOs as well as through its own channel, keeping its PAR and NPL at 0%. Bangladesh Bank has provided us with an appreciation letter for successfully achieving agriculture target in 2016. We had set up Agriculture Finance Help Desk in each and every one of our branches with dedicated staff, who are trained specifically to cater agriculture finance related queries. We have started providing training to MFIs for capacity building.

BBL Received the appreciation Letter from Bangladesh Bank for achieving the Agriculture and Rural Credit Target for the fiscal year 2014-15 in April, 2016.

Emerging Business - Eyeing the segment that changes the game

As a part of BRAC Bank's dynamic vision of being the "Best Bank in the industry", the "Emerging Business (EB)" wing was rejuvenated with a new management team to boost BRAC Bank's growth in the upper segment of SME market. The wing started under the name of "Emerging Small Business (ESB)" under SME division back in 2013. The business team focuses the financial needs and services required for the growing SME businesses all around the country by tapping full potential of the thrust sectors to enrich the portfolio. In 2016 after rejuvenating the business model with new processes and people the division achieved a tremendous growth of BDT 3,745 million (growth rate 36%) This wing has been able to register remarkable growth by leveraging the rising small businesses with high prospects and loyalty through bestin-class services of the bank's wide branch network.

Structural Changes:

In 2016, EB implemented some structural and process related changes which contributed to this success.

Result of these initiatives are

- The team is focused, engaged and motivated
- Stakeholders jobs are aligned and more cooperative
- Business has better forecasting power

Unlike many of peer banks who define small and medium enterprises through an identical viewpoint, EB

at BRAC Bank clearly draws a line between them and offers tailored and structured financial solutions under a robust risk management framework.

Goals for 2017:

EB is supporting the bank's emphasis on diversification, differentiation and segmentation by attaining its goals and helping the bank to become the Best Bank in the country. The goals for 2017 in brief are:

- Escalate the overall SME portfolio to the next level in terms of volume and quality
- Spread the current geographical concentration and focus on the growing sectors in the context of Bangladesh
- Focus on diversified income through funded and non-funded products
- Capitalize the present customer base and maximize the limit utilization to ensure the organic growth
- Monitor the movements of PAR and NPL through strong coordination with collection and SAM
- Adoption of new technology to make processes easier and faster to provide better customer experience.

EB envisions a leading stance in the banking industry through its emphasis in growing the top segment of the SME market in the coming years, capitalize its human capital and the bank's vast branch network through the best practices in all spheres of its business model.

Ruling The Skies Retail Banking

RETAIL BANKING DIVISION

BRAC Bank Retail Banking team exceeded even the highest of ambitions set by the top performers in the banking industry during the year 2016

BRAC Bank Retail Banking team exceeded even the highest of ambitions set by the top performers in the banking industry during the year 2016. Retail Banking is on the threshold of change and in the midst of all the difficult challenges around, the management's engagement in the numerous business transformation initiatives not only helped the bank to break all the previous records, but also assisted to set new benchmarks in the industry.

Retail Business achieved the highest ever asset growth in 2016, with an industry record of 55%. Retail Banking assets crossed the milestone of BDT 3,000 crore in June2016 and stood at Tk 3,375 cr as of December 31, 2016, the largest retail asset portfolio in the market.

We have not only grown our asset book but also have focused on improving our portfolio quality. We have reduced our PAR and NPL figures not only in terms of percentage but also in terms of volume.

	2015 BDT crore	2016 BDT crore		
PAR Volume	153	136		
PAR %	7%	4%		
NPL Volume	105	92		
NPL%	4.80%	2.70%		

Key Highlights

Behind The Success Story:

- Our Retail business has moved from "Product Centric Business" approach to "Customer Centric Business" approach. We changed our product parameters, processes and policies with differentiated propositions for different customer segments.
- Managed to minimize Turn Around Time (TAT) even at single day to meet the need of the customers
- Product marketing campaigns and team engagement events were organized throughout the year to maintain the business momentum.
- Expert resources were hired from the industry to enhance the sales capacity of the workforce.
- In order to ensure rigorous risk management and compliance standards "Contact Point Verification" teams were formed in in-house.

We have already started to reap the benefits from our restructured business and operational platforms. We believe, when these get coupled with the following ongoing initiatives, it will definitely direct us to become "The Best Retail Bank" in the country in the near future:

- We are migrating our Core Banking System which will significantly increase our capacity.
- We are introducing "Document Management System" to digitalize our document management process.
- We shall revolutionize our e-Banking (Internet and Mobile Application) system to make digital banking more convenient for customers.

 We are in the process of introducing Data Analytics System to enhance our analytical capacity which will help us to offer the most suitable products and offerings to our customers.

Key Initiatives:

- NID Verification Project was implemented
- To ensure the highest service quality and to reduce unproductive footfalls at branches, several account management projects were launched.
- Implementation of Automated Account Statement Generation and Charge Realization
- E-statement auto enrollment project was initiated
- Transaction Alert Services were launched for customers' safety and security
- SMS Banking enrollment from Call Center was launched
- A pilot project was launched for Automated Service Tracker System implementation
- Separate loan link accounts were created for loan disbursement. This simplified the loan link account management process and made it customer friendly.

First ever Sales Convention was organized in November 2016

BRAC Bank launched campaigns in coordination of Grameen Phone

Remittance

Business Highlights:

- The bank signed remittance agreements with four Exchange Companies in 2016-
 - √ Tranglo SDN BHD, Malaysia
 - √ Global Money Remittance Pte. Ltd, Singapore
 - √ Fast Remit Exchange House Pty Ltd, Australia
 - $\sqrt{}$ SIR Money Changer Pte. Ltd, Singapore
- The most significant remittance partnership during 2016 was the one comprising Western Union, MasterCard and bKash. By utilizing MasterCard and Western Union money Transfer system, customers can now receive money through their mobile wallet account.

Alternate Delivery Channels

- In order to prevent skimming and fraudulent incidents we implemented the latest anti-skimming technology and PIN shield in 469 ATM machines. Moreover, all the ATMs are now "Europay MasterCard and VISA (EMV)" compliant.
- Customer awareness messages have been incorporated on ATM screens in addition to the existing print media to protect customers' personal information.
- We have relocated many of our ATMs' & CDMs' to increase their efficiency level. Moreover, latest firmware versions have been installed in all the ATM machines to prevent technical fraud attempts.
- We are also bringing in the world class e-Banking (Internet and Mobile Application) system to make digital banking more convenient for customers. This system will have state of the art security features along with the most updated e-banking options.

Call Center

Our State of the Art Call Center serves the customers 24 hours a day, 7 days a week. In 2016, our call center served 1.7 million customers. In 2016, several value added services such as reward redemption service, SMS Banking enrollment and de-enrollment, super loan requests and card and PIN replacement services were introduced by our call center.

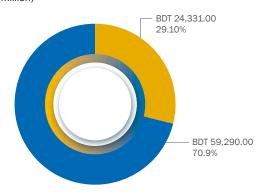

Premium Banking

The core essence of our Premium Banking promises excellence within the realm of exclusive banking experience for the top revenue generators of the bank. BRAC Bank's Premium Banking offers an exclusive and personalized wealth management service to its high net worth customer base and simplify their financial lives.

Only 10 years into Premium Banking operations, at a bank specialized in the SME sector, BRAC Bank has made its presence felt in this market segment in Bangladesh. With only two relationship managers and no service lounges at the initial stages, the team has grown to 44 in 2016 and serves from 14 state of the art lounges spread across Dhaka and Chittagong, strategically located for privileged banking. BRAC Bank's Premium Banking lounges are an oasis of comfort designed exclusively to cater to our high end customers.

The Premium Banking section has been categorical in building a sustainable deposit composition for the bank, boasting just about 30% of the total retail deposit. Seemingly quiet in the industry, BRAC Bank Premium Banking has always been impactful in terms of customer service and deposit concentration.

December 2016 Retail Liability Portfolio Mix (million)

In 2016, Premium Banking Deposit Portfolio has seen a net growth of 2,467 Million – a commendable figure considering the low rates in the deposit market. At the end of December 2016 total Asset disbursed by the

Premium Banking unit stood at BDT 993.93 million, growing by BDT 327.36 million over the last year.

Starting from free health check-ups at some of the best hospitals (Apollo and United) in the country to unbelievable lifestyle offers such as buy one get two dining deals in 5 star hotels (Westin, Le Meridien, Radisson, 4 Points by Sheraton, Amari etc), complimentary night stay offers in luxury resorts, etc. BRAC Bank's Premium Banking thrives to provide a unique sense of experience to our premium customers.

In the year 2016, we held numerous programs for our Premium Banking customers:

- A memorable 'Nokshi Katha Shondha'
- Pohela Boishakh Celebration at 23 branches
- The first ever Nazrul Mela

Employee Banking

We have transformed our Payroll Banking into Employee Banking in April, 2016. In order to improve the existing business model and to penetrate preferred customer segments, the following initiatives have been taken:

- Apart from the processing of Salary and Benefits of 750 organizations, we are providing all sorts of financial services including Home Loan, Car Loan, Personal Loan, Credit Card and Account Services
- A dedicated service team has been created to manage all the organizations under employee banking and route payroll staffs from Branches and Call Center
- Reduced incidents of cash capture and replenishment frequency
- New ATMs have been installed to serve employee banking customers.

Some of our newly boarded Employee Banking Partners in 2016:

Employee Banking agreement with Tamishna Group.

Employee Banking Agreement with Brummer & Partners Asset Management (Bangladesh) Limited.

Employee Banking Agreement with ADA Trading Bangladesh Co. Limited.

Employee Banking Agreement with Passion Jeans.

Employee Banking Agreement with Asmara International Limited.

Employee Banking Agreement with Sonia Group.

Maneuvering new Business Models for the long haul Wholesale Banking

CORPORATE BANKING DIVISION

We have adopted a hybrid model of centralized operation infused with branch based operation. This model will expand our footprint across Bangladesh and cut across various corporate client segment groups which were earlier beyond our reach.

Our Corporate Banking Division underwent a major change in the year 2016 in its operating strategy. Earlier, we were operating on a centralized platform being confined in two metropolises - Dhaka & Chittagong. In order to leverage our branch network and expand our client segment beyond large corporate and encompass middle markets and small corporate clients across Bangladesh, we have completely revamped our business

model. We have adopted a hybrid model of centralized operation infused with branch based operations. This model will expand our footprint across Bangladesh and cut across various corporate client segment groups which were earlier beyond our reach. We aim to be an expansive corporate banking unit.

The following is a tour of this restructured business wing:

Operating Modality

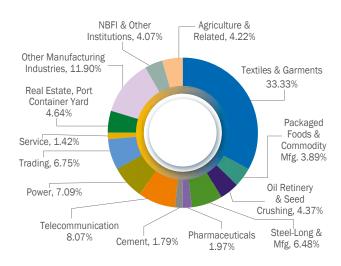

- 4 wings based in Dhaka are as the large Corporate named as Large corporate, Large Local Corporate, Local Corporate & Corporate Institutions.
- A new wing called Local Corporate has been added within the Corporate Banking umbrella to cater to the medium segment clients. Earlier this wing was under the SME Banking Division.
- 9 Branches have been selected as Corporate Branches to source and serve clients who were outside the reach of the centralized Corporate Banking team.
- A transaction banking team has been formed in order to facilitate trade related and other transactions of customers.
- A Green Financing unit equipped with personnel with the technical know how has been formed in line with our strategy for environmental conservation.

The relationship units and transaction banking teams are equipped with dedicated and well trained relationship managers and analysts who strive to achieve business growth by maintaining good asset quality and strict monitoring.

All of these changes will allow us to provide one stop banking services to our corporate clients ranging from working capital finance, project finance, loan syndication and trade solutions. Our branch banking system and widespread branch network will enable us to provide services at extended geographical areas. The ultimate result is that we will be able to serve our clients faster and better than ever. We intend to have faster turnaround times to process client deals and transactions seamlessly and our re-structured operating modality will provide us the edge to do so very easily.

Portfolio Composition

We have also carried out an exercise to de-risk our portfolio composition. Earlier our portfolio was concentrated on large customers. In the year 2016, we deliberately reduced our asset book by BDT 1,416 crore. At the same time we have gotten on board 62 new relationships. At the year-end we marked a net de-growth of BDT 70 crore due to our de-risking exercise.

Performance Highlights

-Non-performing loans reduced by almost 50% compared to 2015

-Trade volume increased by 38% than 2015

BROADER HORIZONS:

Large Corporate

Large Corporate's key focus is in textiles and garments, telecommunications, power and infrastructure. We cater to large business houses and business conglomerates by offering working capital finance, project finance, loan syndication, trade solutions and agency services. In 2016, this wing brought on board 28 new relationships.

Local Corporate

Earlier, this team was known as "Medium Business Unit", operating under SME Division. However, to cater to targeted customers' needs in a better way and to match product offerings with their expectation level, the Medium Business unit realigned its market positioning and got attached with the Corporate Banking Division in January 2016 by adapting the new name "Local Corporate". Since then, it has mainly focused on various manufacturing concerns as well as on trade and service oriented companies. Local Corporate unit offers the full gamut of commercial, trade and capital expenditure related financing to its customers. Unlike traditional corporate banking, where banks go after few big corporate names, the Local Corporate team of BRAC Bank aims to serve the relatively smaller corporate entities that are spread across the country and supports them to grow bigger. In 2016, this wing brought on board 21 new relationships.

Corporate Branches

BRAC Bank Limited, with its large distribution network, has enormous potential to tap those corporate clients who are not covered by the large and local corporate businesses. With this point of view, nine branches were selected as corporate branches in 2016. The objective of these distribution points was to cater to corporate clients by offering commercial, trade and capital expenditure related financing. In the year 2016, this new unit under corporate banking brought on board many new relationships. The teams at the branches are being extensively trained to equip them with the necessary skill sets to cater to corporate clients. Our branches will eventually become distribution channels for multiple businesses across different client segments.

Green Financing

In line with the philosophy of people, planet & profit, the Green financing unit of BRAC Bank took a number of initiatives to cater to clients. The very first initiative was to equip the Green financing team with technically sound personnel. This will allow us to provide clients with advisory services on green financing as well as tap the market which has immense potential. BRAC Bank, in partnership with International Finance Corporation, launched a product called Planet Solutions in order to finance energy efficiency. BRAC Bank has also arranged a workshop on energy efficiency for the financial managers of corporate clients.

Transaction Banking

The newly formed transaction banking team will be an add-on to the service offerings to our corporate clients. The primary job of this team will be to facilitate the trade and payment transactions for corporate clients. In addition to this, the team will also provide advisory services to clients regarding trade financing. We will leverage our branch network and set up trade shops in selected geographically dispersed branch locations to provide faster trade services to clients. They will not limit their offerings only to corporate clients but will also extend their services to the emerging small businesses and retail clients requiring trade support.

Higher Altitudes

Our corporate banking team has performed well in maintaining good asset growth with the portfolio derisking exercise. Our existing relationships with our valued clients, that have been built and nurtured over the years, are our major driving force in obtaining our desired goals. We constantly realize the growing financing and advisory requirements of our clients in this competitive business environment and dedicate our resources and knowledge to deliver and meet their expectations. We cherish mutual and long term relationships with our corporate and institutional clients and we are confident that this will lead us to become the best bank in Bangladesh.

CASH MANAGEMENT & CUSTODIAL SERVICE

BRAC Bank provides comprehensive Direct Deposit Services through our vast branch network while offering an end to end banking solutions to our clients.

The successful and market tested Cash Management services designed by BRAC Bank Limited caters to different corporate houses. It provides fund collection services through different products for the corporate entities and help them in managing their fund. In order to improve a company's business cash cycle we provide customized solutions to optimize cash flow, resulting into significant cost savings and open up investment options.

We continuously thrive to offer custom tailored solutions from our Cash Management & Custodial Services (CMCS) team to our existing clients and reach new organizations to expand our business horizon.

Our Offered Services -

BRAC Bank Limited offers CMCS services through the following presented propositions-

Services Offered by Cash Management Cash pick up service: & Custodial Services:

Deposit Facility:

BRAC Bank provides comprehensive Direct Deposit Services through our vast branch network while offering an end to end banking solutions to our clients. We offer highly competitive deposit rates in the form of different product offerings catering to the investment requirements of the clients. We always maintain a mix of funded and non-funded deposit that allow us the privilege to offer our clients attractive rates.

NCS (Nationwide Collection Service):

Nationwide Collection Service facilitate large corporate houses to collect funds from their disperse clients through BBL's own branches and credit the same to their single collection account maintained with the Bank. The bank's wide outlet coverage all over Bangladesh has been able to facilitate large corporates in collecting funds and servicing their own clients on time and efficiently.

PTS (Payment Transfer Solution):

Payment Transfer Solution services facilitate organizations in transferring their funds to the respective locations through BBL's own branches. It enables the clients in remitting funds to their desired locations efficiently and on time.

SCS (Secured Cash Service):

Customized Mobile Banking Services are provided to corporate bodies. The Bank usually sets up desks/ counters at the specified location and deposits the collected funds in the respective account of the client.

Cash pick up and drop service facilitates safe and secure cash pick up and drop from/to the guests' office premises. The entire process is supported by a selfsufficient logistic setup that is in line with international standards. It offers the client security, convenience and flexible pick-up and delivery times. This is another initiative to bring the bank closer to the guest's day-today cash transaction requirements.

Transactional Banking Services:

TBS is the core service provided by the cash management department. In order to provide distinctive service to our client base, Cash Management department has developed various current and SND accounts in line with Bangladesh Bank's policy directives.

Internet Banking:

Cash Management department provides smart and value added information management propositions to the clients through internet banking. The various services and solutions that are being offered to the clients through internet banking are:

- Real-time online transaction view for more effective cash management
- Delivered with the highest level of security
- Easy-to-use application
- Account statement
- Transaction history retrieval

(Initial Public Offering) **Fund Management:**

BRAC Bank's IPO fund management is formulated to manage the IPO funds of the clients by participating

Cash Management department provides smart and value added information management propositions to the clients through internet banking.

as the lead banker to the issue. It also caters to other services such as the collection of right share applications, disbursement of dividends, etc. Since inception, this team has played a vital role in mobilizing funds especially at times of liquidity crisis.

Custodial Services:

BRAC Bank acts as the custodians for various mutual funds managed by the different asset management

companies. Mutual funds play a critical role for the retail investors as well as the institutions in Bangladesh through facilitating them by investing their savings in diversified portfolios and earning them a substantial return on their investments. BBL also facilitates custodial services to NRBs, foreign individuals and foreign institutions living abroad, to invest in the Bangladesh Capital Market.

The team also serves as Issuing and Paying Agent Bank for Commercial Papers and bonds.

TREASURY & FINANCIAL INSTITUTIONS DIVISION

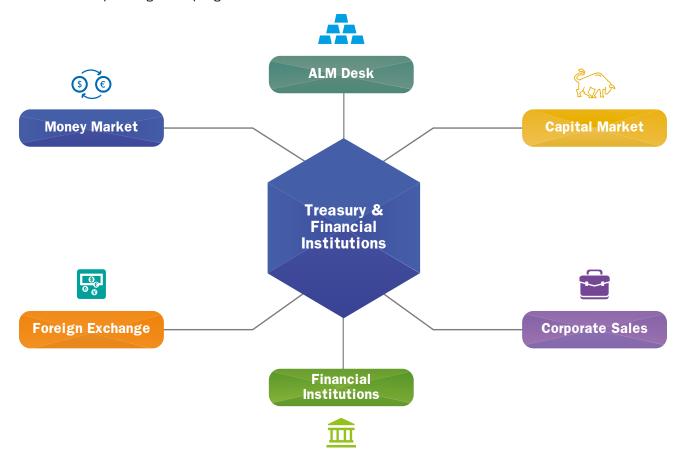

Our Treasury Traders and Relationship Managers are providing truly global treasury services by effectively and efficiently harnessing market opportunities through Real Time Treasury System.

Ahead of the Market

Keeping this tag line in front, the Treasury and Financial Institutions (FI) division has shown invincible performance in 2016 by serving treasury solutions to both its internal and external clients through a pool of dynamic dealers and relationship managers. Rapid growth of BRAC Bank

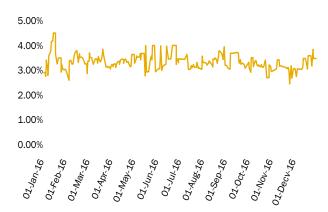

Asset Book and the consistent growth of its portfolio – Treasury & FI division has actively managed both.

Besides managing the bank's funds, meeting regulatory requirements, managing day-to-day liquidity and acting as market maker, the team is catering to a diverse group of customers with the following dedicated desks:

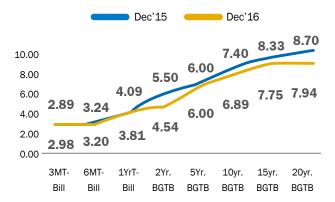

Money Market Desk: The Money market in 2016 was highly liquid and call money rate ranged from 2.5% - 5.0%. BBL treasury has been very active in interbank money market through superior forecasting of the market, managing liquidity gaps and ensuring handsome profitability for the bank.

Call Money Rate

Capital Market Desk: Our capital market desk has been heavily active in the capital market in terms of fixed income securities, stocks, mutual funds, subordinated bonds and preference shares. The Capital Market Investment Committee takes investment decisions and reviews the performance of the portfolio. BRAC EPL Research team provides research and advisory support in managing the capital market investment portfolio.

Yield Curve Comparison, in %

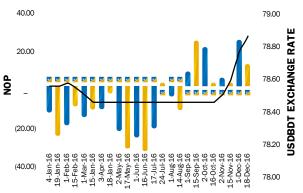

By the end of 2016, BBL treasury positioned itself as one of the most active members among the banks in the secondary trading of government securities. The team was successful in holding approximately 11.15% share of the inter-bank secondary trading of government securities which was 10.19% in the previous year.

Being a non PD (primary dealer) Bank, it has been a great achievement. Apart from that, we were able to successfully utilize new facilities provided by Bangladesh Bank for the development of secondary trading like TWS (Trader work station). BBL treasury was also active in capturing trades with corporate clients in government treasury securities.

Foreign Exchange (FX) Desk: BRAC Bank Treasury is one of the most active market makers in the cross currency trades. We have been a major liquidity provider in the inter-bank market in 2016. Through our FX desk, our dealers have explored proprietary FX trading (mainly in G3 Currencies) and provided pricing facilities to other players in the inter-bank market. Our FX desk also provided funding support to our offshore banking book.

Exchange Rate Movement and Net Open Position (in US \$)

- Actively managed liquidity gaps through superior forecasting in money market.
- Attained incredible market share in interbank secondary trading of government securities.
- Became market maker in providing pricing facilities to interbank counterparties and explored proprietary trading of G3 currencies.
- Enlarged market presence of the bank significantly by providing Forex - spot and derivative solutions to corporate clients across diverse industries.
- Offering global treasury solutions with the help of Bloomberg Terminal, Reuters and Finacle Real Time Treasury System.

USD - BDT exchange rate remained very stable from January to October in 2016. After October 2016, volatility in the market caused around 0.65% depreciation in BDT against USD, far lesser than any other competing currencies. BBL treasury was able to successfully maintain NOP (Net open position) with the market movement accordingly, ensuring maximum profitability and keeping its position within the regulatory limit.

Corporate Sales Desk: Our Corporate sales desk is one of the most energetic teams in the market offering corporate counter parties a wide array of products ranging from simple spot purchase and sale to derivatives for hedging adverse exchange and interest rate movement. The team is currently dealing with over 80 active clients in numerous industries catering to their FX needs. The corporate sales desk has enabled the bank to gain exposure in FMCG, Pharmaceuticals, Cement and Construction materials, RMG, Textile Power, Petroleum and Lubricants, Food, Edible Oil and Telecommunication Industry.

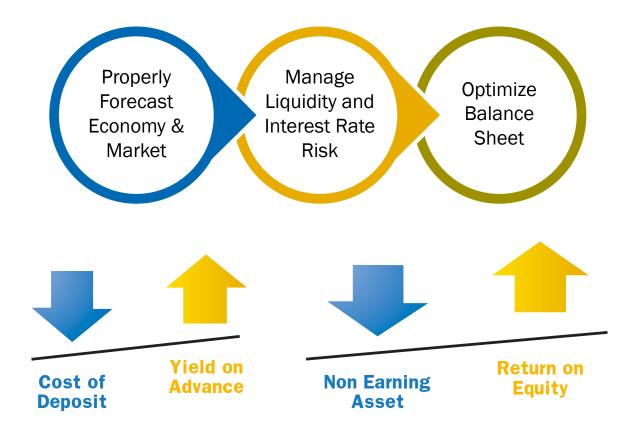

In 2016, our corporate sales desk achieved 42% transaction volume growth compared to last year.

On a weekly basis, the corporate sales desk circulates updates on the currency and interest rate markets to make existing and potential clients aware of the current market scenario and advise clients individually regarding their foreign exchange and interest rate exposures.

Asset Liability Management (ALM) Desk:

The bank has separate ALM desk under Treasury and Financial Institutions, which supplies economic, market and bank information and analysis to Asset Liability Management Committee (ALCO) for taking strategic decision.

ALCO, which meets at least once a month, is responsible for managing balance sheet compositions, determining interest rates to increase efficiency, managing liquidity and interest rate risks and maximizing returns.

Financial Institutions (FI) Desk: Our FI desk maintains relationship with different local and major foreign banks to support our internal and external clients with efficient service and best pricing. FI is offering local

guarantee facility for the overseas banks, that don't have presence in Bangladesh. BRAC Bank is an active partner of GTFP facility of IFC and TFP facility of ADB.

Bloomberg and Reuters: Dealing Room is equipped with Reuters and Bloomberg terminals. These platforms provide the team with instant connectivity with Banks and Financial Institutions in Bangladesh and abroad. It also allows them to conduct analysis of all kinds of securities that the market players are dealing in. The platforms offer a wide array of information from numerous sources enabling the team to conduct

complex analysis and forecasts to support its trading and investment decisions.

Our dynamic Treasury and FI team is one of the top teams in the market in terms of market making and transaction handling. The team aims to be the top treasury team in the market by 2017. The team can be contacted through the following avenues:

CREDIT RISK MANAGEMENT

Credit risk

The risk of suffering financial loss should any of the customers, clients or market counter parties fail to fulfill their contractual obligations to BRAC Bank Limited.

Overview

The granting of credit not only a major source of income for a bank but is also the Principal Risk and BRAC Bank Limited dedicates considerable resource for its control. The credit risk that the Bank faces arises mainly from Wholesale, SME and Retail loans and advances together.

Credit Risk Management objectives are:

- To maintain a framework of control to ensure that taking credit risk is based on sound Credit Risk Management principles set by the Regulator along with internationally accepted best practices.
- To identify, assess and measure credit risk clearly and accurately across the Bank and within each separate business, from the level of individual facilities up to the total portfolio.
- To formulate the Bank's risk appetite and ensure that the business profile and plans are consistent with it.
- To control and plan credit risk in line with External Stakeholder expectations and avoiding undesirable concentrations, to manage the risk profile to ensure specific financial deliverables remain achievable under a range of adverse business conditions, optimize risk/return decisions by taking them as closely as possible to business, while establishing strong and independent review and challenge structures.
- Monitor credit risk and adhere to agreed controls to ensure risk-reward objectives are met and ensure that business growth plans are properly supported by effective risk infrastructure.

Organization and Structure

Wholesale, SME and Retail portfolios are managed separately to reflect the differing nature of the assets; wholesale balances tend to be larger and are managed on an individual basis, while retail balances are larger in number but smaller in value and are, therefore, managed on a homogeneous portfolio basis.

Credit Risk Management responsibilities are structured so that decisions are taken as close as possible to the business, while ensuring robust review and challenge of performance, risk infrastructure and strategic plans.

Roles and responsibilities

The responsibilities of the credit risk management teams include:

- Sanctioning new credit agreements.
- Setting risk appetite.
- Monitoring risk against limits and other parameters.
- Maintaining robust processes, data gathering, quality, storage and reporting methods for effective credit risk management.
- Review and validation of credit risk measurement models.

The role of the Central Risk function is to provide Bank-wide direction, oversight and challenge of credit risk taking. Central Risk sets the Credit Risk Control Framework, which provides the structure within which credit risk is managed, together with supporting credit risk policies.

Credit Risk Mitigation

BRAC Bank Limited employs a range of techniques and strategies to actively mitigate the counterparty credit risks. These can broadly be divided into three types:

162

Credit limit and Sustainable cash flow; collateral; and risk transfer.

Credit limit and Sustainable cash flow

Board-approved prudential limits to address counterparty concentration risks. These allow higher exposure to better-rated customers and lower exposure to lower-rated customers.

Borrower credit-worthiness is determined on the basis of their reliability and ability to make timely payments. Measures of reliability include credit payment history, references from current and past suppliers and qualitative character of the management/ owners. Projected cash flows are also used to demonstrate the ability of the applicant to generate enough revenue and cash flow to make payments within the prescribed terms and conditions.

Collateral

The Bank has the ability to call on collateral in the event of default of counterparty. Collateral is security in the

form of an asset or third-party obligation that serves to mitigate inherent risks of credit loss which improve recoveries in the event of default. Collateral includes cash and cash equivalent instruments, properties (residential, commercial and industrial), capital funds, plant and equipment etc. Collaterals taken by the Bank are well-documented to ensure credit risk mitigation is legally effective and enforceable.

Risk transfer

A range of instruments including guarantees, credit insurance etc. can be used to transfer credit risk from one counterparty to another. These mitigate credit risk in two main ways:

- If risk is transferred to a counterparty who is more creditworthy than original counterparty, then overall risk is reduced;
- Where recourse to 1st counterparty remains, both counterparties must default before a loss materializes. This is less likely than the default of either counterparty individually so credit risk is reduced.

BRANCH BANKING

BRAC Bank has set its sight to become "The Best Bank" in Bangladesh and to achieve this feat, our branches have already started catering customers across all segments under Matrix Management.

BRAC Bank has set its sight to become "The Best Bank" in Bangladesh and to achieve this feat, our branches have already started catering customers across all segments under Matrix Management. During the year 2016, BRAC bank has taken several initiatives to facilitate the channels to co-ordinate better with the segments and products not only to acquire new customers for the bank but also to strengthen the existing relationships with our customers thereby grow business.

Branches will now operate through two separate teams dedicated for Service and Marketing. Service team will be solely responsible for the customer service along with the compliance issues of the branch, while the marketing team will focus on new customer acquisition. Customers are also encouraged to utilize our enhanced Alternative Delivery Channels for general banking services that will simultaneously ensure better service and reduced footfalls during their visits to the branches.

With the vision to boost up the services provided to our corporate customers, management of the bank has decided to nominate 9 branches as Corporate Branches. Apart from serving SME and Retail customers, corporate branches will provide corporate banking services to their customers from different locations. This extended corporate banking network will also assist the bank to develop new corporate banking relationships.

The bank has dedicated a separate cash counter in all the branches across Bangladesh with the intention of providing faster service delivery to our Business Account holders for their daily financial transactions. SME service delivery desk has also been introduced in 10 branches

to provide special services to our SME customers. It's about crafting a delightful experience which, in turn, contributes to better business.

In 2016, BRAC Bank has expanded its distribution network by inaugurating 5 new branches, strategically located across the country in order to reach out to untapped customer segments. The intention is to serve these customers with both innovative and contemporary product line and service solutions that would eventually contribute to the overall economy of the country. The branches are:

- 1. MITFORD BRANCH, DHAKA
- 2. SIDDIRGANJ BRANCH, NARAYANGANJ
- 3. DAULATPUR BRANCH, KHULNA
- 4. LAKSHAM BRANCH, COMILLA
- 5. CHARMATHA BRANCH, BOGRA

In 2017, apart from continuing its expansion to reach out to the unbanked population of Bangladesh, the bank has plans to relocate and renovate a significant number of branches and SME unit offices to further improve our customers' experience.

During 2016, BRAC Bank Ltd. has continued its effort to increase customer engagement by arranging several events at our branches. We have arranged colorful Borsho Boron programs and Art competition for children on "Pohela Boishakh" and "Ekushey February" respectively.

164

CUSTOMER EXPERIENCE

The Bank has had a very good year in terms of financial performance. It is now time that we also renewed our focus on customer service and a powerful overall Customer Experience.

Customer experience is of paramount importance, especially in the service industries. The idea is to understand the customer's needs: speedy service, simple processes, and streamlined experience, predominantly to offer an experience rather than the services or products. BRAC Bank has had an outstanding year in terms of its financial performance, however, we still believe that there's a lot of room for us to enrich our overall customer experience to carry on this momentum and become the best bank in Bangladesh.

Reshaping the Banking Experience

BRAC Bank has re-structured its previously named 'Service Quality' department into a more customer-focused one, labeling it as "Customer Experience" Department. The CE Department co-ordinates with all the relevant departments / divisions and looks for ways to enhance the overall customer experience across the bank. CE is also driving the design of the bank's Customer Experience Strategy for 2017-19.

Listening to the Customer's Voice

Over the years, the quest of ever improving Service Excellence has been playing a vital role in the overall bank's performance, thus significantly contributing as an influential role in the overall organizational goal and expansion.

To keep up with the ever rising and changing expectations of the customers, BBL has conducted Net Promoter Scores for its Branches in 2016.

The study aimed at discovering the areas of satisfaction in terms of availing BBL services in correlation to the industry players and identification of the influencing factors of customers' decision making in terms of selecting a bank for their banking services. Customer experience at BBL has been satisfactory; and thus, was able to retain its customers and acquire new customers. The study also notably guided the bank to address the customers' feedback on the improvement areas.

Caring for the Customers

Alternate Channels

We have launched a staff performance campaign titled 'THE MUSKETEERS' for our Call Centers within the period August 2016 - July 2017.

Since its inception, our Call Center has become one of our biggest strengths in delivering 'Delightful Customer Experience'. They have been the rock-support wall for business at a considerable extent. Ranking as one of the top Call Center in the industry, this super energetic team performs at a team average of 90% of their KPIs and answers 86,000 calls through agents on average, monthly.

To elevate the team spirit between the different groups of GSE's working under our dedicated managers, Top Team and Top 5 Agents, awards are given after completion of every quarter.

To make banking convenient for our customers, we are cordially diverting our customers to the Call Center

for Cheque Book requisition, change in any Contact information, Debit/Credit Card replacement requisition, SMS Banking enrollment, Debit/Credit card activation, de-activation & re-activation, e-statement request for accounts and credit cards, Credit Shield enrollment/de-enrollment, and all the services related to Internet Banking and Cheque Stop request. We are also working to develop processes for accepting Duplicate statement and certificate request at our 24/7 Call Center for savings and loan accounts, credit cards and tax purposes.

Branches

To be the best bank in Bangladesh, we thrive to offer the best experiences to our customers in terms of the branch service quality, the behavior of our service ambassadors, ambience and clean environment.

Our branch ambassadors will be calling up our customers for any service requests the branch has received from them and will request the customers to collect the same within the respective time frame. This is a new initiative which aims at strengthening the bank-customer relationship and make the customers feel that 'We Care for Them'.

To offer a state of the art and clean ambience at Branches – initiatives are taken to ensure the best experience.

While the Branch premises will be evaluated, the well-dressed personnel will also be recognized.

Sales

To proliferate and benchmark Service Quality DNA across all the sales colleagues, a number of trainings are in the pipeline for the coming year ahead.

The Bank as a whole

One for All, All for One! No team can perform fantastically well without the parallel support from the related departments / divisions within the bank. As such, a continuous appreciation program is being planned to acknowledge and recognize the contribution of the supportive team and its members.

Besides this, out of numerous initiatives to drive customer service excellence, continuous recognition programs such as 'Employee of the Month' and 'Team of the Month' will be held across all departments.

BRAC Bank employees are on the platform to ensure Service Excellence as per the customers' expectations which is backed by the total turnover over the last decade which shows a steady growth in today's highly competitive market.

OPERATIONS DIVISION

Driven by the self-prescribed motto, "Ensure Proactive Service Delivery with Adequate Control", 2016 ended on a high note for the operations team.

Centralized Operations

'Centralized Operations' is a unique concept that represents an opportunity to manage risk more effectively and drive down cost. Since 2003, BRAC Bank has centralized its operations ahead of most of the competitors in the industry. However, emphasizing on customer satisfaction, similar support gradually initiated also from the Regional Operating Centers (ROC) placed in various locations across the country. The intention was to ensure quick and effective service delivery to customers in a controlled and compliant manner. BRAC Bank Operations is comprised of 7 Departments - Account Services, Loan Operations, Cards Operations, Trade Operations, Treasury and FI Operations, Payments and Transactions, and Central Operations.

Key Initiatives

2016 has been spectacular for the operations team. Some of the key initiatives taken are as follows:

- Undertaken massive re-engineering to ensure straight-through process deliveries and save TAT.
- Published a handbook on Mortgage Documentation to facilitate staff training and awareness.
- Arranged training for Sales Staffs from all business segments on land and mortgage documentation.
- Rolled-out fully functional in-house teams for legal vetting and valuation of property documents.
- Automated LC Advising through Finacle and IBP/FBP interest calculation to reduce manual task.
- Achieved clean audit observation from both regulators and internal / external auditors.

 Opened two more ROC offices and thus, a total of 9 ROCs are currently contributing to more than 60% of SME loan disbursement, the rest is done from the Head Office.

Future Drives

- Upgrade Core Banking System (CBS) as well as implement some satellite systems interfacing to CBS.
- Continue process re-engineering to embed the best practice to take up service quality to the next level.
- Expand technology driven processes and reduce manual interventions for effective control and monitoring.
- Recruit skilled resources and also undertake various training programs to improve the skill-sets of the existing staffs.
- Upgrade the Card Management System and also update a robust e-commerce system / platform.
- Gradually implement some Trade related services through few targeted branches and ROCs.
- Implement and interface local bill payments through the payment systems like RTGS, EFTN & SWIFT.
- Expand support by initiating Retail Personal Loan and Account Opening (both SME & Retail) at all ROCs.
- Initiate to launch the in-house built e-Archive software for effective archive data base management.

INFORMATION TECHNOLOGY DIVISION

The Technology team has been equipped with more skilled members to achieve excellence in providing superior services.

Technology is the one of the key enablers in equipping our bank to meet its mission to excel forward and become the best bank in Bangladesh. Improvements in technology lead to providing superior services to our valued customers. In 2016, investments in technology have been a key focus of our bank.

Positive changes in technology helped in improving the operational efficiency which in turn had made effective business decisions much easier. Adopting the latest technology and leap frogging to new innovative ideas have been some of the key areas that will eventually help cater the best services to the internal stake holders and customers in the coming years.

There has been lot of enterprise solutions planned in technology in line with business strategies & growth through heavy investments in the year 2016-17; some of these are significant upgrades on the Core Banking platform to facilitate next generation banking; a more sophisticated Card Management system, Responsive and unified E-commerce platform, RTGS Automation, Oracle Enterprise Resource Planning through Cloud, state of the art Call center to handle customer queries, AML and Fraud Solutions etc.. We are upgrading our Retails and SME business points with better networking

capability and equipping the business centers with topquality PC's and peripherals to engage employees more on meeting customers demands.

The Technology team has been equipped with more skilled members to achieve excellence in providing superior services. The system uptime has been significantly higher and legacy systems are all getting replaced. Our Data center has been upgraded with better capabilities & systems and the Disaster recovery center has been focusing on hosting more redundancy of critical and important back office solutions. Some of the innovative solutions that will be initiated in 2017, the benefits of which are to be realized in 2018/19, are Document Management System along with Customer Relations Management to address paper free office and to handle customer issues more digitally as well as Robotics and Artificial Intelligence capability in operational activity. Furthermore, we shall explore the ideas of Data warehousing, Data Analytics, Loan origination systems, Asset liability etc. as we grow.

Our vision is to differentiate ourselves as the bank that provides a customer with the best banking experience through innovative technologies.

SUBSIDIARY OVERVIEW

bKASH

LIMITED

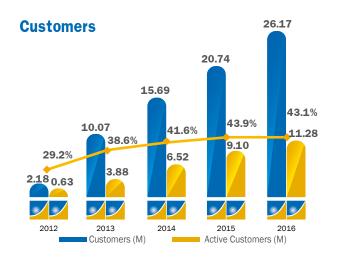

2016 was yet another milestone year for bKash with the business achieving some remarkable targets which will have an impact on how the mobile financial services industry will shape in the years to come.

Introduction

In the 5th year of operations, bKash continues to grow from strength to strength, reinforcing the cause for greater financial inclusion to the unbanked section in Bangladesh. 2016 was yet another milestone year for bKash with the business achieving some remarkable targets which will have an impact on how the mobile financial services industry will shape in the years to come.

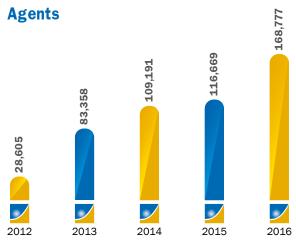

number of customer acquisition in 2016 was 5.4 million. The growth in customer registration was supported by more than 168,000 agents spread across Bangladesh. Compliance being a high priority for bKash agent, agent selection is a stringent process and the agents are regularly given training and awareness programs on AML/CFT issues, customer protection etc.

financial transaction in the last 90 days). The total

Key achievements in 2016

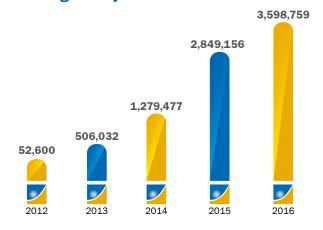

Over the last five years the number of registered customers has exceeded 26 million with an active customer base of more than 43% (Active customer is defined as a customer who has made at least one

In 2016, the total volume that passed through the bKash system exceeded BDT 1800 billion with the majority of the transaction being in Cash in, Cash out, Peer to Peer & Airtime TopUp. Network connectivity has been established with all GSM operators in Bangladesh making the services available to nearly 100% of the population of Bangladesh.

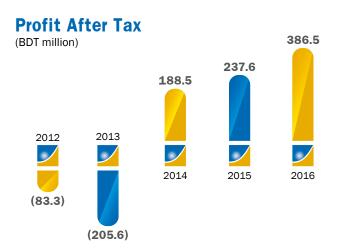

Significant investments have been made in upgrading the platform capacity in order to cater to the increasing demand. bKash has built its own state of art Data Center in 2016 and also is continually investments in enhancing the core platform.

Average Daily Transactions Count

Financial Performance

Net Profit after tax was BDT 386 million which is a 63% increase of prior year.

This increased profit is at the backdrop increased transactions and higher float. With new customer acquisition and higher active ratio total number of transactions increased by nearly 26% to 1.3 billion in 2016. As a result of the increased customers and agents subscription in the bKash network the float registered an increase of 58% over 2015. The total revenue (comprising of transaction revenue and float) was BDT 15 billion which was 40% higher than prior year.

BRAC EPL STOCK BROKERAGE LIMITED

BRAC EPL Stock Brokerage Limited (BESL) is the 3rd largest stock brokerage house in the country with dominant market share in the foreign portfolio investment execution segment. The company also offers brokerage services to local institutions, retail clients and non-resident Bangladeshis (NRBs) through 8 branches.

Product and Services

BRAC EPL Stock Brokerage Limited offers stock brokerage services to all Bangladeshi and International Capital Market Investors.

Public market investment execution

BESL is ranked 3rd among 250 brokers in Bangladesh as of December 2016, with a market share of ~3.6%. Currently, through 8 branches and 103 employees, the Firm serves around 26,000 local clients and 50 foreign institutional clients. In 2016, the firm had highest market shares of ~55% in executing foreign portfolio investments and ~37% of the total block market transactions. The main focus of BESL in 2017 will be to nurture the "Retail" segment. As a part of this strategy, BESL has launched "Bull Fight" campaign in collaboration with BRAC Bank Limited through which new clients will be tapped using the skilled sales force of BRAC Bank.

Investment research & advisory service

BESL pioneered the investment research industry in Bangladesh. Currently the Research Department, with 10 analysts including 2 CFA charter holders and 2 CFA charter pending members, has broader investment research and investment advisory mandates. The team has research partnership with Macquarie Securities Group –world's 8th largest sell-side equity research firm in addition to research partnership agreements with Bloomberg, Thomson Reuters, S&P Capital IQ and Fact Set. Following are some of the key achievements of the team in 2016:

- 1. The recommended investment composite of the team generated 19.9% return in 2016, outperforming the benchmark index by ~11.1%.
- Initiated coverage on three new companies: IDLC, City Bank and Berger. Since publication of the equity note, these stocks have unlocked value and given significant return to investors generating 61.6%, 34.7% and 5.4% return respectively as on Feb 13, 2017
- 3. First time participated in bidding for an International Research work by Stewart Investors on "Financial Inclusion Project" and successfully won the bid after competing with Research Firms from other countries. The work, which includes analysing 30 companies across 16 countries, will generate USD 30,750 in advisory fees.
- Carried out "Due Diligence" of a listed Private Commercial Bank on behalf of Islamic Corporation for the Development (ICD) for acquisition purpose, generating USD 35,000 in advisory fees.
- In addition to the above, the team also generated USD 103,100 in Research and Advisory Fees from foreign investors and BDT 6.6 million from local institutional clients.

Capital Market Review 2016

The year 2016 has been brisk in terms of capital market activity, especially the second half of 2016. In the first six months of the year DSEX - the benchmark free float weighted market index - was down by 2.6% but the index ended the year with 8.8% gain. It crossed the benchmark 5,000 point in the process and ended the year at 5,036.05 points. Turnover has also picked up with increasing participation from retail investors. Daily average turnover value stood at BDT 4.9 billion for the full year while in the last two months (Nov'16 and Dec'16) it was BDT 7.7 billion.

Foreign Portfolio Investments also increased in 2016. Foreign turnover as a percentage of total market turnover stood at 7.4% in 2016, compared to 7.2% in 2015 and 4.9% in 2014. Net foreign investment in 2016 was USD 172.5 million (BDT 13.4 billion). As per the latest available data of DSE, foreign funds now own 5.5% of total market capitalization while their holding is 9.5% for top 20 large cap companies.

Financial Performance

BRAC EPL Stock Brokerage has managed to maintain the 3rd position among 250 brokers. On average, BESL had 3.6% market share of DSE turnover, 0.7% of CSE turnover and 3.4% of total turnover.

Operating Results

BESL net profit after tax in 2016 was BDT 95 million; increased by 20% or 16 million. Our Foreign Institutional Investment (FII) business continued to play a major role

in total turnover. FII business was 55% of total turnover in 2016 compared to 43% in 2015. We managed to reduce the operating expenses by 0.13%.

Future Outlook of industry and Company position

We expect the capital market to remain stable and retail investor participation to increase throughout 2017. We are observing record low rates in the banking sector as lending rates have now come down to single digit. As interest rates continue to remain low and government savings tool are also expected to lower the rates, alternate investment opportunity has become less attractive to investors. This will drive investor participation in the market and help it grow. Also we don't see any political disruption in the near future. We are expecting 40-45% increased turnover volume in next three years in the market and we aim to increase our market share to 5.8% and securing our leading position in both local and foreign market.

BRACIT

SERVICES LIMITED

BRAC IT Services Limited, is the youngest proud member of the eminent BRAC Bank family and is one of the leading IT solution & service providers in Bangladesh.

BRAC IT Services Limited, is the youngest proud member of the eminent BRAC Bank family and is one of the leading IT solution & service providers in Bangladesh, specializing in End to End Process Solution & Service Management. Customers can achieve operational efficiency by transforming their existing operation using biTS best valued solutions and services. biTS is committed to provide better quality of the solution and services, and ensure information security as per ISO/IEC 20000-1 ITSMS and ISO/IEC 27001 ISMS guidelines for which biTS has been recommended for certification in January 2016.

biTS is committed to imprint a positive impact in the Digitization of Bangladesh in the near future and impact effectively in the poverty alleviation movement along with its sister concerns.

BRAC SAAJAN EXCHANGE LIMITED

The Company has also entered into business relationships with number of European Payment Institutions with large networks during the 2nd half of the year.

During 2016 BRAC Saajan looked at diversifying its market and products as well as continuing to be the largest remitter to Bangladesh with over a 25% market share of the remittances sent from the UK. New products include Pre-Paid Card, which goes live from January 2017, and remitting through the online platform, which again is going live from January 2017. The Company has also entered in to business relationships with number of European Payment Institutions with large networks during the 2nd half of the year.

BRAC Saajan's commitment has always been to its consumer and communities so not only have we been diversifying and offering new products, we also strive to achieve the most competitive exchange rates for our consumers through our relationships with our banks in our beneficiary countries, thus providing our consumers the best "Value for Money",as well as providing them with the best customer service possible.

The European Payment Institute sector is highly regulated and competitive. To retain the sustainability and grow in this sector, the Company needs to expand its network globally. While the focus remains to serve the large non-resident Bangladeshis in European countries, the Company is allocating resources to expand its services from other African, Asian, Trans-Atlantic countries to Bangladesh.

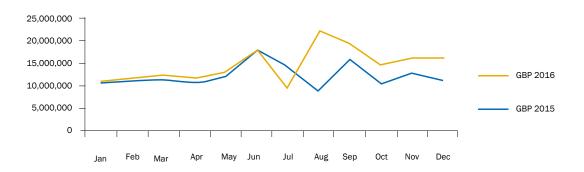

The Company is currently providing its services from 9 European countries to Bangladesh, India, Pakistan, Sri Lanka and Poland.

BRAC Saajan's commitment to Anti-Money Laundering (AML) and compliance training saw its 'On-line Learning Module' rolled out in 2016. All employees of BRAC Saajan have successfully passed the exam. The compliance team is using this successful online learning tool to ensure that all employees and agents are trained on AML compliance on an ongoing basis. During 2016 BRAC Saajan also automated its Remit ERP System with its regulators to strengthen further it's money laundering and terrorist financing policy. BRAC Saajan takes AML Compliance very seriously. It does everything to prevent itself, its staff and its agents being used to facilitate money laundering and terrorist financing under the

terms of relevant Payment Services Regulations, Money Laundering Regulations, Proceeds of Crime Act, and Counter-Terrorism Act. The chart below projects the increase in remittances sent by BRAC Saajan in the UK and EU in 2016 in comparison to 2015.

Remittance value by month (GBP'M)

2016 laid the foundations for an exciting 2017 for BRAC Saajan with projects such as its on-line/ mobile app, the

pre-paid card, the commercial partnerships it's created and the doors it's opening to remit to new countries.

BRAC EPL INVESTMENTS LIMITED

A Brief Highlights for Annual Report 2016

Structured Finance, Private Equity and Mergers & Acquisitions Department: Under new strategy and leadership, BRAC EPL Investments Limited (BEIL)'s advisory team successfully closed Non-Convertible Coupon Bearing Subordinated Bonds of IFIC Bank Limited with an issue size of BDT 3,500.00 million qualified as Tier-II capital. Notably, it also completed advisory on behalf of newly forged relationships with foreign institutional investors operating in Food and Allied, Software and IT, Engineering and Financial Service sectors based in Hong Kong, Vietnam and Japan. Besides, our services have provided the best complement to our parent and group organization's recurrent yet cutting edge investment advisory mandates. In this regard, our

team successfully closed buy-side financial advisory for an acquisition made by BRAC and BRAC International in the digital wellness sector.

Portfolio Management Department: The Year 2016 can be termed as the year of stabilization of the capital market. Due to regulatory measures and encouraging signals from the Government, the market is expected to improve in the coming years. With the widening of the market such as listing of new companies as well as disinvestment of Government controlled shares, the liquidity in the market is expected to deepen encouraging new investors to join the market. This will propel the market to develop further in 2017 and beyond; on top of the stable platform that has been created during 2016.

CORPORATE GOVERNANCE REPORT

We sincerely recognize the fact that, it is not possible to achieve and maintain loyal base of customers without providing tailored and down-to-earth financial service solutions to customers.

Corporate Governance at BRAC Bank is aimed at being the trusted brand to stakeholders by dealing with them in a transparent and accountable manner. BRAC Bank believes in sustainable business and transparency is the only way of achieving that.

BRAC Bank being a bank with widespread service network offers myriad of its banking solutions to individual and institutional customers who vary widely in their financial needs, profile, awareness level and support requirements. We sincerely recognize the fact that, it is not possible to achieve and maintain loyal base of customers without providing tailored and down-to-earth financial service solutions to customers.

Philosophy on Code of Corporate Governance

BRAC Bank believes in adopting and adhering to the best standards of corporate governance to all the stakeholders. The Bank's corporate governance is, therefore based on the following principles:

- Appropriate composition, size of the Board and commitment to adequately discharge its responsibilities and duties.
- Transparency and independence in the functions of the Board.
- Independent verification and assuring integrity of financial reporting.
- Adequate risk management and Internal Control.

190

- Protection of shareholders' rights and priority for investor relations.
- Timely and accurate disclosure on all matters concerning operations and performance of the Bank.

The Bank's philosophy on corporate governance enshrines the goal of achieving the highest levels of transparency, accountability and equity in all spheres of its operations and in all its dealing with the shareholders, employees, the regulators and other relevant stakeholders. By doing that, the bank demonstrates its understanding and respects towards its fiduciary role and responsibility to shareholders.

Board of Directors:

BRAC Bank is always sincere in ensuring compliance of regulatory guidelines comprising of Bangladesh Bank circulars, BSEC notification, Bank Company Act and Company Act in appointing Board of Directors. In compliance with BRPD circular no. 11 dated 27th October 2013, all the appointments in board are made with prior approval from Bangladesh Bank strictly following the prescribed procedure. Eligibility of individuals are screened against section 15 of Bank Company (Amendment) Act 2013 prior to election and appointment of new directors. It is worth noting here that, number of independent director representing in the board well exceeds the minimum requirement as stipulated in the Bank Company (Amendment) Act 2013 and all of them are appointed with prior approval of BSEC.

Board composition

The Board of Directors independently carries out its responsibilities and has a composition that facilitates effective oversight. For that purpose, the Board of BRAC Bank Limited is comprised of a sufficient number of independent directors.

The Board is comprised of individuals with a balance of skills, diversity and expertise, who collectively possess the necessary qualifications commensurate with the size, complexity and risk profile of the bank. In assessing the collective suitability of the board, the following issues are taken into account by the Bank:

- Board members have a range of knowledge and experience in relevant areas and have varied backgrounds to promote diversity of views.
- The board collectively have a reasonable understanding of local, regional and, global economic and market forces and of the legal and regulatory environment.

Authority and responsibility of board of directors:

The board provides strategic direction and bears oversight responsibility in policy formulation and implementation thereof, risk management, internal control, internal/ statutory/regulatory inspections and materialization of recommendations. Apart from that, the board regularly sits to formulate appropriate action plan to materialize the strategic plan set out at the beginning of the year and periodically review their materialization in due course. Regular review of organizational structure and necessary changes in line with operational scenario and strategic objectives is also under the purview of the board. The board has a supervisory and oversight body regularly comes with constructive recommendations to enhance efficiency and mend the operational loopholes and control weaknesses. As part of its organizational performance review program, the board makes sure to enforce alignment of remuneration and rewards with function specific strategic objectives. Key Performance Indicators (KPIs) of senior executives of the bank as endorsed by the board are periodically evaluated by it. The board guides the credit risk management across the bank through formulation and review of policies and procedures on credit evaluation, sanction, disbursement, recovery, rescheduling, write-off etc. Limit for approval of loans are delegated down the line to management of the bank and each and every member of the board consciously refrain from interfering in this regard. The board in regular periodicity, review the compliance status of core risk guidelines in line with the bank's vision to become the best compliant bank of the country.

In order to ensure integration of internal controls and compliance of standard operating procedures, the board empowers independent audit in the bank and ensure the fact that, the independent audit operates without any impact or impediment from management. The board is periodically reported on the status of human resource management in the bank particularly about adequacy of resources, proper trainings, and MIS and due diligence on part of HRD in monitoring compliance of code of ethics.

With a view of enhance values for shareholders and ensure sustainability of the bank, the board enforces strict controls in capital adequacy and financial management of the bank. Capital nature expenditure with substantial value are always subject to the feasibility study and approval by the board. To ensure dedicated focus on separate domains of the board's responsibility, the board forms specialized committees namely the executive committee, the Board Audit Committee (BAC) and a risk management committee.

Role of the chairman

The chairman of the board plays a vital role in the proper functioning of the board. The chair provides leadership to the board and is responsible for its effective overall functioning, including maintaining a relationship of trust among board members. The chairman of the Board possesses the requisite experience, competencies and personal qualities in order to fulfill these responsibilities. The chairman ensures that board decisions are taken on a sound and informed basis. The chairman encourages and promotes critical discussion and ensures that dissenting or alternative views can be freely expressed and discussed within the decision-making process.

Management:

BRAC Bank believes that it falls on management of the bank to implement course of actions to uphold corporate governance under direct oversight from the board. Accordingly, specialized committee are formed constituting of executives from responsible position to ensure compliance of internal as well as regulatory guidelines and follow-up implementation of action plan and recommendations as forwarded by board, internal audit, regulatory inspection team and statutory auditors. Recommends appropriate disciplinary action against the involved employee/s as per the findings of the investigation report/s or written compliant/s. Recommends decisions, based on which, HR takes appropriate action against the involved employee/s and closes the case.

Governance of group structures

In operating within a group structure, the Board of Directors of BRAC Bank is aware of the material risks and issues that might affect both the bank and its subsidiaries. It exercises adequate oversight over subsidiaries while respecting the independent legal and governance responsibilities that apply to subsidiary boards. In order to fulfill its responsibilities, the board of BRAC Bank Limited:

 establish a group structure (including the legal entity and business structure) and a governance framework with clearly defined roles and responsibilities;

- define an appropriate subsidiary board and management structure to contribute to the effective oversight of businesses and subsidiaries, which takes into account the different risks to which the group, its businesses and its subsidiaries are exposed;
- assess the group's corporate governance framework which includes adequate policies, processes and controls and addresses risks across the business and legal entity structures;
- ensure the group's corporate governance framework including appropriate processes and controls to

identify and address potential intra-group conflicts of interest arising from intra-group transactions;

 have sufficient resources to monitor compliance of subsidiaries with all applicable legal, regulatory and governance requirements.

Ethics and compliance:

BRAC Bank believes in sustainable growth in a socially responsible manner driven by transparency, empowerment and innovation. They again are founded on high level of ethical standards at individual and organizational level reflected through 7 core values as endorsed by the bank. Abbreviated as CRYSTAL, the values are creative, reliable, youthful, strong, transparent, accountable, and loyal. In order to integrate this value in day to day operation and strategic decisions of the bank, orientation and refresher trainings facilitated by HRD incorporate communication and interpretation of them and this communication is augmented by senior management communications down the line from time to time reiterating the importance of dealing our stakeholders in a transparent, honest and mutually beneficial manner. In corporate programs arranged around the year in distinct business zones, senior executives remind sales people to have a strong customer focus and building up long term customer relationship based on integrity with superior and tailored services extended in a compliant manner. On top of that, the bank has vowed to become the best compliant bank of the country within the next couple of years and is constantly working towards that through trainings and awareness campaigns. The ethical practice in banking and support services at the bank is implemented in practice through three key elements:

- √ A written course of conduct to be read and confirmed by each and every on-boarding staff member of the bank and to be refreshed on a periodic basis.
- √ Policy level statement on Equality and Safety in workplace.
- √ System of confidential reporting

According to the code of conduct, it is personal responsibility of every staff member of the bank to act as an ethical role model for all the stakeholders of the bank and this responsibility is more conspicuously reiterated for the executives in leadership position to create example of ethical behavior for their subordinates down the line.

BRAC Bank believes in sustainable growth in a socially responsible driven by transparency, manner empowerment and innovation. They again are founded on high level of ethical standards at individual and organizational level reflected through 7 core values as endorsed by the bank. Abbreviated as CRYSTAL, the values are creative, reliable, youthful, strong, transparent, accountable, and loyal. In order to integrate this value in day to day operation and strategic decisions of the bank, orientation and refresher trainings facilitated by HRD incorporate communication and interpretation of them and this communication is augmented by senior management communications down the line from time to time reiterating the importance of dealing our stakeholders in a transparent, mutually honest and beneficial manner.

A code of ethics does not mean much without articulation of specific repercussions in case of violation. Accordingly, the bank has policy on disciplinary actions detailing the type of unethical behaviors subject to punitive measures and procedures to follow in imposing disciplinary action on an employee. The policy is aimed at ensuring standard treatment of violation and giving the alleged an opportunity to defend him or herself.

The sheer importance BRAC Bank place on ethical practice is also reflected in its process of personal evaluation coordinated by HRD and conducted across the bank on periodic basis. Substantial score is allocated for bearing the values of the bank and upholding them in carrying out respective job responsibilities. As personal growth and remunerations of an employee is directly linked to the periodic evaluation, it can safely be argued that, ethical practice gets rewarded in both

professional growth and financial benefits form. Hence, the remuneration and placement system is structured in a manner to give priority to those with superior moral values and demonstrations thereof.

The independent audit function of the bank with its distinct set of criteria for classification of observations according to the gravity of issues and their impact on bank, classifies any moral hazard as a zero tolerance issue and any such observations get special highlight in the internal audit report. Hence, with internal audit having significant impact in annual performance review of branches and head office functions, ethically sound functions gets collective recognition in this manner.

Environmental and social obligations:

Credit policy of BRAC Bank impose specific prohibition on lending in business with exploitation form of forced labor or child labor, generate radioactive waste, violates any international convention and agreement, involved in speculative investment, gambling, casinos and equivalent materials and any other business which deals with product or activity deemed illegal under the law of Bangladesh. The credit approval authority of the bank also discourages lending in environmentally sensitive industry like logging, tannery, mining and business that deals with banned chemical substances. On top of that, for the last couple of years, the bank is extensively lending in bio-fuel, waste management and renewable energy companies. In line with credit risk management guidelines as issued by Bangladesh Bank, disbursement above certain threshold and in certain form of industries are subject to obtaining NOC (No Objection Certificate) and other relevant approvals from appropriate government authorities. As part of green banking initiatives, awareness campaign are frequently conducted to reduce carbon footprint on banking operations apart from there being a separate module on green banking in the orientation module.

ANNUAL REPORT 2016

REPORT OF THE BOARD AUDIT COMMITTEE

The Audit Committee provides assistance to the Directors of the Bank in fulfilling their responsibilities to the shareholders relating to corporate accounting matters.

The Board of Directors of BRAC Bank Limited has established an Audit Committee in compliance with Bangladesh Bank and Bangladesh Securities and Exchange Commission guidelines with a view to systematic and continuous review, monitor and assessment of performance of the organization against regulatory requirement, established policies/ processes/ procedures, management of risk and compliance with laws.

Purpose of Audit Committee

The Audit Committee provides assistance to the Directors of the Bank in fulfilling their responsibilities to the shareholders relating to corporate accounting matters, the financial reporting practices of the Bank, and the quality and integrity of the financial reports of the Bank. The Audit Committee's purpose is to:

- a. Assist the Board for oversight of:
 - (i) Implementation of the objectives, strategies and overall business plans set by the Board for effective functioning of the Bank.
 - (ii) The reliability and integrity of the Bank's accounting policies and Statutory reporting requirements and disclosure practices;
 - (iii) The establishment and maintenance of processes to assure compliance with all relevant laws, regulations, and Bank policy, including a

- process for receipt of complaints and concerns regarding management fraud and accounting, internal control or auditing matters;
- (iv) The independent auditor's qualifications and independence; and
- (v) The performance of the Bank's External audit function (including prudential audit requirements) and internal audit function.
- b. Prepare the report of the Audit Committee to be included in the Bank's annual report.

Composition of Audit Committee

The Board Audit Committee of BRAC Bank Limited is comprised of three Members of the Board of Directors including two Independent Directors in accordance with the Notification on Corporate Governance issued by BSEC on 07 August 2012 and Bangladesh Bank BRPD Circular No. 11 dated 27 October 2013. The composition of the present Board Audit Committee is as follows:

Dr. Hafiz G.A. Siddiqi - Chairman Shib Narayan Kairy - Member Kazi Mahmmod Sattar - Member Rais Uddin Ahmad - Secretary

All three of the members are non-executive directors. Dr. Hafiz G.A. Siddiqi and Kazi Mahmmod Sattar are the independent directors.

The Company Secretary of the Bank is the Secretary of the Board Audit Committee and Head of Regulatory Affairs & CAMLCO of the Bank, concurrently reporting to the Chairman, Board Audit Committee, Board of Directors and the Managing Director.

The Head of Internal Control & Compliance of the Bank concurrently reports to the Chairman, Board Audit Committee and the Managing Director.

Participation of non-members

Arepresentative of Internal Control & Compliance Division attends and participates in meetings of the Committee. The Managing Director and Deputy Managing Directors also attend meetings of the Committee, together with pertinent other members of Management as the Committee determines.

Access to the Committee

On any matter within the Committee's Charter, the Head of Internal Control & Compliance has direct access to the Audit Committee.

Roles & Responsibility of Audit Committee

The following functions shall be common recurring activities of the Audit Committee in carrying out its purpose. These functions should serve as a guide with the understanding that the Audit Committee may carry out additional functions and adopt additional policies and procedures as may be appropriate in light of changing business, legislative, regulatory, legal or other conditions. In addition to any other responsibilities which may be assigned from time to time by the Board, the Audit Committee is responsible for the following matters:

- a. Internal Control and Compliance Activities:
 - Compliance with existing laws and Regulations;
 Prudential Regulation for Banks: Selected Issues;
 - Review whether the laws and regulations framed by the regulatory authorities (central bank and other regulatory bodies) and internal regulations approved by the Board have been complied with;

responses. Review that findings and recommendations made by the Internal Auditors for removing the irregularities detected and also running the affairs of the Bank are duly considered by the Management;

- To guide Bank's Management for ensuring compliance on audit recommendation(s) and scope of development;
- To review compliance status of audit recommendation;
- Annual assessment of the performance, adequacy and independence of the internal audit function and report to the Board on the outcome of that assessment;
- To recommend audit findings to be placed to the Board of Directors.

b. External Audit:

- Adopt procedures for the selection and appointment of the External Auditor;
- Review the External Auditors' proposed audit scope and approach, including coordination of audit effort with internal audit;
- To review the auditing performance of the External Auditors and their financial audit report and management report;
- Review that findings and recommendations made by the External Auditors for removing the irregularities detected and also running the affairs of the Bank are duly considered by the Management;
- To guide Bank's Management for ensuring compliance with audit recommendation;
- Assist the Board regarding the appointment and removal of the External Auditors.

c. Financial Reporting:

- To review the annual financial statements and determine whether those are complete and consistent with the accounting standards set by the regulatory authority;
- Oversee compliance with the statutory financial reporting obligations;

- Review: (i) the Bank's disclosure controls and procedures; (ii) any significant deficiencies in the design or operation of internal controls of the Bank which could adversely affect the Bank's ability to record, process, summarize and report financial data; and (iii) any fraud, material or otherwise, that involves management or other employees who have a significant role in the Bank's internal controls;
- To meet with Management and the external auditors to review the financial statements before submission;
- To improve the financial reporting quality by ensuring significant adjustments resulting from audit and compliance with accounting standards and that the expenses are not hidden and the off-balance sheet activities do not have any material effect on the situation;
- To discuss earnings, press releases, as well as financial information provided to analysts and rating agencies;
- To discuss with Management the Bank's major financial risk exposures and the steps management has taken to monitor and control such exposures;
- To oversee compliance with the statutory financial reporting obligations of the Bank and pertinent processes and policies;
- To assist in financial planning and budgeting as per financial audit;
- To guide Bank's Management in view of optimum usage and allocation of financial resources.
- Review statement of significant related party transactions submitted by the Management.

d. Fraud and Forgery:

- To review Fraud and Forgery Report and advice Management on corrective and preventive action as applicable;
- To advise Management on potential threats of fraud and forgery activities

e. Ethical and Legal Compliance:

 Review with the code of conduct, any legal or regulatory matter that could have a significant impact on the financial statements;

- Establish procedures for the receipt, retention and treatment of complaints and concerns (including a procedure for submitting such complaints and concerns on a confidential and anonymous basis) received by the Bank regarding management fraud and accounting, internal accounting controls, or auditing or related matters.
- Ensure Management has a proper review system in place to ensure that financial statements, reports, and other financial information disseminated to governmental organizations and the public satisfy legal requirements.
- Review, at least annually, policies with respect to risk assessment.
- Establish a code of ethics for the financial personnel of the Bank in accordance with applicable law, rules and regulations.
- Exercise reasonable oversight with respect to the implementation and effectiveness of the Bank's compliance and ethics program, including being knowledgeable about the content and operation of such compliance and ethics program.

f. Others:

- Place compliance report before the board on quarterly basis regarding regularization of the errors & omissions, fraud and forgeries and other irregularities as detected by the internal and external auditors and inspectors of regulatory authorities;
- Developing clear hiring policies for employees;
- To review the adequacy of the Bank's insurance coverage;
- To monitor the systems that management has established to implement the Bank's information security and Business Continuity Programs (BCP);
- Perform other activities related to this Charter as requested by the Board of Directors.
- Institute and oversee special investigations as needed;
- Review and assess the adequacy of the Committee Charter annually, requesting Board

approval for proposed changes, and ensure appropriate disclosure as may be required by laws or regulations;

- Confirm annually that all responsibilities outlined in this Charter have been carried out;
- Evaluate the Committee's and individual members' performance on a regular basis;
- Perform other oversight functions as requested by the Board.

Audit Committee Meetings:

In general, the Board Audit Committee of the Bank sits once in every two months, but an emergency Board Audit Committee meeting can be called if required. A total of 06 (Six) Audit Committee meetings were held during the year 2016. In addition to regular concerns such as review the existing risks & mitigation techniques, compliance culture of management, monitoring internal audit function & financial statements, on time return, findings and recommendations of external & Bangladesh Bank auditors etc., the following issues were given special focus:

Meeting date	Attendance	Focus points
23/02/2016	Dr. Hafiz G.A. Siddiqi Shib Narayan Kairy Kazi Mahmood Sattar	1. Comprehensive Audit Report on 34 Branches was placed before Board Audit Committee and were discussed & noted. The Committee advised to make a presentation on the current methodology for rating of Branches in the next BAC meeting.
		2. Spot Audit Reports of 21 Branches, SMEKBs & SMESCs were placed before the Board Audit committee and were discussed & noted.
		3. Internal Audit Report on "IT infrastructure & Asset Management" and "Branch information system Audit on Tongi Branch, SME Unit & Ashkona Branch" were placed before the Board Audit committee and were discussed & noted.
		4. Internal Audit Report on "Foreign Exchange Transaction Monitoring systems, Company Secretariat (share unit), Treasury and Financial institution operations and Spot Audit on Liability Sales (Retail) and Liability sales (SME)" were placed before the Board Audit Committee and duly noted.
11/04/2016	Dr. Hafiz G.A. Siddiqi Shib Narayan Kairy Kazi Mahmood Sattar	1. Draft Audited Annual Financial Statements for the year ended December 31, 2015 was placed before the Committee and was discussed and noted. The Committee suggested placing the Financial Statements before the Board with necessary modifications.
		2. The management informed about the current status of ATM operation where 25 ATMs have already been replaced with anti skimming device, 50 ATMs will be replaced with anti skimming devices by the end of April 30, 2016 and rest of the 87 ATMs will be done by the end of July, 2016. The Committee advised to provide an update in the next BAC meeting.
		3. An investigation report on Delay in Procuring New Network Switch for Anik Tower was discussed in the Board Audit Committee and they were informed that two units of distribution switches have already been installed and configuration is on-going that would be completed by April 15, 2016. The Committee advised to provide an update in the next BAC meeting.
		4. Annual Health Report of BRAC Bank Limited for the year 2015 was placed before the Board Audit Committee and was duly noted.
		5. Certification on the Overall Effectiveness of internal control system in BRAC Bank Limited was placed before the Board Audit Committee and was discussed and noted.

Meeting date	Attendance	Focus points
20/06/2016	Dr. Hafiz G.A. Siddiqi Shib Narayan Kairy Kazi Mahmood Sattar	1. The Committee was updated that only 10 ATMs are remaining to be replaced with anti-skimming device which would be completed by June 30, 2016. The management also informed that there are 80 ATMs with anti-skimming device but there are not EMV enabled which is a regulatory requirement. As such those ATMs also need to be replaced with written down value of BDT 9,128,315. As such, necessary measures are advised to be taken to complete the replacement process. An update in this regard needs to be provided in the next BAC.
		 2. Comprehensive Audit Reports on 16 Branches were placed before the Board Audit Committee and were discussed & noted. The Committee had the following observations/ recommendations: a. Audit report should include a disclosure of sample selected in such a way that the deviation in sample would substantially reflect the
		 status of actual population. b. Audit report should be able to analyze trend of audit rating of Branches along with frequency and impact of major audit observations. c. Existing DCFCL should be reviewed and utilized to serve purpose of a comprehensive self assessment report on compliance culture to be furnished by Branch Manager and validated by the audit team
		subsequently. 3. Internal Audit Report on 30 SME Unit Offices was placed before the Board Audit Committee and the Committee discussed few anomalies involving unit officials. The Committee advised to take necessary action on the officials concerned and provide an update in the next BAC.
		4. Internal Audit Report on "Alternate Delivery Channel", Follow up Audit on "Integration and Operation of Cash Deposit Machine (CDM) and In-House developed software" and Review on "In House Applications" was placed before the Board Audit Committee and were discussed & noted. The Committee had the following observations / recommendations:
		The Committee discussed on the In House Applications currently in use and instructed management for a comprehensive review on the Applications and reduces the number of applications that are not being used or are no more required. The Committee advised to provide an update in the next BAC.
		 The Committee also instructed to initiate a process for developing in house applications and going forward all applications would be developed complying the process. The Committee also advised to provide an update in the next BAC.
16/08/2016	Dr. Hafiz G.A. Siddiqi Shib Narayan Kairy Kazi Mahmood Sattar	The committee was updated regarding the current status of replacement of ATMs with anti-skimming devices and instructed to provide an update once such replacement is completed.
		2. The Committee discussed on the in House Applications currently in use and instructed management for a comprehensive review to reduce the number of applications that are not being used or are no more required. In this regard, management informed that five in house applications had already been closed. An update in this regard needs to be provided in the next BAC.
		 The management informed that the recruitment process had reviewed and they have plan to make it on line with the new ERP solution. The Committee instructed to revisit the current employee dismissal
		procedures in practice through obtaining a legal vetting from an expert.

Meeting date	Attendance		Focus points
		5.	Comprehensive Audit Reports on 10 Branches, 9 SKBs & 3 SSCs were placed before the Board Audit Committee and were discussed & noted. The Committee had the following recommendations: a. Effective Monitoring should be established to check whether branch officials arrange weekly discussion on case study shared by Head Office evidenced with a meeting minutes. This should be included in the scope of branch audit as well.
			b. The Committee instructed ICC to review Supervisors' visit report on Branches and submit a summary of the same to the next BAC.
		6.	Comprehensive Audit Report on "Trade Operations - Import, Export, Export RMG (BTB) & OBU and Bank Guarantee", Comprehensive Audit Report on "Cash Incentive Files", and Follow up audit on "Special Audit on BRAC IT Services Limited (biTS) was placed before the Board Audit Committee and was duly noted. The Committee had the following observations/ recommendations:
			a. The Committee advised to explore the possibility of deploying auditors in Trade Department for enhanced understanding of Trade operations to provide better audit or else deploy competent people of Trade into internal Control & Compliance.
27/10/2016	Dr. Hafiz G.A. Siddiqi Shib Narayan Kairy Kazi Mahmood Sattar	1.	The management informed that Finance Division was reorganized by separating Procurement and General Support Services (GSS) department from it; a new Division Head has taken over. The management also informed that procurement process review work is ongoing; the Board Audit Committee will be notified in due course. Financials for quarter ending 30 September 2016 was presented to the board.
		2.	Internal Audit Report on 01 ATM Service Centers was placed before the Board Audit Committee and was discussed & noted.
		3.	Internal Audit Report on 30 SME Unit offices was placed before the Board Audit Committee and was duly noted.
		4.	Internal Audit Report on "Information Technology Security Management", Follow up audit on "Data communication and Security (Comprehensive Audit conducted in 2015)" and summary of "Branch Information System Audit on Mogbazar, Jessore and Noapara Branch" was placed before the Board Audit Committee and were discussed & noted.
		5.	Audit Plan of Subsidiary Companies of BRAC Bank Limited for the period from October 2016 to December 2017 was placed before the Board Audit Committee and was approved with a note that BRAC SAAJAN Exchange Ltd. be audited in 2018.
28/12/2016	Dr. Hafiz G.A. Siddiqi Shib Narayan Kairy Kazi Mahmood Sattar	2.	The management informed that procurement process review work is ongoing. The committee advised to take technical vetting from in-house/external experts before issuing Request for Proposal (RFP) & Work Order in special type of procurement where expertise of Procurement Department is not sufficient. The Committee also instructed to provide a presentation on reviewed procurement process in the next BAC. The management informed that it will take up to the end of 2017 to implement the recommendations on Cyber security assessment made by 2 big 4 companies (KPMG and E&Y) and also to fulfill regulatory requirement. The Committee instructed to place the implementation plan with a presentation in the next Board and BAC.

Meeting date	Attendance	Focus points
		3. Comprehensive Internal Audit Report on 21 Branches/SKBs/SSCs was placed before Board Audit Committee and were discussed & noted. The Committee had the following recommendations: Component of Fund under Management (FUM) in audit report should be split into Loan and Deposit of the concerned branch.
		4. Internal Audit Report on "Call Center Operation", Follow up audit on "IT Infrastructure & Asset Management (Comprehensive Audit conducted in 2015)" and summary of "Branch information System Audit on Barisal, Bashundhara, North Gulshan, Comilla Branch and Shantinagar SMESC" was placed before the Board Audit Committee and were discussed & noted. However, the Committee had the following observations/ recommendations:
		The Committee instructed to provide an update on ongoing call center operation review work in the next BAC.
		5. Comprehensive Audit Report on "General Support Services (GSS)" placed before the Board Audit Committee was discussed and was duly noted. However, the Committee had the following observations/recommendations:
		The Committee advised to revisit the current processes of General Support Services (GSS).

Reporting to the Board

- 1. The Audit Committee regularly reports its activities to the Board of Directors following each meeting.
- 2. The Audit Committee immediately report to the Board of Directors in case of any of the following findings are observed:
 - Report on conflict of interests;
 - Suspected or presumed fraud or irregularity or material defect in the Bank's internal control system;
 - Suspected infringement of laws, including securities related laws, rules and regulations;
 - Any other matter which shall be disclosed to Board immediately

In addition, the Committee also provides:

- Copies of its Meeting Minutes to the Board;
- A report annually to the Board/ Shareholder;
- Additional reporting as the Board may require.

In reviewing the Bank's policies and practices with respect to assessment of the various Internal Audit reports, it is evident that BRAC Bank Limited has continued to be efficient in internal control over financial reporting for the year ended December 31, 2016. The annual and interim financial statements are disclosed in the Bank's official website. Since most of the computation is system based, the possibility of manipulation is almost absent. The Committee has selected Bangladesh Accounting Standards (BAS) and Bangladesh Financial Reporting Standards (BFRS) as the accounting standard and accordingly the financial statements clearly state the compliance of GAAP, BSEC and Bangladesh Bank and other relevant regulatory guidelines. Therefore, Audit Committee acknowledges the splendid support of Members of the Board, Management, Finance and Internal & External Auditors from their respective work arena.

COMMUNICATION TO SHAREHOLDERS AND STAKEHOLDERS

Policy on Communication with Shareholders and Other Stakeholders

The Share Unit, Company Secretariat of the Bank, plays an instrumental role in ensuring effective communication with its shareholders and other stakeholders. Shareholders and other stakeholders of the Bank may contact this unit during office hours for any information and queries. The unit performs all kinds of share related tasks, e.g. allotment of bonus shares, share transfer process, monitoring share movement through CDBL, share re-materialization & de-materialization, distribution of fractional dividend, conducting AGM, etc. In addition to that, the unit corresponds with various Regulatory and Government bodies from time to time on matters related to the shareholders.

Information available on the website:

BBL provides updated information in its website regularly for the shareholders and other stakeholders of the Bank.

Information through the newspapers:

According to DSE Listing Regulation 2015, the news about AGM should be published in One English and One Bengali newspaper. For 2016, we had complied with this rule.

Policy on Ensuring Participation of Shareholders at AGM

To ensure effective and efficient participation of shareholders in AGM, BBL publishes notice of AGM in daily newspapers with necessary details within a reasonable time-frame. The arrangement of AGM normally takes place in a well-known place and at a convenient time. Annual Reports are circulated as per the provision of DSE Listing Regulation 2015, so that the shareholders would get sufficient time to go through the report and freely provide their valuable comments and suggestions in the AGM. The Glimpses of the 17th AGM have been presented in the "Glimpse of AGM" section of this annual report.

Outlook	Stable	Stable	
Ratings based on	Audited financial statement as of 31 December 2015 and other relevant quantitative as well as qualitative information up to the date of rating declaration.	Audited financial statement as of 31 December 2014 and other relevant quantitative as well as qualitative information up to the date of rating declaration.	
Validity	30 June 2017	30 June 2016	

Date of Rating: 23 June 2016

Meaning of the Ratings

Ratings	Meaning					
AA ₁ , AA ₂ , AA ₃ * Double A (Very Strong Capacity & Very High Quality)	Commercial Banks rated 'AA' have very strong capacity to meet their financial commitments. They differ from the highest-rated Commercial Banks only to a small degree. AA is judged to be of very high quality and is subject to very low credit risk.					
ST-2 High Grade	Commercial Banks rated in this category are considered to have strong capacity for timely repayment. Commercial Banks rated in this category are characterised with commendable position in terms of liquidity, internal fund generation, and access to alternative sources of funds is outstanding.					

^{*}Note: CRAB appends numerical modifiers 1, 2, and 3 to each generic rating classification from AA through CCC. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a midrange ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Conditions related to use of the Ratings

HUMAN CAPITAL AND HUMAN RESOURCE ACCOUNTING

One of the key aspects is enabling employees to develop the skills necessary to take up new roles within the organization, supporting internal, cross-divisional career mobility by identifying redeployment opportunities and offering training and development.

BRAC Bank's Human Resources Division provides personnel support and governance in connection with among other things, like recognizing and rewarding employees who demonstrate Bank's values and excel in their roles and responsibilities. We set ethical and performance related expectations and promoting employees who meet those expectations. We search for assessing and hiring staff who exemplify Bank's leadership standards, which outline expected employee behavior.

Employment type	2016
Senior Management	392
Mid Level Management	2,162
Entry Level	3,801
Total full time employees	6,355

Fig: Workforce Composition by Management Level

Three longer-term strategic priorities have been identified for HR:

- to apply its human capital expertise more assertively to support the business divisions and infrastructure functions in order to deliver results;
- to strengthen its role as a control function for the Bank for human capital risks;
- to build the capabilities of managers and staff.

Application of Human Capital Expertise:

HR with partnerships across the Bank is working on developing workforce management solutions to optimize the balance between supply and demand of capabilities, and to manage the cost and employee base more efficiently and effectively in the long term.

One of the key aspects is enabling employees to develop the skills necessary to take up new roles within the organization, supporting internal, cross-divisional career mobility by identifying redeployment opportunities and offering training and development.

At the same time, the Bank seeks to add to the skills of its workforce as part of the Bank's investment in digitalization Strategy and to position itself as an employer of choice: one that rewards sustainable performance and offers a comprehensive range of benefits.

Human Capital Risk:

As an important pillar of the Bank's Lines of Defense structure and approach, the HR function made significant progress in 2016 in defining and managing controls, creating a common understanding of its own role related to controls, and assigning risk owners. This important work, which impacts all activities, starting from talent acquisition, their development to disciplinary processes, will continue in 2017.

Setting the standards for disciplined management of human capital risk also entails developing incentive and reward structures that reinforce the Bank's culture. This means employees are paid for sustainable performance within a sound risk management and governance framework and with due consideration of market factors. Performance, behavior in line with the corporate values, and compensation have already been linked more closely than before.

Development of Capabilities:

Investment in skills and accelerating employees' professional and personal development are essential components of the Bank's people agenda.

This is reflected in the talent and development agenda, which includes a recalibrated offering that helps to develop and nurture future leaders who are accountable, who champion the Bank's values and who inspire the best in their colleagues.

Diversity is a key enabler for long-term success. Only by building teams of people with different backgrounds, education, skills and experiences management believes to be able to create sustainable value across the Bank.

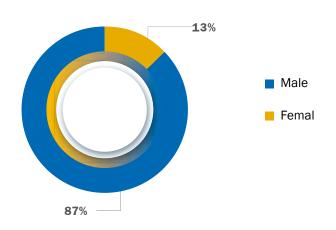

Fig: Gender Diversity (%)

Instilling Bank Values:

HR has concentrated on anchoring the values and beliefs in all people processes - from recruitment to performance management, talent development, promotions and remuneration. In 2016, recruitment & referral processes and policies were strengthened to ensure new employees fulfill the Bank's requirements on conduct and living the core values.

The Bank places increasing importance on managing and developing employee performance holistically and regularly giving feedback and taking appropriate actions. All talent development programs have a strong culture component as part of their curriculum. When employees are being considered for promotion, it is now standard for managers to assess how candidates demonstrate the values and beliefs in their daily business.

Further strengthening the control environment, the Bank's control functions have been asked to provide robust input (positive or negative) on all Material Risk Takers, which will be considered in the compensation decisions.

In 2016, BRAC Bank concluded a series of highly visible internal awareness campaigns and reminders on the values and beliefs as well as various workshops. Focus has now shifted to ensuring employees actively engage with the values and beliefs in day-to-day business.

Management believes Bank's performance relies, first and foremost, on its employees. The Bank seeks to build the capabilities of managers and staff, to help them develop both professionally and personally and to position the organization for future success. Talent and development activities are aligned to three priorities:

- building leadership capabilities and developing future leaders;
- fostering an environment that supports sustainable performance; and
- promoting continual professional and personal development for all employees.

Thriving Leadership Capabilities:

Bank takes a holistic approach to leadership development.

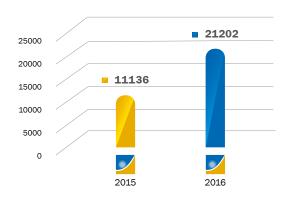

In 2017, the HR function has plan to make further strides in driving leadership assessment and succession

Training Highlights:

management, helping to deliver the talent pipeline for the Bank.

Participants in Training

Training Hour

Fig: Number of Trainings

The senior management in the Bank has a dedicated leadership forum featuring bespoke diversified agenda, explicitly connected to Bank's overall strategy. HR will be also building on the successful roll-out of its leadership diagnostic work, which identified strengths and development areas for our most senior leaders.

Enabling Sustainable Performance:

BRAC Bank is transitioning all performance management and development processes into one fully integrated approach, which aims to increase performance conversations between managers and employees, and will be launched with the objective-setting process over next two (2) years. In a first step towards implementation, talent reviews have been improved to help managers identify employees' strengths and areas for development. Continuous learning and development are seen as vital to ensuring employees have the skills, knowledge and

abilities for their current roles and are prepared for new challenges.

Acknowledging a person's individual performance and development as well as their personal contribution to overall organizational success is key. The performance management process comprises objective-setting early in the year, a mid-year review and a year-end review, with employees' self-assessment playing a critical role.

Systematic Approach to Talent Acquisition:

Against the backdrop of strategic repositioning and the challenges ahead, Bank has adopted a balanced approach to talent acquisition. It relies both on leveraging the skills and experience already available within the organization, while bringing in the necessary capabilities that will help position the Bank for long-term sustainable performance.

Recruitment status of last 5 years

The current focus is on communicating and informing employees, creating greater visibility of opportunities, enabling managers and setting a suitable framework.

Reflecting Bank's cultural transformation, strategic objectives and changing demands from the employment market, it is continuously developing its employer brand. This includes positioning the organization from the perspective of ongoing digitalization in the banking industry. Furthermore, the ever-greater significance of issues such as regulation and governance has required an increase in corresponding skills.

Additionally, BRAC Bank continued to expand its presence and engagement on social media platforms to ensure it is accessing the relevant target groups through the channels they use to explore career and employment opportunities.

Focus on Governance:

In 2016, HR strengthened its governance, ensuring that consistent, structured, merit-based hiring practices for all target groups. This has included the further development and tightening of global policies on hiring and workforce referrals – in line with enhanced industry standards as well as risk management and regulatory requirements. The hiring policy covers all areas from position approval and interviews to on boarding and integration processes. The referrals policy is to ensure integrity and transparency for this important sourcing channel.

There has also been a greater focus on cost management and control related to recruitment, with the aim of increasing the efficiency and quality of HR processes both internally and externally.

Grievance Management and Counseling Process:

Management strongly believes in providing prompt and unbiased resolution to grievances that are raised by the employees regarding any dissatisfaction or discontent pertinent but not limited to disciplinary, compensation, discrimination, sexual harassment, working condition, or any other situation that might affect the employees and their wellbeing. Such complains are handled strictly and actions are taken based on the merit of the issue/s. The bank's policy is to provide a work environment that is free from intimidation or harassment. Moreover, to encourage female employees to raise their concerns, a women forum called TARA has been inaugurated in 2016 with a vision to be the most women friendly bank in Bangladesh.

Alignment of Reward Structure:

Compensation plays an integral role in the successful delivery of Bank's strategic objectives. Attracting and retaining the most capable employees across the country is aligned to the Bank's compensation strategy. The cornerstone of this is the concept of pay for performance, within a sound risk management and governance framework, and with due consideration of market factors and societal values. As the Bank seeks to align compensation to evolving external and internal expectations, reward structures are regularly reviewed and changed as needed.

The remuneration committee consisting of following position holders periodically reviews, takes decision or escalates to the Board for amendments as they see appropriate:

- 1. CEO & Managing Director
- 2. Deputy Managing Director & CFO
- 3. Deputy Managing Director & CRO
- 4. Head of Human Resources

BRAC Bank recently established a close link between employees' compensation and their performance and behavior at all levels and across all divisions of the organization. This takes into consideration a host of factors including, but not limited to, the Bank's performance, divisional performance and the employee's individual performance.

In accordance with regulatory requirements, managers of senior employees must attest that they have thoroughly reviewed and considered all of the relevant performance and risk metrics, and other guidance relevant to their specific areas of work, when making decisions on variable compensation. In addition, managers may be required to explain how the compensation parameters (both quantitative and qualitative) influenced their decision.

Encouraging Workplace Well-Being:

Bank has taken many initiatives to move towards creating a healthier workplace. Employees are offered compliant working hours so that they can ensure a balance between professional and personal interests. Management has developed and implemented processes to prevent workplace injuries & illnesses and set standards for health and safety training.

Transport Service for Employees:

To ease the transportation system for Bank employees, management has recently introduced bus services primarily within Dhaka City.

Celebrations in BRAC Bank:

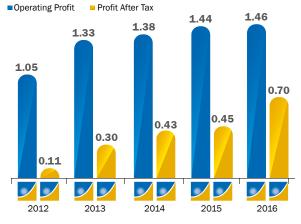

Throughout the year, Bank arranges multiple events including Employee Birthday Celebrations, Family Days, Picnics, Celebrations on the Birth of Children, Iftar Parties, Pitha Utshab, Dour, Childrens' Day, Pohela Boishakh Celebration and Sporting events that help in creating stronger employee engagement. Bank also arranges various employee engagement programs including team building sessions that enhance employee alignment and sense of ownership towards the Bank objectives.

Human Resource Accounting:

Human Resource Accounting (HRA) involves accounting for the company's management and employees as "human assets" or capital that provide future benefits. Based on empirical research, BRAC Bank can be considered on higher end of making human resources disclosures due to its capitalization in capital market, profitability, financial sector in which it operates, its length of listing in capital market and its shareholding structure. In principal, following variables are considered for HRA:

- Total Value of Human Resources
- 2. Number of Employees
- Human Resources Policy
- 4. Training and Development
- 5. Management Succession Plan
- 6. Employee Categories
- 7. Employee Benefits
- 8. Performance Recognition

In 2016 the total number of full time employees is 6,355. If per employee productivity is considered then it can be seen that operating cost per employee has been increased by 33% whereas the operating profit per employee has been increased by 45%. Operating income, profit before tax and profit after tax per employee has also increased. As BRAC bank has a huge portfolio of SME and retail client so employee engagement is needed and the results prove that our resources are becoming more efficient as they are being motivated.

Conclusion:

In a nutshell, BRAC Bank is simplifying its business model, realigning its business divisions, reducing complexity, investing in technology and cutting costs.

Going forward, Bank's success will depend in part on its ability to retain, motivate, develop, and continue to attract employees with the skills and experience to help the Bank master challenges and make the most of opportunities.

As a control function, the role of HR has changed in recent years. More than ever, it operates in partnership with senior management and all business divisions and infrastructure functions. Key to this role has been its continued focus on bringing the Bank's values and beliefs to life through a long-term vision for the HR function, and specific commitments underpinning that vision.

STATEMENTS OF BOARD AUDIT COMMITTEE

The BAC during 2016 had 06 meetings held to review summary reports on internal audits, monitoring, investigations, surprise/spot inspections, regulatory inspections and statutory audit.

Statement on Audit Committee's oversight role in maintaining a well-integrated internal control in the bank

The Board Audit Committee (BAC) of BRAC Bank gets reasonable assurance from its independent internal audit teams that the strategic objectives as set by Board are worked upon in the form of operational efficiency, integrity in financial and non-financial information and compliance with applicable laws and regulations. Considering the establishment of compliance culture and awareness of operations level staff of their respective responsibilities as the cornerstone to achieve the objective, oversight role of BAC ranges from placing constructive recommendations in regularizing control weakness to endorsing appropriate disciplinary actions in case of deviation from policies and procedures.

The BAC during 2016 had 06 meetings held to review summary reports on internal audits, monitoring, investigations, surprise/spot inspections, regulatory inspections and statutory audit. The committee through review of those reports, took particular attention to process level lapses, deployment of appropriate resources to enforce controls, ethical breaches and absence or insufficiency of specific policies articulating directive controls. Through discussion of relevant stakeholders, the BAC came up with constructive recommendations to address the root cause and regularize the discrepancies with follow-up in subsequent meetings of the BAC.

Statement on Audit Committee's role in ensuring compliance with applicable laws and regulations

As regulatory compliance depends to a great deal on communications to and awareness of concerned officials, Board Audit Committee (BAC) of BRAC Bank assess the awareness level on compliance requirements through their periodic review of internal audit reports and recommends shuffle in placement or training of human resources as applicable. Moreover, as per direction of regulators stipulated in relevant regulatory guidelines, internal policies are reviewed by the BAC prior to their adoption or update to ensure their conformity with regulatory guidelines. The BAC is regularly briefed by Internal Control & Compliance Division (ICCD) on changes in regulatory requirements through informative memos.

Statement on Audit Committee's supervisory role in facilitation of statutory audit:

Considering the fact that integrity in financial reporting is prerequisite to earn credibility from stakeholders and ensure sustainability of BRAC Bank as a going concern, Board Audit Committee (BAC) of the bank pays special attention in facilitation of independent, objective, credible and prudent statutory audit service. As part of that, the BAC during 2016 carried out the following agenda:

- Reviewed the expression of interests forwarded by statutory auditors, assessed capability and confirmed that the statutory auditor selected did not have any conflict of interest
- Reviewed performance of external auditor
- Reviewed the management letter forwarded by the statutory auditor along with the management response provided against them
- Met with the auditor separately to discuss issues worth confidential discussion
- Recommended appointment/re-appointment of statutory auditor(s)

Statement on Audit Committee's activity to ensure integrity in financial reporting and associated disclosures

With a view to performing the oversight role of ensuring integrity in financial reporting and disclosure process, the Board Audit Committee (BAC) of BRAC Bank plays a pivotal role of adopting appropriate financial reporting standards and to ensure consistency in application of the same in periodic financial reporting. In doing so, the BAC during 2016 carried out the following tasks:

- Reviewed the quarterly, semi-annual and annual financial statements and determined their completeness, accuracy and consistency with accounting standards set or recommended by the regulatory authority
- Reviewed issues with potential impact on the integrity of financial reporting and other non-financial disclosures. Escalated through the summary reports

on internal audits, monitoring, investigations, surprise/spot inspections, regulatory inspections and statutory audit; they ranged from discussion on input, processing and output control in regard to management information to specific fraud or irregularities in recording banking operations

- Reviewed financial statements along with statutory auditors and regulatory inspection team in tripartite meeting prior to finalization
- Reviewed statement on significant related party transactions forwarded by management
- Monitored operations of the bank in line with predetermined budget through internal audit reports, discussed the root cause of deviation and made constructive recommendations to incorporate appropriate controls in place.

Apart from that, the Board Audit Committee (BAC) of the bank reviewed quarterly reports on fraud and forgery surfaced among others by internal auditor, statutory auditor and regulatory inspection team. Using its discretion, the BAC advised carrying out critical investigations, process/policy review, evaluation of operations etc. Through the aforementioned activities, the Board Audit Committee (BAC) of the bank effectively carried out its role as bestowed by the regulator during the year 2016.

On behalf of the Audit Committee,

Hafiza. A-Siddlige

Dr. Hafiz G. A. Siddiqi

Chairman Audit Committee

CAPITAL PLAN

Capital planning is a dynamic and ongoing process that, in order to be effective, must be forward-looking in incorporating changes in a bank's strategic focus.

1. Regulatory standpoint:

Capital management in a bank usually refers to implementing measures aimed at maintaining adequate capital, assessing internal capital adequacy of the bank and calculating its capital adequacy ratio. It is gaining increasing importance around the world, as reflected from taking several reform initiatives and changes in the prudential requirements undertaken by banks in different countries in line with the reform measures proposed by the Basel Committee on Banking Supervision. Risk management is increasingly becoming difficult to separate from capital management. Most banking risks can be quantified as numerical indicators, and this quantification naturally leads to the principle that increased capital can be held to cover unexpected losses at a certain confidence level.

The followings indicate the relationship between risk management and capital requirement:

- a) Capital management helps to ensure that the bank has sufficient capital to cover the risks associated with its activities;
- As part of the internal capital adequacy assessment process (ICAAP), management identifies the risks that the bank is exposed to, and determines the means by which they will be mitigated
- c) Capital is used to cover some of these risks, and the remainder of these risks is mitigated by

means of collateral or other credit enhancements, contingency planning, additional reserves and valuation allowances, and other mechanisms.

Capital planning is a dynamic and ongoing process that, in order to be effective, must be forward-looking in incorporating changes in a bank's strategic focus, risk tolerance levels, business plans, operating environment, or other factors that materially affect capital adequacy. Capital planning assists the Bank's Board of Directors and senior management to:

- a. Identify risks, improve their understanding of the Bank's overall risks and set risk tolerance levels
- b. Assess strategic choices in longer-term planning
- Identify vulnerabilities, such as concentrations and assess their impact on capital
- d. Integrate business strategy, risk management, capital and liquidity planning decisions, including due diligence for a merger or acquisition and
- Have a forward-looking assessment of the Bank's capital needs, including capital needs that may arise from rapid changes in the economic and financial environment

The most effective capital planning considers both short-term and long-term capital needs and is coordinated with a bank's overall strategy and planning cycles, usually with a forecast horizon of at least five years. Banks need to factor events that occur outside of the normal capital

planning cycle into the capital planning process; for example, a natural disaster could have a major impact on future capital needs.

The capital planning process should be tailored to the overall risk, complexity, and corporate structure of the Bank. The Bank's range of business activities, overall risks and operating environment have a significant impact on the level of detail needed in a bank's capital planning. A more complex institution with higher overall risk is expected to have a more detailed planning process than an institution with less complex operations and lower risks. While the exact content, extent, and depth of the capital planning process may vary, an effective capital planning process includes the following components:

- Identifying and evaluating risks
- Setting and assessing capital adequacy goals that relate to risk
- Maintaining a strategy to ensure capital adequacy and contingency planning
- Ensuring integrity in the internal capital planning process and capital adequacy assessments

2. BBL Philosophy:

We devised and established our own capital management mechanism strictly aligned with the regulatory requirements and as per Basel guidelines, to calculate the capital adequacy ratio and secure adequate capital to cover the risks we face from the standpoint of ensuring soundness and appropriateness of the our businesses. While doing so, the Board of Directors and Senior Management actively take part and help define the goals of capital management such that capital levels always exceed BB's requirements. We strive to ensure capital levels are aligned with the risks in the business and consistent with the strategic plan. And capital levels maintain an appropriate balance between maximizing shareholder returns and protecting the interests of depositors and other creditors.

The results of capital management are;

- A Capital Plan that meets the needs of the Bank over a five -year time horizon
- An ICAAP that determines precise levels of required capital according to the measures of balance sheet capital and regulatory capital (Tier 1 and Tier 2)

- A process to regularly compare available capital with current and projected solvency needs, and address deficiencies in a timely manner.
- Stressed scenario can be managed better.

Our approach to capital management is driven by our strategic objectives whilst ensuring that the regulatory requirements, capital targets and risk appetite are met at all times across BRAC Bank. While planning for adequate capital we consider multiple factors. Starting from business expansion till spreading of network, a thorough cost- benefit analysis is conducted on regular periodicity. As such, BRAC Bank proactively manages its capital position, capital mix and capital allocation to meet the expectations of key stakeholders such as regulators, shareholders, investors, rating agencies and analysts whilst nursing that the return on capital commensurate with risks undertaken by respective business units and subsidiaries.

3. Capital Management Framework:

The framework must ensure apt measures are taken for capital adequacy in accordance with corporate management plans and capital plans, etc. and changes in external environment, including the economic cycle are monitored properly. There should be a mechanism to conduct sufficient analysis and deliberations in order to maintain a sufficient level of capital, based on the results of monitoring of the status of the internal environment (risk profile, status of use of the risk limits, etc.) and external environment (economic cycle, market, etc.). The framework must be able to identify risks faced by the bank exhaustively on a category-by-category basis and able to specify the risks to be subjected to capital management in the ICAAP in light of the size and nature

The framework must be able to identify risks faced by the bank exhaustively on a category-by-category basis and able to specify the risks to be subjected to capital management in the ICAAP in light of the size and nature of the identified risks.

of the identified risks. And certainly the framework should be able to assess capital adequacy in a manner befitting the scale and nature of the financial institution's business and its risk profile by taking into consideration the following items:

- Suitability of the quality of capital to the internal capital adequacy assessment
- The validity of the ICAAP
- The limitations and weaknesses of the risk assessment method taken
- The conduct of internal capital adequacy assessment in light of two or more stress scenarios and based on the analysis of the level of the impact thereof on the capital
- The stress scenarios should give due consideration to all material risks that would seriously affect capital adequacy in the medium and long term
- The lack or excess of loan loss provisions against expected losses

4. Annual Capital Plan:

The Annual Capital Plan involves detailed planning of the Bank's strategic capital plan over a five-year horizon period. The plan should highlight the capital projections, capital requirements, levels of capital and capital mix to support the Bank's business plan and strategic objective. BRAC Bank places strong emphasis on the quality of its capital in order to continue meeting the minimum regulatory requirements and support business growth and risks undertaken. We hold a significant amount of its capital in the form of common equity which is permanent and has the highest loss absorption capability ongoing concern basis. In addition to common equity, we also maintain other types of capital instruments such as Subordinated Debts in order to optimize capital mix and reduce overall costs of capital. Upon giving due treatment to deferred tax asset, general provision, goodwill and other regulatory adjustments, our capital base has always been in a strong standing. Hence, the phase-in transition of Basel III can be accommodated smoothly.

	2015	2016	2017	2018	2019	2020

STAKEHOLDERS AND MATERIALITY

The first step of stakeholder & engagement process for BRAC Bank is to establish the three branched sustainability dimension – economic, social and environmental. The key stakeholders are hence aligned with these dimensions and the sustainable business objectives are identified by understanding correlated stakeholder expectations.

Stakeholder & Identification

Identification of stakeholders is the key to understanding the expectations from the company and as such helps pave the pathway towards delivering value and fulfilling those expectations. The stakeholder circle of BRAC bank can be divided into prime and others. While shareholders, customers, suppliers and employees are the prime stakeholders; the regulators, local community and the environmentally interested groups complete the stakeholder circle of BRAC bank.

Engagement with Stakeholders

The first step of stakeholder engagement process for BRAC Bank is to establish the three branched sustainability dimension – economic, social and environmental. The key stakeholders are hence aligned with these dimensions and the sustainable business objectives are identified by understanding correlated stakeholder expectations. By assessing these objectives, BRAC bank has formulated strategies through aligning the business model with the value creation process that targets stakeholders' expectations. This is summarized in the table below:

Sustainability	Targeted Key	Sustainable Business	How BRAC bank addresses this	
Dimension	Stakeholders	Objectives		
Economic	Shareholders	Wealth maximization by declaring sound returns annually	 Being focused, planning and identifying opportunities Continuing to uphold sound governance practices Managing risk effectively Reinforcing internal control and compliance 	

Sustainability Dimension	Targeted Key Stakeholders	Sustainable Business Objectives	How BRAC bank addresses this
	Customers	 Provide quality product/ service meeting their absolute needs Managing the operations carefully and with responsibility so as to protect customer interest especially of depositors 	 Reaching out to customers' door steps by opening more branches and SME centres Moulding existing branches/ unit offices to cater to diversified customer requirements Continuously innovating new products and operational process for the betterment of customers

Employees	Discussions	Transport facilitiesCareer growth and development opportunities

SUMMARY

SUSTAINABILITY REPORT

Right since inception, BRAC Bank Limited has incorporated the ethos of Socially Responsible Banking, through which it has been mainstreaming sustainable development and aligning it with the core business strategies of the Bank.

"As a member of Global Alliance for Banking on Values (GABV), sustainability is rooted in the day-to-day operations and value system of the bank. In our journey towards becoming the Best Bank in Bangladesh, it is important to recognize that the pillar of our sustainable efforts must be our VALUES"

-Mr. Selim R. F. Hussain, Managing Director, & CEO

On the successful completion of 15 years of inclusive banking, BRAC Bank Limited is pleased to present its Summary Sustainability Report for the year 2016.

The purpose of this report is to delineate how BRAC Bank Limited, in its quest to achieving its vision of being 'the best bank of the country by 2020', is serving and supporting its customers and communities, by touching the lives of a billion people with sustainable banking.

At BRAC Bank Limited, we define 'sustainability' in the broadest possible terms. It is not just about consuming less natural resources, or planting more trees, but it is about conducting our day-to-day business the right way, while working for different social, ethical, and environmental causes at the same time.

Right since inception, BRAC Bank Limited has incorporated the ethos of Socially Responsible Banking, through which it has been mainstreaming sustainable development and aligning it with the core business strategies of the Bank. In fact, sustainability is integrated into the way we do business; into the contribution we make to local economies; into serving the communities we live in.

BRAC Bank Limited at a Glance:

Triple Bottom Line Approach:

As a founding member of Global Alliance for Banking on Values (GABV), BRAC Bank Limited follows the Triple Bottom Line approach at the heart of its business model:

OUR PURPOSE To ensure the best service quality for our customers OUR VALUES - Behaviour - Ethics - Governance - Governance - Employee - engagement

Our Approach to Sustainability:

Sustainable HR Development:

We believe that our employees are our most valuable asset, as their professionalism and proficiency, along with their diverse backgrounds and experience contribute significantly to our success. At BRAC Bank, we seek the most competent and cultured candidates and never discriminate with regard to their race, language, religious beliefs, gender or age. We only consider our employees' relevant skills and competencies, as those are the attributes that create sustainable values.

We, from our end, encourage our employees by providing equal opportunity and remuneration, and by guiding them towards their personal and professional goals through relevant training and skill development programs; so that they can achieve their full potential and face future challenges effectively. We provide specifically designed orientation programs to the new joiners to make them aware of the Bank's philosophy, goals, policies, procedures, rules, regulations and regular business practices and thus, to help them integrate smoothly into their roles.

The Bank has an open-door policy when it comes to addressing urgent workplace issues. We encourage employees at all levels to address any concerns regarding workplace conditions and labor practices, and to bring forward any grievances, so that future risks or disputes can be prevented.

Environmental and Social Obligation

1. Description of the company's policies and practices relating to Environmental and Social Obligation:

BRAC Bank Itd integrates environmental and social obligation into all its business activities with the belief that success is not only measured by financial results. The Bank has a strong stake in the society through investments and projects which take its banking role one step further. BRAC Bank supports its clients to be cautious about environmental issues. Serving the society as part of bank Environmental and Social obligation by giving stipends to poor students, distributing warm clothes to winter-hit people and contributing to the different relief fund. BBL is constantly working towards decreasing consumption of energy (especially electricity, water and gas) at its branches, removal of use of hazardous substances from its practices and reducing waste generation. BBL is moving forward and thinking about implementing it more through the branches, Unit office and also Head office.

We contributed in different programs with the desire to generate more social impact through our activities. It enables us to more effectively steer the building of expertise and to help people in a more systematic way. BBL focus is on sports, arts and culture, education, and entrepreneurship and on identifying the links between them. To continue these activities every year, the Bank keeps aside a substantial amount of money as a part of Corporate Social Responsibility (CSR) for development of the society. By supporting these activities, we not only contribute to a sustainable society but also help the long term sustainability of our business.

Bangladesh Bank has taken steps to inspire green banking in Bangladesh through the issuance of guidelines on green banking and Environmental Risk Management (ERM). It is always inspiring banks in lessening paper communications and fitting solar power system in branches and Unit office and giving refinance to the solar energy, bio-gas and effluent treatment plant (ETP) sectors at eased interest rates. BBL has always been committed to the environment and also been active in social activities throughout the year 2016, and will remain to do so in the future.

2. Activities related to CSR programs in the Bank:

- Promotion of health, education and cultural / recreational activities for advancement and well-being of underprivileged population segments
- Promotion of environmental friendly projects
- Adoption of energy efficient, carbon footprint reducing internal processes and practices in own offices and establishments
- Handing over sapling to students as part of environment awareness campaign
- Creation of Green Climate Risk Fund
- Warm cloth & blanket distribution to poor peoples
- Promote financial inclusion

3. Specific activities undertaken by the BBL regarding environmental and social responsibilities:

BBL has always been active regarding its activities for the environment. It is also in the process of issuing a green manual on how to make all branches and divisions more environmental friendly. Also, solar panels have been set up in some branches, and initiative has been taken to install more in the future.

BRAC Bank Limited has made a donation to the Prime Minister's Relief Fund to help the flood affected people as climate change is often attributed to causing flood.

BRAC Bank has always been an active member of society and has tried to enhance people's lives and its employees as well.

4. CSR of the Bank in 2016:

5. BBL Employee Initiatives in CSR:

Marathon for Humanity: Employees of BRAC Bank runs a marathon for humanity every year to raise funds. BRAC Bank always prioritizes its CSR programs that help people and the planet in line with the 3P philosophy. As part of larger BRAC family, social work is embedded in the DNA of this Bank. BRAC Bank has contributed to social welfare as part of its mission to serve the community. BRAC Bank organizes this marathon, 'BRAC Bank Dour Kolyaner Pothochola', in which the employees of the Bank take part and raise funds for the underprivileged. The Bank matches the amount and doubles it from its CSR Fund.

6. Lifetime Support to Bir Pratik Taramon Bibi:

Taramon Bibi (born 1957) is one of the two female freedom fighters in Bangladesh obtaining the Bir Protik award. She had engaged in direct combat. She fought for the Mukti Bahini (Liberation Army) which was a guerrilla force that fought against the Pakistan military during Bangladesh War of Independence in 1971.

Bibi was born in Shankar Madhabpur village, Kurigram District to her parents Abdus Sobhan and Kulsum Bewa. She was in Sector 11 under the leadership of Sector commander Abu Taher. After the war, she was awarded Bir Protik (Symbol of Valour) by Bangladesh government. But her whereabouts were unknown and the award was never handed over to her. She herself remained unaware of this until 1995 when a researcher from Mymensingh

discovered her. She was finally given her award by the Prime Minister of Bangladesh on December 19, 1995.

BRAC Bank is supporting valiant freedom fighter Taramon Bibi and will continue to support her throughout her lifetime.

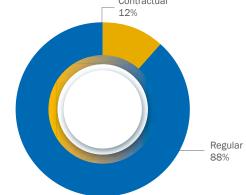

7. Workshop on "Diversity, Gender and Sexual Harassment":

BRAC Bank has arranged the workshop on "Diversity, Gender and Sexual Harassment" at BBL Learning Centre. This program has been exclusively designed for all the colleagues of BRAC Bank. Proficient trainers from BRAC Leadership Academy conducted workshop. Around 3,500 number of employee had attended this workshop.

8. BRAC Bank Total Manpower by gender [Male & Female]

Manpower by gender (Male) Contractual 13% Regular 87%

9. Winter Clothes Distribution to needy people:

BRAC Bank limited has distributed blankets among the cold – affected people in the country. Bank has successfully completed the "Winter Clothes Distribution" program from five different locations of Bangladesh. A number of our colleagues has taken their time off to personally visit those five locations over the weekend and distributed these blankets.

The programs were held in presence of the local UNO, OC, local Chairman & respective team members from BBL SME division, Branch Banking, SAM & Regional Operating Centers.

The main reason for the success of this program is the joint & collaborative effort from all our BBL employees which is the true reflection of working as "One Team".

10. BRAC Bank has inaugurated the Tube well at Dasiarchara (Chitmahal):

11. BRAC Bank Ltd arranged a blood donation program:

BRAC Bank Itd has arranged a blood donation program in affiliation with Bangladesh Thalassemia Foundation at Anik Tower on 8th December 2016 to donate blood to Thalassemia patients. The purpose of this blood donation program is to extend help to the thalassemia patients.

Thalassaemia is a genetically transmitted disease where the patient suffers from acute anaemia. Usually the patient may need blood transfusion throughout his/her entire life.

YOU MAY NOT REALIZE IT, BUT EVERY DAY HUNDREDS OF PEOPLE NEED BLOOD. THOUSANDS ARE SAVED EVERY YEAR.

This is a well-organized initiative for a just cause and like every year, BRAC Bank Limited is keen to take part in this philanthropic activity.

230

12. E-statement Enrolment Campaign:

BRAC Bank has a strong commitment towards environment in line with the Bank's Philosophy of People, Planet and Profit. As part of that, BBL encourages it customers to enrol for e-statement instead of hardcopy statement.

13. BRAC Bank Ladies Forum "TARA":

BBL has launched the Bank's Ladies forum at the Bashundhara Convention Centre in 2016 with Mrs. Rokia Afzal Rahman, former Advisor to the Govt, one of the first

woman bankers in Bangladesh and an entrepreneur gracing the occasion as Chief Guest.

With 1,200 members, BRAC Bank's Tara is the largest private sector women bankers' network in the country. The platform is created towards facilitating career development and professional excellence through sharing of experience and networking among women bankers of the bank. At Tara, BRAC Bank's female employees share challenges and concerns that they face within or outside the bank. As a member of the BRAC Family, BRAC Bank always works for women rights, women empowerment, and ensures enabling workplace environment for the women employees.

14. Introduction of Green Banking Product:

BRAC Bank limited has launched its Energy Efficiency Loan Product, "**Planet Solutions**". Bangladesh's First Energy Efficiency Financing Loan will assist readymade garments and textile industries to invest in energy efficiency technology.

15. Green Events:

BRAC Bank Limited donated bicycles to 10 school going students in Nilphamari. The environment friendly mode of transport will be beneficial to the nature as it does not create any pollution.

16. CSR activities related to Climate Change:

BRAC Bank Limited in partnership with The United States Agency for International Development (USAID) organized a University Film Contest on Biodiversity Conservation. The initiative was aimed at creating climate change awareness and importance of biodiversity conservation among university students who took part in the contest.

BRAC Bank Limited extended support to 6th Biochemistry Olympiad at Dhaka University. The day long science festival tried to find environment friendly ways to recycle, solid waste like plastic and finding scientific ways to minimize damage of oil leakage incident in forest.

BRAC Bank extended support to Chittagong Metropolitan Police's public awareness campaign about prevention of formalin & chemical in fruits & food.

Given the increasing importance of Environmental and Social considerations in measuring the company's performance, the Board has found that it is necessary to develop appropriate policy on environmental and social obligations. In meeting these obligations, Credit Policy prohibits lending to industries that use forced/child labor generates radioactive wastes and discourages investments in environmentally sensitive industries such as logging, mining and those that use banned chemical substances. It should be further noted that disbursement is dependent on industries obtaining a NOC (No objection certificate) from the Ministry of Environment and Forest. Currently, the Bank is in the process of diversifying its sustainable portfolio through investment in bio-fuels, waste management and renewable energy companies. In this regard, management has signed a MOU with Bangladesh Bank regarding receiving refinancing facility for investments in the renewable energy sector. In addition to this, BRAC bank has initiated some green and socially responsible initiatives internally and externally.

This world is a home to numerous living beings. Not everyone has the ability to think rationally but human beings. So, the onus to contemplate genuinely for the betterment of our generation and the generation next is solely on us. In this world of scarce resources and energy stores, we are to prioritize and ensure optimized utilization of available human made possessions. While we juggle with these invaluable resources in our daily life, we also cannot deny the eternal sources of energy we inherit from the nature. The ubiquitous rays of the sun, the kinetic force of wind, the strong tidal surge or the daunting heat from the crux of the earth, are all entrusted for us to duly harness them. They are our renewable alternatives to fossil fuels. The intermittent nature of these energy sources can only be used as a prop for our sustainable growth. Because rising greenhouse gas emissions, arising from our use of fossil fuels and our industries, lead to higher temperatures.

REPORT ON THE GOING CONCERN STATUS OF BRAC BANK LIMITED

Definition of Going Concern:

Going concern is an accounting concept that considers the preparation of financial statements under the going concern concept. It is assumed that a Company will continue in operation and that there is neither the intent nor the need to either liquidate it or to cease trading. It includes bringing together the requirements of Company law, accounting standards and Listing Rules on going concern. The management of BRAC Bank Limited has made this assessment based on the accounting period ended on or after December 31, 2016. The assessment considers appropriate inquiries including review of budgets and future outcome of inherent risks involved in the business while assessing whether we are on going concern basis.

Considering the followings, BBL's management has reached the conclusion that the financial statement for the year 2016 should be prepared on going concern basis:

Impressive financial result

The financial result which can easily be seen from the financial highlights at the front of this book shows that we are able to run in future with virtuous glory.

Financial support from lenders/depositors

BBL has a good track record in the settlement of its obligation with its lenders/depositors. That is why our total deposit has increased by 12%.

Dividends payment

BBL is paying healthy returns to its shareholders over the years. We have declared cash dividend of 10% and stock dividend of 20% for the year 2016.

Sincerity in payment of obligations

BBL is sincere in payments of its obligations to lenders. We have always being credible in the terms of loan and other agreements and have never defaulted.

Growing business portfolio

Our portfolio of good clients is increasing which shows our intensity of doing ethical business. At the same time we are de-risking our portfolio.

Human Capital

BBL has invested a lot to train its human resources. We are also hiring the best people in the industry so that a momentum can be achieved to become the best bank. In 2016 we have recruited 1,558 talented employees and have provided a total of 256,129 hours of training which is 43% more than 2015.

Corporate environment and Employee Satisfaction

Our employees are our core asset. And ensuring a healthy work life balance is our responsibility. Our office environment is also kept corporate to increase efficiency and satisfaction. This is reflected in our Human Capital section.

Changes in government policy

The management of BBL anticipates no significant changes in legislation or government policy, which may materially affect the business of the Company.

CORPORATE SOCIAL RESPONSIBILITY ACTIVITIES

Corporate social responsibility (CSR) is embedded in the value system of BRAC Bank Limited. For BRAC Bank, being committed to CSR means giving statement that the bank is ethically committed towards the society of this country in which it operates.

BRAC Bank's corporate social responsibility (CSR) in Bangladesh are in line with its 3P (People, Planet, Profit) philosophy which are framed by the vision that was instilled by its Founder Chairman Sir Fazle Hasan Abed, KCMG, who founded this bank with a vision of financial inclusion of the unbanked grassroots people.

The establishment of BRAC Bank's CSR strategy is a crucial component that reflects the intention for the sustainable development of our society and our stakeholders which means having policies and procedures in place that integrate social, environmental, ethical, human rights or consumer concerns into business operations and core

strategy – all in close collaboration with stakeholders. For BRAC Bank, the overall aim for CSR activities is to achieve a positive impact on society as a whole, while maximizing the creation of shared value for the owners of the business, its employees, shareholders and stakeholders.

Bangladesh Bank CSR Guideline is the guiding principal in designing our CSR roadmap. BRAC Bank prioritizes on long-term programs rather than the short-term ones that have sustainable and lasting impact on the people and society of the country.

At BRAC Bank, employees work with a greater mission. They are motivated to contribute to the bank's social initiatives like annual fund raiser marathon, warm clothes distribution and blood donation. Employees' passionate involvement in CSR adds new dimensions to the bank's CSR portfolio.

Social Impact Matrix of CSR

Education	
500 Students realized dreams to pursue study	1,000 Students inspired for science education

500 Cardiac patients received medical support	1,000 Thalassaemia patients get medical support
Social Welfare	
50,000 Cold-hit people received clothes for warmer nights	10 Girls get cycle for school going
100 Lost girls found new hope	4,000 Employees raise fund for humanity
Art & Culture	
150,000 People found roots in classical music	
18 Writers honored	

Education

Realizing Potential: BRAC Bank- Prothom Alo Trust Adamya Medhabi Scholarship

'BRAC Bank-Prothom Alo Trust Adamya Medhabi Scholarship' was introduced in 2010 to assist meritorious student of insolvent families fulfill their pursuit of higher education. Now a big number of financially challenged students, especially in the rural parts of the country do not face dropout. BRAC Bank stands by with the students in their entire academic life. With the scholarship, many students are now studying in engineering universities, medical colleges and other reputed institutions. A total of 500 students have so far availed the scholarship.

Each year 50 meritorious students from the disadvantaged families who achieve GPA 5 in SSC level get the scholarship for HSC study. Among them, the students who also repeat GPA 5 in HSC level, get scholarships for graduation. In line with the 3P Philosophy, BRAC Bank always works towards realizing the potential of young people. BRAC Bank is proud to be part of an initiative that helps students live a prosperous life.

Realizing Higher Education Dream: BRAC University Scholarships

BRAC Bank is providing financial support to the meritorious but financially challenged students to help them pursue higher education at the university. Each year, 10 undergrad students avail this scholarship that covers full tuition fee and living expenses. The scholarship program will continue for four years. The scholarship helps realize the dream for higher education of the students.

Making technical education affordable: UCEP Institute of Science and Technology

BRAC Bank Limited has partnered to support UCEP Institute of Science and Technology (UIST) that provides technical education at affordable cost.

The contribution will be used to establish an E-Library for the students of the polytechnic institute at Mirpur, Dhaka. UIST Dhaka is the first polytechnic institute of UCEP Bangladesh to provide quality higher technical education to the youth of the country. Started in 2015, UIST currently provides diploma degree in Mechanical, Civil and Electrical Technology.

As a valuesbased bank, BRAC Bank invests in CSR programs that have lasting and long term impact on people and society.

Inspiring the youth for research and study in science: Biochemistry Olympiad

As a part its commitment to enlighten the society, BRAC Bank Limited, in partnership with Dhaka University, has been organizing Biochemistry Olympiad since 2009. The Biochemistry Olympiad inspire the young generation to pursue higher studies in science. More than 1,000 SSC/O level and HSC/A level students from all over the country participate in the biggest festival of bioscience in the country that is held every year at Curzon Hall premises. The Olympiad is an initiative for popularizing higher science education and research among the young generation. Biochemistry Olympiad will definitely inspire the young generation to pursue higher studies in science and that is instrumental for national progress. BRAC Bank puts unshakable trust on the dreams and aspirations of the young generation and helps them realize their potential.

BRAC Bank TARA stands beside the little stars of Chittagong

BRAC Bank's women forum TARA members made a financial contribution to Upalabdhi Foundation, which runs an institute for shelter and education for the lost girls in Chittagong. The amount was raised from a fund raising 'Bake n Sale' program by Tara members at BRAC Bank Head Office on the occasion of International Women's Day. The initiative carried care and love of all Tara members who believe the little donation will facilitate the welfare of the less advantaged children.

Art & Culture

Promoting authentic music: Bengal Classical Music Festival 2015

Bengal Classical Music Festival is the largest classical musical event of the world in terms of the number of audience & performers attendance. BRAC Bank Limited has been a proud partner of Bengal Classical Music Festival since 2013. This year, more than 150,000 music lovers thronged the festival venue during this 5-day continuous program. BRAC Bank believes that, with the goal to popularize and perpetuate the practice of classical music, the festival will go a long way to take the nation to the musical roots and cultural identity.

Enriching Bangla literature: BRAC Bank-Samakal Shahitya Puroshkar:

BRAC Bank-Samakal Shahitya Puroshkar was launched in 2011 to inspire the writers' community for their creative works and to enrich Bangla literature. The literary award program has already generated interest and enthusiasm among the writers' and readers' communities. The award has emerged as a prestigious literary recognition in the cultural circle of the country. The award categories are: "Poetry and novel", "Essay, autobiography, travel story and translation" and Young Writer's Award. Young Writer's Award is dedicated in the memory of late novelist Humayun Ahmed. As a Bangladeshi Bank, BRAC Bank always comes forward in promoting art, culture and Bangla literature. BRAC Bank and Samakal will work hand in hand to make this award the most prestigious and coveted literary award in Bangladesh in the upcoming years

Reliving the history: Contribution to Asiatic Society of Bangladesh for Publishing History Book

The Bank contributed to Asiatic Society of Bangladesh to publish a comprehensive history book titled 'History of Bangladesh: Ancient and Medieval'. The book will be an authentic historical documentation and reference book for the period of Bangladesh before 1704.

Instilling Nazrulworks among the youth: The First Ever Nazrul Mela

BRAC Bank partnered with Nazrul Sangeet Shilpi Parishad to organize the first ever "BRAC Bank NazrulMela2016". The Mela took place at Bangla Academy & was open for all. This was the largest congregation of Nazrul Sangeet singers, performers and scholars in Bangladesh. The purpose of the program was to pay a tribute to the Nazrul Singers as well as the culture they belong to. The Mela was aimed at instilling Nazrul works among the young generation and increase the practice of Nazrul literary works.

Health

Support to National Heart Foundation Hospital, Sylhet

The Bank extended support to National Heart Foundation Hospital in Sylhet, the first fully fledged specialized cardiac hospital in the Sylhet Region. The 100-bed hospital provides affordable cardiac healthcare services to the people of the region. The assistance will be facilitating to buy and install the most modern cardiac treatment and rehabilitation facilities. The assistance bears testimony to the bank's firm commitment to give back to the society it works in by standing for the cause of humanity.

Support to Bangladesh Thalassaemia Samity & Hospital

BRAC Bank has made a financial assistance to Bangladesh Thalassaemia Samity & Hospital that works for the treatment of the thalassaemia patients and also creating awareness about the prevention of the disease. This hospital is the shelter for the poor thalassaemia patients who cannot afford quality treatment due to the high cost involved to the treatment. Thalassemia Hospital arranges these treatment facilities at subsidized costs for the poor patients. Daily, a minimum of 30 children take blood transfusion facility from this hospital. Patients come from all around Bangladesh just for the treatment and guidance. BRAC Bank's help will support them to provide better care to the patients.

Information Technology

Inspiring Brilliant Minds in Technology: ICT Awards

The Daily Star and the Bangladesh Association of Software and Information Services (BASIS), in association with BRAC Bank, honored four individuals and as many information technology firms for their contribution to the country's ICTindustry - now seen as the next big export sector after garments. Finance Minister AMA Muhith handed out the trophies to the winners of "The Daily Star ICT Awards" at Le Méridien hotel in Dhaka.

The individuals who won the inaugural awards are- an internationally acclaimed software firm; founder of IBCS-PRIMAX Software (Bangladesh) Ltd, an IT firm focused on onshore and offshore software development and systems integration; And the firms are Service Engine BPO, an outsourcing company; Information Technology Consultants Ltd, an electronic payment and transaction processing vendor; Bdjobs.com Ltd, a career management site; and Hungrynaki.com, an online food delivery service.

Sports

Proud kit partner of the Bangladesh National Cricket Team

Cricket is the most popular sport in the country. Consistent world class performance of the national cricket team has immensely boosted the country's image worldwide. BRAC bank has become a proud partner of the Bangladesh National Cricket Team for two years. BRAC Bank will be the Team Kit Partner of National Cricket Team, National Women Team and Under 19 Team for all home and away series from 2016 to 2018, except International Cricket Council (ICC)tournaments.

Employee Benefit

Transport Service for officials

According to core CSR principles, employees are the closest stakeholders of a company; therefore they are the key stakeholders as far as CSR is concerned. Keeping that in mind, BRAC Bank launched Transport services (PICK & DROP Service)for the employees of the bank. BRAC Bank is providing the service by giving subsidy for the safety & security of the female employees of the bank. This project is running on a pilot basis and the bank has the plan to provide transport for all the employees of the bank.

Employee Initiatives in CSR

Marathon for Humanity: DOUR 2016

Employees of BRAC Bank run marathon every year to raise fund for supporting human cause. The raised fund is donated to a charity. This is the first such marathon initiative by a bank in the country and is unique in serving the community. BRAC Bank has been organizing the marathon since 2011. In 2016, the employees of BRAC Bank and its subsidiaries again took part for the 6th time in "BRAC Bank DOUR – Marathon for Humanity". On the occasion, the employees raised a fund of Tk. 10 lac, and the company doubled it to Tk. 20 lac from its CSR fund. BRAC Bank donated Tk. 10 lac to Bangladesh Thalassaemia Samity & Hospital that works for the thalassaemia patients and also creating awareness about prevention of the disease.

Taking warmth to the needy people during winter:

BRAC Bank distributed blankets among the cold affected people in the four districts of the country. Senior officials of the bank in assistance with the local administration distributed 15,000 blankets in five places of Nilphamari, Kurigram, Khulna and Barguna. The blankets benefited the less advantaged people as it was distributed at the very beginning during the winter season. The initiative carries the warmth of more than 7,000 employees who raised funds to donate blankets for the less advantaged people of our country.

Vigilance at its Best Risk Management

FROM THE DESK OF CHIEF RISK OFFICER

The banking sector witnessed a diverse performance during the year 2016. Non-performing loan continued to pile up throughout the year. On the other hand, balance sheet size of the banking sector increased during mid 2016 but Capital to Risk Weighted Asset Ratio (CRAR) declined in the same period.

No one can deny the fact that nothing is permanent but change. Thus, from cradle to grave, human being, the paragon of nature is required to learn and garner knowledge to efficiently accommodate and be adaptable to changes. For a banking financial institution like us, some of the significant changes we face are; changes in national, political and economic conditions, change in government policies, change in demand of our products and services, volatility in interest rates, volatility in capital market, changes in Cash Reserve Ratio (CRR) and Statutory Liquidity Ratio (SLR) of the bank, changes in lending and deposit rates, incomes tax rate change, change in competitive markets of the country, global political and social instabilities for remittance and last but not the least there can be fluctuations in the international prices of essentials that influence the foreign exchange market. In addition to all these probable financial instabilities, one should not forget the change in climatic conditions we are eventually heading towards and being affected with, where Bangladesh stands as one of the vulnerable countries around the globe. Albeit Bangladesh does not play any major role in producing harmful toxin for the environment yet, we are being adversely affected of its detrimental impact.

During the early stages of 2016, the country had witnessed some unexpected turmoil that knocked the growth of socio-economic development in scepticism. However, in the face of formidable challenges, the Bangladesh economy continued to show signs of resilience throughout the FY 2016 period. The economy enjoyed a number of advantages from the perspective

of macroeconomic management which were sustained from the previous fiscal year (FY2015). Macroeconomic stability was maintained largely due to falling inflation, large surpluses in both current and financial accounts in the balance of payments, backed up by impressive export growth and rising foreign direct investment (FDI), and increasing foreign exchange reserves. Declining interest rate on lending has played an important role in the recovery of credit growth to the private sector. Growth was underpinned by the moderate development in agriculture and robust performance in industry, aided by a buoyant service sectors. Macro-financial system of Bangladesh demonstrated a notable resilience and stability during the outgoing calendar year 2016 (CY16). Inflation moderated with respect to the beginning of the year. Gross international reserves reached great heights at the end of the year while wage earners' remittance displayed a moderate improvement at end of 2016.

The banking sector witnessed a diverse performance during the year 2016. Non-performing loan continued to pile up throughout the year. On the other hand, balance sheet size of the banking sector increased during mid 2016 but Capital to Risk Weighted Asset Ratio (CRAR) declined in the same period. Key profitability indicators, i.e. Return on Assets (ROA) and Return on Equity (ROE) decreased in the mid period of 2016. Nevertheless, Bangladesh Bank has taken a number of initiatives during the year that had implications on the financial stability of the industry. For instance, Bangladesh Bank has amended guidelines on risk based capital adequacy for banks, issued guidelines on Commercial

246

Paper for Financial Institutions, introduced 7-and 14-day Bangladesh Bank bills to make the monetary policy implementation and liquidity management more effective, revised interest rate of agricultural and rural credit, changed foreign exchange regulations, etc.

The way financial risks are emerging globally, developing models for risk awareness and mitigation has become necessary. Under such circumstances, our Board of Directors and Management have set up plans and strategies to improve and strengthen our existing risk management framework. Risk management team of BRAC Bank is one of the oldest and strongest in the banking industry. We give myriad emphasis on how to take the best by taking risks, identify and manage the same which are inherently prevailing from the genesis of banking. There is a well-defined risk identification, escalation and mitigation methodology in place with clearly articulated risk tolerance level. We leave no stone unturned in managing and mitigating risks at every level of operation. We believe continuous advancement in risk management system and adoption of new technologies will be key for BRAC bank's sustainable growth in the foreseeable future.

We strive to practice what we preach. Our efforts toward immaculate transparency in our disclosures existed and shall prevail so that our stakeholders can get unambiguous perspective of their requisites. Owing to the uncertain nature of risk, we remain aligned with the ever evolving operating environment both at the national as well as global front. Whereby, risk mitigation techniques are embedded judiciously into our policies and processes. We not only aim to remain with our philosophy of People-Planet-Profit but also keep focusing on strengthening portfolio base, increasing effort towards sustainability, development of human resources, and supervision of comprehensive risk management, identify and monitor causes of failures that are expected to affect our financial position.

We are the custodian of people's money and strive to address all probable threats and risks with efficacy in this dynamic environment. BRAC Bank delves into all possible sources of risk to proactively mitigate them. It is only for our unshakeable trust people come to us with their hard earned money, so it is our prime responsibility to uphold the sanctity of this trust bestowed on us. Now, every change brings with it some uncertainties and risks. And risk can be defined as the adverse impact on business from various sources of uncertainty. In short, it is anything that deviates BRAC Bank from achieving its goals and threat of losing assets. But the first step to risk management process is always to acknowledge the reality of risk. Every member of the BRAC Bank family is well aware and jointly works towards safeguarding its

The way financial risks are emerging globally, developing models for risk awareness and mitigation has become necessary. Under such circumstances, our Board of Directors and Management have set up plans and strategies to improve and strengthen existing risk management our framework. Risk management team of BRAC Bank is one of the oldest and strongest in the banking industry. We give myriad emphasis on how to take the best by taking risks, identify and manage the same which are inherently prevailing from the genesis of banking. asset by all possible means. To manage and mitigate risks, we have a robust risk management framework that not only ensures utter regulatory compliance but also internally updates and adheres to global best practices. We are compliant with the international best practice like Basel framework for managing risk. Basel Accords are recommendations on banking laws and regulations issued by the Basel Committee on Banking Supervision. Generally speaking, these rules mean that the greater risk to which the bank is exposed, the greater the amount of capital the bank needs to hold to safeguard its solvency and overall economic stability. BRAC Bank's ever dynamic operational, reputation, credit and all other probable risks are well taken care of by Basel framework.

RISK MANAGEMENT FRAMEWORK

Risk is the chance or possibility of loss, damage, injury or failure to achieve objectives caused by an unwanted or uncertain action or event. Risk management is the planned and systematic approach to the identification, evaluation and control of risk.

1. Introduction:

Risk is the chance or possibility of loss, damage, injury or failure to achieve objectives caused by an unwanted or uncertain action or event. Risk management is the planned and systematic approach to the identification, evaluation and control of risk. The objective of risk management is to secure the assets and reputation of the organization and to ensure the continued financial and organizational well-being. Good risk management practice is

- To ensure that all the risks concerning the profitability and other material risks are identified, assessed and analyzed;
- To ensure that capitalization in the form of capital and estimated profitability of the business

 is sufficient in terms of current risks inherent in business activities and existing business environment;
- To that risk bearing capacity is distributed to different business areas according to the preferred strategies and that risks are properly priced;
- To limit and mitigate fluctuations in the economic values of subsidiaries; and
- To ensure the overall efficiency, security and continuity of operations.

Risk management should be a continuous and developing process which runs throughout the

organization's strategy and the implementation of that strategy, methodically addressing all risks surrounding our activities of the past, present and future.

2. Vision of Risk Management:

To be a risk managed bank and help blend a risk-awareness culture into our DNA while maximizing clients' and shareholders' assets and seizing opportunities, yet striking a healthy balance between capital-preservation and capital-optimization (risk / reward).

3. Mission Statements:

- To facilitate various individuals, units, departments and divisions of BBL to be aware of their own risks.
- To provide necessary feedback and way-out in consultation with experts & resolutions of ERMC.
- To be able to comprehend and combat future adversities and take proactive measures.
- To introduce updated policy and process to safeguard the bank's and customer's interest.
- To ensure sustainable business and operations by visible improvements in regulatory and internal compliance to manage risk
- To promote a risk conscious environment in a manner consistent with the mission and vision of the Bank.

248

Risk management is a discipline at the core of every institution and encompasses all the activities that affect its risk profile. Risk management, as commonly perceived does not mean minimizing risk; rather the goal of risk management is to optimize risk-reward trade-off. This can be achieved through putting in place an effective risk management framework which can adequately capture and manage all risks an institution is exposed to. Conventionally, risk management generally encompasses the process of:

- Identifying key risks to the bank
- Assessing these risks and measuring the bank's exposures to them
- Monitoring the risk exposures and determining the corresponding capital needs
- Reporting to senior management and/or board where appropriate

Risk management is not an ephemeral action, rather it's a dynamic process that must be understood and run on in virtually every part of the organization. The goal of creating a risk management culture is to create a situation where staff and management instinctively look for risks and consider their impacts when making effective decisions. BRAC bank possesses a culture of understanding risk, recognizes the importance of risk management, and carries out responsibility and accountability for identifying and managing risks from individual level. We believe that, beyond setting the right policies and structure, risk culture plays a major role for the success of an organization in its risk management. Building a risk-aware culture requires recognition at all levels and by all members of an organization of individual responsibility and accountability in identifying and managing risks. It also requires continuous feedback and realignment of business objectives, assessment processes, and employee incentives.

Nowadays it is arguably agreed that a deep and sound risk management needs implementation of risk appetite framework, which is a structured approach to governance, management, measurement, monitoring and control of risk. At BRAC bank, we understand and consider all material risks, prevailing and impending, both at the business unit level and in aggregate. Hence, in line with its overall strategies and objectives, BRAC bank sets its risk appetite that specifies the risk tolerance limit, capacity and overall readiness to take risk.

4. Key Elements of Risk Management Framework of BBL:

 Oversight of Board and Senior Management into the risk management structure.

- Proper methods and procedures for risk identification, measurement, treatment and monitoring.
- Bottom up approach for risk escalation which allows everyone to identify risk issues from their own areas.

5. Structure of Risk Management:

Risk management structure includes all the processes, tools and techniques to manage overall risks of the bank. BRAC bank sets its risk management structure that is parallel with national as well as global standard. Not only do we have risk management inculcated at Board and Management level, but our risk management framework encompasses the operational level too, which enables us to give all-inclusive emphasis on managing risk at every level.

a. Board Involvement:

The Board is responsible for establishing the bank's overall strategy and significant policies relating to the management of individual risk elements to which it is exposed. There is a Board Risk Management Committee that is involved with the risk management functions of the bank.

Board Risk Management Committee (RMC):

- Approves the risk management policy of the bank.
- Determines strategic direction of the bank.
- Creates an environment and structure for effective operation of risk management.
- Sets up the risk appetite and tolerance limits for the bank.

b. Management Involvement:

Seniormanagement is responsible for the implementation of risk policies and procedures in line with the strategic direction and risk appetite specified by the board. This senior management is fully responsible for the risk management culture of the entire bank. To manage the enterprise wide risks, the bank has the Enterprise Risk Management Committee (ERMC).

Enterprise Risk Management Committee (ERMC):

Senior management is involved in solving the bankwide risk issues through ERMC. This committee is

steered by Chief Risk Officer (CRO). Enterprise Risk Management Committee oversees all matters relating to enterprise wide risk management, especially in terms of recommending policies and guidelines for effective risk management to the Board.

c. Entire Bank's Involvement in Risk Management Process:

To make the risk management process more robust, transparent and to bring the risk issues from every corner of the bank, BBL established an Enterprise Risk Associate Forum (ERAF) consisting of the representatives from all the divisions. ERAF is chaired by the Head of Risk Management and meets as and when required, but at least once in a month. The forum specially addresses the following issues:

- Works as an initial level of risk managers for their own division.
- Identifies, escalates and reports the risk issues from every unit.
- Solves the issues together with the recommendations from all the stakeholders.
- Works on the issues till proper resolution is attained.
- Promotes risk culture and works closely with risk management division to ensure risk management

- initiatives are in place for risk controlled banking practices.
- Assists Risk Management Division to plan and reduce operational surprises and losses by recommending risk mitigation strategies.

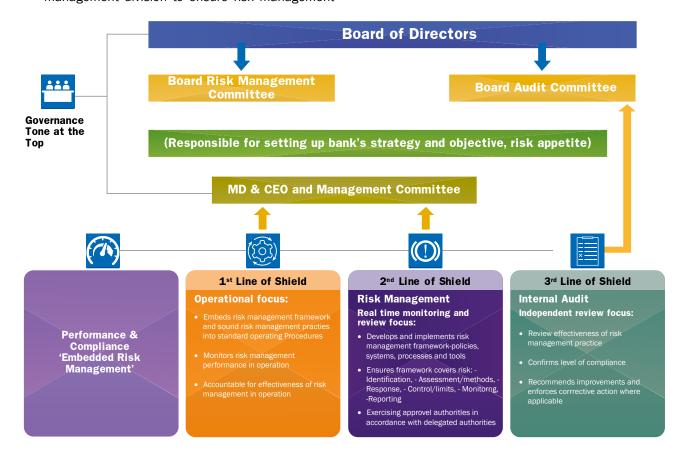

d. Single Solution Platform- Enterprise Risk Governance Forum (ERGF):

Enterprise Risk Governance Forum (ERGF) is a platform where all the staff around the corner of the bank can get access to the immediate solutions of the problems related to business operational queries as well as for risk and hazards. This forum is established and comprised of all the heads involved in Risk, Control, Compliance, Governance and Security. All the queries are met by the senior management. This forum acts as the single contact point for risk response.

At BRAC bank, risk management structure includes all the processes, tools and techniques to manage overall risks of the bank. BRAC bank sets its risk management structure that is parallel with national as well as global standard.

The framework of BRAC bank's overall risk management involves the following oversights:

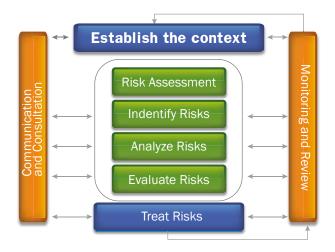

Board and senior management supervision

- Sound capital assessment
- Comprehensive assessment of risks
- Monitoring and reporting
- Internal control review

6. Process pertaining to our Risk Management Framework:

We believe, to be sustainable and consistent in financial performance in the long run, and in order to achieve this inimitable and effective risk management is the prerequisite. Hence, effective risk management is the core element of the financial soundness of a bank. Our Risk Management Framework gives us clear understanding of how and where to start from, what measures to take and how to mitigate risks at every level. Hence, our risk management framework can be portrayed in the following manner:

7. Committees and Forums responsible for Risk Management:

Even though BRAC bank has a unique culture to treat risks in a manner where each and every layer is involved, it also has some structured entities to govern and oversee risk management function. Keeping in mind the inherent nature of risk, BRAC Bank has several committees comprising of its key personnel from Management as well as Board level, to oversee the material risks issues the bank is exposed to. Following are a few to mention;

- Board Audit Committee
- Board Risk Management Committee
- Credit Committee
- Asset Liability Management Committee

- Basel Steering Committee
- ERMC & ERGF
- ERAF

8. Roles of Board in managing risks:

In 2014, board level "Risk Management Committee" has been established following the Bangladesh bank's directive. They convene on bi-monthly basis. Our Risk Management Committee is comprised of three members from the board. This esteemed body actively monitors the overall risk management of the bank through comprehensive review including determination of risk appetite, risk policies, risk framework, etc. The Risk Management Committee, at board level, provides assistance to the Board of Directors in fulfilling its responsibility to the shareholders, prospective shareholders and investment community. The objective of Risk Management Committee is to play an effective role in mitigating impending risks arising from strategies and policies formulated by the Board and to carry out the responsibilities efficiently. After identifying and assessing several risk factors like credit risks, foreign exchange risks, ICC risks, AML risks, liquidity risks etc.; the Risk Management Committee scrutinizes whether appropriate risk management measures are being put in place and applied and whether adequate capital and provision is being maintained against the risks identified. The committee is responsible for assessing, and providing oversight to management relating to the identification and evaluation of major strategic, operational, and regulatory, information security and other external risks inherent in the business. It also oversees the risk management, compliance and control activities of the bank. Overseeing the integrity of the bank's operational controls in line with legal and regulatory requirements, is also within the purview of RMC.

Particulars	Roles and Responsibilities	Represented by
Board Risk Management Committee (RMC)	 The Company's Risk Governance Structure Risk Management Policy of the Bank Determining strategic direction of the Bank Setting up the Risk Appetite 	Members from Board of Directors
Enterprise Risk Management Committee (ERMC)	 Designs enterprise wide risk management framework including policy for the bank and reviews it periodically to keep it contemporary Provides clear guidance on enterprise risk management. Establishes internal risk policy for business/functional units. Assesses business risk and review risk based internal audit system and report to understand impact of control risk on the bank. 	Members from Management Committee
Basel Steering Committee	 Oversees the implementation of Basel Accords across the bank according to the guidelines of BB Ensures proper assessment and allocation of adequate capital against the bank's own ICAAP outcome Recommends action plan and policies for development of bank specific ICAAP document Conducts dialogue with BB's SREP team to set up capital charge against various risks which fall under ICAAP 	Members from Management Committee
Asset Liability Management Committee (ALCO)	Assumes liquidity risk to attain bank's financial goal Monitors Interest rate risk so that the bank retains its margin of profitability	Members from Management Committee
Credit Committee	 Monitors credit risk & sets up strategy for credit policy and procedure Reviews the bank's credit risk appetite and exposure Ensures compliance of credit limits approved by BODs 	Members from Management Committee
Enterprise Risk Associates Forum (ERAF)	 Promotes risk culture Works closely with risk management division to ensure risk controlled banking practices. Works as an active risk manager of respective unit by identifying departmental risk issues and perform necessary analysis. Escalates respective risk issues to risk management division (RMD) and suggests mitigation. 	Representatives from all concerned departments
Risk Register (a tool to flag risk)	 Creates awareness about risk management at individual level Enables individual employee to flag risk issues throughout the bank 	Employees of Pan bank

9. Scope of Risk Management Division:

In BRAC Bank, Risk Management Division (RMD) has been established as per Bangladesh Bank directives. Here, risk management function is accountable for overseeing management of risks inherent in the bank's operations. Moreover, this function is responsible for ensuring that effective processes are in place for:

- Identifying current and emerging risks
- Developing risk assessment and measurement systems
- Establishing policies, practices and other control mechanisms to manage risks
- Developing risk tolerance limits for Senior Management and board approval
- Monitoring positions against approved risk tolerance limits; and
- Reporting results of risk monitoring to Senior Management and the board

However, it must not be construed that risk management is only restricted to individual(s) responsible for overall

risk management function. Business lines are equally responsible for the risks they are taking. Because business line personnel, more than anyone else, understand the risks of the business.

10. Risk Management footstep in 2016:

The nation had witnessed multifarious risky events in 2016. Under such circumstances we had to take contemporary measures in order to ensure smooth operation of our day to day business. To withstand every possible adversity faced in 2016, we formed a new forum named as Enterprise Risk Governance Forum (ERGF) that brings ultimate efficacy in our overall strategies of risk management. In this committee, both management level and fundamental planners of the bank work together to orchestrate a chain of risk management. Besides that, an updated version of Enterprise Risk Management Policy is in progress to be circulated very shortly.

Moreover, through preparation of periodic Risk Management (RM) paper, key risk areas are highlighted and placed at management level regularly. Added to this, significant risk issues of our bank with full analysis are presented in front of the ERMC. Particular issues are addressed in accordance with the ERMC resolution. Our Managing Director & CEO is the chair of this committee.

To withstand every possible adversity faced in 2016, we formed a new forum named as Enterprise Risk Governance Forum (ERGF) that brings ultimate efficacy in our overall strategies of risk management. In this committee, both management level and fundamental planners of the bank work together to orchestrate a chain of risk management. Besides that, an updated version of Enterprise Risk Management Policy is in progress to be circulated very shortly.

Moreover, through preparation of periodic Risk Management (RM) paper, key risk areas are highlighted and placed at management level regularly. Added to this, significant risk issues of our bank with full analysis are presented in front of the ERMC.

11. Coverage of Various types of Risks:

The above entire risk management framework addresses various types of risk issues to minimize the loss and maximize the shareholders' profits.

The entire risk management framework is designed in such a way so that all types of risk can pro-actively be identified and mitigated to reduce its exposure and the probability of these taking place in future. This in turn will help BRAC Bank's steady growth.

Just like one candle can light a million candles without losing its luminance, we at BRAC Bank set examples by smoothly facilitating any changes and creating enabling environment for other market players to get enlightened from our journey. Now, standing at this point in time, we

wish to concentrate on the quality of our portfolio more than ever, we are committed to work for people, planet and profit. With the mindset to be a sustainable bank, we thoroughly assess every individual before boarding in as customer. Yet, in line with our visionary founder chairman's philosophy of building a world free from all forms of exploitation and discrimination, we intend to bolster the economic growth of our nation on ethical ground. In the pursuit of excellence in service quality we constantly strive to inculcate service culture into the DNA of all our employees.

RISK MITIGATION METHODOLOGY

In addition to this, for the assessment of adequate capital under Supervisory Review Process, the evaluation of Core Risk Management are conducted by the respective core risk owners of our bank. The rating decision are based on Central Bank as well as internal Audit Reports.

The first step to risk management process is always to acknowledge the reality of risk. Denial is a common tactic that substitutes deliberate ignorance for thoughtful planning. In this regard BRAC Bank stringently focuses on managing all types of risks in their processes along with implementation of Basel-III for capital adequacy as per the Bangladesh Bank road map. BRAC Bank identifies, analyses and escalates all kinds of risks (e.g. credit, market, operational, legal, compliance, reputational, strategic, etc) inclusive of six core risks based on Bangladesh Bank's Core Risk Guidelines. With the development of key risk indicators, business continuity planning, Basel II & III compliance advancement, and the re-engineering/establishment of process manuals to ensure proper accountability and operational control, we are in a process of continuous development. For risk identification and escalation to senior management - a dedicated wing is in place to forecast and identify risk based on Bangladesh Bank's core risk guidelines, analyze and suggest on risk mitigation, and report timely to senior management for strategic decisions, gear up resources to meet all requirements set by Bangladesh Bank on capital adequacy, risk supervision and disclosure.

An Enterprise Risk Management Committee (ERMC) is in place to ensure the bank's risk governance and ensure compliance with Bangladesh Bank directives on

forming separate risk management cell for minimizing the bank's enterprise level risk issues. ERMC is a process supported by the Board of Directors of BRAC Bank Limited and Management Committee members, and it is applied in strategy setting across the enterprise. The ERMC is designed to identify potential events that may affect the organization and to provide reasonable assurance regarding the achievement of the bank's strategic objectives.

In addition to this, for the assessment of adequate capital under Supervisory Review Process, the evaluation of Core Risk Management are conducted by the respective core risk owners of our bank. The rating decision are based on Central Bank as well as internal Audit reports, CAMELS rating, various returns and internal MIS and also keeping in mind all the relevant risk aspects, industry position, business activities and feedback from across the bank. For internal audit, an audit plan in different core risk departments of Head Office is prepared at the beginning of each year and approval is taken from Senior Management. Plan is usually prepared taking regulatory and internal requirement into cognizance. Prior to auditing a specific department, Terms of Reference (TOR) are finalized to conduct audit and placed for management approval. According to the approved audit plan & TOR, resources are allocated to conduct audit activities. At the end of the audit, findings are shared with concerned

departments. To finalize those findings, a review meeting is arranged with concerned risk department's Senior Management. When all the audit findings are settled, finalized and agreed by them, summary of audit findings are submitted to Board Audit Committee (BAC) and Managing Director & CEO. BAC directives are shared with the relevant risk divisions. Compliance status of unresolved issues is monitored by a separate team (Compliance & Monitoring) under ICC. BAC meetings are generally held bi-monthly and a summary report of audit findings is placed in each meeting

Complementing this exhaustive mechanism, a model has been developed to assess each of the six core risks individually. A set of questionnaire has been developed in order to do this assessment. The responses to the questions lead to a score, which is tagged with a grade. The grading is similar to Bangladesh Bank's format where capital charge is to be calculated if it falls below "Satisfactory" level. The questions primarily cover key aspects of the six core risk guidelines of Bangladesh Bank, international best practices and keeping in mind the bank's risk appetite and profile.

1. Credit Risk:

A credit risk is the risk of default on a debt that may arise from a borrower failing to make required payments. In the first resort, the risk is that of the lender and includes lost principal and interest, disruption to cash flows, and increased collection costs. At BRAC bank, the core function of Credit Risk Management (CRM) Team is to optimize the risk adjusted return from the bank's loans and advances by maintaining an appropriate standard in the underwriting process. BRAC bank takes holistic approach towards credit risk management, where socioeconomic and environmental impacts of the decisions made are emphasized upon. This particular practice is the hallmark of BRAC Bank's credit risk management objective. To achieve this goal, we manage the credit risk inherent in the entire portfolio of the bank as well as the risks associated with individual credit proposals or transactions. We consider the relationships between credit risk and other risks while supporting the transactions of the bank. We believe that the effective management of credit risk is a critical component of a comprehensive approach to risk management and essential to the long-term success of any banking organization.

Bangladesh bank has issued guideline on credit risk management more than a decade ago, which was updated this year yet again. Hence, we have a clear directive from the central bank to follow, in conjunction with BRAC Bank's credit policies that is in place since 2005 for the management of credit risk. The policy is tailor made to distinctively cater to each of the three different business lines namely SME, Retail and Corporate, that is reviewed every year. Loan processing system in our bank is entirely centralized. While the Relationship Manager (RM) hunts for potential businesses keeping in mind the 5 Cs in a customer, the RM prepares credit proposals and sends them to Credit Risk Management (CRM) for analysis. Once CRM analyzes the proposal, decision is made (Approved/Declined/Query provided) and approved as per the Delegation of Authority. Finally, documentation & disbursement are being done by Operations Division. In each of the aforementioned step, very stringent and rigorous risk assessment is executed. We strive to eliminate every possibility of credit risk in BRAC Bank. In addition, there is a lending cap to a single borrower / group borrower that enables the bank to ensure compliance of the exposure limit as stipulated by the regulators.

Determination of credit risk involves review of the borrower's past credit history and its income assessment. We have established an appropriate credit risk environment, operating under a sound credit-granting process, maintaining a robust credit administration and monitoring process, and ensuring adequate controls over credit risk. We identify these risks by physically showing up at the project sites on a regular basis. Visits are made by Relationship Managers as well as by Credit Inspection Team. It provides a basic structure for corporate borrowers to improve their environmental and social performance through the establishment of environmental and social goals, implementation of a plan for achieving those goals, monitoring progress, and corrective actions. The steps involved are:

- Develop internal awareness of environmental and social risks associated with lending.
- 2) Integration of environmental and social risks into credit appraisal process.
- 3) Monitor whether environmental and social plans and goals are being carried out effectively.

The environmental and social performance of current and potential debtors raises a variety of potential risk and opportunities for banks. Given this fact, we are very meticulous in performing due diligence prior to committing funds to a borrower. To achieve the target, we have established an open credit culture through

providing the delegation of authority among the midmanagement of CRM division to support the bank's primary goal. We believe that without skilled human resources, it is difficult to maintain quality service, and as part of that we have implemented a number of onthe-job training sessions, knowledge sharing sessions, and case studies on Credit Risk Management for the employees working in this division. To support our SME borrowers' businesses which are geographically spreadout all over the country including the rural areas, we have established numerous CRM centers across the country. These centers perform an independent pre-approval visit to ensure credit-worthiness for the proposal to consider, hence covering 100% of the SME underwriting throughout the country. At BRAC Bank Ltd., we are very keen to identify, measure, monitor and control credit risk to ensure that adequate capital against these risks are maintained and that they are satisfactorily compensated against the risk of potential losses.

2. Market Risk:

Market Risk is the risk of potential losses in the on balance sheet and off balance sheet positions of a bank stemming from adverse movements in market rates or prices such as interest rates, foreign exchange rates, equity prices, credit spreads, and/or commodity prices.

3. Equity Price Risk:

Equity risk is defined as the losses incurring from the changes in the market price of equity held by the bank. To measure and identify the risk, mark to market valuations of the share investment portfolios are done. Mark to market valuation is done against a predetermined limit. Equity Risk of the bank is also monitored through analysis of own investment on shares by subsidiaries, margin loan against investment in share by subsidiaries and loan statement against shares. Equity price risk could be systematic or unsystematic. The former refers to the sensitivity of a portfolio's value to changes in overall level of equity prices, while the latter is associated with price volatility that is determined by a firm's specific characteristics.

4. Interest Rate Risk:

Interest Rate Risk is the potential impact on a bank's earnings and net asset value due to changes in the market interest rates. In simple words, interest rate risk arises when the bank is obliged to pay more interest for liabilities but cannot charge more on assets. Such risks

cannot be eliminated as re-pricing period of assets and liabilities are different. Other than re-pricing issue, other sources of interest rate risk are: yield curve risk, basis risk, and embedded options. The immediate impact of a variation in interest is on the bank's net interest income, while a long term impact is on the bank's net worth since the economic value of the bank's assets, liabilities and off balance sheet exposures are affected. Re-pricing schedule used as interest rate risk measurement techniques. It begins with a maturity/re-pricing schedule that distributes interest sensitive assets, liabilities, and off- balance sheet positions into a certain number of predefined time bands according to their maturity (if fixed rate) or time remaining to their next re-pricing (if floating rate).

5. Foreign Exchange Risk Management:

Foreign Exchange Risk Management is the risk that the bank may suffer losses as a result of adverse exchange rate movements during a period in which it has an open position in an individual foreign currency. In addition, the bank is also exposed to interest rate risk and settlement risk on account of its foreign exchange business.

At BRAC bank, treasury division is vested with dealing with risks associated with foreign exchange movements. Every dealer is given a stop loss limit to restrict his/her intuition beyond an acceptable limit. Net open position of BRAC bank is strictly followed as agreed by Bangladesh Bank.

We have Foreign Exchange Risk Management Guidelines entirely customized as per our bank's need since 2004. The guidelines have been prepared as per Bangladesh Bank guidelines and appraised by our Board of Directors. Bangladesh Bank issued guideline on FX risk in 2009 that was last updated in February 2016. All financial activities are susceptible to different degree of risks. Being a financial institution, to measure, monitor and manage these risks is crucial for the survival and good health of the organization. Within the bank, treasury is vested with the responsibility to measure and minimize the risks associated with bank's assets and liabilities. Managing foreign exchange risk is one of the prime responsibilities of treasury. Various risk elements are considered while managing/dealing foreign exchange transactions. The important risk issues are credit risk, liquidity risk, interest rate risk, price risk, compliance risk etc. While segregation of responsibilities is duly maintained, strict restrictions also exist for dealers. They are restricted to do deal processing, generating

revaluation rates, regulatory reporting, setting up counterparty limits, setting up market risk limits, own account trading, etc. Similar restrictions are also present for the back office team.

Various risk elements are considered while managing/ dealing foreign exchange transactions. The following aspects are covered to combat FX risk at the bank.

- a. Limits: Foreign exchange dealing would be done within the limits delegated by the Board of Directors to the CEO/ Head of Business, Head of Treasury. Dealing limit would be set considering the bank's own requirement, market condition, counter party, etc. CEO would delegate the limit to the Head of Treasury (HOT) and HOT would allocate the limit to individual dealers.
- b. Stop Loss Limit: Every dealer is given a stop loss limit to restrict the intuition beyond an acceptable limit considering the organization's portfolio and risk aversion attitude. Limits are also set for individual deals and portfolio position of a dealer. Stop loss limit to the Head of Business/CEO and the Head of Treasury is set by the Board and in turn the Head of Treasury (HOT) allocates the individual limits to dealers.
- **c. After-hours Dealing and Off-premise Dealing:** After-hours dealing and Off-premises dealing is strictly restricted. HOT, with the permission from the Head of Business/CEO, might do after-hours dealing and off-premises dealing for taking/covering positions on case-to-case basis.
- d. Position Reconciliation & Nostro A/C Reconciliation: All dealers' positions are reconciled with the positions provided by the backoffice before making any deal in the next business day. All Nostro accounts are reconciled on a monthly basis. Any outstanding issues are reported to the CEO/Head of Operations for immediate reconciliation.
- e. Valuation: Treasury back office evaluates all the outstanding positions at current market rates (mark to market) to determine the current market value of these on a daily basis. Back office gathers market rates from independent sources i.e. other than the dealers of the same organization to avoid conflict of interest and report to the line manager. This exercise provides the profitability/loss of the outstanding contracts.

f. Internal Audit: Bank's internal audit team conducts audit to the affairs of the treasury front office and back office, which will include checking DCFCL, adherence to various limits, compliance requirements, statutory and management requirements, etc. In addition to regular audits, surprise audits to the affairs of the front office and back-office is conducted.

Making a deal

The process of a deal would start when a dealer strikes a deal in the market. He would then maintain his own record for monitoring the exchange position and his own dealing position. Within a reasonable time, the dealer would pass the detailed information of the deal to the treasury back office. The back office arranges for the deal confirmation to the counter-party, arranges settlement, reconciles exchange position and advises treasury. Certain processes are extremely crucial to achieve efficiency, profitability and control in the treasury functions that are mentioned below:

Dealing Room: Access to the dealing room is restricted only to dealers and concerned personnel.

Taped Conversation: Dealing room is equipped with a voice recorder for recording deals taking place over phone.

Deal Recording: Deals are recorded as soon as a deal is stuck in a deal register/electronic register where a dealer and Head of Treasury/Chief Dealer puts initials.

Position Blotter: Immediately after a deal is struck, the dealer records the deal on the position blotter and updates his position. Dealer maintains the blotter with utmost importance to avoid any mismatch and adverse position.

Deal Slip: Immediately after a deal, dealer will prepare a deal slip with necessary details and pass the same to the back office for settlement and reconciliation.

Deal Delay: Deal slip would be sent to the treasury the back office within the shortest possible time and without making any abnormal delay.

Counter party Limits: A counterparty limit arises from the potential risk of the counterparty being unable to settle a deal. Both pre-settlement risk (PSR) and Settlement Risk (SR) are present here. Counterparty limits are set by the Credit Committee and monitored by Head of Treasury/Financial Analyst.

258

In addition to the aforementioned aspects, Trigger Levels, Appropriateness of Dealings, Rate Appropriateness, Deals Outstanding Limits, Daily Treasury Risk Report, Code of Conduct, etc. are also taken into consideration. Bangladesh Bank approved limits are present for monitoring. Daily management report portrays the real scenario to the top management. Moreover, we report FX open position limit to Bangladesh Bank on a regular basis.

6. Asset liability Management Risk:

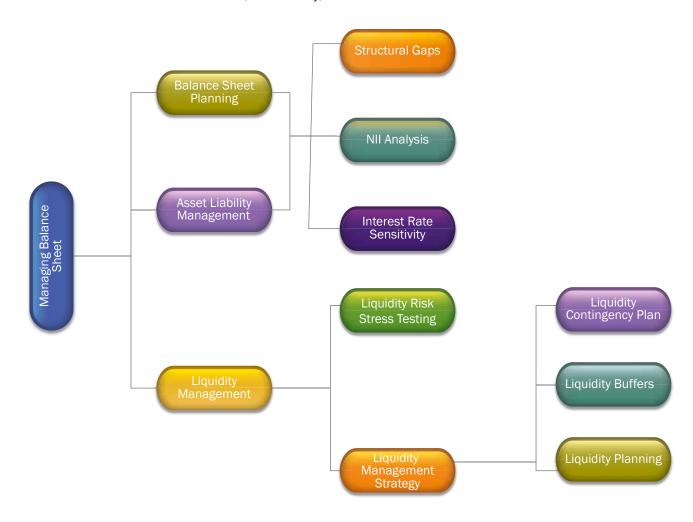

Asset Liability Management (ALM) plays a critical role in weaving together the different business lines within a financial institution. Managing liquidity and the balance sheet are crucial to the existence of a financial institution and sustenance of its day to day operations. It is also essential for seamless growth of the balance sheet in a profitable way.

Asset Liability Management (ALM) is the core job and integral part of Bank Management.

Changes in market liquidity and in interest rate exposes Bank's business to the risk of loss, which may, in

extreme cases, threaten the survival of the institution. As such, it is important that the level of the balance sheet risks is effectively managed, appropriate policies and procedures are established to control and limit these risks, and proper resources are available for evaluating and controlling these risks. When our central bank issued guideline on ALM over a decade ago and was last updated in this year, we developed our own policy in line with them. The Asset Liability Management policy was approved by the Board in August 2004. It was last updated in April, 2016. Asset Liability Management policy is prepared to monitor, measure and manage the risks associated with the balance sheet and guards the bank against any unforeseen losses/threats for survival. The policy is revised to accommodate regulatory and organizational change.

Liquidity Contingency plan and the guidelines of Bangladesh Bank in respect of CRR, SLR & Capital Adequacy are also there to guide in the proper direction. We have the Asset Liability Committee (ALCO) responsible for overall balance sheet (asset liability) risk management. Treasury would be responsible for managing the balance sheet as per recommendation of ALCO to minimize risk and maximize returns. The

committee would call on a meeting at least once in every month to set and review strategies on ALM. The ALCO process or ALCO meeting reviews the ALCO paper along with the prescribed agendas. Head of treasury puts his views on whether the interest rates need to be re-priced, whether the bank needs deposits or advances to grow, whether the growth on deposits and advances should be on short term or long term basis, what would be the transfer price of funds among the divisions, and what kind of interbank dependencies the bank have. Based on the analysis and views, the committee would take decisions to reduce balance sheet risks while maximizing profits.

BRAC Bank Limited gives adequate emphasis in order to minimize the balance sheet risks as effectively as possible. Appropriate policies and procedures have been established as per the guidelines of the Bank's Board of Directors (BOD) including relevant guidelines specified by Bangladesh Bank to control and limit these risks. Apart from that, proper resources are available for the evaluation and control of these risks. The Asset Liability Committee (ALCO) of the bank monitors Balance Sheet and liquidity risks of the bank.

Environmental and climate change risk:

In addition to these entire probable financial risks, one should not forget the change in climatic conditions that could pose a potential threat to our business. Albeit Bangladesh does not play any major role in producing harmful toxins for the environment, yet we are being adversely affected by its detrimental impact.

The impact is quite evident as we have been facing unwarranted devastating cyclones and floods across the country. And since BRAC Bank's portfolio is concentrated with small and medium scale entrepreneurs, natural calamities greatly hamper our business lines. Yet, just like no lock is made without a key, BRAC Bank deals every challenge proactively. We not only ensure proper mitigation strategy while extending credit facilities but also involve dedicated relationship managers zone-wise to closely monitor and council customers to help combat unforeseen situations with efficacy. Simultaneously, to safeguard our environment from further deterioration we strongly emphasize on "Green Banking" practices. We are a sustainable bank with high ethical values and also received accolade from the central bank.

Environmental and climate change risk refers to the uncertainty or probability of losses that originates from any adverse environmental or climate change events (natural or man-made) and/or the non-compliance of the prevailing national environmental regulations.

Environmental and climate change risks can hamper the business stability of the borrowers as far as profitability and reputation are concerned. BRAC bank uses Environmental Risk Rating (EnvRR) while financing new projects.

8. Internal Control and Compliance:

Internal Control and Compliance risk refers to the gap of internal system to highlight a control breach either because of non-inclusion in sampling or due to failure to detect within the sample. Losses arising out of lapse of internal compliances will be considered under operational risk. Internal control is the process, guided by a company's board of directors, management and other personnel, designed to provide reasonable assurance regarding the achievement of the objectives in the effectiveness and efficiency of operations, the reliability of financial reporting and compliance with applicable laws, regulations, and internal policies. Internal controls are the policies and procedures established and implemented alone, or in concert with other policies or procedures, to manage and control a particular risk or business activity, or combination of risks or business activities, to which the company is exposed to or in which it is engaged. A sound internal control function plays an important role in contributing to the effectiveness of the internal control system. BRAC bank has a board approved own Internal Control and Compliance policy.

9. Establishment of a Compliance Culture

We have a very robust structure within the organization to strictly combat ICC risk. There is a vivid and clear Audit Charter formulated in order to ensure transparency, accountability and authenticity. By the virtue of this framework, the audit teams have the accessibility to any information across the bank. They are entitled to make any query deems fit during the execution of the auditing. The Board of Directors of the bank has established an Audit Committee to monitor the effectiveness of the internal control system of the Bank. The Audit Committee meets the senior management periodically to discuss the effectiveness of the internal control system of the bank and ensures that the management has taken appropriate actions as per the recommendations of the auditors and the Internal Control and Compliance Division (ICCD). As per the approved audit plan, ICCD completes the audit and inspection tasks of branches (Retail, SME) and head Office divisions/ departments in 2016. The significant deficiencies identified by Internal Control team are reported to the Audit Committee of the Board. In addition to the internal audit & inspection team, the monitoring team conducts surprise inspections at the Branches, SME unit offices.

BRAC BANK LIMITED

260

Now a day's, fraud and forgery appears in diverse form. To prevent fraud & forgery, BRAC Bank Limited established a department to deal with such kind of incidences. This wing exclusively deals with all kinds of fraud and forgery and act independently as the first contact point / information unit where internal & external fraud & forgery incidences are investigated and reviewed. To protect the bank and its stakeholders' interest, this unit performs thorough investigation to identify the perpetrator and the root cause of the reported incident. As a counteractive course of action, preventive and corrective measures are recommended to the business/functional unit to take necessary actions relating to process improvement, recovery of misappropriated amount, adjustment of the operational loss and to take appropriate action against the perpetrator. The investigation reports are also placed to the Board Audit Committee for their direction and guidance. This wing also ensures the implementation of the recommendations made in the investigation report by performing follow up audit, quarterly. Any violation and breach in compliance issues are dealt with iron hand. They unearth the root causes of every delinquent/ fraudulent activity in the face of internal and external fraudster.

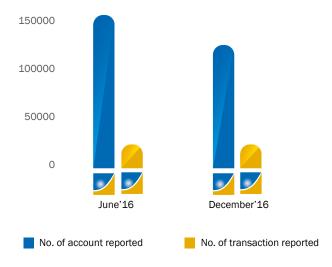

10. Role of External Auditors in Evaluating Internal Control System

It is known to all that External Auditors by dint of their independence from the management of the bank can provide unbiased recommendations as far as the strengths and weaknesses are concerned relating to the internal control system of the bank, which is done on regular periodicity. They examine the records, transactions of the bank and evaluate the accounting policy, disclosure policy and methods of the financial estimations made by the Bank. This allows the board and the management to have an independent overview on the overall control system of the bank. Along with the periodic Bangladesh Bank audit, other external auditors conduct regular auditing to find out the control lapses prevalent within the system.

11. Prevention of Money Laundering:

Money Laundering is deemed as a finance-based crime that buckles down to conceal, misrepresent and disguise all the details with regard to illegal financial income taking advantage of the vulnerability of the Financial Institutions mostly in the developing countries. Due to the rapid incorporation of sophisticated technology in a globalized financial sector; money laundering has become a truly worldwide scourge that has devastating economic, security, and social consequences. Money launderers are seen to concentrate on developing countries like Bangladesh. Therefore, Bangladesh strengthens its Anti Money Laundering system time to

time by introducing and updating legislations, acts such as Anti Money Laundering Act, Anti-Terrorism Act and making it compulsory for the reporting organizations to comply with the same. In addition, being the main regulatory body of the banks and financial institutions, Bangladesh Bank has guided us through guidance note, policy, circular, circular letter, instructions etc. in compliance with the laws of land from time to time.

BRAC Bank recognizes its obligation to join with governments, international organizations and other financial services organizations to close off the financial channels that money launderers and terrorist organizations use for their illicit purposes. The Board of Directors of the Bank view Money Laundering Prevention as part of Risk Management strategy and not simply as a stand-alone requirement that is being imposed by legislation but also is fully committed to condemn Money Laundering and Terrorist Financing in all its forms and manifestation.

To fulfill the commitment, BRAC Bank Limited has developed comprehensive policy on "Money Laundering Prevention", "Combating Financing of Terrorism", and "Know Your Customer" approved by the Board of Directors. We continuously strive to enhance our own policies, procedures, systems & technology on the guidance of our board and have issued multiple circulars, circular letters and instructions time to time in compliance with the updated regulations. As part of its anti - money laundering policy, every year BRAC Bank communicates a statement to all its employees through the Chief Executive Officer that clearly sets forth the way forward for the present year and shares the initiatives taken in the last year pertaining to combating Money Laundering and Terrorist Financing.

The bank has also nominated Chief Anti Money Laundering Compliance officer (CAMLCO) and Deputy CAMLCO who ensure that the bank is compliant with AML's concern. In addition, Branch Anti Money

Laundering Compliance officer (BAMLCO) at Branches, independently make the bank compliant on AML matters. The regulatory requirements are being complied with and the guidelines are being followed by the bank properly. Branch Anti Money Laundering Compliance officer (BAMLCO) at branches, reviews and verifies the transactions of accounts to make Suspicious Transactions Reports (STR), and ensures AML and CFT compliance culture throughout the bank. Training is being conducted continuously for all the officers of the bank to create awareness and develop the skill for ensuring KYC (Know your Customer) compliance and identifying suspicious activities/transactions.

12. Monitoring

Once an account is opened, we monitor relevant activities of the customer and transaction in account in the course of the relationship on an ongoing basis. Inconsistency is measured against the stated original purpose of the accounts i.e. the declared Transaction Profile (TP) of the Customer. Following reports are generated at prescribed frequency to ensure effective monitoring.

- Excessive Cash Movement report: On a daily basis branch generates a large value Cash Transaction Report and review the transaction pattern.
- Exception Report/ TP Breach Report: On a monthly basis, branch generates an Exception Report of the customers whose accounts transaction volume exceeded the transaction limit (more than 20%) mentioned in transaction profile and review the same. If, after confirming with the client, the transaction trend is to continue, the dealing officer documents the reason why the transaction profile has changed and amend the KYC profile accordingly.
- CTR (Cash Transaction Reporting): Cash transactions (deposit / withdrawal) that breach certain limit set by Bangladesh Bank are required to be reported to the Central Bank in softcopy. Before sending the report to BFIU, Bangladesh Bank, respective branch reviews the transactions to detect suspicious transaction. If the transaction is found to be suspicious, then it is also reported as per the regulatory procedures.

While monitoring and reviewing the above reports, if the branch staff identifies the activity of customer or any pattern of transaction suspicious, that staff is assigned to raise a Suspicious Transaction Report / Activity Report to BAMLCO. If BAMLCO finds the suspicion justified, he/she will forward the same for CAMLCO's judgment.

Apart from monitoring the customer activity and transaction, the Branch makes an overall assessment

on AML/CFT activity of the branch. Self-assessment ends up with a report documenting the work performed, who performed it, how it was controlled and supervised and the resulting findings, conclusions and recommendations. A consolidated report on "self-assessment and independent procedure" is submitted to the Senior Management of the bank, an analysis on whether the internal procedures and statutory obligations of the financial institution in combating AML/CFT have been properly discharged.

We have incorporated KYC, Due Diligence and AML risks along with the mitigation plans in the Product Program Guideline (PPG) and have developed end to end operations manual for both front line and back end employees to remain constantly vigilant to prevent the use of our products and services by those who abuse them. Once the account is opened, we monitor relevant activities of the customer and transaction of the account in the course of the relationship on an ongoing basis. Inconsistency is measured against the stated original purpose of the accounts i.e. the declared Transaction Profile (TP) of the Customer. In addition to the regular return, we report suspicious activity / transaction to the Financial Intelligence Unit of Bangladesh Bank and respond to their several queries with regard to the customer activity / transaction. In such cases, where there has been a report of a suspicious activity or the Institution is aware of an ongoing investigation relating to a client or a transaction, records relating to the transaction or the client are retained until confirmation is received that the matter has been resolved.

13. Information and Communication Technology Risk:

Technology continues to be a strong pillar in the bank's idea to attract the banking experience of its customers. In line with the key trends which are shaping technology today, the bank has rolled out various initiatives leveraging mobility, digitalization and innovations in payments technology. BRAC bank strictly adhere the latest guidelines provided by Bangladesh Bank regarding ICT Security (version 3). Our information security team works as the 3rd eye for information assurance and manage ICT risks. Its vision is to become the "centre of excellence" for the information security management within the banking industry and to be the forerunner in this trend as the bank with a mission to provide proactive security analysis, develop robust security architecture and ingrain security awareness into the bank's environment. Additionally, our aim is to work in partnership with the various information resources departments, internal audit Information technology departments and with Bangladesh Bank to support the overall goals and objectives of the bank.

Bangladesh bank issued their ICT policy in 2005 and was last updated in May 2015. In order to comply with Bangladesh Bank ICT guideline and safeguard, our IT infrastructure and assets from the external and internal adversities have developed an ICT policy that has a rocksolid base. This policy has been formulated based on Bangladesh Bank ICT guideline and the vastly practiced framework and international standards such as COBIT, TIL and ISO27001. Information & Communication Technology (ICT) policy provides a framework for the best practice that can be followed by all the employees while it ensures overall data and information assurance for the organization. It outlines the responsibilities and requirements of the BRAC Bank Limited (BBL) and its employees with regard to Information Technology (IT) resources. It also helps to ensure quality, minimize risk and any security related incidents that are effectively responded to. We also formulated an Information Security Management (ISM) Policy which has been developed based on the vastly practiced international standard ISO27001. Information Security Policy provides a framework for the best practice that is followed by all the employees of the bank while ensuring overall Data and Information Security for the organization. Each section within The BBL ISM policy Document includes a high-level principle and objective. Each principle provides an overview of what needs to be done to meet the Policy requirement and the objective outlines the reason why these actions are necessary. The Policy consists of six different aspects and they are: Security Management, Critical Business Application, Computer Installations, Network, System Development and End User Environment.

Performance, suitability, reliability, cost-effectiveness and security of ICT systems need to undergo a continual review process. Technology Audit adds an extrinsic dimension to internal perception of adopted support systems by BRAC Bank Ltd. Technology Audits are never isolated projects but processes that accompany systems during their development and operational life cycle. Various mechanisms are undertaken by Technology Audit team for ICT Risk Assessment, Risk-Rating-Reporting and Remedial Course of actions.

14. Human Resource Risk:

Human Resource Risk is the risk that the bank may incur losses due to the loss of personnel, deterioration of morale, inadequate development of human resources, inappropriate working schedule, inappropriate working and safety environment, inequality or inequity in human resource management or discriminatory conduct. At BRAC Bank, all the employees are properly inducted to

comply with the Code of Ethics and conform to the relevant laws and regulations. BBL HR Division makes sure that during recruitment, employees read, understand the 'Code of Ethics and Business Conduct' and acknowledge the same. As far as the human resources are concerned, we believe in continuous and sustainable development. Development of human resources is pivotal for obtaining optimum efficiency and hence, BRAC Bank's employees were given a lot of opportunities to prosper in their career and improve on their performances with numerous learning programs throughout the year 2016.

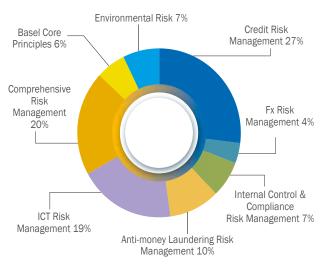

Figure: Content wise training program: 2016

15. Concentration Risk:

As defined in RBCA guideline, concentration risk arises when a bank invests its majority, or all of its assets to a single or a handful of individuals or entities or sectors or instruments. That means when a bank fails to diversify its loan and investment portfolios, concentration risk emerges. Downturn in concentrated activities and/or areas may cause huge losses to a bank as far as its capital is concerned and can threaten the bank's health or ability to maintain its core operations. In the context of Pillar-2, concentration risk can be of the following two types:

- **I. Credit Concentration Risk:** When the credit portfolio of a bank is concentrated within a few individuals or entities or sectors, credit concentration risk arises.
- **II. Market Concentration Risk:** When the investment portfolio of a bank is concentrated within a few instruments or any instrument of a few companies or any instrument of a small number of sectors, market concentration risk arises.

DISCLOSURE OF RISK REPORTING

Risk management reports cover disclosure requirements of Basel III, and reporting regulation under risk management guideline. Risk reporting can be defined as the process of defining and analyzing the risks associated with businesses. A risk analysis report can be either quantitative or qualitative. Basel III Accord has been adopted by the regulators around the world as a standard for risk management. Bangladesh Bank also issued guidelines that cover the basis of risk management for the banks in Bangladesh.

1. Adoption of Basel III: Basel III regime has started from January 01, 2015 and accordingly, we have initiated to execute its directives as per the guidelines. Major changes from Basel II to Basel III have been done in Minimum Capital Requirement (Pillar I of Basel III) assessment methodology, whereby, the definition and structure of the regulatory capital have undergone significant amendment. However, Pillar II and Pillar

III remained essentially unchanged, with some minor inclusion to be more precise.

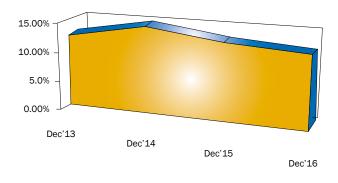

Figure: Capital to Risk-weighted Asset Ratio (CRAR) of BBL

Roadmap for Basel III:

	2015	2016	2017	2018	2019	2020
Minimum Common Equity Tier- 1 (CET-1) Capital Ratio			4.50%			4.50%
Capital Conservation Buffer	-	0.625%	1.25%	1.875%	2.50%	2.50%
Minimum CET-1 plus Capital Conservation Buffer	4. 50%	5.125%	5.75%	6.375%	7.00%	7.00%
Minimum T-1 Capital Ratio	5.50%	5.50%	6.00%	6.00%	6.00%	6.00%
Minimum Total Capital Ratio	10.00%	10.00%	10.00%		10.00%	
Minimum Total Capital plus Capital Conservation Buffer	10.00%	10.625%	11.25%	11.875%	12.50%	12.50%

2. Internal Capital Adequacy Assessment Process (ICAAP):

ICAAP aims at revealing whether a bank has prudent risk management and sufficient capital to cover its risk profile. Supervisory Review Evaluation Process (SREP) of Bangladesh Bank includes dialogue between Bangladesh Bank and the bank's SRP team, followed by

findings / evaluation of the bank's ICAAP. Supervisory Review Process (the Second Pillar of Basel- III) of Risk Based Capital Adequacy framework is intended to ensure that the banks have adequate capital to support all the risks in the business and at the same time to encourage banks to develop and use better risk management techniques in monitoring and managing their risks. The SRP team of BRAC bank Ltd. looks after the following areas:

Adequate oversight and governance by Board of Directors and Top Management

Comprehensive Assessment of Capital

Comprehensive Assessment of Risks

Monitoring and Reporting

Internal Control Review

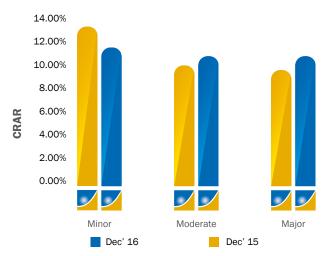

3. Stress Testing:

BRAC bank conducts Stress testing to determine sensitivity and stability of its capital base. This technique is designed to determine whether the bank has enough capital to withstand any unfavorable scenarios. Stress testing exercises are now routine practices in Bangladesh as diagnostic and supervisory tool. Stress testing helps banks to assess financial stability in terms of Capital to Risk-weighted Asset Ratio (CRAR) at three levels: a. Minor b. Moderate c. Major. The following situations are considered to assess the sensitivity of the bank's capital base with respect to each situation:

- Increase in NPLs due to default of the top large borrowers
- Increase in NPLs
- Increase in NPLs in two particular sectors
- Foreign exchange
- Negative shift in NPLs categories
- Equity shock
- Decrease in FSV in collateral
- Interest rate

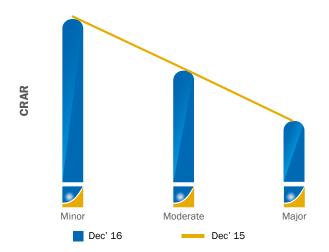

3.1 Negative shift in NPL categories:

It represents the shift of a loan from one NPL category to the next. It is based on the assumption of 5%, 10% and 15% downward shift in the NPLs categories in minor, moderate and major levels of shock, respectively.

3.2. Increase in NPL:

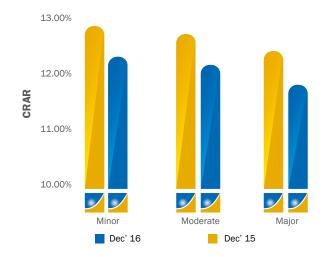

It represents the condition of the bank when NPL increases significantly. It is based on the assumption that 3%, 9% and 15% of performing loans will be downgraded to Bad and Loss category having 100% provisioning requirement in minor, moderate and major levels of shock respectively. After shock scenario, the Capital to Risk-weighted Asset Ratio (CRAR) of BRAC bank gets adversely affected.

3.3 Equity Shock:

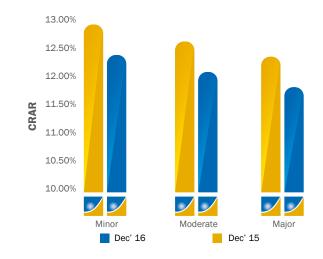

It represents the Bank's condition when market value of share falls sharply. It is based on the assumption that the share price will change by 10%, 20% and 40% in minor, moderate and major levels of shock respectively. Hence, considering the scenario, Capital to Risk-weighted Asset

Ratio (CRAR) of BBL remains above the regulatory requirement after minor, moderate and major levels of shock, respectively.

3.4 Interest rate shock:

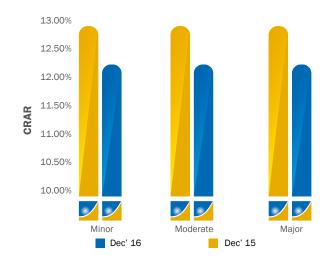

It represents the condition of the bank when interest rate changes significantly. It is based on the assumption that interest rate will change by 1 percent, 2 percent and 3 percent in minor, moderate and major levels of shock respectively. Capital to Risk-weighted Asset Ratio (CRAR) of BRAC Bank Ltd. remains above the minimum requirement even after undergoing minor, moderate and major levels of shock, respectively.

3.5 Foreign exchange shock:

It represents the condition of the bank when the exchange rate changes significantly. It is based on the assumption that the exchange rate will change by 5%, 10% and 15% in minor, moderate and major levels of shock, respectively. Hence, considering the scenario, Capital to Risk-weighted Asset Ratio (CRAR) of BRAC Bank Ltd. remains above the regulatory requirement after minor, moderate and major levels of shock, respectively.

266

4. Risk Management Paper:

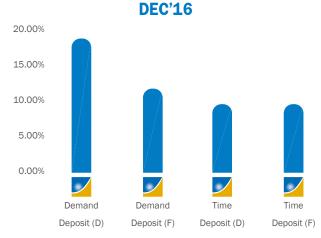

Bangladesh Bank, being the regulatory body of the banking services in Bangladesh, acts as the catalyst for all the scheduled banks by giving regular guidance and procedure to mitigate risk. To enrich risk management practice in banks, Bangladesh Bank had introduced Risk Management Paper (RMP). RMP encompasses bank's situation based on manifold parameters under various risk indicators. Risk Management Paper helps banks to keep track of the various risk indicators which in turn enables banks to predict the future business opportunities and threats. The bank submits risk management paper to Bangladesh Bank on a monthly basis as well as on a half yearly basis. The following issues are considered, each having numerous parameters, under the Risk Management Paper report:

- Capital Adequacy
- Operational Risk
- Credit Risk
- Audit Compliance
- Off-shore banking operation
- Reputational Risk
- Market Risk
- Money Laundering Risk

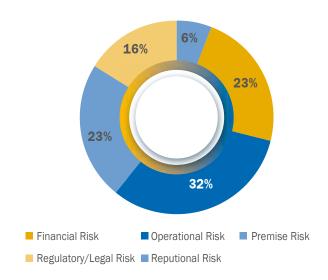

- Information about profitability (YTD)
- Compliance of Risk Management
- Liquidity Risk
- Performance of the board of directors

4.1 Withdrawal percentage of Deposit:

Deposits are the life blood of a bank, and thus, requires prudent management throughout the year as it is tagged with liquidity position of the bank.

4.2 Types of Risks identified through risk management:

DISCLOSURE ON GREEN BANKING

The Stone Age didn't end because we ran out of stones. It ended because there were better ideas about how to meet society's needs. Similarly, the end of our current "oil age" won't end because we will run out of oil.

Ecological preservation and sustainable development are recognized globally as overriding imperatives for protection of our planet from the ill-effects of globalwarming and climate change. Banks and financial institutions can play a major role in global efforts to mitigate environmental risks and make this planet a better place to live. Organizations are now increasingly interested in implementing strategies which will help in addressing environmental issues and contribute towards sustainable development. One step in this direction is Green Banking. Green banking is a broad term which refers to those practices and guidelines that make banks environmentally, economically and socially responsible. It means that banking business should be conducted in such areas and in such a manner which would help in the overall reduction of external carbon-emission and internal carbon footprint.

The Stone Age didn't end because we ran out of stones. It ended because there were better ideas about how to meet society's needs. Similarly, the end of our current "oil age" won't end because we will run out of oil. It will end because we have better ways to meet our energy needs. Those better ways are proven, cost-effective and have multiple benefits to individuals and society. Bangladesh has one of the lowest levels of per capita consumption of commercial energy in South Asia, Where it has a large unsatisfied demand for energy, which is growing by 10 percent annually, the concern is our country's power generation system is almost entirely dependent on fossil-fuel. This at one side is causing fast depletion of gas reserves at the same time deteriorating the Mother Nature. We know the burning of fossil fuels produces carbon dioxide, but the concern is, it is estimated that natural processes can only absorb about half of that amount. So what happens to the remaining?! Under such circumstances the only saviour that can protect us from the detriments of environmental degradation is afforestation.

Purpose and scope:

The purpose of this disclosure is to demonstrate our banking philosophy that we adhere to in our daily operation. At the same time it is also a part of regulatory compliance. Our green banking practices are comprehensively in line with the regulatory guideline and international best practices. In the year 2016, we have explored some unchartered territories and took new strides in the field of green banking. New initiatives

have been taken to bolster the economy of our nation in a more sustainable manner, keeping in mind the bottom line of the bank, the key stakeholders and the shareholders.

Introduction:

The most complicated issue that the world is facing today is climate-change. There have been continuous endeavors across the world to measure and mitigate the risk of climate change caused by human activities. Many countries, including Bangladesh, have made commitments necessary to do so. As socially responsible corporate citizens, Bangladeshi banks have a major role and responsibility in supplementing government efforts towards substantial reduction in carbon emission. Although banks are considered environment friendly and do not impact the environment greatly through their own "internal" operations, the "external" impact on the environment through their customers' activities is substantial. The banking sector is one of the major sources of financing industrial projects such as steel, paper, cement, chemicals, fertilizers, power, textiles, etc., which cause maximum carbon emission. Therefore, the banking sector can play an intermediary role between economic development and environmental protection, for promoting environmentally sustainable and socially responsible investment. "Green banking" refers to the banking business conducted in such areas and in such a manner that helps the overall reduction of external carbon emission and internal carbon footprint. To aid the reduction of external carbon emission, banks should finance green technology and pollution reducing projects.

Environment Related Initiatives:

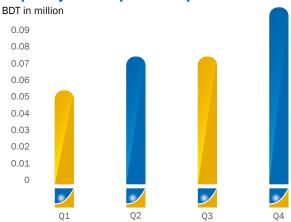

We all know that trees are the longest living organisms on the planet and one of the earth's greatest natural resources. They keep our air supply clean, reduce noise pollution, improve water quality, help prevent erosion, provide food and building materials, create shade, and help make our landscapes look beautiful. Interestingly enough, many of us might not be aware that a mature tree removes more pollution than a newly planted tree. Precisely, two mature trees can supply enough oxygen annually to support a family of four! The undisputed significance of trees is ubiquitous. Not only trees create buffers to reduce noise, its roots stabilize soil and prevent erosion. Moreover, trees lower air temperature

by evaporating water in their leaves. Being a banking financial organization all we can do by functioning within the periphery of our operation, we can put sincere effort for a sustainable banking. Having started its journey last year with representatives from different divisions, our Green Banking Unit (GBU) has allotted more than BDT 5000 million under green budget for the year 2016, whereby the achievement rate is way more. It comprises green financing, climate risk fund, Marketing, Training and Capacity Building. Also worth mentioning, the number of Projects applicable for Environmental Due Diligence (EDD) and Projects being rated (i.e. Environmental Risk Rating) has been increasing appreciably over time. Environmental risk rating is an integral part of our credit appraisal process.

Moreover, the consumption of water, paper and energy has been optimum where we always strive to utilize these resources more efficiently. Whereby, as far as our in-house green management is concerned, we cautiously adhere to the guideline prescribed in our Green Office Guide. We have extensively gone for indirect green financing especially Projects financed, having Effluent Treatment Plant (ETP). Also part of our Corporate Social Responsibility (CSR) activities, BRAC Bank Ltd. made donation to the Prime Minister's Relief Fund to help the flood affected people as climate change is often attributed to causing flood. We extended support to Chittagong Metropolitan Police's public awareness campaign about the prevention of formalin and chemical in fruits and food. BRAC Bank Ltd., in partnership with The United States Agency for International Development (USAID), organized a University Film Contest on Biodiversity Conservation. The initiative was aimed at creating climate change awareness and importance of biodiversity conservation among university students who took part in the contest. While considering society's welfare, BRAC Bank donated bicycles to 10 school going students in Nilphamari. The environment friendly mode of transport will be beneficial to the nature as it does not create any pollution. This year we launched an Energy Efficiency Loan Product, "Planet Solutions". It is Bangladesh's first ever Energy Efficiency Financing Loan that will assist readymade garments and textile industries to invest in energy efficiency technology. BRAC Bank Ltd. also extended support to the 6th Biochemistry Olympiad at Dhaka University. The day long science festival tried to find environment friendly ways to recycle solid waste like plastic and finding scientific ways to minimize damage of oil leakage incident in forest.

We all know that trees are the longest living organisms on the planet and one of the earth's greatest natural resources. They keep our air supply clean, reduce noise pollution, improve water quality, help prevent erosion.

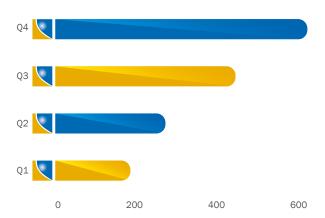

Capacity Development Expense

What is Green Financing?

Number of Staff Covered

For continuous capacity building of our human resource, exclusive training sessions on "Green Banking" were arranged to garner best practices and enhance knowledge. All newly recruited employees have been taken under the purview of Green Banking in their Orientation Programs. This year, around 1,100 employees have been enlightened with Training Programs/Seminars exclusively conducted for Green Banking. It is also to be borne in mind that, as the development of sector specific environmental risk policies is already underway, our credit appraisal process inherently considers the environmental aspect of the borrowers. Moreover, with the constant support and guidance from our regulators, we always strive to incorporate better practices and norms in the business operation. We are a sustainable bank and we vouch to remain so as long as the glorious

Green Finance:

"Without necessarily naming it 'green', some day in the future, all finances will be green. At the same time there are barriers to green finances which are more generally about attracting and allocating capital. So when we talk about green finance we are really talking about strengthening our core financial systems."- UNEP.

sun continues to endow its dazzling beam on us.

Green financing is not defined well as there are lots of arguable concepts. Simply let's start from our 3P philosophy; Planet, People and Profit. Green Financing is nothing but to ensure this 3P bottom line. Green financing is a wide-ranging term that can be referred to financial investment flowing in to sustainable development projects and initiatives, environmental products and policies that encourage the development of a more sustainable economy.

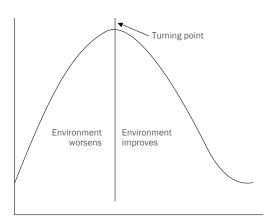

Why Green Financing:

Combating climate change and environmental pollution are, without any doubt, issues that are at the front and centre of the global policy discourse, encapsulated in the COP21 declaration in Paris in December, 2015 and consequently in COP22. The success of the international community is that they are intrinsically tied to politics, economics and other disciplines, making them not only some of the most complex subject matters, but also issues that require the highest priority. By all accounts, Bangladesh remains one of the highly vulnerable nations to be affected by climate change and environmental pollution. There are specific sectors of Bangladesh that require intervention, namely, crops and fisheries, the textile and leather industry, brick manufacturing and exploration of renewable energy.

Sustainable Bangladesh:

There is a simple co-relation between industrialization and environmental pollution. There are instances in USA, UK, Germany, China and India. Bangladesh is on the way to achieve 8.0% GDP to meet its target to be the middle income country by 2030 and developed country by 2041 by using its demographic dividend.

Environmental Degradation

Per Capita Income

So, there is no other way but to strengthen the industrial sector and ensure the employment of this large population. At the same time, this development should be sustainable. So, the first focus should be given to sustainable development of our industries.

Experiments show that, industries with wet processing affect the environment badly than any other industry in terms of water pollution. Buriganga and Shitalakkha are the best examples how a river dies for the negligence of people.

According to IPCC in Bangladesh, leather and textile industry is liable for 45% of the total water pollution. Automobile, Ship breaking, chemical, power plant and fertilizer are also responsible for environmental pollution.

BRAC Bank Green Financing: BRAC Bank is always aligned with the 3Ps bottom-line. We emphasize on green financing and also try to exceed the green financing target set by the management from time to time.

It financed around BDT 700 million in the green sector. Investment areas are as follows:

- LEED certified Green Industry
- ETP Construction

- Energy Efficient Capital Machineries
- Fire Door and Fire Fighting System
- LED Bulb Manufacture
- Plastic Recycling Plant
- Hoffman Klin Auto Brick Fields.
- Bio gas plant.

In RMG and Textile Sector, BRAC Bank is trying to make its client understand the necessity of being energy efficient in the long run.

PaCt Program of IFC: World Bank is working with BRAC Bank to boost financing in this field. We have a dedicated Green Financing official to look after the following:

Technical support to internal resources related to financing.

For continuous capacity building of our human resource, exclusive training sessions on "Green Banking" were arranged to garner best practices and enhance knowledge. All newly recruited employees have been taken under the purview of Green Banking in their Orientation Programs. This year, around 1,100 employees have been enlightened with Training Programs/Seminars exclusively conducted for Green Banking.

- Technical support to clients (if required)
- Perusing existing clients for Green Financing.
- Hunting new clients for Green Financing.
- Assessing the Green Project Value and Scopes.

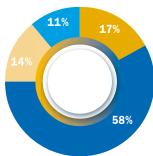

Around BDT 700 million has been disbursed in green financing and if we analyze our financing, it is observed that almost 58% has gone into the purchase and construction of ETP machineries. Other than this, approx. 14% was used in worker safety aspects like fire-fighting equipment and fire hydrant systems. In the SME segment, green finance was used for LED light manufacturing plant, Plastic Pet Bottle Recycling Plant, Bio gas plant and so on.

We aim to flourish in this green arena more than ever before as we proceed forward with new hope and targets in the coming days.

Green Financing

- ETP machineries & Consturction
- Fire Door, & Fire Fighting System
- LED Bulb Manufacture
- Plastic Recycling

Some Green Financing:

ETP

Energy Efficient Capital Machineries

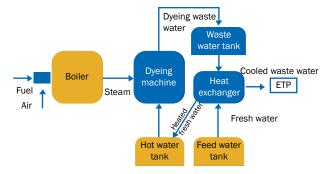

Fire Door

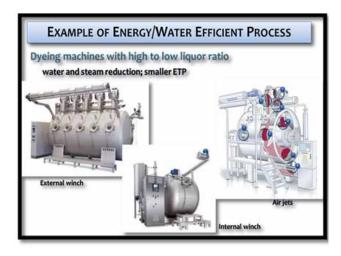

Auto Brick Field

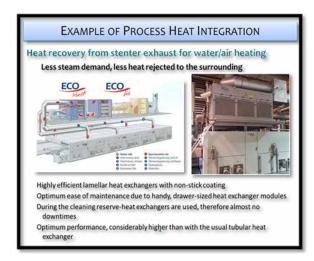

EXAMPLE OF PROCESS HEAT INTEGRATION

Heat recovery for reuse in the same dyeing machine Water and steam reduction; samller ETP

Textile Industries in Bangladesh

Incorporation of Environmental Risk in CRM:

Also worth mentioning, the number of Projects applicable for the Environmental Due Diligence (EDD) and the Projects being rated (i.e. Environmental Risk Rating), have been increasing appreciably over time. Environmental risk rating is an integral part of our credit appraisal process. Our prudent Credit Risk Management team has put up a magnificent end to end process for the appraisal of borrowers. Bangladesh Bank vide ERM Guideline stated, that Environmental risk rating is to be done for all the individual customers (corporate, institutional, personal, small and medium enterprise) whose aggregate facilities are above the following financing thresholds:

- For Small and Medium Enterprises (SMEs), financing
 > BDT 2.5 million
- For Corporate, financing > BDT 10 million, and
- For real estate financing > BDT 10 million

Alternate Banking:

As a part of our 3P (People, Planet & Profit) Philosophy, we continuously strive to provide people and planet

friendly solutions for our customers. In our endeavor to promote Green Banking and to help preserve our planet's environment, we continuously take various initiatives to enroll our customers to green services.

300K +
Active Accounts with
SMS Banking (Pull Service)

92k+ e-Statement Subscribers

2K+ Staff Accounts enrolled to e-Statement service **10K+**Mobile
Application Users

59K+Active Internet
Banking Users

SMS Banking:

BRAC Bank's SMS Banking is a service that allows customers to access their account information via any mobile phone. Through BRAC Bank SMS Banking, a BRAC Bank account holder can access his/her account's latest information such as account balance, the last few transactions and a range of other financial information by typing a pre-defined key letter (Like 'A' for Account Balance and 'T' for the last few Transactions).

e-Statement:

An e-Statement is an electronic version of a bank account statement which is sent to a customer's registered email address every month. E-Statements are a safer, faster and greener alternative to paper statements. BRAC Bank e-Statement service is completely Secured (Password Protected), Easier, Faster and FREE of cost. In our endeavor to promote Green Banking solutions, we have taken several initiatives to enroll our account holders to e-Statement service instead of sending paper based account statements. This initiative is expected to incur significant cost savings as well as help to improve our service quality.

Internet Banking:

BRAC Bank Internet banking enables its customers to avail various services such as Fund Transfer, Credit Card Bill Payment, Utility Bill Payment, Account Statement checking, etc. through the bank's website. Our Internet Banking platform is secured by state-of-the-art two factor authentication system.

BRAC Bank Mobile Banking Application:

With BRAC Bank Mobile's state-of-the-art mobile banking application, customers can avail banking services from their Smart Phones anytime, anywhere. This application allows users to monitor accounts in real time, transfer funds, pay bills, make credit card payments, check transactions, etc. This application also has state-of-the-art security feature such as two factor authentication using OTP and e-Signature.

Conclusion:

Banks are responsible corporate citizens. We should believe that every small 'GREEN' step taken today would go a long way in building a greener future and that each one of us can work towards a better environment. Our proactive initiatives will assist to reduce carbon-footprint as well as in building awareness and consciousness about the environment, nation and society. Green banking or ethical banking is indeed a good way for people to be more aware about global warming and will contribute a lot to the environment and make this earth a better place to live for future generations. There is definitely a huge opportunity in clean, renewable energy

technologies, emissions reduction and reduced-carbon transportation that can be slowly but surely be achieved, if we get cooperation from all the sectors of the economy; and banks being an integral part of our economy must lead from the front. Currently, in Bangladesh, the concept of green banking is catching up and banks are actively looking for ways to portray themselves as a Green Bank.

Human being is the paragon of virtue. They are to behave in such a manner that others can look up to them as an emblem of sheer perfection. So it is our responsibility to act in such a way that is rational and ethical. The human civilization has evolved from pre-historic era to utter modernization and has come a long way. We have learnt to improve and use resources with great optimization. This world has limited resources and if we want to attain sustainable growth, care should be taken before taking even one step ahead. Our actions today will have a lasting impact for our next generation. So we should make hay while the sun shines. Mother Nature cannot voice her agonies but by actions she expresses her grievances. The natural calamities are the perfect examples of her wrath and via this, we should be able to understand the warning signals. So, our actions should be measured, calculated and cautiously undertaken.

ASSET LIABILITY MANAGEMENT COMMITTEE

The Asset Liability Management Committee (ALCO) comprises of Senior Management, which is responsible for overall Balance Sheet (Asset-Liability) management of the bank. Treasury would be responsible for managing the balance sheet as per recommendation of ALCO to minimize risk and maximize returns. Asset Liability Management desk, a unit of Treasury & Financial Institutions, analyzes the balance sheet composition and places recommendation to the ALCO through the Head of Treasury & Financial Institutions.

ALCO is comprised of the following members or their nominated representatives:

- Managing Director & CEO Chairman of ALCO
- Head of Wholesale Banking and/or Corporate Banking/Transaction Banking/Middle Market
- Head of SME Banking and/or Head of Small Business/Emerging Business/Agriculture Finance
- Head of Retail Banking and/or Head of Branch Banking/Retail Sales/Products
- Chief Risk Officer and/or Chief Credit Officer
- Chief Financial Officer and/or Head of Business Planning & Analysis
- Head of Treasury and Financial Institutions

The ALCO sits at least once in a month and whenever required to analyze the various aspects of ALM. Based on the analysis and views, the committee takes decisions to reduce balance sheet risk while maximizing profits keeping the bank within all regulatory and internal limits. The major roles and responsibilities of the ALCO is as follows:

- Monitor and review the composition of Asset and Liabilities to ensure Balance Sheet efficiency
- Review of Deposit and Lending rate structure of the bank
- Ensure compliance of regulatory limits and ratios
- Decide on the major aspects of balance sheet structure, such as maturity and currency mix of assets and liabilities, mix of wholesale versus retail funding, deposit mix etc.
- Monitor and review the funding requirement of the bank considering business projections and take strategic decision accordingly
- Periodically review the transfer pricing policy
- Review contingency funding plan
- Understanding the market dynamics i.e. competition, potential target market etc.

RISK MANAGEMENT COMMITTEE MEETINGS

The Risk Management Committee of the Bank convenes once in every two months, but an emergency Risk Management Committee meeting can be called if required. A total of 06 (Six) Risk Management Committee meetings were held during the year 2016

The Risk Management Committee of the Bank convenes once in every two months, but an emergency Risk Management Committee meeting can be called if required. A total of 06 (Six) Risk Management Committee meetings were held during the year 2016. The 1st

meeting of the Risk Management Committee (RMC) of BRAC Bank Limited for the year 2016 was held on February 23, 2016. Board Room of BRAC Bank Limited at 1, Gulshan Avenue, Gulshan-1, Dhaka – 1212, Bangladesh.

The following issues were given special focus.:

Meeting Date		Attendance		Focus Points
23/02/2016	•	Dr. Hafiz G.A Siddiqi	1.	Updates of the agenda presented on the 10th Meeting of RMC:
11 th Metting	•	Mr. Shib Narayan Kairy		 Updates of the agenda presented on the 10th Meeting of Risk Management Committee was placed before the Risk Management Committee and noted.
	•	Mr. Kazi Mahmood Sattar Mr. Selim R. F. Hussain		 Updates have been given by the Head of Operations regarding ATM reconciliation. The RMC panel directed to have the "Root cause analysis investigation" and a detailed audit needs to be performed on the specific issue (BBL-RBL Co-branded ATM Reconciliation) and placed to the next RMC to have the record.
				 Updates of AOF Return rate was presented and noted. RMC panel re-emphasized that staff can neither be the introducer of an account nor be the guarantor for any loan account.
			2.	ERMC Summary (93rd ERMC $\&$ 94th ERMC) was placed at the meeting and noted.

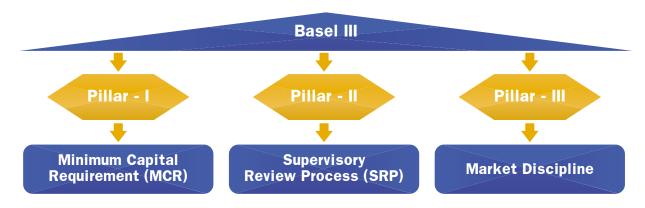

Meeting Date		Attendance	Focus Points		
			3.	IT Service Interruption Report for the period of December 01, 2016 to February 14, 2016 was placed:	
				 Risk Management Committee has directed that IT downtime tolerance level/bench mark must be mentioned in the policy. Breaches will be flagged in RMC meeting. This tolerance level needs to be system specific. Proper monitoring of the tolerance level breaches as well as the escalation process must be in place and practice. 	
			4.	Top 50 Customers of Corporate Portfolio was placed.	
			5.	Summary of Credit Inspection Report and Annexure was placed.	
			6.	Synopsis of 3rd Quarter's Risk Management Paper along with Bangladesh Bank's Feedback was placed at the meeting and duly noted.	
11/04/2016	•	Dr. Hafiz G.A Siddiqi	1.	Updates of the agenda presented on the 11th Meeting of RMC:	
12 th Metting	•	Mr. Shib Narayan Kairy		 Updates of the agenda presented on the 11th Meeting of Risk Management committee was placed before the Risk Management Committee and noted. 	
	•	Mr. Kazi Mahmood Sattar Mr. Selim R. F. Hussain		 The Committee re-emphasized on the subsidiaries' risk management and instructed to update the risk matrix of them. The committee further instructed BBL's Risk management to ensure regular reporting and monitoring and follow up strictly 	
				as per risk register.RMC instructed to update BBL-RBL ATM reconciliation on the	
			2.	next RMC. ERMC Summary (95th ERMC & 96th ERMC) was placed at the	
				meeting.	
			3.	IT Service Interruption Report for the period of February 15, 2016 to March 31, 2016:	
				 Risk Management committee has directed to explore the business continuation of the Eldorado and omnibus, and update RMC accordingly. 	
			4.	Updates on the Previous IT issue:	
				 Updates on the Previous IT issues on the 12th Meeting of Risk Management Committee was placed before the Risk Management Committee and noted. 	
				 MD & CEO was updated on the recent initiatives on cyber security. The committee highlighted to strengthen cyber security. 	
			5.	Top 50 Customers of Corporate portfolio:	
				 A new CRM guideline of Bangladesh bank has been discussed and the committee directed the management to comply it. 	
			6.	Summary of Credit inspection findings and analysis was placed at the meeting and duly noted.	
20/06/2016	•	Dr. Hafiz G.A Siddiqi	1.	Updates of the agenda presented on the 12th Meeting of RMC:	
13 th Metting	•	Mr. Shib Narayan Kairy		 Updates of the agenda presented on the 12th Meeting of Risk Management Committee was placed before the Risk 	
	•	Mr. Kazi Mahmood		Management Committee and noted.	
	•	Sattar Mr. Selim R. F. Hussain		 The Committee directed the Risk Management Division to present the individual subsidiary's risk issues (bullet pointed) including their respective management's comments against those risk issues on the next RMC meeting. 	

Meeting Date	Attendance	Focus Points
		 The Committee has gone through the updates of OMNIBUS and ELDORODO and instructed to close both the systems as soon as possible.
		 RMC instructed to keep provision for the full amount of BBL- RBL ATM issue. If this has already been booked, Finance division will continue to hold the Provision.
		2. ERMC Summary (97th ERMC & 98th ERMC) was placed.
		 IT Service interruption, Report for the period of April 01, 2016 to May 31, 2016 was placed and duly noted.
		4. Top 50 Customers of Corporate Portfolio was placed and noted.
16/08/2016	Dr. Hafiz G.A Siddiqi	5. Summary of Credit inspection findings and analysis was placed.
10/00/2010	•	 Updates of the agenda presented on the 13th Meeting of RMC was placed:
14 th Metting	Mr. Shib NarayanKairy	The management also presented the newly established
	Mr. Kazi Mahmood Sattar	Enterprise Risk Governance Forum (ERGF) along with the risk escalation process of the Bank. The committee had the
	Mr. Selim R. F. Hussain	following observations / recommendations: a) The Committee appreciated the idea of establishing Enterprise Risk Governance Forum (ERGF) and that a dedicated mobile number shall remain live for 24 hours / 7 days to listen to all the risk issues and provide guidance
		b) The Committee inquired whether the Risk Management structure of BRAC Bank is aligned with Bangladesh Bank's guidelines and instructed to submit relevant documents to the committee.
		c) The committee inquired whether there is any dedicated mobile number for whistleblowers and if not, provide a dedicated mobile number to take note of any illegal, unethical act, corruption, attempted fraud and violation of the company rules and regulations related issues and address them accordingly. Also, they urged to implement a whistleblower protection guideline to promote such practice for better governance. Furthermore, the Committee suggested to maintain a log for all calls and get back to any unattended calls
		d) The committee was informed about the top risk issues of the subsidiaries of BRAC Bank. The committee instructed to send them through email to all the Committee members. Also, the Committee instructed to share these with internal Control & Compliance to facilitate them in preparing Terms of Reference (TOR) for Audit on Subsidiaries.
		2. ERMC Summary (99th ERMC & 100th ERMC) was placed.
		3. IT Service Interruption Report from June 1, 2016 to - July 31, 2016 was placed and hence discussed & noted.
		4. Top 50 Customers of Corporate Portfolio was placed and noted.
		5. Summary of Credit Inspection Report and Annexure was placed.
27/10/2016 15 th Metting	Dr. Hafiz G.A SiddiqiMr. Shib Narayan	 Updates of the agenda presented on the 14th Meeting of RMC was placed:
	Kairy	 The Committee instructed ERGF to ensure that ERGF hotline is always attended.

Meeting Date		Attendance		Focus Points
	•	Mr. Kazi Mahmood Sattar		The Committee advised to ensure that the employees need to be made aware of the concept of "Harassment".
	•	Mr. Selim R. F.	2.	ERMC Summary (101st ERMC & 102nd ERMC) was placed.
		Hussain	3.	Top 50 Customers of Corporate Portfolio was placed and duly noted.
			4.	Summary of Credit inspection findings and analysis was placed.
28/12/2016	•	Dr. Hafiz G.A Siddiqi	1.	Updates of the agenda presented on the 15th, Meeting of RMC:
16 th Metting	•	Mr. Shib Narayan Kairy Mr. Kazi Mahmood		 Updates of the agenda presented on the 15th Meeting of Risk Management Committee was placed before the Risk Management Committee and noted.
	•	Sattar Mr. Selim R. F. Hussain		 RMC Meeting minutes: The Management was advised that henceforth, RMC meeting minutes will be circulated through email to the RMC members within 7 days.
		riassam	2.	ERM Policy:
				 A presentation was made on the ERM policy to the Committee, Highlighting the changes that have been incorporated in the new version.
				 Risk Management Committee instructed the management to revisit the Risk Matrix with the following recommendations:
				√ Introduce X-Y axis scale Matrix approach.
				√ Need to specify the threshold point / risk grade where the Board / RMC involvement is needed.
				$\ensuremath{}$ Need to explore if the amount can be removed from the Risk Matrix, since this can be varied from division to division or a separate column can be added to specify the divisional impact.
				 More details/simplifications are needed in the ERM policy to specify how each division will maintain their Risk Register to identify a risk issue and monitor it.
			3.	ERMC Summary (103rd ERMC & 104th ERMC) was placed.

			7.	Formation of Sustainable Finance Unit at BRAC Bank Ltd:
				 Informative memo on the formation of a sustainable finance unit at BRAC Bank Limited was placed at the Risk Management Committee and was duly noted.
				 The Risk Management Committee advised the management to present the same to the Board for approval.

DISCLOSURE ON RISK BASED CAPITAL UNDER BASEL III

For the Year Ended on December 31, 2016

BRAC Bank Limited

Anik Tower, 220/B, Tejgaon Gulshan Link Road, Tejgaon, Dhaka 1208.

Background of Market Discipline

The purpose of Market Discipline is to complement the minimum capital requirements and the supervisory review process. Establishing a transparent and disciplined financial market through providing accurate and timely information related to liquidity, solvency, performance and risk profile of a bank is another important objective of this disclosure.

Use of excessive leverage, gradual erosion of level and quality of capital base, insufficient liquidity buffer, Procyclicality and excessive interconnectedness among systemically important institutions are identified as reasons of recent bank failures. Bank for International Settlements (BIS) came up, in response, with new set of capital and liquidity standards in the name of Basel III. In compliance with the 'Revised Guidelines on Risk Based Capital Adequacy (RBCA)' issued by Bangladesh Bank in December 2014,

Banks in Bangladesh have formally entered into Basel III regime from 1st January 2015. The new capital and liquidity standards have greater business implications for banks. BRAC Bank Limited (BBL) has also adopted Basel III framework as part of its capital management strategy in line with the revised guideline. This Market Discipline

disclosure under Basel III is made following 'Guidelines on Risk Based Capital Adequacy (Revised Regulatory Capital Framework for banks in line with Basel III)' for banks issued by Bangladesh Bank in December 2014.

Consistency and Validation

The quantitative disclosures are made on the basis of consolidated audited financial statements of BBL and its Subsidiaries for the year ended on December 31, 2016 and prepared in accordance with the relevant International Accounting and Financial Reporting Standards and related circulars/instructions issued by Bangladesh Bank from time to time. The assets, liabilities, revenues and expenses of the subsidiaries are combined with those of the parent company (BBL). eliminating inter-company transactions. Assets of the subsidiaries were risk weighted and equities of subsidiaries were crossed out with the investment of BBL while consolidating. Therefore, information presented in the 'Quantitative Disclosures' section can easily be verified and validated with corresponding information presented in the consolidated audited financial statements 2016 of BBL and its Subsidiaries along with separate audited financial statements of the bank available on the website of the bank (www. bracbank.com). The report is prepared once a year and is available in the website.

Qualitative Disclosure

1. Scope of the Application

Qualitative Disclosure

a) The name of the top corporate entity in the group to which this guidelines applies

- b) An outline of differences in the basis of consolidation for accounting and regulatory purposes, with a brief description of the entities within the group:
- (i) that are fully consolidated,
- (ii) that are given a deduction treatment; and
- (iii) that are neither consolidated nor deducted

BRAC Bank Limited has 5 (Five) subsidiaries, a brief description of the bank and its subsidiaries is given below:

BRAC Bank Limited: BRAC Bank Ltd. is one of the third generation private commercial banks (PCBs) which inaugurated its banking operation on 4th July, 2001 under the banking Companies Act 1991. The bank went for public issue of its shares in 2006 and its shares are listed with Dhaka Stock Exchange Limited and Chittagong Stock Exchange Limited in 2007. At present the bank has 112 Branches, 48 SME Krishi Branches and 21 SME Service Centers and 469 own ATM booths.

Subsidiaries of BRAC Bank Limited:

Subsidiaries: Subsidiaries are all entities over which the bank has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. A parent of a subsidiary should present consolidated financial statements according to BAS-27: Consolidated and Separate financial statements and BFRS 10: Consolidated Financial Statements. The financial statements of subsidiary are included in the consolidated financial statements from the date that control effectively commences until the date that the control effectively ceases.

The Bank has five subsidiary companies namely, BRAC EPL Investments Limited, BRAC EPL Stock Brokerage Limited, BRAC Saajan Exchange Limited (SWMTL) incorporated in UK, b-Kash Limited, BRAC IT Services Limited.

- **i. BRAC EPL Investments Limited:** BRAC EPL Investments Limited (BEIL) a public limited company, formally commenced operation on October 01, 2009 following obtaining merchant bank license from the Securities and Exchange Commission.
- **ii. BRAC EPL Stock Brokerage Limited:** BRAC EPL Stock Brokerage Limited is one of the leading stock brokers in the country. The company offers brokerage services to international institutions, domestic institutions, retail clients and non-resident Bangladeshis (NRBs). It is also the pioneer and leader in facilitating foreign portfolio investments in Bangladesh and boasts one of the best equity research teams of the country.
- **iii. BRAC Saajan Exchange Limited:** BRAC Saajan Exchange Limited mainly provides remittance services to the large Bangladeshi Communities living in UK. Apart from its remittance services the company also caters to the investment needs of the NRBs through its parent organization BRAC Bank.

iv. BRAC IT Services Limited: BRAC IT Services Ltd. (biTS) is an IT Solution and Services company and is a subsidiary jointly owned by BRAC Bank and BRAC. biTShas been formed in 2013 through the merger of a subsidiary IT company. It strives to become the most trustworthy company in Bangladesh providing technology solutions and managed IT services.

v. b-Kash Limited: bKash Limited, a subsidiary of BRAC Bank, started as a joint venture between BRAC Bank Limited, Bangladesh and Money in Motion LLC, USA. In April 2013, International Finance Corporation (IFC), a member of the World Bank Group, became an equity partner and in April 2014, Bill & Melinda Gates Foundation became the investor of the company. The ultimate objective of bKash is to ensure access to a broader range of financial services for the people of Bangladesh.

c) Basis of Consolidation

According to BRPD Circular-12, 24, 35 (dated March 29, 2010, August 03, 2010 & December 29, 2010 respectively) and BRPD circular letter no-08, dated July 23, 2012, investments in subsidiaries have been consolidated for the purpose of assessing capital adequacy, the ratio of which is calculated both on Consolidated and Solo basis. The consolidated financial statements have been prepared in accordance with Bangladesh Accounting Standard 27: Consolidated financial statements and accounting for investments in subsidiaries.

The consolidated financial statements include the financial statements of BRAC Bank Limited and its subsidiaries BRAC EPL Investments Limited, BRAC EPL Stock Brokerage Limited, bKash Limited, BRAC Saajan Exchange Limited and BRAC IT Services Limited as those of a single economic entity. The consolidated financial statements have been prepared in accordance with Bangladesh Accounting Standard (BAS) 27: Consolidated and Separate financial statements and Bangladesh Financial Reporting Standard (BFRS) 10: Consolidated Financial Statements. The consolidated financial statements are prepared to a common reporting year ended 31st December 2016.

Quantitative Disclosure

Quantitative Disclosure

deficiencies in all subsidiaries not are deducted and the name(s) of such subsidiaries.

a) The aggregate amount of capital It does not hold here. The assets, liabilities, revenue and expenses of the subsidiaries are combined with the BBL's consolidated audited included in the consolidation that financial statement as of year ended December 31, 2016 which ensures the elimination of inter-company transactions, balances and intra-group gains on transactions between group companies.

Qualitative Disclosure

2. Capital Structure

Qualitative Disclosure

a) Summary information on the terms and conditions of the main features of all capital instruments, especially in the case of capital instruments eligible for inclusion in CET1, Additional Tier 1 or Tier 2. The Basel Committee raised the resilience of the banking sector by strengthening the regulatory capital framework, building on the three pillars of the Basel II framework. The reforms raised both the quality and quantity of the regulatory capital base and enhanced the risk coverage of the capital framework. To this end, the predominant form of Tier 1 capital is to be common shares and retained earnings. This standard is reinforced through a set of principles that also can be tailored to the context of non-joint stock companies to ensure they hold comparable levels of high quality Tier 1 capital. Deductions from capital and prudential filters have been harmonized and generally applied at the level of common equity or its equivalent in the case of non-joint stock companies. The remainders of the Tier 1 capital base are to be comprised of instruments that are subordinated, have fully discretionary non-cumulative dividends or coupons and have neither a maturity date nor an incentive to redeem. In addition, Tier 2 capital instruments will be harmonized and so-called Tier 3 capital instruments, which were only available to cover market risks, eliminated.

The capital structure of the bank is categorized into two tiers: Tier 1 and Tier 2 Capital, as per the Risk Based Capital Adequacy Guideline of Bangladesh Bank. The components of total regulatory capital are enumerated as under:

- ◆ Tier 1 Capital (going concern capital)
 - i. Common Equity Tier 1
 - ii. Additional Tier 1
- ◆ Tier 2 Capital (gone concern capital)

Tier 1 Capital: Going concern is the capital which can absorb losses without triggering bankruptcy of the bank. Hence, it is the core measure of a bank's financial strength from regulator's point of view. The components of Tier 1 Capital are given below:

Common Equity Tier 1 (CET1):

- Paid up capital
- Non-repayable share premium account
- Statutory reserve
- General reserve
- Retained earnings
- Dividend equalization reserve
- Minority interest in subsidiaries

Additional Tier 1 (AT1):

- Non-cumulative irredeemable preference share
- Instruments issued by banks that meet the qualifying criteria for AT1 (the instrument is perpetual i.e. no maturity date)
- $\hfill \blacksquare$ Minority interest (AT1 issued by consolidated subsidiaries to the third parties)

Tier 2 Capital: Gone concern capital represents other elements that fall short of some of the characteristics of core capital but contribute to the overall strength of the bank. Tier 2 capital consists of the following items:

- General Provision
- All other preference shares
- Subordinate debt/instruments issued by the banks that meet the qualifying criteria for Tier 2 Capital
- Minority interest i.e. Tier 2 capital issued by consolidated subsidiaries to the third parties)

As per the guidelines of Bangladesh Bank, Tier 1 Capital of BBL consists with i. Fully paid up capital, ii. Non-Repayable share premium account, iii. Statutory reserve, iv. Retained earnings, v. Dividend equalization reserve

Tier 2 Capital of BBL consists of i. General Provision, ii. Subordinated debt/Instrument, iii. Revaluation Reserve

3. Capital Adequacy

Qualitative Disclosure

a) A summary discussion of the bank's approach to assessing the adequacy of its capital to support current and future activities.

BRAC Bank Limited with its focused strategy on risk management has always been consistent in maintaining capital adequacy ratio above the regulatory requirements. BRAC Bank Limited has been successfully managing the incremental growth of the Risk Weighted Assets by ensuring diversification of the portfolio in SME, Retail and Corporate segments. However, RWA is also managed by taking collaterals against loans. We strive to ensure external credit rating is duly done by the borrowers.

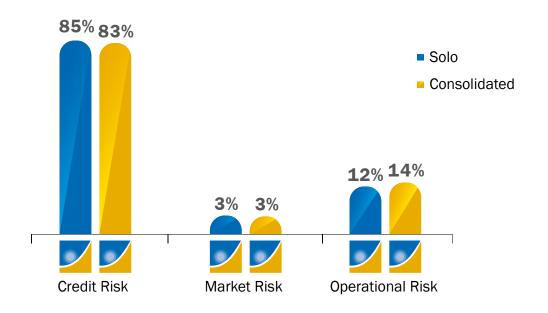

The bank has adopted Standardized Approach (SA) for computation of capital charge for credit risk and market risk, and Basic Indicator Approach (BIA) for operational risk. Assessment of capital adequacy is carried out in conjunction with the capital adequacy reporting to the Bangladesh Bank.

The bank's policy is to manage and maintain its capital with the objective of maintaining strong capital ratio and high rating. The bank maintains capital levels that are sufficient to absorb all material risks. The bank also ensures that the capital levels comply with regulatory requirements and satisfy the external rating agencies and other stakeholders including depositors. The main objective of the capital management process in the bank is to ensure that Bank has adequate capital to meet up its all sorts of obligations any time.

Capital Requirement under Pillar I

4. Credit Risk

Qualitative Disclosure

a) The general qualitative disclosure requirement with respect to credit risk:

Since 2005 we have a lending policy in place for the management of credit risk in the bank. This policy is reviewed every year. Loan processing system in our bank is centralized. Where the Relationship Manager (RM) hunts for business keeping in mind the 5 Cs in a customer, then the RM prepares credit proposal and sends to Credit Risk Management (CRM) for analysis. CRM analyzes the proposal, decision is made (Approved/Declined/Query provided) and approved as per Delegation of Authority. Finally, documentation & disbursement are being done by Credit Department. In each of the aforementioned step, very stringent and rigorous risk assessment is done. Whereby, we strive to eliminate every possibility of credit risk. Moreover, there is a Lending cap to single borrower/group borrower exposure limit fully complying as stipulated by the regulators.

Before approving any facility to a borrower, we follow a very robust and rigid credit assessment process. Starting from accumulating and analyzing borrower's business information, Business prospect, present scenario, Market position, market reputation, Industry growth and Peer group comparison, we embark in any deal. At the same time Experience & skill of Sponsor Directors and Key Management in primary business, succession plan, Financial statement analysis including projected cash flow and opportunity, CIB Report check, Search Report check, Requirement of loan, proposed facility, justification of requirement & facility structuring and related such avenues are closely scrutinized. If the status of the client is deemed to be satisfactory, all documents are prepared and negotiations are undertaken. The relationship manager visits the factory (for manufacturing concerns) or retail outlets (for trading concerns) to see if the conditions are satisfactory & justifiable to support facilities. To maintain thorough knowledge of factory / warehouse a visit report is prepared in this regard. Stock Verification Report is also prepared and record is kept in customer's file. The environmental aspects are also considered while opting for any lending decision.

Other banks' liability position and status, other banks' sanction advice. Credit risk grading, External rating (for Large & Medium Enterprise customer) Information, Proposed Security analysis, Compliance of regulatory and internal policy guidelines and relevant such covenants are considered before extending any credit facility. These are all done with the sole intention to combat credit risk.

i) Definitions of past due and impaired (for accounting purposes);

Credit risk is the risk of financial losses resulting from the failure by a client or counterparty to meet its contractual obligations to the Bank. Credit risk arises from the Bank's dealings with or lending to corporate, individuals, and other banks or financial institutions.

Bank's provision for loans and advances is created based on the period of arrears by following Bangladesh Bank BRPD Circulars No. 16 of December 06, 1998, 09 of May 14, 2001, 09 and 10 of August 20, 2005, 05 of June 05, 2006, 8 of August 07, 2007, 10 of September 18, 2007, 05 of April 29, 2008, 32 of October 12, 2010, 14 of September 23, 2012, 15 of September 23, 2012, 19 of December 27, 2012 and 05 of May 29, 2013 respectively. This is also reviewed by the management as and when requisite.

Interest on loans and advances is calculated daily on product basis but charged and accounted monthly and quarterly on accrual basis. Classification and provisioning for loans and advances is created based on the period of arrears by following Bangladesh Bank BRPD circulars no. 14, of 23 September 2012, 15 of 23 September 2012, 19 of 27 December 2012 and 05 of 29 May 2013 respectively. This is also reviewed by the management. Interest on classified loans and advances is calculated as per BRPD circular No. 27, dated August 31, 2010 and recognized as income on realization as per BRPD circular no. 14 and 15, dated September 23, 2012. Large loans are defined as number of clients with amount outstanding and classification status to whom loans and advances sanctioned exceeds 10% of the total capital of the Bank.

With a view to strengthening credit discipline and bring classification and provisioning regulation in line with international standard, an apt classification and provisioning mechanism was undertaken as per Bangladesh Bank circulars issued from time to time. In this regard, all the loans and advances/investments are grouped into four categories for the purpose of classification, namely i) Continuous Loan, ii) Demand Loan, iii) Fixed Term Loan and iv) Short-term Agricultural and Micro Credit. They are classified as follow:

		Loan Classification	·
Type of Facility	Sub Standard	Doubtful	Bad & Loss
	Overdue period	Overdue period	Overdue period
Continuous Loan &	3 months or more but	6 months or more but less than	9 months or
Demand Loan	less than 6 months	9 months mo	
Fixed Term Loan more	3 months or more but	6 months or more but less than	9 months or
than Tk. 1 million	less than 6 months	9 months mo	
Fixed Term Loan up to	6 months or more but	9 months or more but less than	12 months or
Tk. 1 million	less than 9 months	12 months mo	
Short Term Agricultural	12 months or more but	36 months or more but 60 mo	
& Micro Credit	less than 36 months	less than 60 months	more

ii) Description of approaches followed for specific and general allowances and statistical methods;

Provision for loans and advances is created for covering the bank from possible loan losses in the future. General provision is made on the outstanding amount of loans and advances without considering the classification status following the prescribed rate of Bangladesh Bank. Classified loans and advances of the banks are categorized as Sub-Standard, Doubtful and Bad/Loss as per Bangladesh Bank circulars. For loans which are classified as sub-standard, doubtful or bad/loss, specific provision is created netting off security value and interest suspense from the amount outstanding. Provision for off balance sheet items is made as per BRPD circular no. 14 of September 2012 for covering the bank for possible losses on off balance sheet items in the future.

Classified loans and advances of the banks are categorized as sub-standard, doubtful and bad/loss as per guidelines of Bangladesh Bank. Interest accrued on Sub-Standard, Doubtful and Bad/Loss loans is transferred to interest suspense account and not considered as interest income. This interest is recognized as interest income when it is realized in cash by the bank.

Loans and advances are written off to the extent that (i) there is no realistic prospect of recovery, (ii) and against which legal cases are filed and classified as bad loss as per BRPD circular no. 02 dated 13 January 2003 and 13 dated 07 November 2013. These write off however, will not undermine/affect the claim amount against the borrower. Detailed memorandum records for all such write off accounts are meticulously maintained and followed up.

At each balance sheet date, BRAC Bank Limited assesses whether there is objective evidence that a financial asset or a group of financial assets i.e. loans and advances, off balance sheet items and investments are impaired. A financial asset or groups of financial assets are impaired and impairment losses are incurred if there is objectives evidence of impairment as a result of a loss event that occur after the initial recognition of the asset up to the balance sheet date; the loss event had an impact on the estimated future cash flows of the financial assets or the group of financial assets; and a reliable estimate of the loss amount can be made. In the event of impairment loss, the bank reviews whether a further allowance for impairment should be provided in the profit and loss statement in addition to the provision made based on Bangladesh Bank guidelines or other regulatory requirements.

The bank is required to maintain the following general and specific provision in respect of classified and unclassified loans and advances / investments on the basis of Bangladesh Bank guidelines issued from time to time:

292

iii) Discussion of the bank's credit risk management policy;

Method used to measure credit risk: As per Bangladesh bank's guideline, the bank follows Standardized Approach for measurement of credit risk adopting the credit rating agencies as External Credit Assessment Institutions (ECAI) for claims on banks and FIs, corporate and eligible SME customers, and Credit Risk Mitigation against the financial securities and guarantees of loan exposure.

Credit Policy: BRAC Bank Limited is managing its Credit Risk through a Board directed and approved Credit Policy in line with the Bangladesh Bank Core Risk Management Guidelines, which outlined robust processes and procedures to ensure the quality of its assets portfolio. The Credit Policy also contains the general principles to govern the implementation of detailed lending procedures and risk grading systems of the borrowers. And, as such, it specifically addresses the areas of:

- ♦ Loan Originating
- ◆ Credit Approval
- ◆ Credit Administration
- ◆ Risk Management and
- ♦ Monitoring, Collection and Recovery activities

Credit Risk Mitigation: Potential credit risks are mitigated by taking primary and collateral securities. There are other risk mitigation approaches like netting agreements and other guarantees. The legal certainty and enforceability of the mitigation approach are verified by the professionals of the respected fields. Collateral types which are eligible for risk mitigation include: cash; residential, commercial and industrial property; plant and machinery; marketable securities etc. Collaterals are physically verified by the bank officials. At the same time these are also valued by independent third party surveyor in accordance with the credit policy and procedures.

Credit Assessment and Grading: Know Your Client (KYC) is the first step to analyze any credit proposal. Banker-Customer relationship is established through opening of accounts of the customers. Proper introduction, photographs of the account holders/ signatories, passports etc., and all other required papers as per Bank's policy are obtained during account opening. Physical verification of customer address is done prior to credit appraisal. At least three Cs, i.e., Character, Capital and Capacity of the customers are confirmed. Credit Appraisals include the details of amount and type of loan(s) proposed, purpose of loan (s), result of financial analysis, loan Structure (Tenor, Covenants, Repayment Schedule, Interest), security arrangements. The above are minimum components to appraise a credit and there are other analyses depending on the credit nature. The bank follows the CRG manual of Bangladesh Bank circulated on December 11, 2005 through BRPD circular no. 18.

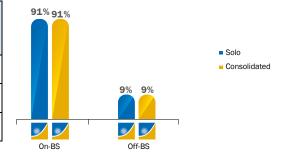

Credit Risk Management: Conventionally, the core function of a Credit Risk Management (CRM) Team is to optimize the risk adjusted return from Bank's Loans and Advances by maintaining an appropriate standard in the underwriting process. However, the scope of BRAC Bank's CRM is not just limited to this. At BBL, a more holistic approach towards risk management is taken, where socioeconomic and environmental impacts of the decisions made are emphasized upon. This particular practice is the hallmark of BRAC Bank's credit risk management objective. We believe in development rather than growth, and sustainability rather than mere financial return from a transaction. We strive to create value rather than be the consumer of the value. To achieve this goal, we manage the credit risk inherent in the entire portfolio of the bank as well as the risks associated with individual credit proposals or transactions. We believe that the effective management of credit risk is a critical component of a comprehensive approach to risk management. In the last couple of years, BRAC bank has been focusing on adopting environmental risk management programs through the assistance, guidance, and/or requirements provided by various international DFIs as well as clearly articulated regulatory guidelines. Bringing in social and environmental risk assessment into the credit approval process contributes to the well-being of the society. Moreover, as the lion share of the total revenue of BRAC Bank Limited comes particularly through SME lending, so the future prospect of the bank depends on quality of its asset portfolio. Thus efficient management of the Loans and Advances is of paramount importance for the bank.

Determination of credit risk involves review of the borrower's past credit history and its income assessment. We have established an appropriate credit risk environment, operating under a sound credit-granting process, maintaining a robust credit administration and monitoring process, and ensuring adequate controls over credit risk. There are differentiated and dedicated credit models for SME Banking, Retail Banking and Wholesales Banking to ensure the quality asset growth of the bank while implementing the risk mitigation strategies for each portfolio. There is a distributed collection model that consistently follows up with the borrowers for the timely repayments. A wing named 'Special Asset Management (SAM)' deals with non-performing assets through amicable settlement, execution of decrees and arrangements of auctions to sell the mortgaged properties. SAM is also engaged to monitor Early Alert Accounts. At BBL, we are very keen to identify, measure, monitor and control credit risk and ensure that adequate capital against these risks are maintained, at the same time they are satisfactorily compensated against the risk of potential losses. At BBL, we are very keen to identify, measure, monitor and control credit risk and ensure that adequate capital against these risks are maintained, at the same time they are satisfactorily compensated against the risk of potential losses.

Final authority and responsibility for all activities that expose the bank to credit risk rests with the Board of Directors. The Board however delegated authority to the Managing Director and CEO or other officers of the credit risk management division. The Credit Policy Manual contains the core principles for identifying, measuring, approving, and managing credit risk in the bank and designed to meet the organizational requirements that exist today as well as to provide flexibility for future. The policy covers corporate, retail, small and medium enterprise exposures. Policies and procedures has structured and standardized credit risk management process both in obligor and portfolio level and also follow central bank guide line. Credit risk management function is Independent of business origination functions to establish better internal control and to reduce conflict of interest.

5. Equities: Disclosure for banking book positions

Qualitative Disclosure

a) The general qualitative disclosure requirement with respect to equity risk, including:

i) Differentiation between holdings on which capital gains are expected and those taken under other objectives including for relationship and strategic reasons:

Investment in equity securities are broadly categorized into two parts:

- ◆ Quoted Securities: Common or Preference Shares & Mutual Fund) that are traded in the secondary market.
- ♦ Unquoted securities: These include shares of Central Depository Bangladesh Limited (CDBL), Industrial and Infrastructure Development Finance Co. Ltd., Bangladesh Rating Agency of Bangladesh Limited., BRAC Asset Management Company Ltd., VIPB Income Fund, BRAC Impact Ventures Limited and the subsidiaries of BBL.
- ii) discussion of important policies covering the valuation and accounting of equity holdings in the banking book. This includes the accounting techniques and valuation methodologies used, including key assumptions and practices affecting valuation as well as significant changes in these practices:

The primary aim is to investment in these equity securities for the purpose of capital gain by selling them in future or held for dividend income. Dividends received from these equity securities are accounted for as and when received. Both Quoted and Un-Quoted equity securities are valued at cost and necessary provisions are maintained if the prices fall below the cost price.

b) Discussion of important policies covering the valuation and accounting of equity holdings in the banking book. This includes the accounting techniques and valuation methodologies used, including key assumptions and practices affecting valuation as well as significant changes in these practices;

All investment securities including acquisition charges associated with the investment are initially recognized at cost. Premiums are amortized and discount accredited, using the effective yield method and are taken to discount income.

The valuation methods of Marking to Market for investment used are:

Held to Maturity (HTM) and by definition the investments which have "Fixed or determinable" payments and fixed maturity that the group has the positive intent and ability to hold to maturity other than those that meet the definition of 'Held at amortized cost others' are classified as held to maturity. These investments are subsequently measured at amortized cost, less any provision for impairment in value. Amortized cost is calculated by taking into account any discount or premium in acquisition. Any gain or loss on such investments is recognized in the statement of income when the investment is derecognized or impaired as per IAS -39 Financial Instruments Recognition and Measurement".

Held for Trading (HFT) is a method where investments are acquired principally for the purpose of selling or repurchasing or in short trading or if designated as such by the management. After initial recognition, investments are measured at present value and any change in the fair value is recognized in the statement of income for the period in which it arises. Transaction costs, if any, are not added to the value of investments at initial recognition.

Revaluation: According to DOS Circular no.-05, dated 26th May 2008, the HFT securities are revalued once each week using Marking to Market concept and the HTM securities are amortized once a year according to Bangladesh Bank guidelines. The HTM securities are also revaluated if they are reclassified to HFT category with the Board's approval.

Value of Investments has been shown as under:

Quantitative Disclosure

6. Interest Rate Risk in the Banking Book (IRRBB)

Qualitative Disclosure

a) The general qualitative disclosure requirement including the nature of IRRBB and key assumptions, including assumptions regarding loan prepayments and behavior of non-maturity deposits, and frequency of IRRBB measurement:

Interest rate risk affects the bank's financial condition due to adverse movements in interest rates of interest sensitive assets. Changes in interest rates have two types of impact:

- i. Earnings perspective: It affects a bank's earnings by changing its net interest income and the level of other interest sensitive income and operating expenses.
- ii. Economic value perspective: The economic value of future cash flows changes when interest rate changes.

In BRAC Bank Limited, the Asset & Liability Management (ALM) unit under the supervision of Asset and Liability Committee (ALCO) is responsible for managing market risk arising from BRAC Bank's banking book activities. Our interest rate risk management involves the application of four basic elements in the management of assets, liabilities, and OBS instruments. These are (a) appropriate senior management oversight; (b) adequate risk management policies and procedures, (c) appropriate risk measurement, monitoring, and control functions; and d) comprehensive internal controls.

Techniques of Addressing IRRB: Following techniques for managing the IRRB in BRAC Bank Limited are applied:

Re-pricing Schedules: It is the simplest techniques for measuring a bank's interest rate risk exposure and that is generating a maturity/re-pricing schedule that distributes interest-sensitive assets, liabilities, and OBS positions into a certain number of predefined time bands according to their maturity (if fixed-rate) or time remaining to their next re-pricing (if floating-rate). Those assets and liabilities lacking definitive re-pricing intervals (e.g. sight deposits or savings accounts) or actual maturities that could vary from contractual maturities are assigned to re-pricing time bands according to the judgment and past experience of the bank.

Gap Analysis: It helps to assess the interest rate risk of current earnings. To evaluate earnings exposure, interest rate-sensitive liabilities in each time band are subtracted from the corresponding interest rate-sensitive assets to produce a re-pricing "gap" for that time band. This gap is then multiplied by an assumed change in interest rates to yield an approximation of the change in net interest income that would result from such an interest rate movement.

- **i. Duration:** A maturity/re-pricing schedule is also used to evaluate the effects of changing interest rates on a bank's economic value by applying sensitivity weights to each time band. Typically, such weights are based on estimates of the duration of assets and liabilities that fall into each time band.
- **ii. Quarterly Stress Testing:** It is conducted on quarterly basis as per the directives of Bangladesh Bank to gain better insight into the vulnerable issue of IRRB.

7. Market Risk

Qualitative Disclosure

Market risk arises due to changes in the market variables such as interest rates, foreign currency exchange rates, equity prices and commodity prices. The financial instruments that are held with trading intent or to hedge against various risk, are purchased to make profit from spreads between the bid and ask price are subject to market risk.

We have Foreign Exchange Risk Management Guideline entirely customized as per our bank's need since 2004. The guidelines have been prepared as per Bangladesh Bank guidelines and appraised by our Board of Directors. All financial activities are susceptible to different degree of risks. Being a financial institution, to measure, monitor and manage these risks would be crucial for the survival and good health of the organization. Within the bank, treasury would be vested with the responsibility to measure and minimize the risks associated with bank's assets and liabilities. Managing foreign exchange risk would be one of the prime responsibilities of the treasury.

Qualitative Disclosure

a) Views of BOD on trading/investment activities

Liquidity Contingency plan and the guidelines of Bangladesh Bank in respect of CRR, SLR & Capital Adequacy are also there to guide in the proper direction. We have the Asset Liability Committee (ALCO) responsible for overall balance sheet (asset liability) risk management. Treasury would be responsible for managing the balance sheet as per recommendation of ALCO to minimize risk and maximize returns. The committee would call on a meeting at least once in every month to set and review strategies on ALM. The ALCO process or ALCO meeting reviews the ALCO paper along with the prescribed agendas. Head of treasury would put his views on whether the interest rates need to re-priced whether the bank needs deposit or advance growth, whether the growth on deposits and advances would be on short term or long term, what would be the transfer price of funds among the divisions, what kind of interbank dependency the bank would have. Based on the analysis and views, the committee would take decisions to reduce balance sheet risk while maximizing profits.

At BRAC bank, the Board approves all policies related to market risk, sets limit and reviews compliance on a regular basis. The objective is to obtain the best balance of risk and return whilst meeting customers' requirements.

Qualitative Disclosure

b) Methods used to measure Market

There are several methods used to measure market risk and the bank uses those methods which deem fit for a particular scenario. For measuring interest risk from earnings perspective, the bank uses maturity gap analysis, Duration Gap analysis, Sensitivity Analysis. We use standardized (Rule Based) method for Calculating capital charge against market risks for minimum capital requirement of the bank under Basel-III.

c) Market Risk Management system The Treasury Division manages market risk covering liquidity, interest rate and foreign exchange risks with oversight from Asset-Liability Management Committee (ALCO) comprising senior executives of the bank. ALCO is chaired by the Managing Director.

i. Asset Liability Management: BRAC Bank Limited gives adequate emphasis so that the level of balance sheet risks is effectively managed. Appropriate policies and procedures have been established as per the guidelines of Bank's Board of Directors (BOD) including relevant circular guidelines of Bangladesh Bank to control and limit these risks and proper resources are available for the evaluation and control of these risks. The Asset Liability Committee (ALCO) of the bank monitors Balance Sheet and liquidity risk of the bank.

ii. Foreign Exchange Risk Management: Foreign exchange risk (also known as FX risk, exchange rate risk or currency risk) is a financial risk that exists when a financial transaction is denominated in a currency other than that of the base currency. The risk is that adverse fluctuations in exchange rates may result in a loss in earnings. We have our own board approved policy for the management of FX risk. We have developed different strategies to handle foreign exchange risk by setting different types of limits and risk parameters to measure and monitor foreign exchange risk exposure of the bank.

d) Policies and processes for mitigating market risk

The bank maintains various Nostro accounts in order to conduct operations in different currencies. The management of the bank sets limits for conducting Nostro account transactions. All Nostro accounts are reconciled on monthly basis and outstanding entries are reviewed by the management for its settlement/ adjustment. The position maintained by the bank at the end of the day is within the stipulated limit prescribed by the central Bank. Changes in market liquidity and/or interest rate exposes Bank's business to the risk of loss. Treasury department is vested with the responsibility to measure and minimize the risk associated with bank's assets and liabilities including Foreign Exchange Risk. All Treasury functions are clearly demarcated between Treasury Front Office and Back Office. The Front Office is involved only in dealing activities while the Back Office is responsible for related support and monitoring functions. All the Treasury Front and Back Office personnel are guided as per Bangladesh Bank Core Risk Management guidelines. And they have separate and independent reporting lines to ensure segregation of duties and accountabilities. Dealing room is equipped with Reuter's information, voice screen recorder.

8. Operational Risk

Qualitative Disclosure

a) Views of BOD on system to reduceOperational Risk Operation risk is defined as the risk of losses resulting from inadequate or failed internal processes, people and system or from external events. This definition includes legal risk, but excludes strategic or reputation risk.

The Board of Directors (BOD) of BRAC Bank Limited and its Management firmly believe

that efficient management of operational risks always contribute to the earnings of the bank and at the same time secure the interest of its customers and shareholders. To materialize this understanding into reality, there are dedicated risk management associates across the bank that consistently work for managing the Operational Risks using effective tools and techniques implemented through polices and processes.

BBL is an equal opportunity employer. At BBL, we recognize the importance of having

b) Performance gap of executives and staffs BBL is an equal opportunity employer. At BBL, we recognize the importance of having the right people at right places and positions to achieve organizational goal. The bank has proper mechanism in place to identify the scope of improvement of the employees and executives and work towards addressing them on time. Development of human resources is pivotal for optimum efficiency and hence, BBL's employees are given with numerous learning and capacity development programs throughout the year by best resources available within the country and abroad.

To reduce knowledge gap and assist in the development of our personnel, user friendly Operations Manual have been developed and enclosed with functional processes for all employees who are the end users of these processes. This is a critical initiative for the Bank because having a mapped out process enables users to operate more efficiently, enhances knowledge amongst staff and fills in the lapses in operations. All the policies and processes address clear responsibilities and accountabilities of all employees.

c) Potential external events

There are non-diversifiable external factors that can affect operations of the business directly or indirectly. BBL understand that business operates in an umbrella of inter connected socio-economic and political environment where macro-economic conditions, regulatory changes, change in demand, status of infrastructure have significant influence on bank's performance. The bank has separate mechanism to address such kind of events.

d) Policies and processes for mitigating operational risk In BRAC Bank, a dedicated department under the Risk Management Division (RMD) consistently works in Operational Risk identification, assessment and implementing appropriate risk mitigation strategies across the bank. It helps to create awareness about various types of risks in pan bank and enhances management of significant risk exposures by escalating all risk issues timely and concisely to the MANCOM and Enterprise Risk Management Committee (ERMC). The team works in collaboration with all the departments in the bank for minimizing the Operational Risk exposures by collating information from key stakeholders of processes across all functions of the bank, Incident Reports, Potential Loss Reports, Internal Audit Reports, External Audit Reports and various other sources to identify gaps, risks, compliance and control failures to ensure reporting of significant risks and corporate governance issues. Such maintenance of a bank-wide risk management framework enables every department to independently identify, assess and respond to changes in the operating environment.

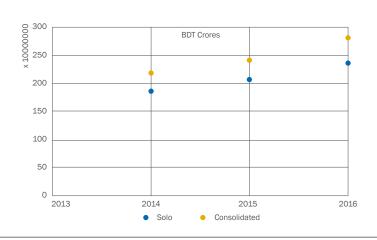

Moreover, Internal Control and Compliance Division has key role in identifying and mitigating operational risk. This division works relentlessly under the guidance of Board Audit committee to manage operational risk issues of the bank. The audit committee delivers policies and directions from time to time to keep the operational efficiency of the bank up to the mark.

e) Approach for Calculating Capital Charges for Operational Risk Basic Indicator Approach (BIA) is followed to calculate the capital charges for Operational Risk as per the guidelines of Bangladesh Bank. As per BIA, the capital charge for Operations Risk is a fixed percentage denoted by α (alpha) of average positive gross annual income of the bank over the past three years.

Capital Requirement under Operational Risk

9. Liquidity Ratio

Qualitative Disclosure

Qualitative Disclosure

a) Views of BOD on system to reduce liquidity Risk Liquidity risk is the risk that a given security or asset cannot be traded quickly enough in the market to prevent a loss (or make the required profit) or when a bank is unable to fulfill its commitments in time when payment falls due. Thus, liquidity risk can be of two types:

- a) Funding liquidity risk: the risk that a firm will be unable to meet its current and future cash flow and collateral needs without affecting its daily operations or its financial condition.
- b) Market liquidity risk: the risk that a firm cannot easily offset or sell a position without incurring a loss because of inadequate depth in the market.

BBL's Board of Directors have always been giving utmost importance to minimize the liquidity risk of the bank. In order to reduce liquidity risk strict maintenance of Cash Reserve Ratio (CRR) and Statutory Liquidity Reserve (SLR) are also being emphasized on a regular basis. Apart from these as a part of Basel-III requirement Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) are also maintained under the guidance and sharp insight of our honorable Board of Directors.

Qualitative Disclosure

We follow Bangladesh Bank's Risk Based Capital Adequacy guideline in line with Basel III. We also follow DOS circular no. 1, dated 1st January, 2015, on Implementation of Basel III liquidity ratio. The calculation methodology is illustrated in detail in the guideline provided by Bangladesh Bank.

Liquidity Coverage ratio:

b) Methods used to measure Liquidity risk The liquidity coverage ratio (LCR) refers to highly liquid assets held by financial institutions in order to meet short-term obligations. The Liquidity coverage ratio is designed to ensure that financial institutions have the necessary assets on hand to ride out short-term liquidity disruptions. Banks are required to hold an amount of highly-liquid assets, such as cash or Treasury bonds, equal to or greater than their net cash over a 30 day period (having at least 100% coverage).

Net stable funding ratio (NSFR):

The NSFR presents the proportion of long term assets funded by stable funding and is calculated as the amount of Available Stable Funding (ASF) divided by the amount of Required Stable Funding (RSF) over a one-year horizon. This ratio must equal or exceed 100%.

c) Liquidity risk management system Liquidity is the ability of a bank to generate fund for increasing assets and meet obligations as they come due, without incurring unacceptable cost. The fundamental role of banks in the maturity transformation of short-term deposits into long-term loans makes bank inherently vulnerable to liquidity risk. Effective liquidity risk management helps ensure a bank's ability to meet cash flow obligations, which are uncertain as they are affected by external events and other agents' behavior. Liquidity risk management is of paramount importance because a liquidity shortfall at single institution can have system-wide repercussions.

Responsibility of managing and controlling liquidity of BBL lies with Asset Liability Management Committee (ALCO) which meets at regular interval. Asset and Liability Management (ALM) desk closely monitors and controls liquidity requirements on a daily basis by appropriate coordination of funding activities and they are primarily responsible for management of liquidity in the bank.

d) Policies and processes for mitigating liquidity risk Asset Liability Management (ALM) is the core job and integral part of Bank Management. Changes in market liquidity and in interest rate exposes Bank's business to the risk of loss, which may, in extreme cases, threaten the survival of the institution. As such, it is important that the level of balance sheet risks is effectively managed, appropriate policies and procedures are established to control and limit these risks, and proper resources are available for evaluating and controlling these risks. Asset Liability Management policy is prepared to monitor, measure and manage the risks associated with balance sheet and guards the Bank against any unforeseen loss/threat of survival. The Asset Liability Management policy was approved by the Board in August 2004. The policy is revised to accommodate regulatory and organizational change.

The Board of Directors approve the LRM Policy. Asset Liability Committee (ALCO) reviews the policy at least annually or as and when required by taking into consideration of any changes in the market dynamics and appropriateness and put recommendation for changes in policy to the Board for approval. The LRM Policy is guided by international best banking practices, local banking & regulatory environment and prudent guidelines of the central bank.

	Available amount of stable funding	191,741,573	
1	Required amount of stable funding	166,098,053	

10. Leverage Ratio

	Qualitative Disclosure
	In order to avoid building-up excessive on- and off-balance sheet leverage in the banking system, a simple, transparent, non-risk based leverage ratio has been introduced. The leverage ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements.
a) Views of BOD on system to reduce excessive leverage	Banks have a range of financial incentives to operate with high leverage. But it creates risk when it crosses a certain point. Therefore, the board' views that sound prudential controls are needed to ensure that the organization maintains a balance between its debt and equity. The board also believes that the bank should maintain its leverage ratio on and above the regulatory requirements which will eventually increase the public confidence on the organization.
	BRAC Bank calculates leverage ratio on quarterly basis as per the RBCA guideline of the Bangladesh Bank and submits it to the Department of Off-site Supervision (DOS), Bangladesh Bank along with CRAR report.
b) Policies and processes for managing excessive on and off-balance sheet leverage	To manage excessive leverage, the bank follows all regulatory requirements for capital, liquidity, commitment, Advance Deposit Ratio (ADR), Maximum Cumulative Outflow (MCO), and other standards set by Bangladesh Bank. The aim is to ensure that the high leverage inherent in banking business models is carefully and prudently managed.
	Leverage ratio reflects the bank's tier 1 capital (the numerator) over total exposure (the denominator), which include its balance sheet exposures and certain off-balance sheet exposures. The capital measure for the leverage ratio is based on the Tier 1 capital. The exposure measure for the leverage ratio follows the accounting measure of exposure. In order to measure the exposure consistently with financial accounts, the followings are applied by the bank:
c) Approach for calculating	On balance sheet, non-derivative exposures are net of specific provisions and valuation adjustments
exposure	Physical or financial collateral, guarantee or credit risk mitigation purchased is not considered to reduce on-balance sheet exposure
	3. Netting of loans and deposits is not considered.
	Leverage Ratio: Tier 1 Capital (after related deductions)/Total Exposure (after related deductions)
E Frosi	b) Policies and processes for managing excessive on and off-balance sheet leverage

ii. Whether the remuneration committee reviewed the firm's remuneration policy during the past year, and if so, an overview of any changes that were made.	N/A
iii. A discussion of how the bank ensures that risk and compliance employees are remunerated independently of the businesses they oversee.	The structure of the performance-based component of the Risk Manager's remuneration is referred to the Human Resources Committee for approval. Any qualitative performance metrics are based on the quality and integrity of risk and control functions.
c) Description of remuneration prod	the ways in which current and future risks are taken into account in the
i. An overview of the key risks that the bank takes into account when implementing remuneration measures.	BRAC Bank has developed a risk management framework identifying the following core risks 1. Credit risk 2. Liquidity risk 3. Market risk 4. Capital Adequacy risk 5. Operational risk 6. Regulatory risk 7. Reputational risk 8. Strategic risk The Board's risk appetite for these risks significantly affects the application of the balanced scorecard methodology and performance appraisal approach to remuneration.
ii. An overview of the nature and type of the key measures used to take account of these risks, including risks difficult to measure (values need not be disclosed).	A balanced scorecard approach has been adopted by the Board with the five (5) criteria being; Growth or Projects, Profitability or Cost Control, Risk Management, Compliance and Service.
iii. A discussion of the ways in which these measures affect remuneration.	The way in which each individual contributes to or impacts on the key criteria differs depending on the area of the business in which they operate and their level of seniority. These differences are reflected in the expected outcomes and performance indicators developed for each individual employee/role and satisfactory performance against these indicators is required to qualify for change in remuneration.

reasons for the change, as well as the impact of changes on remuneration.	All measures remain unchanged during the past year. he ways in which the bank seeks to link performance during a performance
	od with levels of remuneration:
	Based on the Bank's profit, the Board of Directors at their discretion declare a certain percentage of the pre-tax profit as Performance Bonus.
	The method of distribution is based at Management discretion.
	No bonus will be applicable to the employees rating with unsatisfactory performance.
	Bonus is declared as per individual employee performance. The ratings and associated bonus amount is decided by the Management committee
i. An overview of main performance metrics for bank, top-level business lines and individuals.	 Performance is measured as per pre-defined criteria and set targets at the beginning of the year. Assessment is divided in two categories: A) Business Objective B) Value based objective. BRAC Bank believes in Value based performance assessment which not only expects desired performance from the employee but also ensure that his/her value system towards organization and his/her job is also up to the mark.
	Eligibility criteria are as follows:
	 Confirmed Employees joined within 31st December of the year before the performing year. Employees joined in the performing year but confirmed within 31st October of that year.
	However, bonus will be calculated on Pro Rata Basis based on confirmation date for the rest of the calendar year.
remuneration are	A bonus pool does not arise unless a predetermined level of profit is achieved as detailed in the Profit Performance Matrix in the Remuneration Policy.
	Variable remuneration is determined by the outcome of the balanced scorecard where each of the 5 criteria is weighted according to the individual role.

Auditors' Report

to the Shareholders of BRAC Bank Limited

We have audited the accompanying consolidated financial statements of BRAC Bank Limited and its subsidiaries (together referred to as the "Group") as well as the separate financial statements of BRAC Bank Limited (the "Bank") which comprise the consolidated and separate Balance Sheets as at 31 December 2016, consolidated and separate Profit and Loss Accounts, consolidated and separate Statements of Changes in Equity and Cash Flow Statements for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements of the Group and also separate financial statements of the Bank that give a true and fair view in accordance with Bangladesh Financial Reporting Standards (BFRSs) as explained in Note 2 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements of the Group and also separate financial statements of the Bank that are free from material misstatement, whether due to fraud or error. The Banking Companies Act, 1991 and the local central bank (Bangladesh Bank) Regulations require the Management to ensure effective internal audit, internal control and risk management functions of the Bank. The Management is also required to make a self-assessment on the effectiveness of anti-fraud internal controls and report to Bangladesh Bank on instances of fraud and forgeries.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements of the Group and the separate financial statements of the Bank based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing (BSA). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements of the Group and the separate financial statements of the Bank are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements of the Group and separate financial statements of the Bank. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements of the Group and the separate financial statements of the Bank, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of consolidated financial statements of the Group and separate financial statements of the Bank that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements of the Group and the separate financial statements of the Bank.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements of the Group and also separate financial statements of the Bank give a true and fair view of the consolidated financial position of the Group and the separate financial position of the Bank as at 31 December 2016, and of its consolidated and separate financial performance and cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards (BFRS) as explained in note 2.

Report on other Legal and Regulatory Requirements

In accordance with the Companies Act, 1994, the Securities and Exchange Rules 1987, the Banking Companies Act, 1991 and the rules and regulations issued by Bangladesh Bank, we also report that:

- we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- ii. to the extent noted during the course of our audit work performed on the basis stated under the Auditor's Responsibility section in forming the above opinion on the consolidated financial statements of the Group and the separate financial statements of the Bank and considering the reports of the Management to Bangladesh Bank on anti-fraud internal controls and instances of fraud and forgeries as stated under the Management's Responsibility for the Financial Statements and Internal Control:

314 BRAC BANK LIMITED

- (a) internal audit, internal control and risk management arrangements of the Group and the Bank as disclosed in the financial statements appeared to be materially adequate;
- (b) nothing has come to our attention regarding material instances of forgery or irregularity or administrative error and exception or anything detrimental committed by employees of the Bank and its related entities;
- iii. financial statements of three subsidiaries namely, BRAC EPL Investments Limited, BRAC EPL Stock Brokerage Limited and BRAC IT Services Limited have been audited by us and another two subsidiaries namely, bKash Limited and BRAC SAAJAN Exchange Limited have been audited by Rahman Rahman Huq and Reddy Siddiqui & Kabani respectively and have been properly reflected in the consolidated financial statements.
- iv. in our opinion, proper books of account as required by law have been kept by the Group and the Bank so far as it appeared from our examination of those books and proper returns adequate for the purpose of our audit have been received from branches not visited by us;
- the consolidated balance sheet and consolidated profit and loss account of the Group and the separate balance sheet and separate profit and loss account of the Bank together with the annexed notes dealt with by the report are in agreement with the books of account and returns;
- vi. the expenditures incurred was for the purpose of the Bank's business;
- vii. the consolidated financial statements of the Group and the separate financial statements of the Bank have been drawn up in conformity with prevailing rules, regulations and accounting standards as well as related guidance issued by Bangladesh Bank;
- viii. adequate provisions have been made for advance and other assets which are in our opinion, doubtful of recovery;
- ix. the records and statements submitted by the branches have been properly maintained and consolidated in the financial statements;
- x. the information and explanations required by us have been received and found satisfactory;
- xi. we have reviewed over 80% of the risk weighted assets of the Bank and spending over 4,000 person hours; and
- xii. Capital Adequacy Ratio (CAR) as required by the Bangladesh Bank has been maintained adequately during the year.

BRAC BANK LIMITED

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2016

SECTION-ONE: CORPORATE PROFILE AND SIGNIFICANT ACCOUNTING POLICIES

1.1 BRAC Bank Limited

BRAC Bank Limited (the "Bank" or "BRAC Bank") is a scheduled commercial bank established under the Banking Companies Act, 1991 and incorporated as a public company limited by shares on 20 May, 1999 under the Companies Act, 1994 in Bangladesh. The primary objective of the Bank is to carry on all kinds of banking businesses. The Bank could not start its operations till 3 June, 2001 since the activity of the Bank was suspended by the honourable High Court of Bangladesh. Subsequently, the judgment of the High Court was set aside and dismissed by the Appellate Division of the Supreme Court on 4 June, 2001 and accordingly, the Bank started its operations from 04 July, 2001. At present the Bank has 112 (One hundred and twelve) branches, 69 SME service centers, 100 zonal offices and 448 unit offices of SME.

BRAC Bank Limited acquired 51% shares of Equity Partners Limited and Equity Partners Securities Limited on 31 July 2009. Equity Partners Limited was incorporated in Bangladesh on 19 April 2000 as a private limited company under the Companies Act 1994 and Equity Partners Securities Limited was incorporated in Bangladesh on 16 May 2000 as a private Limited company under the Companies Act 1994. Subsequently the management decided to rename Equity Partners Limited as BRAC EPL Investments Limited and Equity Partners Securities Limited as BRAC EPL Stock Brokerage Limited. In the year 2011, the Bank acquired further, 25% shares of EPL Investments Limited and 39% shares of EPL Stock Brokerage Limited. In the year 2016, the Bank acquired further, 18.57% shares of EPL Investments Limited shares. As a result, the Bank's control has increased to 94.57% of EPL Investment Limited and 90% shares of EPL Stock Brokerage Limited. BRAC Bank Limited acquired 51% shares of BRAC IT Services Limited, a private Limited company by shares under the Companies Act 1994 Incorporated 9 April 2013.

BRAC Bank limited formed bKash Limited, a private Limited company by shares under the Companies Act 1994 Incorporated on 1 March 2010. BRAC Bank limited sponsored 51% shares of the company and Money in motion ULC (a company listed in USA) holds 49% shares of bKash Limited. The bank has invested in 25% shares of BRAC Asset Management Company Limited that was incorporated in Bangladesh on 01 April 2010.

BRAC Bank Limited acquired 75%+1 share (249,992 shares out of the total share 333,333) of "Saajan Worldwide Money Transfer Limited" (SWMTL) in the UK. Bangladesh Bank has provided necessary approval of GBP 500,000 to acquire SWMTL and setting up two other new branches in Luton and Bradford, UK. As per the permission of Bangladesh Bank, SWMTL has already been renamed as "BRAC Saajan Exchange Ltd" (BSE). BRAC Bank Limited shall control and monitor all its operations as a holding company.

The registered address of the Bank is situated at Anik Tower, 220/B Tejgaon Gulshan Link Road, Tejgaon, Dhaka-1208.

BRAC Bank Limited is listed with Dhaka Stock Exchange and Chittagong Stock Exchange as a publicly traded company from 28 January 2007 and 24 January 2007 respectively.

As a fully operational commercial bank, BRAC Bank Limited focuses on pursuing unexplored market niches in the Small and Medium Enterprises business, which hitherto has remained largely untapped within the country. Significant percentage of BRAC Banks clients had no prior experience with formal banking. With the view to reaching clients, the Bank has established 69 SME service centers and 448 regional marketing unit offices offering services in the heart of rural and urban communities and employed about 3,049 business loan officers.

The Bank operates under a "triple bottom line" agenda where profit and social responsibility shake hands as it strives towards a poverty free, enlightened Bangladesh.

1.1.1 Principal Activities and Nature of operations of BRAC Bank Limited:

The principal activities of the Bank are banking and related activities such as accepting deposits, personal banking, trade financing, SME, Retail and Corporate credit, lease financing, project financing, issuing debit and credit cards, SMS banking, internet banking, phone banking, call center, remittance facilities, dealing in government securities etc. There have been no significant changes in the nature of the principal activities of the Bank during the financial year under review.

1.1.2 Off Shore Banking Unit:

The Bank commenced its off-shore banking operation after obtaining permission from Bangladesh Bank in 2010. The Off-shore Banking Unit is governed under the rules and guidelines of Bangladesh Bank. Apart from the reporting of Off shore Banking Unit with SOLO financial statements a separate Financial Statements of Off shore Banking Unit is shown in Annexure-H. The Principal activities of OBU are to provide all kinds of commercial banking services to its customers in Bangladesh.

1.1.3 Custodian Service:

The Bank obtained permission to work as a security custodian from Bangladesh Securities and Exchange Commission vide its certificate no. SC-10/2009, dated 12 November 2009 under the Securities and Exchange Commission (Securities Custodian Service) Rules 2003. Financial performance of Security Custodial Services have been separately reported in annexure I along with Bank's audited financial statements in compliance with the requirement u/s 10(2) of Security Custodial Services Rules 2003. The due certificate from external auditors has been obtained on internal control and financial statements of security custodial operations of the Bank and annexed with the financial statements.

1.2 The Bank has 5 (Five) Subsidiaries details of which are given at note from 1.2.1 to 1.2.5

1.2.1 BRAC EPL Investments Limited:

BRAC EPL Investments Limited was established to cater to the needs of the fast growing capital markets in Bangladesh. It works as a merchant bank with a full-fledged merchant banking license from the Bangladesh Securities and Exchange Commission (BSEC). The company's services comprise of lead managing Initial Public Offerings, Domestic and International Placement, Portfolio Management and Project Development and Consultancy.

1.2.2 BRAC EPL Stock Brokerage Limited:

BRAC EPL Stock Brokerage Limited was established to cater to the needs of the stock brokerage business in Bangladesh. It has corporate membership of both Dhaka Stock Exchange and Chittagong Stock Exchange.

1.2.3 bKash Limited:

bKash Limited was established to cater to introduce mobile money transfer service in Bangladesh. The Bank has obtained a license from Bangladesh Bank for rendering such service.

1.2.4 BRAC SAAJAN Exchange Limited:

BRAC Saajan exchange Limited was established to carry out remittance and exchange business from UK.

1.2.5 BRAC IT Services Limited:

BRAC IT Services Ltd. was initially founded as Documenta™ Ltd, a Digital Archiving Firm in 1999. BRAC IT Services Ltd. was then formed in April, 2013 through the merger of Documenta™ Ltd and the IT Division of BRAC Bank. It is currently performing as an IT Solution and Services company and is a subsidiary jointly owned by BRAC Bank Limited and BRAC.

2 Basis of preparation of Financial Statements:

2.1 A summary of accounting principle and policies which have been applied consistently (Unless otherwise stated), is set out below:

2.1.1 Statement of Compliance and basis of preparation

The financial statements of the Bank have been prepared in accordance with the "First Schedule (sec-38)" of the Banking Companies Act 1991 and amendment therein 2007 and 2013, BRPD Circular # 14 dated 25 June, 2003, other Bangladesh Bank Circulars, International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS) adopted by the Institute of Chartered Accountants of Bangladesh (ICAB), etc.

The Bank complied with the requirements of following regulatory and legal authorities:

- i) The Banking Companies Act, 1991
- ii) The Companies Act, 1994
- iii) Rules and Regulations Issued by Bangladesh Bank.
- iv) Bangladesh Securities and Exchange Rules 1987, Bangladesh Securities and Exchange ordinance 1969, Bangladesh Securities and Exchange Commission IPO Rules 2006.
- v) The Income Tax ordinance, 1984
- vi) The Value Added Tax Act, 1991
- vii) Dhaka Stock Exchange Limited (DSE), Chittagong Stock Exchange limited (CSE) and Central Depository Bangladesh Limited (CDBL) rules and regulations.

As such the Group and the Bank has departed from those contradictory of BFRS in order to comply with the rules and regulations of Bangladesh Bank which are disclosed below:

i) Investment in shares and securities

BAS/BFRS: As per requirements of BAS 39 Financial Instruments: Recognition and Measurement, investments in shares and securities generally fall either under "at fair value through Profit or Loss Account" or under "available for sale" where any change in fair value at the year end is taken to Profit or Loss Account or Revaluation Reserve Account respectively.

Bangladesh Bank: As per BRPD Circular no. 14 dated 25 June 2003 investments in quoted shares and unquoted shares are revalued at the year end at market price and as per book value of last audited balance sheet respectively. Provision should be made for any loss arising from diminution in value of investments (portfolio basis); otherwise investments are recognised at cost.

ii) Revaluation gain/loss on Government securities

BAS/BFRS: As per requirement of BAS 39 Financial Instruments: Recognition and Measurement, T-bills and T-bonds fall under the category of "held for trading (HFT)" and "held to maturity (HTM)" where any change in the fair value of held for trading is recognised in Profit or loss Account and amortised cost method is applicable for held to maturity using an effective interest rate.

Bangladesh Bank: According to DOS Circular no. 05 dated 26 May 2008 and subsequent clarification in DOS Circular 05 dated 28 January 2009, loss on revaluation of Government securities (T-bills/corded under RT-bonds) which are categorised as held for trading should be charged through profit or loss account, but any gain on such revaluation should be recorded under Revaluation Reserve Account. However, at the revaluation loss for that particular held for trading T-bills/T-bonds. T-bills designated as held to maturity are measured at amortised cost method but interest income/gain should be recognised through other reserve as a part of equity.

iii) Provision on loans and advance

BAS/BFRS: As per BAS 39 Financial Instruments: an entity should start the impairment assessment by considering whether objective evidence of impairment exist for financial assets that are individually significant. For financial assets which are not individually significant, the assessment can be performed on an individual or collective (portfolio) basis.

Bangladesh Bank: As per BRPD Circular no. 14 dated 23 September 2012, BRPD Circular no. 19 dated 27 December 2012, BRPD Circular no. 05 dated 29 May 2013 and BRPD Circular no. 16 dated 18 november 2014 a general provision at 0.25%-5% under different categories of unclassified (standard/SMA loans) should be maintained regardless of objective evidence of impairment. Also, specific provision for sub-standard loan, doubtful loans and losses should be provided at 20%, 50% and 100% respectively for loans and advances depending on the duration of overdue. Moreover, a general provision at 1% should be provided for all off balance sheet exposures. Such provision policies are not specifically in line with those prescribed by BAS 39.

iv) Other comprehensive income

BAS/BFRS: As per BAS 1 Presentation of Financial Statements: other comprehensive income is a component of financial statements or the elements of other comprehensive income are to be included in single comprehensive income statements.

Bangladesh Bank: Bangladesh Bank has issued financial templates for the financial statements which would be followed by all banks. The templates of financial statements issued by Bangladesh Bank do not include other comprehensive income nor are the elements of other comprehensive income allowed to be included in single other comprehensive income (OCI) statements. As such the bank does not prepare the other comprehensive income statement.

v) Financial Instruments – presentations and disclosure

In several cases Bangladesh Bank guidelines categories, recognize, measure and present financial instruments differently from those prescribed in BAS 39 Financial Instruments. As such some disclosure and presentation requirements of BFRS 7 Financial Instruments: Disclosures and BAS 32 Financial Instruments: Presentation, cannot be made in the accounts.

vi) REPO transactions

BAS/BFRS: When an entity sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or similar assets) at a fixed price on a future date (REPO or stock lending), the arrangement is accounted for a deposit, and the underlying asset continues to be recognized in the entity's financial statements. This transaction will be treated as loan and the difference between selling price and repurchase price will be treated as interest expense.

Bangladesh Bank: As per DOS Circular letter no. 6 dated 15 July 2010 and subsequent clarification in DOS circular no. 2 dated 23 January 2013, when a bank sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or a similar asset) at a fixed price on a future date (repo or stock lending), the arrangement is accounted for as a normal sales transactions and the financial assets are derecognized in the seller's book and recognized in the buyer's book.

However, as per DMD circular letter no. 7 dated 29 July 2012, non primary dealer banks are eligible to participate in the Assured Liquidity Support (ALS) programme, whereby such banks may enter collaterallised repo arrangements with Bangladesh Bank. Here the selling bank accounts for the arrangement as a loan, thereby continuing to recognise the asset.

vii) Financial guarantee

BAS/BFRS: As per BAS 39 Financial Instruments: Recognition and Measurement, financial guarantees are contracts that require an entity to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the term of debt instruments. Financial guarantee liabilities are recognized initially at their fair value, and the initial fair value in amortized over the life of the financial guarantee. The financial guarantee liability is subsequently carried at the higher of this amortized amount and the present value of any expected payment under the guarantee has become probable. Financial guarantees are prescribed to be included within other liabilities.

Bangladesh Bank: As per BRPD circular 14, dated 25 June 2003, financial guarantees such as Letter of Credit, Letter of Guarantee should be treated as off balance items. no liability is recognized for the guarantee except the cash margin.

viii) Cash and Cash equivalent

"BAS/BFRS: Cash and cash equivalents items should be reported as cash item as per BAS 7 Statement of Cash Flows.

Bangladesh Bank: Some highly liquid assets such as money at call and short notice, T-bills, prize bonds are not prescribed to be shown as cash and cash equivalents rather shown as face item in the balance sheet. However, in the cash flow statement, money at call and short notice and prize bonds are shown as cash and cash equivalents beside cash in hand, balance with Bangladesh Bank and other banks.

ix) Non banking asset

BAS/BFRS: No indication of non banking assets is found in any BFRSs.

Bangladesh Bank: As per BRPD circular no. 14, dated 25 June 2003, there must exist a face item named non banking assets.

x) Cash flow statement

BAS/BFRS: As per BAS 7 Statement of Cash Flows, Cash flow statement can be prepared either in direct method or in indirect method. The presentation is selected to present these cash flows in a manner that is most appropriate for the business or industry. The method selected is applied consistently.

Bangladesh Bank: As per BRPD 14, dated 25 June 2003, cash flow should be a mixture of direct and indirect method.

xi) Balance with Bangladesh Bank:

BAS/BFRS: Balance with Bangladesh Bank should be treated as other asset as it is not available for use in day to day operations as per BAS 7 Statement of Cash Flows.

Bangladesh Bank: Balance with Bangladesh Bank is treated as cash and cash equivalents.

xii) Presentation of intangible asset

BAS/BFRS: Intangible asset must be identified and recognized, and the disclosure must be given as per BAS 38 Intangible Assets.

Bangladesh Bank: There is no requirement for regulation of intangible assets in BRPD circular 14, dated 25 June 2003.

xiii) Off Balance Sheet items

BAS/BFRS: no requirement of disclosure for off balance sheet items in any BFRS; hence there in is no requirement of disclosure of off balance sheet items.

Bangladesh Bank: As per BRPD circular no. 14, dated 25 June 2003, off balance sheet items e.g. Letter of Credit, Letter of Guarantee, Acceptance should be disclosed separately on the face of balance sheet.

xiv) Disclosure of appropriation of profit

BAS/BFRS: There is no requirement to show appropriation of profit on the face of statement of Profit and Loss Account.

Bangladesh Bank: As per BRPD circular no. 14, dated 25 June 2003, an appropriation of profit should be disclosed on the face of profit and Loss Account.

xv) Loans and Advance Net of Provision

BAS/BFRS: Loans and advances should be presented net of provision.

Bangladesh Bank: As per BRPD circular no.14, dated 25 June 2003 provision on loans and advances are presented separately as liability and cannot be netted off against loans and advances.

[Also refer to (note 2.14) Compliance of Bangladesh Accounting Standards (BASs) and Bangladesh Financial Reporting Standards (BFRSs)]

2.1.2 Going Concern

The accompanying financial statements have been prepared on a going concern assumption that the Bank is a going concern and will continue in operation for the foreseeable future. Hence, it is assumed that the Bank has neither the intension nor the need to liquidate or curtail materially the scale of its operation. The accompanying financial statements do not include any adjustments should the Bank be unable to continue as a going concern.

2.1.3 Functional and presentation currency

These financial statements are presented in Taka, which is the Bank's functional currency. Except as indicated, figures have been rounded off to the nearest Taka.

2.1.4 Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected. The key item which involve these judgments, estimates and assumptions are discussed below:

Impairment losses on loans and advances:

In addition to the provision made for loans and advances based on the guideline of Bangladesh Bank, the bank reviews its loans and advances portfolio on a monthly basis to assess whether a further allowance for impairment should be provided in the income statement. The judgments by the management is required in the estimation of these amounts and such estimations are based on assumptions about a number of factors though actual results may differ, resulting in future changes to the provisions.

2.1.5 Materiality and aggregation

Each material item considered by management as significant has been displayed separately in the financial statements. no amounts has been set off unless the Bank has a legal right to set off the amounts and intends to settle on net basis. Income and expenses are presented on a net basis only when permitted by the relevant accounting standards.

2.1.6 Comparative information

The accounting policies have been consistently applied by the bank and are consistent with those used in the previous year. Comparative information is rearranged wherever necessary to conform with the current presentation.

2.2 Basis of Consolidation

The consolidated financial statements include the financial statements of BRAC Bank Limited and its subsidiaries BRAC EPL Investments Limited, BRAC EPL Stock Brokerage Limited, bKash Limited, BRAC Saajan Exchange Limited and BRAC IT Services Limited as those of a single economic entity.

The consolidated financial statements have been prepared in accordance with Bangladesh Accounting Standard (BAS) 27: Consolidated and Separate financial statements and Bangladesh Financial Reporting Standard (BFRS) 10: Consolidated Financial Statements. The consolidated financial statements are prepared to a common reporting year ended 31 December 2016.

Subsidiaries

Subsidiaries are all entities over which the bank has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. A parent of a subsidiary should present consolidated financial statements according to BAS-27: Consolidated and Separate financial statements and BFRS 10: Consolidated Financial Statements. The financial statements of subsidiary are included in the consolidated financial statements from the date that control effectively commences until the date that the control effectively ceases.

Inter company transactions, balances and inter group gains on transaction between group companies are eliminated.

Associates

An associate is an enterprise in which the investor has significant influence and which is neither a subsidiary nor a joint venture of the investor (BAS-28: Investments in Associates"). Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control over those policies. Investment in associate is accounted for in the financial statements under the "equity method". Under the equity method, the investment is initially recorded at cost and the carrying amount is increased or decreased to recognise the investor's share of the profits or losses of the investee after the date of acquisition. The investor's share of the investee's profit or loss is recognised in the investor's profit and loss account. Distributions received from an investee reduce the carrying amount of the investment.

2.3 Foreign Currency Translations

Monetary Items:

Foreign currency transactions are translated into equivalents Taka (Functional currency) currency at spot exchange rate at the date of transaction.

Non-monetary Items:

Assets and liabilities in foreign currencies are translated into Taka at mid rates prevailing on the balance sheet date, except bills for collection, stock of travellers cheque and import bills for which the buying rates are used on the date of transactions.

Gain and Losses:

Gains or losses arising (on monetary items) from fluctuation of exchange rates are recognised in profit and loss account.

Commitments:

Commitments for outstanding forward foreign exchange have included in the profit and loss statement, except those arising on the translation of net investment in foreign subsidiaries.

Foreign operations

The results of financial statements of the Bank whose functional currency is not Bangladesh Taka are translated into Bangladesh taka as follows:

- assets and liabilities for each statement of balance sheet have been translated at the closing rate on the date of balance sheet
- b. income and expenses for the profit and Loss account have been translated at monthly average rate.

2.4 Accounting for Provisions, Contingent Liabilities and Contingent Assets:

The Bank recognizes provisions only when it has a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate of the amount of the obligation can be made.

No provision is recognized for-

- a. Any possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Bank; or
- b. Any present obligation that arises from past events but is not recognized because-
 - * It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - * A reliable estimate of the amount of obligation cannot be made.

Such obligations are recorded as contingent liabilities. These are assessed continually and only that part of the obligation for which an outflow of resources embodying economic benefits is probable, is provided for except in the extremely rare circumstances where no reliable estimate can be made.

Contingent assets are not recognized in the financial statement since this may result in the recognition of income that may never be realized.

2.5 Taxation

Income tax on profit for the year comprises current and deferred tax and is based on the applicable tax law in Bangladesh. It is recognised in the income statement as tax expense.

2.5.1 Current Tax:

Current tax is the expected tax payable on taxable income for the year, based on tax rates and tax laws which are enacted at the reporting date, including any adjustment for tax payable in previous periods. Current tax for current and prior periods is recognised as a liability or asset to the extent that it is unpaid or refundable.

Provision for current income tax has been made @ 40% as prescribed in the Finance Act-2016 on the taxable income.

2.5.2 Deferred Tax:

The Bank accounted for deferred tax as per BAS - 12 "Income Taxes". Deferred tax is accounted for using the comprehensive tax balance sheet method. It is generated by temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax base.

Deferred tax assets, including those related to the tax effects of income tax losses and credits available to be carried forward, are recognised only to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences or unused tax losses and credits can be utilised.

Deferred tax liabilities are recognised for all taxable temporary differences. They are also recognised for taxable temporary differences arising on investments and it is probable that temporary differences will not reverse in the foreseeable future. Deferred tax assets associated with these interests are recognised only to the extent that it is probable that the temporary difference will reverse in the foreseeable future and there will be sufficient taxable profits against which to utilise the benefits of the temporary difference.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date. The measurement reflects the tax consequences that would follow from the manner in which the bank, at the reporting date, recovers or settles the carrying amount of its assets and liabilities.

2.6 Reporting period

These financial statements cover one calendar year from 01 January to 31 December 2016.

2.7 Significant Accounting Policies:

The accounting policies set out below have applied consistently to all the periods presented in these financial statements and have been applied consistently by the bank.

2.7.1 Assets and the basis of their valuation

2.7.1.1 Cash and cash equivalents

For the purpose of presentation in the cash flow statements, cash and cash equivalents includes cash in hand and cash at bank, highly liquid interest bearing investment/securities with original maturities of less than three month.

Cash flow statement is prepared in accordance with BAS-7 " Statement of Cash Flows". However cash flows from operating activities have been presented according to the format mentioned in BRPD circular 14, dated 25 June 2003.

2.7.1.2 Investments

All investments securities are initially recognized at cost, including acquisition charges associated with the investment. Premiums are amortized and discount accredited, using the effective yield method and are taken to discount income. The valuation method of Marking to Market for investments used are:

Held to Maturity

Investments which have "fixed or determinable payments' and fixed maturity that the group has the positive intent and ability to held to maturity, other than those that meet the definition of 'Held at amortized cost others' are classified as held to maturity. These investment are subsequently measured at amortized cost, less any provision for impairment in value. Amortized cost is calculated by taking into account any discount or premium in acquisition. Any gain or loss on such investments is recognized in the statement of income when the investment is derecognized or impaired as per IAS -39 " Financial Instruments: Recognition and Measurement"

Held for Trading

Investment classified in this category are acquired principally for the purpose of selling or repurchasing -in short trading or if designated as such by the management. After initial recognition, investment are measured at present value and any change in the fair value is recognized in the statement of income for the period in which it arises. Transaction costs, if any, are not added to the value of investments at initial recognition.

Revaluation

According to DOS Circular no.-05, dated 26 May 2008, DOS Circular no.-05, dated 28 January 2009, DOS Circular no.-02, dated 19 January 2012, the HFT securities are revalued once each week using Marking to Market concept and the HTM securities are amortized once a year according to Bangladesh Bank guidelines. The HTM securities are also revaluated if they are reclassified to HFT category with the Board's approval.

Value of Investments has been shown as under:

Investment Class	Initial Recognition	Measurement after Recognition	Recording of changes
Government Treasury Bills (HFT)	Cost	Marking to Market/ fair value	Loss to profit and loss a/c, gain to revaluation reserve
Government Treasury Bills (HTM)	Cost	Amortized cost	Increased or decreased in value to equity.
Government Treasury Bonds (HFT)	Cost	Marking to Market/ fair value	Loss to profit and loss a/c, gain to revaluation reserve
Government Treasury Bonds (HTM)	Cost	Amortized cost	Amortized Gain/ Loss to Revaluation reserve
Zero Coupon Bond	Cost	Amortized cost	None
Prize Bond and Other Bond	Cost	None	None
Debentures	Cost	At Cost Price	None
Un quoted Shares (ordinary)	Cost	Cost	None
Quoted shares (ordinary)	Cost	Lower of cost or market price at balance sheet date	Loss to profit and loss A/c.

Available for sales

Available for sales investments are non-derivative investments that are designated as available for sale or are not classified as another category of financial assets. Unquoted securities whose fair value cannot reliably be measured are carried at cost. All other available for sale investments are carried at fair value.

Investment in quoted securities

These securities are bought and held primarily for the purpose of selling them in future or hold for dividend income which are reported at cost. Unrealized gains are not recognized in the profit and loss statement. But required provision kept for diminution in value of investment.

Investment in unquoted securities

Investment in unlisted securities is reported at cost under cost method. Adjustment is given for any shortage of book value over cost for determining the carrying amount of investment in unlisted securities.

As per Bangladesh Bank DOS Circular # 04 dated 24 november 2011, provision for diminution in value of investment was made by netting off unrealized gain/loss of shares from market price/book value less cost price.

Besides, bank complied with Bangladesh Bank BRPD Circular 14 dated June 25, 2003 as follows, "All investment in shares and securities (both dealing and investment) should be revaluated at the year- end. The quoted shares should be valued as per market price in the stock exchange(s) and unquoted shares as per book value of last audited balance sheet. Provision should be made for any loss arising from diminution in value of investment".

Investment in subsidiary

Investment in subsidiary is accounted for under the cost method of accounting and presented in the Bank's consolidated financial statements as that of a single economic entity in accordance with the BAS 27 " Consolidated and Separate Financial Statements" and BFRS 10 "Consolidated Financial Statements".

2.7.1.3 Loans and Advances

- a. Interest on loans and advances is calculated daily on product basis but charged and accounted monthly and quarterly on accrual basis.
- b. Classification and provisioning for loans and advances is created based on the period of arrears by following Bangladesh Bank BRPD circulars no. 14, of 23 September 2012, 15 of 23 September 2012, 19 of 27 December 2012 and 05 of 29 May 2013 respectively. This is also reviewed by the management.
- c. Interest on classified loans and advances is calculated as per BRPD circular no. 27, dated August 31,2010 and recognized as income on realization as per BRPD circular no. 14 and 15, dated September 23, 2012

The classification rates are given below:

			Rates	of Provision		
ē	Business Unit	Un-clas	sified (UC)	(Classified	
Consumer		Standard	Special Mention Account (SMA)	Substandard (SS)	Doubtful (DF)	Bad Ioan (BL)
	House building and loans for professionals	2%	2%	20%	50%	100%
	Other than house building and professionals	5%	5%	20%	50%	100%
Loans	s to BHs/ MBs against share etc.	2%	2%	20%	50%	100%
Small	and medium enterprise	0.25%	0.25%	20%	50%	100%
Short	term Agri/Micro credit	2.5%	-	5%	5%	100%
All oth	ners	1%	1%	20%	50%	100%
Off Ba	alance Sheet	1%	-	-	-	-

d. Loans and advances are written off to the extent that (i) there is no realistic prospect of recovery, (ii) and against which legal cases are filed and classified as bad loss as per BRPD circular no. 02 dated 13 January 2003 and 13 dated 07 november 2013. These write off however, will not undermine/affect the claim amount against the borrower. Detailed memorandum records for all such write off accounts are meticulously maintained and followed up.

2.7.1.4 Impairment of Financial Assets

At each balance sheet date, BRAC Bank Limited assesses whether there is objective evidence that a financial asset or a group of financial assets ie, loans and advances, off balance sheet items and investments are impaired. A financial asset or groups of financial assets are impaired and impairment losses are incurred if there is objectives evidence of impairment as a result of a loss event that occur after the initial recognition of the asset up to the balance sheet date; the loss event had an impact on the estimated future cash flows of the financial assets or the group of financial assets; and a reliable estimate of the loss amount can be made.

In the event of impairment loss, the bank reviews whether a further allowance for impairment should be provided in the profit and loss statement in addition to the provision made based on Bangladesh Bank guidelines or other regulatory requirements.

2.7.1.5 Leases

Lease of assets where the group has substantially all the risks and rewards of ownership are classified as finance leases. Leases in which a significant portion of the risk and rewards of ownership are retained by another party, the lessor are classified as operation lease.

The Bank as Lessor

Amount due from lessees under finance lease are recorded as receivables at the amount of the Bank's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Bank's net investment outstanding in respect of the leases.

The Bank as Lessee

In compliance with the Bangladesh Accounting Standards (BAS) - 17 "Lease", cost of assets acquired under finance lease along with obligation there against have been accounted for as assets and liabilities respectively of the company, and the interest elements has been charged as expenses.

Assets held under finance leases are recognized as non-current assets of the Bank at their fair value at the date of commencement of the lease or lower at the present value of minimum lease payments. The corresponding liabilities to the lessor is included in the balance sheet as finance lease obligation. Lease payments are apportioned between finance charges and reduction of lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income.

2.7.1.6 Property, plant and equipment

a) Recognition and Measurement

All fixed assets are stated at cost less accumulated depreciation as per BAS 16 "Property Plant and Equipment". Land is measured at cost.

The cost of an item of property, plant and equipment is recognizes as an asset if-

It is probable that future economic benefits associated with the item will flow to the entity; and the cost of the item can be measured reliably.

The cost of the items of property, plant and equipment comprises:

- i) its purchase price, including import duties and non refundable purchase tax, after deducting trade discount and rebates
- ii) any cost directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.
- iii) the initial estimate of the cost of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as consequence of having used the item during a particular period of purpose other than to produce during that period.

Subsequent costs

Subsequent costs of enhancement of existing assets are recognised as a separate asset, only when it is probable that future economic benefits associated with the item will flow to the bank and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the profit and loss account during the financial period in which they are incurred.

b) Depreciation

Land is not depreciated. Depreciation is charged on straight-line basis. In case of acquisition of fixed assets, depreciation has been charged from the following month of acquisition, whereas no depreciation on assets disposed off has been charged from the month of disposal. Asset category wise depreciation rates are as follows:

Category of assets	BRAC Bank Limited	BRAC EPL Investments Limited	BRAC EPL Stock Brokerage Limited	bKash Limited	BRAC IT Services Limited	BRAC Saajan Exchange Limited
Furniture and fixture	10%	10%	12.5%	10%	10%	10%
Building	2.5%	5%	2%	-	-	-
Office equipment	20%	20%	20%	20%	10%	10%
IT equipment - Hardware	20%	25%	-	20%	20%	-
IT equipment - PC, Laptop, UPS, Printer and Scanner	33.33%	33.33%	25%	33.33%	33%	33.33%
IT equipment - Software	20%	33.33%	33.33%	20%	20%	20%
Motor vehicles	20%	20%	20%	20%	20%	-
Office Decoration	-	15%	15%	20%	-	10%
Air Cooler and Ceiling Fan	-	-	20%	-	20%	-
Generator and Multimedia Projector	-	-	-	-	20%	-
Server	-	-	-	-	20%	-

c) Gain or Loss on disposal of Fixed Assets:

Sale price of fixed assets are determined on the basis of fair value of the assets. Gain or loss on sale of assets are recognized in profit and loss account as per provision of BAS 16 Property plant and equipment.

d) Revaluation

The fair value of land and building is usually its market value. This value is determined by appraisal, normally undertaken by professionally qualified valuers.

The fair value of items of plant and equipment is usually their market value, determined by appraisal.

The frequency of revaluation depends upon the movements in the fair value of the items of property, plant and equipment being revalued.

Increases in the carrying amount as a result of revaluation is credited to shareholders equity under the heading of revaluation surplus. Decreases in the carrying amount as a result of revaluation is recognised as an expense. However, a revaluation decrease is charged directly against any related revaluation surplus to the extent that the decrease does not exceed the amount held in the revaluation surplus in respect of that same assets.

e) Impairment of Property, Plant and Equipment

At each balance sheet date, the bank assesses whether there is any indication that the carrying amount of the asset exceeds its recoverable amount. If any such indication exist, the bank should estimate the recoverable amount of the asset. An asset is carried at more than its recoverable amount if its carrying amount exceeds the amount to be recovered through use or sale of the asset. If this is the case, the asset is described as impaired and impairment loss is recognized as an expense in the profit and loss account unless the asset is carried at revalued amount in accordance with Bangladesh Accounting Standard (BAS) 16 property plant and equipment, in which case in any impairment loss of a revalued assets should be treated as revolution decrease under the accounting standard. no impairment loss was recognized up to the reporting period as there were no such indication existed as on balance sheet date.

2.7.1.7 Intangible assets

a. Goodwill

Goodwill that arises upon the acquisition of subsidiaries is included in intangible assets. Acquisitions of Minority interest (non-controlling interests) are accounted for as transactions with equity holders in their capacity as equity holders and therefore no goodwill is recognised as a result of such transactions. Subsequently Goodwill is measured at cost less accumulated impairment losses.

b. Software

Software acquired by the Bank is stated at cost less accumulated amortisation and accumulated impairment losses. Subsequent expenditure on software assets is capitalised only when it increases future economic benefits embodied in specific asset to which it relates. All expenditure is expensed as incurred. Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful life of the software, from the date that it is available for use since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life of software is three to five years. Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

c. License

Value of the license is recognised at cost and since it has an indefinite useful life it is not amortized. The value of the license is not measured at fair value.

2.7.1.8 Other assets

Other assets include mainly advance office rent, payment of advance income tax has not been closed yet and all other financial assets, fees and other unrealized income receivable, advance for operating and capital expenditure and stocks of stationery and stamps etc.

2.7.1.9 Inventories

Inventories are measured at lower of cost and net realisable value.

2.7.2 Liabilities

2.7.2.1 Borrowings from other banks, financial institutions and agents

Borrowings from other banks, financial institutions and agents include interest-bearing borrowings redeemable at call, on-demand and short-term deposits lodged for periods of less than 6 months. These items are brought to account at the gross value of the outstanding balance.

2.7.2.2 Deposits

Deposits include non interest-bearing current deposit redeemable at call, interest bearing on-demand and short-term deposits, savings deposit and term deposit lodged for periods from 3 months to 12 years. These items are brought to account at the gross value of the outstanding balance.

2.7.2..3 Other Liabilities

Other liabilities comprise items such as provision for loans and advances, provision for taxes, interest payable, interest suspense, accrued expenses. Other liability is recognised in the balance sheet according to the guideline of Bangladesh bank, BAS and BFRS, Income Tax ordinance-1984 and internal policies of the bank. Provisions and accrued expenses are recognized in the financial statement when the bank has a legal or constructive obligation as a result of past event, it is probable that an outflow of economic benefit will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

2.7.3 Capital and Shareholders' Equity

Capital Management

The Bank has a capital management process in place to measure, deploy and monitor its available capital and assess its adequacy. This capital management process aims to achieve four major objectives: exceed regulatory thresholds and meet longer-term internal capital targets, maintain strong credit ratings, manage capital levels commensurate with the risk profile of the Bank and provide the Bank's shareholders with acceptable returns.

Capital is managed in accordance with the Board-approved Capital Management Planning from time to time. Senior management develop the capital strategy and oversee the capital management planning of the Bank. The Bank's Finance, Treasury and Risk Management department are key in implementing the Bank's capital strategy and managing capital. Capital is managed using both regulatory capital measures and internal matrix.

2.7.3.1 Capital / Shareholders equity

a. Authorized Capital

Authorized capital is the maximum amount of share capital that the bank is authorized by its Memorandum and Articles of Association

b. Paid up share capital

Paid up share capital represents total amount of shareholder capital that has been paid in full by the ordinary shareholders. Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote at shareholders' meetings. In the event of a winding-up of the company, ordinary shareholders rank after all other shareholders and creditors and are fully entitled to any residual proceeds of liquidation.

2.7.3.2 Preference Share Capital

Preference shares are those share which give their holders an entitlement to a fixed dividend but which do not usually carry voting rights.

2.7.3.3 Share Premium

Share premium is the capital that the bank raises upon issuing shares that is in excess of the nominal value of the shares. The share premium shall be utilized in accordance with provisions of section 57 of the Companies Act, 1994 and as directed by Bangladesh Securities and Exchange Commission in this respect.

2.7.3.4 Statutory reserve

Transfer to the Statutory reserve has been maintained @ 20% of Profit before Tax in accordance with provisions of section 24 of the Banking Companies Act, 1991. This is mandatory until such reserve is equal to the paid up capital together with amount in the share premium account.

2.7.3.5 Revaluation reserve

Revaluation Reserve on Govt. Securities

Revaluation reserve represents revaluation on Treasury bond (HFT and HTM) in accordance with the DOS circular no. 05, dated 26 May 2008.

Assets Revaluation Reserve

Other reserve comprises Investment revaluation reserve and fixed assets revaluation reserve. Where carrying amount of an item of property, plant and equipment is increased as a result of valuation, the increased amount is credited directly to equity under the heading of assets revaluation reserve as per BAS 16: property, plant and equipment.

2.7.3.6 Minority (non-controlling) interest

Minority interest (non-controlling interest) in business is that portion of the profit or loss and net assets of a subsidiary attributable to equity interests that are not owned, directly or indirectly through subsidiaries, by the parent. The magnitude of the minority interest in BRAC EPL Investments Limited, BRAC EPL Stock Brokerage Limited, bkash Limited, BRAC Saajan Exchange Limited and BRAC IT Services Limited are 5.43%, 10%, 49%, 25% and 49% respectively.

2.8 Employee Benefits

2.8.1 Provident Fund (Defined Contribution Plan)

A "Defined Contribution Plan" is a post employment benefit plan under which an entity pays fixed contribution into a separate entity and will have no legal constructive obligation to pay further amounts. Provident fund benefits are given to the staff of the bank in accordance with the registered Provident fund rules. The commissioner of Income Tax, Large Tax Payers Unit, Dhaka has approved the Provident Fund as a recognized fund within the meaning of section 2(52) read with the provisions of part - B of the First Schedule of Income Tax ordinance 1984. The recognition took effect from 1st January, 2003. The fund is operated by a Board of Trustees consisting of 09 (nine) members of the bank. All confirmed employees of the bank are contributing 10% of their basic salary as subscription of the fund. The bank also contributes equal amount of the employees' contribution to the fund. Upon completion of 2 years of service length after confirmation employees are entitled to 100% of employer's contribution along with his/her own contribution. Interest earned from the investments is credited to the members' account on half yearly basis.

2.8.2 Gratuity Fund (Defined Benefit Plan)

Gratuity fund benefits are given to the staff of the bank in accordance with the approved Gratuity fund rules. National Board of Revenue has approved the Gratuity fund as a recognized Gratuity fund on 6th March 2006. The fund is operated by a Board of Trustees consisting of 8 (eight) members of the bank. Employees are entitled to Gratuity benefit after completion of minimum 05 (five) years of service in the Company. The Gratuity is calculated on the basis of last basic pay and is payable at the rate of one month's basic pay for every completed year of service. Gratuity fund is a "Defined Benefit Plan" and contribution to Gratuity Fund is measured through the result of actuarial valuation of the fund. "BRAC Bank Employee Gratuity Fund" is a funded Gratuity Fund.

2.8.3 Worker's Profit Participation Fund (WPPF)

Consistent with the industry practice and in accordance with the Banking Companies Act, 1991, no provision has been made for WPPF.

2.8.4 Other Employee Benefits

Life Insurance

The objective of the scheme is to provide death or permanent disability benefits to its confirmed employees and on their families with a sum equal to 36 times (in case of normal death) and 72 times (in case of accidental death) of the last drawn basic salary to the nominee.

Welfare Fund

The objective of the Employees' Welfare Fund is to provide regular category employees from Officer grade 1 to Senior Principal Officer of the BRAC Bank incurring severe accidents during official job, extended illness (not less than 3 months), Education for Children; Marriage of Children which costs would not be affordable by the employee and which are not covered by any other means. All regular confirmed employees of the Bank shall contribute monthly to the Fund according to the designation. The sum subscribed monthly from salaries of employees shall be credited separately in an "Employee Welfare Fund" as a liability of the Bank. There shall be at least 3 (three) members of Management Committee to manage the fund. The Managing Director and CEO of the Bank will be the chairperson of this committee and other 2 (two) members are nominated from the regular category staff.

Hospitalization Insurance

The Bank has introduced a health insurance scheme to its confirmed employees and their respective dependants at rates provided in the health insurance coverage policy.

Performance bonus

BRAC bank provides performance bonus to the eligible employees in every year. This bonus amount is being distributed among the employees based on their performance and management decision. The bonus amount is paid annually, normally by the 1st quarter of the every following year and the costs are accounted for in the period to which it relates.

Annual leave

The provision for leave fare represents the current outstanding liability to employees at the balance sheet date. Leave Fare Assistance is a non-recurring benefit for all permanent employees of the Bank who are entitled to annual leave. According to Bangladesh Bank policy all permanent employees have to avail 15 consecutive days of mandatory leave and LFA will be given in this leave period.

Subsidized Scheme - Staff Loan

Personal, House building and car loan is provided to the permanent staff at a subsidized rate. Criteria and details of types wise staff loan is given below:

Personal Loan: A permanent staff can avail personal loan taking approval from department head and head of HR subject to completed service length and performance rating.

House building Loan: A permanent staff completing 5 year of service can avail house building loan taking approval from House Building Loan Committee subject to performance rating and completed service length with BRAC Bank.

Car Loan: All confirmed staff at job grade from Principal Officer can avail staff car loan taking approval from department head and head of HR.

2.9 Revenue Recognition

Interest Income

In terms of provision of Bangladesh Accounting Standard (BAS -18 Revenue) on revenue and disclosures in the financial statements of the Bank, the interest receivable is recognized on an accruals basis. Interest on loans and advances ceases to be taken into income when such advances are classified, kept in interest suspense account. Interest on classified advances is accounted for on a realisation basis.

Investment Income

Income on investments is recognized on an accruals basis. Investment income includes interest on Treasury bills, treasury bonds, zero coupon, shares, debentures and fixed deposit with other banks.

Income on Bills purchased and discounted

Income on Bills purchased and Discounted is recognised upon realisation since there is no uncertainty as to its realization and accrued on a monthly basis.

Interest and fees receivable on credit cards

Interest and fees receivable on credit cards are recognized on an accruals basis. Interest and fees cease to be taken into income when the recovery of interest and fees is in arrear for over three months. Thereafter, interest and fees are accounted for on realisation basis.

Fees and Commission Income

The Bank earn fee's and commission from a diverse range of services provided to its customers. This include fees and commission income arising on financial and other services provided by the bank including trade finance, credit cards, debit cards, passport endorsement, visa processing, student service, loan processing, loan syndication, locker facilities and SMS banking etc. Fees and commission income arises on services rendered by the Bank are recognized on a realization basis.

Dividend income on Shares

As per BAS 18 Revenue, Dividend income from investment in shares is recognized when the Banks right to receive the dividend is established. It recognised when:

- a. It is probable that the economic benefit associated with the transaction will flow to the entity; and
- b. The amount of the revenue can be measured reliably.

Gain or loss on sale of property, plant and equipment

The gain or loss on the disposal of premises and equipment is determined as the difference between the carrying amount of the assets at the time of disposal and the proceeds of disposal, and is recognized as an item of other income in the year in which the significant risks and rewards of ownership are transferred to the buyer.

Interest Paid and other expenses

In terms of provision of the Bangladesh Accounting Standard (BAS) -1 "Presentation of Financial Statements", interest paid and other expenses are recognized on an accruals basis.

2.10 Earnings Per Share

Earnings Per Share (EPS) has been computed by dividing the basic earning by the weighted average number of ordinary Shares outstanding as at 31 December, 2016 as per Bangladesh Accounting Standard (BAS) - 33 "Earnings Per Share".

Basic earnings

This represents earnings for the year attributable to ordinary shareholders. Net profit after tax less preference dividend has been considered as fully attributable to the ordinary shareholders.

Weighted average number of ordinary shares outstanding during the year

This represents the number of ordinary shares outstanding at the beginning of the year plus the number of ordinary shares issued during the year multiplied by a time weighted factor. The time weighting factor is the number of days the specific shares are outstanding as a proportion of the total number of days in the year.

The basis of computation of number of shares is in line with the provisions of BAS 33 " Earnings per share". The logic behind this basis is, that the bonus shares are issued to the existing shareholders without any consideration, and therefore, the number of shares outstanding is increased without an increase in resources generating new earnings. In contrast, other shares were issued against consideration in cash or in kind, and accordingly there is an increase in recourses generating new earnings. Therefore, the total number of shares issued in 2016 has been multiplied by a time weighting factor which is the number of days the specific shares were outstanding as a proportion of total number of days in the period.

Diluted earnings per share

The objective of diluted earnings per share is consistent with that of basic earnings per share; that is, to provide a measure of the interest of each ordinary share in the performance of an entity taking into account dilutive potential ordinary shares outstanding during the year. In BRAC Bank Limited potential ordinary shares is in convertible subordinate Bond that may entitle their holders to ordinary shares.

2.11 Statement of Liquidity

The liquidity statement of assets and liabilities as on the reporting date has been prepared on residual maturity term as per the following basis:

 Balances with other bank and financial institutions, money at call and short notice etc are on the basis of their maturity tern.

- b) Investments are on the basis of their residual maturity term.
- c) Loans and advances are on the basis of their repayment/ maturity schedule.
- d) Fixed assets are on the basis of their useful life.
- e) Other assets are on the basis of their adjustment.
- f) Borrowing from other banks, financial institutions and agents as per their maturity/ repayment term.
- g) Deposits and other accounts are on the basis of their maturity term and behavioral past trend.
- h) Other long term liability on the basis of their maturity term.
- i) Provisions and other liabilities are on the basis of their settlement.

2.12 Dividend

Dividend on ordinary shares are recognised as a liability and deducted from retained earnings when they are approved by the shareholders in the annual general meeting.

Dividend on ordinary shares for the year that are recommended by the directors after the balance sheet date for approval of the shareholders at the Annual General Meeting are disclosed in note - 48.6 to the financial statements.

2.13 Reconciliation of inter-bank/inter-branch account

Books of accounts with regard to interbank (in Bangladesh and outside Bangladesh) are reconciled on a monthly basis and there are no material differences which may affect the financial statements significantly.

Un-reconciled entries in case of inter-branch transactions as on the reporting date are not material.

2.14 Compliance of Bangladesh Accounting Standard (BAS) and Bangladesh Financial Reporting Standard (BFRS)

Name of the standards	Ref.	Status
First-time adoption of International financial Reporting Standards	BFRS-1	Not applicable
Share-based Payment	BFRS-2	Not applicable
Business Combinations	BFRS-3	Not applicable

Agriculture	BAS-41	Not applicable
Peason for denarture of BAS / REDS:	1	

Reason for departure of BAS / BFRS:

The central Bank of Bangladesh ("Bangladesh Bank") as regulator to the Banking Industry has issued a number of circulars/directives which are not consistent with the requirements specified in the BAS/BFRS as referred above. In such cases the bank has followed the regulatory requirements specified by the Bangladesh Bank.

A number of new standards amendments to standards and interpretation are effective for annual periods beginning from 1 January 2016 or later, and have not been applied in preparing these consolidated financial statements. none of these is expected to have a significant effect on the consolidated financial statements of the Group and the Bank. Although International Accounting Standards Board (IASB) has issued a new standard (IFRS 9) along with related amendments to existing standards (IAS/BAS 32,39). The ICAB has adopted IFRS 9; however it will be applicable on and after 1 January 2018. Therefore, we are not considering possible impact for the amendment or adoption of such BAS/BFRS.

2.15 Risk Management

Risk is an inherent part of the business activities and risk management is pivotal for the sustainability of business. This era of globalization enables hefty expansion of business activities that ultimately increases competition level for organizations drastically. Financial crisis and volatility in economic growth in some developed countries set the example of imperativeness towards comprehensive risk management. Types of risk, however, vary from business to business, but preparing a risk management plan involves a conjoint process. A comprehensive risk management plan must enumerate strategies for dealing with risks specific to any business but should not be limited to those.

When it comes to banking business, risk management is in the heart of this business. Banks are to strive for a prudent risk management discipline to combat unpredictable situation. These days, it is transparent that banking organizations are in need of setting up systematic and vigilant way to monitor the activities that are major influencers of this particular business.

The standards of Risk Management as guided by the Bank for International Settlements (BIS) and particularly Basel Committee on Banking Supervision (BCBS), has been applied by bank regulators across the world. The Central Bank of Bangladesh i.e. Bangladesh Bank also issued guidelines which forms the basis of risk management of all scheduled banks in Bangladesh. The guidelines require that the banks adopt enhanced policies and procedures of risk management. The risk management of banks broadly cover 6 (Six) core risk areas of banking i.e. a. Credit Risk Management, b. Foreign Exchange Risk Management, c. Asset liability Management, d. Prevention of Money Laundering, e. Internal Control and Compliance, and f. Information & Communication Technology as specified by Bangladesh Bank.

BBL's risk management strategy is based on a clear understanding of various risks, disciplined risk assessment, measurement procedures and continuous monitoring. BBL continues to focus on improving its risk management systems not only to ensure compliance with regulatory requirements but also to ensure better risk-adjusted return and optimal capital utilization keeping in mind of the business objectives. For sound risk management, BBL manages risk in strategic layer, managerial layer, and operational layer. The assets and liabilities of BRAC Bank Limited is managed so as to minimize, to the degree prudently possible, the Bank's exposure to risk, while at the same time attempting to provide a stable and steadily increasing flow of net interest income, an attractive rate of return on an appropriate level of capital and a level of liquidity adequate to respond to the needs of depositors and borrowers and earnings enhancement opportunities. These objectives are accomplished by setting in place a planning, control and reporting process, the key objective of which is the coordinated management of the Bank's assets and liabilities, current banking laws and regulations, as well as prudent and generally acceptable banking practices.

2.15.1 Credit Risk Management

Credit risk is most simply defined as the potential that a bank borrower or counterparty will fail to meet its obligations in accordance with agreed terms and conditions. The goal of credit risk management is to maximize a bank's risk-adjusted rate of return by maintaining credit risk exposure within acceptable parameters.

Considering key elements of Credit Risk, the bank has segregated duties of the officers/ executives involved in credit related activities. Separate Division for Corporate, SME, Retail and Credit Cards are entrusted with the duties of maintaining effective relationship with Customers, marketing credit products, exploring new business opportunities, etc. For transparency in operations during the entire credit process, teams for i. Credit Approval, ii. Asset Operations, iii. Recovery Unit and Special Asset Management have been set up.

The entire process involves relationship teams of respective Asset Portfolio (Retail, SME and Corporate.) booking customer; the Credit Division conducting thorough assessment before placing for approval of the facility. Risk assessment includes borrower risk analysis, financial analysis, industry analysis, and historical performance of Customer. Post-approval, the Asset Operations Division ensures compliance of all legal formalities, completion of documentation including security of proposed facility and finally disburses the amount. The above arrangement has not only ensured segregation of duties and accountability but also helps in minimizing the risk of compromise with quality of the credit portfolio.

2.15.2 Foreign Exchange Risk Management

Foreign Exchange risk arises from fluctuation in currency prices influenced by various macro and micro economic factors. Today's financial institutions engage in activities starting from basic currency buy, sell, imports, exports and remittances to complex structured products. Within the Bank, the Treasury department is vested with the responsibility to measure and minimize the risk associated with bank's foreign currency position.

All treasury functions are clearly demarcated between treasury front office. mid office and back office. The front office is involved only in dealing activities, mid office is involved in monitoring of rate, limit etc. and the back office is responsible for all related processing functions. Treasury front and back office personnel are guided as per Bangladesh Bank core risk management guideline and their respective job description. They are barred from performing each other's job. 'Treasury Front Office', 'Mid office' and 'Treasury Back Office' has separate and independent reporting lines to ensure segregation of duties and accountability but also helps minimize the risk of compromise. The full function is operated under the foreign exchange risk management policy of the bank updated based on the latest Foreign Exchange Guideline of central bank.

Dealing room is well equipped with Reuter's dealing system, Eikon, Bloomberg, a number of FX trading platforms, voice logger etc. Counter party limit is set by the Credit Committee and monitored by mid office. Well-articulated dealers trading limit, stop-loss limit and currency wise open position limits are in place which are being monitored by Mid office. Trigger levels are set for the dealers, Chief Dealer and Head of Treasury. The entire FX transactions are carried on by a number of well trained, young and dynamic dealers ensuring all local and global regulatory compliances.

2.15.3 Asset Liability Management

Changes in market liquidity and or interest rate exposes Bank's business to the risk of loss, which may, in extreme cases, threaten the survival of the institution. Thus it is essential that the level of balance sheet risks are effectively managed, appropriate policies and procedures are established to control and limit these risks and proper resources are available for evaluating and controlling these risks. The Asset Liability Committee (ALCO) of the bank monitors Balance Sheet risk and liquidity risks of the Bank.

Asset liability Committee (ALCO) reviews the country's overall economic position, Bank's Liquidity position, ALM Ratios, Interest Rate Risk, Capital Adequacy, Deposit Advanced Growth, Cost of Deposit and yield on Advance, F.E. Gap, Market Interest Rate, Loan loss provision adequacy and deposit and lending pricing strategy.

2.15.4 Prevention of Money Laundering

In recognition of the fact that financial institutions are particularly vulnerable to be used by money launderers. BRAC Bank has established a Anti Money Laundering Policy. The purpose of the Anti Money Laundering Policy is to provide a guideline within which to comply with the laws and regulations regarding money laundering both at country and international levels and thereby to safeguard the bank from potential compliance, financial and reputational risks. KYC procedures have been set up with address verification. As apart of monitoring account transaction-the estimated transaction profile and high value transactions are being reviewed electronically. Training has been taken as a continuous process for creating/developing awareness among the officers.

2.15.5 Internal Control and Compliance

Internal Control is the mechanism to ensure smooth operations of the Bank on an ongoing basis based on compliance with applicable rules and regulations. The primary objective of Internal Control and Compliance is to help the Bank perform better and add value through use of its resources. Through Internal Control system, Bank identifies its weaknesses associated with the process and adopts appropriate measures to overcome that. It objectively examines:

- Efficiency and effectiveness of activities (performance objectives).
- · Reliability, completeness and timelines of financial and management information (information objectives).
- Compliance with applicable laws and regulations (compliance objectives).

The Bank has established an effective internal control system whose primary aim is to ensure the overall management of risks and provide reasonable assurance that the objectives set by the Bank will be met. It has been designed to develop a high level risk culture among the personnel of the Bank, establish efficient and effective operating model of the Bank, ensure reliability of internal and external information including accounting and financial information, secure the Bank's operations and assets, and comply with laws, regulatory requirements and internal policies.

The Board of Directors of BRAC Bank, through its Board Audit Committee (BAC), periodically reviews the effectiveness of Bank's internal control system covering all the material controls, including financial, operational and compliance controls and risk management activities. Board Audit Committee (BAC) also reviews the actions taken on internal control issues identified by the internal and statutory auditors and regulatory authorities. It has active oversight on the internal audit's independence, scope of work, resources and materialization of annual audit plan of Internal Control & Compliance Division.

2.15.6 Internal Audit

Internal audit function plays a crucial role in ongoing assessment and monitoring and reporting on internal control, risk management and governance in the Bank and monitors compliance with policies and standards. Internal Control and Compliance Division of the Bank carries out internal audit with a view to provide reasonable assurance on internal control and eventual achievement of organizational objectives.

BRAC Bank Limited has a strong internal audit team comprised of four units to carry out the audit activities, namely Head Office Audit, Branch Audit, SME Audit and Technology Audit. Internal audit team conducts comprehensive, spot, surprise audits in various branches, SME service centers, SME Krishi branches, SME unit offices, centralized functional units in head office and subsidiaries of BRAC Bank Limited. Internal auditors use standard approach to determine their respective work plans and actions. Various issues, observations, lapses in Bank's operations and reporting are identified and shared with the respective stakeholders on regular basis. The audit teams also monitor the development against audit observations and ensure implementation of recommendations by agreed timeline. Internal Audit works with the process reengineering team to update the processes and helps to prevent fraud and operational losses. Internal audit works closely with the Regulators and Statutory Auditor to ensure compliance with applicable rules and regulations.

The Board Audit Committee reviews the Audit, Inspection, Investigation and compliance and monitoring reports periodically.

2.15.7 Fraud and Forgery

Fraud & forgery have become very important issues in recent years. These have a major impact on our country's economy as a whole, impeding the economic development. BRAC Bank has always been very focused in controlling fraud & forgery by establishing and maintaining proper control systems.

Now a day's fraud and forgery appears in diverse form. To prevent fraud and forgery, BRAC Bank Limited established a department namely "Investigation, Monitoring and Compliance" to deal with such kind of incidences. This wing exclusively deals with all kinds of fraud and forgery and act independently as the first contact point/ information unit where internal and external fraud and forgery incidences are escalated, investigated and reviewed. To protect the bank and its stakeholder's interest, "Investigation, Monitoring and Compliance" Unit performs thorough investigation to identify the perpetrator and the root cause of the reported incident. As a remedial course of action, preventive measures are recommended to the business/functional unit to take necessary action relating to process improvement, recovery of misappropriated amount, adjustment of the operational loss and to take appropriate action against the perpetrator. The investigation reports are also place to the Board Audit Committee for their direction and guidance. This wing also makes sure of the implementation of the recommendations as made in the investigation report by performing follow up audit quarterly. All fraud and forgery which were identified in 2016 are also duly reported to Bangladesh Bank on a quarterly basis following their prescribed format and adequate provision has been maintained in the books of accounts. Management is exerting their all-out efforts to recover the aforesaid amount.

2.15.8 Information and Communication Technology (ICT) Security

As the role of technology increases, business risks due to underlying and unidentified system vulnerabilities also increases. Existence of these risks within the business ecosystem when exploited could lead to severe financial, regulatory and brand impacts. This makes implementation of adequate security controls mandatory. BRAC bank is committed to high levels of service quality and banking security.

BRAC Bank is the pioneer in the financial sector who achieved ISO 27001 international certificate and fulfilled this regulatory mandate. ISO 27001 is the international standard for Information Security Management and formally specifies management system that is intended to bring information security under explicit management control. Accredited international certification to ISO 27001 demonstrates to existing and potential customers that our bank has defined and focus on best-practice information security processes. ISO 27001 is invaluable for monitoring, reviewing, maintaining and improving information security management system and will give stakeholders greater confidence in the way they interact with our business.

This is just one of a number of initiatives that BRAC Bank has implemented to ensure our customers can be confident when banking. BRAC Bank developed its Cyber security road map and working accordingly to bring the best security solution, processes and practices. BRAC bank has also assessed its cyber security standing by 3rd party in 2016.

BRAC Bank Limited follows the guideline stated in BRPD circular no. 21, dated 20 May 2010 Guideline on ICT Security.

IT operation management covers the dynamics of technology operation management including change management, asset management, operating environment procedures management. The objective is to achieve the highest levels of technology service quality by minimum operational risk.

Physical security involves providing environmental safeguards as well as controlling physical access to equipment and data.

In order to ensure that information assets are protected against risk, there are controls over: Password control, User ID maintenance, Input control, Network security, Data encryption, Virus protection, Internet and e-mail

The Business Continuity Plan (BCP) is formulated to cover operational risks and taking into account the potential for wide area disasters, data center disasters and the recovery plan. The BCP takes into account the backup and recovery process. Keeping this into consideration this covers BCP, Disaster Recovery Plan and Backup / Restore Plan.

2.15.9 Enterprise Risk Management ("ERM"):

Enterprise Risk Management ("ERM") is a strategic business discipline that supports the achievement of an organization's objectives by addressing the full spectrum of its risks and managing the combined impact of those risks as an interrelated risk portfolio.

Enterprise Risk Management (ERM) enables the organizations to pragmatically deal with uncertainty and associated risk and opportunity thus enhancing the brand value and profitability. Enterprise risk management helps in identifying and selecting among alternative risk responses – risk avoidance, reduction, transfer, and acceptance. It helps to ensure effective reporting and compliance with laws and regulations, and avoid damage to the entity's reputation and associated consequences.

To make the ERM activity stronger and smoother, we drive and perform various activity like Enterprise Risk Associates Forum (ERAF) meeting through which all the stakeholders can raise risks from their own divisions and discuss in the meeting for proper solutions, ERMC (Enterprise Risk Management Committee) meeting which takes place on monthly basis consisting all the Divisional Heads where the high risk issues are discussed that need management attentions, RMC (Board Risk Management Committee) which takes place on bi-monthly basis consisting the few board members to provide an overview on the overall risk management framework and activities of the bank and management. Besides all these; we have established another common forum consisting of all the Heads who are involved with Risk, Control, Compliance, Governance and Security and that is; ERGF (Enterprise Risk Governance Forum). This forum acts as the single contact point for all the staff so that they can get emergency response for any query related to risk that they are unable to resolve. They get the immediate and urgent solutions of risk and hazards with the guidance of the Senior Management.

Key Risk Indicators (KRI):

To set up the Key Risk Indicators (KRI) and to monitor these KRIs of entire bank are one of the key jobs of Risk Management. Monitoring these KRIs of every department makes comfortable to assess the risk events of future. These KRIs play a very vital role in identifying and also to reduce the future unwanted events that may incur loss for the bank.

Business Continuity Plan (BCP):

The Business Continuity Plan (BCP) is another initiative that is being performed by ERM. To make the bank more robust and resilient to any type of sudden disaster; be it the natural disaster or network problem or even be it a human error, ERM prepares the BCP in such a way that the bank can resist all these types of disaster and can run smoothly with very minimal disruption vis-à-vis loss. Each and every branch has its own BCP which is being prepared by ERM and there will be some BCP testing to check whether this plan is working or not as well.

Subsidiary Risk Management:

The Subsidiary Risk Management is relatively new inclusion in ERM work. ERM team tries to ensure the proper risk management development for all the subsidiaries including the risk management framework development, top risks profiling, necessary process and policy implementation and as a whole help the subsidiaries to nurture the risk management best practices.

2.16 Implementation of BASEL- III

To cope up with the international best practices and to make the bank's capital shock absorbent Guidelines on Risk Based Capital Adequacy (RBCA) for banks' (Revised regulatory capital framework in line with Basel II) was introduced from 01 January 2009 as a parallel run with BRPD circular no. 10, dated 25 November 2002 (Basel I). At the end of parallel run, Basel II regime started from 01 January 2010 and the guidelines on RBCA came fully into force with its subsequent supplements/revisions. Instructions regarding Minimum Capital Requirement (MCR), Adequate Capital and Disclosure requirement as stated in the guidelines had to be followed by all scheduled banks for the purpose of statutory compliance. According to the BRPD circular no. 9, dated 31 December 2008 and subsequent updates on BRPD circular no. 10, 12, 24, 35 dated 10 March 2010, 29 March 2010, 3 August 2010, 29 December 2010 and BRPD circular no. 8, dated 23 July 2012. Basel framework has three main components referred to as pillars:

- i. Pillar I addresses minimum capital requirement.
- ii. Pillar II elaborates the process for assessing the overall capital adequacy aligned with risk profile of a bank as well as capital growth plan.
- iii. Finally, Pillar III gives a Framework of public disclosure on the position of a bank's risk profiles, capital adequacy, and risk management system.

Basel III reforms are the response of Basel Committee on Banking Supervision (BCBS) to improve the banking sector's ability to absorb shocks arising from financial and economic stress, whatever the source, thus reducing the risk of spillover from the financial sector to the real economy. "Basel III: A global regulatory framework for more resilient banks and banking systems" (known as Basel III capital regulations) in December 2010. Basel III reforms strengthen the bank-level i.e. micro prudential regulation, with the intention to raise the resilience of individual banking institutions in periods of stress. Besides, the reforms have a macro prudential focus also, addressing system wide risks, which can build up across the banking sector, as well as the pro-cyclical amplification of these risks over time. These new global regulatory and supervisory standards mainly addressed the following areas:

- Raise the quality and level of capital to ensure banks are better able to absorb losses on both a going concern and a gone concern basis
- Increase the risk coverage of the capital framework
- Introduce leverage ratio to serve as a backstop to the risk-based capital measure

- Raise the standards for the supervisory review process (Pillar 2) and
- Public disclosures (Pillar 3) etc

To ensure smooth transition to Basel III, appropriate transitional arrangements have been provided for meeting the minimum Basel III capital ratios, full regulatory adjustments to the components of capital etc. Consequently, Basel III capital regulations would be fully implemented as on January 1, 2019.

Basel - III is to be calculated both on separate financial statements (SOLO) basis and consolidated basis and both are submitted to Bangladesh Bank accordingly.

We have fully complied with all the directives provided by the Central bank from time to time, starting from Pillar I, II and III reporting requirements to periodic Stress Testing activity etc. Formation of Basel Steering Committee chaired by the Managing Director of the bank help us to ensure supreme governance and strict regimentation at execution level.

2.17 Off Balance Sheet Items

Provision for off balance sheet items is made as per BRPD circular no. 14 of September 23, 2012.

2.18 Accounting for Changes in Accounting Estimates

BAS - 8 Accounting Policies, Changes in Accounting Estimates and Errors, states that the effect of a change in an accounting estimate is to be applied prospectively by inclusion in the current accounting period and, if relevant, in future accounting period. The carrying amount of assets, liabilities, or equity may be changed following a change in accounting estimates in the period of the change.

As per BAS - 16 "Property plant and equipment" (para 61) any changes in the depreciation method shall be accounted for as a changes in an accounting estimate in accordance with BAS - 8 Accounting Policies, Changes in Accounting Estimates and Errors.

During the year, BRAC Bank Limited changed its depreciation rate for depreciating the leasehold building (Annex - D). Management takes the view that this estimate provides reliable and more relevant information because it deals more accurately with the components of Property, plant and equipment and is based on up-to-date values.

2.19 Events after reporting period

As per BAS - 10 "Events after the Reporting Period" events after the reporting period are those events, favourable and unfavorable, that occur between the end of the reporting period and the date when the financial statements are authorized for issue. Two types of event can be identified:

- (a) Adjusting events after the reporting period which provide evidence of conditions which existed at the end of the reporting period; and
- (b) Non adjusting events after the reporting period, are those that are indicative of conditions that arose after the reporting period.

2.20 Related party disclosures

Related Party A party is related to an entity if:

- (i) Directly or indirectly through one or more intermediaries, the party controls, is controlled by, or is under control with, the company; has an interest in the company, that gives it significant influence over the company; or has join control over the company;
- (ii) The party is an associate (as defined in BAS 28 Investment in Associates);
- (iii) The party is a joint venture in which the entity is a venturer (as per BAS 31 Interests in Joint Ventures);
- (iv) The party is member of the key management of personal of the entity or its parent;
- (v) The party is a close member of the family of any individual referred to in (i) or (iv);
- (vi) The party is an entity that is controlled, jointly controlled or significantly influenced by or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (iv) or (v); or
- (vii) The party is post-employment benefit plan for the benefit of employees of the entity. or of any entity that is related party of the entity.

2.21 Director's responsibilities on statement

The board of directors takes the responsibilities for the preparation and presentation of these financial statements.

2.22 Segment reporting

As per BFRS 8 "Operating Segments", an operating segment is a component of an entity:

- (i) That engages in business activities from which it may earn revenues and incur expenses (include revenues and expenses relating to transactions with other components of the same entity)
- (ii) Whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performances, and
- (iii) For which discrete financial information is available.

Bank reported its segment reporting in respect of business segment wise. Business segment comprise SME, Retail, Corporate and Treasury under Conventional banking.

We refer to note 47 for details segment report.

2.23 General:

- (a) Figures appearing in the financial statements have been rounded off to the nearest Taka.
- (b) Figures of previous year have been rearranged wherever considered necessary to conform to the current year's presentation.
- (c) The expenses, irrespective of capital or revenue nature, accrued / due but not paid have been provided for in the books of the accounts.

Section -Two: Notes to the Balance Sheet

	Particulars		2016 Taka	2015 Taka
3	Cash			
	Cash in hand (Including foreign currency) Balance with Bangladesh Bank and its agent Bank(s)	(Note: 3.1)	5,404,296,928	5,613,959,872
	(Including foreign currency)	(Note: 3.2)	10,416,488,307	10,592,881,511
			15,820,785,235	16,206,841,383
3.1	Cash in hand (Including foreign currency):			
	Local currency		5,384,527,379	5,487,799,070
	Foreign currency		19,769,549	126,160,802
			5,404,296,928	5,613,959,872
3.2	Balance with Bangladesh Bank and its agent Bank(s): (Including foreign currency)			
	Local currency		9,775,185,518	9,371,605,669
	Foreign currency		71,304,416	307,145,098
			9,846,489,934	9,678,750,767
	Sonali Bank as agent of Bangladesh Bank (local currency)		569,998,373	914,130,744
			10,416,488,307	10,592,881,511
			15,820,785,235	16,206,841,383

The above balance represents amount as per Bank book. The difference due to reconciling items with Bangladesh Bank are subsequently adjusted.

3.3 Cash Reserve Requirement (CRR):

As per section 33 of Bank Company Act, 1991 (amended upto 2013) and MPD circular no. 1 dated 23 June 2014 issued by Bangladesh bank with effect from 24 June 2014, BRAC Bank Ltd has maintained CRR of minimum 6% on daily basis and 6.5% on bi-weekly basis on weekly average total demand and time liabilities (ATDTL) of the base month which is two months back of reporting month (i.e. CRR of December 2016 is based on weekly average balance of October 2016). Reserves maintained by the bank as at 31 December 2016 are as follows:

Average total demand and time liabilities of October 2016	157,169,401,800	149,276,590,600
Daily basis:		
Required reserve (6% of ATDTL)	9,430,164,108	8,956,595,436
Actual reserve maintained (as per Bangladesh Bank statement)	9,840,825,766	9,501,040,973
Surplus/ (deficit)	410,661,658	544,445,537

Bi-weekly basis

The bank maintained excess cash reserve of Tk. 648,243,639 (Tk. 1,490,055,194 was in 2015) against minimum requirement of 6.5% (of ATDTL) on bi-weekly basis which is the summation of excess cash reserve maintained over required in the last fortnight (bi-week) of 2016.

3.4 Statutory Liquidity Ratio (SLR):

As per section 33 of the Bank Company Act, 1991 (amended upto 2013) and MPD circular no. 2 dated 10 December 2013 issued by Bangladesh bank with effect from 1 February 2014, BRAC Bank Ltd has maintained SLR of minimum 13% based on weekly average total demand and time liabilities (ATDTL) of the base month which is two months back of the reporting month (i.e. SLR of December 2016 is based on weekly average balance of October 2016). Reserve maintained by the bank as at 31 December 2016 are as follows:

Required reserve (13% of ATDTL)
Actual reserve maintained (Note: 3.5)
Surplus/ (Deficit)

3.5	A a tural	reserve		40:004

Net Deferred tax expense recognized in Profit and Loss statement during the year December 31, 2016	(58,327,875)	

9.2.3 A deferred tax asset shall be recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. Temporary difference arising from loan loss provision is recognized to the extent it is probable that taxable profit will be available in foresable future against which it can be utilized. According to the requirement of Bangladesh Bank BRPD Circular no. 11 dated 12 December 2011, Deferred tax asset can be created against "Loan Loss Provision" according to the requirement of BAS - 12 but such amount (i.e. BDT 855,183,930) should be excluded from Regulatory Capital (i.e. Tier - 1 Capital). Expected time to adjust the above loan loss provision through write off is 5 years.

17.1 Provision for Loans and Advances:

Provision for loans and advances is created for covering the bank from possible loan losses in the future. General provision is made on the outstanding amount of loans and advances without considering the classification status following the prescribed rate of Bangladesh Bank. Classified loans and advances of the banks are categorized as Sub-Standard, Doubtful and Bad/Loss as per Bangladesh Bank circulars. For loans which are classified as sub-standard, doubtful or bad/loss, specific provision is created netting off security value and interest suspense from the amount outstanding.

	On-shore	Off-shore	Total	
A. General				
Provisions held at the beginning of the year	1,266,967,354	260,676,400	1,527,643,754	1,208,316,756

Add: Exchange difference in Off-shore book	-	682,788	682,788	982,045

17.2 Provisions for Off Balance Sheet Items

Provision for off balance sheet items is made as per BRPD circular no. 14 of September 2012 for covering the bank for possible losses on off balance sheet items in the future. Details movement of Provision for Off Balance Sheet items is as follows:

	Balance at the beginning of the year	427,347,170	357,673,833
	Add: Provision made during the year	62,500,000	69,673,337
	Balance at the end of the year	489,847,170	427,347,170
17.3	Provision for diminution in value of Investments		
	Balance at the beginning of the year	358,951,693	326,035,394
	Add: Provision made during the year	(240,000,000)	40,000,000
	Less: Reversal made during the year	46,727,581	7,083,701
	Balance at the end of the year	72,224,112	358,951,693

17.4 Interest suspense

Classified loans and advances of the banks are categorized as sub-standard, doubtful and bad/loss as per guidelines of Bangladesh Bank. Interest accrued on Sub-Standard, Doubtful and Bad/Loss loans is transferred to interest suspense account and not considered as interest income. This interest is recognized as interest income when it is realized in cash by the bank.

	Balance at the beginning of the year	833,053,798	766,084,298
	Add: Amount transferred to "Interest Suspense" Account during the year	662,473,361	1,283,554,547

	Weighted average number of shares outstanding	710,358,171	709,287,321
	Earnings Per Share (EPS)	5.47	3.19

Earnings Per Share (EPS) has been calculated as per BAS-33 "Earnings Per Share".

As per BAS-33 "Earnings Per Share", the calculation of diluted earning per share does not assume conversion, exercise or other issue of potential ordinary shares that would have an anti dilutive effect on earning per share. There is an antidilutive effect on earning per share of BRAC Bank convertible bond. That is why we are not considering the diluted earning per share.

Off-shore Banking Units

NOTES TO THE FINANCIAL STATEMENTS

As at and for the year ended 31 December 2016

1.1 Status of the units

Off-shore Banking Units of BRAC Bank Limited, governed under the rules and guidelines of Bangladesh Bank. The bank commenced the operation of its Off-shore banking Unit from 2010 after obtaining necessary approval from Bangladesh Bank.

1.1.1 Principal Activities

The principal activities of the units are to provide all kinds of commercial banking services to its customers through its off-shore Banking units in Bangladesh.

2 Summary of Significant Accounting Policies and basis of preparation

2.1 A summary of the principle accounting policies which have been applied consistently (Unless otherwise stated), is set out below:

a) Basis of accounting

The Off-shore Banking Units maintain its accounting records in USD from which accounts are prepared according to the Bank Companies Act 1991, Bangladesh Accounting Standards and other applicable directives issued by Bangladesh Bank.

b) Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses, Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision of accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

c) Foreign currency transaction

Foreign currency transactions are converted into equivalent Taka using the ruling exchange rates on the dates of respective transactions as per BAS -21" The Effects of Changes in Foreign Exchange Rates". Foreign currency balances held in US Dollar are converted into Taka at weighted average rate of inter-bank market as determined by Bangladesh Bank on the closing date of every month. Balances held in foreign currencies other than US Dollar are converted into equivalent US Dollar at buying rates of New York closing of the previous day and converted into Taka equivalent.

Commitments for outstanding forward foreign exchange contracts disclosed in the financials are translated at contracted rates. Contingent liabilities/ commitments for letter of credit and letter of guarantee denominated in foreign currencies are expressed in Taka terms at the rates of exchange ruling on the balance date.

2.2 Reporting period

These financial statements cover one calendar year from 01 January to 31 December 2016.

2.3 Cash and cash equivalents

For the purpose of presentation in the Cash flow statements, cash and cash equivalents includes Cash in Hand and Cash at Bank, highly liquid interest bearing investment/Securities with original maturities of less than three month.

As per BAS 7 Statement of Cash Flows, Cash flow statement can be prepared either in direct method or in indirect method. The presentation is selected to present these cash flows in a manner that is most appropriate for the business or industry . The method selected is applied consistently. As per BRPD 14 dated 25 june 2003, cash flow should be a mixture of direct and indirect method.

2.4 Loans and Advances / investment

- a) Loans and advances of Off-shore Banking Units are stated in the balance sheet on gross basis.
- b) Interest is calculated on a daily product basis but charged and accounted for on accrual basis. Interest is not charged on bad and loss loans as per guidelines of Bangladesh Bank. Records of such interest amounts are kept in separate memorandum accounts.

2.5 Provision for liabilities

A provision is recognised in the balance sheet when the unit has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefit will be required to settle the obligations, in accordance with the BAS 37 " Provisions, Contingent Liablities and Contingent Assets".

2.6 Revenue and Expense recognition

As per the BAS - 18 "Revenue", revenue and expenses are recognized on accrual basis.

2.7 General Annexure - H

a) These financial statements are presented in Taka, which is the Bank's functional currency. Figures appearing in these financial statements have been rounded off to the nearest Taka and rearranged whereever necessary.

b) Assests and liabilities and income and expenses have been converted into Taka currency @ US \$ 1 = Taka 78.75 (Closing rate as at 31 December 2016).

DIRECTORS' REPORT

TO THE SHAREHOLDERS OF bKash LIMITED

The Board of Directors of bKash Limited is pleased to present before you the Directors' Report on the operational and financial activities of bKash together with the Audited Financial Statements for the year ended 31 December 2016 for your valued consideration, approval and adoption. The Directors' Report has been prepared in compliance with Section 184 of the Companies Act, 1994 and the requirements mandated by the regulatory bodies.

bKash, a pioneer in the Mobile Financial Services (MFS) industry of Bangladesh, has played a key role in improving access to formal financial/banking services since its inception. In a nation like Bangladesh where less than 15% of the population have access to formal banking services, bKash provided the much needed bridge to minimize the gap and expand the net of financial inclusion.

In July 2011, bKash Limited, started as a joint venture between BRAC Bank Limited, Bangladesh and Money in Motion LLC, USA. The International Finance Corporation (IFC) of The World Bank Group became an equity partner in April 2013 followed by the Bill & Melinda Gates Foundation in April 2014.

Provides employment opportunities - direct employees, agents, distributor house employees

Growing network of agents, customers and merchants.

With an extensive network of 2.62 crore customers and 0.36 crore average daily transactions, bKash is the first success story of its kind in Bangladesh. All customers can avail bKash services on any of the 5 major mobile networks. Over 68% of Bangladeshis who have access to a mobile phone can easily register and avail instant bKash services such as Cash In, Cash Out, Send Money, Airtime Recharge, Receive Remittance, Receive Disbursements, Interest Savings and Pay Merchants. In addition, the extensive network of more than 168,000 agents scattered throughout the country at roadside stalls and shops is available to avail services as well. In 2016, 43% of the customer base was active (on the basis of at least one transaction in the last 90 days) and a total of BDT 180,543 crore was recorded in transactions.

The convenience, affordability and reliability of bKash services are just few of the characteristics that contribute to bKash's significant market share of 75.5% in terms of amount of transactions in December 2016.

With an annual revenue growth rate of 40.7% in 2016 over 2015, bKash continues to grow and contribute to economic growth of the country. In 2016, there was an annual growth of 44.7% in number of agents and an additional 1000+ employees that bKash directly employs. In addition, there are also thousands of employees at the 198 active distributing houses scattered throughout the country. This promotes employment opportunities and economic growth especially in remote locations. In addition, bKash has paid to the government exchequer BDT 746.2 crore to the government exchequer which also feeds back into the economy.

In underserved segments of the market such as the one for merchants, bKash services are also used regularly by online and in store retailers. This has led to improved access to funds, convenience and growth in the merchant market especially those involved in e-commerce.

The financial statements have been prepared based on going concern concept and accrual basis of accounting in compliance with Bangladesh Accounting/Financial Reporting Standards as adopted by the Institute of Chartered Accountants of Bangladesh, Companies Act 1994 and other applicable laws of the land.

The Company made profit after tax of BDT 38.65 crore in 2016 whereas profit after tax was BDT 23.76 crore in 2015 and recorded 63% growth in profit after tax over the year 2015. The retained earnings of stood BDT 41.55 crore as of December 31, 2016. Considering the growth potential of the Company, the Board is not proposing any dividend for the year 2016 to its shareholders.

The Company's statutory auditor M/s. Rahman Rahman Huq, Chartered Accountants has completed their audit and they are eligible to be reappointed as auditor of the Company for the year 2017 as statutory auditor. The Board is pleased to recommend honorable shareholders to appoint M/s. Rahman Rahman Huq, Chartered Accountant as statutory auditor of the Company for the year 2017.

The Board would like to express appreciation to the entire bKash team. It would be remiss if we do not acknowledge the exceptional efforts of our employees who worked in partnership to meet many challenges in their daily work to achieve the goals of the Company. They were called upon to embrace some major challenges while at the same time maintaining the highest standards of service to our clients.

Finally, the Directors would like to thank our loyal clients and respected shareholders for their continued support to bKash. Taking this opportunity, the members of the Board would also like to all regulators and government agencies for their continuous support.

For and on behalf of the Board of Directors,

Chairman

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF bKash LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of bKash Limited ("the Company") which comprise the statement of financial position as at 31 December 2016, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Bangladesh Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Company as at 31 December 2016 and of its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards.

Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act 1994, we also report the following:

- a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books; and
- c) the statement of financial position and the statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account and returns.

DIRECTORS' REPORT

TO THE SHAREHOLDERS OF BRAC EPL STOCK BROKERAGE LIMITED

Dear Shareholders

The Board of Directors of BRAC EPL Stock Brokerage Limited (BESL) is pleased to present before you the Directors' Report on the operational and financial activities of BESL, together with the Audited Financial Statements for the year ended 31 December 2016 for your valued consideration, approval and adoption. The Directors' Report has been prepared in compliance with Section 184 of the Companies Act, 1994 and the requirements mandated by the regulatory bodies.

Bangladesh Economy Review 2016

Bangladesh achieved 7.11 percent GDP growth in FY2015-16. The GDP growth was 6.55 percent and 6.06 percent in FY2014-15 and FY2013-14 respectively. This is the first time that the GDP growth has surpassed the 7 percent level. However, in FY2006-07, GDP growth crossed 7 percent mark due to the rebasing of GDP series on FY2005-06 base. Despite the global financial crisis and its aftermath, along with the adverse effect emerged from domestic front, Bangladesh has been able to achieve GDP growth at more than 6 percent on an average during the last decade.

Capital Market Review 2016

The year 2016 has been brisk in terms of capital market activity, especially the second half of 2016. In the first six months of the year DSEX - the benchmark free float weighted market index - was down by 2.6% but the index ended the year with 8.8% gain. It crossed the benchmark 5,000 point in the process and ended the year at 5,036.05 points. Turnover has also picked up with increasing participation from retail investors. Daily average turnover value stood at BDT 4.9 billion for the full year while in the last two months (Nov'16 and Dec'16) it was BDT 7.7 billion.

Foreign Portfolio Investments also increased in 2016. Foreign turnover as a percentage of total market turnover stood at 7.4% in 2016, compared to 7.2% in 2015 and 4.9% in 2014. Net foreign investment in 2016 was USD 172.5 million (BDT 13.4 billion). As per the latest available data of DSE, foreign funds now own 5.5% of total market capitalization while their holding is 9.5% for top 20 large cap companies.

INDEX AND TURN OVER MOVEMENT IN 2016

BRAC EPL Stock Brokerage Ltd. (BESL)

BRAC EPL Stock Brokerage Limited (BESL) is the 3rd largest stock brokerage house in the country with dominant market share in the foreign portfolio investment execution segment. BESL also offers brokerage services to local institutions, retail clients and non-resident Bangladeshis (NRBs) through 8 branches.

Product and Services

BRAC EPL Stock Brokerage Limited offers stock brokerage services to all Bangladeshi and International Capital Market Investors. For Local segment, BESL has introduced – Save Plus, Tax Benefit and "Aparijata" – a separate wing for women.

Local market investment execution

BESL is ranked 3rd among 250 brokers in Bangladesh as of December 2016, with a market share of ~3.6%. Currently, through 8 branches and 103 employees, the Firm serves around 26,000 local clients and 50 foreign institutional clients. In 2016, the firm

had highest market shares of ~55% in executing foreign portfolio investments and ~37% of the total block market transactions. The main focus of BESL in 2017 will be to nurture the "Retail" segment. As a part of this strategy, BESL has launched "Bull Fight" campaign in collaboration with BRAC Bank Limited through which new segments will be tapped using the skilled sales force of BRAC Bank.

Investment research & advisory service

BESL pioneered the investment research industry in Bangladesh. Currently the Research Department, with 10 analysts including 2 CFA charter holders and 2 CFA charter pending members, has broader investment research and investment advisory mandates. The team has research partnership with Macquarie Securities Group –world's 8th largest sell-side equity research firm in addition to research partnership agreements with Bloomberg, Thomson Reuters, S&P Capital IQ and Fact Set. Following are some of the key achievements of the team in 2016:

- The recommended investment composite of the team generated 19.9% return in 2016, outperforming the benchmark index by ~11.1%.
- Initiated coverage on three new companies: IDLC, City Bank and Berger. Since publication of the equity note, these stocks have unlocked value and given significant return to investors generating 61.6%, 34.7% and 5.4% return respectively as on Feb 13, 2017
- 3. First time participated in bidding for an International Research work by Stewart Investors on "Financial Inclusion Project" and successfully won the bid after competing with Research Firms from other countries. The work, which includes analysing 30 companies across 16 countries, will generate USD 30,750 in advisory fees.
- 4. Carried out "Due Diligence" of a listed Private Commercial Bank on behalf of Islamic Corporation for the Development (ICD) for acquisition purpose, generating USD 35,000 in advisory fees.
- 5. In addition to the above, the team also generated USD 103,100 in Research and Advisory Fees from foreign investors and BDT 6.6 million from local institutional clients.

Financial Performance

BRAC EPL Stock Brokerage has managed to maintain the 3rd position among 250 brokers. On average, BESL had 3.6% market share of DSE turnover, 0.7% of CSE turnover and 3.4% of total turnover.

Operating Results

BESL net profit after tax in 2016 was BDT 95 million; increased by 20% or 16 million. Our Foreign Institutional Investment (FII) business continued to play a major role in total turnover. FII business was 55% of total turnover in 2016 compared to 43% in 2015. Net Commission income from FII business also increased by 21%. We managed to reduce the operating expenses by 0.13%.

Future Outlook of industry and BESL's position

We expect the capital market to remain stable and retail investor participation to increase throughout 2017. We are observing record low rates in the banking sector as lending rates have now come down to single digit. As interest rates continue to remain low and government savings tool are also expected to lower the rates, alternate investment opportunity has become less attractive to investors. This will drive investor participation in the market and help it grow. Also we don't see any political disruption in the near future. We are expecting 40-45% increased turnover volume in next three years in the market and we aim to increase our market share to 5.8% and securing our leading position in both local and foreign market.

Strategic Outlook of BESL

In this era of globalization, the business world is continuously changing and to keep pace with the changes every organization needs to ensure continuous development to achieve better competitive advantage and superior service quality over the competitors. In 2017 the key concentration areas of our management will be:

- 1. More focus on local business.
- 2. Retain market leadership.
- 3. Intact foreign business.
- 4. Product Diversification with increased sales effort.
- 5. Exploring new client segments.
- 6. Capitalizing on the brand value and group synergies.
- 7. Investing in Technology for Better Data Management & Improved Trade Management
- 8. Implementing Planned Structural Changes
- 9. Investing in our Staff

We believe that our team work shall play a vital role in reaching our target and achieve the corporate mission to be the market leader by increasing market share.

Appreciation

I would like to thank my Board colleagues for their continued support and on their behalf would like to express my heartiest thanks to entire BRAC EPL Stock Brokerage Limited team. It would be remiss if we do not acknowledge the exceptional efforts of our employees who worked in partnership to meet many challenges of a difficult year. They were called upon to embrace some major challenges while at the same time maintained the highest standards of service to our clients. They met the challenges and we thank each of them for their extraordinary performance.

Finally, on behalf of the Board, I would like to thank our loyal clients and honorable shareholders for their continued support to BESL. Taking this opportunity, the members of the Board also like to thank Securities and Exchange Commission, Dhaka & Chittagong Stock Exchanges, Central Depository Bangladesh Limited who were the partners in the growth of BESL.

For and on behalf of the Board of Directors,

Nihad Kabin

Chairperson

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF BRAC EPL STOCK BROKERAGE LIMITED

We have audited the accompanying financial statements of BRAC EPL Stock Brokerage Limited, which comprise the statement of financial position as at 31 December 2016 and the statement of profit or loss & other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Financial Reporting Standards (BFRSs) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing (BSAs). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of BRAC EPL Stock Brokerage Limited as at 31 December 2016 and its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards (BFRSs) and comply with the Companies Act 1994 and other applicable laws and regulations.

We also report that:

- a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- b) in our opinion, proper books of account as required by law have been kept by the company so far as it appeared from our examination of those books;
- c) the company's financial statements dealt with by the report are in agreement with the books of account and returns; and
- d) The expenditure incurred were for the purpose of the company's business.

DIRECTOR'S REPORT

TO THE SHAREHOLDERS OF BRAC IT SERVICES LIMITED

Dear Shareholders.

I would like to present before you that we have delivered few projects in the last year, and I believe these are contributing positively in our financials. Consequently, We have earned reasonable profit after having successive losses in last 3 years.

We have also worked on the commercialization of our products namely Enterprise Management Solution, Education Management Solution and Financial Solutions. As part of the business development initiative, we have been able to extend the contract with BRAC International and BRAC while we have signed a service contract on software development with BRAC bank Limited.

In the year 2016, we did not make any major capital investment as we are focusing to stabilize our activities and services while ensuring existing project are delivered as per agreed timeline.

Furthermore in 2016, we relied on the funding mainly from revenues received from BRAC International and BRAC Bank Limited. It is to highlight that, Shareholders equity has moved upward from Negative BDT 104 Million to Negative BDT 56 Million as a result of the BDT 48 Million profit that is made in the year 2016. Total Assets of the company increased from BDT 345 Million to BDT 397 Million.

As per law, we have deducted and deposited to the national exchequer @ BDT 1.9 Million as VAT deducted at sources from Suppliers, BDT 1.7 Million as tax deducted at source from suppliers and BDT 1.7 Million as tax deducted from employee payroll in the year 2016. In total BRAC IT Services Limited has deposited BDT 5.3 Million to the Govt treasury. BRAC IT Services Limited avails tax holiday on its income as it provides IT Enabled Services. For other income BRAC IT Services Limited has to pay 35% Tax.

During the year 2016, 4 (Four) meetings of the Board of the Directors were held on 4th April, 17th April, 30 August and 17 November. One AGM were held on 4th April 2016.

The new auditor A.Qasem & Co. Chartered Accountants, Gulshan Pink City Suits # 01-3, Level: 7, Plot # 15.Road # 103, Gulshan Avenue, Dhaka-1212 has completed their audit work for the year ended 2016.

We express our sincere gratitude for keeping confidence on us. We shall overcome the hurdles and will move forward to the next level in the coming years.

Asif Saleh

Chairman

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF BRAC IT SERVICES LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of BRAC IT Services Limited (bITS), which comprise the statement of financial position as at 31 December 2016 and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of BRAC IT Services Limited (bITS) as at 31 December 2016 and its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards and other applicable laws and regulations.

We also report that:

- a) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books.
- c) The statement of financial position and statement of comprehensive income dealt with by the report are in agreement with the books of account.

DIRECTOR'S REPORT

TO THE SHAREHOLDERS OF BRAC SAAJAN EXCHANGE LTD.

The directors present their annual report and financial statements for the year ended 31 December 2016.

Principal activities

The principal activity of the company continued to be that of money remittance.

Branches

The company operates through overseas branches in Italy and Spain.

Directors

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

Mr Kazi Mahmood Sattar Mr Selim Raza Farhad Hussain Mr Abdus Salam

Results and dividends

No ordinary dividends were paid. The directors do not recommend payment of a final dividend.

Future developments

The company is looking to expand it's agent and aggregator networks through out the UK, Italy, Spain and Portugal predominantly to remit funds to it's existing and growing networks in Bangladesh, Pakistan, India, Sri Lanka, Poland and Romania.

The Company's payment card business is going live from January 2017.

In order to compete in the dynamic payment services sector, the company has developed it's own online transaction platform. The platform went live in the latter end of 2016 and will be heavily marketed in 2017. In order to take the benefit of this technological era, the company is also developing a Smartphone app for sending money. The app is due to be rolled out in the first quarter of 2017.

In 2016, the company invested time exploring the possibility of remitting to other countries such as Eastern Europe, Africa and other Asian countries to reduce the risk and reliance of remitting solely to Bangladesh. The routes to Eastern Europe and other Asian countries are now open and the African corridor is still work in progress.

Auditor

The auditor, Reddy Siddiqui & Kabani, is deemed to be reappointed under section 487(2) of the Companies Act 2006.

Statement of directors' responsibilities

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;

 prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the company's auditor is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the company's auditor is aware of that information.

On behalf of the board

Abdus Salam

Director

AUDITOR'S REPORT TO THE SHAREHOLDERS OF BRAC SAAJAN EXCHANGE LTD.

We have audited the financial statements of BRAC SAAJAN EXCHANGE LTD. for the year ended 31 December 2016 which comprise the Statement of Comprehensive Income, the Balance Sheet, the Statement of Changes in Equity, the Statement of Cash Flows and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland".

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of thef inancial statements. Inaddition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2016 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certaindisclosuresofdirectors'remunerationspecifiedbylawarenotmade;or
- we have not received all the information and explanations we require for our audit.

DIRECTORS' REPORT

TO THE SHAREHOLDERS OF BRAC EPL INVESTMENTS LIMITED

The Board of Directors of BRAC EPL Investments Limited (BEIL) is pleased to present before you the Directors' Report on the operational and financial activities of BEIL together with the Audited Financial Statements for the year ended 31 December 2016 for your valued consideration, approval and adoption. The Directors' Report has been prepared in compliance with Section 184 of the Companies Act, 1994 and the requirements mandated by the regulatory bodies.

BRAC EPL Investments Limited

BEIL is a public limited company, which has established itself as a full-fledged investment bank and portfolio manager, in Bangladesh. Today, it is a reputed investment bank for corporate advisory services in the market, as is evident from the transactions it closed such as its role as the advisor to the Dhaka Stock Exchange Limited to demutualise the exchange and cross border M&A transactions. BEIL also successfully completed a transaction to raise USD300 million debt and equity for the largest ever infrastructure project in Bangladesh.

BEIL is strategically optimizing business growth and profitability for the year 2017. The focus of the strategies would be rationalizing costs, enhancing fee-based income, improving performance of negative equity portfolio and boosting performance for establishing a sustainable investment bank.

Products and services

1. Portfolio Management

BEIL provides two types of portfolio management services:

- Investor Discretionary Portfolio Management: Investor Discretionary Account very closely resembles a BO (Beneficial Owner) Account. Under this arrangement, full responsibility of buying or selling, taking margin and all other critical decisions rests on the investors. In this regard BEIL, provides two products, the Cap Edge and Cap Cash.
- Manager Discretionary Portfolio Management: Under Manager Discretionary Account, the authority to take all
 pertinent decisions regarding most aspects of Portfolio Management lies with the Portfolio Managers. Most
 Merchant Banks in Bangladesh provide only Investor Discretionary Management Services, whereas BEIL is one of
 the few companies currently providing both types of services.

The fundamental difference between these two lines of business is the legal discretion or power of security selection, portfolio construction, execution timing and actual execution of trades.

Our Portfolio Management Products are:

- a. Cap Edge: Non-Discretionary Portfolio Accounts: Cap Edge is an Investor controlled account. Investors retain all the authority and power to select the items to buy and sell, and the timing of trade while the portfolio managers assist them with trade execution and continuous advice. Under this arrangement, investors pay management fee and brokerage commissions for trading.
- b. Cap Cash: Non-Discretionary Portfolio Accounts: Cap Cash is a unique non-discretionary product of BEIL offering clients margin and non-margin services through individual BO Account. Clients can link their existing BO Accounts in BEIL with their existing accounts in other brokerage houses. Cap Cash is an Investor controlled account. Investors retain all the authority and power to select the items to buy and sell, and the timing of trade while the portfolio managers assist them with trade execution and continuous and expert advice.

c. Managed Cap Edge - Discretionary Portfolio Account: Managed Cap Edge is a Portfolio Manager controlled account. Managers retain all the authority and power to select the items to buy and sell, and the timing of trade while the investors can guide the managers by providing input on their return and risk preference. Under this arrangement, investors pay management fees (which are higher than those in Cap Edge) and settlement fees for trading.

2. Structured Finance Department

2016 was a transformational year for Advisory services of BEIL. The Structured Finance and Investment Banking divisions were merged to form a singular Advisory team under the Corporate and Institutional Banking Department. Under new Management and Board representation, the Department was restructured to meet cross-border transactions with global-standard financial advisory and fund raising services to international and local organizations. BEIL successfully closed Non-Convertible Coupon Bearing Subordinated Bonds of IFIC Bank Limited with an issue size of BDT 3,500.00 million qualified as Tier-II capital. The Department also completed advisory services on behalf of newly forged relationships with foreign institutional investors operating in Food and Allied, Software and IT, Engineering and Financial Service sectors based in Hong Kong, Vietnam and Japan. BEIL closed buy-side financial advisory services for an acquisition made by BRAC and BRAC International in the digital wellness sector and conducted market research of the Commercial Real Estate sector in Bangladesh.

3. Debt Arrangement

BEIL focused on originating, structuring and distributing debt in the form of syndicated loans, corporate bonds, bridge finance, mezzanine debt, asset backed securities and other debt products for the corporate houses of Bangladesh. Our scope of work ranges from structuring the optimum financial structure to arranging the fund from the prospective lenders. Most common form of debt arrangement is syndicated loan. In general, syndicated loans help to finance large ticket size loans which are not feasible to be provided bilaterally by a lender.

4. Private Equity

In recent years, alternative investment asset classes such as private equity placement have become increasingly important pools of capital in the global financial system. With our vast network of foreign and local equity investors, we advice our clients on the optimum mode of financing requirement with alternatives to debt such as private equity and venture capital investments. Such investments provide great advantage to the clients as they get to have foreign investment banks/ institutions sit at their board, and helps build their brand image.

5. Mergers & Acquisitions

BEIL provides best in-class merger & acquisition advisory solutions for its clients in buying, selling or consolidating companies across all industries and across international borders. BEIL acts as both buyers and sellers agent. BEIL would assist in finding potential sellers/ buyers, negotiating to achieve the best possible price, valuation of the company, thorough due diligence of BEIL and all related activities in bringing the transaction to closure.

6. Corporate Advisory

BEIL provides various corporate and financial advisory on project financing, corporate restructuring, financial duediligence, etc for its clients.

7. Distribution networks

We have eight offices that include a Corporate Head Office, a Registered Office and six branches in Motijheel and Gulshan in Dhaka, Chittagong, Sylhet, Chowmuhani and Comilla.

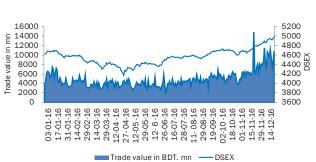

Capital Market Review 2016

Capital market of Bangladesh has passed a mixed year in 2016. The broad market gauge DSEX lost 11 percent till May 2, 2016 then gained around 21 percent for the rest of the year. Most of the companies (63.48%) posted positive return and the rest of the companies posted negative returns in 2016. Among the sectors, Textile, Miscellaneous,

Bank and Telecommunication posted double digit return.

Particulars Particulars	2015	2016	% Change
DSEX	4,629.64	5,036.05	8.8%
Market Capitalization in BDT. Mn	2,560,184.36	3,412,441.49	33.3%
Trade value in BDT. Mn	4,343.95	10,705.87	146.5%
No. of trade	96,535	187,217	93.9%
Total volume traded in mn	97,047,649	433,409,709	346.6%
No. of IPOs in DSE (Excluding MF)	13	7	-46.2%
IPO fund taken in BDT. Mn (Excluding MF)	9,774.72	5,843.00	-42.2%

Particular	% of Total Mcap
Bank	16.99%
Pharmaceuticals & Chemicals	15.22%
Telecommunication	14.15%
Power & Energy	12.64%
Food & Allied Product	8.21%
Engineering	6.29%
NBFI	5.65%
Cement	5.51%
Textile	3.68%
Miscellaneous	3.44%
Insurance	2.97%

From the above table, we see that among the major sectors, most of the sectors posted positive returns, whereas the other sectors lost slightly. In the advancing sectors, the internal breadth was positive as most of the companies of these sectors performed well.

Favorable macroeconomic indicators, supportive fiscal and monetary policy and relatively stable political situation will restore the confidence of the investors to inject money into the market in 2017. It is expected that 2017 will be a good year for capital market.

Financial Highlights for 2016

Financial year 2016 is an important year for BEIL as it has restructured itself through injecting capital of Tk.200.00 crore, which helped to reduce its interest burden effectively. It has also taken a number of steps to rationalize cost and effective and efficient management of its businesses:

 The operating expenses decreased by 34% to 74 million for the year ended 31 December 2016

Particular	Sector Return %
Textile	23.0%
Miscellaneous	19.6%
Bank	17.8%
Telecommunication	12.2%
Engineering	11.5%
Power & Energy	7.8%
Cement	6.9%
NBFI	6.8%
Insurance	4.7%
Pharmaceutical & Chem.	4.6%
Food & Allied	-4.0%

compared to 112 million in the year 31 December 2015.

- BEIL borrowed BDT 2.67 billion in short term loans and overdrafts on an average borrowing rate of 9.23% in 2016 which was 11.29% per annum in 2015.
- We had to make a provision of BDT 683 million against bad loans in 2016 which was BDT375 million in 2015. This has been done in line with regulatory requirement.

The Board would like to express my appreciation to entire the BRAC EPL Investments Limited's team. It would be remiss if we do not acknowledge the exceptional efforts of our employees who worked in partnership to meet many challenges of a difficult year. They were called upon to embrace some major challenges while at the same time maintaining the highest standards of service to our clients. They met the challenges well.

Finally, the Directors would like to thank our loyal clients and respected shareholders for their continued support to BEIL. Taking this opportunity, the members of the Board would also like to thank the Bangladesh Securities and Exchange Commission, Dhaka & Chittagong Stock Exchanges, Central Depository Bangladesh Limited who were the partners in the growth of BEIL.

For and on behalf of the Board of Directors,

Thoo Kahir Chairman

INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF BRAC EPL INVESTMENTS LTD.

We have audited the accompanying financial statements of BRAC EPL Investments Limited, which comprise the statement of financial position as at 31 December 2016 and the statement of profit or loss & other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Financial Reporting Standards (BFRSs) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing (BSAs). Those standards require that we comply with ethical requirements, plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of BRAC EPL Investments Limited as at 31 December 2016 and its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards (BFRSs) and comply with the Companies Act 1994 and other applicable laws and regulations.

We also report that:

- a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- b) in our opinion, proper books of account as required by law have been kept by the company so far as it appeared from our examination of those books;
- c) the company's financial statements dealt with by the report are in agreement with the books of account and returns; and
- d) The expenditure incurred were for the purpose of the company's business.

	The organization's:	
	culture, ethics and values	Company Philosophy, Mission, Vission, Values
	ownership and operating structure including size of the organization,location of its operations	Pattern of shareholding
	principal activities and markets	Corporate Profile and Significant Accounting Policies
	competitive landscape and market positioning (considering factors such as the threat of new competition and substitute products or services, the bargaining power of customers and suppliers, and the intensity of competitive rivalry)	Competitive intensity and our strategic response
	position within the value chain	Sustainable value creation process
	Key quantitative information	
	The number of employees, revenue and number of countries in which the organization operates highlighting, in particular, significant changes from prior periods	Human Capital and Human Resource Accounting, Core financial highlights, Five year financial summay
	Significant factors affecting the external environment and the organization's response	PESTEL analysis
	* The legitimate needs and interests of key stakeholders	Stakeholder and Materiality
	* Macro and micro economic conditions, such as economic stability, globalization, and industry trends	Global and Bangladesh review in Director's Report
	* Market forces, such as the relative strengths and weaknesses of competitors and customer demand	SWOT analysis
	* The speed and effect of technological change	PESTEL analysis- Technological
	* Societal issues, such as population and demographic changes, human rights, health, poverty, collective values and educational systems	PESTEL analysis- Social
	* Environmental challenges, such as climate change, the loss of ecosystems, and resource shortages as planetary limits are approached	PESTEL analysis- Environmental
	* The legislative and regulatory environment in which the organization operates	PESTEL analysis- Legal
	* The political environment in countries where the organization operates and other countries that may affect the ability of the organization to implement its strategy	PESTEL analysis- Political
1.2	Governance	
	An integrated report should show how does the organization's governance structure support its ability to create value in the short, medium and long term.	Corporate Governance Compliance Report, Strategy and resource allocation
	An integrated report needs to provide an insight about how such matters as the following are linked to its ability to create value:	Details provided below
	* The organization's leadership structure, including the skills and diversity	Board of Directors
	* Specific processes used to make strategic decisions and to establish and monitor the culture of the organization, including its attitude to risk and mechanisms for addressing integrity and ethical issues	Corporate Governance

	* Particular actions those charged with governance have taken to influence and monitor the strategic direction of the organization and its approach to risk management	Corporate Goernance, Risk management Committee Meetings
	* How the organization's culture, ethics and values are reflected in its use of and effects on the capitals, including its relationships with key stakeholders	Corporate Governance
	* Whether the organization is implementing governance practices that exceed legal requirements/ Key Policies	Corporate Governance
	* The responsibility those charged with governance take for promoting and enabling innovation	Corporate Governance, Management Committee, Senior Management Team
	* How remuneration and incentives are linked to value creation in the short, medium and long term, including how they are linked to the organization's use of and effects on the capitals.	Strategy and resource allocation
1.3	Stakeholder Identification / relationships	
	An integrated report should identify its key stakeholders and provide insight into the nature and quality of the organization's relationships with its key stakeholders, including how and to what extent the organization understands, takes into account and responds to their legitimate needs and interest	Stakeholder and Materiality
	Capitals	Capital Plan
	An integrated report needs to provide insight about the resources and the relationships used and affected by the organization, which are referred to collectively as the capitals and how the organization interacts with the capitals to create value over the short, medium and long term	
1.4	An integrated report need to identify the various forms of capitals which are essential for the success of its business operations. Eg: financial, manufactured, intellectual, human, social and relationship, and natural, Business model	BBL's sustainable value creation process, Our Business Model
	An integrated report need to describe the business model, including key:	
	Inputs	
	Business activities	Our business model
	Outputs	Our business model
	Outcomes	
	Identification of critical stakeholder and other	Stakeholder and Materiality
		Core Financial Highlights, A Message
	 Connection to information covered by other Content Elements, such as strategy, risks and opportunities, and performance (including KPIs and financial considerations, like cost containment and revenues) 	from Our Chairman, Interview of Managing Director & CEO, Directors' Report
	Inputs - An integrated report shows how key inputs relate to the capitals on which the organization depends, or that provide a source of differentiation for the organization, to the extent they are material to understanding the robustness and resilience of the business model.	Our business model
	Business activities	
	An integrated report describes key business activities. This can include:	
	How the organization differentiates itself in the market place	Strategy and resource allocation
	How the organization approaches the need to innovate	Our business model
	How the business model has been designed to adapt to change	Strategy and resource allocation
	Outputs - An integrated report identifies an organization's key products and services.	Our business model
	Outcomes: An integrated report describes key outcomes, including: Both internal outcomes, and external outcomes, Both positive outcomes and negative outcomes	Our business model
	When material, an integrated report discusses the contribution made to the organization's long term success by initiatives such as process improvement, employee training and relationships management.	Strategy and resource allocation
1.5	Performance	
	An integrated report needs to explain the extent to which the organization has achieved its strategic objectives for the period and what are its outcomes in terms of effects on the capitals?	Core Financial Highlights, A Message from Our Chairman, Interview of Managing Director & CEO, Directors' Report
	An integrated report should contain qualitative and quantitative information about performance that may include matters such as:	

	Quantitative indicators with respect to targets and risks and opportunities, explaining their significance, their implications, and the methods and assumptions used in compiling them	Competitive intensity and our strategic response
	The state of key stakeholder relationships and how the organization has responded to key stakeholders' legitimate needs and interests	Stakeholder and Materiality
	The linkages between past and current performance, and between current performance and the organization's outlook.	Core Financial Highlights, A Message from Our Chairman, Interview of Managing Director & CEO, Directors' Report
	KPIs that combine financial measures with other components or narrative that explains the financial implications of significant effects on other capitals and other causal relationships may be used to demonstrate the connectivity of financial performance with performance regarding other capitals. In some cases, this may also include monetizing certain effects on the capitals.	Core Financial Highlights, Capital Plan
	Include instances where regulations have a significant effect on performance (e.g., a constraint on revenues as a result of regulatory rate setting) or the organization's non-compliance with laws or regulations may significantly affect its operations.	
1.6	Risks and opportunities	
	An integrated report should explain what are the specific risks and opportunities that affect the organization's ability to create value over the short, medium and long term, and how is the organization dealing with them?	Competitive intensity and our strategic response
	This can include identifying:	
	commonly, a mix of the two.	Risk Management Framework, Risk Management Methodology
	The organization's assessment of the likelihood that the risk or opportunity will come to fruition and the magnitude of its effect if it does.	Risk Management Framework, Risk Management Methodology
	The specific steps being taken to mitigate or manage key risks or to create value from key opportunities, including the identification of the associated strategic objectives, strategies, policies, targets and KPIs.	Risk Management Framework, Risk Management Methodology
	Risk management report (Which includes details about risk, root cause,etc.)	From the desk of Chief Risk Officer
	Response on the effectiveness of the internal controls and the board's responsisbility for the disclosures on internal controls to safeguard stakeholder interest.	Statement of Audit Committee
1.7	Strategy and resource allocation	
	An integrated report should describe it strategic direction (Where does the organ ization want to go and how does it intend to get there)	Strategy and resource allocation
	An integrated report need to identify:	
	The organization's short, medium and long term strategic objectives	Strategy and resource allocation
	The strategies it has in place, or intends to implement, to achieve those strategic	
	objectives	Strategy and resource allocation
	Objectives How the entity has positioned in the wider market	Strategy and resource allocation Value Added Statement
	How the entity has positioned in the wider market	Value Added Statement
	How the entity has positioned in the wider market How the long term strategies relate to current business model	Value Added Statement Our business model
	How the entity has positioned in the wider market How the long term strategies relate to current business model The resource allocation plans it has to implement its strategy How it will measure achievements and target outcomes for the short, medium and long term. This can include describing: The linkage between the organization's strategy and resource allocation plans, and the information covered by other Content Elements, including how its strategy and resource allocation plans: - relate to the organization's business model, and what changes to that business	Value Added Statement Our business model Strategy and resource allocation
	How the entity has positioned in the wider market How the long term strategies relate to current business model The resource allocation plans it has to implement its strategy How it will measure achievements and target outcomes for the short, medium and long term. This can include describing: The linkage between the organization's strategy and resource allocation plans, and the information covered by other Content Elements, including how its strategy and resource allocation plans: - relate to the organization's business model, and what changes to that business model might be necessary to implement chosen strategies to provide an understanding of the organization's ability to adapt to change ' - are influenced by/respond to the external environment and the identified risks and opportunities affect the capitals, and the risk management arrangements related to those capitals	Value Added Statement Our business model Strategy and resource allocation Strategy and resource allocation
	How the entity has positioned in the wider market How the long term strategies relate to current business model The resource allocation plans it has to implement its strategy How it will measure achievements and target outcomes for the short, medium and long term. This can include describing: The linkage between the organization's strategy and resource allocation plans, and the information covered by other Content Elements, including how its strategy and resource allocation plans: - relate to the organization's business model, and what changes to that business model might be necessary to implement chosen strategies to provide an understanding of the organization's ability to adapt to change ' - are influenced by/respond to the external environment and the identified risks and opportunities affect the capitals, and the risk management arrangements	Value Added Statement Our business model Strategy and resource allocation Strategy and resource allocation Strategy and resource allocation
	How the entity has positioned in the wider market How the long term strategies relate to current business model The resource allocation plans it has to implement its strategy How it will measure achievements and target outcomes for the short, medium and long term. This can include describing: The linkage between the organization's strategy and resource allocation plans, and the information covered by other Content Elements, including how its strategy and resource allocation plans: - relate to the organization's business model, and what changes to that business model might be necessary to implement chosen strategies to provide an understanding of the organization's ability to adapt to change! - are influenced by/respond to the external environment and the identified risks and opportunities affect the capitals, and the risk management arrangements related to those capitals What differentiates the organization to give it competitive advantage and enable it	Value Added Statement Our business model Strategy and resource allocation Strategy and resource allocation Strategy and resource allocation Strategy and resource allocation

	the extent to which environmental and social considerations have been embedded into th organization's strategy to give it a competitive advantage	PESTEL Analysis, Strategy and resource allocation
	Key features and findings of stakeholder engagement that were used in formulating its strategy and resource allocation plans.	Strategy and resource allocation
1.8	Outlook	
	An integrated report should explain what challenges and uncertainties is the organization likely to encounter in pursuing its strategy, and what are the potential implications for its business model and future performance?	Core Financial Highlights, A Message from Our Chairman, Interview of Managing Director & CEO, Directors' Report
	An integrated report should highlight anticipated changes over time and provides information on:	
	The organization's expectations about the external environment the organization is likely to face in the short, medium and long term	Our business model, SWOT Analysis, PESTEL Analysis
	How that will affect the organization	SWOT Analysis, PESTEL Analysis
	How the organization is currently equipped to respond to the critical challenges and uncertainties that are likely to arise. The discussion of the potential implications, including implications for future	SWOT Analysis, PESTEL Analysis
	financial performance may include:	
	The external environment, and risks and opportunities, with an analysis of how these could affect the achievement of strategic objectives	Our business model- External factors, SWOT Analysis, PESTEL Analysis
	 The availability, quality and afford-ability of capitals the organization uses or affects including how key relationships are managed and why they are important to the organization's ability to create value over time. 	BBL's sustainable value creation process
	An integrated report may also provide lead indicators, KPIs or objectives, relevant information from recognized external sources, and sensitivity analyses. If forecasts or projections are included in reporting the organization's outlook, a summary of related assumptions is useful. Comparisons of actual performance to previously identified targets further enables evaluation of the current outlook.	Directors' Report
	Disclosures about an organization's outlook in an integrated report should consider the legal or regulatory requirements to which the organization is subject.	Intergrated Report
1.9	Basis of preparation and presentation	
	An integrated report should answer the question: How does the organization determine what matters to include in the integrated report and how are such matters quantified or evaluated?	Intergrated Report
	An integrated report describes its basis of preparation and presentation, including:	
	A summary of the organization's materiality determination process	Stakeholder and Materiality
	Brief description of the process used to identify relevant matters, evaluate their importance and narrow them down to material matters	Stakeholder and Materiality
	 Identification of the role of those charged with governance and key personnel in the identification and prioritization of material matters. 	Integrated report
	A description of the reporting boundary and how it has been determined	Integrated report
	A summary of the significant frameworks and methods used to quantify or evaluate material matters	Integrated report
2	Responsibility for an integrated report	
	An integrated report should include a statement from those charged with governance that includes:	Directors' report
	An acknowledgment of their responsibility to ensure the integrity of the integrated report	Integrated report
	An acknowledgment that they have applied their collective mind to the preparation and presentation of the integrated report	Integrated report
	Their opinion or conclusion about whether the integrated report is presented in accordance with the Framework	Integrated report
3	Other Qualitative Characteristics of an Integrated Report	
	Consistency and comparability	
	The information in an integrated report should be presented:	
	On a basis that is consistent over time Using benchmark data	Directors' report

Presenting information in the fo	orm of ratios	Key operating and financial highlights
	ors commonly used by other organizations with hen standardized definitions are stipulated by an	Key operating and financial highlights
Connectivity of information		
	show a holistic picture of the combination, dencies between the factors that affect the value over time.	Building Momentum
Content elements		Core financial highlights
