

TAKE OFF

BRAC Bank Limited delivered strong performance in 2017, offsetting all the odds and volatility that characterized the country's banking sector. Riding on the momentum built in 2016, the bank continued to accelerate in its journey towards achieving long-term sustainable growth by reaping the benefits resulting from consistent investments in technology, people and processes in the larger interest of serving our customers.

Over the past two years, BRAC Bank has taken bold strides and has made strong progress towards its vision of becoming the 'Best Bank' in Bangladesh. In getting closer to this vision, the bank crossed a number of landmark milestones and received several international awards. The honors included South Asia's most recognized SAFA Award, Asiamoney's "Best Bank for SMEs" award, ICAB award, ICMAB award and ADB's 'Most Progressive Bank' award. Crossing the momentous US\$ 1 billion in market capitalization, receiving the highest credit rating of 'AA1' and being awarded with the prominent ISO 27001:2013 certification for Information Security added stronger wind beneath our wings.

During the year, BRAC Bank introduced a comprehensive women's banking solutions platform - TARA - that helps empower and realize the potential of women of our country from all walks of life. The impact of this proposition was endorsed by the 'Women's Market Champion Award' for BRAC Bank from the esteemed Global Banking Alliance for Women (GBA) based out of New York.

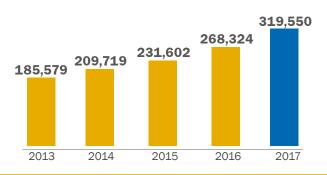

Under the many initiatives embraced across the various business divisions, the bank shifted gear in Corporate Banking implementing portfolio consolidation and investment diversification by targeting unexplored territories outside the metropolitan regions of Dhaka and Chittagong by focusing on Local and Emerging Corporates to enhance trade, OBU and cash management capabilities. Banking on the largest portfolio, the Retail division has been positioned for excellent take-off by virtue of materializing a number of initiatives. The uniqueness of BRAC Bank is that it flourishes in frontiers where others dare to tread. In continuation to the first-mover advantage achieved in our SME business, the division has spread its wings and explored newer horizons of opportunities in the untapped semi-urban and rural markets and is now exploring Agent Banking which will be launched in 2018. In addition, BRAC Bank is also strengthening its capabilities in Digital Banking, thereby focusing on progressing further and securing firm ground in the future of the banking industry.

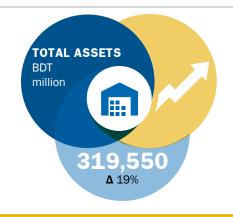

BRAC Bank is moving towards the course it set on two years ago - to unlock its full potential and take off on a journey into the realm of endless possibilities!

Forward-Looking Statements

Our public interactions frequently include spoken or written forward-looking statements. Statements of this type are based on hypothesis/ballpark figures. Statements with such considerations and future prospects are included in this document and may be included in other fillings with Securities and Exchange Commission or in other communications. Forward-looking statements may also include comments with respect to the bank's objectives, strategies to achieve those objectives, expected financial results (including those in the area of risk management) and the business outlook for the bank. Such statements are typically identified by words or phrases such as "believe", "expect", "anticipate", "intent", "estimate", "plan", "may increase", "may fluctuate" and similar such expressions of future or conditional verbs such as "will", "would", "should" and "could".

Forward-looking statements involve numerous assumptions, inherent risks and uncertainties, both general and specific, and the risk that predictions and other forward-looking statements may not prove to be accurate. Hence, readers are cautioned to not unduly rely on forward-looking statements as a number of important factors, many of which are beyond our control, could cause actual results to differ materially from estimates and intentions expressed in such forward-looking statements. These factors include, but are not limited to, volatility of interest rates, capital markets instability, changes for CRR and SLR norms, changes in lending rates, changes in corporate taxation, changes in national political and socio-economic conditions, changes in government policies, changes in demand for BRAC Bank's products and services, volatility in the international prices of essentials that influence the foreign exchange market, changes in economic conditions generally or technology spends in particular, changes in the competitive intensity in the country, changes in the global capital markets activities and changes in judicial and regulatory proceedings. The bank's ability to attract and retain key executives and engage in prudent risk management of the lending portfolio often requires stress testing that is based on sophisticated material tools and cannot solely be dependent on the existing MIS. The level of technology in the banking industry is yet to acquire that sophistication.

All the terms mentioned above in the forward-looking statements may be altered at any point of time. The bank will not stand accountable to update the amended information in the Annual Report, which may be effected in the future.

Message from the Chairman

The bank embraced a number of bold and customer-centric process overhaul initiatives, tech infrastructure upgrades and human resource up-skilling projects. In light of the emergence of digital banking, the focus on the upgrade of our IT infrastructure and core banking systems, which will continue through to 2018, is a significant aspect of the bank's transformation efforts.

Dear shareholders,

It is with great pleasure that I welcome you all to the 19th Annual General Meeting of BRAC Bank Limited. I am happy to present before you our assessment of an important year in which we took major strides towards our vision of becoming the best and most preferred financial services brand in Bangladesh. On behalf of the Board of Directors, it is my privilege to present to you yet another successful year and the audited financial statements for the year ended 31 December 2017.

At BRAC Bank, we are constantly evolving to ensure that we remain relevant and responsive to customers as an integrated financial services organisation. We continue to shift gear in order to adjust to the forces that are reshaping our industry. This transformation is necessary to create a strong, competitive and effective banking institution that will continue well into the future while creating sustainable shareholder value.

2017: A stellar year with solid all-round progress

Having crossed a number of major milestones, the year 2017 has been a stellar one for BRAC Bank. The bank's dynamic leadership has played a catalytic role in navigating the organization through the challenges of the industry and providing clear direction of the path ahead.

The bank embraced a number of bold and customercentric process overhaul initiatives, tech infrastructure upgrades and human resource up-skilling projects. In light of the emergence of digital banking, the focus on the upgrade of our IT infrastructure and core banking systems, which will continue through to 2018, is a significant aspect of the bank's transformation efforts.

With a view to enrich customer service, we remodelled branch distribution and the sales network to ensure greater synergy in the face of our positioning as a one-

stop bank catering to the most comprehensive width of financial needs of our customers. We also focused on generating new business in trade, emerging and corporate segments outside the metropolitan cities of Dhaka and Chittagong with a view to bridge the urbanrural financial divide and to ensure that the benefits of organised banking reach the population that is unbanked.

In 2017, BRAC Bank also crossed the historic USD 1 billion in market capitalization. During the year, the bank received the highest credit rating in the Bangladeshi banking sector of 'AA1' for long-term and 'ST-1' in

the short-term from the Credit Rating Association of Bangladesh (CRAB).

For the first time, BRAC Bank secured the 1st position in the 'ICAB Best Presented Annual Reports 2016 Awards' under the Banking Sector (Private) category and also under the Banking Sector (Private) category in 'South Asian Federation of Accountants (SAFA) Best Presented Annual Reports 2016 Awards'. In another achievement of 2017, BRAC Bank received the prestigious ISO 27001:2013 certification for emerging as the first local bank in the country to adopt international standards in information security.

Our financial performance: Anchored on sustainability and value-based growth

BRAC Bank registered significant growth in total assets, which increased by 16% to BDT 289,501 million in 2017 over BDT 248,605 million in 2016. Loans and advances alone contributed around 70% of the growth in total assets. The bank's deposit portfolio increased by 16% to BDT 196,224 million in 2017, over BDT 168,860 million in 2016.

Small and Medium Enterprises (SME) continued to be at the heart of our banking operations. The bank disbursed 37,213 fresh loans to SMEs, amounting to BDT 30,869 million during the year 2017. The portfolio size at the end of 2017 reached BDT 83,472 million, which is 23% higher than the previous year.

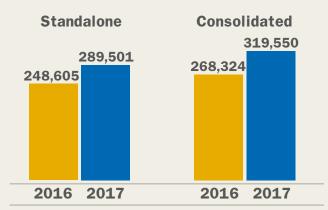

The bank's performance in other segments was also strong as the Retail segment reached a portfolio size of BDT 40,741 million in 2017. The bank re-engineered its distribution network to emerge as a single-stop financial services provider for all its corporate customers. The Corporate segment portfolio, principally due to this initiative, registered a growth of 9% over the last year.

The bank's earnings per share (EPS) rose to BDT 6.14 in 2017 from BDT 5.23 in 2016. The net asset value (NAV) per share increased to BDT 30.39 from BDT 25.07 in 2016.

On a consolidated basis, the bank's total assets increased by 19% from BDT 268,324 million to BDT 319,550 million and consolidated net profit after tax stood at BDT 5,498 million from BDT 4,076 million, which is 35% higher than

As on 31 December 2017, the bank maintained a comfortable capital to risk weighted asset ratio (CRAR) of 12.72% on standalone basis and 11.97% on consolidated basis, against the requirement of 11.25%. Tier-I and Tier-II capital, as on 31 December 2017, stood at BDT 23,534 million and BDT 3,102 million, respectively, on standalone basis and BDT 23,876 million and BDT 3,102 million, respectively, on consolidated basis. However, to support the bank's strategic growth plans for the future as well as to comply with the enhanced requirements of maintaining CRAR of 12.50% by 2019, the bank requires to grow this regulatory capital further through retaining the existing capital as and when required, as per the capital plans of the bank.

Our subsidiaries: Dynamic and growthoriented

BRAC Bank has four subsidiaries (as on 31 December 2017): bKash Limited, BRAC Saajan Exchange Limited, BRAC EPL Stock Brokerage Limited and BRAC EPL

Investments Limited. BRAC IT Services Limited (biTS) was a subsidiary of the bank in 2017 but due to a strategic decision, some shares were sold to BRAC and hence biTS is no longer a subsidiary of the bank. However, the bank still holds a significant shareholding of 49%, from its earlier holding of 51% as associate.

bKash: Ranked 23rd among the top - 50 companies in the list of 'Change the World' by Fortune magazine in 2017

bKash provides mobile financial services in Bangladesh. With a 29 million customer base across the country, the company is one of the largest rural employment generators, emphasizing on ensuring the development of those at the bottom of the economic pyramid. In 2017, the company launched yet another demand-based service, that of real-time remittance transfer to bKash wallets whereby customers can send remittance directly to the bKash wallet in real-time through partner banks.

Financial performance: Subsidiaries at a glance

All of BRAC Bank's subsidiaries witnessed positive growth in earnings during the year under assessment, over the previous year. Net profit after tax for each of the subsidiaries during 2017 vis-à-vis 2016 is as follows:

Net profit after tax (BDT in million)

Subsidiary	2017	2016	Δ (Amount)	<u>Δ</u> (%)
bKash Limited	488	387	101	26%
BRAC Saajan Exchange Limited	30	17	14	83%
BRAC EPL Stock Brokerage Limited	205	95	110	116%
BRAC EPL Investments Limited	(490)	(901)	411	46%

Deep and wide network: Ensuring an extensive and expansive presence

I am proud to mention that we have the required human resources, network and infrastructure to be the best bank in the country. BRAC Bank currently has 186 branches, 457 SME Unit Offices, 447 ATMs and 90 CDMs dispersed across Bangladesh. We are strengthening our capabilities through the Regional Operating Centres (ROC) focusing on credit and recovery operations across the country for more efficiency and faster back office support. With this network, I am convinced we can achieve greater success in the years ahead.

Managing our risks

The prime objective of risk management is to ensure that the bank takes well calculated business risks to safeguard its capital, financial resources and growth of sustainable profitability. While external stakeholders are prudently assessed before we take them on board, the internal stakeholders, i.e. bank staff also undergo a number of capacity development programs, so that they are well-equipped to perform and deliver results in a dynamic environment while upholding our values and philosophy. There is a strong management structure in place to minimize threats. Risk arising out of lapses in people, processes and systems are dealt at three levels. Since risks are ever-evolving, our risk mitigation strategies have to be dynamic to successfully establish a sound risk management practice.

Corporate social responsibility (CSR): Engaging in impactful societal uplift programs

As a member of the Global Alliance for Banking on Values, people and planet are at the heart of our operations and as a bank that originates from the philosophy of philanthropy, CSR is a part of BRAC Bank's DNA. BRAC Bank invests in CSR programs that have a long-term impact on the citizens and the society, helps realize the potential of the Bangladeshi people and empowers the communities through its holistic social intervention programs.

Our greatest competitive advantage: Our people

Our people represent our most definitive competitive advantage and we continue to strengthen our people management practices. The business units have increased their levels of staff engagement to embed their strategies, inspire commitment and constantly remind people that the expectations of customers and clients are at the centre of everything we do.

BRAC Bank has always pursued a balanced human resource policy. We are committed to building our human capital in order to attain sustainable growth. We provide a wide range of wellness initiatives and fringe benefits to motivate our employees. In 2017, we recruited 1,479 new employees, promoted 980 staff and converted 107 staff to permanent positions. With the industry's most coveted management trainee and young professional recruitment programs, the bank has infused fresh blood from the top universities of the country into the organization. Our women's employee forum, which is the largest among private banks in the country, is playing a facilitating role in ensuring an enabling workplace environment, enhanced career development opportunities and a platform for a large number of engagement activities.

The bedrock of our culture and operating model: Corporate Governance

The world in which we conduct our business has become less predictable, affecting the way we manage risk and accountability. This has significant implications for Board composition, the induction and ongoing training of Directors and the processes of decision-making.

As a values-based organization, corporate governance, compliance, ethics and transparency are the cornerstones of our business model. BRAC Bank is fully committed to adopting the best corporate governance practices. The objectives of corporate governance are to enhance stakeholder value by pursuing ethical practices in business and maintaining a high standard of disclosure and transparency. The bank has adopted best practices and standards of governance which are monitored by various committees of the Board. The Board, the executives and other team members have well-defined roles in achieving corporate goals and towards enhancing shareholder value.

Prospects

Our strategic journey will focus on the following for 2018 and beyond:

SME Banking: Develop deposit business relationships with SME customers alongside loan disbursements in line with our strategy of transforming our positioning from a one-off lender into a holistic bank.

Corporate Banking: Shift gear to provide financing to a large pool of corporate customers instead of a few big portfolio customers to minimize concentration risks.

Retail Banking: Explore more Digital Banking opportunities.

Agent Banking: BRAC Bank expects to launch Agent Banking in the country.

bKash: The company intends to launch a number of diversified products and services.

Local Corporate and Emerging Corporate: Explore untapped business outside the metropolitan cities of Dhaka and Chittagong.

BRAC Saajan: Will expand remittance operations across Europe.

BRAC Bank: Will continue to invest in technology and people development and focus further on improving service quality to ensure a delightful banking experience for our customers.

Appreciation

I believe that the progress we have made in recent years attest to the fact that we have equipped our Board and our people to anticipate and embrace constant change. I wish to thank my colleagues on the Board for their wise counsel and guidance which has supported strong achievements reported by the bank in 2017.

We have constructive relationships with regulatory authorities in Bangladesh. Where possible, we contribute positively to the development of national policy, legislation and regulation through formal submissions and regular engagement with policymakers, law-makers and regulatory authorities. Our approach is guided by the aim to promote regulatory frameworks that are practical and lucid and minimise unintended consequences.

With this, I am grateful to all the regulatory agencies of the government, in particular the Bangladesh Bank,

Bangladesh Securities and Exchange Commission, the Registrar of Joint Stock Companies and Firms, Dhaka and Chittagong stock exchange and Central Depository Bangladesh Ltd., for their continued support. I thank each and every customer of the bank for their unwavering trust and support. I congratulate the employees of the bank too for another impressive performance in 2017.

Sincerely,

Sir Fazle Hasan Abed KCMG

Chairman

'আইসিএবি বেস্ট প্রেজেন্টেড অ্যানুয়াল রিপোর্টস ২০১৬ অ্যাওয়ার্ডস'-এ বেসরকারি ব্যাংকিং সেন্টর ক্যাটাগরিতে প্রথমবারের মতো ব্র্যাক ব্যাংক প্রথম স্থান অধিকার করেছে। 'সাউথ এশিয়ান ফেডারেশন অব অ্যাকাউনটেন্টস (সাফা) বেস্ট প্রেজেন্টেড অ্যানুয়াল রিপোর্টস ২০১৬ অ্যাওয়ার্ডস'-এও বেসরকারি ব্যাংকিং সেন্টর ক্যাটাগরিতে ব্র্যাক ব্যাংক প্রথম স্থান অধিকার করেছে। ২০১৭ সালের আরেকটি অর্জন হলো, দেশের প্রথম স্থানীয় ব্যাংক হিসেবে তথ্য নিরাপত্তায় আন্তর্জাতিক মান বজায় রাখায় ব্র্যাক ব্যাংক সম্মানজনক আইএসও ২৭০০১:২০১৩ সনদপত্র লাভ করেছে।

টেকসই ও মূল্যভিত্তিক প্রবৃদ্ধি বজায় রেখে আর্থিক সাফল্য

মোট সম্পদের ক্ষেত্রে ব্র্যাক ব্যাংক লক্ষ্যণীয় প্রবৃদ্ধি অর্জন করেছে, ২০১৭ সালে এটি ১৬ শতাংশ বৃদ্ধি পেয়ে ২৮৯,৫০১ মিলিয়ন টাকায় দাঁড়িয়েছে, যা ২০১৬ সালে ছিল ২৪৮,৬০৫ মিলিয়ন টাকা। খাণ ও অ্যাডভান্স মোট সম্পদের প্রবৃদ্ধিতে প্রায় ৭১ শতাংশ অবদান রেখেছে। ব্যাংকের আমানত বেড়েছে ১৬ শতাংশ, ২০১৭ সালে হয়েছে ১৯৬,২২৪ মিলিয়ন টাকা, যা ২০১৬ সালে ছিল ১৬৮,৮৬০ মিলিয়ন টাকা।

আমাদের ব্যাংকিং কার্যক্রমে ধারাবাহিকভাবে মূল ভূমিকা পালন করে চলেছে স্কুদ্র ও মাঝারি ব্যবসাগুলো (এসএমই)। ২০১৭ সালে ব্যাংক এসএমইগুলোকে ৩৭,২১৩টি নতুন ঋণ দিয়েছে, এর মূল্যমান ৩০,৮৬৯ মিলিয়ন টাকা। ২০১১৭ সালের শেষে এর পরিমাণ হয়েছে ৮৩,৪৭২ মিলিয়ন টাকা, যা গত বছরের চেয়ে ২৩ শতাংশ বেশি।

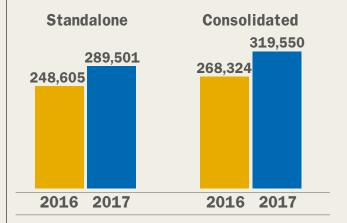

অন্যান্য ক্ষেত্রে ব্যাংকের কর্মক্ষমতাও শক্তিশালী হয়েছে, ২০১৭ সালে রিটেইল ব্যাংকিংয়ে পোর্টফোলিও লক্ষ্যমাত্রা ৪০,৭৪১ মিলিয়ন টাকায় পৌছানো গেছে এবং সকল করপোরেট গ্রাহকদের জন্য প্রথম পছন্দের আর্থিক সেবাদানকারী প্রতিষ্ঠান হিসেবে আবির্ভূত হতে ডিস্ট্রিবিউশন নেটওয়াকর্কে নতুন করে সাজানো হয়েছে। এই পদক্ষেপ গ্রহণের কারণে করপোরেট খাতের পোর্টফোলিওতে সর্বশেষ বছর ৯ শতাংশ প্রবৃদ্ধি অর্জন করা গেছে।

ব্যাংকের শেয়ারপ্রতি আয় (ইপিএস) ২০১৬ সালের ৫.২৩ টাকা থেকে বেড়ে ২০১৭ সালে ৬.১৪ টাকা হয়েছে। শেয়ারপ্রতি নেট সম্পদের মূল্যমান (এনএভি) ২০১৬ সালের ২৫.০৭ টাকা থেকে বৃদ্ধি পেয়ে ২০১৭ সালে ৩০.৩৯ টাকা হয়েছে।

কনসলিডেটেড ভিত্তিতে ব্যাংকের মোট সম্পদ ১৯ শতাংশ বৃদ্ধি পেয়ে ২৬৮,৩২৪ মিলিয়ন টাকা থেকে ৩১৯,৫৫০ মিলিয়ন টাকা হয়েছে এবং কর পরবর্তী নেট মুনাফা (পিএটি) ৪,০৭৬ মিলিয়ন টাকা থেকে বৃদ্ধি

পেয়ে ৫,৪৯৮ মিলিয়ন টাকা হয়েছে, যা আগের বছরের চেয়ে ৩৫ শতাংশ বেশি। কনসলিডেটেড পিএটি'র এই বৃদ্ধির মূল কারণ হলো, ২০১৭ সালে আমাদের অঙ্গপ্রতিষ্ঠানগুলোর কর্মনৈপুণ্যে উন্নতি। চারটি অঙ্গপ্রতিষ্ঠানের কনসলিডেটেড পিএটি পূর্বের বছরের তুলনায় ১৫৮ শতাংশ বৃদ্ধি পেয়ে ২০১৭ সালে ৬৩৬ মিলিয়ন টাকা পর্যন্ন হয়েছে।

২০১৭ সালের ৩১ ডিসেম্বর পর্যন্ত ব্যাংক, মূলধন পর্যাপ্ততা অনুপাত (সিএআর) একক ভিত্তিত ১২.৭২ শতাংশ এবং একীভূত ভিত্তিত ১১.৯৭ শতাংশ বজায় রেখেছে, যেখানে শর্ত ছিল ১১.২৫ শতাংশ। টায়ার-১ ও টায়ার-২ মূলধনের ক্ষেত্রে, ২০১৭ সালের ৩১ ডিসেম্বর পর্যন্ত, এটি ছিল একক ভিত্তিত যথাক্রমে ২৩,৫৩৪ মিলিয়ন টাকা এবং ৩,১০২ মিলিয়ন টাকা এবং কনসলিডেটেড ভিত্তিত যথাক্রমে ছিল ২৩,৮৭৩ মিলিয়ন টাকা এবং ৩,১০২ মিলিয়ন টাকা। অন্যদিকে ২০১৯ সালের মধ্যে ১২.৫০ শতাংশ হারে সিএআর বজায় রাখার শর্তের সঙ্গে সঙ্গতি রেখে ব্যাংকের কৌশলগত প্রবৃদ্ধি পরিকল্পনাকে সমর্থন জোগাতে হলে, ব্যাংককে বর্তমান মূলধন ধরে রেখে প্রয়োজন অনুসারে প্রতিষ্ঠানের মূলধনী পরিকল্পনা অনুযায়ী এই নিয়ন্ত্রক মূলধনের পরিমাণ আরও বাড়াতে হবে।

আমাদের অঙ্গপ্রতিষ্ঠানসমূহ: গতিশীল ও প্রবৃদ্ধি অভিমূখী

ব্র্যাক ব্যাংকের অধীন চারটি সহায়ক প্রতিষ্ঠান আছে (২০১৭ সালের ৩১ ডিসেম্বর পর্যন্ত): বিকাশ লিমিটেড, ব্র্যাক সাজান এক্ষচঞ্জ লিমিটেড, ব্র্যাক ইপিএল গনভেস্টমেন্টস লিমিটেড। ব্র্যাক আইটি সার্ভিসেস লিমিটেড (বিআইটিএস) ২০১৭ সাল পর্যন্ত ব্যাংকের অধীন একটি প্রতিষ্ঠান ছিল, কিন্তু কৌশলগত সিদ্ধান্তের কারণে এর কিছু শেয়ার ব্র্যাকের কাছে বিক্রি করে দেওয়া হয় এবং সেই থেকে বিআইটিএস আর ব্যাংকের অঙ্গপ্রতিষ্ঠান নয়। তবে এখনো ব্যাংক ৪৯ শতাংশ শেয়ার ধরে রেখেছে, আগে যা ছিল ৫১ শতাংশ।

বিকাশ: ২০১৭ সালে ফরচুন ম্যাগাজিনের 'চেঞ্জ দ্য ওয়ার্ন্ড' নামক তালিকার শীর্ষ ৫০টি কোম্পানির মধ্যে ২৩তম স্থান অধিকারী

বাংলাদেশে মোবাইল আর্থিক সেবা দেয় বিকাশ। বিকাশ ব্যবহারকারীর সংখ্যা বেড়ে হয়েছে ২ কোটি ৯০ লাখ। এই কোম্পানিটি দেশের গ্রামীণ এলাকায় কর্মসংস্থান সৃষ্টিতে অন্যতম বড় শক্তিতে পরিণত হয়েছে এবং অর্থনৈতিক পিরামিডের সবচ্চয়ে নিচে অবস্থান করা জনগোষ্ঠীর উনুতি নিশ্চিত করতে জোর দিচ্ছে। ২০১৭ সালে, কোম্পানিটি চাহিদাভিত্তিক

আরেকটি সেবা চালু করেছে – বিকাশ ওয়ালেটে রিয়াল-টাইম রেমিটেন্স ট্রান্সফারের সুবিধা যুক্ত হয়েছে, যার মাধ্যমে গ্রাহকেরা অংশীদার ব্যাংকের মাধ্যমে প্রকৃত সময়ে সরাসরি বিকাশ ওয়ালেটে রেমিটেন্স পাঠাতে পারবেন।

এক নজরে অঙ্গপ্রতিষ্ঠানগুলোর আর্থিক সাফল্য

গত বছরের একই সময়সীমার তুলনায় এই বছরে ব্র্যাক ব্যাংকের অধীন চারটি সহায়ক প্রতিষ্ঠানের আয়ের প্রবৃদ্ধি ইতিবাচক ছিল। ২০১৭ ও ২০১৬ সালে প্রতিটি সহায়ক প্রতিষ্ঠানের কর দেওয়ার পর নেট মুনাফা নিচে দেওয়া হলো:

বিস্তৃত নেটওয়ার্ক: ব্যাপক ও বিস্তৃত উপস্থিতি নিশ্চিত করছে

আমি গর্বসহকারে উল্লেখ করছি যে, দেশের সেরা ব্যাংক হওয়ার জন্য যে মানবসম্পদ, নেটওয়ার্ক ও অবকাঠামোর প্রয়োজন, তা আমাদের আছে। বর্তমানে বাংলাদেশজুড়ে ব্র্যাক ব্যাংকের ১৮৬টি শাখা, ৪৬০টি এসএমই ইউনিট অফিস, ৪৪০টি এটিএম এবং ৮১টি সিডিএম রয়েছে। আরও দক্ষতা এবং দ্রুত কার্যালয়ের সহায়তা পৌছানোর জন্য, সারা দেশে রিজিওনাল অপারেটিং সেন্টারস (আরওসি) মাধ্যমে খাণ ও রিকভারি কর্মকাণ্ড পরিচালনার মধ্য দিয়ে আমরা নিজেদের সক্ষমতাকে শক্তিশালী করছি। আমাদের সুবিশাল ও বৈচিত্র্যময় নেটওয়ার্ককে দিয়ে, আমি দৃঢ়ভাবে বিশ্বাস করি যে, আমরা আগামী বছরগুলোতে আরও বেশি সফলতা অর্জন করতে পারব।

আমাদের ঝুঁকি ব্যবস্থাপনা

বুঁকি ব্যবস্থাপনার মূল উদ্দেশ্যটি হলো, মূলধন, আর্থিক সম্পদ ও টেকসই মুনাফা বৃদ্ধির বিষয়টি রক্ষার জন্য ব্যাংক খুব সুচিন্তিত ব্যবসা বুঁকি গ্রহণ করবে। যেমন, এপ্টারনাল স্টেকহোন্ডারদের সাথে সম্পর্ক স্থাপনের আগে আমরা তাঁদের বিশদভাবে মূল্যায়ন করে থাকি, তেমনি অভ্যন্তরীণ স্টেকহোন্ডারদের ক্ষেত্রেও অর্থাৎ ব্যাংক কর্মীদেরও অসংখ্য সক্ষমতা উনুয়নমূলক কর্মসূচীর মধ্য দিয়ে যেতে হবে, যাতে করে তাঁরা আরও ভালো বিশ্লেষণ করতে সক্ষম হয়ে ওঠেন। বুঁকি কমানোর জন্য এখানে একটি শক্তিশালী ব্যবস্থাপনা কাঠামো আছে। মানুষ, প্রক্রিয়া ও ব্যবস্থাগত ক্রটিবিচ্যতি থেকে সৃষ্ট ঝুঁকি তিনটি পর্যায়ে মোকাবেলা করা হয়।

যেহেতু সব সময়ই নিত্যনতুন ঝুঁকি তৈরি হতে পারে, তাই আমাদের ঝুঁকি প্রশমন কৌশলগুলোকে গতিশীল হতে হবে, যাতে তা একটি নিখুঁত ঝুঁকি ব্যবস্থাপনা কর্মকাণ্ডে পরিণত হয়। ঝুঁকি হ্রাস করার জন্য, বাংলাদেশের কেন্দ্রীয় ব্যাংক প্রধান ঝুঁকি চিহ্নিত করেছে এবং সেগুলোকে ব্যাংকিং শিল্পের মূল কার্যক্রম হিসেবে সংজ্ঞায়িত করেছে। মূল ঝুঁকিগুলোর সুষ্ঠু ব্যবস্থাপনার জন্য বাংলাদেশ ব্যাংক নীতি নির্দেশিকা জারি করেছে। সেই অনুযায়ী, ব্যাক ব্যাংকে, আমরা এই নির্দেশাবলী মেনে নিয়েছি এবং ব্যাংকে যেসব মূল ঝুঁকি হতে পারে তার ব্যবস্থাপনায় আমাদের নিজস্ব কৌশলও প্রণয়ন করেছি।

করপোরেট সামাজিক দায়বদ্ধতা (সিএসআর): প্রভাববিস্তারী সিএসআর– এর সঙ্গে সংযুক্তি

গ্লোবাল অ্যালায়েন্স ফর ব্যাংকিং অন ভ্যালুজের সদস্য হিসেবে, মানুষ ও বিশ্ব আমাদের কার্যক্রমের মূল কেন্দ্রবিন্দু এবং একটি ব্যাংক হিসেবে তা জনস্বার্থের দর্শন থেকে উদ্ভূত হয়, ব্র্যাক ব্যাংকের ডিএনএর একটি অংশ হচ্ছে সিএসআর। ব্র্যাক ব্যাংক সিএসআর কর্মসূচিতে বিনিয়োগ করে, যা মানুষ ও সমাজের ওপর দীর্ঘমেয়াদে প্রভাব ফেলে। ব্যাংক সিএসআর কর্মসূচিক খ্রিপি দর্শনের (মানুষ, বিশ্ব ও মুনাফা) সঙ্গে সঙ্গতিপূর্ণ রেখেছে এবং ব্যাংকের সামাজিক হস্তক্ষেপ কর্মসূচির মধ্য দিয়ে সমাজ ও দেশের মানুষের ক্ষমতায়নে সাহায্য করে যাচ্ছে।

আমাদের সবচেয়ে মূল্যবান সম্পদ: আমাদের কর্মী

আমাদের কর্মীরা আমাদের সবচেয়ে মূল্যবান সম্পদ। আমরা আমাদের কর্মী ব্যবস্থাপনা পদ্ধতিগুলো শক্তিশালী করা অব্যাহত রেখেছি। ব্যবসা ইউনিটগুলো তাদের কৌশল সংস্থাপন করার জন্য কর্মী সংশ্লিষ্টতা বৃদ্ধি করেছে, অনুপ্রাণিত প্রতিশ্রুতি এবং ক্রমাগত কর্মীদের শ্মরণ করিয়ে দেওয়া হয় যে গ্রাহক ও ক্লায়েন্টদের প্রত্যাশাই আমাদের সকল কর্মকাণ্ডের কেন্দ্রস্থল।

ব্র্যাক ব্যাংক সবসময় একটি ব্যালেন্সড মানবসম্পদ নীতি অনুসরণ করে। টেকসই প্রবৃদ্ধি অর্জনের জন্য আমাদের মানবসম্পদ গঠনে আমরা প্রতিশ্রুতিবদ্ধ। আমাদের কর্মীদের অনুপ্রাণিত করার জন্য আমরা নানা কল্যাণকর উদ্যোগ এবং অন্যান্য সুযোগ–সুবিধা দিয়ে থাকি।

২০১৭ সালে, আমরা ১,৪৭৯ জন নতুন কমী নিয়োগ দিয়েছি, ৯৮০ জন কমীকে পদানুতি এবং ১০৭ জন কমীকে চুক্তিভিক্তিক নিয়োগ থেকে স্থায়ী পদায়ন করেছি। ইডাস্ট্রির সবচেয়ে আকর্ষণীয় ও সম্মানজনক ম্যানেজমেন্ট ট্রেইনি ও ইয়ং প্রফেশনাল নিয়োগ কর্মসূচির সঙ্গে সঙ্গে, প্রতিষ্ঠানের ঐতিহ্যকে এগিয়ে নিতে আমাদের ব্যাংক দেশের শীর্ষস্থানীয় বিশুবিদ্যালয় থেকে উচ্চশিক্ষা সম্পন্ন করা তরুণদের নিয়োগ করছে। আমাদের নারী কমী ফোরাম, যা দেশের বেসরকারি ব্যাংকগুলোর মধ্যে সবচেয়ে বড়, একটি কার্যকর কর্মপরিবেশ নিশ্চিত করতে, ক্যারিয়ারের উনুয়নমূলক সুযোগগুলো বৃদ্ধি করতে এবং সংশ্লিষ্টিতামূলক কর্মকাণ্ডের সংখ্যাবৃদ্ধি নিশ্চিত করতে সহায়ক ভূমিকা পালন করছে।

আমাদের সংস্কৃতি ও পরিচালনা মডেলের শক্তিশালী ডিণ্ডি: করপোরেট গভর্নেন্স

আমরা যে বিশ্বে আমাদের ব্যবসা পরিচালনা করি, সেখানে অনুমান করা ক্রমেই কঠিন হয়ে পড়ছে, যার কারণে আমরা যে উপায়ে ঝুঁকি এবং জবাবদিহিতা ব্যবস্থাপনা করে থাকি, তা প্রভাবিত হচ্ছে। বোর্ড গঠন এবং পরিচালকদের চলমান প্রশিক্ষণ এবং সিদ্ধান্ত গ্রহণের প্রক্রিয়ার ক্ষেত্রে এর স্পর্ম্ব প্রতিফলন আছে।

একটি মূল্যবোধ ভিত্তিক প্রতিষ্ঠান হিসেবে, করপোরেট গভর্নেন্স, নিয়মনীতি, নৈতিকতা ও স্বচ্ছতা আমাদের ব্যবসা মডেলের প্রধান অংশ। করপোরেট গভর্নেন্সের সেরা ধারা গ্রহণের জন্য ব্র্যাক ব্যাংক পুরোপুরি প্রতিশ্রুতিবদ্ধ। করপোরেট গভর্নেন্সের লক্ষ্য হলো, ব্যবসায় নৈতিক চর্চাগুলি অনুসরণ করে এবং তথ্য প্রকাশ ও স্বচ্ছতার উচ্চমান বজায় রাখার মাধ্যমে স্টেকহোন্ডারদের মানবৃদ্ধি করা। বোর্ড গভর্নেন্সের শ্রেষ্ঠ অনুশীলন এবং মান নিশ্চিত করেছে, যা ব্যাংকের বিভিন্ন কমিটি দ্বারা পর্যবেক্ষণ করা হয়। করপোরেট লক্ষ্য অর্জনে এবং শেয়ারহোন্ডারদের মানবৃদ্ধিতে বোর্ড, নির্বাহীরা ও অন্যান্য দলের সদস্যদের সুনির্দিষ্ট ভূমিকা রয়েছে।

আগামীর পরিকল্পনা

বাংলাদেশের সেরা ব্যাংক হওয়ার পথে আমাদের যাত্রা অব্যাহত রাখার পাশাপাশি, আমাদের প্রধান লক্ষ্য থাকবে ঢাকা ও চট্টগ্রাম মহানগর এলাকার বাইরে ব্যবসা সম্প্রসারণ করা। এসএমই ও বিটেইল ছাড়াও, আমরা আমাদের বাণিজ্য ব্যবসা সম্প্রসারিত করব এবং নতুন করপোরেট এলাকায় কাজ করব। এর বাইরে আমাদের কৌশলগত যাত্রা মনোনিবেশ করবে:

এসএমই ব্যাংকিং, এসএমই গ্রাহকদের সঙ্গে ঋণ বিতরণ ব্যবসার পাশাপাশি 'ঋণদাতা থেকে ব্যাংকার' কৌশল অনুযায়ী ডিপোজিট ব্যবসার উন্নতিতে কাজ করবে

করপোরেট ব্যাংকিং–এ, কনসেনট্রেশন ঝুঁকি কমাতে, স্বল্প সংখ্যক বৃহৎ গ্রাহকের পরিবর্তে কয়েকটি করপোরেট গ্রাহককে নিয়ে করপোরেট পোর্টফোলিও মিঙ'তৈরি অব্যাহত রাখবে

রিটেইল ব্যাংকিং ডিজিটাল ব্যাংকিংয়ের আরও বেশি জোর দিবে

ব্র্যাক ব্যাংক এজেন্ট ব্যাংকিং চালু করবে

লোকল করপোরেট ও ইর্মাজিং উদীয়মান করপোরেট, ঢাকা ও চট্টগ্রাম মহানগরের বাইরে নতুন ব্যবসার সম্প্রসারণ করবে

ব্র্যাক সাজান ইউরোপজুড়ে এর রেমিটেন্স কার্যক্রম সম্প্রসারিত করবে

প্রযুক্তিজ্ঞান সম্পন্ন একটি ব্যাংক হিসেবে, ব্র্যাক ব্যাংক, গ্রাহকদের দ্রুত ও আনন্দময় ব্যাংকিং অভিজ্ঞতা দিতে প্রযুক্তিতে বিনিয়োগ অব্যাহত রাখবে। ব্র্যাক ব্যাংক কর্মকর্তাদের দক্ষতা উনুয়নে বিনিয়োগ চালিয়ে যাবে

স্বীকৃতি

আমি বিশ্বাস করি যে, সাম্প্রতিক বছরগুলোতে আমরা যে অগ্রগতি অর্জন করেছি, তাতে প্রতীয়মান হয় যে, সার্বক্ষণিক পরিবর্তন দূরদৃষ্টিপূর্ণভাবে অনুমান করতে এবং তা মেনে নিতে আমাদের বার্ডে ও আমাদের কর্মীরা সমর্থ হয়েছে। ২০১৭ সালে ব্যাংকের শক্তিশালী অর্জনের ক্ষেত্রে বিজ্ঞ পরামর্শ ও নির্দেশনা দেওয়ার জন্য বোর্ডে থাকা আমার সহকর্মীদের আমি ধন্যবাদ জানাতে চাই।

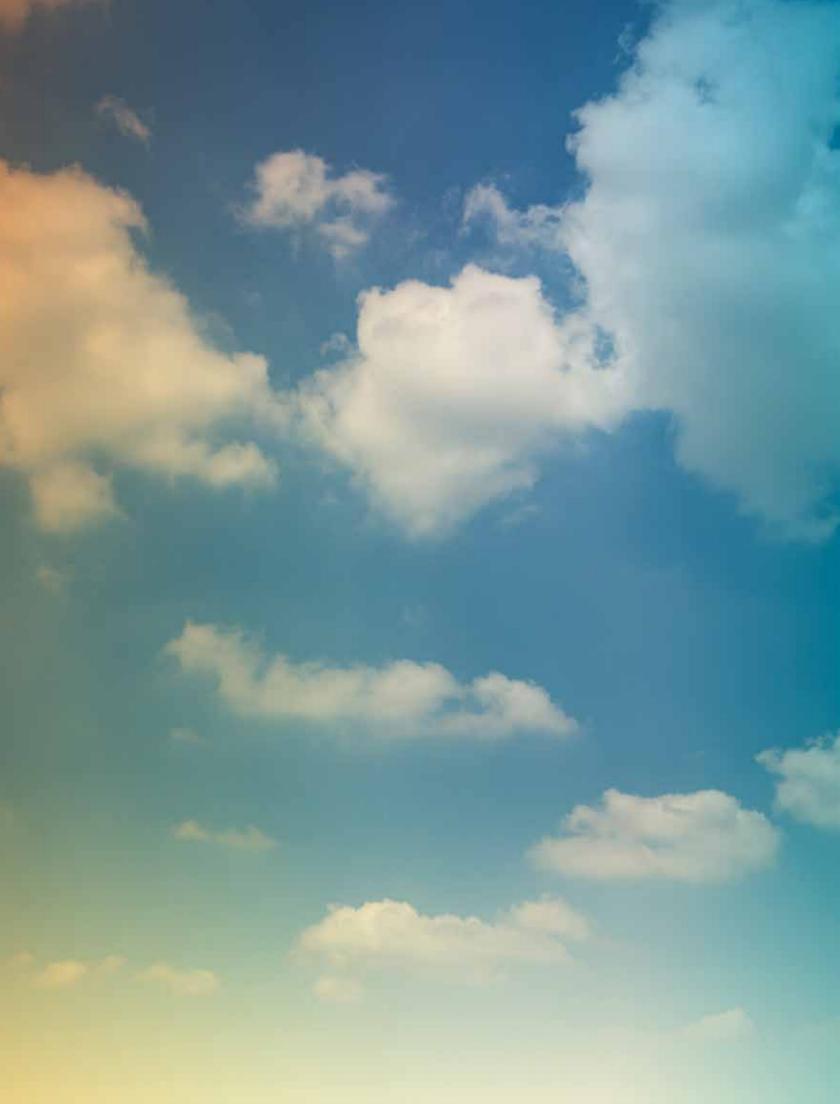

বাংলাদেশের নিয়ন্ত্রক কর্তৃপক্ষগুলোর সঙ্গে গঠনমূলক সম্পর্ক বজায় রাখার বিষয়টি আমরা উপভোগ করি। সম্ভাব্য সকল ক্ষেত্রে, জাতীয় নীতিমালা, আইন ও নিয়ন্ত্রণের উন্নতিতে আমরা অবদান রাখার চেষ্টা করি, এ ক্ষেত্রে নীতিনির্ধারক, আইনপ্রণেতা ও নিয়ন্ত্রক কর্তৃপক্ষগুলোর সঙ্গে আমরা আনুষ্ঠানিক যোগাযোগ ও সংশ্লিষ্টতা বজায় রাখি। নিয়ন্ত্রক কাঠামোর উনুয়নের লক্ষ্যেই আমাদের দৃষ্টিভঙ্গিটি তৈরি, এ ক্ষেত্রে নিয়ন্ত্রক কাঠামোটি হতে হবে বাস্তুবতার সঙ্গে সঙ্গতিপূর্ণ এবং স্বচ্ছ, যা অনাকাঞ্জিষ্ণত ফলাফল কমিয়ে আনবে।

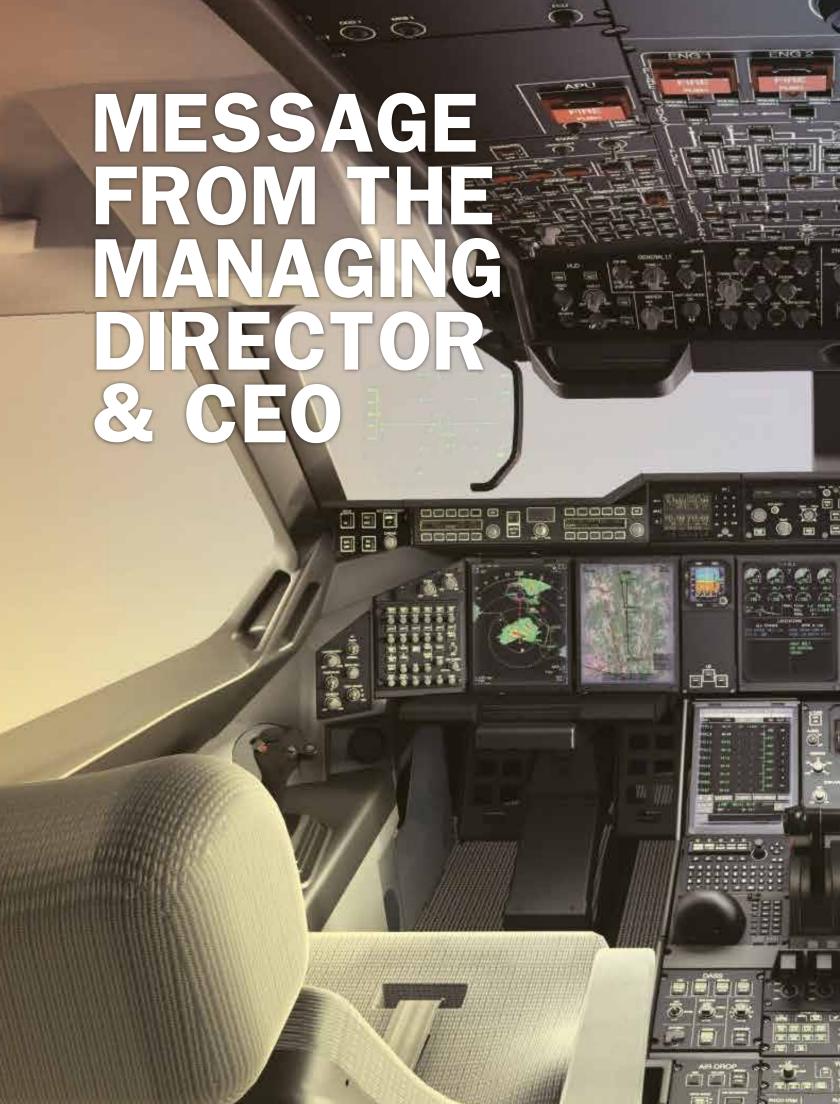

এর সঙ্গে সঙ্গে, সরকারের সকল নিয়ন্ত্রক এজেন্সি, বিশেষ করে বাংলাদেশ ব্যাংক, বাংলাদেশ সিকিউরিটিজ অ্যাড এপ্ডচঞ্জ কমিশন, যৌথ মূলধনী কোম্পানি ও প্রতিষ্ঠানের নিবন্ধক, ঢাকা ও চট্টগ্রাম স্টক এপ্ডচঞ্জ এবং সেট্ট্রাল ডিপোজিটরি বাংলাদেশ লিমিটেডের অব্যাহত সমর্থনের জন্য, তাদের প্রতি আমি কৃতজ্ঞ। একইসঙ্গে ব্যাংকের প্রতিটি গ্রাহকের অবিচল বিশ্বাস ও সমর্থনের স্বীকৃতি জানাতে চাই। ২০১৭ সালকে আরও একটি সফল বছরে পরিণত করার জন্য আমি ব্যাংকের সকল কর্মকর্তাদের অভিনন্দন জানাই।

বিনীত,

Message from the Managing Director & CEO

We will maintain portfolio growth momentum through achieving a proper blend of funded and non-funded businesses and promote the culture of cross-selling to achieve a balanced asset and liability mix, leveraging on our new distribution model.

Selim R. F. Hussain Managing Director & CEO

Setting management standards and inspiring employees to deliver their best, Mr. Selim R. F. Hussain, Managing Director and CEO of BRAC Bank Limited, led the journey towards the transformation of the bank. Mr. Hussain provided direction and leadership to the bank to begin a journey towards becoming the 'Best Bank' while being committed to governance, compliance, ethics and transparency.

In a Q&A session, he shares his perspectives and plans that align the business model and core values with the broader vision of the bank. He put forward his views on the impact that the macroeconomic landscape has had on the overall financial industry. He also highlights the 2017 financial performance for our valued shareholders.

What was the operating context in 2017?

A relatively calm political situation, moderate rise in export earnings and significant rise in import payments in 2017 had a positive impact on the operating context of the country's banking industry. Most of the banks

engaged in increased lending in 2017 to utilize the excess liquidity experienced over the past few years. Due to this, loans and advances rose by over 17 per cent during the year compared to 2016. However, towards the end of 2017, a complete U-turn was observed with liquidity turning scarce. This will surely put pressure in the near future.

The gradual increase of non-performing loans (NPLs) is a concern for the banking industry as NPLs rose significantly, exposing weaknesses in customer due diligence and the risk assessment process of banks. Another key concern in 2017 was the unearthing of scams with the Centre for Policy Dialogue (CPD) calling 2017 a 'Year of banking scam'. The CPD opined that embezzlement of public money by a handful of corrupt individuals and the escalation in financial crimes indicate that the banking sector is vulnerable.

Demonstrating short-term profits with long-term concerns over NPL, liquidity crisis and rising cost of funds, the year 2017 was a mixed bag for the banking sector.

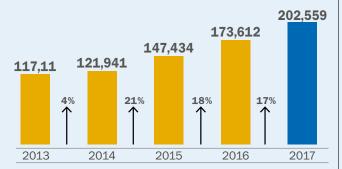

How would you measure the bank's performance against this operating context?

We performed well in 2017 across all aspects of the bank's business. Our bank witnessed substantive credit growth of 23% in SME lending.

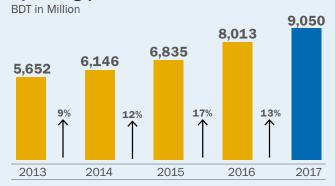

Loan and advances

BDT in Million

We recorded healthy growth in both the operating profit and profit after tax. We have been able to grow our PAT by 18% to BDT 5,250 million from BDT 4,460 million, owing to quality growth of 17% of our loan portfolio to BDT 202,559 million in 2017 from BDT 173,612 million in 2016.

Operating profit

In 2017, our overall NPL increased slightly by 0.16% to 3.56%. But the bank's SME and Retail NPL levels declined significantly, while NPL in the Corporate division increased because of one particular account. This represented a strong performance in the context of the overall weakening of NPLs in the country's banking sector.

Please discuss the bank's key financial developments.

Our bank witnessed good progress over the last three years due to committed focus on fulfilling the financial

needs of our customers, in credit risk management and on financial inclusion of the unbanked segments. We continued to deliver growth across almost every aspect of the bank's operations and registered a 16% growth over the last year in the balance sheet size, which grew to BDT 289,501 million in 2017 from BDT 248,605 million in 2016.

Percentage of NPLs to total loans and advances

SME and Retail loans grew by 23% and 19%, respectively, in 2017 over the last year. Though we continued to remain selective in disbursements to our Corporate customers, this portfolio grew by 9% in 2017. Deposits recorded a growth of 16% in 2017 with a larger concentration from the lower-cost CASA segment.

Total revenues grew 17% in 2017, compared with 2016. Net interest income (NII) contributed 12% to the assets growth, investment income contributed 43% and other income grew 12%. Our total operating income reached BDT 18,710 million, registering a sharp 17% growth in 2017. However, with a view to strengthen the bank's foundations and continuing with our strategy of making significant investments in our human resources and technology over the last two years, there was a 21% increase in operating expenses in 2017 over 2016. Staff salaries and benefits increased by 31%, leading to an increase in our operating expenses. However, despite the rise in operating expenses, operating profit increased by 13% to BDT 9,050 million in 2017. Because of our focus on NPLs, we were able to report a strong 18% growth in our PAT, which stood at BDT 5,250 million in 2017.

Earnings per share growth

Despite continued volatility in the banking sector, earnings per share (EPS) has witnessed a rising trend over the past five years. Our EPS continues to remain noticeable considering the prevailing banking industry scenario thereby strengthening investor confidence in BRAC Bank.

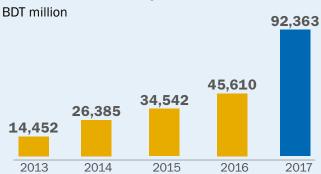

Growth of net asset value (NAV) per share

Our bank's NAV significantly increased in 2017 due to the rise in profit after tax. The NAV growth during the year was the sharpest in the last five years.

Market capitalization growth

Our bank's superior performance was well noticed by our investor community, leading to the highest market capitalization growth in 2017. The bank's market capitalization touched BDT 1 billion for the first time in the bank's history in 2017.

Year-end market capitalization

What were the most significant developments reported by the bank?

2017 was a record-setting year that was built upon significant investments in technology, processes, premises and most importantly, people, keeping us firmly on the path of becoming the 'Best Bank' in the country. Our values remain uncompromised and our journey continues on the path of moving from good to great, propelled by the power of our strategy and the passion of our people to become the number one in all aspects.

We have been working on building the right kind of momentum over the past two years. Our bank underwent radical organizational restructuring and realignment of the business segments without diminishing its core focus on SME, Corporate and Retail business segments. New initiatives and investments in technology were also rolled-out to provide our customers a seamless, faster and personalized banking experience.

The management provided significant impetus in the implementation of the latest systems and technologies across its banking operations to provide customers state-of-the-art banking facilities, improve efficiency levels

and reduce long-term processing costs. Also, our **Core Banking System (CBS)** upgrade was at the UAT stage by the end of 2017. With this development, we plan to make the CBS "Go Live" by April 2018. The modernization of CBS bears testimony to our vision and focus of making infrastructure the backbone of sustainable growth.

What were some of the other noteworthy highlights of the year 2017?

With strong growth figures in SME, Retail and Trade Business in Corporate, the year 2017 was a year of achievements for us.

We launched the country's first comprehensive women's banking solution called 'TARA'. TARA was developed as a 360-degree banking platform to empower women, guide them with financial planning and facilitate them to reach their goals. TARA is not a product but a proposition that has been conceived as a holistic solution to enable women to realize their potential.

In 2017, we won a number of prestigious awards and achieved new milestones in the banking industry. USD 1 billion market capitalization, credit ratings of 'AA1' (CRAB), 'Ba3' (Moody's) and 'B+' (S&P) and ISO 27001: 2013 certification in information security, reflected the strength of our business model. ADB's 'Most Progressive Bank on Gender Strategy and Implementation', Asiamoney's 'Best Bank for SMEs' 'Best Domestic Bank', 'Best Bank for CSR' & 'Best Digital Bank', GBA's 'Women's Market Champion' and SAFA, ICAB and ICMAB awards showcased our pursuit of excellence in corporate

governance and performance, reinforcing our aspirations to be the best bank in Bangladesh.

An expansive distribution network is one of our key strengths. During 2017, we expanded our reach with 7 new branches and 9 SME Unit Offices. Today, the bank has 186 branches, 447 ATMs and 457 SME Unit Offices spread across the country. We are also aggressively expanding our digital banking capabilities and this will have the ability to take our operations further at a lower cost compared to brick-and-mortar infrastructure.

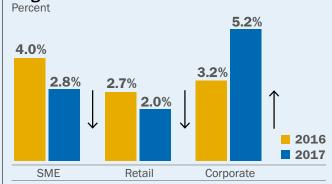

Our subsidiaries have also performed well during 2017. bKash, the market leading provider of mobile banking services, has delivered a profit after tax of BDT 488 million, 26% higher than in the previous year, with year-on-year increase in revenues by 25%. BRAC EPL Stock Brokerage Limited recorded a profit after tax of BDT 205 million, which is BDT 110 million higher than the previous year.

The solid financial progress of our subsidiaries shows that the bank, as a group, is on course to achieving the number one position in the industry.

How did we control NPLs and protect the structural quality of our portfolio?

Maintaining constant contact with our loan customers is instrumental to NPL management at our bank. We train our employees to maintain strong relationships with our customers through regular visits and phone calls. In particular, our SME loans are of supervisory credit in nature with our field staff making regular visits to the business premises of our customers and this helps rein in NPLs. MIS is a key modern-day NPL management tool and our ground staff fully leverages this to take timely decisions.

Segment-wise NPL

Apart from the restructuring of our credit undertakings under the leadership of our newly recruited Chief Risk Officer (CRO), our bank follows an exhaustive risk assessment process in appraising customer creditworthiness. We are very thorough in the selection of clients - from the front office to credit analysis to operations to credit administration (CAD). We also restructured Special Assets Management to align it with the evolving nature of the business. Our ACM model in small business in the SME division makes field-level employees accountable for recovery. We have a

Collection and Monitoring Team apart from a dedicated professional Special Assets Management and Recovery Team. Coordinated efforts of the business and credit teams with the legal and recovery division help us book quality assets while keeping NPLs under a strict check.

What do you think are some of the key emerging risks and how is the bank equipped to handle the impact of these emerging risks?

Apart from NPL, fraud incidents in the cards and e-commerce space are some of the emerging risks. We are continuously increasing vigilance and revisiting processes to keep fraudsters at bay. We will be introducing PIN-based EMV chip cards that will reinforce security in card transactions. Moreover, to counter card risks, we introduced OTP and two-factor authentication for internet banking and e-commerce transactions. We also installed anti-skimming device in all our ATMs. We are the only bank in the country to receive the ISO 27001:2013 certification in recognition of our information security management system. We undertake regular programs to educate our customers and employees regarding information security and privacy. Institutionalizing the Credit Administration Department also helped in the quicker processing of credit proposals, while ensuring efficient use of legal documents.

With the possibility of risks emerging in treasury and foreign trade, we organized a number of awareness seminars for our Corporate customers in partnership with peer banks and the Bangladesh Institute of Bank Management (BIBM).

Please discuss the performance of each of the business divisions in brief.

SME Banking remains at the forefront of our operations. A dedicated and customer-driven sales force, cash flow-oriented lending assessments, robust distribution network, decentralized decision-making, shortest loan disbursement time-frame and continuous effort towards bringing the unbanked target segments of the country under formal banking continue to remain some of the division's key strengths. Spearheaded by Small Business, SME disbursements increased by a significant BDT 20,036 million with the portfolio increasing by BDT

15,397 million and the number of customers increasing by 14,400 in 2017. In recognition of our focus in SME, we received the prestigious 'Best Bank for SMEs' award from Asiamoney.

Building on the initiatives in 2016, the Corporate Banking Division achieved remarkable growth in 2017. The newly launched Corporate Branches and repositioning of the Local Corporate Team together contributed to significant growth in the funded business. Besides, the restructured Large Corporate Team contributed to substantial growth in the non-funded business. Moreover, a dedicated Trade Development team was also established to provide a greater impetus to the trade business. These initiatives led to 17% growth in loans and advances, 16% growth in the deposit portfolio and 25% growth in trade volumes in 2017.

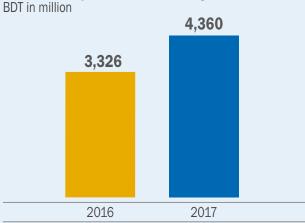

Our Retail Banking division's portfolio grew at a healthy 19% to BDT 40,741 million as on 31 December 2017. This rapid growth was made possible by the transformation of the retail lending business from a product-centric approach to a customer-centric focus. We emphasized on protecting asset portfolio quality to create the foundations for sustainable long-term growth. With a view to augment the home loans and auto loans businesses, the division closely worked with leading real estate developers and car dealerships. Industry-best TAT, development of stronger relationships with vendors with high POS (point-of-sale) visibility and re-engineering of backend processes facilitated business growth. We facilitated remittance inflow of USD 338.46 million, registering a substantial YoY 30% growth.

In a major initiative of 2017, we merged our branches under a common distribution network and divided them into 8 regions. The primary objective of restructuring and grouping our branches into a centralized distribution network is to provide a superior interface to our customers and to showcase the breadth and full value of our products and services, thereby providing them with the convenience of one-stop banking service.

How do you value employee contribution and motivate them? Please elaborate on staff welfare initiatives?

We aim to become the most employee-friendly organization in the country.

Staff salary and welfare expenses

We believe our employees are our most valuable assets. We aim to recruit the best talent, provide world-class training and develop retention programs with value-based benefits at par with the industry's best practices. We established a broader framework for employee benefits and welfare that include Provident Fund, Gratuity Fund, life insurance policy, welfare fund, hospitalization insurance and so on.

What are the key initiatives expected to be undertaken in 2018.

Considering the growing need for prudent liquidity management, the widening gap in the country's balance of payments situation, rising forex and Libor rates, revised regulatory framework and especially, the socio-political issues due to the upcoming national elections, 2018 will be a challenging one for everyone. In this scenario, we

will focus on intelligent liquidity management, growing the exports business and ensuring cautious portfolio management.

Despite these challenges, we foresee an exciting 2018 giving our customers a much better experience with the launch of a major technology project – the Core Banking System upgrade resulting in reduced turnaround time (TAT), increase in our credit assessment, disbursal and collection capabilities, etc. The Document Management System will facilitate customers in terms of ensuring lower documentation requirements while Loan Origination System and Credit Scoring will streamline loan processing. In addition, we will reinforce our focus on Digital Banking to provide the convenience of 'anytime anywhere' banking.

We will maintain portfolio growth momentum through a proper blend of funded and non-funded businesses and promote the culture of cross-selling to achieve a balanced asset-liability mix. We aim to launch Agent Banking to continue our mission of financial inclusion.

With renewed focus on service quality and by utilizing our wide distribution network, skilled human resources, process re-engineering and incorporating our innovative IT-based solutions, we aim to reach newer heights in 2018, taking ourselves closer to our goal of becoming the best bank in the country.

আমরা ফাডেড ও নন-ফাডেড ব্যবসার যথাযথ মিশ্রণের মাধ্যমে আমাদের পোর্টফলিও প্রবৃদ্ধি বজায় রাখবো। আমাদের নতুন ডিষ্ট্রিবিউশন মডেলের ওপর নির্ভর করে আমরা একটি ভারসাম্যপূর্ণ সম্পদ ও দায়ের মিশ্রণ ঘটাতে ক্রস-সেলিং সংস্কৃতিকে তুলে ধরবো।

সেলিম আর.এফ. হোসেন ব্যবস্থাপনা পরিচালক ও প্রধান নির্বাহী কর্মকর্তা

ব্যবস্থাপনার মান নির্ধারণ এবং কর্মীদেরকে সর্বোচ্চ সেবা প্রদানে উৎসাহ দেওয়ার মাধ্যমে ব্র্যাক ব্যাংক লিমিটিডের ব্যবস্থাপনা পরিচালক ও প্রধান নির্বাহী কর্মকর্তা সেলিম আর. এফ. হোসেন ব্যাংকের প্রবৃদ্ধির যাত্রাকে নেতত্ত্ব দিয়ে পুন:শক্তিসঞ্চারের এমন এক মাত্রায় নিয়ে গেছেন যা দেশের ব্যাংকিং ইতিহাসে অভূতপূর্ব।

প্রশোত্তর পর্বে সেলিম আর. এফ. হোসেন ব্যাংকের বৃহত্তর দৃষ্টিভঙ্গির আলোকে প্রকৃত মূল্যবোধ ও ব্যবসায়িক মডেলের প্রেণীবিন্যাসে তার দৃষ্টিভঙ্গি ও পরিকল্পনা তুলে ধরেন। সামগ্রিক আর্থিক খাতে সামষ্টিক অর্থনৈতিক পরিস্থিতির প্রভাব বিষয়ে মতামত দেন। এছাড়া তিনি সন্মানিত শেয়ারহোন্ডাদের সামনে ২০১৭ সালের আর্থিক পারফরমেন্সের প্রধান বৈশিষ্ট্যগুলো উপস্থাপন করেন।

২০০৭ সালের পরিচালনগত প্রেক্ষিত কী ছিল?

আগের বছরের তুলনায় শান্ত রাজনৈতিক পরিস্থিতি, রফতানি আয়ে পরিমিত প্রবৃদ্ধি এবং আমদানি ব্যয়ে উল্লেখযোগ্য প্রবৃদ্ধি ২০১৭ সালে দেশের ব্যাংক খাতের পরিচালনায় ইতিবাচক প্রভাব রেখেছে। তবে অতিরিক্ত তারল্য কমিয়ে আনতে বেশিরভাগ ব্যাংক ২০১৭ সালে মাঝামাঝি সময় থেকে আগ্রাসীভাবে ঋণ বিতরণে সম্পৃক্ত হয়। আগ্রাসী ঋণ বিতরণের কারণে এ বছর ঋণ ও অগ্রিম আগের বছরের চেয়ে ১৮ শতাংশের বেশি বৃদ্ধি পায়। তবে বছরের শেষের দিকে পরিস্থিতি সম্পূর্ণ পাল্টে ব্যাংক খাতে তারল্য ঘাটতি দেখা দেয়। এর প্রভাবে আগামী বছরগুলোতে বড় চাপ তৈরি হতে পারে।

খেলাপি ঋণের ক্রমাগত বৃদ্ধি ব্যাংকিং খাতের জন্য যথেষ্ঠ উদ্ধেশের বিষয়। সামগ্রিক খেলাপি ঋণ বেড়েছে উল্লেখযোগ্য হারে, যা গ্রাহককে ঋণ দেওয়ার ক্ষেত্রে নিয়ম নীতি ও আইন-কানুন (ডিউ ডিলিজেন্স) অনুসরণ ও ঝুকি পর্যালোচনা প্রক্রিয়ায় ব্যাংকগুলোর দুর্বলতা প্রকাশ করে। ২০১৭ সালে আরেকটি প্রধান উদ্ধেগ ছিল, বিভিন্ন অনিয়ম উদ্যাটন। সেন্টার ফর পলিসি ডায়লগ (সিপিডি) ২০১৭ সালকে ' ব্যাংক খাতে কেলেঙ্কারির বছর' বলেছে। সিপিডির মতে, মুষ্টিমেয় দুর্নীতিবাজদের মাধ্যমে জনগণের অর্থ আত্মসাং ও আর্থিক অপরাধ বৃদ্ধি ব্যাংকিং খাতের মারাত্মক দুর্দশাকে নির্দেশ করে। সংক্ষেপে বলা যায়, ব্যাংকিং খাতের জন্য ২০১৭ সাল ছিল মিশ্র প্রবণতার বছর। দীর্ঘমেয়াদে থাকা খেলাপি ঋণ, তারল্য পরিস্থিতি ও তহবিল ব্যয় উর্ধ্বগামী হওয়ার উদ্ধেগের মধ্যে একে স্বল্প-মেয়াদে মুনাফা আয়ের বছর বলা যেতে পারে।

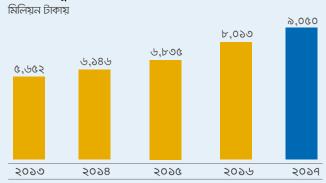

ঋণ ও অগ্রিম মিলিয়ন টাকায়

এ পরিস্থিতিতে ব্র্যাক ব্যাংকের পারফরমেন্সকে কিডাবে পরিমাপ করবেন?

ব্র্যাক ব্যাংক ব্যবসা বাণিজ্যের সামগ্রিক পরিস্থিতি বিবেচেনায় নিয়ে ২০১৭ সালের এই পরিচালন পরিবেশের মধ্যেও উল্লেখযোগ্য অগ্রগতি করেছে। বিশেষত এসএমই ঋণে ৩২ শতাংশ প্রবৃদ্ধি হয়েছে।

পরিচালন মুনাফা

আমরা পরিচালন মুনাফা ও কর পরবর্তী মুনাফায় শক্তিশালী প্রবৃদ্ধি অর্জন করেছি। কর পরবর্তী মুনাফা ৪৪৬০ মিলিয়ন টাকা থেকে বেড়ে ৫২৫০ মিলিয়ন টাকা হয়েছে। এর কারণ, ঋণ পোর্টফল্ডি ২০১৬ সালের ১৭৩,৬১২ মিলিয়ন থেকে ১৭ শতাংশ বেড়ে ২০২,৫৫৯ মিলিয়ন টাকা হয়েছে।

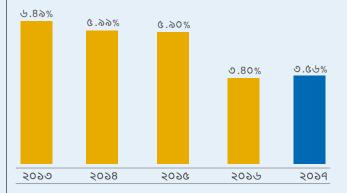

২০১৭ সালে সামগ্রিক খেলাপি ঋণ (এনপিএল) সামান্য ০.১৬% বেড়ে ৩.৫৬% হয়েছে। এটা অবশ্যই উল্লেখ করা প্রয়োজন, এই পরিস্থিতিতেও ব্যাংকের এসএমই ও রিটেইল খাতে খেলাপি ঋণ উল্লেখযোগ্য হারে কমেছে। একটা হিসাব মন্দ হওয়ায় করপোরেট ডিভিশনের খেলাপি ঋণ কিছুটা বেড়েছে। তবে দেশের ব্যাংকিং খাতের সামগ্রিক খেলাপি ঋণ পরিস্থিতির অবনতির প্রেক্ষিতে ব্র্যাক ব্যাংকের পারফরমেন্স ব্যতিক্রমভাবে শক্তিশালী।

ব্যাংকের প্রধান আর্থিক অগ্রগতিগুলো নিয়ে আলোচনা করুন।

গ্রাহকদের আর্থিক চাহিদা পূরণ ও ঋণ ঝুঁকি ব্যবস্থাপনার ক্ষেত্রে নিরলস প্রচেষ্টা এবং ব্যাংকিং সেবার বাইরে থাকা বা সীমিত সেবা পাওয়া জনগোষ্ঠীর আর্থিক অর্ন্তভুক্তিকে সর্বোচ্চ গুরুত্ব প্রদানের পাশাপাশি বিচক্ষণ সিদ্ধান্তের কারণে তিন বছর ধরে ব্র্যাক ব্যাংকের লক্ষ্যণীয় অগ্রগতি হচ্ছে। ব্র্যাক ব্যাংক এর প্রায় প্রত্যেক কার্য্রক্রমে সার্বিকভাবে প্রবৃদ্ধির ধারা বজায় রাখছে। স্থিতিপত্র বা ব্যালান্স শিটের আকার প্রবৃদ্ধির গতি বজায় রাখতে সমর্থ হচ্ছে। ব্যালান্স শিটের আকার ২০১৬ সালের ২৪৮,৬০৫ মিলিয়ন টাকা থেকে বেড়ে ২০১৭ সালে ২৮৯,৫০১ মিলিয়ন টাকা হয়েছে। এতে করে গত বছর ১৬% হারে প্রবৃদ্ধি এসেছে।

বিভাগীয় পর্যায়ের দিক থেকে ২০১৭ সালে আগের বছরের চেয়ে এসএমই ও রিটেইল ঋণ যথাক্রমে ৩২% এবং ৩০% হারে বেড়েছ। আমরা খুব বেছে বেছে করপোরেট গ্রাহকদের ঋণ দেই। ২০১৭ সালে এক্ষেত্রে পোর্টফলিওর আকার ৭% বেড়েছে, যা করপোরেট পোর্টফলিওতে কেন্দ্রীভূত থাকার ঝুকি সফলভাবে মোকাবেলায় আমাদেরকে সহায়তা করেছে। ২০১৭ সালে আমানতে ১৬% প্রবৃদ্ধি হয়েছে, যার বড় অংশই নিশু ব্যয়ের ঈঅঝঅ সেগমেন্টের।

খেলাপি খাণের হার

আমাদের সব বিভাগে শক্তিশালী অগ্রগতির কারণে ২০১৬ সালের তুলনায় ২০১৭ সালে মোটি রাজস্ব বেড়েছে ১৭%। নীট সুদ আয় (এনআইআই) সম্পদের বৃদ্ধিতে ১২% অবদান রেখেছে। বিনিয়োগ আয় অবদান রেখেছে ৪৩% এবং ২০১৭ সালের সামগ্রিক রাজস্ব প্রবৃদ্ধিতে অন্যান্য আয় বেড়েছে ১২%।

২০১৭ সালে আমাদের মোট পরিচালন আয় ১৭% বেড়ে ১৮,৭১০ মিলিয়ন টাকায় পৌছেছে। ২০১৬ সালে যা ছিল ১৫,৭১০ মিলিয়ন টাকা। তবে গত দুই বছর ধরে মানব সম্পদ ও প্রযুক্তিতে বিনিয়োগ বাড়ানোর (ব্যাংকের ভিত্তি মজবুত করার উদ্দেশ্যে) কৌশল অব্যাহত রাখায় ২০১৬ সালের তুলনায় আমাদের পরিচালন ব্যয় বেড়েছে ২১%। স্টাফদের বেতনও সুবিধা ২০১৭ সালে বেড়েছে ৩১% যা পরিচালন ব্যয় বৃদ্ধিক ত্বরান্বিত করেছে। পরিচালন ব্যয় অনেক বৃদ্ধি সত্ত্বেও পরিচালন মুনাফা ২০১৬ সালের ৮,০১৩ মিলিয়ন টাকা থেকে ১৩ শতাংশ বেড়ে ২০১৭ সালে ৯,০৫০ মিলিয়ন টাকা হয়েছে। খেলাপি খাণের প্রতি আমাদের প্রখর দৃষ্টি থাকার কারণে কর পরবর্তী মুনাফায় ১৮% প্রবৃদ্ধি অর্জন করতে পেরেছি। কর পরবর্তী মুনাফা ২০১৭ সালে বেড়ে ৫,২৫০ মিলিয়ন টাকা হয়েছে।

শেয়ার প্রতি আয়ে প্রবৃদ্ধি

ব্যাংকিং খাতে চলমান অস্থিতিশীলতার মধ্যেও আমাদের শেয়ার প্রতি আয়ে (ইপিএস) গত ৫ বছর ধরে উধর্বগামী প্রবণতা লক্ষ্ণ্য করা যাচ্ছে, যা অস্থিতিশীলতার মধ্যেও এগিয়ে যেতে সময়ে সময়ে নেওয়া আমাদের সিদ্ধান্তের যৌক্তিকতাকে সমর্থন করে এবং আমাদের নেতৃত্ব, উধর্বতন ব্যবস্থাপনা টিম এবং বিজনেস মডেলের প্রতি বিনিয়োগকারীদের আস্থা বাড়াতে সহায়তা করেছে।

শেয়ার প্রতি নীট সম্পদ মূল্যের (এনএডি) প্রবৃদ্ধি

কর পরবর্তী মুনাফা বৃদ্ধির কারণে ২০১৭ সালে ব্যাংকের এনএডি উল্লেখযোগ্য বেড়েছে। গত ৫ বছরের মধ্যে যা সবচেয়ে বেশি বাজার মূলধনে প্রবৃদ্ধি

বিনিয়োগকারী সম্প্রদায় ব্র্যাক ব্যাংকের শ্রেয়তর পারফরমেন্স লক্ষ্য করেছে, যা ২০১৭ সালে বাজার মূলধনে সর্বোচ্চ প্রবৃদ্ধি অর্জনে সহায়তা করেছে। ব্যাংকের ইতিহাসে প্রথমবারের মতো বাজার মূলধন ২০১৭ সালের এক পর্যায়ে ১ বিলিয়ন ডলারে পৌছায়।

ব্যাংকের সবচেয়ে উল্লেখযোগ্য অগ্রগতি কী ছিল ?

ব্র্যাক ব্যাংক ধারাবাহিকভাবে তার গতিপথকে বিশেষভাবে পরিচালিত করে মসৃণ উড্চয়নের জন্য গত দু বছরে সক্রিয়ভাবে সঠিক প্রেরণার ভিত্তি তৈরির কাজ করেছে । ব্যাংক সাংগঠনিক পুনর্গঠনে বৈপ্লবিক পদক্ষেপ নিয়েছে এবং ব্যবসাকে নতুনভাবে বিন্যাস করেছে। তবে তা অবশ্যই এসএমই, কর্পোরেট ও রিটেইল ব্যবসার ওপর মূল দৃষ্টিকে বাদ দিয়ে নয়। ২০১৭ সালে প্রযুক্তিগত অগ্রগতির ক্ষেত্রে নতুন পদক্ষেপ নেওয়া হয়েছে এবং এ খাতে নতুন বিনিয়োগ করা হয়েছে। এর উদ্দেশ্য ছিল, আমাদেরকে গ্রাহকদের জন্য দ্রুত, মসৃণ ও গ্রাহকদের ব্যক্তিগত চাহিদা মেটানোর জন্য বিশেষভাবে সাজানো (পারসোনালাইজড) ব্যাংকিং সেবা দেওয়া।

গ্রাহকদেরকে সর্বোত্তম পর্যায়ের ব্যাংকিং সেবা দেওয়া, দক্ষতার উন্নৃতি এবং দীর্ঘমেয়াদে প্রক্রিয়াগত ব্যয় কমিয়ে আনতে ব্যাংকিং কার্য্রক্রমে সর্বশেষ প্রযুক্তি ও পদ্ধতি বাস্তবায়নে ব্যাংকের ব্যবস্থাপনা কর্তৃপক্ষ প্রবল উৎসাহ জোগায়। এছাড়া আমাদের কোর ব্যাংকিং সিম্টেম (সিবিএস) এর উন্নতির ভিত্তি তৈরির প্রস্তুতি ছিল ২০১৭ সালের একটি বড় উদ্যোগ। আমাদের অবিরাম প্রক্রন্থীর ফলে বছর শেষে এই সিম্টেম 'ইউএটি' পর্যায়ে উন্নীত হয়েছে। এই অগ্রগতির আওতায় আমরা ২০১৮ সালের এপ্রিল নাগাদ সিবিএসকে ' গো-লাইভ' এ নেওয়ার পরিকল্পনা করেছি। সিবিএসের আধুনিকায়ন আমাদের ভবিষ্যৎমুখী ভিশণ এবং টেকসই প্রবৃদ্ধির ভিত্তি অর্জনে অবকাঠামো তৈরির প্রক্রন্থীর সাক্ষ্য বহন করে।

২০১৭ সালেও আরও কিছু উল্লেখযোগ্য প্রধান বৈশিষ্ট্য কি কি ছিল ?

২০১৭ সাল প্রযুক্তি, প্রক্রিয়া, ভৌত অবকাঠামো এবং সবচেয়ে গুরুত্বপূর্ণ 'মানুষের' ওপর ব্র্যাক ব্যাংক রেকর্ড বিনিয়োগ করেছে, যা দেশের সর্বশ্রেষ্ঠ ব্যাংক হওয়ার পথে আমাদেরকে দৃঢ়ভাবে নিয়ে গেছে। এ সমেয় আমাদের মূল্যবোধের কোনো ব্যতয় ঘটেনি এবং ভাল থেকে সর্বোত্তম হওয়ার পথে আমাদের যাত্রা অব্যাহত রয়েছে। সুসংগঠিত কৌশল এবং আমাদের কর্মীদের প্রত্যেক দিন ভাল রিপোর্ট দেওয়ার আকাঙ্খার আমাদেরকে সঠিকপথে চালিত করেছে।

২০১৭ সালের অন্যতম অর্জন হলো – ব্র্যাক ব্যাংক নারীদের জন্য দেশের প্রথম সমন্থিত ব্যাংকিং সলিউশনের উদ্বোধন করে যার নাম 'তারা'। নারীর ক্ষমতায়ন, তাদের আর্থিক জীবনযাত্রা নিয়ে পরিকল্পনা, অর্থনৈতিক স্থাধীনতা অর্জনে তাদেরকে সক্ষম করা এবং তাদের লক্ষ্য ও আকাঙ্খা পূরণে সহায়তা করতে 'তারা' কে সমন্থিত প্লাটফর্ম হিসেবে গড়ে তোলা হয়েছে। গুরুত্বপূর্ণ বিষয় হলো, 'তারা' শুধুমাত্র একটি প্রোডান্ট নয়, নারীদের সম্ভাবনা কাজে লাগানো ও তাদের জীবনযাত্রার মান উনুয়নে সহায়ক একটি সমন্থিত সমাধান।

২০১৭ সালে ব্র্যাক ব্যাংক অনেকগুলো সম্মানজর্নক অ্যাওয়ার্ড পেয়েছে এবং ব্যাংকিং খাতে নতুন নতুন মাইলফলক অর্জন করেছে। এটা সম্ভব হয়েছে আমাদেও ৮৫০০ কর্মীর যৌথ চেফী, গর্ব এবং কাজের প্রতি মমত্ববোধের কারণে। এক বিলিয়ন ডলারের বাজার মূলধন, এএ১ ক্রেডিং রোটিং (ক্র্যাব), বিএ০ (মুডিস) এবং বি প্লাস (এসএডিপ) এবং তথ্য নিরাপত্তায় আইএসও ২৭০০১ :২০১৩ সনদ আমাদের বিজনেস মডেলের সঠিকত্বের প্রতিফলন।এসব অর্জন অবশ্যই আমাদের গৌরব বৃদ্ধি করেছে। এডিবির 'মোফ্ট প্রোগ্রেসিভ ব্যাংক অন জেডার ফ্ট্রাটেজি এড ইমপ্লিটেন্টেশন' এশিয়া মানির ' বেফ্ট ব্যাংক ইন এসএমইস' জিবিএ'ব 'উইমেনস মার্কেট চ্যাম্পিয়ন' এবং সাফা, আইসিএবি এবং আইসিএমএবি অ্যাওয়ার্ড কর্পোরেট সুশাসনে আমাদের শ্রেষ্ঠত্ব অর্জনের সাধনাকে উপস্থাপন করে, ব্যাংকের ব্র্যাড ইমেজকে শক্তিশালী করে এবং বাংলাদেশের শ্রেষ্ঠ ব্যাংক হতে আমাদের আকাঙ্খাকে উজ্জবিত করে।

একটি সম্প্রসারণমূলক সরবরাহ নেটওয়ার্ক আমাদের অন্যতম মূল শক্তি। ২০১৭ সালে আমরা ৭ টি নতুন শাখা এবং ৯ টি এসএমই ইউনিট কার্যালয় স্থাপনের মাধ্যমে আমাদের কার্য্রক্রমের সম্প্রসারণ করেছি।

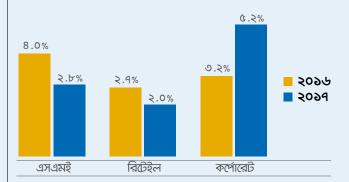

বতমানে ব্র্যাক ব্যাংকের দেশব্যাপী ১৮৬ টি শাখা, ৪৪০ টি এটিএম এবং ৪৬০ টি এসএমই ইউনিট কার্যালয় রয়েছে। সম্প্রসারণের বিবেচনায় ব্র্যাক ব্যাংক ব্যাংক খাতের প্রভাবশালী বাংক। ব্যাংকের সাবসিডিয়ারি বিকাশকে বিবেচনায় নিলে নিলে আমাদের নেটওয়ার্ক আরও বিষ্ণৃত। আমরা ডিজিটাল ব্যাংকিংয়ের ক্ষেত্রেও আমাদের সক্ষমতা বেশ জোরের সক্ষেই বাড়াচ্ছি, যার মাধ্যমে কম খরচ আমাদের কার্য্রক্রম সম্প্রসারণের সক্ষমতা তৈরি হবে। আমাদের সাবসিডিয়ারিগুলোও ২০১৭ সালে ভাল করেছে। আমাদের সাবসিডিয়ারি মোবাইল ব্যাংকিং সেবাদাতা প্রতিষ্ঠান বিকাশ ৪৮৮ মিণিয়ন টাকা কর পরবর্তী মুনাফা করেছে, যা আগের বছরের চেয়ে ২৬% বেশি। বিকাশের রাজন্মে বার্ষিক প্রবৃদ্ধি হয়েছে ২৫%। ব্র্যাক ইপিএল ষ্টক ব্রোকারেজ লিমিটেড ২০৫ মিলিয়ন টাকা কর পরবর্তী মুনাফা করেছে যা আগের বছরের চেয়ে ১৯০ মিলিয়ন টাকা কর পরবর্তী মুনাফা করেছে যা আগের বছরের চেয়ে ১৯০ মিলিয়ন টাকা বেশি। আমাদের সাবসিডিয়ারিগুলোর দৃঢ় আর্থিক অগ্রগতি বলে দেয় যে, গ্রুপ হিসেবে ব্যাংক তার পরিপূর্ণ সম্ভাবনা কাজে লাগানো এবং সীমাহীন সুযোগ ও সম্ভাবনার রাজ্যে যাত্রার পথে রয়েছে।

আমরা কীভাবে খেলাপি ঋণ নিয়ন্ত্রণে রেখেছি এবং আমাদের পোর্টফলিওর কাঠামোগত গুণাবলী রক্ষা করেছি?

খাণ গ্রহীতাদের সঙ্গে নিয়মিত যোগাযোগ রক্ষা আমাদের খেলাপি খাণ নিয়ন্ত্রণে রাখার জন্য সহায়ক। নিয়মিত পরিদর্শন ও ফোনে যোগাযোগের মাধ্যমে আমাদের গ্রাহকদের সাথে নিবিড় সম্পর্ক বজায় রাখার বিষয়ে আমরা কর্মীদের প্রশিক্ষণ দেই। বিশেষত আমাদের এসএমই খাণ প্রকৃতিগতভাবে সুপারভাইজরি খাণ। আমাদের মাঠ পর্যায়ের কর্মীরা গ্রাহকদের ব্যবসায়িক অঙ্গনে নিয়মিত পরিদর্শনে যায়, যা খেলাপি খাণ নিয়ন্ত্রণে রাখতে সহায়তা করে। এনপিএল ব্যবস্থাপনার আধুনিক চাবিকাঠি হলো মানেজমেন্ট ইনফরমেশন সিন্টেম (এমআইএস) এবং ব্র্যাক ব্যাংকে আমরা দ্রুততার সঙ্গে সময়মতো সিদ্ধান্ত গ্রহণের ক্ষেত্রে পরিপূর্ণভাবে এর ব্যবহার করি।

নতুন নিয়োগ পাওয়া ক্রেডিট রিঙ অফিসারদের (সিআরও) নেতৃত্বে ক্রেডিট আন্ডারটেকিংস পুনর্গঠনের পাশাপাশি ব্র্যাক ব্যাংক গ্রাহকের ঋণ পরিশোধের সক্ষমতা মূল্যায়নে একটি শক্তিশালী ঝুঁকি মূল্যায়ন প্রক্রিয়া

খাত ভিত্তিক খেলাপি ঋণ (%)

অনুসরণ করে থাকে। আমরা পুঞ্খানুপুঞ্খানুভাবে বিশ্লেষণের মাধ্যমে খ্রাহক নির্বাচন করি, যা পুরো ভ্যালু চেইনে কাজ করে অর্থাৎ ফুন্ট অফিস থেকে ঋণ মূল্যায়ন এবং তা থেকে অপারেশনস ও তারপর ঋণ প্রশাসন পর্যন্ত এ শৃঞ্খলে বিষ্ণৃত। গুরুত্বপূর্ণ বিষয় হলো, আমরা 'বিশেষ সম্পদ ব্যবস্থাপনা' পুনর্গঠন করি যাতে করে প্রবৃদ্ধি ও ব্যবসার নতুনত্বের সাথে বিন্যন্ত করতে পারি। আমাদের এসএমই বিভাগের আওতায় এসএমই ব্যবসায় গৃহীত 'এসিএম মডেল' ঋণ আদায়ে মাঠ পর্যায়ের কর্মীদের জবাবদিহিতার আওতায় এনেছে। একটি বিশেষায়িত পেশাদার বিশেষ ঋণ ব্যবস্থাপনা ও আদায় টিমের পাশাপাশি আমাদের রয়েছে ঋণ আদায় ও মনিটরিং টিম। 'ব্যবসা এবং ক্রেডিট টিম' গুলোর সাথে লিগ্যাল ও রিকভারি বিভাগের সমন্বিত প্রক্তিয়োয় খেলাপি ঋণকে কঠোর নিয়ন্ত্রণের মাধ্যমে রেখে আমাদের সম্পদের গুনগত মান বজায় থাকছে।

আপনার মতে ব্যাংকের জন্য নতুন নতুন ঝুঁকিগুলো কি কি? এসব ঝুঁকি মোকাবেলায় ব্যাংক কত্যুকু প্রস্তুত?

খেলাপি ঋণ ছাড়া কার্ড ও ই-কমার্সে প্রতারণার ঘটনা এখনকার উদীয়মান ঝুঁকি। প্রতারণা ঠেকাতে আমরা তদারকি বাড়াচ্ছি এবং প্রক্রিয়াগুলো বারবার পুন:পরিদর্শন করছি। আমরা ডিজিটাল লেনদেশে নিরাপত্তা জোরদারের পাশাপাশি ইভিএম চিপনির্ভর কার্ড পুবর্তনের প্রক্রিয়ার মধ্যে আছি। এসব পদক্ষেপ আমাদের গ্রাহুকদের আস্থা বাড়াচ্ছে। এছাড়া কার্ডে লেনদেনের ঝুঁকি কমাতে ব্র্যাক ব্যাংক ওটিপি প্রবর্তন করেছে। একই সঙ্গে ইন্টারনেট ব্যাংকিং ও ই-কমার্স লেনদেনের জন্য টু-ফ্যান্টির অথেনটিকেশন প্রবর্তন করা হয়েছে। ব্র্যাক ব্যাংক সব এটিএম বুথে এন্টি-দ্বিমিং ডিভাইজ স্থাপন করেছে। ব্র্যাক ব্যাংক দেশের একমাত্র ব্যাংক যে তার নিরাপদ তথ্য নিরাপত্তা ব্যবস্থাপনা পদ্ধতির স্বীকৃতিস্বরূপ

আইএসও ২৭০০১–২০১৩ অর্জন করেছে। তথ্য নিরাপত্তা ও গোপনীয়তা রক্ষায় আমরা গ্রাহকদের এবং আমাদের কর্মীদের জন্য নিয়মিত ভিত্তিতে ভিত্তিতে শিক্ষামূলক কার্য্রক্রমের আয়োজন করি।

ব্র্যাংক ব্যাংক সব সময় সম্ভাব্য ঝুঁকি সংক্রান্ত তথ্য বিনিময় করে। এ ক্ষেত্রে ব্র্যাংক ব্যাংক ব্যাংক খাতের পথিকৃত। যেমন, ট্রেজারি ও বৈদেশিক বাণিজ্যে কোনো ঝুঁকির আশংকা তৈরি হয়েছে মনে হলে আমরা অন্যান্য ব্যাংক এবং বাংলাদেশ ইনষ্টিটিউট অব ব্যাংক ম্যানেজমেন্ট (বিআইবিএম) এর সঙ্গে যৌথ অংশীদারিত্বে কর্পোরেট গ্রাহকদের জন্য সচেতনতাূলক বিভিন্ন সেমিনারের আয়োজন করে থাকি। এর উদ্দেশ্য, অফশোর ব্যাংকিং, বৈদেশিক মুদ্রা লেনদেন ও আন্তর্জাতিক বাণিজ্যের ঝুঁকি সম্পর্কে ভালভাবে জানা এবং সচেতনতা তৈরি করা।

দয়া করে সংক্ষেপে বিজনেস ডিভিশনগুলোর পারফরম্যান্স সম্পর্কে আলোচনা করুন

ব্র্যাক ব্যাংকের শুরু থেকেই এসএমই ব্যাংকিং এর কেন্দ্রবিন্দুতে রয়েছে। একটি নিবেদিত ও গ্রাহক বান্ধব মানব সম্পদ, নগদ প্রবাহ নির্ভর ঋণ মূলায়ন ব্যবস্থা, শক্তিশালী বিতরণ নেটওয়ার্ক, বিকেন্দ্রীভৃত সিদ্ধান্ত গ্রহণ ব্যবস্থা, স্বল্পতম সময়ে ঋণ বিতরণের সময়সীমা এবং ব্যাংকিং সেবার বাইরে থাকা কিংবা সীমিত সেবার আওতায় থাকা গ্রাহকদের আনুষ্ঠানিক ব্যাংকিং চ্যানেলে নিয়ে আসার চলমান প্রচেষ্টা আমাদের এসএমই চ্যানেলকে অপ্রতিদ্বন্দ্বী করে তুলে তুলেছে। ছোট ব্যবসার অগ্রণী ভুমিকার কারণে ২০১৭ সালে আমাদের এসএমই ঋণ বিতরণ বেড়েছে ২০,০০৬ মিলিয়ন টাকা, যার সঙ্গে পোর্টফলিও বেড়েছে ১৫,০৯৭ কোটি টাকা এবং গ্রাহক সংখ্যা বেড়েছে ১৪,৪০০ জন। দেশের এসএমই খাতের সম্ভাবনা খুজে বের করা এবং জাতীয় অর্থনীতিতে নিজেদের অবদান বাড়াতে আমাদের নিরলস প্রচেষ্টার কারণে ব্র্যাক ব্যাংক এশিয়ামানির সন্মানজনক ' বেষ্ট ব্যাংক ফর এসএমইগ' অ্যাওয়ার্ড পেয়েছে।

বিজনেস ডিভিশনগুলোর অর্জন সমূহ:

২০১৬ সালে নেওয়া কিছু উদ্যোগের কারণে কর্পোরেট ব্যাংকিং বিভাগ লক্ষ্যণীয় প্রবৃদ্ধি অর্জন করেছে। নতুন উদ্ধোধন করা কর্পোরেট শাখাগুলো এবং স্থানীয় কর্পোরেট টিমের পুনর্বিন্যাস ফান্ডেড ব্যবসায় উল্লেখযোগ্য প্রবৃদ্ধি অর্জনে সহায়ক হয়েছে। পাশাপাশি পুনর্গঠিত বৃহৎ কর্পোরেট টিম নন-ফান্ডেড ব্যবসায় বলিষ্ঠ প্রবৃদ্ধি আনতে ভুমিকা রেখেছে। এছাড়া ট্রেড বিজনেসের অধিকতর মনোযোগের লক্ষ্য নিয়ে একটি নিবেদিত 'ব্যবসা উনুয়ন টিম' গড়ে তোলা হয়। এসব পদেক্ষেপের কারণে ২০১৭ সালে ঋণ ও অগ্রিমে ১৬ শতাংশ, আমানতে ৩৬ শতাংশ এবং বাণিজ্য অর্থায়নে ২৫ শতাংশ প্রবৃদ্ধি হয়েছে।

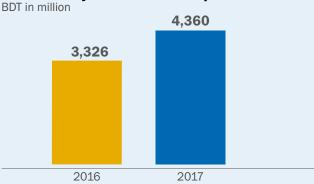

২০১৭ সালে ব্র্যাক ব্যাংকের বিটেইল ব্যাংকিং বিভাগের পোর্টফলিও ১৯ শতাংশ বেড়ে ৪০,৭৪১ মিলিয়ন টাকা হয়েছে। এই দ্রুত প্রবৃদ্ধি সম্ভব হয়েছে সম্ভবত বিটেইল ঋণ কার্য্রক্রমকে পণ্যকেন্দ্রিক দৃষ্টি থেকে গ্রাহক-কেন্দ্রিক দৃষ্টির দিকে রূপান্তর ঘটানোর মাধ্যমে। আমরা টেকসই উচ্চ প্রবৃদ্ধির ভিত্তি তৈরিতে সম্পদের গুনগত মান রক্ষার ওপর গুরুত্ব আরোপ করেছি। 'হোম লোন' ও 'অটো লোন' বাড়াতে সংশ্লিষ্ট বিভাগ বিয়েল এফেট ডেভলপার ও কার ডিলারদের সঙ্গে নিবিড়ভাবে কাজ করেছে। ব্যাংক খাতে শ্রেষ্ঠ ' টিএটি', পয়েন্ট অব সেলসের (পিওএস) উচ্চ সংখ্যাসহ ভেডরদের সাথে সম্পর্কের উনুয়ন এবং 'ব্যাকএড' প্রক্তিয়ার পুনর্বিন্যাস ব্যবসার প্রবৃদ্ধিতে সহায়তা করেছে। কৌশলগত বৈশ্বিক অংশীদারত্বেও কারণে ব্র্যাক ব্যাংক ২০১৭ সালে ৩৩৮.৪৬ মিলিয়ন ডলারের রেমিট্যান্স এনেছে। রেমিট্যান্স সংগ্রহে প্রবৃদ্ধি হয়েছে ৩০ শতাংশ।

২০১৭ সালে একটি বৃহৎ উদ্যোগের মাধ্যমে ব্র্যাক ব্যাংক তার শাখাগুলোকে অভিন্ন সরবরাহ (ডিষ্ট্রিবিউশন) নেটওয়ার্কে সংযুক্ত করে এবং এ প্রকিয়ায় শাখাগুলোকে ৮ টি অঞ্চলে ভাগ করে। একটি কেন্দ্রীভূত ডিষ্ট্রিবিউশন নেটওয়ার্কে শাখাগুলোকে পুনর্গঠন ও সংযুক্ত করার প্রাথ মিক উদ্দেশ্য ছিল, আমাদের গ্রাহকদেরকে অধিকতর ভাল সেবা দেওয়া এবং আমাদের প্রোডাক্ট ও সেবার পরিপূর্ণ সক্ষমতাকে উপস্থাপন করা। একই ছাদের নিচে প্রয়োজনীয় সব সেবা দেওয়াই ছিল আমাদের উদ্দেশ্য।

আপনি কিভাবে কর্মীদের অবদানকে মূল্যায়ন করবেন? দয়া করে ব্যাংকের কর্মকর্তাদের কল্যাণে নেওয়া পদক্ষেপগুলো বলুন

ব্র্যাক ব্যাংকের লক্ষ্য হলো, দেশের সবচেয়ে কর্মী-বান্ধব প্রতিষ্ঠানে পরিণত হওয়া। এ লক্ষ্য পূরণে আমরা সবচেয়ে প্রতিভাবান কর্মী নিয়োগের দর্শণ অনুসরণ করি। তাদেরকে বিশ্বমানের প্রশিক্ষণ দেই এবং এ খাতের সর্বোত্তম চর্চার আলোকে কর্মীদের ধরে রাখার কর্মসুচি হিসেবে ভ্যালুব্রেসড সুবিধা দেই। আমরা গভীরভাবে বিশ্বাস করি, কর্মীরা আমাদের সবচেয়ে মূল্যবান সম্পদ এবং কর্মীদের সুবিধা দেওয়া সবচেয়ে বড় দীর্ঘমেয়াদি বিনিয়োগ। কর্মীদের সুবিধা ও কল্যাণের জন্য আমরা একটি বৃহত্তর কাঠামো প্রতিষ্ঠা করেছি। বর্তমানে ব্যাংক কর্মীদেরকে নানান ধরণের সুবিধা দিচ্ছে। বেতন ভাতার পাশাপাশি অন্যান্য সুবিধার মধ্যে রয়েছে প্রভিডেন্ট ফাণ্ড, গ্রাচুর্য়িটি ফাণ্ড, জীবন বীমা পলিসি, কল্যাণ ফাণ্ড, হাসপাতালে ভর্তি হলে বীমা সুবিধা প্রভৃতি। আমাদের কর্মীরা এসব সুবিধা পায় তাদের সিনিয়ারিটির পর্যায়ের ভিত্তিত।

Staff Salary and Welfare Expenses

২০১৮ সালে কি কি নতুন উদ্যোগ গ্রহণ করতে পারেন বলে প্রত্যাশা করা যায়?

২০১৮ সাল সামগ্রিকভাবে ব্যাংকিং খাতের জন্য চ্যালেঞ্জিং বছর হবে বলে পূর্বাভাস রয়েছে। দক্ষ তারল্য ব্যবস্থাপনার প্রয়োজনীতা বৃদ্ধি, দেশের বৈদেশিক লেনদেনের (ব্যালান্স অফ পেমেন্ট) ঘাটতি বৃদ্ধি, বৈদেশিক মুদ্রা ও লাইবরের উর্ধ্বগামী হার , সংশোধিত রেগুলেটরি

ফুেমওয়ার্ক এবং বিশেষত আগামী জাতীয় নির্বাচনের আলোকে সামাজিক–রাজনৈতিক বিভিন্ন ইস্টু বিবেচনায় বছরটিকে চ্যালেঞ্জিং বলা হচ্ছে। এই দৃশ্যপটে ব্র্যাক ব্যাংক দক্ষ তারল্য ব্যবস্থাপনা, রফতানি বাণিজ্যে এর ব্যাপ্তি বৃদ্ধি এবং সতর্ক পোর্টফলিও ব্যবস্থাপনা নিশ্চিতের ওপর গভীরভাবে মনোযোগ দেবে।

এসব চ্যালেঞ্জ সঞ্জেও আমরা একটি চমংকার ২০১৮ সাল কল্পনা করছি। যে বছরটি হবে বড় প্রযুক্তি প্রকল্প বাস্তবায়নের বছর এবং কোর ব্যাংকিংয়ে আরও উন্নতি বছর। আমরা আশা করছি, আধনিক প্রযুক্তি ও নতুন ব্র্যাঞ্চ ব্যাংকিং মডেল বাস্তবায়নের ফলে টার্ণঅ্যারাউন্ট টাইম (টিএটি) কমবে, ব্যবসায়ে আরও গতি তৈরি হবে এবং নতুন ব্যবসার সুযোগ তৈরি হবে। কোর ব্যাংকিং সিম্টেমে (সিবিএস) গমন আমাদের ঋণ মূল্যায়ন, বিতরণ ও আদায়ের সক্ষমতা উল্লেখযোগ্য মাত্রায় বাড়াবে। ডকুমেন্ট ম্যানেজমেন্ট সিম্টেমের প্রবর্তন গ্রাহকদের জন্য অপেক্ষাকৃত কম ডকুমেন্টেশন চাহিদা তৈরি করবে। একই সঙ্গে লোন

ওরিজিনেশন সিন্টেম এবং ক্রেডিট স্কোরিং ঋণ প্রক্রিয়াকে আরও শানিত করবে। পাশাপাশি আমরা 'যে কোনো সময় যে কোনো ব্যাংকিং' সেবা দিতে ই-ব্যাংকিং সেবা বাড়ানোর দিকে দৃষ্টি দেবো।

আমরা ফাণ্ডেড ও নন-ফাণ্ডেড ব্যবসার যথাযথ মিশ্রণের মাধ্যমে আমাদেও পোর্টফলিও প্রবৃদ্ধি বজায় রাখবো। আমাদের নতুন ডিষ্ট্রিবিউশন মডেলের ওপর নির্ভর করে আমরা একটি ভারসাম্যপূর্ণ সম্পদ ও দায়ের মিশ্রণ ঘটাতে ক্রস-সেলিং সংস্কৃতিকে তুলে ধরবো।

আমাদের বিষ্ণৃত ডিষ্ট্রিবিউশন নেটওয়ার্ক, দক্ষ মানব সম্পদ, পুন:প্রকৌশল প্রক্রিয়া এবং আইটি নির্ভর সলিউশন্স – এর ব্যবহারের মাধ্যমে ব্যাংক ২০১৮ সালে নতুন উচ্চতায় পৌছানোর লক্ষ্য নির্ধারণ করেছে, যার মাধ্যমে দেশের শ্রেষ্ঠ ব্যাংক হওয়ার মূল লক্ষ্যের খুব কাছে যাওয়া যাবে।

Accelerating the value creation momentum

The 2017 report aims to provide all stakeholders with an account of the group's operational, financial, economic, social and environmental performance and its creation of value in terms of leveraging our core business drivers, governance culture, sectoral opportunities and underlying risks during the period reviewed as well as prospects of the unfolding future.

Welcome to BRAC Bank Limited's Integrated Annual Report 2017. In the spirit of our positioning as the largest and among the fastest-growing banks of Bangladesh, and in the essence of our aspirations to emerge as the 'Best Bank' of the country, this report enunciates our execution initiatives and performance in 2017 and articulates our strategies and future aspirations. Our emphasis is on building on our foundations in our focus on accelerating the value creation momentum for our stakeholder communities. This is unambiguously at the core of our operating culture and business model.

Embracing the integrated reporting framework, this report aims to provide a transparent and balanced appraisal of the material issues that faced our business during the year under review and that impacted our ongoing ability to create value. The report should be read in conjunction with the full financial statements.

The 2017 report aims to provide all stakeholders with an account of the group's operational, financial, economic, social and environmental performance and its creation of value in terms of leveraging our core business drivers, governance culture, sectoral opportunities and underlying risks during the period reviewed as well as prospects of the unfolding future. As with our past reports, for 2017 too we continue to place a premium on conciseness in our printed reporting while increasing our level of disclosures.

Our 2016 Annual Report was adjudged the overall winner in our category (private sector banking) across both ICAB and SAFA, a reflection of the importance we place on information disclosure – information that is both qualitative as well as quantitative.

Scope and boundary of this report

This Integrated Annual Report covers the period from 1 January 2017 to 31 December 2017. Our 2017 report concerns the operations of BRAC Bank Limited and its

subsidiaries. There has been no material change in the scope and boundary of the Integrated Annual Report compared to the prior year, or historical financial data.

Materiality

In this report, we seek to address those issues that are most material to our formulation and execution of strategy. As in the previous year, in 2017, our leadership explicitly determined that our most material issues related to:

- Our commitment to financial inclusion and financial empowerment, as embodied in our vision, mission and values
- Our focus on leveraging cutting-edge technology to provide our customers with a multi-faceted, safe and secure banking experience
- Our responsibility to embrace the highest standards of ethics, transparency and governance and abide by all regulations in our bid to sustain our image as a model financial institution that is trusted and respected by all

Our leadership's determination of materiality was informed by the reports emanating from our enterprise risk management process and extensive engagement with stakeholders, many of whose interests are today more extensively aligned with those of the Bank.

A list of our most material issues include the following:

- Fostering a culture of governance and performance
- Keeping our operations secure
- Driving sustainable profitability
- Creating social and societal value

Forward-looking statements

Certain statements in this document constitute 'forward-looking statements' which involve known and unknown risks and opportunities, other uncertainties and important factors that could turn out to be materially different following the publication of actual results. These forward-looking statements speak only as of the date of this document. The bank undertakes no obligation to update publicly, or release any revisions, to these forward-looking statements, to reflect events or circumstances after the date of this document, or to reflect the occurrence of anticipated events.

Assurance

We have in place a developed combined assurance model and systems, the effectiveness of which receives ongoing focus from the Board because of the extent to which our most material risks affect our sustainability and going concern status. Given our reliance on a wide range of stakeholders to grant us our legal and social licences to operate, we place as much of importance on the integrity of external reports as we place on the information used for key internal decision-making. Detailed ongoing audits by both internal and external auditors provide assurance on the integrity of our operations and the sustainability of our business model.

Board responsibility

The Board, together with the audit and risk committee, takes responsibility for this Integrated Annual Report. In the Board's opinion, this report addresses the material issues and accurately presents the integrated performance of the organisation and its impact. The Board authorised this report for release on 22 March 2018.

The world of BRAC Bank

In 2001, BRAC Bank began its journey unlike any other conventional bank. The visionary founder of the bank realized that the previously neglected Small and Medium Enterprises (SME) sector plays a significant role in generating growth and creating employment in the country. Over the previous decades, traditional banks were reluctant to invest in this sector. At a time when it was almost impossible for SME entrepreneurs to get financing from the banking sector in Bangladesh, BRAC Bank stepped forward to help these unbanked SME entrepreneurs and continues to provide financial support to them.

BRAC Bank is a performance-driven organization, where its values are at the core of every activity. It is the sole member of Global Alliance for Banking on Values (GABV) from Bangladesh. The Global Alliance comprises 46 financial institutions operating in countries across Asia, Africa, Australia, Latin America, North America and Europe, serving 41 million customers, holding up to USD 127 billion of combined assets under management and powered by a network of 48,000 co-workers.

BRAC Bank shares the 3P Philosophy – 'People, Planet & Profit' with other partners of GABV. We believe that we are responsible towards the people we work with and the places we operate in. As a mission-driven bank, we choose to work for the welfare of our people and the larger society.

Today, the bank has grown into a dominant player in the industry with 186 branches, 16 Premium Banking Lounges, 447 ATMs, 90 CDMs and 457 SME Unit Offices across the country. With a team of over 6,500 employees, BRAC Bank caters to more than 1,500,000 customers through its diversified range of SME, Retail and Wholesale Banking solutions.

FINANCIAL PERFORMANCES SNAPSHOT 2017 (STANDALONE):

Over the last decade, BRAC Bank has emerged as the market leader in the SME business. However, over recent times, the focus has increased on Retail and Corporate businesses to cater to the full set of banking needs of potential markets as well as to diversify the portfolio. Having laid this strong foundation and started building the momentum relying on the trust and confidence of more than 1.5 million customers, your bank - BRAC Bank -is speeding ahead to become the 'Best Bank' in the country in the coming years.

Company Philosophy

FOCUS ON PEOPLE:

We are dedicated to the people of Bangladesh because we believe in the faith and hope of 160 million.

BRAC Bank has long been a catalyst for SME development in Bangladesh. Since its inception, BRAC Bank has disbursed around BDT 30,869 million across the country. It has played a pivotal role in the development of the SME sector by creating a unique model of collateral free SME lending, which has enabled SME entrepreneurs the 'missing middle' get easy access to finance. Furthermore, with its wide distribution network, BRAC Bank has reached a large population across the distant corners of Bangladesh.

FOCUS ON PLANET:

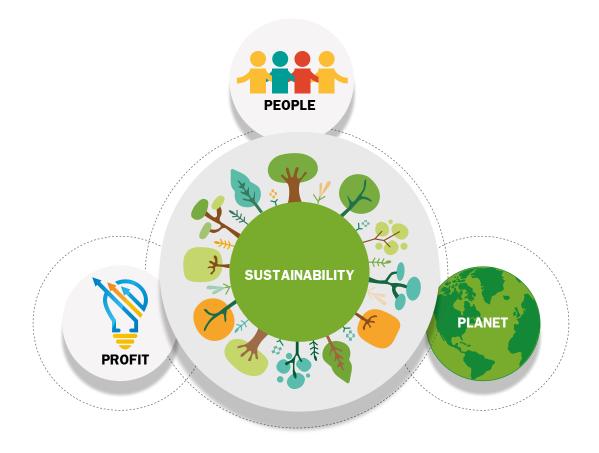

As a major player in the financial service market, BRAC Bank influences communities, people and the environment – directly and indirectly through its customers, suppliers and employees.

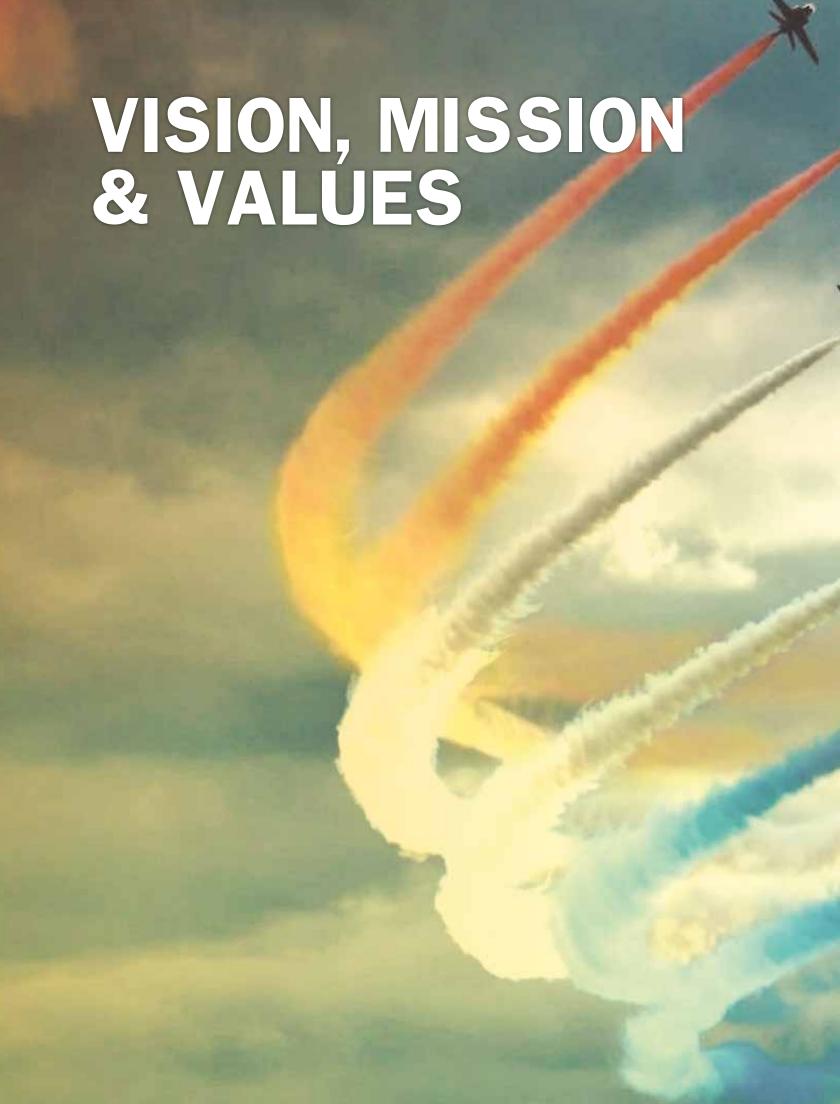

BRAC Bank cares for the planet and as a founding member of Global Alliance for Banking on Values (GABV), it ensures that enterprises receiving SME loans from the bank meet common environmental standards.

BRAC Bank in partnership with renowned international organizations and local banks has initiated a capacity building program for Bangladeshi bankers. The aim of the program is to support commercial banks / bankers in Bangladesh to build their knowledge and capacities to address Environmental and Social (E&S) risks and opportunities and identify innovative and bankable green opportunities.

FOCUS ON PROFIT:

BRAC Bank believes that if banks look at the nature of the projects they support, they can become drivers of sustainable progress. As a values-based bank, our profits are generated by investing money with the intention that it serves the communities we work in.

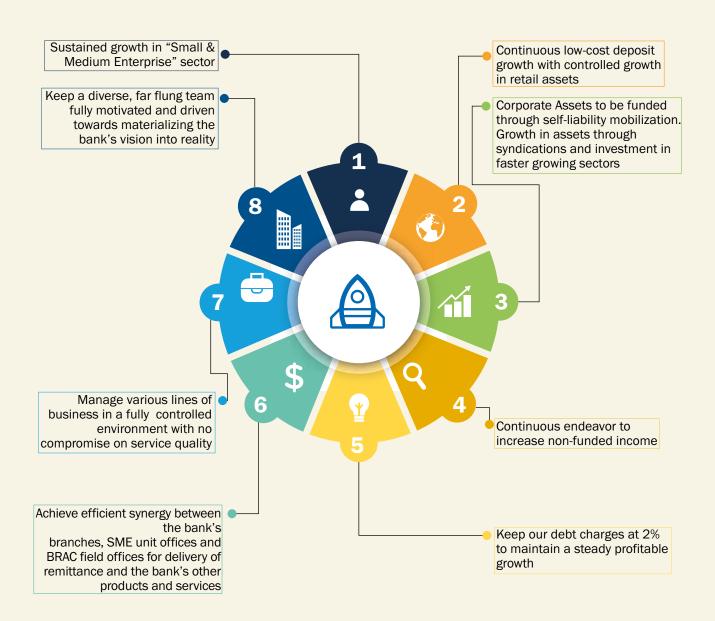

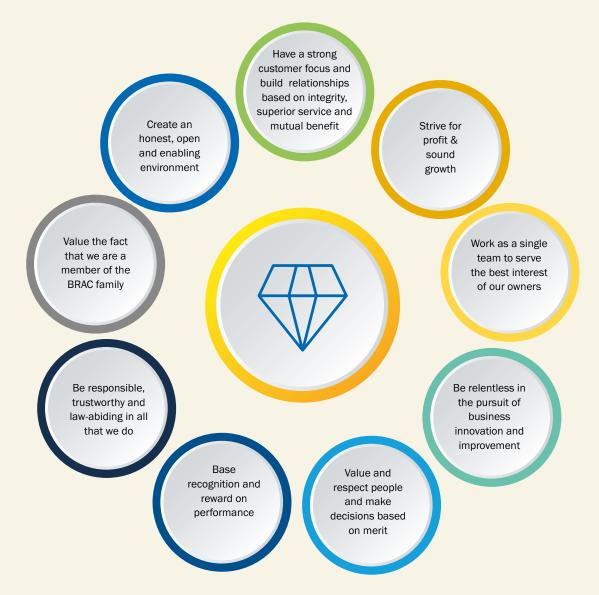

Vision, Mission & Values

Corporate Vision

BRAC Bank Limited wins the Asian Development Bank's Annual Trade Finance Program (TFP) Award for the year 2017 as the "Most Progressive Bank on Gender Strategy and Implementation".

Sir Fazle Hasan Abed KCMG

Sir Fazle Hasan Abed KCMG is the Founder Chairman of BRAC Bank Limited. He rejoined the Board as Chairman in March 2013. He is also the Founder and Chairperson of BRAC, one of the largest NGOs in the world ranked first by Geneva-based 'NGO Advisor' in 2016 and 2017 in terms of innovation, impact and governance. Established in 1972, BRAC's primary objectives are alleviating poverty and empowering the poor. It operates across 11 countries in Africa and Asia.

Through his work on microfinance for the poor, Sir Abed became aware that there was a substantial small entrepreneur class, the "missing middle", with no access to institutional finance. This realization led him to establish a full-service commercial bank – BRAC Bank Limited – with a view to focusing attention on the financing Small and Medium Enterprises.

Sir Abed has received numerous national and international awards for his achievements in leading BRAC, including the Ramon Magsaysay Award for Community Leadership (1980), InterAction Humanitarian Award (1998), Olof Palme Award (2001), Schwab Foundation Social Entrepreneurship Award (2003), UNDP Mahbub ul Haq Award for Outstanding Contribution in Human Development (2004), Gates Award for Global Health (2004), Palli Karma Shahayak Foundation (PKSF) Award for Lifetime Achievement in Social Development and Poverty Alleviation (2007), Henry R. Kravis Prize in Leadership (2007), Inaugural Clinton Global Citizen Award (2007), David Rockefeller

Bridging Leadership Award (2008), Entrepreneur of the World Award (2009), Inaugural WISE Prize for Education (2011), CEU Open Society Prize (2013), Leo Tolstoy International Gold Medal (2014), Spanish Order of Civil Merit (2014), Trust Women Hero Award (2014), World Food Prize (2015) and Thomas Francis Jr. Medal in Global Public Health (2016).

In 2009, he was appointed Knight Commander of the Most Distinguished Order of St. Michael and St. George by the British Crown in recognition of his services in reducing poverty in Bangladesh and internationally. Sir Abed is recognized by Ashoka as one of the "global greats" and is a founding member of its prestigious Global Academy for Social Entrepreneurship. In 2010, Sir Abed was appointed by UN Secretary General Ban Ki-moon to the Eminent Persons Group for the Least Developed Countries.

Sir Abed has received many honorary degrees, including from Yale University (2007), Columbia University (2008), the University of Oxford (2009) and Princeton University (2014).

Sir Abed was born in Bangladesh in 1936. He completed his secondary education from Dhaka College, after which he studied Naval Architecture at the University of Glasgow. Sir Abed later joined the Chartered Institute of Management Accountants in London, completing his professional education in 1962.

Directors' Report

Dear Shareholders,

The Board of Directors of BRAC Bank Limited is pleased to present the Directors' Report along with the audited financial statements for the year ended December 31, 2017. This report comprehensively outlines the performance of the bank for the year ended December 31, 2017.

The Board of Directors has arranged the setting up of policies, procedures and effective control over financial data, information and the preparation of financial statements to ensure control, transparency and accuracy of financial data and financial reporting of the bank. The Board has also reviewed the financial statements on a quarterly and annual basis. The report summarizes the global and local economic performance and presents a detailed analysis of the bank's performance for the year 2017.

GLOBAL ECONOMY

In 2017, the global economy shaped well for the financial markets to report stronger performance. The fears that dominated the latter stages of 2016, comprising the aftermath of the market crash after the outcome of the US presidential elections, Brexit-triggered recession

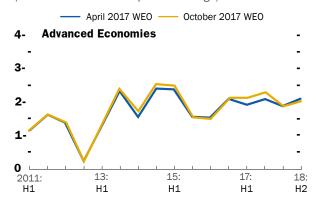

in the UK and a collapse of the Eurozone following the subsidence of the Italian banking system, are now considered to be events of the past as the world looks at new triggers of growth today.

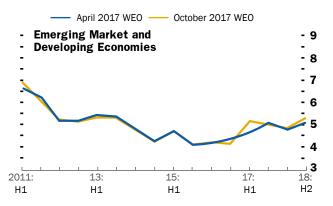

The global economic forecast for 2018 estimate growth of 3.9%. Notable pick-up in investment, trade and industrial production, coupled with strengthening business and consumer confidence, are together supporting the recovery, which is expected to sustain over the foreseeable future. With the growth outcome in the first half of 2017 generally stronger than expected, upward revisions to growth are broad-based, including in the largest economy of the United States and the Euro area, Japan, China, emerging Europe and Russia.

The acceleration in global activity that started in 2016 gathered steam in the first half of 2017, reflecting firmer domestic demand growth in advanced economies and in China and improved performance in other large emerging market economies. The continued recovery in global investments spurred stronger manufacturing activity. World trade growth moderated in the second quarter of 2017 after expanding briskly in the first quarter. Global purchasing manager indices and other high-frequency indicators for July and August 2017 suggest that global growth momentum continued into the third quarter of 2017 as well.

BRAC Bank continued to keep pace in delivering growth in every aspect of its operating performance during the year 2017. The bank strengthened its focus on cost optimization and improving operating efficiency, a balanced approach that has enabled us to upgrade our capabilities to respond to market needs and prepare us to become the best bank in Bangladesh.

Among advanced economies, domestic demand and output grew faster in the first half of 2017 than in the second half of 2016. In the US, weakness in consumption in the first quarter of 2017 turned out to be temporary, while business investment continued to strengthen, partly reflecting a recovery in the energy sector. In the Euro area and Japan, stronger private consumption, investment and external demand bolstered overall growth momentum in the first half of the year 2017. Growth in most of the other advanced economies, with the notable exception of the United Kingdom, picked-up in the first half of 2017 from its pace in the second half of 2016 with contributions from both domestic as well as external demand.

Rebound in oil prices

Global oil prices have recovered sharply in 2017, benefiting from increasing demand from factories around the world, particularly in China, amid a boom in economic activity. After crashing in late 2015 to spook the global markets, the year 2017 has been one of the calm and steady gains. OPEC has reined in production to keep a lid on supply while there have been no major escalations in tension to drive-up the price to unsustainable levels. However, US shale oil production may start to come back at current prices, as the more expensive costs involved with extraction become yet again economical. This could boost supply, leading to a fall in oil prices.

Chinese debt worries

China's rapidly accumulating debt pile, having quadrupled since the financial crisis, became of increasing concern in 2017, although this has not yet roiled the global markets. The IMF warned that Chinese debt is now high versus international norms and that rapid growth may have led to unwillingness among officials to let struggling firms fail. In September 2017, Standard & Poor's downgraded the nation's credit rating citing risks from debts, which have quadrupled since the financial crisis. While China has started taking steps to rein in debt without having affected its growth rate so far, economists worry that a wrong move by officials could upset the apple cart in the near future.

Bitcoin mania takes hold

Probably the financial story of the year, even though there are fears of an oncoming crash, 2017 went down as the year of the crypto currency. Bitcoin's rise has been meteoric, beginning the year valued at about \$1,000 and reaching almost \$20,000 by the middle of December 2017. Economists think bitcoin has all the signs of a bubble, with worrying parallels to the Tulip mania of the 17th century when the price of the bulbs crashed in a spectacular fashion after a buying frenzy.

Global liquidity tightening

The US continued their rate hike in 2017. Moreover, the US Federal Reserve is expected to hike rates three times more in 2018, as well as optimise the balance sheet by selling bonds and pulling off money from the market. This will cause liquidity tightening and transfer from emerging markets. The below chart shows how LIBOR rates over 3 and 6 months have sharply moved up from 2012 to 2017.

Emerging markets

The growth rate for emerging markets and developing economies was forecast to rise to 4.6 percent in 2017, 4.9 percent in 2018 and about 5 percent over the medium term. In per capita terms, growth rates are about 1.3 percentage points lower but substantially above the per capita growth rate for advanced economies (1.4 percent, on average, during 2017-22), implying a gradual convergence in GDP per capita between the two country groups. For emerging markets and developing economies, this pace of growth and convergence is slower than during the past decade, but faster than during 1995-2005.

The projected aggregate growth rate over 2017-22 is sustained by fast growth in the two largest countries by population of China and India, which together account for more than 40 percent of the GDP (whether measured in terms of purchasing power parity or market rates) and more than 40 percent of the population of emerging markets and developing economies. Indeed, the forecast for growth in GDP per capita falls below the group's aggregate figure of 3.5 percent for about 3/4 of the emerging markets and developing economies. And for 43 economies (28 percent of the total), per capita growth rates are projected to be lower than that for advanced economies, implying a decline in relative living standards rather than convergence.

Global inflation

In developed economies, the uptick in GDP growth has been associated with an easing of deflationary pressures, which posed a key policy concern in 2015-2016. In the first half of 2017, inflation dynamics in many countries were impacted by the steep YoY rise in energy prices relative to the lows seen in early 2016. While this transitory impact had largely dissipated by mid-year, longer-term inflation expectations in developed countries, as measured by the difference between nominal and inflation-indexed government bond yields, have edged upward relative to 2016 levels, suggesting expectations of a return.

The upward shift in inflation led the President of the European Central Bank (ECB) to state in March 2017 that "The risks of deflation [in Europe] have largely disappeared." Subsequently, the ECB halved the pace of its asset purchases. In Japan, inflation has edged above zero, while in the UK and the US, headline inflation exceeded the central bank targets of 2 percent for at least a part of 2017. In aggregate, inflation in developed economies is expected to average 1.5 percent in 2017, up from 0.7 percent in 2016, but still well below central bank inflation targets.

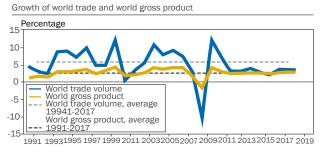

Global inflationary pressures are expected to remain relatively benign. In developed economies, inflation is expected to hover close to central bank targets in 2018-2019. Despite low unemployment in many developed economies, wage pressures generally remain weak. This may, in part, be a reflection of rising inequality and limited bargaining power of those on the lower end of income scales. The rise in inequality bears its own risks for the real side of the economy. Unless demand accelerates or there is a marked shift in wage pressures, inflation in developed economies will likely remain moderate. A reemergence of deflationary pressures would pose a policy challenge for central banks as they move towards the withdrawal of monetary stimulus.

Global trade

Buoyed by the cyclical upturn in global growth, world trade rebounded in 2017, expanding at an estimated pace of 3.7 percent during the year. This follows exceptionally weak trade flows in 2016, with global trade volume expanding at a post-crisis low growth rate of 2.2 percent.

The recovery in international trade was accompanied by a pick-up in world industrial output and a rise in the Global Manufacturing Purchasing Managers' Index to a six-year high. Demand for international air freight and container shipping also gained momentum in 2017, amidst stronger export orders and relatively higher prices of key commodities, in particular crude oil and metals. The modest investment revival in several developed and developing economies, which has contributed to increased trade of capital and intermediate goods, is seen as spurring the global trade rebound.

Growth of World Trade and World Gross Product

Source: World Economic Situation and Prospects, 2018

In the first eight months of 2017, world merchandise trade grew at its fastest pace in the post-crisis period. The strong growth, however, was in part due to a low base effect, given the exceptional weakness in trade flows observed in the first half of 2016. From an imports perspective, there was a marked variation in the strength of import demand between regions.

Global economic outlook:

The global GDP started inching upward again in 2017 after experiencing a stagnant 3% annual growth till 2016. The global economy grew 3.7% in 2017. Around half of the world economies witnessed positive growth due to increased demand and production of industrial products and rising investments to support the demand growth, which resulted in increase of trade business throughout the world. Due to increased domestic and external demand, developed economies like the US, Eurozone, Canada and Japan started picking-up pace again after facing the global financial crisis of 2009-10. The growth of emerging and developing economies like China, India and Bangladesh reported consistent growth in 2017 as well. Emerging and developing Asia, which account for over half of world growth, experienced 6.5% growth in 2017.

This positive movement of the global economy is projected to continue in the coming year as well. The projected growth of global economy is 3.9% for 2018 which is 0.2% higher than the actual growth of 2017. The growth forecasts for the US and advanced economies have been revised up, counting on stronger than expected growth in 2017. Japan and other export-oriented countries are expected to benefit from increased global investment and trade and are likely to post stronger growth in 2018. Emerging markets and developing economies are expected to grow at 4.6%, while advanced economies are expected to grow at 2.2%. Southeast Asia however, is expected to grow by 5.1% in 2018.

Brighter prospects, optimistic markets and challenges ahead in global economy in the coming years may be expected some points to note:

- Global economic activity continues to firm up. The pickup in growth has been broad-based with notable upside surprises in Europe and Asia.
- The US tax policy changes are expected to stimulate activity, with the short-term impact in the US mostly driven by the investment response to the corporate income tax cuts. The effect on US growth is estimated to be positive through 2020, cumulating to 1.2 percent through that year. The effects of the package on output in the US and its trading partners contribute about half of the cumulative revision to global growth over 2018-19.

The current cyclical upswing provides an ideal opportunity for reforms. Shared priorities across all economies include implementing structural reforms to boost potential output and making growth more inclusive. In an environment of financial market optimism, ensuring financial resilience is imperative. Weak inflation suggests that slack continues to remain in many advanced economies and monetary policy should continue to remain accommodative. However, improved growth momentum means that fiscal policy should increasingly be designed with an eye on mediumterm goals, ensuring fiscal sustainability and bolstering potential output. Multilateral cooperation remains vital for securing sustainable global recovery.

Bangladesh economy review

The Bangladeshi economy showed resilience in 2017, despite facing significant challenges, including country-wide flooding in August 2017, which took a heavy toll on infrastructure and crop development and the accommodation of hundreds of thousands of Rohingya refugees. Smaller year-on-year export growth was recorded in the period July-November 2017, a surge in imports led to a deterioration in the trade balance. And although worker remittance inflows were strong in December 2017, there was a decline overall during the year, compared to 2016. Though some macro indicators reflect positive trends, the overall economic strength is weakening due to a number of developments toward the second half of the year, including a large trade gap and substantive negative current account balance.

One of the major achievements of the economy has been a 7.28 percent economic growth in FY2016-17, breaking the 6 percent cycle that continued for a decade or so. Like previous years, major boost of growth has come from the industrial sector, followed by the services sector. Though average inflation has been hovering at around 5.5 percent, food inflation is showing an increasing rate in recent months, mainly because of agricultural loss due to two rounds of floods.

Sovereign ratings

Ratings continued to be the same in 2017, as assessed in 2016. As per the assessment in 2016, Bangladesh achieved Ba3 (Moody's sovereign rating) and BB- (Fitch long-term foreign and local currency issuer default ratings) with stable outlook. Fitch's rating, published on 11 January 2018, showed the same rating for Bangladesh. Bangladesh's ratings balance strong foreign currency earnings and high and stable real GDP growth against weak structural indicators, significant political risk and weak health of the banking sector. Bangladesh's real GDP growth is at a five-year high (average of 6.5%), compared with the 'BB' category median of 3.5%. Bangladesh's external finances are

supported by comfortable and gradually rising foreign exchange reserves, amounting to USD 33.27 bn in December 2017 (approximately 8 months of current external payments, compared with 4.4 months for peers in the 'BB' category).

Agricultural sector

Bangladesh is predominantly an agrarian country, where the agricultural sector plays a vital role in accelerating economic growth. It is therefore important to have a profitable, sustainable and environment-friendly agricultural system in order to ensure long-term food security for the citizens of the nation. Over the last few years, there has been an increasing trend in food production. According to the publication from the Ministry of Finance, there was 1.96% growth in the agriculture and forestry sectors in 2016-17, which was 1.79% in the previous fiscal year. The growth of the three subsectors, i.e. crops and horticulture, animal farming and forest and related services reached 0.96 percent, 3.31 percent and 5.60 percent, respectively, in FY2016-17, which was 0.88 percent, 3.19 percent and 5.12 percent, respectively, in the previous fiscal year. The food grain production (rice, wheat and maize) in FY2016-17 was 38.814 million metric tonnes (MT), which was 38.817 million MT in the previous fiscal year. Rice production in FY2016-17 was 33.813 million MT, which was 34.710 million MT in the previous fiscal year. Besides, wheat production in FY2016-17 was 1.423 million MT, marginally higher than 1.348 million MT of the previous fiscal year. Maize production in FY2016-17 was 3.578 million MT, higher than 2.759 million MT of the previous fiscal year. According to estimates of the Department of Fisheries, the total inland and marine fish production in FY2016- 17 is expected to be 4.050 million MT, which was 3.878 million MT in the previous fiscal year.

Industry sector

According to final estimates, the growth of 3 sectors ('mining and quarrying', 'manufacturing' and 'electricity, gas and water supply') declined while growth of the construction sector increased in FY2016-17. The growth of natural gas and crude petroleum sub-sectors moderated to 0.34% in FY2016-17, which was 11.77% in the previous fiscal year. However, growth of other mining and coal sub-sectors significantly increased to 21.19% from 14.42% in the previous fiscal year. Similarly, growth of large and medium-scale manufacturing sub-sectors slightly decreased to 11.20% but small scale manufacturing sub-sectors increased to 9.82%. Moreover, growth of 3 sub-sectors, i.e. electricity, gas and water supply were 9.22%, 0.28% and 11.09%, respectively in FY2016-17, which were 14.20%, 9.91% and 7.40%, respectively, in the previous fiscal year. On the other hand, growth in the construction sector slightly increased to 8.77% in FY2016-17 from 8.56% in the previous fiscal year.

Services sector

According to the final data, growth in the broad services sector increased in FY2016-17, compared to the growth in the previous fiscal year. The output of the wholesale and retail trade, hotel and restaurants and transport, storage and communication sectors under the broad service sector categories rose to 7.37%, 7.13%, 6.76%, respectively, in FY2016- 17, which were 6.50%, 6.98% and 6.08%, respectively, in the preceding fiscal year. Five sub-sectors, i.e. land transport, water transport, air transport, support transport services, storage and post and telecommunications under transport storage and communication sectors registered growth of 7.06 percent, 4.10 percent, 2.79 percent, 6.40 percent and 6.98 percent, respectively, in FY2016-17, which were 6.28 percent, 3.20 percent, 1.48 percent, 5.19 percent and 6.81 percent, respectively, in the earlier fiscal year. The growth of financial intermediation, real estate, renting and business activities, health and social work and community, social and personal services sectors increased to 9.12 percent, 4.80 percent, 7.63 percent and 3.62 percent, respectively, in FY2016-17. However, the growth of public administration and defense, and education declined to 9.15 percent and 11.35 percent in FY2016-17 from 11.43 percent and 11.71 percent, respectively, in FY2015-16.

Growth performance

The Bangladeshi economy grew 7.28 percent in FY2017, up from 7.1 percent in FY 2016. The growth was mainly supported by industry and services sectors. Agriculture, which accounts for 14.7 percent of the GDP, grew by 3 percent in FY17, up from 2.8 percent in FY2016. Industry, which accounts for 32.4 percent of the GDP, grew by 10.2 percent in FY2017, down from 11.1 percent in FY2016. The services sector accounts for the largest portion of 52.9 percent of the GDP and grew by 6.7 percent, compared to 6.3 percent in the previous fiscal year.

Savings and investments

Investments relative to GDP increased marginally over the past few years. It increased to 30.51% in FY2017 from 29.65% in FY2016. Private investments increased slightly to 23.10 percent in FY2017, from 22.99 percent

The Bangladeshi economy grew 7.28 per cent in FY2017, up from 7.1 per cent in FY 2016. The growth was mainly supported by industry and services sectors.

in FY2016. However, public investment-to-GDP increased to 7.41% from 6.66% over the same period.

Chart 1.1 Trends of domestic savings Investment and savings-Investment gap

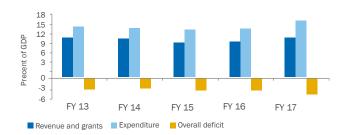

Gross national savings as a percentage of GDP declined marginally to 29.64% in FY2017 from 30.77 percent in FY2016. In contrast, domestic savings as a percentage of GDP improved from 24.98% to 25.33% over the same period. Gross domestic investments at current market prices grew faster than gross domestic savings. As a result, domestic saving-investment gap as a percentage of GDP widened from 4.67% in FY2016 to 5.18% in FY2017.

Fiscal sector (public expenditure and revenue collection)

According to the revised National Budget for FY2017, the overall budget deficit (excluding grants) as a percentage of GDP increased from 3.8 percent in FY2016 to 5 percent in FY2017. The overall budget deficit (including grants) increased to 4.8 percent of GDP in FY2017 from 3.7 percent in FY2016. The government's financing from the banking system increased from 0.6 percent of GDP in FY2016 to 1.2 percent of GDP in FY2017, while financing from non-bank sources marginally increased from 2.3 percent to 2.4 percent of the GDP over the same period.

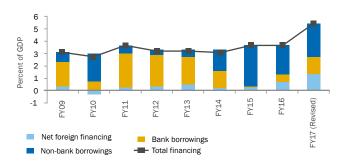

The growth of total revenue collection was revised downward to 26.3 percent from the budget of 40.4 percent in FY2017 and the actual revenue growth of 18.5 percent in FY2016. The downward revision was mainly prompted by the weaker-than-expected tax revenue earnings by the NBR in the original budget of FY2017. Total revenue-GDP ratio decreased from 14 percent in the original budget in FY2017 to 12.6 percent in the revised budget but remained higher than the actual ratio of 10 percent in FY2016.

FISCAL SECTOR (PUBLIC EXPENDITURE AND REVENUE COLLECTION)

Public expenditure as a percentage of estimated GDP increased from 13.8 percent in FY2016 to 16.2 percent in FY2017 revised budget. It grew by 33 percent in FY2017 revised budget, compared to 16.7 percent in FY2016 actual budget. Current expenditure in FY2017 revised budget stood at 10.3 percent of GDP, which was 8.3 percent in FY2016 actual budget.

GDP

External sector

Exports growth fell to 1.7 percent in FY2017, while import growth increased to 9 percent. Exports stood at USD 34,019 million in FY2017, from USD 33,441 million in FY16. During the same period, total import payments increased to USD 43,491 million from USD 39,901 million in FY2016. As imports grew faster than exports, the trade deficit widened to USD 9,472 million over the same period from USD 6,460 million in FY2016.

The services and income account along with primary and secondary income registered a surplus of USD 7,992 million. Current account balance turned a negative USD 1,480 million in FY2017 from a surplus of USD 4,262 million in FY2016. The capital and financial account surplus widened to USD 4,493 million in FY2017 from USD 1,408 million in FY2016. The overall balance of payments surplus shrank to USD 3,169 million in FY2017, which was USD 5,036 million in FY2016. Gross international foreign exchange reserves stood at USD 33.4 billion at the end of FY2017, representing around 8 months of prospective import coverage.

Exports

The growth of exports (FOB) earnings showed a sharp decline to 1.7 percent in FY2017, from 8.9 percent in FY2016. Consequently, export as a percentage of GDP decreased to 14 percent in FY2017 from 15.5 percent in FY2016. Among the major export items, chemical products, plastic products, leather and leather products, cotton and cotton products, jute goods, home textiles, footwear and engineering products, experienced a higher growth in FY2017, while frozen food, agricultural products, woven garments, petroleum by-products, raw jute and specialized textiles slowed down the pace of export performance as these items experienced a negative growth.

Imports

Imports grew by 9 percent in FY2017, up from 5.9 percent growth registered in FY2016. Import payments as a percentage of GDP continued to decline in the recent years and edged down to 17.4 percent in FY2017 from 18 percent in FY2016. Total import payments for food grains, milk and cream, spices, pulses, sugar, clinker, POL, plastic and rubber articles, raw cotton and iron and steel and other base metals rose in FY2017, compared to FY2016, while those for oil seeds, fertilizer, textiles and textile articles and staple fiber declined during the same period.

Remittance

Remittance inflows declined by 14.5 percent at the end of FY2017, compared with a negative growth of 2.5 percent in FY2016.

Foreign direct investment (FDI)

In FY2017, there were positive net inflows of FDI. Below is the summary of FDI during 2017:

(BDT million)

Component	Gross inflows	Disinvestment	Net flows
Equity	1,097.56	90.82	1,006.74
Reinvested earnings	1,253.00	-	1,253.00
Intra-company loans	687.36	492.29	195.07
Total	3,037.92	583.11	2,454.81

Balance of payment

Balance of payment recorded a surplus in FY2017, despite unfavourable global economic conditions. The surplus was supported mainly by financial account. Current account showed a significant deficit of USD 1.4 billion in FY2017, compared with a USD 4.26 billion surplus in FY2016. The capital account surplus decreased to USD 314 million and the financial account

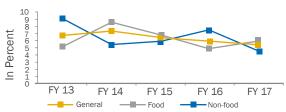

surplus increased to USD 4.17 billion in FY2017. Trade balance showed a record 47 percent deficit in FY2017 to USD 9.4 billion, compared to a deficit of USD 6.4 billion in FY2016.

Inflation rate

The declining average of annual CPI inflation, which started from a peak of 7.4 percent at the end of FY2014 and reached 5.9 percent at the end of FY2016, further fell to 5.4 percent at the end of FY2017.

CHART 1.2 TRENDS OF NATIONAL CPI INFLATION

(12 MONTH AVERAGE: BASE FY 06 = 100)

Source: Bangladesh Bureau of Statics and Bangladesh Bank.

The declining trend in average CPI inflation in FY2017 was mainly driven by non-food inflation, while food inflation witnessed a sharp increase due to flash floods-related crop losses in the north-eastern Haor regions in FY2017. In contrast, non-food price component of CPI declined due to subdued global inflation and favourable regional inflation rate. Moreover, core inflation, which excludes food and fuel components from the CPI basket, fell from 8 percent in June 2016 to 4.9 percent in June 2017.

Exchange rate

From June 2016 to June 2017 USD-BDT exchange rate went up 3.06 percent. The nominal effective exchange rate (NEER) and real effective exchange rate (REER) of BDT calculated against a trade weighted 15 currency basket (base: FY16 = 100). NEER index has depreciated by 1.69 percent while REER index of BDT appreciated by 1.81 percent in FY2017.

Money supply and credit growth

Broad money (M2) grew by 10.9 percent in FY2017, below the target growth of 15.5 percent and the 16.3 percent actual growth in FY2016. The lower growth in broad money was driven by both net foreign assets (NFA) and net domestic assets (NDA). Growth of NFA declined sharply from 22.8 percent in FY2016 to 11.5 percent. On the other hand, growth of net domestic assets also decreased from 14.3 percent in FY2016 to 10.7 percent in FY2017.

Domestic credit from the banking system grew by 11.2 percent, below the targeted growth of 16.4 percent for FY2017 and actual growth of 14.4 percent in FY2016. The lower than targeted growth in domestic credit mainly resulted from the negative growth of credit to the public sector, reflecting public financing mostly through NSD saving instruments and repayment of previous loans from the banking system by the government.

MONEY SUPPLY AND CREDIT GROWTH

Private sector credit grew by 15.7% in FY17, slightly below the targeted growth of 16.5% for FY17 and the FY16 actual growth of 16.8%. The lower than targeted growth of private sector credit along with negative growth of public sector credit resulted in a lower growth of net domestic assets (NDA) of the banking system and stood at 10.7% in FY17 against the target of 17.3% and actual growth of 14.3% in FY16.

Reserve money (RM) grew by 16.3% in FY17 which was higher than the projected growth of 14.0% and lower than the actual growth of 30.1% in FY16.

External debt

Outstanding external debt stock of Bangladesh increased to USD 28,566.3 million in FY2017, up from USD 26,305.7 million in FY2016. However, the outstanding debt-GDP ratio declined to 11.4 percent from 11.9 percent over the same period.

Bangladesh economic outlook

The liquidity scenario in money markets may not be easy and this may put pressure on deposit mobilization, resulting in an increase in the cost of funds. This will also have an impact on asset growth to a greater extent in 2018.

- More focus may be seen on selection of quality assets concentrating the small enterprise financing to maximize economic value.
- Consumer price index will witness an upward trend and may create pressure on consumer financing in the short- and middle-term in the economy. A precautionary investment from the banks may be

noticed in consumer financing, presuming lower disposable incomes in the coming days.

- Contraction in monetary policy and stringent regulatory policy may get priority to ensure more discipline in the industry.
- Political stability may be a concern for investors as 2018 is an election year.
- Growing imports of foods and capital machinery would further put pressure on the foreign exchange rate. On the other hand, it would be positive for import-related financing and off balance sheet facilities.
- There are many different mega government projects on track and also many others are in the pipeline.
 So, government borrowings may further increase.

STRATEGIC HIGHLIGHTS

BRAC Bank is striving for success in every sense of the banking business. The management is continuously formulating different strategies considering the various scenarios and identifying the opportunities. It is focusing on both revenue maximization and ensuring efficiencies in all areas of its operations. Following are a few recent strategies taken by the management for the achievement of short- and long-term business objectives:

Business realignment

At BRAC Bank, the management operates in a controlled model, providing retail services to customers from its 186 branches and service for SME customers from its 450 SME Unit Offices. With our increasing customer base, realizing our customer demands and needs, we have reorganized our service channels to multi-segment business focusing on 'All for one, one for all'. Our customers have welcomed this business model due to increased flexibility and high standardization of customer services throughout all channels. This approach will continue with further improvements in the coming days.

Channel optimization

BRAC Bank is a performance-oriented dynamic bank and has been focusing in creating a powerful channel for financial inclusion, enabling people to make more active and informed decisions about their financial needs and choices. We have optimized our network for quick expansion and growth throughout Bangladesh to bring our services to the doorstep of citizens. Our consistent attention to quality maintenance and standardization of distribution channels has paved the way for our success and customer satisfaction.

Reducing turnaround time and improving efficiency

Process improvement initiatives have been a passionate subject over the last two years at BRAC Bank. the bank has devoted substantial resources for reviewing all its existing processes, discarding non-value added activities, increasing efficiency and improving the overall experience of our customers across all channels. This is a continuous process to improve efficiency. This has also resulted in more stringent monitoring of process costs and improved performance of business functions. We are focusing on innovation to enhance our competitive edge and make BRAC Bank a trusted and valuable brand.

Improving staff productivity

Investment in people is a simple strategy at BRAC Bank. As a part of our strategy, recruiting top talent from the industry, revamping staff remuneration and performance measurement policies ensure high levels of motivation and employee loyalty for optimum performance and job satisfaction. The bank remains efficient and competitive due to its concern for employees as well as customers.

Investing in robust technology

In the ever-changing landscape of the financial industry, BRAC Bank is upgrading its competitive edge by investing in state-of-the-art technology and IT infrastructure. The upgrade of our Core Banking System (CBS) will boost operational performance and efficiency, resulting in better customer service and monitoring. As stated in the previous year, technology is the lifeblood of our organization and is a key differentiator in driving future growth in all of our businesses. Our strategic priorities have become more embedded into our technological advancements to assure the delivery of secure products, platforms and services to our customers. Data and analytics innovation delivers enhanced insights to uncover new business opportunities and do business in smarter ways to improve our competitive edge. We continue to invest in technology to enable our employees and customers with the latest tools to navigate the banking system.

At the core of our strategic plan is our active participation in the implementation of the vision of the Government

of the Peoples' Republic of Bangladesh by maintaining monetary and financial stability and thereby step forward to become the best bank in Bangladesh.

FINANCIAL REVIEW

The banking industry of Bangladesh has passed a severely competitive year in 2017 amidst increasing regulatory compliance and monitoring by the central bank to stabilize the banking system, increasing non-performing loans and fall in private sector investments. Against this backdrop, both loans and deposits have increased in 2017.

Amidst a relatively stable political atmosphere, lack of supervision in the banking sector resulted in a severe governance crisis. The banking sector also suffered by an unprecedented increase in bad debts – a staggering 11% (approximate) of loans disbursed, as well as liquidity shortage and financial scams over the year.

On the other hand, as a developing country, Bangladesh has shown commendable progress in financial inclusion. The reach of banking service has stretched through the expansion of branches as well as agent banking.

BRAC Bank has witnessed uninterrupted progress in the last three years due to our relentless efforts and astute management decisions in catering to the financial needs of clients, credit risk management and financial inclusion of the unbanked population.

Quarterly financial performance

As a part of our governance process, Board Audit Committee and the Board itself review the quarterly financial performance of the bank, both on standalone and consolidated basis, over the year. The Board Audit Committee (BAC) and Board of Directors (BoD) continuously monitor and evaluate both financial and non-financial performance of the bank and the Group. During the year 2017, the BAC reviewed the quarterly financial statements and BoD approved the same before disclosing it to stakeholders.

A glimpse of Board reviews on quarterly financial statements are as follows:

Based on the quarterly financial statements, the BAC and BoD get detailed overview and analytics for finding out the reasons for the changes and deviation from the planned results. Also, they cross-check whether the changes are in line with the business strategies taken during the period. The Board also reviews the results with strategies and the banking industry. Based on the reviews, they formulate updated policies for further improvement of the position and performance of the business. During 2017, both the standalone and consolidated results showed consistent and steady growth.

OPERATING PERFORMANCE

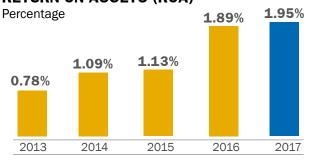

BRAC Bank continued to keep pace in delivering growth in every aspect of its operating performance during the year 2017. The bank strengthened its focus on cost optimization and improving operating efficiency, a balanced approach that has enabled us to upgrade our capabilities to respond to market needs and prepare us to become the best bank in Bangladesh.

Our relentless focus on customer needs and our stakeholder expectations has made us an outlier in the banking industry. The long-running low interest rates, slow growth environment of the previous years has made us vigilant. The banking industry is facing an unusual combination of circumstances that are giving special impetus to our drive for efficiency.

We are cautious of our strategies as margins on loan operations has been driven down in the industry due to significant amount of bad loans. Our customer preferences in terms of banking products and services are also changing and we have particularly focused on the channels that are used to access these products. We have invested our resources into acquiring technology to provide better services and reduce security risks. Added to these pressures is the cost of being compliant with enhanced regulatory requirements of Bangladesh Bank.

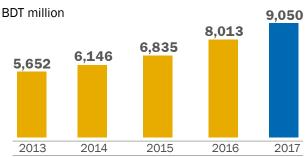

Our carefully executed efficiency initiatives under these exceptional pressures have enabled us to achieve significant results, our revenue stream and asset base are growing while overhead costs are growing at a slower rate. The key operating performance indicators are depicted below:

COST TO INCOME RATIO (CIR)

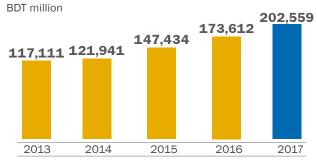

FINANCIAL PERFORMANCE - PROFITABILITY

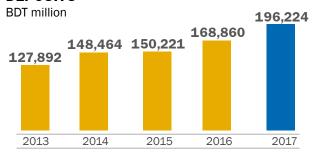

The bank managed to maintain steady growth in operating profit over the last couple of years. In 2017, operating profit increased by 13% to BDT 9,050 million over BDT 8,013 of the previous year. The increase in operating profit was mainly driven by increase in net interest income by 12% and non-interest income by 17%, which was largely offset by 21% increase in operating expenses.

The loan portfolio of the bank grew by 17% to BDT 202,559 million from BDT 173,612 million in 2016, which contributed to 15% increase in interest income in 2017. SME and Retail businesses contributed more than the corporate business in growth in loan portfolio as part of our strategy.

LOANS AND ADVANCES

DEPOSITS

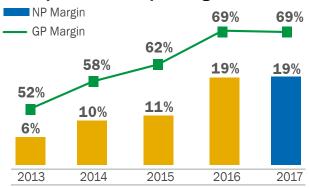

Non-funded income (NFI) increased mainly due to a 43% increase in investment income amounting to BDT 1,084 million and 13% increase in commission, exchange and brokerage amounting to BDT 338 million. Increase in investment income was mainly driven by increase in gain from repo and reverse repo amounting to BDT 1,034 million and increase in gain from sale of trading of shares of mutual funds amounting BDT 175 million.

On the other hand, increase in commissions, exchange and brokerage was mainly driven by increase in gain on foreign currency dealings by BDT 203 million, fees and commission from cards by BDT 141 million and increase in commission from sale of Sanchaypatra by BDT 54 million.

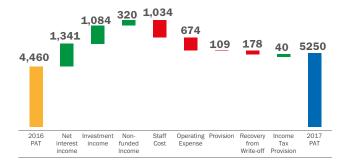

Operating expenses increased by 21% (BDT 1,708 million) over the last year. The increase in operating expense was caused by 31% (BDT 1,034 million) increase in salaries and allowances, 14% (BDT 163 million) increase in rent and taxes, 50% (BDT 101 million) increase in printing and advertisement costs and 23% (BDT 482 million) in other expenses (i.e. donations and subscriptions by BDT 108 million), business promotion and development by BDT 88 million and staff sales & incentives by BDT 57 million, IT-enabled service cost by BDT 56 million, etc. Salaries and allowances increased due to adjustments of real income to align with the cost of living like the previous year.

Net profit after tax (NPAT) of the bank increased by 18% (BDT 790 million). The increase was noted mainly due to increase in operating profit by BDT 1,037 million, which was largely offset by increase in provision by BDT 288 million in 2017. Provision increased due to increase in general provision on off-balance sheet exposures and provision on protested bill. However, tax expenses in 2017 were almost the same as last year. The increase in current tax expense by BDT 57 million was largely offset by increase in deferred tax income of BDT 61 million in 2017.

Extra-ordinary gain/loss

There was no such extra-ordinary gain/loss during the year in review.

Subsidiary performance

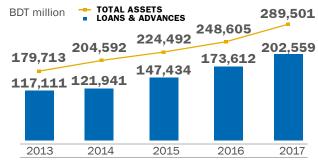

BBL's subsidiaries registered strong performance in 2017. Mobile banking service provider, bKash, delivered a profit after tax of BDT 488 million, which is 26% higher over the previous year and revenue grew by 25%. BRAC EPL Stock Brokerage Limited made a profit after tax of BDT 205 million, compared to BDT 95 million in the last year, showing a 116% growth over 2016. BRAC EPL Investments Limited made a loss of BDT 490 million in 2017. Our subsidiary and a leading foreign currency remittance company in the country, BRAC Saajan, made a net profit of BDT 30 million in 2017, which is 83% higher than in 2016.

FINANCIAL PERFORMANCE - PORTFOLIO ANALYSIS

BRAC Bank registered a growth of 16% (BDT 40,896 million) in total assets from BDT 248,605 million in 2016 to BDT 289,501 million in 2017. The growth in total assets was driven mainly by 17% (BDT 28,947 million) increase in loans and advances. The bank continued to focus on its small and medium enterprises portfolio in the current

year as well. Hence, the 23% (BDT 15,634 million) growth in this segment contributed to the increase in the overall loan portfolio of the bank. The bank continued to invest in the development of its IT platform to cope with the increased demand and ensure better and improved services to its customers, which also helped to increase the amount of total assets of the bank in 2017. However, BDT 4,029 million increase in balance with other banks and financial institutions was largely offset by an increase in borrowings from other banks and financial institutions, amounting to BDT 4,373 million.

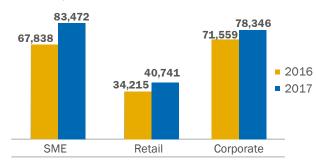

Business division-wise performance

All the segments of the bank experienced positive growth, both in terms of portfolio and revenues. SME, Retail and Corporate portfolios grew by 23%, 19% and 9%, respectively, during the year 2017 over the last year.

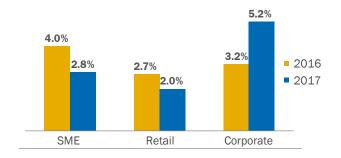

Division-wise Loan & Advance

BDT in million

The Bank managed to keep non-performing loan (NPL) ratio at a low level in all segments, except in corporate due to one major client.

Division-wise NPL (%)

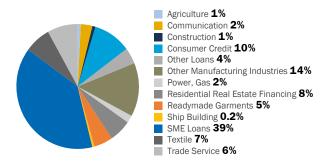

In line with the growth in the portfolio, the segmental revenue also increased by 12%, 7% and 29% for SME, Retail and Corporate segments, respectively.

Geographical Location-wise Portfolio Grouping (2017)

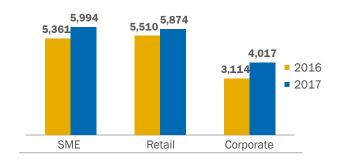

Sector-wise Loan Protfolio (2017)

Division-wise Revenue

BDT in million

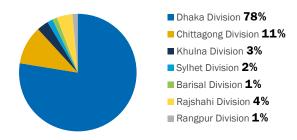

Among the total operating profit of BDT 9,050 million on standalone basis, SME, Retail and Corporate segments contributed BDT 2,021 million, BDT 1,352 million and BDT 3,044 million, respectively (22%, 15% and 32% respectively).

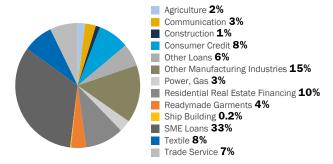

Geographical location-wise portfolio:

Concentration of loans has slightly reduced by 7% in the Dhaka division over 2016, though a part of this move can be attributed to the newly declared division of Mymensingh. However, it is to be noted that this concentration is calculated based on the location of the branch and not based where the actual investment has been made. BRAC Bank always keeps in mind the geographical diversity of its loans disbursed to ensure equal development of the all corners of country by reaching out to the people in remote/indigenous areas through its wide network of branches and SME unit offices.

Geographical Location-wise Portfolio Grouping (2016)

Sector-wise Loan Protfolio (2016)

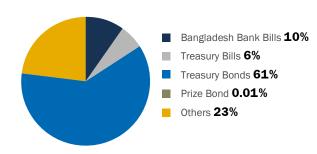

It can be deduced from the graphs that 39% of the loan portfolio is concentrated in the SME sector, which is 6% higher than that of 2016. BRAC Bank is however always trying to focus on all areas of banking in addition to SME

lending. Due to recent economic downturn in the real estate sector, the bank managed to effectively reduce its exposure in this sector from 10% in 2016 to 6% in 2017.

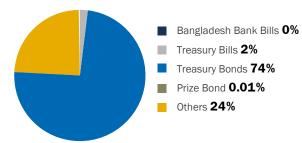

The bank invested in Bangladesh Bank bills amounting to BDT 2,498 million by the end of the year 2017 and increased investment in treasury bills by BDT 1,138 million, followed by a decrease in investment in treasury

bonds amounting to BDT 1,488 million at the end of the year. The investments were kept mostly to maintain SLR as per Bangladesh Bank guidelines.

Investment Mix (2017)

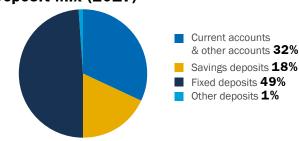

Investment Mix (2016)

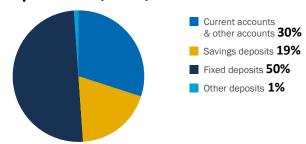

The deposit mix of the bank remained almost same in 2017. The bank looks forward to increase the deposit

base further through ensuring superior customer service and creating brand loyalty, etc.

Deposit Mix (2017)

Deposit Mix (2016)

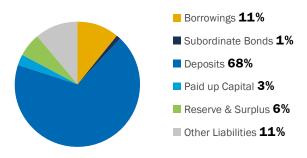

Total liabilities as on December 31, 2017 stood at BDT 263,511 million increased by 16% over the last year. The increase was mainly attributed to the 16% increase in deposits amounting to BDT 27,365 million, which accounts for nearly 75% of the overall increase in liabilities. Out of the increase in deposits, there were increases in current and other accounts by 44%, savings deposits by 14% and fixed deposits by 42%. However, the mix of deposits was nearly the same at the end of 2017, vis-à-vis 2016, except a positive move in current and other accounts by 2% from the last year.

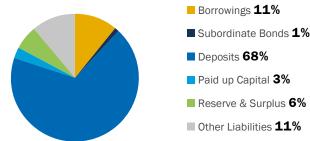

A lion's share of BRAC Bank's funds is derived from customer deposit accounts, bulk of which is utilized in loans and advances as can be distinguished from the charts below.

A portion of it is kept in the form of cash and cash equivalents to maintain CRR and SLR ratios, which currently stands at 6.5% and 13% of the total customers' demand and time/term liabilities of the bank, respectively.

As per regulatory requirements, the bank is obliged to maintain the minimum capital requirement in order to sustain its business. As on 31 December 2017, the bank maintained a comfortable capital to risk weighted asset ratio (CRAR) of 12.72% on standalone basis and 11.97% on consolidated basis, against the requirement of 11.25%. Tier-I capital and Tier-II capital as on 31 December 2017 stood at BDT 23,534 million and BDT 3,102 million, respectively, on standalone basis and BDT 23,876 million and BDT 3,102 million, respectively, on consolidated basis. However, to support the bank's growth plan in the coming days as well as to comply with the increased requirement of maintaining CRAR of 12.50% by 2019, the bank needs to grow this regulatory capital further through retaining the existing capital as long as feasible and raising further as and when required as per the capital raising plans of the bank.

According to the Bangladesh Bank's BRPD Circular No. 06 dated July 05, 2006 and in order to improve the risk management and corporate governance as well as to safeguard the interests of investors, depositors, creditors and shareholders, the bank was rated by Credit Rating Agency of Bangladesh Limited (CRAB) for the year ended 31 December 2016.

We are pleased to inform that the Credit Rating Agency of Bangladesh Limited (CRAB) affirmed 'AA1' (pronounced Double A one) rating in the Long Term and 'ST-1' rating

in the Short Term to BRAC bank. Commercial banks rated in this category are adjudged to be very strong banks, characterized by robust good financials, healthy and sustainable franchises and a first rate operating environment. Rating in this category is characterized with commendable position in terms of liquidity, internal fund generation and access to alternative sources of funds. The credit rating of BRAC Bank based on financial statements for the year ended 31 December, 2017 is under process and will be published in due course.

Contribution to the national exchequer

BRAC Bank has transformed itself to be one of the strongest financial institutions operating in the Bangladesh economy. It has contributed much to the national economy in collecting government revenues and depositing the same to government exchequer, according to the prescribed laws prevailing in the country. Bank authority deducts tax, VAT and excise duty at the time of making payments for goods and services. Besides these, the bank also pays income tax.

The summary of tax payments over the years is indicated below:

Basis for related party transactions

The bank needs to conduct transactions with related parties in the normal course of business. The nature of related party transactions are either loans and advances or deposits made with us at arm's length price or fair market value.

Strategic Outlook

It is pretty clear about the liquidity crunch in the money market and that there will be rivalry among banks for deposits in 2018. There is a move towards re-pricing existing assets to match the additional cost of deposit. The re-pricing of asset may have an effect on recovery and result in the up-trend of non-performing loans in the banking industry. Lower interest spread is foretasted in the days to come.

- The growth momentum in assets may be impeded due to the political and economic situation. However, we have plans to selectively grow our assets and will require regulatory capital to support this growth.
- BRAC Bank will continue to invest in technology and people development and focus further on service quality to ensure a delightful banking experience to customers.
- With SME at the heart of BRAC Bank, our focus to grow SME Banking will be our priority along with loan disbursement in line with our mission to move from "Lender to Banker".
- Retail Banking will explore more Digital Banking avenues to provide world-class banking services.

- Agent Banking will be a focus area and will take the bank's products and services to the masses and thereby increase financial inclusion.
- Local Corporate and Emerging Corporate will explore untapped business outside the metropolitan cities of Dhaka and Chittagong.

Appointment of Directors:

Pursuant to the Articles of Association and the Companies Act, 1994, the following Directors will retire from the Board of BRAC Bank in the 19th Annual General Meeting. Subsequently, they are eligible for re-election or re-appointment to the Board of Directors.

Risks and concerns

Political turmoil, terrorist attacks, uneven movement of foreign currency value, liquidity crisis and global decision by major powers, etc, are main business concerns in our country. 2018 is the year of another national election which is of big concern for all the businesses in the country. If political stability is ensured in 2018, currency value movement will be stabilized, terrorist attacks prevented and global business decisions will not go against Bangladesh. However, this is definitely a challenging year and BRAC Bank has decided to undertake several proactive measures for circumventing the impact of these risks.

To check any unusual incidence, the system of internal control is made sound in design and has been effectively implemented and monitored.

Preparing the Annual Report

While preparing the annual report, true and fair presentation has been given priority. Maintaining proper books of accounts have been ensured. Appropriate accounting policies have been consistently applied in the preparation of the financial statements and that the accounting estimates are based on reasonable and prudent judgment. International Financial Reporting Standards (IFRS)/Bangladesh Financial Reporting Standards (BFRS) those that are applicable in Bangladesh have been followed in preparation of the financial statements and any departure there from has been adequately disclosed.

Going Concern Basis

The financial statements have been prepared by considering our bank on a going concern basis. From our financial performance, business portfolio and operational strength it can be concluded that our business is a going concern.

Dividend

In order to maintain a healthy capital adequacy ratio of the bank, the Board recommended 25% stock dividend for the year ended 31 December 2017, subject to the approval in the 19th Annual General Meeting.

Appointment of Auditor

The existing Auditors, M/S. A. Qasem & Co. Chartered Accountants, 7, Gulshan Pink City, Suites #01-03 (Level-7), Plot # 15, Road # 103, Block CEN(C), Gulshan Avenue, Dhaka-1212 has completed their third consecutive years as auditor of BRAC Bank Limited. According to Bangladesh Bank guideline, one auditor cannot be appointed for more than three consecutive years. Therefore, we are required to change existing auditors of BRAC Bank Limited for financial year 2018. As they are not eligible for re-appointment for the year 2018 hence we have collected expression of willingness to work as Auditors of BRAC Bank Limited for the year 2018 from four eligible audit firms. The Board of Directors has recommended M/s. Rahman Rahman Hug, Chartered Accountants to appoint as auditors of the bank for the year 2018. The appointment of the auditor will be confirmed in the 19th AGM.

We express our gratitude for your confidence in us. Your relentless support drove the growth and development of our business. We sincerely acknowledge the employees of BRAC Bank for their commitment, devotion and hard work as they are core to our success.

I also take this opportunity to acknowledge and express my appreciation to our shareholders, clients, Bangladesh Bank, other government agencies, regulatory bodies and everyone with whom the bank is connected to in conducting its business.

Thank you for being with us. We will do everything possible to uphold your faith and trust on us.

পরিচালকবৃন্দের প্রতিবেদন

প্রিয় শেয়ারহোন্ডারবৃন্দ,

ব্র্যাক ব্যাংক লিমিটেডের পরিচালনা পর্ষদ পরিচালকদের বার্ষিক প্রতিবেদন উপস্থাপন করতে পেরে আনন্দিত। একই সাথে ২০১৭ সালের ৩১ ডিসেম্বর শেষ হওয়া বছরের প্রতিবেদন নিরীক্ষিত আর্থিকবিবরণীসহ প্রকাশ করা হয়েছে। এতে এ বছরের ব্যাংকটির কার্যক্রম উল্লেখ করা হয়েছে। এতে ব্যাংকটির আর্থিক তথ্য-উপাত্ত ও আর্থিক প্রতিবেদনের মান নিয়ন্ত্রণ এবং সঠিক তথ্য-উপাত্ত সঠিকভাবে উল্লেখ করতে পরিচালকরা যে নীতি, প্রক্রিয়া ও কার্যকর পদক্ষেপ নিয়েছেন তা উল্লেখ করা হয়েছে। এক কথায় কঠোরভাবে এ প্রতিবেদনের মান নিয়ন্ত্রণ করা হয়েছে। পরিচালক পর্যদ ক্রমাসিক ও বার্ষিক ভিত্তিতে আর্থিক তথ্য-উপাত্ত পর্যালোচনা করেছে। প্রতিবেদনটি বিশ্ব ও স্থানীয় অর্থনীতির কার্যক্রমের সারাংশ উল্লেখ করবে। একই সঙ্গে এটি ২০১৭ সালে ব্যাংকটির কার্যক্রমের বিস্থারিত ব্যাখ্যা উপস্থাপন করবে।

বৈশ্বিক অর্থনীতি

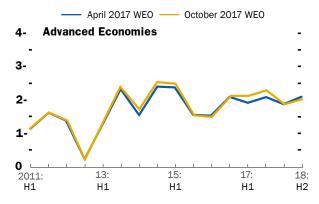

২০১৭ সালে বিশ্ব অর্থনীতি বেশ ভালো অবস্থায় ছিল। ২০১৬ সালে ডোনাল্ড ট্রাম্পের প্রেসিডেন্সির সময়, ইউরো জোন থেকে যুক্তরাজ্যের বের হয়ে যাওয়া এবং ইতালির ব্যাংকিং ব্যবস্থার কারণে অর্থনীতিতে ধস নেমেছিল। এসব কারণে ২০১৭ সালের অর্থনীতি ধসের আশঙ্কা করা হয়েছিল কিন্তু তা ব্যর্থ প্রমাণিত হয়েছে।

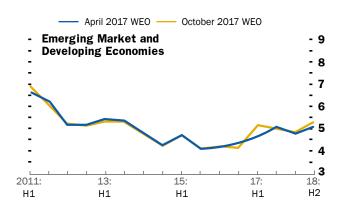

২০১৭ ও ২০১৮ সালে বিশ্ব অর্থনীতির প্রবৃদ্ধির পূর্বাভাস দেওয়া হয়েছিল ৩.৬ ও ৩.৭ শতাংশ। কিন্তু উভয় বছরেই শূন্য দশমিক এক শতাংশ প্রবৃদ্ধি বেশি হয়েছিল এপ্রিল ও জুলাই মাসের পূর্বাভাসের চেয়ে। উল্লেখযোগ্য বিনিয়োগ, বাণিজ্য এবং শিল্পকারখানার উৎপাদনের সাথে ব্যবসা ও ভোক্তার আস্থা এ প্রবৃদ্ধিতে সহায়তা করছে। ২০১৭ সালের প্রথমার্ধে বৃহৎ অর্থনীতির দেশ যুক্তবাষ্ট্র, ইউরো অঞ্চল, জাপান, চীনে প্রত্যাশার চেয়ে বেশি শক্ত অবস্থানে ছিল অর্থনীতি। রাশিয়া ও ইউরোপেও একই অবস্থা ছিল।

২০১৭ সালের প্রথমার্ধে অর্থনীতির তেজিভাবের কারণ ২০১৬ সালে বিশ্ব অর্থনীতির কার্যক্রম যা প্রভাব ফেলেছে দেশীয় চাহিদা বৃদ্ধি। এক্ষেত্রে চীন অন্য বড় অর্থনীতিতে উনুতি করেছে। বিশ্ব অর্থনীতিতে বিনিয়োগ অপেক্ষাকৃত শক্তিশালী উৎপাদনশীলতা উৎসাহিত করেছে। উর্ধমুখী অর্থনীতি, দেশীয় চাহিদা ও উৎপাদন ২০১৬ সালের দ্বিতীয়ার্ধের তুলনায় ২০১৭ সালের প্রথ মার্ধে দ্রুত হয়েছে।

ব্র্যাক ব্যাংক লিমিটেড ২০১৭ সালে তার পরিচালনগত পারফরম্যান্সের প্রায় প্রতিটি ক্ষেত্রেই আগের প্রবৃদ্ধির ধারাবহিকতা ধরে রাখতে পেরেছে। ব্যাংকটি ব্যয় সামঞ্জস্য করা এবং পরিচালনগত দক্ষতা–সক্ষমতায় উনুতি করার ক্ষেত্রে তার আলোকপাত আরও শক্তিশালী করেছে। এই সুষম পদ্ধতি বাজার চাহিদার প্রতি সাড়া দেওয়ার ক্ষেত্রে আমাদের সক্ষমতাকে হালনাগাদ করতে সক্ষম করে তুলেছে এবং বাংলাদেশের মধ্যে আমাদের সেরা ব্যাংক হওয়ার জন্য ক্ষেত্র প্রস্তুত করেছে।

যুক্তরাষ্ট্রে প্রথম তিন মাসে ভোগের পরিমাণ কমে যাওয়া ছিল অস্থায়। সে সময় ব্যবসায় বিনিয়োগ বাড়ছিল। বিশেষ জ্বালানি খাতে পুনরুদ্ধারের প্রভাব পড়ছিল। বছরের প্রথমার্ধে ইউরো অঞ্চল ও জাপানে ব্যক্তি ভোগ, বিনিয়োগ ও বাইরের চাহিদা বেশ বেড়ে গিয়েছিল; যা মোটের ওপর প্রবৃদ্ধি গতিশীল করেছিল। ২০১৬ সালের দ্বিতীয়ার্ধের ধারাবাহিকতা বজায় রেখে ২০১৭ সালের প্রথমার্ধে বেশিরভাগ উন্নত অর্থনীতির দেশগুলোতে উর্ধমূখী ছিল। আভ্যন্তরীণ ও বাহ্যিক উভয় চাহিদাই এ ক্ষেত্রে অবদান রেখেছিল। এক্ষেত্রে একমাত্র উল্লেখযোগ্য ব্যতিক্রম ছিল যুক্তরাজ্য।

তেলের মূল্য পুনরুদ্ধার:

২০১৭ সালে তেলের মূল্য দ্রুত পুনরুদ্ধার হয়। এতে বিশ্বজুড়ে চাহিদা বেড়ে যাওয়া কারখানাগুলো বিশেষ করে চীন লাভবান হয়। আর এটা হয় অর্থনৈতিক কার্যক্রম অত্যন্ত জোরালোভাবে বেড়ে যাওয়ার মধ্যদিয়ে। ২০১৫ সালের শেষ দিকে যখন বিশ্ববাজারে ধস নেমেছিল, সেখানে এ বছর স্থিতি ফিরে আসে। জ্বালানি তেল উৎপাদনকারী দেশগুলোর সংগঠন ওপেক সরববাহ ঠিক রাখতে পুরোমাত্রায় পুনরায় উৎপাদন শুরু করে। এতে তেলের মূল্য অস্থিতিশীল হওয়ার কোন দুশ্চিন্তা ছিল না।

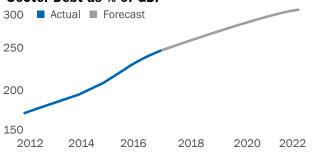

চীনের দেনা নিয়ে দুশ্চিন্তা:

অর্থনৈতিক সঙ্কটের সময় থেকে চীনের দেনার স্থুপ দ্রুত বাড়ছিল। এতে উদ্ধেগও বাড়ছিল। যদিও বিশ্ব বাজারে এর প্রভাব পড়েনি। আন্তর্জাতিক মুদ্রা তহবিল সতর্ক করে বলেছিল, আন্তর্জাতিক নীতি অনুসারে চীনের দেনা এখন সর্বোচ্চ পর্যায়ে রয়েছে। তারা আরও বলেছিল, এই দেনার দ্রুত প্রবৃদ্ধির বিষয়টি টিকে থাকার জন্য সংগ্রামরত ফার্মগুলোকে ব্যর্থ হতে দেওয়ার বিষয়ে কর্মকর্তাদের মধ্যে অনীহা তৈরি করতে পারে। অর্থনৈতিক সংকট থেকে দেনার ঝুঁকি তৈরি হয়েছিল, তা সেপ্টেম্বরে পুরোপুরি নি:শেষ হয়ে যায়। এর এটার প্রমাণ মেলে ধনী ও দরিদুদের হারের হিসেবে। দেনা প্রবৃদ্ধিতে কোন প্রভাব ফেলার আগে চীন যখন পূর্বের অবস্থায় ফিরে যাওয়ার ব্যাপারে পদক্ষেপ নিতে শুরু কবল, তখন কর্মকর্তাদের দুশ্চিন্তা কেটে গেল।

বিট কয়েন পাগলা ঘোড়া:

২০১৭ সালের অর্থনীতির ইতিহাসে ভার্চুয়াল মুদ্রা আতঙ্ক তৈরি করেছিল। বিট কয়েনের দাম বাড়ছিল পাগলা ঘোড়া ছুটে চলার মতো (বিট কয়েন মেনিয়া)। বছরের শুরুতে এর দাম ছিল এক হাজার মার্কিন ডলার। ডিসেম্বরের মাঝামাঝি সময় এর দাম প্রায় বিশ হাজার ডলার হয়। তবে পাগলা ঘোড়ার মত ছুটে চলা এ মুদ্রার দাম এ মাসে একদিনে এক চতুর্থাংশের বেশি কমে যায়। আর এর মধ্যদিয়ে এটা আগের দামে ফিরে যেতে শুরু করে অর্থাৎ দাম পুনরুদ্ধার করে। অর্থনীতিবিদরা মনে করেন, বিট কয়েনের দাম বাড়ার মধ্য দিয়ে সতের শতকের টিউলিপ মেনিয়ার মতোঅবস্থা তৈরি হচ্ছিল। এই সময়ে হঠাৎ করেই বাল্বের বেচাকেনা বেড়ে যওয়ায় দামচড়তে থাকে। এরপর ব্যাপকহারে দাম পড়ে যায়।

বিশ্ব তারল্য সংকোচন

যুক্তরাষ্ট্র তারল্য সংকোচন হার চলমান রেখেছে, যেহেতু বিওই ২০১৭ সালে প্রথমবারের মত সংকোচন হার বাড়িয়ে দেয়। তাছাড়া যুক্তরাষ্ট্রের কেন্দ্রীয় রিজার্ভ তিন বারের বেশি সময় বৃদ্ধি করে রিজার্ভ বাড়ানোর জন্য। আর এ কারণে বাজার থেকে মুদ্রা তুলে নেয় এবং বণ্ড বিক্রি করতে থাকে। আর এটা করা হয় মুদ্রা সংকোচন করার জন্য। চার্টে দেখা যায়, তিন মাস ও ৬ মাসের এলআইবিওআর হার ২০১২ সাল থেকে ২০১৭ সালে তীক্ষ্ণভাবে উন্নীত হয়।

Global Liquidity Tightening

অর্থনৈতিক সঙ্কটের সময় থেকে চীনের দেনার স্থপ দ্রুত বাড়ছিল। এতে উদ্ধেগও বাড়ছিল। যদিও বিশ্ব বাজারে এর প্রভাব পড়েনি। আন্তর্জাতিক মুদ্রা তহবিল সতর্ক করে বলেছিল, আন্তর্জাতিক নীতি অনুসারে চীনের দেনা এখন সর্বোচ্চ পর্যায়ে রয়েছে।

উদীয়মান বাজার

বাজার উখান ও অর্থনীতির উন্নৃতির পূর্বাভাসে বলা হয়, ২০১৭ সালে ৪ দশমিক ৬ শতাংশ এবং ২০১৮ সালে ৪ দশমিক ৯ শতাংশ এবং মধ্যবর্তী সময় ৫ শতাংশ প্রবৃদ্ধি হতে পারে। উন্নয়নশীল অর্থনীতিতে প্রত্যেক ব্যক্তির প্রবৃদ্ধি ১ দশমিক ৩ শতাংশ। উর্দ্ধমুখী অর্থনীতিতে ২০১৭ থেকে ২০২২ সাল পর্যন্ত দুইটি দেশের গ্রুপভিত্তিক জিডিপিতে গড় সমপ্রবৃদ্ধির হার হতে হবে ১ দশমিক ৪ শতাংশ। বাজার উখান ও উন্নয়নশীল অর্থনীতির বৃদ্ধি ও সমপ্রবৃদ্ধি গত দশকের তুলনায় ধীরগিতর এবং ১৯৯৫ থেকে ২০০৫ দশকের চেয়ে গতিশীল। ২০১৭ থেকে ২০২২ সাল পর্যন্ত দুই বৃহৎ অর্থনীতির দেশ চীন ও ভারতে সমষ্টিগত জিডিপির হিসাব ধরা হয় ৪০ শতাংশের বেশি। বাজার উখান ও জনসংখ্যার হিসেবে এটা ধরা হয়েছে। তবে সমষ্টিগত প্রবৃদ্ধিতে জিডিপি প্রবৃদ্ধি প্রত্যেক ব্যক্তির জন্য ৩ দশমিক ৫ শতাংশ এবং তিন চতুর্থাংশ বাজার উখান ও উনুয়নশীল অর্থনীতির জন্য।

বিশ্ব মুদ্রাক্ষীতি

উন্নত দেশগুলোতে জিডিপি প্রবৃদ্ধিতে সামান্য উন্নতি হয়েছে মূলত মূল্যক্ষীতি ব্রাসের চাপ প্রশমনের ফলে। ২০১৫-২০১৬ সালে এটা ছিল নীতি সংক্রান্ত একটি বড় উদ্ধেগ।২০১৭ সালে মুদ্রাক্ষীতি অনেক দেশে ব্যাপকভাবে প্রভাব ফেলে। বছরের পর বছর জ্বালানিখাতে মূল্য বৃদ্ধির প্রভাবে এটা ঘটেছিল। তবে ২০১৬ সালের প্রথম দিকে এসে জ্বালানির দাম কম দেখা যায়। বছরের মাঝামাঝিতে এসে লেনদেনগত প্রভাব বৃহত্তরভাবে দূর হয়েছিল। তবে যংসামান্য ও মূল্যক্ষীতি-ইনডেপ্তর সরকারি বড উৎপাদনের মধ্যে ফাঁরাকের নিরিখে উন্নত দেশগুলোতে প্রত্যাশিত দীর্ঘমেয়াদে মূল্যক্ষীতি ২০১৬ সালের জ্বলনায় উধ্বমূখী প্রবণতায় আছে। এটা মূল্যক্ষীতি ফিরে আসার ইঙ্গিত দেয়।

মূল্যক্ষীতির এই উধ্বর্মখী প্রবণতার কারণেই ইউরোপীয় সেন্ট্রাল ব্যাংক (ইসিবি) ২০১৭ সালের মার্চ বলতে বাধ্য হয়েছিল, '[ইউরোপে] মূল্য সংকোচনের ঝুঁকি বৃহত্তরভাবে নিশ্চিক হয়ে গেছে'। পরবর্তীতে ইসিবি তার সম্পদ ক্রয়ের গতি অর্ধেক কমিয়ে দিয়েছিল। জাপানে মুদ্রক্ষীতি প্রায় শূন্যের কোঠায় ছিল। ২০১৭ সালে যুক্তরাজ্য ও যুক্তরাস্ক্রে কেন্দ্রীয় ব্যাংক মুদ্রাক্ষীতি ২ শতাংশ হবে বলে আভাস দিয়েছিল। উন্নত দেশগুলোতে সমষ্টিগতভাবে ২০১৭ সালে ১ দশমিক ৫ শতাংশ মুদ্রাক্ষীতি ছিল, যা ২০১৬ সালের জ্বনায় ০.৭ শতাংশ বেশি। কিন্তু এটা এখনো কেন্দ্রীয় ব্যাংকের মূল্যক্ষীতি লক্ষ্যমাত্রার চেয়ে বেশ নিচে রয়েছে।

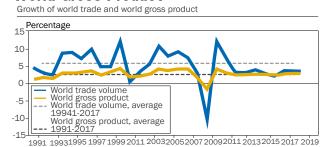

বৈশ্বিক মূল্যক্ষীতি সংক্রান্ত চাপ কিছুটা নমনীয় অবস্থাতেই থাকবে বলে প্রত্যাশা করা হচ্ছে। উনুত অর্থনীতির দেশগুলোতে ২০১৮-২০১৯ সালে মূল্যক্ষীতি কেন্দ্রীয় ব্যাংকের লক্ষ্যমাত্রার কাছাকাছি থাকবে বলে আশা করা হচ্ছে। উনুত অর্থনীতির অনেক দেশে বেকারত্বের হার নিশ্ব হওয়া স্বব্ধ্বেও বেতন সংক্রান্ত চাপ সাধারণত দূর্বল থাকে। এটা অংশত ক্রমবর্ধমান অসমতা এবং ইনকাম স্কেলের নিচের দিকে থাকা মানুষের দরকষাকষির সীমিত ক্ষমতারই প্রতিফলন। ক্রমবর্ধমান অসমতার বিষয়টি অর্থনীতির প্রকৃত দিকটায় বড় বুঁট্বিক বয়ে আনে, যা নিচে আলোচনা করা হয়েছে। চাহিদা ব্রাপকহারে বেড়ে যাওয়া বা বেতন সংক্রান্ত চাপে উল্লেখযোগ্য পরিবর্তের আগ পর্যন্ত উনুত অর্থনীতির দেশগুলোতে মূল্যক্ষীতি মধ্যম মাত্রায় থাকবে বলে মনে করা হচ্ছে। মূল্য সংকোচনের চাপ পুনরায় ফিরে এলে কেন্দ্রীয়

ব্যাংকগুলোর জন্য একটা নীতি সংক্রান্ত চ্যালেঞ্জ হয়ে দাঁড়াবে। কারণ, তারা তখন আর্থিক উদ্দীপনা প্রত্যাহারের পথে অগ্রসর হবে।

বৈশ্বিক বাণিজ্য

২০১৭ সালে বিশ্ব প্রবৃদ্ধি ও বিশ্ব বাণিজ্য পুনরুদ্ধার হয়। এ বছর বিশ্ব প্রবৃদ্ধি ও বিশ্ব বাণিজ্য বৃদ্ধি পায় ৩ দশমিক ৭ শতাংশ। ২০১৬ সালে এ প্রবৃদ্ধি ও বাণিজ্য তুলনামূলক দুর্বল ছিল। প্রবৃদ্ধি ছিল ২ দশমিক ২ শতাংশ। বিশ্ব বাণিজ্য পুনরুদ্ধারের কারণ হলো বিশ্বজুড়ে শিল্প উৎপাদন বেড়ে যাওয়া। গ্লোবাল ম্যানুফ্যাকচারিং পারচেজ ইনডেও অনুসারে, ছয় বছরের মধ্যে এটা ছিল সর্বোচ্চ। ২০১৭ সালে বিমান ও জাহাজে পণ্য সরবরাহও আগের অবস্থায় ফিরে গিয়েছিল। এর কারণ হলো চাহিদা ছিল বেশি। ক্রুড অয়েল ও লৌহ সামগ্রীর রফতানি আদেশ ছিল বেশি। উন্নত ও উনুয়নশীল দেশে প্রচুব বিনিয়োগ হয়েছিল; যা বিশ্ব বাণিজ্য ও বিশ্ব প্রবৃদ্ধিতে ব্যাপক অবদান রাখে।

Growth of World Trade and World Gross Product

সুত্র:বিশ্ব অর্থনৈতিক পরিস্থিতি এবং প্রত্যাশা ২০১৮

২০১৭ সালের প্রথম আট মাসে বৈশ্বিক পণসামগ্রী বাণিজ্য সংকট-পরবর্তী সময়ের মধ্যে সবচ্চয়ে দ্রুততার সাথে বেড়ে ওঠে। শক্তিশালী প্রবৃদ্ধির বিষয়টি অবশ্য ছিল অংশত এটি নিম্ন ভিত্তি প্রভাবের কারণে। ২০১৬ সালের প্রথমার্ধে বাণিজ্য প্রবাহে পরিলক্ষিত অস্বাভাবিক দূর্বলতার কারণে সেটা হয়েছিল। আমদানির প্রেক্ষাপট বিবেচনায় বিভিন্ন অঞ্চলের মধ্যে আমদানির শক্তিতে উল্লেখযোগ্যহারে পার্থক্য পরিলক্ষিত হয়।

বৈশ্বিক অর্থনীতি ফিরে দেখা:

২০১৭ সালে বিশ্ব জিডিপি বাড়তে থাকে। যদিও ২০১৬ সালে এটা ৩ শতাংশ পড়ে গিয়েছিল। তবে ২০১৭ সালে বিশ্ব অর্থনীতিতে প্রবৃদ্ধি হয়েছিল ৩ দশমিক ৭ শতাংশ। বিশ্ব অর্থনীতির অর্ধেকে দেখা গেছে ইতিবাচক ভাব। এর কারণ হলো বিশ্বজুড়ে শিল্প উৎপাদন, বিনিয়োগ ও চাহিদা বেড়ে যাওয়া। দেশীয় ও আন্তর্জাতিক চাহিদা বেড়ে যাওয়ায় ২০০৯–১০ সালে অর্থনৈতিক সঙ্কটে থাকা উনুত অর্থনীতির দেশ যেমন যুক্তরাষ্ট্র, ইউরো অঞ্চল, কানাডা ও জাপান ঘুরে দাঁড়াতে শুরু করে। ২০১৭ সালে চীন, ভারত ও বাংলাদেশও বেশ ভাল করে। এ বছর এশিয়ায় প্রবৃদ্ধি হয়েছিল ৬ দশমিক ৫ শতাংশ। অর্থনীতির প্রবৃদ্ধির এইতিবাচক ধারা আসন্ন বছরেও অব্যাহত থাকবে বলে আশা করা হয়। ২০১৮ সালে বিশ্ব অর্থনীতিতে প্রবৃদ্ধি হবে ৩ দশমিক ৯ শতাংশ। এটা ২০১৭ সালের প্রকৃত প্রবৃদ্ধির চেয়ে শূন্য দশমিক ২ শতাংশ বেশি। ২০১৭ সালে প্রত্যাশার চেয়ে শক্তিশালী প্রবৃদ্ধির কারণে যুক্তরাষ্ট্র ও উনুত অর্থনীতির অন্যান্য দেশে প্রবৃদ্ধির পূর্বাভাস পরবর্তীতে সংশোধিত

হয়। বর্ধিত বৈশ্বিক বিনিয়োগ ও বাণিজ্যের কারণে জাপান এবং রপ্তানিমুখী অন্য দেশগুলো উপকৃত হবে বলে প্রত্যাশা করা যাচ্ছে। এসব দেশ ২০১৮ সালে অধিকতর শক্তিশালী প্রবৃদ্ধি অর্জন করতে পারে। উদীয়মান বাজার ও উনুয়নশীল অর্থনীতির দেশগুলো প্রবৃদ্ধি অর্জন করতে পারে ৪.৬ শতাংশ হারে। আর উনুত অর্থনীতির দেশগুলোতে প্রবৃদ্ধি হতে পারে ২.২ শতাংশ হারে। দক্ষিণ এশিয়া অবশ্য ২০১৮ সালে সম্ভাব্য ৫.১ শতাংশ হারে প্রবৃদ্ধি অর্জন করবে।

আসনু বছরগুলোতে আমরা দেখতে পারি অধিকতর উজ্জ্বল প্রেক্ষাপট, আশাবাদী হওয়ার মতো বাজার এবং বৈশ্বিক অর্থনীতির সামনে কিছু চ্যালেঞ্জ:

- বৈশ্বিক অর্থনৈতিক কর্মকাণ্ড অব্যাহতভাবে দৃঢ় হচ্ছে। প্রবৃদ্ধির চাকা বৃহত্তরভাবে ঘুরছে। ইউরোপ ও এশিয়ায় প্রবৃদ্ধির ক্ষেত্রে উল্লেখ করার মতো চমক থাকছে। ২০১৮ ও ২০১৯ সালের জন্য বৈশ্বি প্রবৃদ্ধির পূর্বাভাস
- যুক্তরাষ্ট্রের ট্যাঙ নীতিতে পরিবর্তনগুলো বিভিন্ন কর্মকাডকে উদ্দীপ্ত করবে বলে প্রত্যাশা করা হচ্ছে। এ ক্ষেত্রে স্বল্পমেয়াদী প্রভাব পড়বে যুক্তরাষ্ট্রে। করপোরেট ইনকাম ট্যাঙকর্তনের ফলে বিনিয়োগে যে প্রভাব পড়বে তার ফলশ্রুতিতে সেটা ঘটবে। মার্কিন প্রবৃদ্ধির ওপরে এই প্রভাব ২০২০ সাল পর্যন্ত অব্যাহত থাকবে বলে অনুমান করা হচ্ছে। ওই বছরে প্রবৃদ্ধি হবে ১.২ শতাংশ। ২০১৮–১৯ সালে বৈশ্বিক প্রবৃদ্ধিতে ক্রমবর্ধিত সংশোধনের প্রায়্র অর্ধেকটার অবদান হলো যুক্তরাষ্ট্রে উৎপাদনের ওপরে প্যাকেজের প্রভাবের ও দেশটির ব্যবসায়িক অংশীদারদের।

চক্রাকারে উধ্বমূখী প্রবণতা চলমান থাকার বিষয়টি নানা ধরনের সংস্কার সাধনের ক্ষেত্রে একটি মোক্ষম সুযোগ এনে দিয়েছে। সকল দেশজুড়ে অভিনু অগ্রাধিকারের মধ্যে রয়েছে সম্ভাব্য উৎপাদন শক্তিশালী করতে বাজার প্রবৃদ্ধি অধিকতর অন্তর্ভুক্তিমূলক করতে কাঠামোগত সংস্কার বাস্তবায়ন। আর্থিক বাজারে আশাবাদী হওয়ার মতো এই পরিবেশে আর্থিক স্থিতিস্থাপকতার বিষয়টি নিশ্চিত করা কাম্য। দূর্বল মূল্যক্ষীতির বিষয়টি ইঙ্গিত দেয় উন্নত অর্থনীতির অনেক দেশেই ঢিলা জায়গা রয়ে গেছে। সেখানে মূদ্রা নীতি উপযোগী অবস্থায় রাখা উচিং। অবশ্যে, উধ্বমূখী এই প্রবৃদ্ধির অর্থ হলো রাজস্ব নীতি ক্রমবর্ধমানভাবে এমন নকশায় নেওয়া উচিং যার চোখ থা কবে মধ্যমেয়াদী লক্ষ্য অর্জনের দিকে। এতে করে টেকসই রাজস্ব নিশ্চিত হবে এবং সম্ভাব্য উৎপাদন শক্তিশালী করবে। বৈশ্বিক অর্থনীতির পুনরুদ্ধার নিশ্চিত করতে বহুপক্ষীয় সহযোগিতার বিষয়টি এখনো গুরুত্বপূর্ণ।

বাংলাদেশের অর্থনীতি

২০১৭ সালে বাংলাদেশের অর্থনীতি ছিল স্থিতিস্থাপক। কয়েকটি চ্যালেঞ্জ মোকাবেলা করতে হয়েছিল। আগস্কে দেশব্যাপী বন্যা হয়েছিল; যা ফসল ও অবকাঠামো খাতে ব্যাপক ক্ষতি করে। এছাড়া লাখ লাখ রোহিঙ্গা শরনার্থীকে আশ্রয় দেওয়াও অর্থনীতির জন্য একটা বড় চ্যালঞ্জ ছিল। জুলাই থেকে নভেম্বর পর্যন্ত রফতানী রেকর্ড গড়েছিল। এটা ব্যবসার ক্ষেত্রে ভারসাম্য তৈরি করে। ডিসেম্বরে বিদেশি রেমিটেন্স প্রভাহের ধারা ছিল অত্যন্ত

শক্তিশালী। যদিও ২০১৬ সালের তুলনায় ২০১৭ সালে রেমিটেন্স প্রবাহ কমছিল। ২০১৬–১৭ অর্থ বছরে অর্থনীতিতে প্রবৃদ্ধি হয়েছিল ৭ দশমিক ২৮ শতাংশ। এটা ছিল একটা বড় অর্জন। কেননা, এটা প্রবৃদ্ধির ছয় অঙ্কের ঘর ভেঙ্গেছে; যা এক দশক বা তার চেয়েও বেশি সময় ধরে ছিল। আগের বছরের মতোই বড় প্রবৃদ্ধি এসেছিল শিল্পখাত থেকে। যদিও গড় মূল্যস্ফিতি ছিল ৫ দশমিক ৫ শতাংশ। সাম্প্রতিক কয়েক মাসে খাদ্যে মূল্যস্ফীতি বেড়ে গছে। এর কারণ হলো দুই দফা বন্যায় কৃষিখাতে ব্যাপক ক্ষতি হয়েছে।

শ্বতন্ত্র রেটিং

২০১৭ সালের রেটিং ২০১৬ সালের মতোই ছিল। ২০১৬ সালের মূল্যায়ন মোতাবেক, বাংলাদেশ অর্জন করেছিল বিএ৩ (মুডিস সভারেন রেটিং) এবং বিবি– (ফিচ লং টার্ম ফরেন অ্যাড লোকাল কারেন্সি ইস্যুয়ার ডিফল্ট রেটিং)। এটা ছিল স্থিতিশীল। সম্প্রতি ফিচ রেটিং প্রকাশ করা হয়। এ বছরের ১১ জানুয়ারি প্রকাশিত রেটিংয়ে দেখা গেছে, বাংলাদেশের রেটিং আগের মতোই আছে। এতে বলা হয়, বিদেশি মুদ্রা অর্জন বেশশক্ত অবস্থায় আছে। এটা প্রকৃত জিডিপি প্রবৃদ্ধির জন্য স্থিতিশীল। বাংলাদেশের প্রকৃত জিডিপি প্রবৃদ্ধির জন্য স্থিতিশীল। বাংলাদেশের প্রকৃত জিডিপি এখন বেশি। যদিও গত পাঁচ বছরের গড় জিডিপি ৬ দশমিক ৫ শতাংশ। বাংলাদেশের বিদেশি অর্থনীতির সহায়তা স্বস্থিদায়ক অবস্থায় রয়েছে। বিদেশে মুদ্রার রিজার্ভ রয়েছে ৩৩ দশমিক ২৭ বিলিয়ন মার্কিন ডলার।

কৃষি খাত

বাংলাদেশ মূলত একটি কৃষি প্রধান দেশ। এখানে কৃষি খাত অর্থনৈতিক প্রবৃদ্ধিতে বড় ভূমিকা পালন করে থাকে। মানুষের দীর্ঘ মেয়াদী খাদ্য নিরাপত্তার জন্য কৃষি খাতে লাভজনক, স্থিতিশীল ও পরিবেশ বান্ধব কৃ ষি ব্যবস্থাপনা গুরুত্বপূর্ণ। গত পাঁচ বছরে খাদ্য উৎপাদন বেড়েছে। অর্থ মন্ত্রণালয়ের প্রতিবেদন অনুসারে, ২০১৬–১৭ অর্থ বছরে কৃষি ও বন খাতে প্রবৃদ্ধি হয়েছিল ১ দশমিক ৯৬ শতাংশ। আগের অর্থ বছরে এটা ছিল ১ দশমিক ৭৯ শতাংশ। ২০১৬-১৭ অর্থ বছরে খাদ্য উৎপাদন (ধান, গম ও ভুট্টা) হয়েছিল ৩৮ দশমিক ৮১৪ মিলিয়ন মেট্রিক টন। আগের বছর এটা উৎপাদন হয়েছিল ৩৮ দশমিক ৮১৭ মিলিয়ন মেট্রিক টন। ২০১৬-১৭ অর্থ বছরে ধান উৎপাদন হয়েছিল ৩৩.৮১৩ মিলিয়ন মেট্রিক টন। আগের বছর উৎপাদন হয়েছিল ৩৪ দশমিক ৭১০ মিলিয়ন মেট্রিক টন। ওই অর্থ বছরে গম উৎপাদন হয়েছিল ১.৪২৩ মিলিয়ন মেট্রিক টন; যা আগের বছরের চেয়ে ১ দশমিক ৩৪৮ মিলিয়ন মেট্রিক টন বেশি। ভুট্টা উৎপাদন হয়েছিল ৩.৫৭৮ মিলিয়ন মেট্রিক টন; যা আগের বছরের চেয়ে ২.৭৫৯ মিলিয়ন মেট্রিক টন বেশি। মৎস্য বিভাগের (ডিওএফ) অনুমান মোতাকে, ২০১৬-১৭ অর্থবছরে অভ্যন্তরীণ ও সামুদ্রিক ক্ষেত্রে মোট মাছের উৎপাদন ছিল ৪.০৫০ মিলিয়ন মেট্রিক টন। আগের অর্থবছরে সেটা ছিল ৩.৮৭৮ মিলিয়ন মেট্রিক টন।

শিল্প খাত

২০১৬–১৭ অর্থ বছরে তিনটি খাতে (খনি অনুসন্ধান ও খনন, কারখানায় উৎপাদন এবং বিদ্যুৎ, গ্যাস ও পানি সরবরাহ) উৎপাদন কমেছে। একই সময় নির্মাণ খাত বেড়েছে। এ অর্থ বছরে প্রাকৃতিক গ্যাস ও পেট্রোলিয়াম

খাতে প্রবৃদ্ধি কমেছে শূন্য দশমিক ৩৪ শতাংশ। তবে খনি ও কয়লারউপখাতে প্রবৃদ্ধি আগের অর্থ বছরে ছিল ১৪.৪২ শতাংশ; এবার উল্লেখভাবে বেড়ে হয়েছে ২১.১৯ শতাংশ। বৃহৎ ও মাঝারি শিল্প উপখাতে উৎপাদন সামান্য কমে হয়েছে ১১ দশমিক ২০ শতাংশ। তবে স্কুদ্র শিল্প উপখাতে উৎপাদন কিছুটা বেড়ে হয়েছে ৯ দশমিক ৮২ শতাংশ। এ ছাড়া তিনটি উপখাতে (বিদ্যুৎ, গ্যাস ও পানি সরবরাহ) ২০১৬–১৭ অর্থ বছরে প্রবৃদ্ধি ছিল যথাক্রমে ৯.২২ শতাংশ, ০.২৮ শতাংশ ও ১১.০৯ শতাংশ। আগের অর্থবছরে এটা ছিল যথাক্রমে ১৪.২০ শতাংশ, ৯,৯১ শতাংশ ও ৭.৪০ শতাংশ। অন্যদিকে নির্মাণ খাতে প্রবৃদ্ধি সামান্য বৃদ্ধি পেয়ে ২০১৬–১৭ অর্থবছরে হয়েছে ৮.৭৭ শতাংশ; আগের অর্থবছরে সেটা ছিল ৮.৫৬ শতাংশ।

সেবা খাত

আগের অর্থ বছরের তুলনায় ২০১৬-১৭ অর্থ বছরে সেবা খাতে প্রবৃদ্ধি হয়েছে। খুচরা ও পাইকারী ব্যবসা, হোটেল ও রেস্টুরেন্ট এবং পরিবহন, সংরক্ষণ ও যোগাযোগ খাতে ৭ দশমিক ৩৭ শতাংশ, ৭.১৩ শতাংশ ও ৬ দশমিক ৭৬ শতাংশ প্রবৃদ্ধি হয়েছে। আগের অর্থ বছরে এটা ছিল যথাক্রমে ৬ দশমিক ৫০ শতাংশ, ৬ দশকি ৯৮ শতাংশ ও ৬ দশমিক শূন্য ৮ শতাংশ। এ অর্থ বছরে সড়ক পরিবহন, জলজ পরিবহন ও বিমান পরিবহন, সহযোগী পরিবহন, সংরক্ষণ এবং ডাক ও টেলিযোগাযোগ সেবা বেড়ে ৭.০৬ শতাংশ, ৪.১০ শতাংশ, ২.৭৯ শতাংশ, ৬.৪০ শতাংশ ও ৬.৯৪ শতাংশ হয়েছে। রিয়েল স্টেট, ভাড়া ও ব্যবসা কার্যক্রম; সামাজিক কার্যক্রম; কমিউনিটি, সামাজিক ও ব্যক্তিগত সেবা ৪.৮০ শতাংশ, ৭.৬৩ শতাংশ ও ৩.৬২ শতাংশ বড়েছে। অবশ্য, ২০১৬-১৭ অর্থবছরে 'জনপ্রশাসন ও প্রতিরক্ষা' ও 'শিক্ষা' খাতে প্রবৃদ্ধি কমে হয়েছে যথাক্রমে ১১.৪৩ শতাংশ ও ১১.৭১ শতাংশ, যা আগের অর্থবছরে ছিল যথাক্রমে ১১.৪৩ শতাংশ ও ১১.৭১ শতাংশ।

২০১৭ অর্থবছরে গড় সিপিআই স্ফাতি পতনের মূলে ছিল খাদ্য-বহির্ভূত পণ্যের মূল্যের স্ফাতি। যেখানে খাদ্যপণ্যের মূল্যেস্ফাতি বেড়েছিল উল্লেখযোগ্যভাবে। ২০১৭ অর্থবছরে দেশের উত্তর-পূর্বাঞ্চলের হাওর এলাকায় বন্যায় ব্যাপক ফসলহানির কারণে এ স্ফিতি দেখা যায়। এর বিপরীতে, সিপিআইয়ের খাদ্য বহির্ভূত মূল্য উপাদানগুলোয় পতন হয়েছিল বিশ্বব্যাপী মূল্যক্ষাতি হ্রাস এবং অনুকূল আঞ্চলিক মূল্যক্ষাতি হারের কারণে। অধিকন্তু, সিপিআই বাস্কেট থেকে খাদ্যও জ্বালানি উপাদানকে পৃথ ককারী কেন্দ্রীয় মূল্যক্ষাতি ২০১৬ সালের জুনের ৮.০ শতাংশ থেকে ২০১৭ সালের জুনে কমে হয়েছে ৪.৯ শতাংশ।

বিনিময় হার

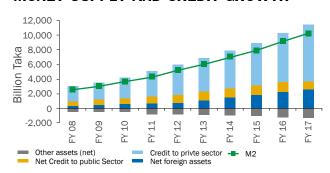

২০১৬ সালের জুন থেকে ২০১৭ সাল পর্যন্ত বাংলাদেশি টাকার বিপরীতে মার্কিন ডলারের বিনিময় হার ৩.০৬ শতাংশ বেড়ে যায়। বাংলাদেশি টাকার নামমাত্র কার্যকর বিমিং হার (এনইইআর) এবং প্রকৃত কার্যকর বিনিময় হার (আরইইইআর) একটি বাণিজ্যের বিপরীতে হিসেব করে ওজন দাঁড়ায় ১৫ কারেন্সি বাষ্কেট (বেইজ: ২০১৬ অর্থবছর = ১০০)। ২০১৭ অর্থবছরে এনইইআর সূচকের মুল্যে অবচয় ঘটে ১.৬৯ শতাংশ যেখানে টাকার আরইইআর সূচকের মুল্যে উনুতি ঘটে ১.৮১ শতাংশ।

অর্থ সরবরাহ ও ঋণের প্রবৃদ্ধি

২০১৭ অর্থবছরে ব্রড মানি (এম২) বেড়েছে ১০.৯ শতাংশ, যা ছিল লক্ষ্যমাত্রা ১৫.৫ শতাংশ এবং ২০১৬ অর্থবছরের প্রকৃত প্রবৃদ্ধি ১৬.৩ শতাংশের চেয়ে কম। ব্রড মানির এই নিমু প্রবৃদ্ধির পেছনে ছিল মোটি বৈদেশিক সম্পদ (এনএফএ) ও মোটি অভ্যন্তরীণ সম্পদ (এনডিএ) উভয়ই। এনএফএ প্রবৃদ্ধি উল্লেখযোগ্যভাবে কমে ২০১৬ অর্থবছরের ২২.৮ শতাংশ থেকে ২০১৭ অর্থবছরে হয়েছে ১১.৫ শতাংশ। অন্যদিকে এনডিএ প্রবৃদ্ধিও কমেছে।ে ২০১৬ অর্থবছরে ছিল ১৪.৩ শতাংশ; ২০১৭ অর্থবছরে তা হয়েছে ১০.৭ শতাংশ।

ব্যাংক ব্যবস্থা থেকে অভ্যন্তরীণ ঋণ বেড়েছে ১১.২ শতাংশ। এটা ২০১৭ অর্থবছরের লক্ষ্যমাত্রা ১৬.৪ শতাংশ এবং ২০১৬ অর্থবছরের প্রকৃত প্রবৃদ্ধি ১৪.৪ শতাংশের চেয়ে কম। মূলত সরকারি খাতে ঋণের নেতিবাচক প্রবৃদ্ধি, প্রতিফলিত সরকারি অর্থায়ন (অধিকাংশই এনএসডি সেভিংস থেকে) এবং ব্যাংকিং ব্যাবস্থা থেকে সরকারে পূর্ববর্তী ঋণ পরিশোধের কারণে অভ্যন্তরীণ ঋণে প্রত্যাশার চেয়ে কম প্রবৃদ্ধি হয়েছে।

MONEY SUPPLY AND CREDIT GROWTH

২০১৭ অর্থবছরে বেসরকারি খাতের ঋণ বেড়েছে ১৫.৭ শতাংশ, যা এই অর্থবছরের লক্ষ্যমাত্রা ১৬.৫ শতাংশ এবং ২০১৬ অর্থবছরের প্রকৃত প্রবৃদ্ধি ১৬.৮ শতাংশ থেকে কিছুটা কম। মূলত ব্যাংকিং ব্যবস্থায় মোট অভ্যন্তরীন সম্পদে (এনডিএ) নিশু প্রবৃদ্ধির কারণে বেসরকারি খাতে প্রত্যাশার চেয়ে এই ঋণ প্রবৃদ্ধি কম হয়েছে; পাশাপাশি সরকারি খাতের ঋণে নেতিবাচক প্রবৃদ্ধি পরিলক্ষিত হয়েছে। এটা ২০১৭ অর্থবছরে দাঁড়িয়েছে ১০.৭ শতাংশে যা এই অর্থবছরের লক্ষ্যমাত্রা ১৭.৩ শতাংশ এবং ২০১৬ অর্থবছরের প্রকৃত প্রবৃদ্ধি ১৪.৩ শতাংশ থেকে কম।

রিজার্ভ মানি (আরএম) ২০১৭ অর্থবছরে বেড়েছে ১৬.৩ শতাংশ যা প্রাক্কলিত প্রবৃদ্ধি ১৪.০ শতাংশের চেয়ে বেশি এবং ২০১৬ অর্থবছরের প্রকৃত প্রবৃদ্ধি ৩০.১ শতাংশ থেকে কম।

বাহ্যিক দেনা

২০১৭ অর্থ বছরে বাংলাদেশের বাইরের দেনা বেড়ে ২৮,৫৬৬.৩ মিলিয়ন ডলার হয়। এর আগের বছর এটা ছিল ২৬,৩০৫.৭ মিলিয়ন মার্কিন ডলার। অবশ্য, আউটস্ট্যাডিং দেনার জিডিপি অনুপাত একই সময়ে ১১.৯ শতাংশ থেকে কমে ১১.৪ শতাংশহয়েছে।

বাংলাদেশের অর্থনীতির অবস্থা

২০১৭ থেকে ২০১৮ সালের অর্থনৈতিক দৃশ্য বেশ স্পষ্ট। বাজারে নগদ টাকার প্রাপ্তি সহজ হবে না। এতে তহবিল সংগ্রহে চাপ বাড়তে পারে। এটা প্রভাব ফেলতে পারে সম্পদ বৃদ্ধি এবং খরচে। ২০১৮ সালে এটা সম্পদে প্রবৃদ্ধির ওপরে একটা বড় প্রভাব ফেলতে পারে।

- স্কুদ্র ব্যবসাপ্রতিষ্ঠানগুলোরজন্য গুণগত মানের সম্পদ নির্বাচনের জন্য অধিকতর বেশি আলোকপাত দেওয়া হতে পারে। এর লক্ষ্য হলো অর্থনৈতিক মূল্য বৃদ্ধি করা।
- ভোক্তা মূল্য সূচক উধর্বমূখী প্রবণতায় থাকবে এবং অর্থনীতিতে স্বল্প ও
 মধ্য মেয়াদে ভোক্তা অর্থায়নের ওপরে চাপ সৃষ্টি করতে পারে। ভোক্তা
 অর্থায়নে ব্যাংক থেকে পূর্বসতর্কতামূলক বিনিয়োগ দেখা যেতে পারে।
 আসনু দিনগুলোতে ব্যায়যোগ্য আয় কমে য়ওয়ার আন্দান করে এটা
 করা হবে।
- সংকোচনের মূদ্রা নীতি ও কঠোর নিয়ন্ত্রণ নীতি অগ্রাধিকার পেতে পারে।
 এই শিল্পে অধিকতর শৃঞ্চলো আনতে সেটা করা হবে।
- ২০১৮ সাল নির্বাচনী বছর হিসেবে পরিচিত। এ বছর বিনিয়োগকারীরা রাজনৈতিক দ্বিতিশীলতা নিয়ে উদ্বিগু থাকতে পারেন।
- ক্রমবর্ধমাণভাবে খাদ্য আমদানি ও মূলধন পরিস্থিতি পুনরায় মুদ্রা বিনিময় হারে প্রভাব ফেলতে পারে। অন্যদিকে এটা রপ্তাানি সংশ্লিষ্ট অর্থনীতি এবং ব্যালেন্স শিট সুবিধার জন্য ইতিবাচক হতে পারে।
- সরকারের অনেক মেগা প্রকল্প ট্র্যাকে এবং পাইপ লাইনে আছে। এ কারণে সরকারের ঋণ আরও বেডে যেতে পারে।

কৌশলগত হাইলাইটস

ব্যাংকিং ব্যবসার প্রতিটি ক্ষেত্রেই সফলতার জন্য সংগ্রাম করে যাচ্ছে ব্র্যাক ব্যাংক লিমিটেড। পরিপ্রেক্ষিত বিবেচনায় নিয়ে এবং বিভিন্ন সুযোগ-সম্ভাবনা শনাক্ত করার মাধ্যমে ব্যাংক কর্তৃপক্ষ অব্যাহতভাবে বিভিন্ন কৌশল প্রণয়ন করে যাচ্ছে। ব্যাংকটি রাজস্ব বৃদ্ধির ওপরে যেমন নজর দিচ্ছে, তেমনি নিজের সুযোগ-সম্ভাবনার সকল ক্ষেত্রে সক্ষমতা নিশ্চিত করার ওপরেও আলোকপাত করছে। স্বল্পমেয়াদী ও দীর্ঘমেয়াদী বিভিন্ন ব্যবসায়িক লক্ষ্য-উদ্দেশ্য অর্জনের জন্য কর্তৃপক্ষ যেসব কৌশল সাম্প্রতিক সময়ে নিয়েছে, তার কয়েকটি নিশ্রে বর্ণনা করা হলো:

ব্যবসায়িক পুনর্বিন্যাস

ব্র্যাক ব্যাংকের কর্তৃপক্ষ একটি নিয়ন্ত্রিত মডেলের মধ্যে থেকে কর্মকাণ্ড পরিচালনা করতে অভ্যন্ত। এর মাধ্যমে ব্যাংকের ১৮৬টি শাখায় গ্রাহকদের খুচরা সেবা দেওয়া হচ্ছে। এ ছাড়া ব্যাংকের ৪৫০টি এসএমই ইউনিট অফিস থেকে এসএমই গ্রাহকদের সেবা দেওয়া হচ্ছে। আমাদের গ্রাহক ভিত ক্রমবর্ধমানভাবে বাড়ছে। আমাদের গ্রাহকদের চাহিদা ও প্রয়োজনগুলো উপলব্ধি করে আমরা ইতিমধ্যে আমাদের সেবার চ্যানেলগুলো ঢেলে সাজিয়েছি বহুমুখী ব্যবসায়, যার আলোকপাত হচ্ছে 'একের জন্য সবাই, সবার জন্য এক'। আমাদের গ্রাহকেরা এই ব্যবসায়িক মডেলকে সাধুবাদ জানিয়েছেন। ক্রমবর্ধমান নমনীয়তা এবং সকল চ্যানেলের মাধ্যমে গ্রাহকসেবার উচ্চ আদর্শমানের কারণেই তাঁরা এটাকে পছন্দ করেছেন। আসানু দিনগুলোতে এই মডেল অব্যাহত থাকবে এবং তাতে আরও উনুয়ন ঘটানো হবে।

চ্যানেল সামঞ্জস্যকরণ

ব্যাক ব্যাংক লিমিটেড পারফরম্যান্সমুখী একটি গতিশীল ব্যাংক। ব্যাংকটি আর্থিক অন্তর্ভুক্তিতে নাগরিক কণ্ঠের একটি শক্তিশালী চ্যানেল সৃষ্টি করা, মানুষকে তাঁদের আর্থিক বিভিন্ন চাহিদা ও পছন্দের বিষয়ে অধিকতর সক্রিয় করা এবং জ্ঞাত সিদ্ধান্ত নিতে সক্ষম করে তোলার ওপরে আলোকপাত করে আসছে। আমরা আমাদের নেটওয়ার্ককে সামঞ্জস্য করে নিয়েছি বাংলাদেশজুড়ে এর দ্রুত সম্প্রসারণ ও প্রবৃদ্ধির লক্ষ্যে। আমাদের সেবাগুলোকে মানুষের দোরগোড়ায় নিয়ে যাওয়ার জন্যই এটা করা হয়েছে। পরিবেশনের চ্যানেলগুলোর গুণগত মান বজায় রাখা এবং আদর্শমানে নেওয়ার বিষয়ে আমরা সংগতিপূর্ণভাবে মনোযোগ দিয়েছি বলেই আমাদের সফলতা এবং গ্রাহক সন্তর্মির পথটি প্রশন্ত হয়েছে।

কার্যসম্পাদনের সময় হ্রাস ও সক্ষমতায় উনুয়ন

ব্র্যাক ব্যাংকে বিগত দুই বছরে আমাদের অত্যন্ত তীব্র আকাঙ্খার কেন্দ্রে ছিল এই প্রক্রিয়াগত পর্যালোচনা ও উন্নতি সাধনের নানা পদক্ষেপ। ব্যাংকটি তার বিদ্যামান সকল প্রক্রিয়ার পর্যালোচনা, কাজে দেয় না না এমন কর্মকাণ্ড ছেঁটে ফেলা, সক্ষমতা–দক্ষতা বৃদ্ধি এবং সকল চ্যানেলজুড়ে আমাদের গ্রাহকদের সার্বিক অভিজ্ঞতায় উন্নতি ঘটাতে উল্লেখযোগ্য পরিমাণে সম্পদ বিনিয়োগ করেছে। আমাদের সক্ষমতা–দক্ষতায় উন্নতি সাধনের ক্ষেত্রে এটা একটি অব্যাহত প্রক্রিয়া। এই পদক্ষেপের ফলে প্রক্রিয়াগত ব্যয়ের ওপরে অধিকতর কঠোরভাবে নজর রাখা সম্ভব হয়েছে এবং ব্যবসায়িক বিভিন্ন কর্মকাণ্ডের পারফরম্যান্সে উন্নতি ঘটেছে। আমারা এখন অভিনবত্বের ওপরে আলোকপাত করছি, যার লক্ষ্য হলো প্রতিযোগিতার মাঠে আমাদের সক্ষমতা বৃদ্ধি করা এবং ব্র্যাক ব্যাংককে একটি বিশ্বস্ত ও মূল্যবান ব্র্যান্ডে পরিণত করা।

কর্মীদের উৎপাদনশীলতায় উনুতি

ব্র্যাক ব্যাংকের একটি অতি সরল কৌশল হচ্চে মানুষের ওপরে বিনিয়োগ করা। আমাদের কৌশলের অংশ হিসেবে, এই শিল্পের মধ্যে সবচেয়ে মেধাবী মানুষগুলোকে কর্মী হিসেবে সংগ্রহ করা, কর্মীদের সুযোগ-সুবিধা বৃদ্ধি করা এবং পারফরম্যান্স পরিমাপ করার নীতি নেওয়া হয়েছে। এসব নীতি কর্মীদের উচ্চমাত্রায় উদ্ধুদ্ধকরণের বিষয়টি নিশ্চিত করছে; সর্বোত্তম পারফরম্যান্স এবং চাকরির ক্ষেত্রে সন্তুষ্টির জন্য নিশ্চিত করছে কর্মীদের আনুগত্য। ব্র্যাক ব্যাংক তার কর্মীদের পাশাপাশি গ্রাহকদের নিয়ে ভাবে বলেই এখনো এটি দক্ষ ব্যাংক হিসেবে প্রতিযোগিতায় টিকে আছে।

যুগোপযোগী প্রযুক্তিতে বিনিয়োগ

অর্থনৈতিক শিল্পের দৃশ্যপট নিয়ত-পরিবর্তনশীল। এমন প্রেক্ষাপটে ব্র্যাক ব্যাংক সময়ের সঙ্গে খাপসই প্রযুক্তি ও আইটি পরিকাঠামোয় বিনিয়োগের মাধ্যমে তার প্রতিযোগিতার সক্ষমতাকে হালনাগাদ করে নিচ্ছে। আমাদের কেন্দ্রীয় ব্যাংকিং পদ্ধতিতে (সিবিএস) হালনাগাদকরণের বিষয়টি আমাদের পরিচালনগত পারফরম্যান্স ও সক্ষমতা-দক্ষতায় উনুতি সাধন করবে। এর ফলে অধিকতর উনুতমানের গ্রাহক সেবা ও পর্যবেক্ষণ সম্ভব হবে। বিগত বছরে যেমনটি বলা হয়েছিল "আমাদের সংস্থার জন্য প্রযুক্তি হচ্ছে জীবনের জন্য অপরিহার্য রক্তের মতো এবং আমাদের সকল ব্যাবসার

ANNUAL REPORT 2017 113

ক্ষেত্রে ভবিষ্যত প্রবৃদ্ধি এগিয়ে নেওয়া প্রশ্নে এটা একটি চাবিকাঠি। আমাদের কৌলশগত অগ্রাধিকারগুলো আমাদের প্রযুক্তিগত অগ্রগতির মধ্যেই অধিকতর বেশি নিহিত আছে। গ্রাহকদের কাছে নিরাপদ পণ্য, প্ল্যাটফরম ও সেবা পৌচ্ছে দেওয়ার বিষয়টি নিশ্চিত করতেই এই আয়োজন। ডেটা ও বিশ্লেষণের ক্ষেত্রে অভিনবত্ব আনার কারণে সম্প্রসারিত অন্তর্দৃষ্টি দিয়ে নিত্যনতুন সব ব্যবসায়িক সুযোগ-সম্ভাবনা উন্মোচন করা সম্ভব হয়; আমাদের প্রতিযোগিতার সক্ষমতায় উনুতির মাধ্যমে ব্যবসা করা যায় অধিকতর স্মার্ট পদ্ধতিতে।" আমরা প্রযুক্তিতে বিনিয়োগ অব্যাহত রাখবো। ব্যাংকিং কর্মকান্ত পরিচালনার ক্ষেত্রে আমাদের কর্মীদের ও গ্রাহকদের সর্বশেষ প্রযুক্তি ব্যবহারে সক্ষম করে তুলতেই সেটা করা হবে।

আমাদের কৌশলগত পরিকল্পনার কেন্দ্রে রয়েছে গণপ্রজাতন্ত্রী বাংলাদেশ সরকারের ভিশন বাস্তবায়নে আমাদের অংশগ্রহণ ও অংশীজন হওয়ার বিষয়টি। মূদ্রা-কেন্দ্রিক ও অর্থনৈতিক স্থিতিশীলতা বজায় রাখা এবং এর মাধ্যমে বাংলাদেশের মধ্যে সেরা ব্যাংক হওয়ার পথে এগোনোর মাধ্যমে সেটা করা হয়ে থাকে।

আর্থিক পর্যালোচনা

২০১৭ সালে বাংলাদেশের ব্যাংকিং শিল্প একটি তীব্র প্রতিযোগিতামূলক বছর পার করেছে। ব্যাংকিং ব্যবস্থা স্থিতিশীল করার জন্য ছিল কেন্দ্রীয় ব্যাংকের অধিকতর নিয়ন্ত্রণগত বাধ্যবাধকতা ও পর্যবেক্ষণ। ছিল ক্রমবর্ধমান অলস ঋণ ও বেসরকারি খাতের বিনিয়োগ, হ্লাসের মতো বিষয়। এমন পরিপ্রেক্ষিতে ২০১৭ সালে ঋণ ও আমানত উভয়ই বেডেছে।

অপেক্ষাকৃত স্থিতিশীল রাজনৈতিক পরিবেশে, ব্যাংকিং খাতে তত্ত্বাবধানের অভাবে প্রশাসনগত একটি তীব্র সংকট সৃষ্টি হয়েছে। ব্যাংকিং খাত আরও ভূগেছে খারাপ ঋণের পরিমাণ নজিরবিহীন বৃদ্ধির কারণে - অবিশ্বাস্যভাবে ঋণের ১১% (আনুমানিক) বিতরণ হয়েছে। এ ছাড়াও বছরজুড়ে ছিল তারল্য সংকট ও আর্থিক কেলেঙ্কারির নানা ঘটনা।

অন্যদিকে, একটি উনুয়নশীল দেশ হিসেবে বাংলাদেশ আর্থিক অন্তর্ভূক্তির ক্ষেত্রে প্রশংসনীয় অগ্রগতি দেখাতে সক্ষম হয়েছে। ব্যাংকিং সেবার আওতা সম্প্রসারিত হয়েছে বিভিন্ন স্থানে শাখা বৃদ্ধির পাশাপাশি এজেন্ট ব্যাংকিংয়ের মাধ্যমে।

ব্র্যাক ব্যাংক লিমিটেড গত তিন বছর প্রতিবন্ধকতাহীন অগ্রগতি প্রত্যক্ষ করেছে। আমাদের নিরলস প্রচেষ্টা এবং ব্যবস্থাপনাগত বিচক্ষণ সিদ্ধান্তগুলোর কারণে সেটা সম্ভব হয়েছে। ব্যাংক তার গ্রাহকদের আর্থিক চাহিদা, ঋণ-ঝুঁকি ব্যবস্থাপনা এবং ব্যাংকিংয়ের বাইরে থাকা জনগোষ্ঠীকে আর্থিক অন্তর্ভুক্তির আওতায় আনার জন্য এসব সিদ্ধান্ত নেয়।

ত্রৈমাসিক আর্থিক পারফরম্যান্স

আমাদের প্রশাসনগত প্রক্রিয়ার একটি অংশ হিসেবে, পর্ষদের অডিট কমিটি ও পর্ষদ নিজেই ব্যাংকের ত্রৈমাসিক আর্থিক পারফরম্যান্স পর্যালোচনা করেছে। বছরজুড়ে এই পর্যালোচনা হয়েছে একক এবং সামষ্টিক উভয় ভিত্তিতে। পরিচালনা পর্ষদ (বিওডি) এবং পর্ষদের অডিট কমিটি (বিএসি) এই ব্যাংক এবং গ্রুপের আর্থিক এবং অ-আর্থিক উভয় পারফরম্যান্সই অব্যাহতভাবে পর্যবেক্ষণ ও মূল্যায়ন করেছে। ২০১৭ সালে, বিএসি বিভিন্ন আর্থিক বিবরণী ত্রৈয়মাসিকভাবে পর্যালোচনা করেছে এবং বিওডি সেগুলো অংশীদারদের কাচ্ছে প্রকাশের আগে অনুমোদন করেচে।

পর্ষদ ত্রৈমাসিকভাবে যেসব আর্থিক বিবরণী পর্যালোচনা করেছে, তা নিচে সংক্ষেপে তুলে ধরা হলো:

বিভিন্ন কৌশল ও ব্যাংকিং শিল্পের ফলাফলগুলোও পর্যালোচনা করেছে। এই পর্যালোচনার ওপর ভিত্তি করে তারা হালনাগাদকৃত নীতিমালা প্রণয়ন করতে পেরেছে, যার লক্ষ্য ছিল ব্যাবসার অবস্থা ও পারফরম্যান্সে আরও উনুতি ঘটানো। ২০১৭ সালে একক ও সামষ্টিক উভয় ফলাফলেই অত্যন্ত সংগতিপূর্ণ ও অবিচলিত প্রবৃদ্ধি পরিলক্ষিত হয়েছে।

পরিচালনগত পারফরম্যান্স

ব্র্যাক ব্যাংক লিমিটেড ২০১৭ সালে তার পরিচালনগত পারফরম্যানের প্রায় প্রতিটি ক্ষেত্রেই আগের প্রবৃদ্ধির ধারাবহিকতা ধরে রাখতে পেরেছে। ব্যাংকটি ব্যয় সামঞ্জস্য করা এবং পরিচালনগত দক্ষতা–সক্ষমতায় উনুতি করার ক্ষেত্রে তার আলোকপাত আরও শক্তিশালী করেছে। এই সুষম পদ্ধতি বাজার চাহিদার প্রতি সাড়া দেওয়ার ক্ষেত্রে আমাদের সক্ষমতাকে হালনাগাদ করতে সক্ষম করে তুলেছে এবং বাংলাদেশের মধ্যে আমাদের সেরা ব্যাংক হওয়ার জন্য ক্ষেত্র প্রস্তুত করেছে।

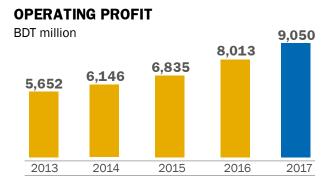

গ্রাহকদের বিভিন্ন চাহিদা ও অংশীদারদের বিভিন্ন প্রত্যাশার প্রতি আমাদের নিরন্তর আলোকপাতের বিষয়টি দেশের অতিমন্দা ব্যাংকিং শিল্পের মধ্যেও আমাদেরকে একটি আউটলায়ার পারফরমার হতে সাহায্য করেছে। দীর্ঘদিন ধরে চলমান নিশ্ন সুদহার, বিগত বছরগুলোর শ্লথ প্রবৃদ্ধির পরিবেশ আমাদের সতর্ক হতে সহায়তা করেছে। ব্যাংকিং শিল্প বিভিন্ন পরিস্থিতির একটি সমন্বিত অস্বাভাবিক অবস্থা মোকাবিলা করছে যা আমাদেরকে দক্ষ হওয়ার প্রচেষ্টায় বিশেষ একটা উদ্দীপনা দিচ্ছে।

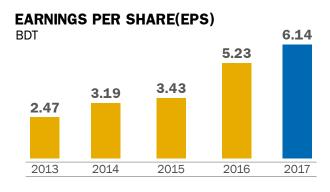

খারাপ খালের পরিমাণ উল্লেখযোগ্যহারে বৃদ্ধির কারলে ব্যাংকিং শিল্পে খাণ পরিচালনের ওপরের প্রান্তিকগুলো সার্বিকভাবে নিমুমুখী প্রবণতায় আছে। এমন পরিপ্রেক্ষিতে আমরা আমাদের কৌশলগুলো সম্পর্কে সতর্ক আছি। বিভিন্ন ব্যাংকিং পণ্য ও সেবা প্রশ্নে আমাদের গ্রাহকদের পছন্দগুলোও বদলে যাচ্ছে। তাই আমরা সেসব চ্যানেলের ওপরে বিশেষ আলোকপাত করেছি, যেগুলোর ভেতর দিয়ে এসব পণ্য প্রবেশ করে থাকে। অধিকতর উন্নত সেবা দিতে ও নিরাপত্তা সংক্রান্ত ঝুঁকি কমানোর লক্ষ্যে প্রযুক্তি অর্জনের জন্য আমরা আমাদের সম্পদ বিনিয়োগ করেছি। এসব চাপের সঙ্গে যুক্ত হয়েছে, বাংলাদেশ ব্যাংকের নিয়ন্ত্রণগত বিভিন্ন সম্প্রসারিত শর্তের সঙ্গে সংগতিপূর্ণ থাকার ব্যয় সামলানো।

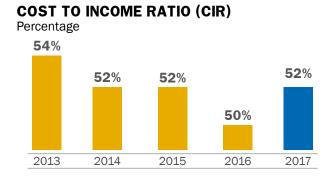

ব্যতিক্রমী এসব চাপের মুখে অত্যন্ত সতর্কভাবে বাস্তবায়িত আমাদের পদক্ষেপগুলো আমাদেরকে গুরুত্বপূর্ণ কিছু ফল অর্জন করতে সক্ষম করে তুলেছে। আমাদের রাজস্ব প্রবাহ ও সম্পদের ভিত ক্রমবর্ধমানভাবে মজবুত হচ্ছে। একই সঙ্গে মাথাপিছু ব্যয় বাড়ছে ধীরগতিতে। পরিচালনগত পারফরম্যান্ডের বিভিন্ন নির্দেশক এখানে বর্ণিত হলো:

আর্থিক পারফরম্যাঙ্গ– লাভজনকতা

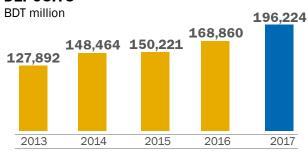

ব্র্যাক ব্যাংক গত দুই বছর ধরে পরিচালনগত মুনাফার অবিচল প্রবৃদ্ধি বজায় রাখতে সক্ষম হয়েছে। ২০১৭ সালে পরিচালনগত মুনাফা বেড়ে হয়েছে ৯,০৫০ মিলিয়ন টাকা যা আগের বছরের ৮,০১৩ মিলিয়ন টাকার চেয়ে ১৩% বেশি। মূলত সুদভিত্তিক নিট আয় ১২% এবং সুদ-বহির্ভূত আয় ১৭% বৃদ্ধির ওপর ভর করে পরিচালনগত এই বর্ধিত মুনাফা অর্জিত হয়েছে। এটা পরিচালনগত ব্যয় ২১% বৃদ্ধির বিষয়টিকে বৃহত্তরভাবে ভারসাম্যপূর্ণ করেছে।

ব্যাংকের খাণের পোর্টফোলিও ২০১৬ সালের ১৭৩,৬১২ মিলিয়ন টাকা থেকে ১৭% বেড়ে ২০১৭ সালে হয়েছে ২০২,৫৫৯ মিলিয়ন টাকা। এর ফলশ্রুতিতেই ২০১৭ সালে সুদন্তিত্তিক আয় ১৫% বৃদ্ধি সম্ভব হয়েছে। আমাদের কৌশলের অংশ হিসেবে খাণেরপোর্টফোলিও প্রবৃদ্ধির ক্ষেত্রে করপোরেট ব্যবসার চেয়ে এসএমই ও রিটেইল ব্যবসাগুলো বেশি ভ্রমিকা রেখেছে।

সহযোগী প্রতিষ্ঠানের পারফরম্যান্স

২০১৭ সালে বিবিএল-এর সহযোগী প্রতিষ্ঠানগুলো অত্যন্ত শক্তিশালী অবস্থায় প্রত্যাবর্তন করেছে। মোবাইল ব্যাংকিং সেবাদানকারী বিকাশ ট্যাঙ প্রদানের পর ৪৮৮ মিলিয়ন টাকা মুনাফা করেছে, যা আগের বছরের তুলনায় ২৬% প্রবৃদ্ধি। আর রাজস্ব বেড়েছে ২৫%। ব্রাক ইপিএল স্টক ব্রোকারেজ লিমিটেড গত বছর ট্যাঙ প্রদানের পর ২০৫ মিলিয়ন টাকা মুনাফা করেছে যা ২০১৬ সালের ৯ মিলিয়ন টাকার তুলনায় ১১৬% বৃদ্ধি। ব্র্যাক ইপিএল ইনভেস্টমেন্ট লিমিটেড ২০১৭ সালে ৪৯০ মিলিয়ন টাকা লোকসান করেছে। আমাদের সহযোগী প্রতিষ্ঠান ও আমাদের দেশের একটি নেতৃষ্থানীয় বৈদেশিক মুদ্রার রেমিট্যান্স কোম্পানি ব্র্যাক স্থজন ২০১৭ সালে নিট মুনাফা করেছে ৩০ মিলিয়ন টাকা, যা ছিল ২০১৬ সালের তুলনায় ৮৩% বৃদ্ধি।

আর্থিক পারফরম্যান্স পোর্টফোলিও বিশ্লেষণ

ব্র্যাক ব্যাংক লিমিটেড মোট সম্পত্তির ক্ষেত্রে ১৬.৫% (৪০,৮৯৬ মিলিয়ন টাকা) প্রবৃদ্ধি অর্জন করেছে। ২০১৬ সালে মোট সম্পত্তি ছিল ২৪৮,৬০৫ মিলিয়ন টাকার; ২০১৭ সালে তা বেড়ে হয়েছে ২৮৯,৫০১ মিলিয়ন টাকা। মোট সম্পত্তির ক্ষেত্রে এই প্রবৃদ্ধি অর্জনের পেছনে ছিল মূলত ঋণ ও অগ্রিমে ১৬.৭% (২৮,৯৪৭ মিলিয়ন টাকা) বৃদ্ধি। ব্র্যাক ব্যাংক চলতি বছরেও তার ক্ষুদ্র ও মাঝারি এন্টারপ্রাইজ পোর্টফোলিতে আলোকপাত করা অব্যাহত রেখেছে। এ কারণে এই অংশে ২৩% (১৯,৮৭৮ মিলিয়ন টাকা) প্রবৃদ্ধি

অর্জিত হয়েছে যা ব্যাংকের সার্বিক ঋণ পোর্টফোলিওতে অবদান রেখেছে। ব্যাংকটি আইটি প্ল্যাটফরমের উনুয়নে বিনিয়োগ অব্যাহত রেখেছে। ক্রমবর্ধমান চাহিদা মেটাতে এবং অধিকতর ভালো ও উনুতসেবা গ্রাহকদের সামনে হার্জির করতেই এই ব্যবস্থা। এটা ২০১৭ সালে ব্যাংকের মোট সম্পদের পরিমাণ বাড়াতেও সহায়তা করেছে। অবশ্য, অন্যান্য ব্যাংক ও আর্থিক প্রতিষ্ঠানগুলোর সঙ্গে ব্যাল্যান্স ৪,০২৯ মিলিয়ন টাকা বৃদ্ধি পেয়েছে, যা বৃহত্তরভাবে অন্যান্য ব্যাংক ও আর্থিক প্রতিষ্ঠান থেকে নেওয়া ধারের ৪,০৭৩ মিলিয়ন টাকার বিপরীতে ভারসাম্য এনেছে।

ঢাকা বিভাগে ২০১৬ সালের তুলনায় ঋণের ঘনত্ব গত বছর কিছুটা ব্লাস পেয়েছে। এটা অংশত ময়মনসিংহকে নতুন বিভাগ ঘোষণার কারণে ঘটেছে। অবশ্য, এটাও উল্লেখ করা যেতে পারে যে ঋণের ঘনত্বের এই হিসাব করা হয়েছে শাখার অবস্থানের ওপর ভিত্তি করে; প্রকৃত বিনিয়োগটা কোথায় গেছে তার ভিত্তিত নয়। ব্র্যাক ব্যাংক তার ঋণ বিতরণের ক্ষেত্রে সব সময়ই ভৌগলিক বৈচিত্রতার বিষয়টি মাথায় রাখে। ব্যাংক এর মাধ্যমে আমাদের দেশের সব এলাকায় সুষম উনুয়নের বিষয়টি নিশ্চিত করতে চায়। এটা করা হয়ে থাকে ব্যাংকের শাখা ও এসএমই ইউনিটগুলোর এক বিস্তৃত নেটওয়ার্কের মাধ্যমে একেবারে প্রত্যন্ত সব অঞ্চলের মানুষের কাছে পৌছানোর মাধ্যমে।

নিচের গ্রাফ থেকে আমরা দেখি যে ঋণ পোটফোলিওর ৩৯% এসএমই খাতে নিবিষ্ট, যা ২০১৬ সালের চেয়ে ৬% বেশি। ব্র্যাক ব্যাংক অবশ্য সব সময়ই এসএমই ঋণের পাশাপাশি ব্যাংকিংয়ের সকল ক্ষেত্রে আলোকপাত করার চেষ্টা করে যাচ্ছে। আবাসন খাতের সাম্প্রতিক মন্দা অবস্থার কারণে ব্যাংক এই খাতে তার লেনদেন কার্যকরভাবে হ্রাস করেছে। ২০১৬ সালে ছিল ১০% যা ২০১৭ সালে কমে হয়েছে ৬%।

২০১৭ সালের শেষ নাগাদ ব্র্যাক ব্যাংক ২,৪৯৮ মিলিয়ন টাকা বিনিয়োগ করেছে বাংলাদেশ ব্যাংকের বিভিন্ন বিলে। ট্রেজারি বিলগুলোতে বিনিয়োগ বাড়িয়ে করেছে ১,১৩৮ মিলিয়ন টাকা। এই বছরের শেষে ট্রেজারি বড়ে বিনিয়োগের পরিমাণ কমে ১,৪৮৮ মিলিয়ন টাকা হওয়ার পরিপ্রেক্ষিতে সেটা এটা বেড়েছে মূলত ডিপোজিটের পরিমাণ ১৬ শতাংশ বৃদ্ধির কারলে, টাকার অংকে যা ২৭,৩৬৫ মিলিয়ন। এটা দায়ের ক্ষেত্রে সার্বিকভাবে প্রায় ৭৫ শতাংশ বৃদ্ধি। আমানত বৃদ্ধির বাইরে চলতি ও অন্যান্য হিসাবে ৪৪%, সঞ্চয়ী আমানতে ১৪%, এবং মেয়াদী আমানতে ৪২% বৃদ্ধি হয়েছে। অবশ্য, মিশ আমানত ২০১৬ সালের তুলনায় ২০১৭ সালের শেষ নাগাদ অনেকটা একই ছিল। ব্যতিক্রম হিসেবে চলতি ও অন্যান্য হিসাবের ক্ষেত্রে আগের বছরের তুলনায় ২% ইতিবাচক অগ্রগতি পরিলক্ষিত হয়।

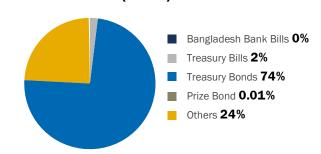

ব্র্যাক ব্যাংকের তহবিলের একটা সিংহভাগই আসে তার গ্রাহকদের আমানত হিসাব থেকে: এই আমানতের বেশির ভাগই ঋণ ও অগ্রিম হিসেবে ব্যবহার

করা হয়। বাংলাদেশ ব্যাংকের বিভিন্ন গাইডলাইন অনুসারে এলএলআর বজায় রাখার স্বার্থেই মূলত ওই বিনিয়োগ রাখা হয়।

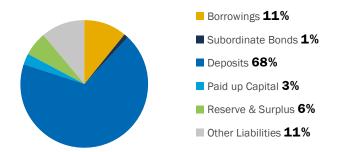

ব্যাংকের মিশ্র আমানত ২০১৭ সালে প্রায় একই ছিল। সেরা গ্রাহক সেবা নিশ্চিত করতে এবং ব্র্যাণ্ডের প্রতি আনুগত্য বাড়াতে ব্যাংক আমানতের ভিত আরও বৃদ্ধির দিকে এগোচ্ছে।

৩১ ডিসেম্বর, ২০১৭ তারিখে এসে মোট দায় (লায়াবিলিটি) দাড়ায় ৩৬,৩৪৬ মিলিয়ন টাকায় যা আগের বছরের তুলনায় ১৬ শতাংশ বৃদ্ধি। করা হয়, যাকে নিচের চার্টের মাধ্যমে পার্থক্য করে দেখা যেতে পারে।

এর একটি অংশকে ক্যাশ ও ক্যাশের সমতূল্য হিসেবে রাখা হয় সিআরআর ও এসএলআর অনুপাত বজায় রাখার জন্য। বর্তমানে এটা দাড়িয়েছে গ্রাহকের মোট চাহিদা ও ব্যাংকের টাইম লায়াবিলিটির যথাক্রমে ৬.৫% ও ১৩%।

Shareholding Position (2017)

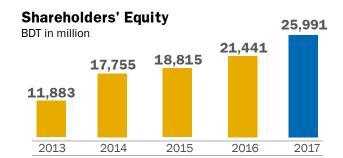

ব্যাংকের শেয়ারের দাম গত কয়েক বছরে উল্লেখযোগ্যহারে বেড়েছে। এটা এই ব্যাংকের ওপরে বাজারের শেয়ারধারীদের অব্যাহত আস্থার বিষয়টিকে ইঙ্গিত করে । বাংলাদেশে প্রথম ব্যাংক হিসেবে ব্র্যাক ১ বিলিয়ন ডলারের বাজার মূলধন অর্জন করেছে।

ব্র্যাক ব্যাংক সামাজিকভাবে দায়বদ্ধ ও প্রতিশ্রুতিবদ্ধ একটি ব্যাংক হিসেবে আত্মপ্রকাশ করেছে, যা বিনিয়োগকারীদের মনে এই শিল্পের ভেতরে অন্যতম নেতৃষ্থানীয় ব্যাংকের ছাপ সৃষ্টি করতে সাহায্য করবে। ২০১৭ সালের সর্বশেষ ব্যবসায়িক কর্মদিবসে ঢাকা স্টক এপ্ডচঞ্জে ব্র্যাক ব্যাংকের জ্ঞাপিত বাজারমূল্য ছিল ১০৮.৪০ টাকা।

২০১৭ সাল জুড়ে পরিচালনা পর্ষদের ২০টি (বিশ) মিটিং ও পর্ষদের অডিট কমিটির ৯টি (নয়) মিটিং অনুষ্ঠিত হয়েছে।

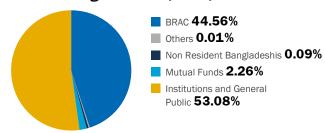

পরিচালনা পর্ষদ সকল ধরনের শেয়ারধারীদের স্বার্থ সুরক্ষা ও সমুন্বত করার জন্য অব্যাহতভাবে চেষ্টা করে যাচ্ছে। পাশাপাশি তারা ব্যাংকের স্থিতিশীল প্রবৃদ্ধি নিশ্চিত করতে কাজ করে যাচ্ছে। ব্যাংকের মূলধন পর্যাপ্ততা

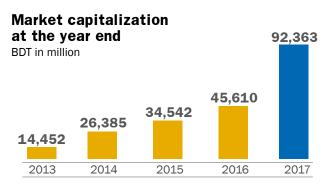

স্পনসরদের ভেতরে, ব্র্যাকের কাছে আছে ৪৪% শেয়ার। প্রতিষ্ঠান ও ব্যক্তির হাতে শেয়ারের পরিমাণ ২০১৬ সালের ৫৩% থেকে বেড়ে ২০১৭ সালে হয়েছে ৫৪%।

বাংলাদেশ ব্যাংকের বিআরপিডি প্রজ্ঞাপন নম্বর ০৬, তারিখ: জুলাই ০৫, ২০০৬ মোতাবেক এবং ঝুঁকি ব্যবস্থাপনায় উনুতি ও করপোরেট প্রশাসনের পাশাপাশি বিনিয়োগকারী, আমানতকারী, পাওনাদার ও শেয়ারধারীদের স্বার্থ সুরক্ষা প্রশ্নে ২০১৬ সালে ব্র্যাক ব্যাংককে রেটিং করেছে ক্রেডিট রেটিং এজেন্সি অব বাংলাদেশ লিমিডেট (সিআরএবি)।

আমরা আনন্দের সঙ্গে ঘোষণা দিচ্ছি যে ক্রেডিট রেটিং এজেন্সি অব বাংলাদেশ লিমিডেট (সিআরএবি) ব্র্যাক ব্যাংক লিমিটেডকে দীর্ঘমেয়াদী রেটিংয়ে এএ১ (ডাবল এ ওয়ান) ও স্বল্পমেয়াদী রেটিংয়ে 'এসটি–১' রেটিং দিয়েছে। এই ক্যাটাগরিতে রেটিং পাওয়া বাণিজ্যিক ব্যাংকগুলোকে খুবই

শক্তিশালী ব্যাংক হিসেবে বিবেচনা করা হয়ে থাকে। এই রোটিংয়ের অর্থ সেই ব্যাংকে অত্যন্ত ভালো আর্থিক অবস্থান, স্বাস্থ্যবান ও টেকসই ফ্রাঞ্চাইজি এবং প্রথম সারির পরিচালনগত পরিবেশ বিদ্যমান আছে। এই ক্যাটাগরির রোটিংয়ের মানে হলো ব্যাংকের তারল্য, অভ্যন্তরীণ তহবিল উৎপাদন এবং বিকল্প তহবিলের উৎসে প্রবেশের সুযোগ প্রশ্নে প্রশংসনীয় অবস্থান রয়েছে। আর্থিক নথিপত্রের ভিত্তিত ব্র্যাক ব্যাংকের ২০১৭ সালের এই ক্রেডিট রেটিংটি বর্তমানে প্রক্রিয়াধীন রয়েছে এবং যথাসময়ে তা প্রকাশ করা হবে।

জাতীয় কোষাগারে অবদান

ব্র্যাক ব্যাংক লিমিটেড বাংলাদেশের অর্থনীতিতে নিজেকে একটি অন্যতম শক্তিশালী আর্থিক প্রতিষ্ঠানে রূপান্তরিত করেছে। সরকারি রাজস্থ সংগ্রহ এবং রাষ্ট্রীয় কোষাগারে তা জমা দেওয়ার মাধ্যমে জাতীয় অর্থনীতিতে ব্যাংকটি অনেক অবদান রেখে চলেছে। এসব ক্ষেত্রে দেশের বিদ্যমান সব আইন যথ যথজাবে মেনে চলে ব্যাংকটি। ব্যাংক কর্তৃপক্ষ বিভিন্ন পণ্য ও সেবাদানের সময় যথাযথভাবে ট্যাঙ, ভ্যাট ও আবগারি শুল্ক কর্তন করে থাকে। এগুলোর পাশাপাশি, এই ব্যাংক তার আয়ের ওপরে কর দিয়ে থাকে। বিগত কয়েক বছরে কর পরিশোধের সারসংক্ষেপ:

সংশ্রিষ্ট পার্টিগুলোর সঙ্গে লেনদেনের ভিত্তি

ব্যবসার শ্বাভাবিক প্রক্রিয়ার অংশ হিসেবে আমাদের সংশ্লিষ্ট পার্টিগুলোর সঙ্গে আমাদের বিভিন্ন ধরনের লেনদেন করার দরকার পড়ে। সংশ্লিষ্ট পার্টিগুলোর সঙ্গে এই লেনদেনের প্রকৃতি হয় ঋণ ও অগ্রিম ভিত্তি হয়ে থাকে অথবা হাতের নাগালে থাকা দর বা ন্যয্য বাজারমূল্যে আমাদের কাছে আমানত রাখা হয়।

কৌশলগত দৃষ্টিভঙ্গি

মূদ্রা বাজারে তারল্য সংকটের বিষয়টি খুবই স্পষ্ট। তাই ২০১৮ সালে ব্যাংকগুলোর মধ্যে আমানত নিয়ে একটা দ্বন্দ্ব বাধবে। আমানতের বাড়িত মূদ্রের সঙ্গে সংগতি সাধন করতে বিদ্যমান সম্পদের পূনর্মূল্যায়ন করার পথে একটি পদক্ষেপ রয়েছে। ঋণ পুনরুদ্ধারের ওপরে এই সম্পদ পূনর্মূল্যায়নের একটা প্রভাব পড়তে পারে। এর ফল হতে পারে ব্যাংকিং শিল্পে অলস ঋণের পরিমাণ বেড়ে যাওয়া। আসনু দিনগুলোতে সুদহার কমে যাবে বলে পূর্বাভাস এসেছে।

- ব্র্যাক ব্যাংক প্রযুক্তি ও মানব উন্নয়নের পেছনে বিনিয়োগ অব্যাহত রাখবে এবং সেবার গুণগত মানের ওপরে আরও আলোকপাত করবে। গ্রাহকদের আনন্দদায়ক ব্যাংকিং অভিজ্ঞতা উপহার দিতেই সেটা করা হবে।
- ব্র্যাক ব্যাংকের কেন্দ্রে রয়েছে এসএমই। ঋণ বিতরণের পাশাপাশি এসএমই ব্যাংকিং সম্প্রসারিত করতে আমাদের একটা অগ্রাধিকার থ কবে। 'লেণ্ডার টু ব্যাংকার' – আমাদের এই মিশনের সঙ্গে সামঞ্জস্য রেখে তা করা হবে।
- বিশ্বমানের ব্যাংকিং সেবা প্রদান করতে রিটেইল ব্যাংকিং আরও বেশি
 ডিজিটাল ব্যাংকিংয়ের রাস্থা খুঁজে বের করবে।

- আলোকপাতে থাকবে এজেন্ট ব্যাংকিং। এমন ব্যাংকিং গণমানুষের কাছে ব্যাংকের পণ্য ও সেবা নিয়ে হাজির হবে, যার মাধ্যমে মানুষের আর্থিক অন্তর্ভক্তি বাডবে।
- লোকাল করপোরেট ও ইমার্জিং করপোরেট খুঁজে বের করবে ঢাকা ও চট্টগ্রামের মতো মেট্রোপলিটন শহরের বাইরে থাকা ব্যবসাপ্রতিষ্ঠানগুলোকে, যাদের কাছে আজও যাওয়া হয়নি।

পরিচালকদের নিয়োগ:

এসোসিয়েশন এণ্ড দি কোম্পানিজ এন্ট- ১৯৯৪ এর বিভিন্ন অনুচ্ছেদ মোতাবেক নিম্নে বর্ণিত পরিচালকবৃন্দ ১৯তম বার্ষিক সাধারণ সভায় ব্র্যাক ব্যাংক লিমিটেডের পর্ষদ থেকে অবসরে যাবেন। তবে পরবর্তীতে তাঁরা পুনর্নির্বাচন ও পুনরায় বোর্ডের পরিচালক হিসেবে নিয়োগ পাওয়ার জন্য যোগ্য।

- ১. স্যার ফজলে হাসান আবেদ কেসিএমজি
- ২. মিসেস নিহাদ কবির

এই দুজনই পুনরায় নির্বাচিত হওয়ার জন্য যোগ্য।

১. স্যার ফজলে হাসান আবেদ কেসিএমজি

স্যার ফজলে হাসান আবেদ ব্র্যাক ব্যাংক লিমিটেডের প্রতিষ্ঠাতা। তিনি বোর্ডের চেয়ারম্যান হিসেবে পুনরায় নিযুক্ত হন ২০১৩ সাালের মার্চ মাসে। তিনি ব্র্যাকেরও প্রতিষ্ঠাতা এবং চেয়ারপারসন। ব্র্যাক বিশ্বের মধ্যে অন্যতম বৃহৎ একটি এনজিও এবং ২০১৬ ও ২০১৭ সালে জেনেভা ভিত্তিক 'এনজিও এডভাইজর' প্রতিষ্ঠানটিকে বিশ্বের এক নম্বর এনজিও হিসেবে স্বীকৃতি দিয়েছে। অভিনবত্ব, প্রভাব ও প্রশাসনের মতো বিষয়গুলো বিবেচনায় নিয়ে এই ব্যাংকিং করা হয়েছে। ১৯৭২ সালে প্রতিষ্ঠিত ব্র্যাংকের প্রাথমিক উদ্দেশ্য

ছিল দারিদ্র দূরীকরণ এবং গরীব মানুষদের ক্ষমতায়ন করা। বর্তমানে ব্র্যাক আফ্রিকা ও এশিয়ার ১১টি দেশে তার কার্যক্রম চালাচ্ছে।

ব্র্যাকে নেতৃত্বদানের ক্ষেত্রে সাফল্যের কারণে স্যার ফজলে হাসান আবেদ অগণিত জাতীয় ও আন্তর্জাতিক পুরস্কার-সম্মাননা পেয়েছেন। এর মধ্যে রয়েছে কমিউনিটি লিডারশিপের জন্য রামন ম্যাগসাসাই পুরস্কার (১৯৮০), ইন্টারএকশন হিউম্যানিটারিয়ান এওয়ার্ড (১৯৯৮), ওলফ পাম এওয়ার্ড (২০০১), শুয়াব ফাউডেশন সোশ্যাল এন্ট্রাপ্রিনিউরশিপ এওয়ার্ড (২০০৩), মানব উনুয়নে অসামান্য অবদানের জন্য ইউএনডিপি মাহবুব উল হক এওয়ার্ড (২০০৪), গেটস এওয়ার্ড ফর গ্লোবাল হেলথ (২০০৪), সামাজিক উনুয়ন ও দাবিদ্র দূরীকরণে আজীবনের অর্জনের জন্য পল্লী কর্ম সহায়ক ফাউডেশন (পিকেএসএফ) এওয়ার্ড (২০০৭), হেনরি আর. ক্রাভিস প্রাইজ ইন লিডারশিপ (২০০৭), অভিষেক ক্লিনটন গ্লোবাল সিটিজেন এওয়ার্ড (২০০৭), ডেভিড রকফেলার ব্রিজিং লিডারশিপ এওয়ার্ড (২০০৮), এন্ট্রাপ্রিনিউর ফর দি ওয়ার্ল্ড এওয়ার্ড (২০০৯), অভিষেক ওয়াইজ প্রাইজ ফর এড়কেশন (২০১১), সিইউ ওপেন সোসাইটি প্রাইজ (২০১৩), লিও টলস্টয় ইন্টারন্যাশনাল গোল্ড মেডেল (২০১৪), স্প্যানিশ অর্ডার অব সিভিল মেরিট (২০১৪), ট্রাস্ট উইমেন হিরো এওয়ার্ড (২০১৪), ওয়ার্ল্ড ফুড প্রাইজ (২০১৫) এবং টমাস ফ্রান্সিস জুনিয়র মেডেল ইন গ্লোবাল পাবলিক হেলথ (২০১৬)।

স্যার ফজলেহাসান আবেদকে বিশ্বের অন্যতম মহান ব্যক্তিত্ব হিসেবে স্বীকৃ তি দিয়েছে অশোকা। তিনি এই প্রতিষ্ঠানের মর্যাদাপূর্ণ গ্লোবাল একাডেমি ফর সোশ্যাল এন্ট্রাপ্রিনিউরশিপের প্রতিষ্ঠাতা সদস্য। ২০১০ সালে স্যার ফজলে হাসান আবেদকে জাতিসংঘের মহাসচিব বান কি-মুন স্বল্পোনুত দেশগুলোর (এলডিসি) জন্য বিশিষ্ট নাগরিক গ্রুপের সদস্য হিসেবে নিযুক্ত করেন।

স্যার ফজলে হাসান আবেদ অসংখ্য সম্মানজনক ডিগ্রি গ্রহণ করেছেন, যার মধ্যে রয়েছে ইয়েল ইউনিভার্সিটি (২০০৭), কলম্বিয়া ইউনিভার্সিটি (২০০৮), ইউনিভার্সিটি অব অধ্রফার্ড (২০০৯) এবং প্রিন্সটন ইউনিভার্সিটির (২০১৪) ডিগ্রি।

২. মিসেস নিহাদ কবির

মিসেস নিহাদ কবির ২০০৭ সালে ব্র্যাক ব্যাংক লিমিটেডের বোর্ডের স্বতন্ত্র পরিচালক নির্বাচিত হন। ২০১৫ সালের জুলাই মাস তিনি পর্ষদ থেকে অবসরে যান এবং পরিচালক হিসেবে যোগদান করেন। ব্র্যাক ওই বছরের নভেম্বর মাসে তাঁকে মনোনীত করে। মিসেস নিহাদ কবির সৈয়দ ইশতিয়াক আহমদে এড এসোসিয়েটসের জ্যেষ্ঠ অংশীদার। তিনি মেট্রোপলিটন চেম্বার অব কমার্স এড ইডাস্ট্রিজের সভাপতি। তিনিসহ কয়েকজন ব্র্যাক ইপিএল ইনভেস্টমেন্টস লিমিটেড ও ব্র্যাক ইপিএল স্টক ব্রোকারেজ লিমিটেডের চেয়ারম্যান। তিনি বিকাশ লিমিটেড, ইনফ্রাস্ট্রাকচার ডেভেলপমেন্ট কোম্পানি লিমিটেড (ইডকল) ও পল্লী কর্ম-সহায়ক ফাউডেশনের (পিকেএসএফ) পরিচালক, এবং স্কয়ার ফার্মাসিউটিক্যাল লিমিটেড ও এপেঙ ফুটওয়্যার লিমিটেডের স্বতন্ত্র পরিচালক পদেও রয়েছেন।

মিসেস নিহাদ কবির বাংলাদেশ সুপ্রীম কোর্টের একজন এডভোকেট। তিনি 'শ্রম আইন ২০০৬ এর আওতায় শ্রম বিধিবিধান' প্রস্তুত কমিটির সদস্য। এ ছাড়া তিনি 'জাতীয় পে কমিশন ও কর্ম কমিশনের' সদস্য ছিলেন। তিনি বর্তমানে বেসরকারি মানবাধিকার সংস্থা 'আইন ও সালিশ কেন্দ্রের' মহাসচিব। এর আগে তিনি সরকারের 'জাতীয় শিক্ষানীতি কমিটির' সদস্য ছিলেন। তিনি 'সিকিউরিটিজ এড এপ্রচঞ্জ কমিশনের' (এসইসি) প্রথম লিগ্যাল কাউন্সেল ছিলেন। এ ছাড়া তিনি এশীয় উনুয়ন ব্যাংকের কাউন্সেলর হিসেবে কাজ করেছেন। আইনজীবী হিসেবে তাঁর ২৫ বছরের বেশি কাজ করার অভিজ্ঞতা রয়েছে।

মিসেস নিহাদ কবিরকে ইংল্যান্ডের গ্রেস ইনন-এর বার থেকে আমন্ত্রণ জানানো হয়েছিল। তাঁর আইন বিষয়ে বিএ (সম্মান) ডিগ্রি রয়েছে। এলএলএম পাশ করেছেন ইংল্যান্ডের ইউনিভার্সিটি অব ক্যান্ত্রিজ থেকে।

বুাঁকি ও উদ্বেগ

রাজনৈতিক উত্তাল অবস্থা, সন্ত্রাসী হামলা, বৈদেশিক মুদ্রার মূল্যমান অস্বাভবিকভাবে ওঠানামা করা, তারল্য সংকট এবং বৃহৎ শক্তিগুলোর বৈশ্বিক সিদ্ধান্ত ইত্যাদি বিষয়গুলো আমাদের দেশে ব্যবসা পরিচালনার ক্ষেত্রে বড় উদ্ধেগ হিসেবে বিবেচিত হয়। ২০১৮ সালটি আমাদের আরেকটি জাতীয় নির্বাচনের বছর, যা দেশের ব্যবসা প্রতিষ্ঠানগুলোর সামনে একটি বড় উদ্ধেগ। ২০১৮ সালে যদি রাজনৈতিক স্থিতিশীলতা নিশ্চিত করা যায়, বৈদেশিক মুদ্রার মুল্যমান স্থিতিশীল থাকে, সন্ত্রাসী হামলা প্রতিরোধ করা যায় এবং বৈশ্বিক বিভিন্ন ব্যবসায়িক সিদ্ধান্ত বাংলাদেশের বিপক্ষে না যায়, তাহলে দেশের ব্যবসা–বাণিজ্য মস্কনভাবে এগোবে। অবশ্য, এটা নিঃসন্দেহেই একটি চ্যালেঞ্জিং বছর এবং ব্র্যাক ব্যাংক এ ধরনের বুঁকিগুলো এড়াতে বিভিন্ন সক্রিয় পদক্ষেপ নিয়ে রেখেছে।

কোনো প্রকার অস্বাভাবিক ঘটনা খতিয়ে দেখতে অভ্যন্তরীণ নিয়ন্ত্রণ পদ্ধতিকে অত্যন্ত কার্যকর নকশায় গড়ে তোলা হয়েছে এবং তা কার্যকরভাবে বাস্তুবায়ন ও পর্যবেক্ষণ করা হয়।

বার্ষিক প্রতিবেদন প্রস্তুকরণ

বার্ষিক প্রতিবেদন প্রস্তুত করার সময় অগ্লাধিকার দেওয়া হয় সত্য ও সুষ্ঠু উপস্থাপনের ওপরে। একাউন্টের বিভিন্ন পেপারবুক রক্ষণের বিষয়টি নিশ্চিত করা হয়েছে। ছুড়ান্ত আর্থিক বিবরণী প্রস্তুতকরণের ক্ষেত্রে উপযুক্ত একাউন্টিং পলিসি অব্যাহতভাবে প্রয়োগ করা হয়েছে এবং হিসাবের বিভিন্ন অনুমান করা হয়েছে যৌক্তিক ও বিচক্ষণ বিচারবুদ্ধি প্রয়োগের ভিত্তিত। ইন্টারন্যাশনাল ফিনান্সিয়াল রিপোর্টিং স্ট্যাডার্ডস (আইএফআরএস)/ বাংলাদেশ ফিনান্সিয়াল রিপোর্টিং স্ট্যাডার্ডস (বিএফআরএস) সহ বাংলাদেশে প্রযোজ্য সকল বিষয় ওই আর্থিক বিবরণী তৈরির ক্ষেত্রে অনুসরণ করা হয়েছে এবং কোনো ক্রটি-বিচ্যুতি ঘটলে তা যথাযথভাবে প্রকাশ করা হয়েছে।

চলমান কারবার ভিত্তি

আমাদের ব্যাংক একটি চলমান কারবাবে আছে, এই ভিত্তি বিবেচনায় নিয়ে সকল আর্থিক বিবরণী প্রস্তুত করা হয়েছে। আমাদের আর্থিক পারফরম্যান্স থেকে শুরু করে, ব্যাবসার পোর্টফোলিও এবং পরিচলনগত শক্তি পর্যন্ত এটা ধারণা করা যেতে পারে যে আমাদের ব্যবসা চলমান কারবারের ওপরে রয়েছে।

ডিভিডেড

ব্র্যাক ব্যাংকের মূলধনের পর্যাপ্ততা স্বাস্থ্যকর পর্যায়ে বজায় রাখতে পর্ষদ ২০১৭ সালের জন্য ২৫% স্টক ডিভিডেণ্ড সুপারিশ করেছিল। এটি ১৯তম বার্ষিক সাধারণ সভায় অনুমোদনের অপেক্ষায় রয়েছে।

অডিটর নিয়োগ

বিদ্যমান অডিটর এম/এস. এ. কাশেম অ্যাণ্ড কোং, চার্টার্ড একাউন্ট্যান্টস, ৭, গুলশান পিংক সিটি, সুইটস #০১-০৩ লেভেল- ৭), প্লট # ১৫, রোড# ১০৩, ব্লক সিইএন (সি), গুলশান এভিনিউ, ঢাকা-১২১২ ব্র্যাক ব্যাংক লিমিটেডের অডিটর হিসেবে উপর্যুপরি তিন বছর সম্পন্ন করেছে। বাংলাদেশ ব্যাংকের গাইডলাইন অনুসারে, এক অডিটরকে পরপর তিন বছরের বেশি নিযুক্ত করা যায় না। তাই ব্র্যাক ব্যাংক লিমিটেডের জন্য ২০১৮ অর্থবছরে বিদ্যমান অডিটর পরিবর্তন করতে হবে। যেহেতু তারা পুনরায় নিয়োগ পাওয়ার যোগ্য নয়, তাই আমরা ইতিমধ্যে ব্র্যাক ব্যাংক লিমিটেডের জন্য ২০১৮ সালে অডিটর হতে ইচছুক এমন বৈধ অডিট ফার্মগুলোর কাছ থেকে দরখাসড় আহ্বান করেছিলাম। পরিচালনা পর্যাণ এম/এস. রহমান রহমান হক, চার্টার্ড একাউন্ট্যান্টসকে ২০১৮ সালের জন্য ব্যাংকের অডিটর হিসেবে নিয়োগের জন্য সুপারিশ করেছে। ১৯তম বার্ষিক সাধারণ সভায় এই অডিটর নিয়োগ নিশ্চিত করা হবে।

আমাদের ওপর আস্থা রাখায় আমরা কৃতজ্ঞতা প্রকাশ করছি। আপনাদের নিরন্তর সমর্থন আমাদের ব্যবসার প্রবৃদ্ধি ও উনুয়নকে ত্বরান্বিত করেছে। ব্র্যাক ব্যাংক লিমিটেডের প্রতি দায়বদ্ধতা, নিষ্ঠা ও কঠোর পরিশ্রমের জন্য ব্যাংকের কর্মীদের প্রতি আমাদের আন্তরিক কৃতজ্ঞতা। কারণ, আমাদের সাফল্যের মূলে রয়েছে তারাই।

আমি এই সুযোগে আমাদের শেয়ারধারী, গ্রাহক, বাংলাদেশ ব্যাংক, অন্যান্য সরকারি সংস্থা, নিয়ন্ত্রক প্রতিষ্ঠা এবং অন্য যাদের সঙ্গে এই ব্যাংকের সম্পর্ক রয়েছে, সবার প্রতি কৃতজ্ঞতা স্বীকার করছি এবং আমার পক্ষ থেকে সাধুবাদ জানাচ্ছি। আমাদের সঙ্গে থাকার জন্য আপনাদের অসংখ্য ধন্যবাদ।

Economic Value Added (EVA) Statement

Economic value added statement is a statement which shows the surplus generated by an entity after meeting the cost of total invested equity. Here cost of total invested equity means the equitable charge towards providers of capital. It is the post tax return on capital employed less the cost of capital employed. Again here the post tax return on capital employed is adjusted for the tax shield on debt. Organizations which earn higher returns than the cost of capital add value. On the other

hand, organizations which earn lower returns than cost of capital decrease its value to shareholders. That is why shareholders are always conscious about the return on capital invested. As a responsible bank, we are sincerely concerned for ensuring value to all of our equity providers.

At the same time, the EVA also shows management the success, they are responsible for.

EVA has been calculated by the following formula:

EVA = Net Operating Profit - Taxes - Cost of Capital

Market Value Added (MVA) Statement

Market value added statement is a reflection of the Company's performance evaluated by the market through the equity of the company. It is a measurement of external performance. It is a measure that shows how the market has judged the company's performance in terms of market value of shares compared to book value of shares. It is the difference between the market value of equity and the book value of equity invested in the company.

A positive MVA is a better indication of performance and it shows that the company can add value to shareholders wealth. A negative MVA is an indication that the value of management's actions and investments are less than the value of the capital contributed to the company by the capital market.

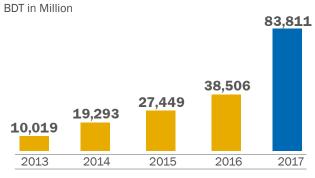

During the year 2017, we were able to make a positive Market value addition of BDT 83,811 million.

Competitive Intensity and Strategic Response

Identification of competitive forces proactively and earliest responses to those will ensure edge of the bank over other competitors. As an part of fastest growing economy, the banking industry in Bangladesh is continuously exposed to several risks, both internally and externally, including compliance requirement from United Nations and other Regional bodies. Some of these risks are too challenging to mitigate without appropriate expertise and precautionary measures. However, with robust experience, BRAC bank has witnessed various industry cycles, economic turmoil and hence has developed and adjusted itself with a risk identification and mitigation framework that not only protects the company from adverse conditions but also helps to enhance operating viability and ensure sustainability.

The detailed analysis of the competitive intensity we deal with has been exercised while operating in this dynamic and a challenging banking industry environment and our responses to minimize the impact of these risks on our business model. To show our risk framework we have depicted it through Michael Porter's risk analysis structure as well as SWOT analysis.

Competitive rivalry

For most in the industry, the intensity of competitive rivalry is the major determinant of the competitiveness of the industry. Having an understanding of the industry rivals is vital to successfully cope up with existing and upcoming competitions. The bank has been exposed to following rivals:

- More investment in Technology: To provide innovative financial services there is no alternative to investing in state-of-the-art technology including all security measures for clients and for the bank itself
- Number of competitors: In Bangladesh, the banking industry faces stiff competition from 57 scheduled banks, 6 non-scheduled banks and 33 NBFIs.
- **Switching cost:** The switching cost is low due to high concentration of service providers.
- Quality difference: Though BRAC bank belongs to the top quartile of banks, still it is being seen as Retail and SME oriented. Other banks are also trying to provide the best services where BRAC bank has to compete.
- Customer loyalty: Traditionally, BRAC Bank customers have been loyal; however, competition

from 57 banks in the industry, along with the intense price war had led to a decline in the number of loyal customers making the banking industry extremely competitive.

 Level of advertising expense: Due to strong competitive rivalry, continuous promotional activities are important, causing higher expenses.

Buyer power

The bargaining power of customers is also described as the market outputs: the ability of customers to put the bank under pressure which also affects the customer's sensitivity to price changes. The status of buyer's power for the bank is as follows:

- Clients possess a higher bargaining power because of a relatively low switching cost due to the number of banks present in the industry.
- SME and retail business have generally been less rate-sensitive; however, rising competition in this market segment have made it considerably more price sensitive as a number of banks are entering into the SME and retail sectors.
- Corporate clients have also become more price sensitive compared to the past, as their access to other banks and NBFIs have turned out to be a lot easier.
- Different financial institutions are now growing rapidly, providing different facilities as substitutes for the banking facilities which giving customers greater access and increasing their switching options.
- High level of fixed costs incurred by the banking industry creates extra pressure to capture more customers. Many banks are customers to bring them under their fold for recovering their fixed costs giving rise to the buyer's power.

Supplier power

The depositors are the main suppliers of funds for the banking industry. The bargaining power of depositors is high in the banking industry in Bangladesh due to the following factors:

- After a few years of liquidity, suddenly the banking industry is facing a liquidity crisis. Due to this, depositors possess significant powers as different banks are approaching them for deposit offering higher interest rates.
- Source of funds, comperising of customer deposits

and borrowings from other financial institutions, is largely based on the market. Therefore, their power is often considered to fluctuate between medium to high.

 The resources are very unequally distributed in the country. So, few depositors hold the lions share of deposits, resulting in giving them excess bargaining power.

Threat of new entrants

New entrants eventually decrease the profitability of the bank. Unless the entry of new banks and financial institutions are made difficult or holding significant edge over new entrants are maintained, competition will further increase, impacting the portfolio and profitability. The threat of new entrants is very high in Bangladesh due to the following reasons:

• The government is facing continuous pressures from the reputed political persons for approving new banks and financial institutions. In the past few years, a number of new banks and NBFIs have entered into an already competitive market. Few other banks are also in pipeline for getting approval.

- As a result, the threat of new entrants is reasonably high, with so many new banks entering the market.
- Different foreign institutions are now providing funding facilities to the local companies at lower rate of interest and easy terms and conditions. In future, many more foreign banks and financial institutions may get entry to this market which may further enhance the competition.
- The switching cost is also low giving incentives to new entrants.

Threat of substitute products

Some of the banking industry's largest threats of substitution are not from rival banks but from nonbanking financial institutions. They have begun to offer specialized financial services that were traditionally only available from banks. Thus, the threats of the 33 existing non-banking financial institutions are moderate.

P-Political	,		
 The present Government successfully controlled the political environment so far. Over the last few years, we have observed a stable political environment in the country. However, National Parliament Election will be due at the end of 2018 and there might be some political activities from opposition or the Parties not in power. Beside, as this will be an election year, Government will try to formulate policies to pro-people and public supportive. One can expect more citizen friendly tax regulations and rates in the budget also. Investments in mega infrastructure projects may be absent by government in the election year. 	 Investors will have a conservative approach in the run-up to the elections. So, loans and advances would show a stagnant or negative growth. There may be a further liquidity crisis arising because more money will be in the hand of people for meeting expenditures for election. Regulators will be more cautious to prevent potential undisclosed money flow to the economy therefore more compliance reporting may be required in the banking industry to face higher risks of money laundering and illegal transfer of money within the economy. The Government initiated investment in many mega projects in the last few years which helped to mobilize resources for many investors. However, we will see less investment mobilization from the diverse corners of the investors in the coming year. Slowing investments may affect national GDP 	 The management of BRAC Bank is continuously assessing the environment and rolling it to business strategies. The bank has robust process for the mitigation of political risks like extended due diligence for identifying PEPs and providing banking facilities to them. More focus on SMEs than corporates to avoid bigger NPL shocks. Management's conservative growth in assets portfolio is forecasted. At BRAC Bank, we may have less effect of government investments as our focus is to grow SME and Retail portfolio. However, lower investment intensity from the investors will affect the bank's business growth. 	Message from Chairman, Managing Director & CEO and Directors' Report

The GDP in Bangladesh has shown a continuous and sustainable growth during last few years. In FY2017, the GDP growth was 7.28%, the highest ever recorded.	• The GDP growth ultimately indicates gradual expansion of the economy which is having a positive impact on the industry. Loans and advances are increasing rapidly, i.e. recorded 18% (approx.) private sector loan growth. This trend will continue, subject to political stability and investors' confidence. •	Imports increased significantly causing a negative balance of payments.	•	Due to the negative balance of payments, the BDT is expected to further depreciate.	•	The bank is striving continuously for inclusion of new customers under banking services and improving facilities for existing customers.	
•	Hike in interest rates on deposits due to the liquidity crisis would be a major challenge in the coming year. As the fund cost is increasing, the banking industry would face challenges in collecting low-cost funds and lending at low rates. Banks will be forced to re-price their existing assets to match with their cost of deposit.	•	The loan portfolio would face a stagnant situation in the coming year. The interest hike would add additional hit on consumer price and thereby increase inflation.	•	The bank has a good distribution network for mobilization of deposits. The bank's SME customer base displays potential for us to move from lender to banker. The lending will continue to grow with higher rate of interest for new assets booking to align with cost of deposit. The expansion of nonfunded facilities will be a good option for reducing pressure on interest income.	
•	The BDT is expected to depreciate further due to the higher demand for foreign currency for meeting the payment for import of capital machinery and other food items. Already, imports increased significantly in 2017 due to the floods that recently hit the country.	•	The industry would further face difficulty in managing foreign currency operations. However, this could also generate good business opportunity for forward contract as customers would request for more forward contracts for minimizing FX fluctuation risks. More export will be generated as BDT proceeds will be more from the same level of exports.	•	The bank has already different FX risk mitigation techniques like forward contract, matching FCY assets and deposits etc.	
•	Increased non- performing loans in the industry are being observed mainly for delinquent borrowers, mismanagement of funds by different banks and political pressures.	•	The banking industry would further face the risk of higher non-performing loans in the coming year.	•	Apart from the restructuring of credit undertaking under the leadership of the newly recruited Chief Risk Officer (CRO), the bank has a robust risk assessment process at the time of accepting any customer as well as at time of disbursing loans.

Our Business Model

BRAC Bank Limited is one of the fastest-growing banks in Bangladesh. SME business lays as DNA of our banking since inception. Our business models are being designed and upgrade always focusing to SME and untapped market segment for banking inclusion. In 2017, the bank achieved 17% growth on loan & advance over last year. We put customer service quality, innovation in banking and demand driven product in our priority. Customers' satisfaction and good experience are placed at the heart of our business model – so we can deliver better customer service and focus on our goal to be the best bank in the country. BRAC Bank has already created a new role to reflect its ongoing commitment to create value for its entire stakeholder ecosystem. The bank recognizes the importance of it business model to be a pivotal component of integrated reporting and made great strides to make our business more thoughtful to the world around us.

External factors

Some of the key external factors that have an effect on our business include:

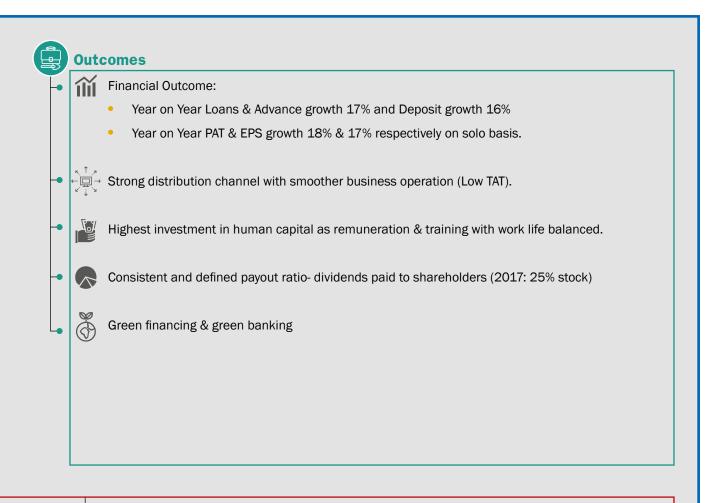

Macro and Micro economic factors, i.e. liquidity, GDP growth, credit growth etc. in Bangladesh

Political turmoil impacting businesses

Customers' satisfaction and good experience are placed at the heart of our business model – so we can deliver better customer service and focus on our goal to be the best bank in the country.

Economic slowdown disrupting the investment plans of corporate and other businesses

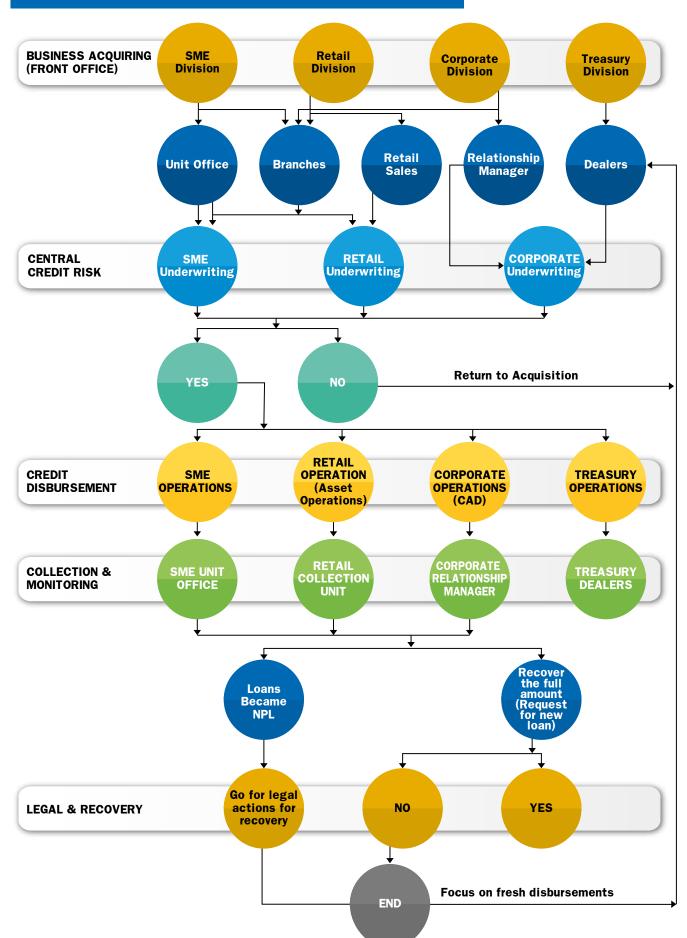

A general decline in the risk-taking appetite of the country, impacting its entrepreneurial capabilities

Attractive alternative investment opportunities affecting the market for deposit products

Strategy and Resource Allocation

Despite these structural challenges, the banking industry of Bangladesh is preparing for the digital age and is making significant investments in information technology infrastructure with a view to provide customers with the unmatched convenience of anytime-anywhere banking while also making a larger bouquet of banking products available to a wider customer demographic.

• What is the overall situation of the banking sector of Bangladesh?

 Bangladesh has 57 commercial banks in operation across a relatively compact national area that houses a population of 16.7 million people. Several banking experts have opined that the number of banks in existence is more than optimum for the country and the resultant competitive intensity has led to fierce, and in some cases even unhealthy, competition among banks to win customers, taking undue advantages that go beyond the realm of fair and transparent banking norms and practices. On the other hand, the lack of governance arising from unhealthy competitive pressures from various vested quarters has continuously tested the trust and faith of stakeholders and hindered the sector's overall progress. A habitual default culture encouraged by weak legal and regulatory systems have increased the NPL ratio of the industry to as high as 10.67% (as on 30 September 2017) as per Bangladesh Bank records. To some extent, this factor has enforced a liquidity crisis in the banking sector of the country, leading to a rise in both the deposit as well as lending rates and industry commentators expect that this situation will continue in the near future.

Despite these structural challenges, the banking industry of Bangladesh is preparing for the digital age and is making significant investments in information technology infrastructure with a view to provide customers with the unmatched convenience of anytime-anywhere banking while also making a larger bouquet of banking products available to a wider customer demographic. As is the trend in the developed world, banking will progressively migrate from brick-and-mortar infrastructure to digital and mobile banking in the developing world, which will facilitate the megatrends of financial inclusion, financialization of savings, etc.

Q. Where does the organization intend to go and how does it expect to get there?

BRAC Bank's aspiration is to be the best bank in Bangladesh and with this intent, we have reengineered and revolutionized almost all of our business, process and support functions. For instance, we have re-organized our distribution network along with the internal organogram and made substantive investments in information technology development initiatives, which are now under implementation. These initiatives have been conceived to facilitate superior customer experience while providing customers with cutting-edge products and services. The bank has also sustained its investments in building people skills, capacities and capabilities while engaging in right-fit talent recruitment processes. With a view to ensure a comprehensive focus on preserving its culture, the bank continues to emphasize on good governance, rigorous compliance and embracing the highest standards of ethics and transparency, which together have enabled us to differentiate ourselves and create a well-recognized and highly respected banking institution in the country.

The bank has a homogenous focus on all its business segments and aspires to be the best-in-class financial services organization to ensure that customers are loyal and grow with the bank as they enter the various phases of their lives. While our focus will be to continue to increase our portfolio across our business segments, our risk management strategies have been formulated to keep our NPLs under strong check and control. Our NPLs were significantly lower than those of the industry – at 3.56% at the end of 2017 vs over 10% for the industry.

Q. What are the organization's short-, medium- and long-term objectives?

Unambiguously, our short-term goal is to position the bank strongly enough to capture the upturn of a stable and growing economy. The consistent and sustainable trend of GDP growth around 6-7% over the past decade and brighter outlook in future along with recent declaration of United Nations (UN) stating Bangladesh now a "developing country" makes our country one of the fastest-growing nations of the world but this growth also opens up a whole lot of opportunities in the financial services space.

Our medium-term goal is to sustain our growth in the SME and Retail verticals. We intend to do so through our unwavering focus on quicker re-pricing of our deposit and lending products in response to the market dynamics. We are also focusing on bridging the financial divide by bringing a larger number of the unbanked/under-banked segments of the population into formal banking. We are also laying emphasis on achieving efficient synergy between the bank's branches, SME unit offices and field offices for the delivery of remittance, along with the other products and services of the bank. We realize that we cannot be out-priced in a highly competitive market and hence, in addition to the attractive lending products and solutions, we ensure that our robust customer service standards continue to remain our key differentiator and the reason why our customers prefer to bank with us.

Our long-term vision is to emerge as the best bank in Bangladesh in terms of customer experience, business volumes, human capital and compliance and corporate governance. We will continue to emphasize on values-based business, backed by enduring compliance with governance and ethics.

Q. What are the strategies we have in place that will help us achieve these objectives?

At BRAC Bank, we have taken several strategic initiatives to achieve our objectives. Some of these include the following:

• Business realignment

At BRAC Bank, we have disaggregated our business model to now provide our increasing customer base with wider access to the bank through our vast network of service channels that offer a multi-segment business approach. Our customers have welcomed this transformative business model which now offers them with enhanced flexibility and uniform customer service in an omnichannel environment. This approach will continue with further refinements and improvements spearheaded in the coming days.

Channel optimization

BRAC Bank is a performance-oriented banking institution and has been focusing in advocating financial inclusion for the wider benefit of the citizens, thereby facilitating a larger number of people to make more active and informed decisions about their financial needs and choices. In response to the changing business environment, we have optimized our network for enabling quicker expansion to bring our services to our customers' doorstep and on his fingertip, whichever way he chooses to bank with us. This focus has enabled us to achieve widespread geographic growth while allowing us to penetrate deeper with our wide range of banking products and services. Our consistent attention on dispensing the superior 'BRAC Bank experience' has paved the way for our success with high levels of customer satisfaction and loyalty.

Reducing turnaround time and augmenting efficiency

Process reviews and improvement initiatives have been the key growth levers at BRAC Bank, especially over the past two years. We have devoted substantial resources for reviewing all our existing processes, doing away with non-value added activities, augmenting efficiencies and improving the overall experience of our customers across all our channels. This is a continuous cycle to improve our efficiency levels and we believe that small incremental gains have a transformational impact on our operations. This has also resulted in more stringent monitoring of process costs and improved our performance across our various business functions. We continue to focus on innovation to sharpen our competitive edge and make BRAC Bank a trusted, valuable and preferred brand in the country's banking sector.

Improving employee productivity

Recruiting top talent in the industry, revamping our remuneration policies and nurturing a high-performance culture with adequate measurement tools have together ensured high levels of motivation and loyalty that has resulted in high employee productivity levels backed by job satisfaction. This has played a strong part in enabling us to minimize attrition while helping us protect our intellectual capital.

Investing in cutting-edge technology

In the ever-changing landscape of the financial services industry, BRAC Bank is reinforcing its competitive edge by investing in state-of-the-art technology and IT infrastructure. One of the most evident manifestations of this is the upgrade of our core banking system (CBS) that will boost our operational performance and efficiency, resulting in better customer service and monitoring. Technology continues to remain at the forefront of our

organization and is a key differentiator in helping us drive future growth in our businesses. Our strategic priorities have aligned with achieving advances in technology to assure the delivery of safe and secure banking services to our customers. We also make use of analytics and data insights to uncover new business opportunities and in strengthening our competitive edge.

Q. What is our resource allocation plan and how are we going to execute our strategy?

A. At BRAC Bank, we are continuously on the lookout to recruit the right talent that fits our long-term corporate goals and plans. We not only offer industry-leading remuneration standards and other benefits but also focus on helping them advance their careers by exposing them to knowledge enhancement sessions and providing useful exposure to training and workshops. Even though we believe that we are well-staffed at the moment to execute our long-term plans, we will continue to look for experts who can fill vacant positions resulting from natural attrition, thereby also creating a talent pipeline for succession planning and leadership development.

Q. How will we measure the efficacy of our short-, medium- and long-term plans?

This is an interesting point and the outcome of our short-, medium-and long-range plans will be the most visible in our numbers. While we are focused on growing both our deposit and lending base in the short-term, we have kept a strong eye on the quality of this growth through a focus on optimizing our NPLs. Our stated target is to bring our overall NPLs under 4% in 2017 and even lower as we go forward. During 2018, we also intend to sustain our growth in all our business segments - Retail, SME and Corporate, despite the prevailing environment of a declining interest rate regime. Our well-articulated long-term target is to be the best bank not only in terms of business volumes but also with regards to customer experience, human capital and compliance. It is without doubt that the quality of our human resources has given us the confidence to sustain the growth momentum and make sustainable progress a reality.

Q. What are the changes required in our business model to enable us to meet our strategies and enhance our organization's ability to adapt to these changes accordingly?

Since we have amassed considerable expertise in understanding the growth and risk profile of our SME customers, we intend to focus aggressively on this space since it is not only relatively less competitive but also demands high levels of customer service that we

are well-equipped to provide. The other change that we expect to mandate in our business model is to look for opportunities in our Corporate division as far as quality is concerned since this segment is marked by high-ticket loans and more prone to delinquencies. We are actively appraising opportunities in emerging sectors and trade services. More importantly, we will continue to refine and reinforce our business model to not only enhance relevance in a dynamic market but also infuse improved levels of sustainability across the bank.

Q. What are the identified risks and opportunities and the risk management framework that we have in place to absorb any contingencies?

. By the very nature of our business, we provide growth capital to large segments of our customers that, in turn, exposes us to certain inherent risks associated with default. However, to mitigate this key risk, we have devised stringent credit checkpoints that have to be fully met by a potential customer before a loan is sanctioned. Besides, we occupy a position of strength as far as our cash reserve ratio (CRR) and statutory liquidity ratio (SLR) are concerned, which is well over what has been stipulated by the regulatory authorities. We have also reported significant improvement in our NPLs and this will be an area of ongoing focus. Our SAM team is well-equipped and capable of following-up and recovering loans from risk-prone clients and their track record is witness to the fact that we have been able to make consistent progress in moderating our NPLs.

Q. What differentiates our organization from the others and what is our source of competitive advantage?

Our ear-to-the-ground approach has enabled us to continuously emphasize on innovating new products and services. Our nationwide network of 186 branches, 457 SME Unit Office and over 447 ATMs have enabled us to literally reach the doorstep of our customers, thereby

Our strategic priorities have aligned with achieving advances in technology to assure the delivery of safe and secure banking services to our customers. We also make use of analytics and data insights to uncover new business opportunities and in strengthening our competitive edge.

ensuring convenient and easy access. BRAC Bank has brought forth a renewed policy to provide best-in-the-class services, leveraging the advancements made in information technology, to its diverse customer base spread across the country. As a proud member of the Global Alliance for Banking on Values (GABV), we strive to practice what we preach and aim to revolutionize the country's banking industry by bringing positive changes in the lives of our customers, turning hopes into reality and fulfilling ambitions and aspirations.

Q. What is the role of innovation in creating and sustaining our competitive advantage and how does technology help in doing so?

Innovation is at the core of everything we do. We believe that the only way to sustain our competitive edge is to reach tomorrow through embracing innovative thinking across all levels of the organization. While continuously launching new products to address specific customer needs, we have raised the bar of innovation onto a higher platform by wrapping it around our 3P philosophy. Our belief is that when we work for the people and the planet, profit is destined to follow. In this context, we believe that it is imperative to constantly improve the way we manage our human resources and we do so through innovative compensation management, performance-based incentive structures and the provision for efficient training and developmental infrastructure. The responsibility of this vests with the senior line management and the bank's human

resource department. Process innovations are brought about through coordinated efforts with different teams like operations, technology, business segments, risk management, etc.

Technology plays a vital role in our pursuit for continuous improvement through innovation. In this day and age, technology is constantly changing the rules of competition, rendering many traditional business strategies and processes obsolete. BRAC Bank is a frontrunner in the industry in terms of utilizing technological advancements for augmenting process efficiency and strengthening business growth.

Q. Finally, how does the organization develop its intellectual capital?

We continue to invest in our people as they are the principal driving force for the bank. We expose our human resources to an inspiring work environment and a culture that fosters and encourages collaboration, sharing and teamwork. We maintain the highest standards of ethics and behavior at the workplace and have a 'no-compromise' stance to any deviations. We contribute to the development of our human resources by providing them with ongoing as well as specific trainings. The number of hours of training at the bank has increased sharply by 14% (292,401 man-hours) in 2017, indicating our focus on reinforcing the quality of our talent pool.

SME Banking Division

Overview

BRAC Bank's SME Banking division was launched with the bank's inception in 2001. The division's overarching objective was of nation-building in terms of including SME businesses into the organised financial system, enabling them to scale-up their businesses and generate greater employment opportunities. Indeed, the division envisioned unleashing entrepreneurship within the SME space, which is among the largest contributors to Bangladesh's gross domestic product (GDP).

BRAC Bank's SME banking unit is widely regarded as a pioneer in the industry for its niche ability to customise financial solutions to suit the customer's business profile

and cash flow cycle. The division is also recognised for providing a dedicated and customer-driven sales force, cash flow-oriented lending assessments, robust distribution network, decentralized decision-making, shortest loan disbursement timeframe and continuous exploration of bringing the un-banked borrowers into the folds of formal banking finance. The outcome of our core competencies and a dedicated approach to customer service was reflected in BRAC Bank being awarded as the 'Best Bank for SMEs' by Asiamoney in 2017.

With a view to appropriately address the needs of our customers representing various business segments, the SME Banking division is sub-segmented into several wings that include small businesses, agricultural finance and emerging corporate.

Divisional highlights, 2017

	2017	Brief commentary
Gross disbursements:	BDT 84,051 mn	Disbursements increased by a significant BDT 20,036 mn
Portfolio:	BDT 83,471 mn	Portfolio increased by BDT 15,634 mn
Number of customer:	122,656	Number of customer increased by 14,400
PAR	4.30%	Portfolio at risk (30DPD) has declined by 1.2%
NPL	2.80%	Non-performing loans moderated by a substantial 1.2%

Blueprint, 2018:

- To be the best-in-class and a holistic SME financier in the industry through an emphasis on a customercentric culture, tailored products to suit individual businesses and the drive on improving portfolio quality
- To identify and reach unexplored market and customer hubs and create awareness on the wide range of products and services of our SME Banking division
- To promote well-defined products and facilities to existing as well as potential clients and enhance the sense of value-creation at a broader level
- To develop borrower selection and assessment tools in line with the central bank guidelines to equip the sales force for boosting productivity
- Maintain portfolio growth momentum through achieving a proper blend of funded and non-funded businesses
- To promote the culture of cross-selling among the sales force, thereby benefitting the bank at large
- To adopt newer technologies and tools to smoothen approval and disbursement processes and increase the monitoring of delinquency

 To apply best lending practices of the banking industry to further optimise NPL and PAR trends

Small Business:

Our Small Business division is engaged in helping micro, cottage and small businesses all over the country to give wings to their business through accessing our wide range of banking products. Small businesses are the most important drivers of economic activity in rural and semi-urban communities. Funding this aspiring entrepreneurial community to develop their business and add value to the country's economy has been the principal vision of the Small Business division.

Through as many as 457 SME unit offices located all across the country to swiftly cater to the business needs of small manufacturing, trading and service-oriented businesses, the Small Business division has been able to sustain the momentum in terms of portfolio growth, disbursements, workforce productivity and geographical coverage. For its expansive distribution network and large and dedicated sales force, the division has recorded a declining trend in its NPL and PAR movements. As of 31 December 2017, the total portfolio of the Small Business division stood at BDT 49,237 mn and PAR and NPL at 3.6% and 2.6%, respectively, with the number of loan customers at 118,888.

Going forward, the division intends to ensure that it is the choice of preference among target customers. This

emphasis is also evident in the fact that out of the total portfolio size of BDT 49,237 mn, the ticket size of as much as 86% of the disbursed loans in 2017 was below BDT 2.5 mn. With a view to keep pace with the times, the division has created a flexible and agile sales model with a rigorous stance on providing superior service quality to address the dynamic market environment and evolving customer perceptions.

At the division, we are also emphasising on sustainable growth through focusing on scaling-up our existing customer base by meeting their specific financing needs and are also engaging in process improvements to ensure a superlative customer experience on the one hand and high workforce productivity levels on the other. Moreover, we believe that Agent Banking will significantly enable us to augment momentum at this division over the coming days.

Agricultural Finance:

In line with Bangladesh Bank's Agricultural & Rural Credit Policy and Programme for the fiscal year 2017-2018, every commercial bank has to disburse 2% of their consolidated loans and advances to the agriculture sector, emphasising on the priority accorded to this sector. The bank's Agricultural Finance team ensures that agricultural loans are made accessible to endborrowers through its large small business network as well as tie-ups with micro-finance institutions (MFI). The Agriculture Finance team maintains relationships with MFIs to meet the agricultural loan targets of Bangladesh Bank.

Moving forward, the bank intends to maximize opportunities by meeting the unmet needs of agricultural borrowers through emphasizing on strengthening

relationships with top-tier MFIs and NGOs. As of 31 December 2017, the total portfolio of Agricultural Finance stood at BDT 5,369 mn with a PAR and NPL of nil and the number of loan customers standing at 58.

Emerging Corporate:

The Emerging Corporate division has emerged as the most preferred growth partner of aspiring small business owners who have proven themselves and are on track to transform their businesses into a medium-sized one or even a corporate. The division caters to the banking needs of medium-sized manufacturing, trading and service-oriented businesses that have demonstrated a high growth propensity and seek multiple, tailored and composite loan facilities. In our years of working with this segment, we have found that these growthoriented businesses create a positive economic impact by generating employment and strengthening backward and forward linkages. Commencing operations in 2013, the Emerging Corporate division has gained phenomenal growth traction in terms of number of customers and portfolio and employee productivity over the last two years with the impetus provided by the new management team. In 2016, the division's portfolio grew by 36% and more sharply by 60% in 2017.

The Emerging Corporate division currently caters to 3,119 customers through its nation-wide presence and is empowered by a decentralized approval process. As of 31 December 2017, the cumulative portfolio stood at BDT 22,488 mn and PAR and NPL at 3.8% and 2.8%, respectively.

Banker-SME customer conference and Open Loan distribution program

Key initiatives of the SME Banking division

'Banker-SME customer conference and Open Loan distribution program' was held at Faridpur BLC on 21 September 2017. The program's Chief Guest was Mr. Shiekh Md. Selim, General Manager, Bangladesh Bank, and Special Guest was Mr. Indrajit Sur, Head of Emerging Business and Mr. Mostafizur Rahman, DGM Bangladesh Bank. Mr. Md. Nazrul Islam, Regional Head of the Khulna Region, was the Chairperson of the program.

The program was organized by SME & Special Programs Department, Bangladesh Bank and was coordinated by BRAC Bank Ltd with 33 other banks and NBFIs of Faridpur area.

Under the 'Open Loan' distribution program, BRAC Bank financed BDT 10,450,000, including one TARA SME loan of BDT 450,000 through the Faridpur Branch, Rajbari Branch and Bhanga Branch.

Baladia cricket bat cluster: A potential cottage industry

Baladia is a tiny village in South Bengal with no direct road connectivity or electricity. Moreover, the nearest commercial banks are almost 20-25 km away. The village is, however, famed for its cricket bats.

With the help of the SME Foundation, BRAC Bank is financing this bat manufacturing cluster as a part of its financial Inclusion activities and in compliance with Bangladesh Bank guidelines to develop clusters. On a larger scale, our intervention envisions that the national cricket team will play with our 'Proudly made in Bangladesh' cricket bats across national and international venues.

In this village, there are 200 cottage entrepreneurs with about 3-5 employees each. Out of them, we have already financed around 100 entrepreneurs with a total loan value of around BDT 2 crore. The recovery rate is 100%.

New product launch: Bahon (commercial vehicle loan)

In March 2017, the SME division launched a new loan product, Bahon, to help SME entrepreneurs purchase commercial vehicles for meeting the transportation needs of their businesses. Under this platform, SME entrepreneurs can purchase trucks, covered vans, pickup trucks and prime movers, etc, to transport their goods. Bahon was well-received in the market.

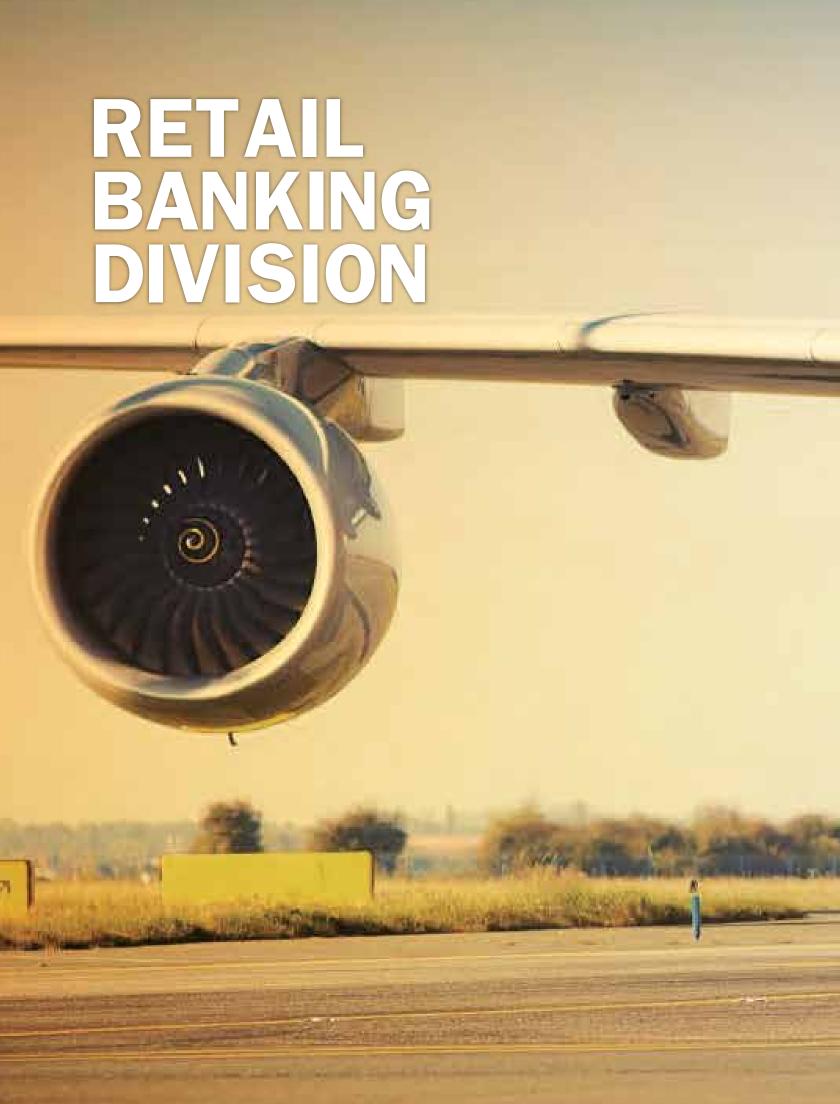

BRAC Bank participated in Bankers and SME entrepreneurs Conference in Barisal.

As the Lead Bank, BRAC Bank took part in Bankers and SME entrepreneurs Conference in Faridpur organized by Bangladesh Bank.

Retail Banking Division

BRAC Bank's Retail Banking division's portfolio grew at a healthy 19% to BDT 40,741 million as on 31 December 2017. This rapid growth was made possible by the transformation of the retail lending business from a product-centric approach to a customer-centric focus.

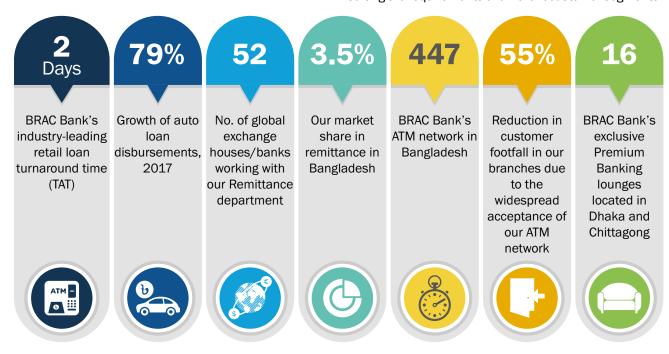

Overview

BRAC Bank's Retail Banking division, established in the year 2001, provides a wide suite of products and services to cater to a multitude of retail loan requirements. The division provides home loans and car loans in addition to a wide range of other personal loans, credit cards and cash-secured loans. Leveraging BRAC Bank's robust pan-Bangladesh network, the bank's Retail Banking division enjoys strong penetration across the country, facilitating both marketing of retail loan products as well as collections. The division also possesses robust credit appraisal standards and procedures with industry-leading TAT (loan turnaround time), which stood at an average of 2 days in 2017.

BRAC Bank's Retail Banking division also houses the Remittance department that facilitates hundreds of thousands of NRBs in transferring money to their families back home. Notably, over the past five years, the Remittance unit has facilitated inward remittance to the tune of USD 3,893.27 million and is now one of the largest such companies in the organised remittance space in the country.

The year 2017 was yet another successful and important year for the Retail Banking division, which emphasized on protecting asset portfolio quality to create the foundations for sustainable long-term growth. Notably, with a view to augment the home loans and auto loans businesses, the division meticulously worked with several leading real estate developers and car dealerships. The result was that in 2017, the growth of home loans and auto loans was 6.3% and 79%, respectively. Specifically, the auto loan business witnessed strong growth traction during the year, driven by industry-best TAT, development of stronger relationships with vendors with high POS (point-of-sale) visibility and re-engineering of certain backend processes for smoother transaction facilitation.

BRAC Bank's Retail Banking division's portfolio grew at a healthy 19% to BDT 40,741 million as on 31 December 2017. This rapid growth was made possible by the transformation of the retail lending business from a product-centric approach to a customer-centric focus with the outcome that product functionality was aligned more to customer requirements and product parameters. Moreover, processes and policies were modified with the establishment of sharply differentiated propositions for suiting the requirements of different customer segments.

Some of the other initiatives that made rapid growth a reality include the following:

- Minimization of TAT to even a single day to meet the needs of customers with a strong credit track record
- Enhancement of our sales capabilities through increased hiring of specialised resources
- Initiation of in-house 'contact point verification' with the result that this reduced loan processing TAT on the one hand and improved risk compliance on the other
- Extensive training and skills development provided to our human resources, which resulted in significant increase in engagement levels and productivity
- Launch of product marketing campaigns and team engagement events helped maintain business momentum

Fact!

BRAC Bank provides home loans of up to 70% of security value and auto loans of up to 50% of asset (vehicle) value. Currently, the bank possesses the highest market share in home loans and auto loans in Bangladesh, made possible through the bank's expansive 186-branch presence across the country and robust customer service standards.

Initiatives planned for 2018

Aligned with BRAC Bank's vision of becoming the best bank of Bangladesh, our Retail Banking division is also focused on emerging as the best retail bank. Towards this extent, we have lined up several initiatives for 2018:

- Migration to Core Banking System (CBS) that will significantly increase our credit assessment, disbursal and collection capacities
- Introduction of 'Document Management System' to enable the digitalization of our document management processes, facilitating customers in terms of lowering documentation requirements and helping save time
- Facilitation of customer convenience through modernisation of our e-banking (internet and mobile application) system to make digital banking a reality, thereby boosting 'anytime anywhere' banking
- Initiation of 'Loan Origination System' and 'Credit Scoring' for streamlined loan processing and analysis

Remittance

Overview

BRAC Bank's Remittance department, under its Retail Banking division, is responsible for remittance transfer through relationship-building with overseas exchange houses/banks. Hence, the department offers comprehensive banking solutions to NRBs and their beneficiaries and assists in overall revenue generation. The core strength of the Remittance unit is that it enjoys strong multi-year relationships with 52 globally-renowned exchange houses/banks. Our market share in remittance in Bangladesh stands at about 3.5%.

Key financial and operational highlights, 2017

- Facilitated remittance inflow of USD 338.46 million, representing a substantial 30% volume growth YoY
- Established a relationship with three new exchanges:
 - ✓ Al Muzaini Exchange Co., K.S.S.C.C.
 - Safkhan International Group, Australia
 - ✓ World Remit, the UK

One of the other significant highlights of 2017 comprised the initiation of a mutually-beneficial remittance partnership comprising BRAC Bank and bKash's real-time money remittance service with Transfast. Under this agreement, bKash mobile wallet customers can receive money 24x7 to their bKash wallet from Transfast's vast global network. Importantly, this partnership has been conceived to initiate mass adoption of financial services for faster financial inclusion, while providing users with a superior experience through innovation.

In 2017, the Premium Banking deposit portfolio witnessed net growth of 34%, representing a commendable performance considering low prevailing deposit rates. By the end of December 2017, the total assets disbursed by the Premium Banking unit stood at BDT 2,500 million, growing by a significant 152% over the last year.

Blueprint, 2018

- Focus on augmenting our market share to 5%
- Emphasis on offering our remittance customers BRAC Bank's deposit products, thereby increasing our share of the customer's wallet
- Crediting remittance to bKash wallet through integration with BRAC Saajan, which will help those in remote locations receive remittance credited in their mobile wallet
- Growing relationships with major exchange companies and integration with bKash, ensuring seamless credit of the remitted funds to the beneficiary's bKash wallet
- Conduct refresher training for branch officials
- Engage in promotional activities with different partners
- Explore relationships with new exchange companies to help generate additional business and ensure increase in remittance revenues. We look forward to build new partnerships in the Middle-East, South East Asia, Europe, Australia, Maldives and Mauritius

Alternative Delivery Channel

Overview

As one of the country's largest and most respected commercial banking institutions, one of the core strengths of BRAC Bank is its extensive presence. This is most visible in the fact that the bank operates 447 ATMs and 90 CDMs under Alternative Delivery Channel (ADC) spread all across the country.

As a pioneer in facilitating customer convenience, through the introduction of ATMs in the year 2017, BRAC Bank could successfully reduce around 55% of customer footfalls from its branches. With this success, the bank now aims to cover as much as 70% of transactions through ADCs through launching various campaigns and awareness programs.

Core strengths

 Eight ATM Service Centers dedicated to seamlessly manage ATM and CDM services. These ensure the timely loading of cash in our ATMs and collecting deposits from CDMs, thereby ensuring superior customer service Dedicated IT team tasked with the responsibility of ensuring up-to-date security compliances as well as high levels of ATM uptime, which stood at about 98% in 2017, up from 95% in 2016

Key highlights, 2017

- Implementation of CDM automation software that enhanced processing efficiency of CDM deposits
- Upgradation of software resulted in cash and card capture time interval increasing to 20 seconds from 10 seconds, which reduced incidents that cause inconvenience to customers
- Establishment of a double link to ensure higher ATM up-time
- Implementation of a new user-friendly User Interface (UI) across all CDMs
- Enhancement of customer convenience through dispatch of SMS notifications for every deposit from CDM (debit/credit cards)
- Despatch of SMS notifications to customers for any amount withdrawn/transferred from their account/s

Blueprint, 2018

- a. **Efficiency optimization:** Under this platform, we expect to undertake the following initiatives:
 - Relocate/discontinue ATMs with monthly transactions below 1,500
 - Raise awareness about ADC among customers visiting BRAC Bank branches
- Enhancement of tech-driven services: To establish a stronger market presence, ADC expects to utilize the geographically-dispersed ATM network for business acquisition and targeted marketing, made possible by:
- Making ATM usage more convenient, secure and user-friendly
- Utilizing the ATM location for proactive targeted marketing
- Attracting potential customers to engage with BRAC Bank through ensuring convenient and reliable services dispensed at our ATMs

Retail Sales

BRAC Bank's Retail Banking division's Retail sales team is the largest salesforce in the Bangladeshi retail banking industry. Currently, over 800 employees work across different geographical areas under retail sales. In 2017, the Retail sales team was able to report a stellar 108% growth in the retail asset portfolio to BDT 23,068 million, in line with growth in per employee contribution to BDT 6.8 million during the year.

Key initiatives, 2017:

- A more focused customer segmentation approach as well as the introduction of a risk-based incentive structure reinforced the on-boarding of quality customer accounts.
- A focus on balanced portfolio management with an emphasis on collections resulted in among the lowest Retail NPLs the industry.
- Recruitment of specialized sales employees from renowned companies boosted our overall sales practice
- A revamped employee banking team provides a comprehensive suite of individual financial solutions to many renowned organizations.
- To foster an inspiring and world-class working environment, a new sales office was acquired in the heart of Dhaka. This 30,000 sq ft facility is fully-equipped with advanced technology support, a state-of-the-art multimedia conference room and a dedicated training facility as well as an in-house cafeteria that offers a great dining experience for the employees.
- As part of employee engagement and motivation, a sales convention was arranged; moreover, different team-building sessions were also organized right through the year to boost team collaboration, enthusiasm and productivity

Milestone activities, 2017

- As part of our stakeholder management practice, we arranged a 'Developer's Night', joined by more than 550 entrepreneurs of the real estate sector. We also participated in the Rehab Fair and the annual event of Bangladesh Reconditioned Vehicles Importers & Dealers Association (BARVIDA), which is the largest affiliation of vehicle importers and sellers, as a key event sponsor.
- We signed numerous MoUs (Memorandum of Understanding) with renowned real estate developers as well as car dealerships across the country

Call center operations

Our 58-seater call center operates 24/7 and is equipped with a modern IVR system. Responding to various customer requests/grievances/feedback, our call center serviced 1.5 million customers in 2017, processing about 0.6 million customer requests during the year.

With a view to augment efficiency and customer satisfaction, in 2018, we are aiming to increase the capacity of the call center to 110 seats and also the capability of the overall operations through embracing a comprehensive systems upgrade.

Towards enhancing customer convenience, diversion of certain services to the call center from the branches is also in the pipeline.

Credit Card Products

Our Retail Banking division provides customers with a wide array of credit cards to suit their various purposes and requirements.

Key initiatives, 2017

 BRAC Bank Credit Card EMI Program @ 9.99%. The introduction of a new equated monthly installment (EMI) program for selective BRAC Bank credit card holders was aimed at strengthening customer convenience.

- Upgrade and Customer acquisition campaigns: Many campaigns that included customer upgrade, spend stimulation and acquisition campaigns were conducted.
- Complimentary lodging offer at Cox's Bazar. The best lodging offer in the credit card industry the country was introduced. BRAC Bank credit card holders will enjoy complimentary nights at premium hotels/ resorts across the country.
- Newly designed credit card plastics and collaterals.
 New, refreshing and thematic credit cards and marketing collaterals for all our card products were introduced in 2017.

Premium Banking

BRAC Bank's Premium Banking division offers free health check-ups at some of the best hospitals in the country. It also offers other exclusive lifestyle benefits such as dining options in 5-star hotels in Dhaka and Chittagong and complimentary night stay offers in luxury resorts, etc.

Overview

With special privileges and a wide range of exclusive products and benefits, our Premium Banking services assure excellence within the realm of providing an enriching banking experience for the bank's top revenue generating customers. BRAC Bank's Premium Banking platform also offers personalized wealth management services to high net worth customers to simplify their financial lives.

With over a decade of experience in Premium Banking, the bank has made its presence felt in this competitive market segment. With only two relationship managers and no service lounges in the initial stages, the team has now grown to a size of 44 members in 2017 and serves from as many as 16 state-of-the-art lounges in Dhaka and Chittagong, strategically located to serve our privileged banking customers.

Today, the Premium Banking segment has been instrumental in building a sustainable deposit base for the bank, comprising about 30% of the total retail deposits.

Highlights, 2017

In 2017, the Premium Banking deposit portfolio witnessed net growth of 34%, representing a commendable performance considering low prevailing deposit rates. By the end of December 2017, the total assets disbursed by the Premium Banking unit stood at BDT 2,500 million, growing by a significant 152% over the last year.

BRAC Bank's Premium Banking division offers free health check-ups at some of the best hospitals in the country. It also offers other exclusive lifestyle benefits such as dining options in 5-star hotels in Dhaka and Chittagong and complimentary night stay offers in luxury resorts, etc.

Outlook, 2018

- F1 service: Through this initiative, BRAC Bank's
 Premium Banking customers can get the desired
 banking services in the comfort of their homes or
 offices. Initially Gulshan, North Gulshan and Banani
 Premium Banking customers are able to avail of
 this service, which will be progressively expanded to
 other lounges as well

CORPORATE BANKING DIVISION

Corporate Banking Division

The year 2017 represented a noteworthy journey for the division in its focus of emerging as the most preferred financial partner. The customer engagement was substantially scaled-up and various events were organized to build awareness on business-enhancing products and solutions.

Overview

BRAC Bank's Corporate Banking division offers a comprehensive suite of services, thereby providing the convenience of a one-stop banking shop for all corporate customers.

The Corporate Banking division started its operations on a full-fledged basis in 2009 and since then, the portfolio has achieved a substantive annual compounded growth of 9% YoY, which is among the fastest growth rates in the country's banking sector. Importantly, although the market in general experienced sharp growth in NPLs, the portfolio quality of our Corporate Banking division was maintained at satisfactory levels.

BDT **78,346** million Portfolio growth, 2017, up 9% YoY

Spotlight, 2017

The Corporate Banking division achieved remarkable growth in 2017, taking off from the initiatives sowed in 2016.

The newly launched Corporate Branches and repositioning of the Local Corporate team together contributed to significant growth in the funded business. Besides, the restructured Large Corporate team contributed to substantial growth in the non-funded business. Moreover, a dedicated Trade Development team was also established to provide a greater impetus to the trade business.

The year 2017 represented a noteworthy journey for the division in its focus of emerging as the most preferred financial partner of customers. With this objective, customer engagement was substantially scaled-up and various events were organized to build awareness on business-enhancing products and solutions even as new trade centers were launched to widen customer

access. Several business-strengthening initiatives were also undertaken that resulted in the division achieving outstanding growth in 2017.

Some of the major achievements of 2017:

- Substantial loans and advances portfolio growth to BDT 78,346 million, representing a 9% increase YoY
- Significant growth in the deposit book that touched BDT 61,488 million, constituting a 39% growth YoY
- Healthy trade volume growth that reached USD 1.86 billion, comprising 25% YoY growth
- On-boarding of 87 new relationships
- As many as 26 branches came under the Corporate Banking network, thereby enabling us to tap into newer business opportunities
- 26% of the sourced Local Corporate portfolio extended to outside the Dhaka region, indicating growing reach beyond the metropolitan limits
- Further portfolio diversification into various business segments like food processing, mobile handset and electronics, manufacturing, steel, etc. helped reduce concentration risks

Major events, 2017

- Organized the bank's first ever trade seminar in Chittagong on "Overview of Export Policy & Import Policy Order 2015-2018" at Radisson Blu Bay View to raise awareness on the subject
- BRAC Bank and Bangladesh Institute of Bank Management (BIBM) jointly organized a seminar on "International Trade: Associated Risks, Customs, VAT & Taxation Law" at the BIBM Campus in Mirpur
- Organized a trade seminar on "Overview of Import & Export Policy 2015-2018" to create customer awareness at a program held at Amari Hotel, Dhaka
- Organized a seminar on "Foreign Exchange & Interest Rate Risk Management" in Dhaka
- Organized a "Corporate Night" program to create awareness on the wide range of financing solutions offered to corporate houses
- Launched a trade services center at the prominent Motijheel Branch and a full-fledged trade center in Chittagong

Blueprint, 2018

The year 2018 is projected to be a challenging one for the banking sector, considering the growing need for prudent liquidity management, widening gap in the country's balance of payment situation, rising forex and Libor rates, revised regulatory framework and prevailing socio-political issues. In this scenario, BRAC Bank will focus on prudent liquidity management, grow penetration in the export business and engage in cautious portfolio management. Through leveraging the wide distribution network, skilled manpower, process re-engineering and incorporating IT-based solutions, the bank aims to reach newer heights in 2018.

Organogram

At present, the Corporate Banking division has 6 asset units under Large Corporate, 2 asset units under Local Corporate, Cash Management & Custodial Services and a Trade Development and Corporate Support Unit. Large Corporate Asset Units are distinguished as:

- 4 Dhaka-based units
- 1 Chittagong Regional Office
- 1 Corporate Branch Unit (which collaborates with all the corporate branches)

Large Corporate

Large Corporate Unit of BRAC Bank Ltd went through major restructure in 2017 with an aim to serve our large customers more efficiently. In new organogram, previous large corporate unit was divided into 4 smaller units with new Heads of Relationship Unit and Relationship Managers. This change in effect brought more customer engagements which has helped us showcasing our capabilities to large number of customers.

One of key objectives of Corporate Banking Division in 2017 was to diversify the portfolio through on-boarding new relationships from various sectors. This widened focus on diversified industry not only helped us to on-board 19 good new relationships in 2017 but also helped us to reduce large loan concentration to a great extent. In 2017, large loan concentration of BRAC Bank Ltd went down from 23.59% to 15.57%. Apart from this, the Large Corporate Units have significantly contributed

26

Branches amalgamated under a unified Corporate Branch, 2017

non funded business growth in the year.

Going forward, Large Corporate Units of BRAC Bank aim to focus on sustainable business growth through delivering excellent service quality and offering diversified products to the customer. In our journey to become the best financial partner, we want to be the trusted partner of our customers and gain the right of first refusal for important financial deals.

Corporate Branches

A fast-emerging customer interface with a deep-rooted presence in Bangladesh's commercial banking space, BRAC Bank possesses an enviable branch network across the country.

In a significant initiative of 2017, a total of 26 branches were transformed into a unified Corporate Branch with the aim of providing the full value of our Corporate Banking services within these highly visible premises. The primary objective of creating an amalgamated platform was to optimize costs while simultaneously build higher capacity. Interestingly, what started off as an initiative of adding value in the way branch operations and corporate and commercial business transactions were traditionally carried out has now enabled us to open up newer avenues to take the concept of branch banking to the next level.

Importantly, our Corporate Branch has been conceived to benefit customers from convenient access to our products while keeping the approval process centralized, thereby bringing forth greater risk control and discipline. The transformation from a mere retail-centric unit into a comprehensive business unit was challenging, yet rewarding with a lot of learning resulting in the accumulation of rich experiences.

The core impact of this transformation also resulted in the focus shifting from plain-vanilla lending to value-driven relationships; from one-off transactions to multiple customer dealings and from our positioning as a partner of convenience to a preferred banking gateway of choice. Moreover, in addition to on-boarding over 30 new clients, the Corporate Branch also generated healthy growth in non-funded business with the highest single ticket size LC. While the business portfolio grew at a remarkable rate, there was a simultaneous emphasis on maintaining asset portfolio quality.

In 2018, the Corporate Branch expects to maintain the momentum, while ensuring smooth flow of low-cost sticky deposits, on-boarding of reputed export-oriented clients, maintaining asset quality, promoting value-based banking and transforming one-off opportunities into multi-year banking relationships.

64%

Local Corporate's loan portfolio growth, 2017

Local Corporate

The Local Corporate business has been playing an important role in aiding the overall portfolio growth. This business wing caters to the regular working capital and trade and capital expenditure-related financing needs of commercial and corporate customers. Earlier, the team was known as a 'Medium Business unit' and operated under the SME division. However, to match the product offerings and expectation levels of the target customer segment, the Medium Business unit realigned its market positioning and became a part of the Corporate Banking division in January 2016 with a new identity. Since this strategic repositioning, the Local Corporate business

has grown significantly in terms of portfolio size and geographical reach.

In 2017, Local Corporate's loan portfolio crossed the milestone BDT 15 billion-mark, registering a tremendous 64% YoY growth. In terms of geographical reach, the team managed to diversify as much as 26% of its consolidated portfolio outside the greater Dhaka region, compared to 1.26% of the portfolio being outside the greater Dhaka region in 2016. With enhanced focus on manufacturing businesses, the portfolio is well-diversified with a presence in more than 10 different industry sectors. Despite significant growth, the NPLs were reduced by half over the last two years.

Going into 2018, maintaining portfolio quality, accelerating revenue generation and supporting business growth by sourcing new funds will be some of the major business goals.

Trade Development

The Trade Development wing started full-fledged operations in 2017 and is engaged in trade marketing, product development and improving service quality.

Since commencement of operations, the team has been focusing on empowering trade clients by providing them with strong propositions. The division also arranged several trade-related seminars for existing as well as potential clients to showcase capabilities in handling trade operations.

The trade development team is also working to expand trade service points for reaching out to clients at their doorstep and for this purpose a trade hub was launched in the Motijheel Branch in March, 2017. The team is also in the process of establishing a few more trade hubs across major business areas in Dhaka, which will gradually be spread around the country. In the last one year, trade volumes grew by a sharp 25% and the trade development team is continuously working towards achieving higher levels of growth in the coming years.

Cash Management and Custodial Services

BRAC Bank's Cash Management Services provides the full range of cutting-edge products to efficiently process an organization's deposits, improve disbursement methods and eliminate idle cash balances. The bank's Cash Management and Custodial Services wing provides a comprehensive portfolio of cash management solutions under one-roof, thereby emerging as a business-enhancing solution for customers.

BRAC Bank offers a wide range of collection products to meet the specific requirements of clients, flexible and customizable in terms of fulfilling their needs, like NCS (Nation Wide Collection Services), PTS (Payment Transfer Solutions), IPO (Initial Public Offerings), MBS (Mobile Banking Services) and Cash pick-up and drop services. Within a short span of time, this division has been able to establish a strong foothold by providing cash solutions to different governmental organizations, autonomous bodies, large local conglomerates, developmental organizations and MNCs, among others.

Services offered under Cash Management

Deposit facility:

BRAC Bank offers highly competitive deposit rates in the form of different products, catering to the investment and cash flow requirements of clients, such as short-and long-term surplus funds, Employee Provident Fund, Gratuity Fund, employee welfare fund, etc. Apart from competitive pricing, our edge lies in providing prompt service.

Nationwide Collection Service (NCS):

NCS facilitates large corporate houses to collect funds from their clients through BRAC Bank's own branches for credit to their single collection account maintained with the bank. The bank's wide coverage has been a key driver in facilitating large corporates to collect funds and service their clients in a timely and efficient manner. Also, the department is equipped with state-of-the-art NCS software to facilitate clients with real-time transaction integration with their own systems.

Secured Cash Service (SCS):

SCS is provided to corporate bodies. The bank sets up desks/counters at specified locations and deposits the collected funds in the respective customer accounts. We offer this service to high-volume cash collection clients who we cannot cater to in our branches considering the large volumes.

Payment Transfer Solution (PTS):

PTS facilitates organizations in transferring their funds to respective locations through BRAC Bank's branches. This service also enables clients in remitting funds to their desired locations.

Cash pick-up and drop services:

Cash pick-up and drop services facilitates safe and secure cash pick-up and drop from/to the customer office premises. The entire cash collection and drop process is supported by self-sufficient logistics that is aligned with international standards. The facility offers customers security, convenience and flexible pick-up and delivery schedules and is yet another initiative to bring the bank closer to the customer's day-to-day cash transaction requirements.

Transactional Banking Services (TBS):

TBS is a core service provided by the cash management department. In order to provide differentiated services to our clients, the Cash Management department has developed various current and SND accounts in line with Bangladesh Bank's policies.

Internet banking:

The Cash Management department provides valueadded information to clients through internet banking. The various services that are offered include the following:

- Real-time online transaction view for more effective cash management
- Access with the highest levels of security
- Easy-to-use applications
- Simple download of account statements
- Retrieval of transaction history

IPO (Initial Public Offering):

BRAC Bank offers a wide range of collection products to meet the specific requirements of clients, flexible and customizable in terms of fulfilling their needs, like NCS (Nation Wide Collection Services), PTS (Payment Transfer Solutions), IPO (Initial Public Offerings), MBS (Mobile Banking Services) and Cash pick-up and drop services.

BRAC Bank's IPO department has been established to manage client IPOs through engagement as the lead banker to the issue. The department also provides other services such as collection of rights share applications, dividend disbursement, etc. Since inception, the team has played a vital role in mobilizing funds, especially during liquidity crisis.

Custodial services:

BRAC Bank acts as the custodian of various mutual funds managed by different asset management companies. Mutual funds play a critical role for retail investors as well as for institutions by facilitating them to invest their savings/surplus liquidity in diversified portfolios and earning a fair rate of return on their investments.

BRAC Bank also facilitates custodial services to NRBs, foreign individuals and foreign institutions to invest in the Bangladeshi capital market. The team also serves as an issuing and paying agent bank for Commercial Paper and bonds.

Mobile financial services:

bKash Limited, a BRAC Bank subsidiary, provides mobile financial services (MFS). As a part of our nationwide collection, we offer integrated solutions along with bKash to ensure collection from rural areas and other unbanked/under-banked regions.

Treasury and Financial Institutions Division

At BRAC Bank, our Treasury and Financial Institutions team provides truly global services by effectively and efficiently harnessing market opportunities through the real-time treasury system. We are proud of the fact that our dynamic team is one of the top teams in the market in terms of market-making and client facilitation. With a strong track record, we aim to be the top treasury team in the market in 2018.

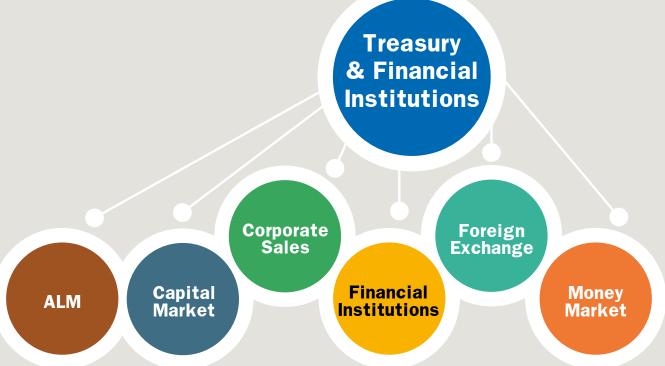

Md. Shaheen Iqbal Head of Treasury and Fl

"Ahead of the market"

With this philosophy, the Treasury and Financial Institutions (FI) division demonstrated exceptional performance in 2017 by providing robust treasury solutions to both internal as well as external clients through its pool of dynamic dealers and relationship managers. Treasury and FI has successfully managed

both the rapid growth of the BRAC Bank asset book while also ensuring the consistent growth of its portfolio.

Alongside managing the bank's funds, meeting regulatory requirements, managing day-to-day liquidity and acting as market maker, the team caters to a diverse customer group with the following dedicated desks:

Money Market desk: In 2017, money markets were moderately liquid and call money rates ranged from 1.5–4.5%. Our treasury has been active in the interbank money market with proficient forecasting skills, managing liquidity gaps and ensuring considerable profitability for the bank. This desk facilitates all kinds of available solutions like call money, repo, reverse repo, term money (across different tenors), FX SWAP, etc. Aligning with regulatory requirements and maintaining the proprietary portfolio makes this desk one of the most efficient in the market.

Capital Market desk: Our Capital Market desk is one of the most dynamic in the Bangladeshi capital markets, participating through fixed income securities, stocks,

mutual funds, subordinated bonds and preference shares. Being a non-PD (primary dealer) bank, it has been a great achievement. Forecasting market rates and taking positions accordingly to ensure profit maximization and capital loss minimization on various securities represent the desk's key responsibilities. Our treasury also remained active in executing trades with corporate clients in government treasury securities.

The Capital Market Investment Committee (CMIC) takes investment decisions and reviews the portfolio's performance. The BRAC EPL research team provides research and advisory support in managing the capital market investment portfolio.

Foreign Exchange (FX) desk: BRAC Bank's treasury is one of the most active in both local and cross currency transactions and we have been a major source of liquidity in the interbank market in 2017. Through our FX desk, our dealers have explored proprietary FX trading (mainly in G7 currencies) and provided pricing facilities to other players in the interbank market. Our FX desk also provides funding support to our offshore banking book.

Notably, 2017 was the year of volatility for the USD-BDT pair. Current account balance recorded a deficit of USD 3.31 billion during the July-October 2017-18 period because of significant trade deficit. Imports grew 30.17% which put significant pressure on USD-BDT. Our treasury was ahead of the market in maintaining NOP (net open positions) during this volatile period by ensuring maximum profitability while also keeping positions within regulatory limits.

Corporate Sales desk: Our vibrant Corporate Sales desk offers corporate counterparties a wide array of solutions ranging from simple spot purchases and sales to derivatives for hedging adverse exchange and interest rate movements.

Today, the team deals with over 100 active clients across numerous industries, catering to their FX needs while also helping the bank gain exposure to FMCG, pharmaceuticals, cement and construction materials, RMG and textiles, power, petroleum and lubricants, food, edible oil and telecommunications industries, among others.

On a weekly basis, the Corporate Sales desk circulates updates on the currency and interest rate markets to raise awareness among existing and potential clients on the prevailing market scenario and also advises them regarding their FX and interest rate exposures.

Asset Liability Management (ALM) desk: The bank has a dedicated ALM desk under Treasury and FI and provides economy, market and bank information and analysis to the Asset Liability Management Committee (ALCO) for them to take strategic decisions.

ALCO, which meets at least once a month, is responsible for:

Managing balance sheet compositions Determining interest rates to increase efficiency Managing liquidity and interest rate risks Maximizing returns

Financial Institutions (FI) desk:

Our dedicated FI desk is responsible for local and overseas correspondent relationships in order to facilitate SME and remittance disbursements, FX transactions, foreign trade (import and export), remittance and other foreign currency business and transactions. The bank has 24 overseas nostro accounts in seven major currencies and around 400 correspondent relationships with global banks. It also maintains 450+ nostro accounts with local

Credit Risk Management

At BRAC Bank's Credit Risk Management division, our entire focus is on achieving excellence in our underwriting practice with the ultimate objective of maintaining a high quality portfolio.

Credit risk

Credit risk is normally defined as the risk of suffering from a financial loss should any of BRAC Bank's customers, clients or counterparties fail to fulfill their contractual obligations.

Core credit values

For any bank, the prudent management of credit risk is central to achieving sustainability and long-term profitability. For BRAC Bank, the judicious supervision and administration of credit risk is all the more important considering the fact that the organisation is one of the largest private sector commercial banks in the country with a large stakeholder ecosystem.

At BRAC Bank, with a view to achieve excellence in credit risk management, the division mandated with the responsible stewardship of credit risk management has established a set of core credit values to foster and nurture a culture that emphasizes on the efficient, reliable and accountable management of credit risks impacting the business. Importantly, the adherence to our core values is embedded in our credit function and high standards of alignment are expected out of every Credit Risk Manager.

Our core credit values comprise the following:

Honesty – Fostering the highest standards of professional and personal integrity

Trust - Nurturing a collaborative approach that thrives on trust and accountability

Sincerity – Encouraging honesty and candor in thought and action

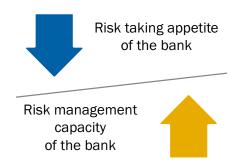

Equilibrium – Supporting balanced decision-making through unbiased assessment and evaluation of information

Diligence - Cultivating an environment that thrives on expertise and professionalism across the full credit process value chain

Credit risk management objectives:

As a banking organisation that strives to achieve riskmitigated portfolio growth, our Credit Risk Management division supports this overarching intent through our objectives that are articulated below:

- To maintain a framework of controls to ensure that the assumption of credit risks is based on sound credit risk management principles, as set forth by the regulator, along with embracing international best practices
- To identify, assess and measure credit risks clearly and accurately across the bank and within each business division, namely Corporate Banking, SME Banking and Retail Banking

- To define the bank's risk appetite and ensure that the business profile and plans are consistent with this framework
- To control and plan credit risk taking aligned with external stakeholder expectations and circumventing undesirable concentrations. Also, our focus is to manage the organisational risk profile to ensure that specific financial deliverables remain achievable despite the impact of adverse business conditions
- To monitor credit risk and controls to ensure that risk-reward objectives are met and to ensure that business growth plans and targets are adequately supported by effective risk protocols and infrastructure

Organization and structure of credit risk management

For the effective management of credit risk, it is disaggregated business-wise with appropriate allocation of responsibility, which helps in ensuring accountability and answerability. The structure of our credit risk management is anchored on the following:

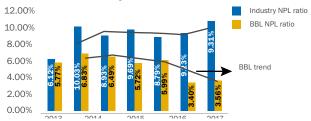

- Corporate, SME and Retail portfolios are managed by separate underwriting units under the credit risk management division
- Credit risk management responsibilities have been structured in such a way that credit appraisal emphasizes on maintaining underwriting standards, as outlined in the credit risk management policy, while simultaneously challenging business performance with robust reviews on risk infrastructure and strategic plans
- The Credit Risk Management Committee, constituted by the bank's senior management, plays an important role as a recommending authority for credit appraisal
- All credit approvals are done as per the Delegation of Lending Authority approved by the Board of Directors and as per Bangladesh Bank guidelines and within the purview of the bank's credit risk management policy
- The credit risk management teams in each business segment are accountable and directly report to the Chief Risk Officer

Industry vis-à-vis BRAC Bank's asset quality

The robustness of our credit risk management function is reflected in our asset quality that is superior in comparison with the country's overall banking sector. The asset quality or portfolio health is measured by a metric that takes into account the non-performing loans (NPLs) as a percentage of the total loans of a bank. Evidently, the lower this metric, the better is the asset quality.

Industry NPLs stood at 6.12% in the year 2011.
 Post 2011 however, spurred by reckless lending and disregard for regulations, industry non-performing loans soared and rose to as high as 9.31% by the end of year 2017

NPL Ratio: Industry vis-à-vis BRAC Bank

- Among the various other reasons, commodity market volatility, inadequate infrastructure thwarting investment growth, political instability and widespread loan scams in state-owned banks were the major reasons that fueled NPL growth in the country's banking sector
- Despite the dismal asset quality scenario in the banking sector, BRAC Bank reported a contrarian performance and continued to maintain a healthy asset portfolio during the last two years
- With concerted efforts of each of the business divisions, the Credit Risk Management division, the Special Asset Management division and the management, BRAC Bank maintained an NPL of 3.56%, sharply lower than the industry NPL average of 9.31%

Key priorities for maintaining asset quality in 2018

At BRAC Bank, we are focused on maintaining the fine balance between achieving our growth aspirations while simultaneously controlling our NPLs. Moreover, our focus on ensuring superior asset quality for sustaining revenue growth would be representative of our core principle for credit portfolio management in the year 2018. Towards this extent, some of the initiatives planned for 2018 include the following:

- Proactive management of NPLs by way of identification and gradually exit from weak accounts with a simultaneous on-boarding of top industry players with a strong credit track record and history
- Structural review of sectoral exposures and increasing alignment of strategy / underwriting criteria while taking into account the shape of the economy and the industrial scenario along with the bank's credit principles
- Focus on portfolio diversification to minimize concentration risks by way of sustaining exposure to the SME business which is characterised by a large and geographically-dispersed client base
- Continually emphasize on NPL control and reduction by way of:
 - a. Arresting new NPL flows
 - b. Reducing the prevailing NPLs through an intensive focus on recovery
- It is the goal of the bank to keep the NPL ratio below current level in the year 2018

Distribution Network

The primary objective of restructuring and agglomerating our branchesinto a centralized distribution network is to provide a superior interface to our customers as they engage with the bank and to showcase the full value of our products and services, thereby providing them with the convenience of banking under a single roof.

Overview

In a significant initiative of 2017, BRAC Bank amalgamated its branches under a common distribution network and aggregated them into 8 regions with as many zonal heads, deputed as in-charge of their respective regions. The effect of this initiative is becoming visible in the fact that the branches are now coming under the purview of direct supervision and guidance for ensuring sustainable portfolio expansion and cost optimization with a strong impetus on profitability growth.

Reinforcing customer experience

The primary objective of restructuring and agglomerating our branchesinto a centralized distribution network is to provide a superior interface to our customers as they engage with the bank and to showcase the full value of our products and services, thereby providing them with the convenience of banking under a single roof. A welcoming environment at all our branches also helps put our customers at ease, especially since a large number of them might be experiencing organised banking for the first time. As a universalized bank that caters to the needs of a diverse population, we ensure that our branches provide customised and friendly services that lead to delightful customer experiences on the one hand and enduring relationships on the other.

As an institution that has been founded on the premise of embracing the highest levels of compliance, a centralized facilitation wing has been established forall thebranches within the distribution network,under a well-represented Branch Governance Team. This team is entrusted with the task of providing comprehensive support to ensure good governance and streamlined service quality. The central idea behind the distribution network is to promote a 'one BRAC Bank' approach and, in this respect, the Branch Governance Team ensures that the same level of superior service is dispensed across all of the bank's branches throughout the country.

Towards meeting our objective of extendingformal banking tothe unbanked and the 'missing middle' population segments of the countryto help unleash their contribution to economic growth and development, we have expanded the range of our distribution network by inaugurating as many as five new branches across diverse locations of the country. These include the following:

- 1. Bheramara branch
- 2. Jibon Nagar branch
- 3. Shakhipur branch
- 4. Mohadebpur branch
- 5. Ati Bazar branch

Importantly, all of these branches are providing our customers with the convenience of full-fledged banking operations and, consequently, contributing in acquiring new customer accounts and commensurately growing their overall portfolio.

For strengthening the visibility of our branches by placing them in more recognized trade and commerce centers as well as facilitating client convenience through easy accessibility, the following 6 branches have been relocated to more prominent business hubs:

- 1. Araihazar SME/Krishibranch
- 2. Jatrabari SME service center
- 3. Kadamtoli SME service center
- 4. Sylhet Uposhahar branch
- 5. Board Bazar branch
- 6. Savar branch

With a view to ensure that our branches stay in step with the times, emerge as more prominent locations for banking, stand-out in a competitive marketplace to attract customers and reinforce their image as being

customer-friendly, warm and welcoming, the following list of 14 branches were renovated and modernized:

- 1. Beanibazar branch
- 2. Bhairab branch
- 3. CDA Avenue branch
- 4. Ishwardi branch
- 5. Narayanganj branch
- 6. Panchagar SME/Krishi branch
- 7. Rampura branch
- 8. Shantinagar SME service center
- 9. Motijheel Graphics Building branch
- 10. Agrabad branch
- 11. Dholaikhal SME Service Center
- 12. Laxmipur SME/Krishi branch
- 13. Netrokona SME/Krishi branch
- 14. Shahjadpur SME/Krishi branch

Furthermore, with a view to offer the full range of banking products and solutions to Mirpur and its surrounding areas, the bank's management has converted the Mirpur SME Service Center into a full-fledged branch under the name of Mirpur Section 1 branch.

Facilitating our corporate customers

We have come to realize that our corporate clients demand a comprehensive suite of products and services and value efficiency and competence. With a view to facilitate our corporate customers in catering to their holistic requirements expeditiously, the BRAC Bank management nominated as many as 26 branches as corporate branches. All these outlets are fully equipped to cater to and grow existing relationships while also focusing on developing new mandates and relationships.

Since a large number of customers possess an extended banking relationship with us, we focused on reinforcing this affiliation through the leverage of technology to ensure that our distribution network provides cuttingedge one-stop banking solutions. Towards this extent,

all our 186 branches are currently under the network of BACH, BEFTN and RTGS. Moreover, simulation and performance testing of our new Core Banking Solution (CBS) has also been done successfully across the distribution network.

With a view to evolve with the times, we review and refine various policies and processes to continue to provide superior experiences to our customers on an ongoing basis. For providing the finest banking service delivery model to our customers, the 'Ideal Branch Project' is being piloted across selective branches. The idea behind this project is to minimize cost, reduce loan TAT (turnaround time) and enhance overall banking productivity. The success of this initiative will take us one step forward in our journey towards emerging as the best bank of Bangladesh.

During 2017, we extensively worked towards enhancing engagement with our clients across our distribution network. In this context, we organised several action-packed events that include the colorful Borsho Boron programs and art competitions for children on Ekushey February, among others. All of these programs were enthusiastically received by our customers and their families even as they helped us grow familiarity and closeness with them.

Initiatives planned in 2018

Throughout 2018, the principal objective across our distribution network will be to sustain the momentum in terms of augmenting human resource capabilities, refining processes and reinforcing our technological backbone. Importantly, facilitated by the upgraded version of our Core Banking Solution, we are confident of strengthening our service quality levels to attain newer heights of excellence. Our focus on widening our products and services portfolio with a 360-degree emphasis on banking solutions across our existing outlets as well as transforming select high-visibility SME service centers into full-fledged branches is also on the verge of execution. Moreover, the ongoing exercise of refining our policies, processes and premises will represent a cornerstone in our journey of establishing a distribution network for a bank that envisions emerging as the best bank of Bangladesh.

Since a large number of customers possess an extended banking relationship with us, we focused on reinforcing this affiliation through the leverage of technology to ensure that our distribution network provides cutting-edge one-stop banking solutions.

Customer Experience

Creating a Better Banking Experience

BRAC Bank believes in creating seamless, consistent experiences at every touch point our customers have access to. It is all about the experience gathered from banking with us and the expectations to be met as far as the right bundle of products/services are on offer and the responses on their feedback, in turn call attention to the demands for quality relationship with the bank through skilled bank personnel.

With its outstanding financial performance and prioritizing the 3 basic expectations of customers in focus - BRAC Bank has taken numerous initiatives to reinvigorate the quality of service it provides to its esteemed client base.

Reshaping the banking experience

To benchmark Service Quality DNA across all branch and sales colleagues, approximately 1500 employees were trained exclusively on Service Quality, Branch Operations & Credit Card Products and Services in the course of more than 40 training programs.

Employees were also trained comprehensively on Banking Foundation, Credit Relationship, Professional Selling, Trade Services, Anti Money Laundering, Diversity-Gender-Sexual Harassment and numerous other core programs.

Caring for the Customers

Branches & Sales

To be the best bank in Bangladesh, we continue to thrive to offer the best experiences to our customers in terms of service quality, the behavior of our service providers, ambience and clean environment.

In line with this, Ideal Branch project has been rolled out not only to introduce Service Ambassadors in Branches but also to revamp infrastructures for new look in order to offer state of the art and clean ambience at Branches & Sales Centers. The placing of Service Ambassadors is a new initiative, undertaken particularly to strengthen the bank-customer

relationship and make the customers feel that 'We Care for Them'.

While infrastructural changes were and are being made, our branch colleagues participated in 'Dress Well' Campaign' where the most well-dressed personnel were recognized and rewarded. Hence, to bring unity in the outlook, we are in the process of distributing standard uniforms to our branch employees.

Alternate Channels

The staff performance campaign titled 'THE MUSKETEERS' for our Call Center, was launched on August 2016 and ended on July 2017.

Ranking as one of the top Call Centers in the industry, this super energetic team continues to perform at a team average of 90% of their KPIs and answers 86,000 calls through agents on average, monthly.

To make banking convenient for our customers, we have been cordially diverting our customers to the Call Center for Cheque, SMS Banking & Internet Banking services.

Not only are the services being diverted, transactions below BDT 50,000 are also being channeled to Cash Deposit machines to improve queue waiting experience at branches.

To be the best bank in Bangladesh, we continue to thrive to offer the best experiences to our customers in terms of service quality, the behavior of our service providers, ambience and clean environment.

Listening to the Customer's Voice

To keep up with the ever rising and changing expectations of the customers, BRAC Bank has planned to conduct Focus Group Discussions with its valued customers by the beginning of 2018.

The discussions aim at discovering the areas of satisfaction in terms of availing BRAC Bank's services in correlation to the industry players and identification of the influencing factors of customers' decision making as far as selecting a bank for their banking services is concerned.

Customers deserve to be heard and as such, a complete tracking system has been developed to ensure end to end tracking of service and feedback. Customer requests will present them with unique reference numbers which will allow them to stay upbeat on processing of their requests/feedback.

To enhance customer experience through usage of our Credit Cards - continuous changes relative to process and product offerings are being rendered.

The Bank as a whole

"One for All, All for One!"

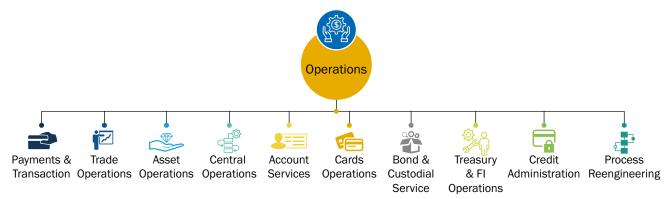

No team can achieve exceptionally well without the lateral support from the related departments / divisions within the bank.

Employees of BRAC Bank are all on the same platform to ensure Service Excellence in accordance with the customers' expectations, which is backed by the total turnover over the last decade that evidently shows a steady growth in today's highly competitive market.

However, with many other initiatives and projects in pipeline, we still believe that there is more that we can do to bolster our customer experience to persevere on the advancing momentum and become the 'Best Bank' in Bangladesh.

Operations Division

Core focus area: Move forward towards digitalization for process simplification

At BRAC Bank's Operations division, during the year under assessment, two new departments were established to ensure adequate governance oversight, clear segregation of job roles and responsibilities and a focus on process simplification, which will eventually lead to quicker and more effective service delivery to our customers within a controlled and compliant environment. Today, armed with the confidence of the initiatives undertaken over the past, we are determinedly moving towards digitalization that will reinforce our customer service standards through process simplification.

Key accomplishments, 2017:

- Provided substantive impetus for the Treasury Module to go 'live' in February 2017. Moreover, the Operations team also ensured the upgradation of the bank's Core Banking System (CBS) and Core Card System that is expected to go 'live' by Q2, 2018. This will ensure additional enhancement in daily transaction processing and enable the sustenance of product features with add-ons, contributing to augment customer service and their experience with us.
- Ensured process re-engineering across the Operations division to facilitate improvement in TAT and achieve greater automation in customizing MIS for clients with enhanced control.
- Recruited talented resources from top-tier local as well as multinational banks and provided training to 750+ employees across the organisation to focus on improving our service quality and delivery standards. Besides, on-the-job training was also provided to employees to emphasise on cross-functional knowledge.
- Launched a Trade Service Delivery Desk outside Dhaka to facilitate prompt trade services to clients.
- Established two new Regional Operating Centers (ROC) in Gazipur and Narayanganj that facilitated

banking activities and enabled the bank to go closer to customers residing in these micro-markets.

- Effected same day service for NOC issuance of loan settlement, cheque book printing and delivery and Internet Banking (IB) token issuance and delivery.
- Facilitated the issue of Signature credit cards in just one day - from application to delivery.
- Integrated the direct credit of expatriate remittance to the mobile wallet account holder through bKash.
- Reduced processing time by as much as two days for outward cheque clearing across the country.
- Launched auto coupon encashment services for Sanchaya Patra to ensure enhanced customer convenience along with a concomitant reduction in footfall at our branches.

Future blueprint

- Conduct a comprehensive Business Process Review (BPR) across our operations to scale-up capacity as well as productivity to ensure quicker service delivery.
- Launch an express service for the bank's specialized segments (Retail, SME and Corporate) that will facilitate greater client satisfaction.
- Enhance the capacities and capabilities of our Regional Operating Centers (ROC) to provide all sorts of banking services within the shortest possible time.
- Digitalize and automate various manual activities, including cards reconciliation, return reporting, customized MIS for trade/corporate clients, deferral tracker system and standing instructions.
- Initiate document and request management system.
- Introduce a productivity measurement tool to focus on promoting a KPI-driven culture.

Information Technology Division

At BRAC Bank, investments in technology to achieve excellence has been a priority since 2016. The bank's focus on revamping its technological platform to ensure the best business outcomes and provide superlative customer experience has been at the forefront of all of the Information Technology Division's initiatives. Aligned with our vision of becoming the best bank in the country, it is crucial to achieve holistic customer satisfaction and with the advent of technological innovation and evolution of digital banking, meeting customer demands is only possible by embracing the dynamic changes through sustained investments in technology.

One of the major components of our technological roadmap is to have a sound strategy and we are in the process of devising our tech blueprint in line with our business aspirations to offer differentiated products and solutions. Towards this extent, we are working with major consulting companies and leveraging their global views and insights to foster advanced solutions that are best suited to the local environment.

Having commenced our journey to reinforce our tech support in 2016 with the vision of becoming a superior banking service provider through major investments in technology, this aspiration continues to remain the core focus area of the bank.

At BRAC Bank, we have adopted a number of new solutions and are upgrading our major banking platforms such the Core Banking Solution (CBS), which has been an extended countrywide project and we will go live by April 2018. The CBS will have a strong impact on elevating customer experience, also enabling us to keep up with the latest trends in next-generation banking. In addition, other critical banking platform upgradation projects are underway and we are expecting Card Management system, Oracle Enterprise Resource Management system and call center to go live by August 2018. These platforms with new features and functionalities will enable our employees to serve our customers better and, in turn, will empower our customers to engage in a superior banking experience with us. As we have also taken up new platforms to be implemented in the year 2017 on internet banking and e-commerce and the new Swift platform providing a more secure environment, these will take our banking services to a new dimension where our customers will be able to bank on the go.

At BRAC Bank, we realize that digitalization is the next big change that most customers are demanding and customer propensity to adopt banking as a platform will be very challenging and, mostly, personal device-based. In line with the wave of digitalization, at BRAC Bank, we have strategized our technological adoption from 2018 onwards to be more on the digital banking platform even

as we direct our efforts to digitalize internally as well as externally to achieve outcomes faster to ensure greater employee efficiency as well as customer convenience. As such, we have analyzed and found that Document Management system, Loan Origination system and Data Warehouse solutions and Bl and Analytics would help us internally digitize most manual processes which, in turn, will help us bring forth the benefits of digitalization for customers to have a differentiated experience vis-à-vis our competitors. We also plan to introduce Agent Banking for the SME division through providing innovative digital solutions to support such a major initiative by the central bank.

Technological infrastructure is an integral part of BRAC Bank's technology platform and we have embraced major decisions on revamping infrastructure of our countrywide network, storage, blade servers and remote support systems. We are probably the only bank that is fully compliant with most operating systems licensing and a major investment has been made in 2017 on the same. Unified communication has been a platform that we need to keep ourselves connected with as our offices are located in the remotest corners of Bangladesh. We are expecting to get connected through a unified communication platform by 2018-end.

We significantly invested to upgrade many aspects of our data center to meet business and user needs in the year 2016-17 and were able to ensure the highest levels of uptime. Considering the sharp uptick in business from 2018 onwards, our existing data center has been populated with systems and peripherals. Moreover, since this data center has been in operation for long, we took another major decision to design and implement a new generation data center and disaster recovery center at our own premises by the year 2020. This will be a major step in infrastructure planning and will provide us with a 10-year window to cater to technological adoptions and hosting systems with the growth of the business. This state-of-the-art data center will ensure that customer transactions are conducted uninterrupted and seamlessly.

Delivering the above-mentioned solutions and building such a platform requires a skilled and knowledgeable technology team and, towards this extent, we are training our existing resources and also recruiting skilled talent from the market to enrich our tech capabilities. We believe that a business-driven innovation-centered technology strategy with a combination of skilled people and adoption of the right technological solutions will help fulfill our vision to differentiate ourselves as a bank that empowers customers with a superior banking experience.

SUBSIDIARY OVERVIEW

bKash Limited

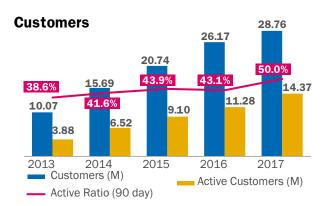

bKash Limited was established on 1 March 2010. bKash, a pioneer in the Mobile Financial Services (MFS) industry of Bangladesh, has played a key role in improving access to formal financial/banking services since its inception.

Introduction

The year 2017 was a pivotal one for bKash in terms of technological advancement, regulatory compliance and growth. The company continues to grow and achieve targets while adapting to the new changes in the industry.

bKash remains to be one of the leaders of the industry and is expected to continue this success in the future.

The number of active customers (defined as those who made at least one transaction in the past 90 days) has also increased by 6.9% in 2017 compared to 2016.

Key achievements in 2017

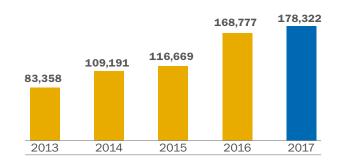

The revolutionary change in the technology department in 2017 was the successful migration of the internal system from VISA platform to the Huawei platform. The migration, which was one of the largest of its kind, took place seamlessly without any impact on customers. With the changeover, customers can look forward to new products in the future. In addition, regulatory circular that enforced reduced ceiling on transaction amount had an immediate impact on both the business and the customers. Despite this, the total transaction volume continues to increase.

Following regulatory approval, a real-time remittance terminated to bKash wallets was launched. Operations were active through BRAC Bank and Mutual Trust Bank. The initial transactions looks promising.

Agents

All agents were subject to rigorous compliance checks and, as a result a number of them were shut operations, leaving a total of 178,322 agents scattered throughout the country. On average, in 2017, 80% of agents were active every month.

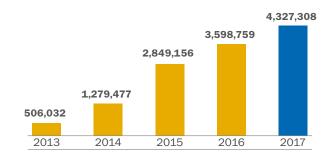

Agents

Average daily transaction count

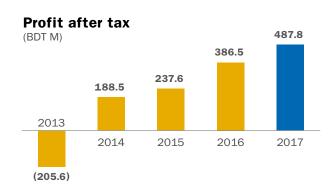

Average daily transaction count increased in 2017 by 20.2%. In 2017, average daily count of transaction was 4.33 million compared with 3.59 million in 2016.

Average Daily Transactions Count

Financial performance

The net profit after tax in 2017 was BDT 488 million, an increase of 26.2% over the prior year.

The increase in profit was primarily driven by higher transactions and float income. A 10% increase in customers coupled with a substantial increase of 6.9% in active customer ratio resulted in a 20.2% increase in total transaction count. As a result of the increased customers and agents in the bKash network, the float registered an increase of 24.7% over the prior year. The total revenue (comprising of transaction revenue and float) was BDT 17.7 billion, an increase of 18.4% over prior year.

Economic outlook

The increase in number of transactions & volumes is a reflection of the upswing in the economy of the country. With higher transaction numbers and amount because of the booming economy, the MFS industry will continue

to flourish and mature in the coming years. bKash is expected to maintain its leadership position in a market which is growing at approximately 20% a year. New technological developments and new, products, coupled with a strong and growing network of business partners and customers, will play a key role in this regard.

BRAC EPL Stock Brokerage Limited

BRAC EPL Stock Brokerage Limited was established to cater to the needs of the stock brokerage business in Bangladesh. BRAC EPL Stock Brokerage Limited (BESL) is the 3rd largest stock brokerage house among 250 brokers in the country with a 3% market share as of December 2017.

About us

BRAC EPL Stock Brokerage Limited (BESL) is one of the largest stock brokerage houses in the country with a 3% market share at the end of 2017. BESL is the leader in the foreign portfolio investment execution segment with a 42% market share. The company also offers brokerage services to 28,000 clients which include local institutions, retail clients, non-resident Bangladeshis (NRBs) and 60 foreign institutional clients through 8 branches and 148 employees.

Products and services

BESL offers stock brokerage services to all Bangladeshi and international capital market investors.

Public market execution

BESL has maintained the 3rd position among 250 brokers. On average, BESL had 3% market share of DSE turnover, 0.7% of CSE turnover and 2.8% of the total turnover.

Investment research and advisory services

BESL pioneered the investment research industry in Bangladesh. Currently, the Research Department has broader investment research and investment advisory mandates. The team has research partnership with Macquarie Securities Group – the world's 8th largest sell-side equity research firm, in addition to research partnership agreements with Bloomberg, Thomson Reuters, S&P Capital IQ and Fact Set. The following are some of the key achievements of the team in 2017:

The recommended investment composite of the team generated 45.3% return in 2017, outperforming the benchmark index by ~21.3%.

- Initiated coverage on two new companies: Confidence Cement and Golden Harvest (GHAIL). Since publication of the equity note, Confidence Cement has unlocked value and given a decent return to investors generating 42.1% return while Golden Harvest (GHAIL) posted a negative performance of 16.9% as on Feb 5, 2017.
- Completed the international research work by Stewart Investors on "Financial Inclusion Project" and successfully won the bid after competing with research firms from other countries. The work, which includes analysing 30 companies across 16 countries, will generate USD 30,750 in advisory fees.
- Carried out "Investment Memorandum" for the Ahsania Mission Cancer and General Hospital (AMCGH), generating BDT 3 million as advisory fees.

In addition to the above, the team also generated USD 75,000.00 in Research and Advisory Fees from foreign investors and BDT 14 million from local institutional clients.

Capital market review, 2017

2017 was a bull year for the capital markets of Bangladesh. The stock market provided the highest return since 2010. DSEX gained 24% in 2017, following the last year's total return of 8.8%. The continued declining interest rates in the economy has provided strong tailwinds to the capital markets. Turnover has also picked up significantly with increasing participation from retail investors.

Given the positive outlook on Bangladesh economy and political stability, foreign portfolio investments (FPI) continued to rise in 2017. Total foreign turnover stood at BDT 114.5bn which was 30.5% YoY higher compared to the last year. Net foreign investment stood at BDT

17.1bn in 2017. However, the foreign turnover as a percentage of total market turnover has declined to 5.3% in 2017 compared to 7.4% in 2016, owing to increased participation from retail investors.

Financial performance

Our total turnover stood at BDT 130.9 bn in 2017, up by 51.2% YoY. Average daily turnover increased by 76.8% YoY in 2017 compared to previous year. BESL's net profit after tax in 2017 was BDT 204 mn; increasing by 115% or BDT 110 mn.

Future outlook of the industry and the Company's position

We expect the capital markets to be relatively volatile in 2018 compared to the bullish trend we have witnessed in 2017. Considering 2018 to be an election year, political arena might heat up causing disruptions in business

and investor sentiment. Interest rates have bottomed out and are picking momentum faster than expected due to lower liquidity in the system. We do not expect the government to slash rates on savings tool prior to the upcoming election. However, good scrips are likely to stand out in the market and we expect them to continue to drive valuations through strong fundamentals and opportunity of expansion of valuations multiples.

The main focus of BESL in 2018 will be to nurture the retail segment. As a part of its strategy, BESL has increased its focus in the corporate business wing as well. BESL intends to accumulate further market share in the foreign segment. We currently have trading partners from all around the globe but major contributors are from USA (33.9%), the UK (22.4%) and Northern Africa (14%). In 2018, we want to prioritize client service though superior trade flow management, better execution and further customer engagement through sales call in collaboration with the research team.

BRAC Saajan Exchange Limited

BRAC Saajan is the largest remitter to Bangladesh by holding 30% market share of the remittances sent from the UK.

About us

BRAC Saajan continues to be the largest remitter to Bangladesh with over 30% market share of the remittances sent from the UK. During 2017, the rapid growth of BRAC Saajan was due to boost in retail as well as commercial aggregators' remittance volumes. Expanding on the existing aggregators' relationships, BRAC Saajan introduced an additional 3 aggregators during 2017.

During the year, BRAC Saajan invested in Human Resources. It now employs 62 people at the end of 2017 in comparison to 47 at the end of 2016. The Company continues to invest in its human resources.

There is an ever increasing emphasis on compliance in the industry and hence BRAC Saajan made additional investments in compliance in 2017, and will continue to do so in line with the evolving regulatory requirements. In 2017, BRAC Saajan launched an online portal, which generated additional remittance volumes, thus supporting the company's growth by diversifying its market and products.

BRAC Saajan's commitment to customers and communities translates not only through the offering diverse products, but also through a variety of initiatives and supporting activities in local communities. With the aim to achieve the value-for-money via offering competitive exchange rates and offer a broader network of locations for payouts to beneficiaries, BRAC Saajan entered into 14 new agreements with banks, thus also strengthening its relationships with the banking sector.

Throughout 2017, BRAC Saajan continued to improve its IT infrastructure through various investments and system improvements. Some of the most significant improvements include the following:

 Redundancy plan web production server with more RAM, increased hard drive space and fail over cluster technology, which always remains on.

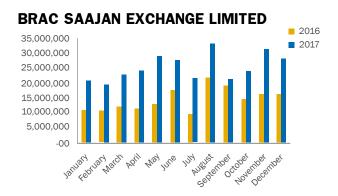

- 2. Separate testing server allows the exclusion of issues that were otherwise threats with the previous arrangement, i.e. testing and web production server combined.
- 3. A number of developments within the ERP system, including the Bucket concept, which allows streamlining the processes within the operations area; MLP dashboards, which serve as a better reporting and overview tool business-wide. The learning module has been updated for both the agents and the staffs.

The remittance volumes in 2017 nearly doubled from the volumes of 2016.

Future outlook:

The Company is forecasting more than 90% YoY growth in 2018. Major growth is forecasted by the UK retail agent network, aggregator network and italy retail agent network. The company is also forecasting increase in payments to other countries, especially to Pakistan, Sri Lanka, Poland and Romania. As per the strategic plan of the company, payments from European countries to African countries, especially to Nigeria shall also contribute to the growth projected in 2018.

BRAC EPL Investments Limited

Most Merchant Banks in Bangladesh provide only Investor Discretionary Management Services, whereas BEIL is one of the few companies currently providing both types of services.

About us

BRAC EPL Investments Limited (BEIL) has established itself as a full-fledged investment bank and portfolio manager in Bangladesh. Today, it is a reputed investment bank for corporate advisory services in the market, as is evident from the transactions it closed such as its role as the advisor to the Dhaka Stock Exchange Limited to demutualise the exchange and cross border M&A transactions. BEIL also successfully completed a transaction to raise USD 300 million debt and equity for the largest ever infrastructure project in Bangladesh. BEIL is also involved in raising a significant amount of money from the capital markets for largest power company of the Bangladesh Government.

BEIL is strategically optimizing business growth and profitability for the year 2018. The focus of the strategies would include rationalizing costs, enhancing fee-based income, improving performance of negative equity portfolio and boosting performance for establishing a sustainable investment bank.

Products and services

1. Portfolio Management

BEIL provides two types of portfolio management services:

- Investor Discretionary Portfolio Management: Investor Discretionary Account very closely resembles a BO (Beneficial Owner) Account. Under this arrangement, full responsibility of buying or selling, taking margin and all other critical decisions rests on the investors. In this regard BEIL, provides two products, the Cap Edge and Cap Cash.
- Manager Discretionary Portfolio Management: Under Manager Discretionary Account, the authority to take all pertinent decisions regarding most aspects of Portfolio Management lies with the Portfolio Managers. Most Merchant Banks in Bangladesh provide only Investor Discretionary Management Services, whereas BEIL is one of the few companies currently providing both types of services.

The fundamental difference between these two lines of business is the legal discretion or power of security selection, portfolio construction, execution timing and actual execution of trades.

Products of Portfolio Management:

- a. Cap Edge: Non-Discretionary Portfolio Accounts: Cap Edge is an investor controlled account. Investors retain all the authority and power to select the stocks to buy and sell and the timing of trade while portfolio managers assist them with trade execution and continuous advice. Under this arrangement, investors pay a management fee and brokerage commissions for trading.
- b. Cap Cash: Non-Discretionary Portfolio Accounts: Cap Cash is a unique non-discretionary product of BEIL offering clients margin and non-margin services through individual BO Account. Clients can link their existing BO Accounts in BEIL with their existing accounts in other brokerage houses. Cap Cash is an investor controlled account. Investors retain all the authority and power to select the items to buy and sell, and the timing of trade while the portfolio managers assist them with trade execution and continuous and expert advice.
- c. Managed Cap Edge Discretionary Portfolio Account: Managed Cap Edge is a portfolio manager controlled account. Managers retain all the authority and power to select the stocks to buy and sell and the timing of trade while the investors can guide the managers by providing input on their return and risk preferences. Under this arrangement, investors pay management fees (which are higher than those in Cap Edge) and settlement fees for trading.

2. Structured Finance Department

The Structured Finance Department widened its scope further to investment banking activities in 2017. Moreover, the Corporate and Institutional Banking department saw further transformation in 2017 with revamping the team as new recruits were brought in. During the year, the Structured Finance department

obtained two power project mandates as issue manager and arranger and one private equity mandate as the corporate advisor and arranger which are expected to be closed in 2018.

The services of Structured Finance Department include:

a. Debt arrangement

BEIL focused on originating, structuring and distributing debt in the form of syndicated loans, corporate bonds, bridge finance, mezzanine debt, asset-backed securities and other debt products for the corporate houses of Bangladesh. Our scope of work ranges from developing the optimum financial structure to arranging the funds from prospective lenders. The most common form of debt arrangement is syndicated loans. In general, syndicated loans help to finance large ticket size projects are not feasible to be provided unilaterally by a lender.

b. Private equity

In recent years, alternative investment asset classes such as private equity placement have become increasingly important pools of capital in the global financial system. With our vast network of foreign and local equity investors, we advice clients on optimum modes of financing requirements with alternatives to debt such as private equity and venture capital investments. Such investments provide strong advantage to clients as they get to have foreign investment banks/institutions sit on their Board that helps build their brand image.

c. Mergers & acquisitions

BEIL provides best in-class merger & acquisition advisory solutions to its clients in buying, selling or consolidating companies across all industries and across international borders. BEIL acts as both the buyer's and sellers' agent. BEIL also assists in finding potential sellers/buyers, negotiating to achieve the best possible price, valuation of the company, thorough due diligence and all related activities in bringing the transaction to closure.

d. Corporate Advisory

BEIL provides various corporate and financial advisory on project financing, corporate restructuring, financial due-diligence, etc for its clients.

Financial highlights for 2017

BRAC EPL Investments Limited has taken a number of steps to rationalize cost and ensure an effective and efficient management of its businesses.

BEIL have generated operating profit of BDT 59 million before adjustment of prior years' negative equity income in 2017 compared to loss of BDT 215 million in 2016.

Distribution network:

BEIL has seven offices that include a Corporate Head Office and two branches in Motijheel and Gulshan in Dhaka and four branches in Chittagong, Sylhet, Chowmuhani and Comilla.

Corporate Governance Report

Statement from the Company Secretary:

"Seeking rapid, responsible and resolute improvements in relation to a dynamic environment underpins BRAC Bank's approach to corporate governance. This uniquely places us to align with the highest corporate governance standards that our country expects of us."

Dear shareholders,

We are pleased to present to you the Annual Corporate Governance Report, 2017, of BRAC Bank Limited.

The theme of change, and how important it is that the bank and its subsidiaries inculcate an ability to manage it responsibly and effectively, runs throughout our integrated report for the year. Seeking continuous and rapid improvement in relation to a dynamic environment is a feature of this ability and underpins our approach to corporate governance. It is valuable therefore to reflect specifically on the milestones we have attained and the challenges we have considered in our corporate governance journey and to highlight our focus areas for the year ahead.

The profound changes in the bank's operating environment and, specifically, those in respect of regulatory compliance, have significant implications for the process of decision-making. However, one thing remains unchanged – our steadfast commitment to operating in an ethical, responsible and accountable manner, giving fair consideration to the legitimate interests and expectations of all our stakeholders.

Overview

Good governance practices have become substantially important for the development and sustainability of the capital markets and the protection of investor interests. These practices have also become a key factor for investors and lenders when making their investment and funding decisions. Studies have revealed that companies committed to corporate governance practices have a higher market price to book value ratio (PBV), which is evidence of the importance of good governance to investors. At BRAC Bank, I am pleased to state that we stand tall in this regard with our PBV of 3.6 times (as on 31 December 2017), among one of the highest in the private banking sector in Bangladesh. BRAC Bank's PBV (as on 31 December 2017) reflects strong shareholder confidence in our robust governance practices.

In light of the growing interest among stakeholders, including shareholders and potential investors, we have given due attention in this report to cover governance issues that are of interest to all constituents of our ecosystem. This ensures the report's reliability as a reference for the assessment of corporate governance practices in the bank and also reflects the efficiency and effectiveness of our administrative processes and operational transparency of procedures at all levels across the bank.

Key challenges

The complexities of managing regulatory compliance and the associated costs are a key challenge for the Board, given the pace and scale of regulatory change. In this context, the Board has continued to ensure that there are rigorous processes and protocols in place to monitor compliance with all applicable laws and regulations. We also continuously focus on improving the robustness of our processes and work towards a culture of compliance that is embedded across the group.

Looking ahead

We would like to take this opportunity to thank all regulatory bodies involved in overseeing the application of corporate governance across the bank and we have the highest regards for ensuring that good governance is fundamental to ensure the stability of the financial and banking sectors and therefore the overall economy.

In conclusion, we emphasize our commitment to improve the wide range of financial and banking services offered by BRAC Bank. We will pay special attention to support a culture of compliance that reflects adherence to business ethics and transparency and an unquestioned respect for law, legislations and regulations to ensure the effective contribution in the sustainable development of our country.

As a financial institution that is rooted in Bangladesh's soil, we will do everything possible to drive the growth potential of our nation and embracing the highest levels of governance is a core lever and a key priority in this aspiration.

With my best wishes,

Rais Uddin Ahmad Company Secretary

Scope

At BRAC Bank, corporate governance standards are naturally pursued in a manner consistent with the applicable local laws, regulations and codes. The organization also aligns with the recommendations of the international best practices issued by the Basel Committee on Banking Supervision, the Bank Companies (Amendment) Act, 2013, Bangladesh Securities and Exchange Commission and Bangladesh Enterprise Institute that has approved a comprehensive set of corporate governance procedures and practices.

BRAC Bank operates within the legal framework of the Bank Companies (Amendment) Act, 2013, Corporate Governance guidelines of Bangladesh Securities and Exchange Commission and the Companies Act, 1994. It has recognized that corporate governance guidelines are crucial for achieving a business that is built for the long-term.

BRAC Bank is always committed to attain the highest levels of corporate governance practices to ensure sustainable growth of the organization and to create long-term value for shareholders. Since its inception, BRAC Bank has continued with its efforts of adopting, implementing and enhancing the application of the best and most up-to-date corporate governance standards throughout the organization.

Stakeholders with whom we work for

In light of the growing interest among stakeholders, including shareholders and potential investors, we have given due attention in this report to cover governance issues that are of interest to all parties. This is to ensure the report's reliability as a reference for the assessment of corporate governance practices and to ensure the efficiency and effectiveness of administrative processes and transparency of procedures at all levels across BRAC Bank.

Appointment of Directors (Chairman, Board of Directors and Managing Director & CEO)

BRAC Bank complies with the regulations stipulated by Bangladesh Bank, Bangladesh Securities and Exchange Commission (BSEC) and the Companies Act, 1994, for the appointment of Directors. As per regulations, all Directors, except nominated, independent or alternate Directors, are required to maintain at least 2% shareholding in the bank, individually. As there are no sponsor/shareholder Directors in BRAC Bank, hence there is no requirement for Directors to hold 2% shares of the bank.

Pursuant to the Companies Act, 1994, 1/3rd of the Directors retire and, if eligible, are placed for reappointment, which refers to the Annual General Meeting for approval of shareholders. As per the Bank Company Act, 1991 (as amended in 2013), Directors are appointed with prior approval of Bangladesh Bank, considering a term of three years, which can be extended by two terms, subject to approval of Bangladesh Bank as well as by shareholders in the ensuing Annual General Meeting.

An Independent Director, pursuant to the Bangladesh Bank guidelines, is appointed with the prior approval of Bangladesh Securities and Exchange Commission and approval of Bangladesh Bank. Subsequently, it is placed in the ensuing Annual General Meeting for the approval of shareholders.

The Managing Director & CEO is also appointed with the prior approval of Bangladesh Bank, duly meeting the fit and test criteria. However, like other Directors, he is not subject to retirement as long as he remains the Managing Director.

Shareholding composition of BRAC Bank

The Sponsor and Directors of BRAC Bank jointly held 44.44% of the total shares whereas institutions and the general public held 55.56% of the cumulative shares as on 31 December 2017.

Vision, mission and strategy approved by the Board

Vision and mission of BRAC Bank Limited

The vision and mission statements and the strategy of BRAC Bank were duly approved by the Board of Directors. It is presented in this Annual Report on page 50.

Business objectives and strategic management

The Board of Directors of BRAC Bank determines the business objectives and goals and, to this end, chalk out strategies and work plans on an annual basis. The Board specifically engages in formulating strategies consistent with the predetermined objectives and goals and in issues relating to structural changes and reformation for the enhancement of institutional efficiency and other relevant policy matters.

Philosophy on code of corporate governance

BRAC Bank believes in adopting and adhering to the best standards of corporate governance for the benefit of all its stakeholders. The bank's corporate governance standards are based on the following principles:

- Appropriate composition, size of the Board and commitment to adequately discharge its responsibilities and duties
- Transparency and independence in the functioning of the Board
- Independent verification and integrity assurance of financial reporting
- Adequate risk management and internal control
- Protection of shareholders' rights and placing priority on investor relations
- Timely and accurate disclosure on all matters concerning operations and performance of the bank

The bank's philosophy on corporate governance enshrines the goal of achieving the highest levels of transparency, accountability and equity in all spheres of its operations and in all its dealing with shareholders, employees, regulators and other relevant stakeholders. By doing so, the bank demonstrates its understanding and respects its fiduciary roles and responsibilities to shareholders.

Ethics and compliance

BRAC Bank has a Code of Conduct for the Board of Directors and ethical guidelines for the bank's employees which are an integral part of the Service Rules and Regulations for the employees of the bank. Our employees comply with the code of conduct and requirements of ethical principles.

The Board has always been deeply committed to establishing the highest levels of ethics and compliance among all employees of the bank. It has always encouraged the management to ensure that everyone maintains high ethical standards within the bank. The Board guides the management on policies that should be adopted and followed by everyone in the bank.

Facilities accorded to the Chairman, Directors and the Managing Director & CEO

In accordance with the guidelines of Bangladesh Bank, the following facilities can only be given to the Directors:

Chairman	: The Chairman does not have any office chamber or private secretary or office assistant or a telephone in office. However, the Bank provides him a mobile phone and a car at his full-time disposal.
Directors	: Fees and other facilities for attending each meeting of the Board or any Committee as per guidelines of Bangladesh Bank and Bangladesh Securities and Exchange Commission.
Managing Director	: Only those benefits as agreed upon in his contractual appointment and approved by Bangladesh Bank.

Key policies regarding to remuneration of Directors and employees

The Board of Directors reviews from time-to-time, the remuneration of employees based on the bank's performance and the general inflation in the economy. All employees including the senior management are paid a competitive remuneration package.

Human Capital

The report on human capital is presented in detail on page 237 of this Annual Report.

Communication to shareholders / stakeholders for participation in Annual General Meeting

BRAC Bank serves the notice along with the Annual Report to shareholders at least 14 days before of Annual General Meeting. As per Bangladesh Bank guidelines and notifications of Bangladesh Securities and Exchange Commission,

quarterly accounts or information are notified to the shareholders and updated on the website. The bank's Share Department also provides services to shareholders round the year. The bank also ensures that all stakeholders are informed of the bank's activities on a routine basis.

Environmental and social obligations under CSR

The establishment of BRAC Bank's CSR strategy is a crucial component that reflects the bank's aspiration for the sustainable development of the society and creating meaningful value for stakeholders. This means having policies and procedures in place that integrate social, environmental, ethical, human rights or consumer concerns into the business operations and the core strategy, all in close collaboration with stakeholders. BRAC Bank considers all its business initiatives under the overarching ambit of the 3P philosophy (People, Planet and Profit).

BRAC Bank continues to expand its renewable energy portfolio through the installation of solar capacity at its newly-established SME offices, as part of its commitment to environmental sustenance. The bank has completed the installation of solar panels on SME Unit Offices since 2013. The bank is committed to bring all its SME Unit Offices under solar energy.

As part of its CSR activities, BRAC Bank-Prothom Alo Trust Adamya Medhabi Scholarship was introduced in 2010 to assist meritorious student of underprivileged families to fulfill their pursuit of higher education. Today, a large number of financially-challenged students, especially those from the rural parts of the country, do not have to face dropout. BRAC Bank has provided scholarships to meritorious students of Business Studies Faculty of Dhaka University. The bank, as part of its corporate social responsibility platform, provides scholarship to 40 students at the faculty. University of Dhaka is the oldest and highest learning seat of the country. Besides this, the bank considers the following compliances before lending to customers:

Sustainable financing

BRAC Bank has incorporated the ethos of socially-responsible banking through which it has been mainstreaming sustainable development and aligning it with the core business strategies of the bank. In fact, sustainability is integrated into the way we do business, into the contribution we make to local economies and into serving the communities we live in. The Board monitors all social and ecological factors with the aim of protecting the environment and conserving natural resources.

Whistle blower policy

There is no regulation or guidelines in the financial services industry about encouraging and protecting whistle blowers. However, BRAC Bank always embraces excellence in governance and encourages employees to raise a flag in the event of coming across any sort of wrongdoing. This includes the senior managers and certification regime, which is aimed at improving individual accountability within the financial services industry

- c) To the best of our knowledge and belief, the bank has not entered into any transaction during the year which are fraudulent, illegal or in violation of the bank's codes of conduct.

Chief Executive Officer

Dhaka, March 22, 2018 Chief Financial Officer

Report of the Board Audit Committee

Reflecting its status as a preeminent banking institution of Bangladesh, the Board of Directors of BRAC Bank Limited has established a well-represented Audit Committee, in compliance with Bangladesh Bank and Bangladesh Securities and Exchange Commission (BSEC) guidelines. The Audit Committee possesses the principal responsibilities of engaging in systematic and continuous reviews, monitoring and assessment of organizational performance against evolving regulatory requirements, establish policies, processes and procedures, formulate policies for controlling and mitigating risk and ensuring uncompromised compliance with laws and regulations.

Statement of purpose

BRAC Bank's Audit Committee (the 'Committee') is a standing committee of the Board of Directors (the 'Board'). The purpose of the committee is to assist the Board in fulfilling its oversight responsibilities relating to (i) the integrity of the Company's financial statements and internal control systems (including the implementation and effectiveness of internal control over financial reporting); (ii) the performance of the internal audit services function; (iii) the annual independent audit of the Company's financial statements, engagement of independent auditors and evaluation of the independent auditors' qualifications, independence and performance; (iv) the compliance by the Company with regards to legal and regulatory requirements; (v) the implementation and effectiveness of the Company's disclosure controls and procedures; (vi) the evaluation of enterprise risk issues and (vii) the fulfillment of the other responsibilities set out herein. The Committee is also tasked with the responsibility of preparing the report of the committee required to be included in the Company's annual proxy statement.

In discharging its responsibilities, the committee is not itself responsible for the planning or conduct of audits or for any determination that the Company's financial statements are complete and accurate or in accordance with the generally accepted accounting principles. This is the responsibility of the management and the independent auditors.

Audit Committee composition

The Board Audit Committee of BRAC Bank Limited comprises three members of the Board of Directors, including two Independent Directors in accordance with the Notification on Corporate Governance issued by BSEC on 07 August 2012 and Bangladesh Bank BRPD Circular No. 11 dated 27 October 2013. The composition of the current Board Audit Committee is as follows:

Dr. Hafiz G.A. Siddiqi Chairman (From February 18, 2013 to May 1, 2017)

Dr. Ahsan H. Mansur Chairman (From May 02, 2017 onwards)

Mr. Shib Narayan Kairy Member
Mr. Kazi Mahmood Sattar Member
Mr. Rais Uddin Ahmad Secretary

Dr. Hafiz G.A. Siddiqi, later replaced by Dr. Ahsan H. Mansur (from May 2, 2017 onwards) and Mr. Kazi Mahmood Sattar are the Independent Directors. Mr. Shib Narayan Kairy is a Nominated Director.

The Company Secretary of the Bank is the Secretary of the Board Audit Committee and the Head of Regulatory Affairs & CAMLCO of the Bank, concurrently reporting to the Chairman, Board Audit Committee and Chairman, Board of Directors of the Bank.

The Chief Auditor of the Bank reports to the Chairman, Board Audit Committee and administratively reports to the Head of Internal Control & Compliance.

The Head of Internal Control & Compliance reports to the senior management.

Participation of non-members

A representative of the Internal Control & Compliance division attends and participates in the meetings of the committee. The Managing Director and Deputy Managing Directors also attend meetings of the committee, together with other pertinent members of the management, as determined by the Committee.

Access to the committee

On any matter within the committee's charter, the Chief Auditor has direct access to the Audit Committee.

Roles and responsibility of the Audit Committee

The following functions represent the common recurring activities of the Audit Committee in carrying out its responsibilities and meeting its purpose. These functions serve as a guide with the understanding that the Audit Committee may carry out additional functions and adopt additional policies and procedures, as may be appropriate, in light of the changing business environment and legislative, regulatory, legal and other conditions. In addition to any other responsibilities which may be assigned from time to time by the Board, the Audit Committee is responsible for the following matters:

(i) Internal control

- Evaluate whether the management is establishing an appropriate compliance culture by communicating the importance of internal control and the prudent management of risk and ensuring that all employees have clear understanding of their roles and responsibilities;
- 2. Review the management's actions in computerization of the Bank and its applications and Management Information System (MIS).
- Consider whether the internal control strategies recommended by internal and external auditors have been prudently and comprehensively implemented by the management;
- 4. Consider reports relating to fraud, forgery and deficiencies in internal control or other similar issues detected by internal and external auditors and inspectors of the regulatory authority and place it before the Board after reviewing whether necessary corrective and remedial measures have been embraced by the management.
- With governance and supervisory oversight from the Board of Directors, the Audit Committee will put in place policies and procedures to identify, measure, monitor and control risk.
- 6. As the roles and responsibilities of the Board, Executive Committee, Credit Committee and Management Committee are of high impact and high frequency, ICC needs to take special care in order to identify lapses, especially in (i) sanction and rescheduling of loans and advances, interest waivers, loan write-offs, Director's loans and large loans, etc.; (ii) presenting the accurate financial and non-financial position of the Bank; (iii) allowing perks, benefits and incentives, etc; (iv) procurement and disposal of assets/ services/ materials; (v) mitigating risks and uncertainties that face the bank. Hence, the ICC meticulously examines the minutes and memos of the Board/ Executive Committee/ Credit Committee/ Management Committee meetings to assess the fact that memos were presented with proper and adequate information and decisions mentioned in the minutes were carried out accordingly.
- 7. Review management letters/ letter of internal control weaknesses issued by the statutory auditors.

(ii) Financial reporting

 The Audit Committee checks whether the financial statements reflect complete and accurate information and determine whether the statements

- are prepared according to the existing rules and regulations and standards enforced in the country and as per the relevant accounting standards prescribed by Bangladesh Bank;
- 2. Discuss with the management and external auditors to review the financial statements before finalization.
- 3. Review the quarterly and half-yearly financial statements with the management before submission to the Board for approval.
- Review statements of significant related party transactions submitted by the management.
- 5. When money is raised through Initial Public Offering (IPO)/ Repeat Public Offering (RPO)/ Rights Issue, the Company shall disclose to the Audit Committee about the application of funds, segregated by major categories (capital expenditure, sales and marketing expenses, working capital, etc), on a quarterly basis, as a part of the quarterly declaration of financial results. Furthermore, on an annual basis, the Company shall prepare a statement of funds utilized for purposes other than those stated in the offer documents/ prospectus.

(iii) Internal audit

- The Audit Committee monitors whether the internal audit is working independently from the management;
- Review the activities and the organizational structure of the internal audit and ensure that no unjustified restrictions or limitations hinder the internal audit process;
- 3. Examine the efficiency and effectiveness of the internal audit function;
- 4. Review the adequacy of the internal audit function;
- Examine whether the findings and recommendations disclosed by the internal auditors are duly considered by the management.

(iv) External audit

- 1. Review the performance of the external auditors and their audit reports;
- Examine whether the findings and recommendations disclosed by the external auditors are duly considered by the management;
- 3. Submit recommendations to the Board regarding the appointment of external auditors.

(v) Compliance with existing laws and regulations

Review whether the laws and regulations framed by the regulatory authorities (central bank and other statutory

bodies) and internal regulations approved by the Board are being complied with.

(vi) Other responsibilities

- Submit a comprehensive compliance report to the Board on a quarterly basis on regularization of the omission, fraud and forgeries and other irregularities detected by the internal and external auditors and inspectors of regulatory authorities;
- 2. External and internal auditors may submit their related assessment report, if the committee solicits;
- 3. Perform other oversight functions as desired by the Board of Directors and evaluate the committee's own performance on a regular basis.

Audit Committee meetings

The Bank's Board Audit Committee meets once every two months. However, an emergency Board Audit Committee meeting can be called if required. A total of 9 (nine) Audit Committee meetings were held during the year 2017. In addition to regular concerns such as a review of the existing risks and mitigation measures, compliance culture of the management, monitoring the internal audit functions and financial statements, ensuring ontime filing of returns, follow-ups on the findings and recommendations of external as well as Bangladesh Bank inspectors, etc., the following issues were dealt with in detail.

		10.	The management provided the ongoing call center operations project update which will be completed by April, 2018. The management informed that the Statement of Work (SOW), Service Level Agreement (SLA) and Agreement Finalization are expected to be completed by October 30, 2017.

Reporting to the Board

- 1. The Audit Committee regularly reports its activities to the Board of Directors following each meeting.
- The Audit Committee immediately reports to the Board of Directors in case any of the following findings are observed:
 - Report on conflicts of interest;
 - Suspected or presumed fraud or irregularity or material defect in the Bank's internal control system;
 - Suspected infringement of laws, including security related laws, rules and regulations;
 - Any other matters which have to be disclosed to the Board immediately.

In addition, the committee also provides:

- Copies of its meeting minutes to the Board;
- A report annually to the Board/ shareholder;
- Additional reporting, as the Board may require and deem fit.

All members of the Audit Committee appreciate the crucial role the committee plays in helping the Board discharge its overall responsibilities to protect, as far as possible, the long-term success and sustainability of BRAC Bank, by appropriately controlling and managing

risks. We do this by monitoring, reviewing and challenging the effectiveness of controls and processes in areas such as financial reporting, risk management, business continuity and business assurance, on critical topics like cyber security and fraud and forgery. The committee also monitors and reviews the appointment of external auditors, the nature and scope of their work and their independence and effectiveness. It is vital that we, as a committee, assess the processes and systems that make our institution more effective, robust and sustainable in the long-term, while preserving and fostering agility, adaptability and growth.

Our priorities for the year ahead

During 2018, the committee expects to continue to focus on the integrity of the financial controls, risk management systems and robustness of the Company's cyber security arrangements, to ensure they reflect the evolving risks of our high-growth business. The security of our customer data will be a key focus in the financial year ahead and this will be regularly monitored by the committee. The committee also intends to oversee the governance function of the various ongoing business transformation projects to ensure that these are appropriately managed and sequenced, both from an individual perspective and holistically.

Human Capital and Human Resource Accounting

Going forward, the bank's success will depend, in part, on its ability to retain, motivate, develop and continue to attract talents with the right skills and experience to help the bank ride over the challenges of the future on one hand and make the most of the available opportunities on the other.

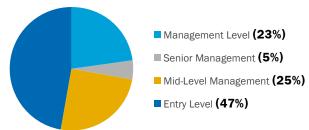

BRAC Bank: Employer of choice

Given the rapid pace of change and the constant pressure to adapt, at BRAC Bank, we have identified building the organization of the future as the most important challenge of 2017. Agility will play a central role in the organization of the future, as companies race to replace structural hierarchies with teams empowered to take decisions and action. Accordingly, in 2017, BRAC Bank's Human Resources Division emphasized four major areas to sustain the growth momentum.

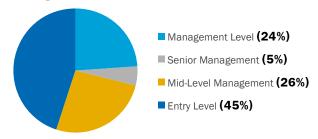

- Talent acquisition
- Training and development
- Talent retention
- Employee engagement

To keep pace with the business growth, we have expanded our human capital base in 2017 by 8%.

Workforce composition by management level 2017

Workforce composition by management level 2016

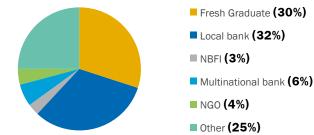

Most of the new recruitments have been made at the field-level. The staff ratio between employees at the head office and those on the field is 18:82. The average age remains the same at 34 years, as in 2016. However, the average experience has increased to 4.12 years from 3.87 years in 2017.

Talent acquisition

In today's transparent digital world, an organization's brand must be both highly visible as well as highly attractive because candidates now often find the employer and not the other way round. To leverage this interest, organizations are emphasizing on managing their corporate brand and employment quotient, which can attract candidates toward them.

In this context, our talent strategy aims to ensure that we attract and appoint candidates with the right skills, knowledge, behavioral expectations and experience to meet the needs of our business strategies.

Recruitment sources 2017

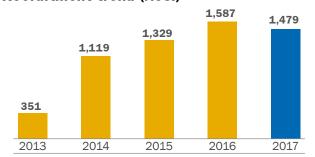

Our focus:

- Build our talent pipeline by having employees with the right mix of educational qualifications, background and experience
- Engage in lateral recruitment from relevant areas to assist in capacity enhancement
- Revamp our management trainee program to inject high-quality talent, especially for leadership roles
- Recruit young professionals and junior professionals to broad-base the talent pipeline

- Have a more structured approach in online recruitment by ensuring transparency and wider coverage
- Ensure special focus on local recruitment to increase regional productivity

Performance-based rewards

BRAC Bank believes in a performance-driven compensation policy that has emerged as one of the main tools for attracting, motivating and retaining top talent that is crucial to running the organisation successfully. At the bank, we continue to adopt flexible goal management while ensuring continuous feedback with the adoption of new models of evaluation and rewards.

Our aim is to develop a motivated, inspired and committed team that will consistently thrive and deliver to achieve our organizational goals and aspirations. For this, our compensation and reward structures are regularly reviewed and altered as needed, within a sound risk management and governance framework and with due consideration of market factors and societal values.

Employee remuneration:

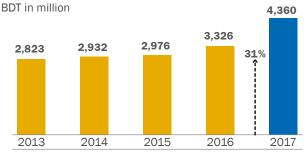

The Remuneration Committee, consisting of the following position-holders, periodically reviews, takes decision or escalates to the Board for amendments as they see appropriate:

- 1. CEO & Managing Director
- 2. Deputy Managing Director & CFO
- Deputy Managing Director & CRO
- 4. Head of Human Resources
- 5. Business Heads

Driven by performance and the sense of meritocracy, BRAC Bank has established a close link between employee compensation and their performance and behaviour across all levels. This takes into cognizance an array of factors including, but not limited to, the bank's overall performance, divisional performance, the employee's individual performance and his/her efforts and contribution to uphold the bank's core values at all times.

In alignment with regulatory requirements, both managers and employees mutually agree that they have thoroughly reviewed and considered all relevant performance and risk metrics and other guidance relevant to their specific areas of work during performance appraisal. In addition, managers may be required to explain how the compensation parameters (both quantitative and qualitative) have influenced their decision.

Training and Development

At BRAC Bank, people are our primary asset. Over the last few years, the bank has invested heavily in order to enhance employee recognition for their talent and performance and valued their contribution. We believe that nurturing employee talent is the only way to get the best out of them.

Training programs strengthen knowledge and awareness of leadership. BRAC Bank recognizes the contribution of training towards enhancing efficiency and profitability. The bank's training policy applies to all employees and aims at ensuring that appropriate training is imparted to enable individuals to reach satisfactory performance levels.

In 2017, as in the past, the bank has invested significantly to upskill its human resources through organising multiple internal, external as well as foreign training programs. Several types of well-articulated orientation programs are also in place for new recruits in business and support divisions, according to their job requirements.

Figure: Key training programs, 2017

A record number of 1,087 programs were arranged in 2017. A total of 7,387 full-time and outsourced employees received a cumulative 292,478 hours of classroom training. Apart from this, we also organized several distant learning programs through e-learning and tele-learning throughout the year. The HR division also took initiatives to conduct several trainings for different stakeholders for strengthening relationships and building trust. For instance, Additional Superintendent of Bangladesh Police, Sajida Foundation and our trade customers are some of the notable examples for whom we organised awareness programs as we assisted them in their journey of continuous learning.

We also signed a partnership agreement with Bangladesh Institute of Bank Management (BIBM) under which we will be a partner for their key banking publications. This is the first such initiative where BIBM has joined hands with a bank.

Partnership with BIBM

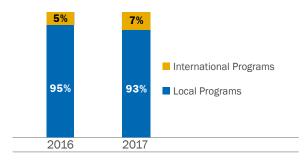

Some of the key initiatives taken for learning and development in 2017 include the following:

- Organized large-scale programs on banking foundation, sales, service quality, Finacle, AML and gender diversity
- Installation of new state-of-the art computer lab for Finacle core banking training
- Increased the number of local programs instead of foreign programs for covering a larger number of participants
- Introduced Bangla-speaking foreign trainers for soft skills enhancement
- Introduced accommodation facility in Dhaka for our training participants for their convenience

Additional Superintendent of Police (Bangladesh) received training on 'Cyber Security & Financial Crimes in Contemporary Banking System' by BRAC Bank Resources

Training and development expense distribution

In 2017, one of our core focus areas was to provide extensive training on our upgraded core banking software and Oracle ERP as both the systems are getting ready to be operational within the next few months. Around 2,500 employees who are direct users were trained in the software. We expect that the combined training imparted to the stakeholders will make the rollout a grand success, which will eventually take our bank to the next level of efficiency and to the next level of performance.

Jointly organized a workshop on 'International Trade: Associated Risks, Customs, VAT & Taxation Law' with BIBM, arranged for various external stakeholders

Award ceremony for top scorers in the banking foundation course

Agreement signing ceremony with BRAC Leadership Academy for organizing training on gender equity

Employee engagement

Throughout 2017, the bank arranged a number of events, including town halls, employee birthday celebrations, family day, picnics, iftar party, pitha utshab, Dour, children's art competitions, Pohela Boishakh celebrations and sports events that help in creating stronger employee bonding and engagement. The bank also arranged various employee engagement programs, including team-building sessions that enhance employee alignment and the sense of ownership towards the bank's objectives while building a collaborative environment that respects teamwork and fellowship.

Human capital risks

Human capital risks can be defined as events and employee behaviors that occur both within and outside the workplace that can affect employee productivity and/or otherwise affect the organization's operational and financial results.

Human capital risks include:

- Failure to attract appropriate candidates
- Selection of the wrong person
- Undesirable turnover
- Absenteeism
- Unsatisfactory performance
- · Accident/injury
- Legal compliance issues
- Fraud
- Loss of knowledge due to attrition

Shifting demographics, globalization and the allpervasive nature of technology are significantly altering the mix and location of the talent available in the industry. Despite high levels of unemployment, employers are struggling to find employees with the right skill sets.

To mitigate the above challenges, BRAC Bank's HR function has made significant progress in 2017 through embracing various activities, starting from

talent acquisition and retention to development and disciplinary processes.

Having a clear policy and framework also ensures the development of proper incentive and reward structures that reinforce the bank's culture. This also guarantees that employees are paid for sustainable performance within a sound risk management and governance framework and with due consideration of market factors.

Human resource accounting

Human resource accounting (HRA) involves accounting for a company's management and employees as 'human assets' or capital that provide future benefits.

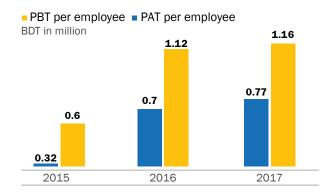

Based on empirical research, BRAC Bank can be considered to be a pioneer in making human resource disclosures due to its capitalization in capital market, profitability, the sector in which it operates, its length of listing on the stock exchanges and its shareholding structure.

In principal, the following variables are considered for HRA:

- 1. Total value of human resources
- 2. Number of employees
- 3. Human resource policy
- 4. Training and development
- 5. Management succession planning
- 6. Employee categories
- 7. Employee benefits
- 8. Performance recognition

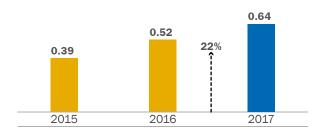

In 2017, the total number of full-time employees stood at 6,835. If per employee productivity is considered, it can be seen that operating cost per employee has increased by 33%, while operating profit per employee has increased by a much sharper 48% over the last two years. Operating income, profit before tax and profit after tax per employee has also increased.

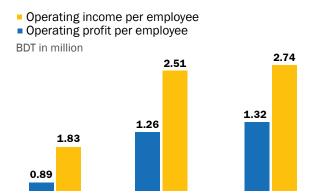

Throughout 2017, the bank arranged a number of events, including town halls, employee birthday celebrations, family day, picnics, iftar party, pitha utshab, Dour, children's art competitions, Pohela Boishakh celebrations and sports events that help in creating stronger employee bonding and engagement.

Conclusion

Going forward, the bank's success will depend, in part, on its ability to retain, motivate, develop and continue to attract talents with the right skills and experience to help the bank ride over the challenges of the future on the one hand and make the most of the available opportunities on the other. Automation will continue to reshape the workforce now and well into the future.

As a control function, the role of HR has changed in the recent years. More than ever before, it operates in partnership with the senior management and all business divisions and infrastructure functions. Key to this role has been its continued focus on bringing the bank's values and beliefs to the fore through enunciating a long-term vision for the HR function and specific commitments underpinning this vision.

Statements of Board Audit Committee

The Board Audit Committee (BAC) of BRAC Bank gets reasonable assurance from its independent internal audit teams that the strategic objectives as set by Board are worked upon in the form of operational efficiency, integrity in financial and non-financial information and compliance with applicable laws and regulations.

Statement on Audit Committee's oversight role in maintaining a well integrated internal control in the bank

The Board Audit Committee (BAC) of BRAC Bank gets reasonable assurance from its independent internal audit teams that the strategic objectives as set by Board are worked upon in the form of operational efficiency, integrity in financial and non-financial information and compliance with applicable laws and regulations. Considering the establishment of compliance culture and awareness of operations level staff of their respective responsibilities as the cornerstone to achieve the objective, oversight role of BAC ranges from placing constructive recommendations in regularizing control weakness to endorsing appropriate disciplinary actions in case of deviation from policies and procedures.

The BAC during 2017 had 09 meetings held to review summary reports on internal audits, monitoring, investigations, surprise/spot inspections, regulatory inspections and statutory audit. The committee through review of those reports, took particular attention to process level lapses, deployment of appropriate resources to enforce controls, ethical breaches and absence or insufficiency of specific policies articulating directive controls. Through discussion of relevant stakeholders, the BAC came up with constructive recommendations to address the root cause and regularize the discrepancies with follow-up in subsequent meetings of the BAC.

Statement on Audit Committee's role in ensuring compliance with applicable laws and regulations

As regulatory compliance depends to a great deal on communications to and awareness of concerned officials, Board Audit Committee (BAC) of BRAC Bank assess the awareness level on compliance requirements through their periodic review of internal audit reports and recommends shuffle in placement or training of human resources as applicable. Moreover, as per direction of regulators stipulated in relevant regulatory guidelines, internal policies are reviewed by the BAC prior

to their adoption or update to ensure their conformity with regulatory guidelines. The BAC is regularly briefed by Internal Control & Compliance Division (ICCD) on changes in regulatory requirements.

Statement on Audit Committee's supervisory role in facilitation of statutory audit:

Considering the fact that integrity in financial reporting is prerequisite to earn credibility from stakeholders and ensure sustainability of BRAC Bank as a going concern, Board Audit Committee (BAC) of the bank pays special attention in facilitation of independent, objective, credible and prudent statutory audit service. As part of that, the BAC during 2017 carried out the following agenda:

- Reviewed the expression of interests forwarded by statutory auditors, assessed capability and confirmed that the statutory auditor selected did not have any conflict of interest
- Reviewed performance of external auditor
- Reviewed the management letter forwarded by the statutory auditor along with the management response provided against them
- Recommended appointment/re-appointment of statutory auditor(s)

Statement on Audit Committee's activity to ensure integrity in financial reporting and associated disclosures

With a view to performing the oversight role of ensuring integrity in financial reporting and disclosure process, the Board Audit Committee (BAC) of BRAC Bank plays a pivotal role of adopting appropriate financial reporting standards and to ensure consistency in application of the same in periodic financial reporting. In doing so, the BAC during 2017 carried out the following tasks:

 Reviewed the quarterly, semi-annual and annual financial statements and determined their

completeness, accuracy and consistency with accounting standards set or recommended by the regulatory authority

- Reviewed issues with potential impact on the integrity of financial reporting and other non-financial disclosures. Escalated through the summary reports on internal audits, monitoring, investigations, surprise/spot inspections, regulatory inspections and statutory audit; they ranged from discussion on input, processing and output control in regard to management information to specific fraud or irregularities in recording banking operations
- Reviewed financial statements along with statutory auditors and regulatory inspection team in tripartite meeting prior to finalization
- Reviewed statement on significant related party transactions forwarded by management
- Monitored operations of the bank in line with predetermined budget through internal audit reports, discussed the root cause of deviation and made constructive recommendations to incorporate appropriate controls in place.

Apart from that, the Board Audit Committee (BAC) of the bank reviewed reports on fraud and forgery surfaced among others by internal auditor, statutory auditor and regulatory inspection team. Using its discretion, the BAC advised carrying out critical investigations, process/policy review, evaluation of operations etc. Through the aforementioned activities, the Board Audit Committee (BAC) of the bank effectively carried out its role as bestowed by the regulator during the year 2017.

Capital Plan

Capital planning is a dynamic and ongoing process that, in order to be effective, must be forward-looking in incorporating changes in a bank's strategic focus, risk tolerance levels, business plans, operating environment, or other factors that materially affect capital adequacy.

1. Regulatory Standpoint:

Capital management in a bank usually refers to implementing measures aimed at maintaining adequate capital, assessing internal capital adequacy of the bank and calculating its capital adequacy ratio. It is gaining increasing importance around the world, as reflected from taking several reform initiatives and changes in the prudential requirements undertaken by banks in different countries in line with the reform measures proposed by the Basel Committee on Banking Supervision. Risk management is increasingly becoming difficult to separate from capital management. Most banking risks can be quantified as numerical indicators, and this quantification naturally leads to the principle that increased capital can be held to cover unexpected losses at a certain confidence level.

The followings indicate the relationship between Risk Management and Capital requirement:

- Capital management helps to ensure that the bank has sufficient capital to cover the risks associated with its activities;
- As part of the internal capital adequacy assessment process (ICAAP), management identifies the risks that the bank is exposed to, and determines the means by which they will be mitigated
- c) Capital is used to cover some of these risks, and the remainder of these risks is mitigated by means of collateral or other credit enhancements, contingency planning, additional reserves and valuation allowances, and other mechanisms.

Capital planning is a dynamic and ongoing process that, in order to be effective, must be forward-looking in incorporating changes in a bank's strategic focus, risk tolerance levels, business plans, operating environment, or other factors that materially affect capital adequacy. Capital planning assists the bank's Board of Directors and senior management to:

- Identify risks, improve their understanding of the Bank's overall risks and set risk tolerance levels
- b. Assess strategic choices in longer-term planning
- c. Identify vulnerabilities, such as concentrations and assess their impact on capital
- d. Integrate business strategy, risk management, capital and liquidity planning decisions, including due diligence for a merger or acquisition and
- e. Have a forward-looking assessment of the Bank's capital needs, including capital needs that may arise from rapid changes in the economic and financial environment

The most effective capital planning considers both short-term and long-term capital needs and is coordinated with a bank's overall strategy and planning cycles, usually with a forecast horizon of at least five years. Banks need to factor events that occur outside of the normal capital planning cycle into the capital planning process; for example, a natural disaster could have a major impact on future capital needs.

The capital planning process should be tailored to the overall risk, complexity, and corporate structure of the Bank. The Bank's range of business activities, overall risks and operating environment have a significant impact on the level of detail needed in a bank's capital planning. A more complex institution with higher overall risk is expected to have a more detailed planning process than an institution with less complex operations and lower risks. While the exact content, extent, and depth of the capital planning process may vary, an effective capital planning process includes the following components:

- Identifying and evaluating risks
- Setting and assessing capital adequacy goals that relate to risk
- Maintaining a strategy to ensure capital adequacy and contingency planning

 Ensuring integrity in the internal capital planning process and capital adequacy assessments

2. BRAC Bank's Philosophy:

We devised and established our own capital management mechanism strictly aligned with the regulatory requirements and as per Basel guidelines, to calculate the capital adequacy ratio and secure adequate capital to cover the risks we face from the standpoint of ensuring soundness and appropriateness of the our businesses. While doing so, the Board of Directors and Senior Management actively take part and help define the goals of capital management such that capital levels always exceed BB's requirements. We strive to ensure capital levels are aligned with the risks in the business and consistent with the strategic plan. And capital levels maintain an appropriate balance between maximizing shareholder returns and protecting the interests of depositors and other creditors. The stressed scenarios also taken into account as they are indications of future adversities. While we also consider capital position in determining our risk appetite, preemptive measure are taken so that there is no short fall in any given point in

The results of capital management are;

- A Capital Plan that meets the needs of the Bank over a five -year time horizon
- An ICAAP that determines precise levels of required capital according to the measures of balance sheet capital and regulatory capital (Tier 1 and Tier 2)
- A process to regularly compare available capital with current and projected solvency needs, and address deficiencies in a timely manner.
- Stressed scenario can be managed better.

Our approach to capital management is driven by our strategic objectives whilst ensuring that the regulatory requirements, capital targets and risk appetite are met at all times across BRAC Bank. While planning for adequate capital we consider multiple factors. Starting from business expansion till spreading of network, a thorough cost- benefit analysis is conducted on regular periodicity. As such, BRAC Bank proactively manages its capital position, capital mix and capital allocation to meet the expectations of key stakeholders such as regulators, shareholders, investors, rating agencies and analysts whilst nursing that the return on capital commensurate with risks undertaken by respective business units and subsidiaries.

3. Capital Management Framework:

The framework must ensure apt measures are taken for capital adequacy in accordance with corporate management plans and capital plans, etc. and changes in external environment, including the economic cycle are monitored properly. There should be a mechanism to conduct sufficient analysis and deliberations in order to maintain a sufficient level of capital, based on the results of monitoring of the status of the internal environment (risk profile, status of use of the risk limits, etc.) and external environment (economic cycle, market, etc.). The framework must be able to identify risks faced by the bank exhaustively on a category by category basis and able to specify the risks to be subjected to capital management in the ICAAP in light of the size and nature of the identified risks. And certainly the framework should be able to assess capital adequacy in a manner befitting the scale and nature of the financial institution's business and its risk profile by taking into consideration the following items:

- Suitability of the quality of capital to the internal capital adequacy assessment
- The validity of the ICAAP
- The limitations and weaknesses of the risk assessment method taken
- The conduct of internal capital adequacy assessment in light of two or more stress scenarios and based on the analysis of the level of the impact thereof on the capital
- The stress scenarios should give due consideration to all material risks that would seriously affect capital adequacy in the medium and long term
- The lack or excess of loan loss provisions against expected losses

4. Annual Capital Plan:

The Annual Capital Plan involves detailed planning of the Bank's strategic capital plan over a five-year horizon period. The plan should highlight the capital projections, capital requirements, levels of capital and capital mix to support the Bank's business plan and strategic objective. BRAC Bank places strong emphasis on the quality of its capital in order to continue meeting the minimum regulatory requirements and support business growth and risks undertaken. We hold a significant amount of its capital in the form of common equity which is permanent and has the highest loss absorption capability ongoing

concern basis. In addition to common equity, we also maintain other types of capital instruments such as Subordinated Debts in order to optimize capital mix and reduce overall costs of capital. Upon giving due treatment to deferred tax asset, general provision,

goodwill and other regulatory adjustments, our capital base has always been in a strong standing. Hence, the phase-in transition of Basel III can be accommodated smoothly.

Stakeholders and Materiality

Stakeholder Identification

Identification of stakeholders is the key to understanding their expectations out of the Company and, as such, helps pave the way towards fulfilling those expectations and delivering consistent value. The stakeholder ecosystem of BRAC Bank can be broadly divided into two categories: the core stakeholder group comprising shareholders, customers, suppliers and employees and the other stakeholders including regulators, the local community and the environmentally-interested groups.

Engagement with Stakeholders

BRAC Bank's holistic stakeholder engagement process comprises a three-pronged sustainability dimension that includes economic, social and environmental. In this context, key stakeholders are categorised under these three dimensions and the sustainable business objectives are identified by mapping co-related stakeholder expectations. By assessing these objectives on a comprehensive basis, BRAC Bank has been able to formulate strategies through aligning the business model with the value creation process that eventually targets and fulfils stakeholder expectations. This framework is summarized below:

Sustainability dimension	Key target stakeholders	Sustainable business objectives	BRAC Bank's intervention
Economic	Shareholders	Value maximization by declaring sustainable annual dividends	 Being focused on our core banking activities Forward-planning and aggressive opportunities identification Continuing to uphold sound governance practices
			 Managing and effectively controlling risk Reinforcing internal controls and compliances
	Customers	 Provide relevant and high-quality products/services that accurately meet customer needs Managing the operations judiciously and with conservatism with the overarching intent of protecting customer interests, especially those of depositors 	compliances Reaching out to customers by widening our geographic footprint in terms of establishing a larger number of branches and SME centres Transforming existing branches/ unit offices to cater to diversified customer requirements Continuously innovating new products and operational processes for reinforcing customer benefit
	Suppliers/ Service providers	Adhere to the well-defined procurement regulations while maintaining strong business relationships with service providers	Embracing the bank's internal procurement policy and consistently updating the policy to ensure stronger controls with fair treatment to suppliers
	Regulators	Ensure full compliance with all regulatory guidelines and directives	 Following processes, practices and controls to ensure compliance with all the applicable rules and regulations imposed by local and international laws and regulations Providing timely and up-to-date information to the regulators in the event of any material development/s

Sustainability dimension	Key target stakeholders	Sustainable business objectives	BRAC Bank's intervention
Social	Employees	 Continuously encouraging employees and working towards creating a healthy, ethical, supportive and collaborative work environment 	 Engaging employees in team-building and other outdoor activities, a prime example being 'Dour', the well- attended marathon organised by BRAC Bank every year
		 Nurturing human capital for our employees to realise their full potential – both professionally and personally 	
	Local communities	 Staying true to our philosophy of adding value to the society Conducting our business in a manner in which we do not cause any disruptions to the society Investing our ideas, time and resources in community development and uplift 	 Adding value to the society by being a responsible and transparent corporate citizen and an example of a socially-aware institution in the country's banking industry
Environmental	Environmentally- interested groups/non- government organizations	 Conducting our business in harmony with the environment Propagating a culture in which our stakeholders, especially employees, are deeply aware of the importance of environmental preservation and sustenance 	 Actively implementing green banking practices and ensuring the highest levels of compliance through 'Green Reporting' to the Bangladesh Bank Emphasizing on the conservation of precious natural resources that include paper, water and energy

In consideration of the above, BRAC Bank has actively engaged with regulators, the management and employees to identify their preferences, concerns and expectations from BRAC Bank.

Stakeholders engaged	Engagement process	Key issues raised by stakeholders
Regulators	One-on-one meetings	Relationship-building
	 Adhering to all local regulations Adhering to circulars issued by Bangladesh Bank on Green Banking and CSR 	spirit
Management	Ongoing discussions	Corporate governance, ethics and compliance
		Anti-corruption measures implemented by the organisation
		Superior customer experience through continuous improvement
Employees	Ongoing discussions	Transport facilities

Sustainability Reporting

BRAC Bank's report to society

01. Why a report to society?

At BRAC Bank, we recognise that we have a diverse set of stakeholders with different information needs. We seek to balance these needs with our regulatory requirements by preparing a number of chapters in our Integrated Annual Report 2017 for shareholders. The report provides a holistic assessment of how our strategy, governance, performance and prospects create value over time.

This report, BRAC Bank's report to society, has been inclusively created for a broader set of stakeholders. It aims to communicate, in a concise and accessible way, how we create shared value. Our focus is on the material issues that affect our stakeholders and our ability to deliver on our purpose of pursuing profitability for sustainable value creation.

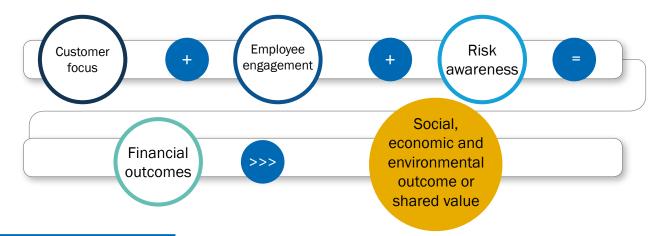

This philosophy is central to our ability to create extended value as we focus on leveraging our core banking expertise to drive commercial value that enables us to extend value creation at the broader level. As a banking

institution of repute, we are deeply cognizant of our responsibility to the society and have, in an industry first, created an exclusive chapter on our report to society. This not only reflects the importance that we place on societal value creation but also showcases our intent on reporting that goes beyond the realms of statutory disclosures or those mandated by regulations.

02. Our shared value

BRAC Bank takes pride in playing a leading role in providing banking services to create positive economic, social and environmental impact. As a values-based bank, BRAC Bank believes in the all-encompassing '3P' philosophy (people, planet and profit). This philosophy is enshrined in our shared values that emphasizes on our need to measure value that goes beyond the measurement of financial outcomes. This is the basic premise for our ability to continue as a successful and sustainable business.

Our shared value is defined by our strategic value drivers that enable us to realize our sustainable and holistic value creation aspirations.

03. Message from our leadership

Welcome to BRAC Bank's report to society. The creation of this specific report, perhaps the first such reporting in Bangladesh, is a reflection of our growing commitment to the holistic well-being of the country. Importantly, this report takes into cognizance the criticality of shared value creation, leveraging the bank's prominent status and overarching reach across our home country of Bangladesh.

BRAC Bank's social, economic and environmental initiatives are anchored on collaborative partnerships that seek to create a high impact on the areas that need it the most. Our ecosystem of such partnerships is driven by insight and the common objective of ensuring sustainable value creation over one-time or one-off interventions.

Social

The value BRAC Bank creates for the society, as measured by the value created for our employees in areas such as

Fact!

BRAC Bank refrains from financing projects that have a harmful impact on the environment. Moreover, the bank is the first and only in Bangladesh that has launched an energy-efficient loan product, 'Planet Solutions'. With its holistic CSR interventions, the bank continues to make a sustainable and enduring impact on the people and planet.

capacity building and skills development, the shared value our business generates for our customers and clients, and other stakeholders, through deepening financial inclusion, through industrialization and by supporting job creation and our investments in the realm of health and education that benefit communities and future generations.

Economic

The value BRAC Bank creates for its shareholders and, more broadly, for the society, by driving inclusive economic growth and mainstreaming a large swathe of the population into formal banking, by developing and implementing more efficient ways of doing business and through supporting economic growth and development.

Environmental

The value BRAC Bank creates for the natural environment, through businesses we finance or refrain from financing, investments towards decarbonizing the economy and any other environmental degradation and by helping our customers to reduce and mitigate the impact of climate change.

05. Creating shared value for Bangladesh

Overview

Bangladesh has achieved substantial progress in mass literacy and public health, reduction in population growth and enhanced self-employment support for the rural poor. The country has made primary education compulsory and offers free education for the first eight years of schooling to female students. The strong governmental commitment to primary education and to gender equality means that three out of four girls now avail of primary education.

In the area of health, over 80% of the country's children are immunized against the six 'killer' diseases. Infant mortality has also declined significantly.

The increased inclusion of women in poverty alleviation programmes, as well as in Bangladesh's dominant readymade garments sector (which provides jobs to more than 3 million women), has helped create holistic awareness on women's issues.

According to the Centre for Policy Dialogue, poverty levels in the country have reduced in absolute levels. However, concurrent to this trend is that the ratio of income of the top 5% and the bottom 5% households has widened to 121.3 in 2016 from 31.6 in 2010. Wealth inequality is stark. Hence, it is evident that in spite of the social progress, the country needs focused and high-impact interventions in education, healthcare, disaster management and social welfare activities to help bridge the inequality gap and ensure that poverty is also reduced through the provision of basic necessities.

Our primary objective:

Drive holistic and inclusive growth of Bangladesh, our home country.

At BRAC Bank, our strategy is centered on our commitment to our home country and directs our growth for the shared benefit of our clients, our people and all our stakeholders. It drives us to lead with purpose, to build a better business and to position ourselves sustainably for the future.

06. Doing business the right way

At BRAC Bank, our values and code of ethics provide the framework for doing business the right way and building trust with our stakeholders through our valuesbased behaviour.

At BRAC Bank, our code of ethics is in line with globallyrecognised anti-corruption and corporate governance principles and practices.

Our employee training and engagement programmes place rigorous emphasis on assessing behaviour, in line with our ethics and values, which ultimately influences how our employees are rewarded.

The 10 tenets of our code of ethics

- 1. Treating customers fairly while raising awareness about our banking products and solutions
- 2. Providing safe and secure banking facilities
- 3. Offering professional development and career advancement opportunities to our employees
- 4. Upholding meritocracy without any sort of bias
- 5. Focusing on long-term results for sustainable

shareholder value creation

- Adhering to transparency in corporate governance with timely and accurate disclosure of material events
- 7. Rewarding innovation while placing a strong emphasis on working in unity
- 8. Combating unethical activities with speed and surety
- 9. Driving change to stay ahead of our competitors
- 10. Staying true to our legacy of holistic societal value creation

Shared value creation - Social

As a values-based bank that is committed to sustainable banking, corporate social responsibility (CSR) is

embedded as an integral part of BRAC Bank's core value system and culture. As an institution that has embraced a holistic approach to sustainability, the bank follows the '3P' concept of 'people, planet and profit' under the ambit of its CSR aspirations and goals. The bank strongly emphasizes on high-impact, low-cost initiatives that together support people, the society at large as well as protect the planet.

In the larger purpose of pursuing our social responsibility and aligned with our brand promise of promoting 'Unshakable trust', BRAC Bank supports initiatives that help realize and unleash the resident potential of people, societies and the planet.

Importantly, BRAC Bank prioritizes long-term programs that have sustainable and enduring impact. With a view to ensure widespread participation and raise awareness, our social programs actively seek employees to contribute to the bank's social portfolio. Moreover, the passionate involvement of our employees in our CSR programs, such as fundraiser marathons, Rohingya refugee rehabilitation and distribution of food and warm clothes to flood victims, add a new dimension to the bank's social commitment and responsibility.

Shared value creation - Environmental

Bangladesh Bank has taken steps to foster the green banking business in Bangladesh through issuing guidelines on green banking and Environmental & Social Risk Management (ESRM).

BRAC Bank refrains from financing projects that are considered to be harmful to the environment and the society, i.e. tobacco, textiles and garments without ETP (effluent treatment plant), ship-breaking, etc. Concurrently, the bank is also committed to reducing its carbon footprint. In our bid to protect the environment, we also actively promote paperless banking through e-commerce and other alternate banking channels. Moreover, the bank prioritizes solar energy, bio-gas and ETP projects, among others.

BRAC Bank has always considered its role as an environmentally-aware bank and has been active throughout the year 2017 and will remain to do so in the future too.

BRAC Bank allocates majority of its CSR budget in education. For the last couple of years, the bank spent 60% of its CSR budget in education. Education is the one sector the country is lagging behind. There is significant dropout after primary education and college level, dropout is alarming. Although female students get free education up to college level, cannot continue due to family pressure and childhood marriage. In this reality, BRAC Bank plans to invest in education from its CSR funds, especially for female students.

Our robust CSR initiatives have positively impacted a number of lives, as depicted in the illustration below.

Education

Unleashing student potential to create the future of the society: BRAC Bank - Prothom Alo Trust Scholarship

'BRAC Bank - Prothom Alo Trust Adamya Medhabi Scholarship' was introduced in 2010 to assist meritorious students of underprivileged families to fulfill their higher education pursuits. Today, a large number of students, especially in the rural parts of Bangladesh, have to dropout of studies on account of financial challenges.

With a view to ensure that such children are able to sustain their education, as also ensuring literacy, especially among the grassroots, BRAC Bank stands by these students during the course of their entire academic life. With our scholarship programs, many students are now studying in reputed engineering universities, medical colleges and other institutes. A total of 700 students have so far availed the scholarship. Each year,

50 meritorious students from disadvantaged families who achieve GPA 5 at SSC level receive the scholarship for onward HSC study. Among those who are given the scholarship, students who also repeat GPA 5 at the HSC level get scholarship for graduation.

Aligned with our 3P philosophy of reinforcing the grassroots of the society and ensuring a better future for our communities, BRAC Bank diligently works towards realizing the potential of the youth of the country. Today, the bank is proud to be a part of a far-reaching initiative that enables students to lead a prosperous life, thereby creating awareness on the importance of education in the fabric of the society.

Fulfilling higher education dreams: University of Dhaka scholarships

University of Dhaka is the oldest and highest learning seat of Bangladesh. The university has made remarkable contributions in the field of higher education and research and has produced the brightest students of the country. As a public educational institution, the university provides affordable and accessible higher education. Despite this, there are a number of financially-challenged students who find it difficult to pursue education at the university.

In this context and with a view to fill in this critical need, BRAC Bank initiated a scholarship program for 40 meritorious students of Business Studies Faculty. Hailing from remote parts of the country and from underprivileged backgrounds, students found the scholarship as a substantive intervention in enabling them to fulfill their higher education aspirations in the hope of a better life.

Under education, BRAC Bank invested around BDT 41 mn in 2017 and around BDT 20 mn in 2016.

The BRAC Bank scholarship program covers quality education and promotes gender equality and reduced inequity amidst the participants, aligned with the Sustainable Development Goals (SDGs) of the United Nations.

Inspiring the youth to engage in research and promoting the study of science: Biochemistry Olympiad

As a part of its commitment to enlighten the society, BRAC Bank, in partnership with Dhaka University, has been organizing Biochemistry Olympiad since the year 2009. The overarching objective of the Olympiad is to inspire the young generation to pursue higher studies in the sciences. More than 1,000 SSC/O level and HSC/A level students from all over the country participate in the biggest biosciences events in the country that is held every year in the Dhaka University campus. Importantly, the Olympiad is an initiative for popularizing among the youth higher science education and research that is instrumental for national progress and development.

As a part of its commitment to enlighten the society, BRAC Bank, in partnership with Dhaka University, has been organizing Biochemistry Olympiad since the year 2009. The overarching objective of the Olympiad is to inspire the young generation to pursue higher studies in the sciences.

BRAC Bank puts its trust behind the dreams and aspirations of the young generation to enable them to realize their potential and become active contributors to the society.

Health

Providing a new lease of life to the disabled: Centre for the Rehabilitation of the Paralysed (CRP)

The Centre for the Rehabilitation of the Paralysed (CRP) has emerged as an internationally-renowned organization that serves and rehabilitates people with disabilities. CRP provides medical treatment, rehabilitation and support services focusing on the physical, emotional, social, psychological and economic aspects of the affected. Moreover, it promotes empowerment of the disabled through community-based services, advocacy and networking on disability issues and the empowerment of disabled girls and women.

Since its inception in 1979, CRP has served more than 3.50 lac disabled people and provided them with a new lease of life. BRAC Bank has contributed to the rehabilitation center from its 'DOUR' fund that has created a new hope for people suffering from physical disabilities. The bank is proud to be a partner of this organization.

"CRP and BRAC Group share common values that is serving people and the extended community who are in need of support. We appreciate BRAC Bank's support and with our partnership, we can expand our programs and reach out to more especially-abled people and ensure holistic rehabilitation."

Partnering with the Diabetic Association of Bangladesh

Bangladesh has a disproportionately high diabetic population with more than 7 million adults afflicted by the disease. More importantly, nearly half of the population with diabetes does not know that they have the disease nor do they receive any kind of treatment (Source: https://futurestartup.com/2016/07/27/the-state-of-diabetes-in-bangladesh/).

In this context, the Diabetic Association of Bangladesh has unambiguously stated that no diabetic patient should die untreated, unemployed or unfed in the country. Over the last five decades, the association has become a force to reckon with and has created the largest infrastructure in diabetes care in the country, as envisioned by its legendary founder and its National Professor, Dr. Mohammad Ibrahim.

Diabetic Association of Bangladesh serves over 3.71 million patients through its hospitals and healthcare institutions spread across the country. More than 40% of the patients receive healthcare services almost free of cost or at highly subsidized rates. To support this high-impact institution, BRAC Bank has extended its support to purchase physiotherapy equipment that will provide modern healthcare facilities to patients suffering from neck and back pain.

Enabling the establishment of a burn unit at Chittagong City Corporation Hospital

The Hope Foundation of Bangladesh has indicated that more children in South East Asia die from severe burns than from HIV/AIDS, malaria and respiratory diseases. Specifically, Bangladesh experiences a high volume of burn victims due to the use of open fire pits to cook, heat and light their homes. Moreover, the attire of loose-fitting clothes adds to the danger of this practice.

Even as the number of burn patients is on the rise in the country, cure facilities are scant or insufficient. In Chittagong, there exists only one burn unit at Chittagong Medical College Hospital. Against this backdrop, Chittagong City Corporation undertook a comprehensive plan to set up a well-equipped 10-bed burn unit at City Corporation General Hospital located in Sadarghat. With the new facility, patients with burn injuries, especially those in the lower income group, receive quality treatment at affordable costs.

Helping people to walk again: Moyeen Foundation's Artificial Limb Transplant Camp

BRAC Bank stood by the Moyeen Foundation to provide artificial limbs to the underprivileged, free of cost. With our support, as many as 30 handicapped people have been able to walk again.

Moyeen Foundation has been providing artificial limb fitment services to the underprivileged free of cost for several years now. In 2017, the foundation rehabilitated 700 people by fitting prosthetic limbs in the Artificial Limb Fitment Camp organised at the National Institute of Traumatology and Orthopedic Rehabilitation (NITOR) in Dhaka.

These people are mostly accident victims who have lost their limbs and are unable to walk without the support of crutches. Moreover, they do not have the necessary financial wherewithal to be able to afford an artificial limb transplant. Jaipur Foot of India provides technical assistance to conduct the month-long camp. Fifteen orthopedic doctors of Jaipur Foot work hard to give people the joy of being able to walk again.

Social welfare

Mitigating the plight of Rohingya refugees

Bangladesh welcomed more than 800,000 Rohingya refugees from neighboring Myanmar who took shelter in different camps located in the southeastern parts of the country. This migration has caused a major crisis for Bangladesh and in this critical time, BRAC Bank came forward to stand beside the helpless people. The bank made donations to the Prime Minister's Relief and Welfare Fund to help the government carry out large-scale relief projects and construct shelters in Rohingya camps.

Bringing warmth to those affected by the biting cold every year, BRAC Bank stands beside the less-advantaged people of the society during the intensely cold winters. In 2017, BRAC Bank donated as many as 50,000 blankets to the Prime Minister's Relief and Welfare Fund. Apart from this initiative, employees of BRAC Bank distributed 15,000 blankets to the cold-affected residents of Nilphamari, Kurigram, Khulna and Barguna under the employee initiative of 'DOUR: A Marathon for Humanity'.

Life-time support to valiant freedom fighter, Taramon Bibi Bir Protik

Taramon Bibi fought fearlessly during Bangladesh's 1971 Liberation War, making significant contributions to the country's fight for independence and against injustice. For her selfless and valiant efforts, she was accorded

the prestigious 'Bir Protik' medal as recognition of her supreme bravery in the war as a freedom fighter.

Despite such a background, Taramon Bibi lived a life of anonymity, having to fight against poverty for her survival in her liberated homeland. She was leading a helpless life in a remote village in Northern Bangladesh, almost 350-km from Dhaka. She was gravely ill and required urgent financial support for her own treatment and also for her family.

With this reality, BRAC Bank came forward and decided to provide a monthly support for the rest of her life. She now lives peacefully with dignity and without any financial worries.

Partnering with Asiatic Society for a landmark book on Bangladesh's glorious history

BRAC Bank became a partner of the country's premier research institute, Asiatic Society of Bangladesh, for the publication of a comprehensive book on Bangladesh's history.

BRAC Bank extended support to Asiatic Society to publish a landmark book titled 'History of Bangladesh: Ancient and Medieval'. This book will represent authentic historical documentation and reference for the period before 1704. More than 70 Bangladeshi and other scholars in the subcontinent worked on the publication of this historic book. There will be four volumes in Bangla and as many in English. The book comes as sequel to Asiatic Society's previous work, 'History of Bangladesh', covering the period 1704-1971 that was published in 1992.

As a values-based bank that considers it a privilege to promote Bangladesh's glorious legacy, BRAC Bank always nurtures and promotes art, culture, history and heritage of the country.

Creating public awareness on road safety

BRAC Bank partnered the Tareque Masud Memorial Trust for constructing a Road Safety Awareness Memorial near TSC (road island of Shansunnahar Hall) at Dhaka University.

Conceived and created as a monument to commemorate the tragic loss of Tareque Masud and Mishuk Munier in a deadly car accident in August 2011, the memorial is also dedicated to all victims of road accidents in Bangladesh. The ongoing injuries and loss of life due to the poor condition of the country's transportation network continues to take a drastic toll on the quality of life, the social fabric and the economy at large. The memorial, located in the heart of Dhaka University, is expected to catalyze public awareness, especially among the students, about the unarguable importance of road safety. Renowned artist, Dhali Al Mamoon, and famed architect, Salauddin Ahmed, developed the memorial with the very micro-bus that was involved in the accident that killed Tareque and Mishuk. The memorial was opened to the public in September 2014.

Art and culture

Enriching Bangla literature

BRAC Bank-Samakal Shahitya Puroshkar was launched in 2011 to inspire the writer community in pursuing creative work and to enrich Bangla literature.

The literary award program has generated strong interest and enthusiasm among the writer and reader communities. The award has emerged as a prestigious literary recognition in the cultural circle of the country. BRAC Bank and Samakal will work hand-in-hand to make

In 2017, BRAC Bank donated Tk. 10 lac to the Centre for the Rehabilitation of the Paralysed (CRP), an organisation that provides treatment and rehabilitation support to the disabled. Earlier that winter, a portion of the 'DOUR' funds was utilized to distribute 15,000 blankets to the cold-affected people in Nilphamari, Kurigram, Khulna and Barguna.

this award the most prestigious and coveted literary honor in Bangladesh in the coming years.

Employee CSR initiatives

Fundraiser marathon for humanity

Employees of BRAC Bank participate in a marathon every year to raise funds for supporting important causes. The bank fully matches this amount by making an equal contribution. The funds thus raised are donated to a charity. Started in 2011, this is the first such marathon initiative taken up by a bank in the country and is unique in serving the community.

In 2017, BRAC Bank donated Tk. 10 lac to the Centre for the Rehabilitation of the Paralysed (CRP), an organisation that provides treatment and rehabilitation support to the disabled. Earlier that winter, a portion of the 'DOUR' funds was utilized to distribute 15,000 blankets to the cold-affected people in Nilphamari, Kurigram, Khulna and Barguna.

Employee one-day's salary contribution to flood victims

BRAC Bank employees stood shoulder-to-shoulder beside the thousands of flood-affected people during the devastating floods the swept the country in 2017.

Employees made a contribution of one-day's basic salary to the bank's flood fund. This donation represented a unique and noble humanitarian example that sets BRAC Bank apart from the others in the banking industry. The contribution brought relief to more than 4,000 families who received essential items like rice, onion, potato, pulse, soya bean oil and salt. The distribution was made at 48 locations covering Mymensingh, Netrokona, Jamalpur, Sylhet, Moulvibazar, Sunamganj, Hobiganj, Sirajganj, Dinajpur, Naogaon, Rangpur, Nilphamari, Bogra and Rajshahi districts.

During 2017 too, the bank made a contribution of Tk. 3 crore to the Prime Minister's Relief and Welfare Fund from its CSR fund to assist the flood-displaced people. As a values-based organization, BRAC Bank always responds to the call of humanity and stands beside people in their time of need.

Blood donation to thalassemia patients

In 2017, like every year, BRAC Bank employees donated blood to the Thalassemia Society of Bangladesh. The one-day camp generated as many as 100 pouches of blood that greatly helped patients suffering from thalassemia. Thalassemia is a non-preventable genetically-transmitted disease under which the patient suffers from acute anemia. Usually, the patient will need blood transfusion throughout his/her entire life. The blood donation hence can actually help save a life.

Tuning with Green Office guidelines

BRAC Bank is an environmentally-responsible bank. In line with the institution's 3P philosophy of 'people, planet and profit', the bank has a strong commitment to environmental sustainability. The 3P philosophy is embedded in the bank's DNA and Green Office guidelines have been embraced as a means to foster a cultural shift in our operations, anchored on the spirit of

Reduce, Reuse, Recycle

Today, employees align with the bank's environmental initiatives and commitment and, with a large 8,000-strong -employee base, we are a force to reckon with as far as green sustainability initiatives are concerned. The judicious use of electricity, paper and water comprise the core fundamentals of our Green Office guidelines.

Focusing on maximising the use of daylight, installation of energy-saving bulbs and other light fitments and the use of solar energy are actively encouraged. The bank has mounted energy-efficient bulbs in all its buildings and office premises. Moreover, employees are conscious about paper use even as we have the vision of progressively moving towards a paper-less environment. Moreover, using both sides of a sheet of paper and its reuse is encouraged. Also, the bank is in the process of

installing printers that can automatically print on both sides of a sheet. E-statements and internet banking is promoted among customers.

With a proactive orientation towards saving paper, employees increasingly prefer the digitized format across all forms of internal communication. They also choose to carry out tasks over the e-mail rather than through hard copy. Digitized format is also encouraged in documentation. Employees are also highly conscious of conservation while using electrical equipment and water at the workplace. Motion sensor lights and taps have been placed for energy efficiency.

Fact!

As a means of demonstrating the importance of saving paper, our Board of Directors is provided with a softcopy of Board meeting documents.

Employee benefit

Transport facility for officials

According to our core CSR principles, employees are the closest stakeholders of the company. Hence, they are the key stakeholders where CSR is concerned. With this in mind, BRAC Bank provides a subsidized transport facilitation service (pick and drop facility) for the employees of the bank. This service also goes a long way in ensuring the safety and security of our women employees. Currently, the project is running on pilot basis and the bank plans to eventually extend this facility to all the employees of the bank.

Report on the Going Concern Status of BRAC Bank Limited

Definition of Going Concern:

Going concern is an accounting concept that considers the preparation of financial statements under the going concern concept. It is assumed that a Company will continue in operation and that there is neither the intent nor the need to either liquidate it or to cease trading. It includes bringing together the requirements of Company law, accounting standards and Listing Rules on going concern. The management of BRAC Bank Limited has made this assessment based on the accounting period ended on or after December 31, 2017. The assessment considers appropriate inquiries including review of budgets and future outcome of inherent risks involved in the business while assessing whether we are on going concern basis.

Considering the following, BBL's management has reached the conclusion that the financial statements for the year 2017 should be prepared on going concern basis:

Impressive financial results

The financial results which can easily be seen from the financial highlights at the front of this book shows that we are able to preserve our positioning as a going concern.

Financial support from lenders/depositors

BBL has a good track record in the settlement of its obligation with its lenders/depositors. That is why our total deposit has increased by 16%.

Dividend payment

BBL is paying healthy returns to its shareholders over the

years. We have declared stock dividend of 25% for the year 2017.

Sincerity in payment of obligations

BBL is sincere in payments of its obligations to lenders. We have always being credible in the terms of loan and other agreements and have never defaulted.

Growing business portfolio

Our portfolio of good clients is increasing which shows our intensity of doing ethical business. At the same time we are de-risking our portfolio.

Human Capital

BBL has invested significantly to train its human resources. We are also hiring the best people in the industry so that a momentum can be achieved to become the best bank. In 2017 we have recruited 1,479 talented employees and have provided a total of 292,401 hours of training which is 14% more than 2016.

Corporate environment and Employee Satisfaction

Our employees are our core asset. And ensuring a healthy work life balance is our responsibility. Our office environment is also kept corporate to increase efficiency and satisfaction. This is reflected in our Human Capital section.

Changes in government policy

The management of BBL anticipates no significant changes in legislation or government policy, which may materially affect the business of the Company.

From the Desk of the Chief Risk Officer

The strength of our risk management processes and practices is reflected in the fact that BRAC Bank maintained a steady pace in portfolio growth in 2017, despite rising external challenges facing the industry as well as specific challenges confronting the sector.

Risk is inherent in Banking Business

Risk-taking is an inherent element of the banking business whereby profits are in part, the reward for successful risk taking in business. On the other hand, excessive and poorly managed risk can lead to loss and thus jeopardize the safety of the depositors. Risks are considered warranted only when they are preemptively identified, appropriately measured & effectively managed taking into account bank's capacity to endure the adverse results. Sound risk management framework enables managers to take risks knowingly, devise mitigation plan appropriately and strategize business through a driveway to better prepare for future uncertainties. Risk management in banking has been transformed over the past decade, largely in response to regulations that emerged from the global financial crisis and the fines levied in its wake. To cope up with the ever dynamic nature of risk and to make the bank's capital shock absorbent 'Guidelines on Risk Based Capital Adequacy (RBCA) for banks' (in line with Basel II) was introduced by the Central Bank on January 01, 2009. However, important trends are afoot that suggests risk management will experience even more sweeping changes in the next decade.

Basel III reforms are the response of Basel Committee on Banking Supervision (BCBS) to improve the banking sector's ability to absorb shocks arising from financial and economic stress, thus reducing the risk of spillover from the financial sector to the real economy. Basel III reforms strengthened the bank-level i.e. micro prudential regulation, with the intention to raise the resilience of individual banking institutions in periods of stress. Besides, the reforms have a macro prudential focus also, addressing system wide risks, which can build up across the banking sector, as well as the pro-cyclical amplification of these risks over time.

Risks in Economic Outlook

The Bangladesh economy has undergone major transformation over the past two decades. This change has been spearheaded by the rapid expansion of the garment industry, which has helped reduce poverty and raise the employment of women. The result has been a sustained increase in per capita income. It is important to recognize that Bangladesh is making important progress toward its goal of graduation to middle-income status. Our country also stands out in terms of development indicators. The economic resilience enabled the country's GDP to grow by 7.28% for the financial year 2016-17 with per capita income rising

from \$1,602 to \$1,610 during the year 2017. Poverty has been nearly halved since 1990. Inequality remains low and stable, defying the regional trend. We also stood out among low-income countries in terms of life expectancy, child mortality, and access to water and sanitation. In addition, there has been a good progress on financial inclusion. This includes efforts to enhance access and usage of financial services.

Albeit the positive performances as stated above, number of macroeconomic indicators has popped up alarm bells – to name a few:

- Country's food inflation increased from 5.38% (December, 2016) to 7.13% (December, 2017) triggered by decline in Rice production in the country forcing the Government to import huge amount of rice coupled with international oil price hike by as much as nearly 52%.
- Country's trade deficit widened by 96.10% as yearon-year basis to USD 7.60 billion.
- Imports rose 27.57% year-on-year, while exports grew 7.65%.
- Remittance dropped to six years' low to USD 13.53 billion in 2017.
- Liquidity crisis refueled with the increase of private sector credit growth exceeding targeted growth.
 Rising volume of default loans of the banking sector which are not returning back into the country's financial system neither is generating income to add value to it – is one of the major reasons for the liquidity issue as well. Nevertheless, Government's spending dependency on funds from Sanchay Patra has substantiated the phenomena.
- BDT depreciated by 5.15 percent against the US dollar (\$) during the last one year despite selling of the greenback by the central bank to keep the foreign exchange (forex) market stable.

In this backdrop, Bank's stepping forward must be cautious, prudent & aligned with macroeconomic outlook.

Risks in the Financial Sector

The financial sector of the country witnessed number of challenges in 2017 which is supposed to have impact on the sector's sustainability at long term. Widespread loan default culture, lack of appropriate governance, long drawn legislative procedures; all together have put the banking sector on a cross-road with huge non-performing loans. The industry non-performing loan surged 19.51 percent in 2017 from BDT 62,172 crore to BDT 74,303 crore. NPL ratio rose to as high as 9.31% at 2017 end which is one of the highest in the South Asian Region. The Central Bank is continually pursuing the banks to bring down impaired loans to a reasonable

level. In terms of Portfolio health, BRAC Bank Ltd has fared reasonably well in compare to industry average as the business model & strategy we have adopted is much more aligned with the macroeconomic insight & we strive to update our strategy with the change in business environment. We tend to focus more on SMEs which has enabled us to maintain a diverse basket of loan pool across different industries, across geographic dispersion. Our Underwriting Team is fully separate from Business Team, Underwriting Process is policy driven & completely transparent & the Underwriting standard we follow is process driven, cash flow based & risk appetite focused.

Sustainability of banking business is growingly becoming dependent on how a bank takes care of Environmental & Social Risk issues. Being a co-owner of any investment, BRAC Bank views it - "why are we doing the business, if it is not sustainable...?" We believe, the bank's role is vital in addressing - whether the investment contributes to the growth of the real economy, whether it corroborates optimization of use of natural resources in a business & whether social risks have been identified & adequately addressed. Besides, regulatory frameworks have been reinforced to enhance accountability with regards to environmental and social (E & S) risk considerations. The bank has tightened policies in this context & appraisal system has been put in place integrating E & S Risks with Credit Risk to bring about the investment outcome. It may not be out of place to mention here that Bangladesh Bank is going to implement an updated version of Environmental and Risk Management guideline from year 2018 to guide banks and financial institutions to protect their investment from environment and social risks in a stricter manner. The central bank has started the working to implicate a more robust and quantitative scoring methodology for better estimation of environmental and social risks along with risk-based screening criteria to evaluate a proposed business transaction.

The initial part of the year witnessed ample systemic liquidity but the later part of the year saw liquidity sweeping out, which is still the case & our apprehension is it will continue to persist in the year 2018. To rationalize credit growth and to curb inflation, the Central Bank has revised the threshold of Advance/Deposit Ratio from present 85% to 83.5% - which the banks are required to comply by the end of 2018. With the rising liquidity crisis issue, demand - supply & funding mismatch - deposit & lending rates of the banks are on the rising brink & it is expected to continue in coming days. Bangladesh Bank record shows that the weighted average lending rates of commercial bank and Non Banking Financial Institution (NBFI) were 9.93% in 2017, 11.18% in 2016 & 12.46% in 2015. With the prevailing liquidity issue, it is not unlikely that average lending rate shall move up by at least 2.00% in the year 2018, if not more, from

9.93% of 2017. Needless to say, the high interest rate of loans affects adversely on economy by hiking price of commodities and essentials.

Our Bank's risk culture is continually evolving as our policies and product guidelines are revisited with changing dynamics in the economy as well as borrower behavior. While our ALCO team is persistently striving to achieve the right balance in managing the Asset-Liability gaps, our relationship side is also strongly collaborating to minimize the mismatch. Furthermore, to accommodate the regulatory changes, our Credit Risk Management Policy has been reviewed and revised in line with the changes in Bangladesh Bank guidelines, processes, etc. Similarly, over the period, the Small Underwriting Team went through a process of restructuring, remodeling & rearrangement in terms of the people, process, PPG (Product Program Guidelines) to better address risks in the portfolio. For our retail customers, we established In-house Contact Point Verification (CPV) team all over the country to support with quality assessment. Regular review of portfolio and borrower repayment behavior across different sectors are conducted and circulated to realign future exposure on different customer groups. In order to bring synergy in our credit function, a dedicated Credit Administration department has been introduced, which has brought in more efficiency in credit control and discipline by facilitating a more stringent supervision on documentation, disbursement, monitoring, inspection and MIS, among others, thereby administering greater accountability and discipline. While external stakeholders are prudently assessed before on-boarding, internal stakeholders, i.e. bank staffs also undergo capacity development program on continuous basis. There is a strong management structure in place to minimize threats. Risks arising out of lapses in people, process and system i.e. operational risks are dealt at three levels. Initially, all staffs make every effort to identify risks at their own desks, try to address and resolve with the help of their supervisors. If it is beyond their capacity and requires affiliation of other stakeholders, it is escalated to enterprise risk associates' forum (ERAF) for discussion and resolution. Subsequently, ERAF issues, that require top management's guidance and decisions, are placed at Enterprise Risk Management Committee (ERMC). ERAF as well as ERMC convene every month to identify, address and mitigate risks. Finally, for Board's oversight and guidance, critical risk elements are highlighted in Board Risk Management Committee (BRMC).

Risks in the Cyber Space

Bringing business risk management and technical security risk management together is one of the major challenges banks currently struggle with in order to increase their resilience against cyber security threats. With the evolution of digital banking, crypto currencies impacting the global banking system, rising

incidents of hacking in internet banking and number of unprecedented digitization risks, it is imperative that BRAC Bank remains vigilant and manages cyber risks prudently & proactively. When it comes to information security, we have a dedicated team, diligently ensuring cyber security from external malicious attacks. They initiate awareness programs, educate users about safe usage of our intellectual properties and also conduct periodic penetration/ vulnerability testing to identify weaker links to the system. Thus, amendments have been made in various facets only to combat future adversities and eliminate fraudulent activities. As the role of technology increases, business risks due to underlying and unidentified system vulnerabilities also increases. Existence of these risks within the business ecosystem when exploited could lead to severe financial, regulatory and brand impacts. This makes implementation of adequate security controls mandatory. BRAC bank is committed to ensure high levels of service quality and banking security.

For Cyber Security and ICT risk mitigation, the bank has updated ICT security policy which is in line with the latest Bangladesh Bank ICT guideline and the vastly practiced framework and international standards e.g. COBIT, ITIL & ISO 27001. BRAC Bank is the 1st and only bank in Bangladesh who achieved ISO 27001:2013 international certificate for information security management function. Among many other initiatives, we've implemented Security Information and Event Management (SIEM), 2FA for Internet banking, secure email gateway, 3Des for e-Commerce transaction and Centralized Network Monitoring System. In addition, we've already undertaken multiple security projects such as Privileged Access Management, Anti-APT solution, AML & Fraud management, PCI-DSS compliance project, built 24/7 Security Operation Center (SOC) etc.

Concluding Thoughts

The strength of our risk management process and practice is reflected in the Balance sheet of the bank that shows a steady growth in business, quality of asset & maintenance of capital. Within the ambit of our risk management framework, we are focused on ensuring the highest levels of transparency in our disclosures, thereby enabling our stakeholders to place their continued faith and trust in our institution. We do not only aim to remain with our philosophy of People-Planet-Profit but also keep focusing on strengthening portfolio base, increasing effort towards sustainability, development of human resources, and supervision of comprehensive risk management - identify and monitor causes of failures that are expected to affect our financial position. While we firmly hold the ground in preserving the bank's goodwill, reputation and asset quality; yet ensure zero-tolerance strategy when it comes to ethics, good governance and Risk management.

Risk Management Framework

Risk is the possibility of loss or failure to achieve objectives arising out of unwanted or uncertain actions or events. In this context, risk management is the planned and systematic approach to the identification, evaluation and control of risk. The central objective of risk management is to secure the assets and the reputation of an organization and to ensure continued financial and organizational sustainability. Importantly, risk management is a continuous developmental process that should run in-synch with an organization's strategy.

1. Key elements of BRAC Bank's risk management framework:

- Board and the senior management oversight on the risk management structure
- Proper procedures for risk identification, measurement, mitigation and monitoring
- Bottom-up and top-down risk escalation approaches that enable all in the organization to identify risk issues within their own areas and also ensure holistic involvement in risk mitigation

1.1 Vision:

The vision of our risk management endeavors is to be a risk-mitigated bank and enable a risk-awareness culture at all times for maximizing client and shareholder assets on the one hand while seizing relevant opportunities on the other, through striking the right balance between capital preservation and optimization (risk/reward).

1.2 Mission:

- To facilitate individuals, units, departments and divisions of BRAC Bank to be risk-aware
- To provide necessary feedback and resolution in consultation with ERMC and other experts
- To comprehend and thwart future adversities and embrace proactive measures
- To introduce updated policies/processes to safeguard customer interest
- To ensure sustainable operations by ensuring visible improvements in regulatory and internal compliance mechanisms to manage risk
- To promote a risk-conscious culture in a manner that is consistent with the bank's vision and mission

2. Structure of risk management:

BRAC Bank's risk management structure includes all the relevant processes, tools and techniques to enable the bank to identify, mitigate and monitor risks. The bank has set its risk management structure that aligns with global standards. Our risk management framework encompasses the Board, senior management as well as operational-level departments that together enables an all-inclusive emphasis on managing risk.

2.1 Board involvement:

BRAC Bank Board is responsible for establishing the bank's overall strategy and other significant policies relating to the management of individual risk elements facing the organization. A Board Risk Management Committee is responsible for the bank's risk management functions.

Board Risk Management Committee (RMC) responsibilities:

- Establish the risk appetite
- Approve the bank's risk management policy
- Determine the strategic direction
- Create an environment and structure for effective risk management
- Oversee bank's Environmental & Social risk manageemnt

2.2 Senior Management involvement:

The bank's senior management is responsible for the implementation of risk policies/procedures, in line with the Board-specified strategic direction and risk appetite. The bank's Enterprise Risk Management Committee (ERMC) is tasked with the responsibility of managing enterprise-wide risks.

Enterprise Risk Management Committee (ERMC):

Bank's senior management is intrinsically involved in resolving bank-wide risk issues through ERMC. This committee is headed by the Chief Risk Officer (CRO) underthe auspice of MD & CEO. ERMC oversees all matters relating to enterprise-wide risk management, especially in recommending policies/guidelines for effective risk management to the Board.

Single solution platform - Enterprise Risk Governance Forum (ERGF):

ERGF is a platform under which the bank's staff can get access to solutions of problems related to operations

as well as for risks and hazards. This forum comprises all the heads involved in risk, control, compliance, governance and security. All queries are met by the senior management. Effectively, this forum acts as the single-point contact for expeditious risk response. They meet as and when required.

2.3 Bank's involvement in risk management process:

To make the risk management process more robust and transparent and to aggregate risk issues from every part of the bank, BRAC Bank has established an Enterprise Risk Associate Forum (ERAF) comprising representatives from the bank's various divisions. ERAF is chaired by the Head of Risk Management and meets at least once a month and also as and when required. The forum is specifically tasked with:

- Operating as the initial-level risk managers for their own divisions
- Identifying, escalating and reporting risk issues from every unit
- Resolving issues together with stakeholder recommendations
- Working on issues till their satisfactory closure
- Promoting a risk culture and working closely with the risk management division to ensure risk management initiatives are in place for riskcontrolled banking practices
- Assist the Risk Management division to plan and reduce operational shocks/losses by recommending appropriate risk-mitigation strategies

An organization's business model is constantly challenged by its surrounding environment and it possesses various types of risks. Failure to identify, assess, and manage the major risks facing the organization's business model, however, may unexpectedly result in significant loss of stakeholder value. Thus, senior leadership must implement processes to manage effectively any substantial risks confronting the organization. We take a broad perspective on identifying the risks that could cause an organization to fail to meet its strategies and objectives

3. Control process of risk management:

Risk management is not static; rather it is a dynamic process that must be applied and tested across all parts of the organization. The eventual goal of fostering a risk-aware culture is to create a situation where the staff and the management instinctively look for risks and consider their impact during decision-making.

BRAC Bank possesses a culture of risk awareness, recognizes the importance of risk management and carries out the responsibility of identifying and managing risks with strong accountability. The bank believes that beyond setting the right policies and structures, a risk-aware culture plays a far more effective role in risk management.

Risk control process:

- Risk identification: This is the first step in the risk management function. To ensure all-encompassing involvement, a risk register is maintained, which is a unique platform to flag risks at the individual level.
- Risk assessment: We analyze the factors deemed to be a threat in the context of the broad organizational objectives and strategies. To do so, we have forums like Enterprise Risk Associate Forum (ERAF) and Enterprise Risk Governance Forum (ERGF). These platforms enable a pathway along which risk-prone issues are raised and discussed at the initial level with adequate mitigation plans chalked out.
- Decision-making: Based on the analysis and forecast, a decision is made for a particular existing/ impending risk. However, the decision-making authority is delegated to various levels. High risk issues are escalated to the top management or even to the Board and issues that are deemed to be not severe are resolved by ERAF and/or ERGF.
- Follow-up and monitoring: Another vital part of our risk management function, follow-up and monitoring is persisted with until the successful resolution of a particular risk issue. A vital part of our monitoring process is to observe ongoing scenarios against the bank's risk appetite.

• Risk reporting: Lastly, the overall status of risk management is documented through risk reporting. This is effected through periodic risk management reporting with submissions to Bangladesh Bank. Moreover, we have our own mechanisms to quantify potential losses arising out of risk-prone issues. Besides, our management regularly reviews the essentials of the risk management paper and provides instruction as per the necessity.

3.1 Committees and forums responsible for risk management:

Even though BRAC Bank has a unique culture that seeks risk resolution in a manner where every organizational layer is involved, it also has structured entities to govern and oversee the risk management function. Keeping in

mind the inherent nature of risk, BRAC Bank has several committees comprising its key personnel with direct involvement of the management as well as the Board that oversees the material risks facing the bank.

3.2 Role of the Board in managing risks:

In 2014, a Board-level 'Risk Management Committee' (RMC) was established following Bangladesh Bank's directive. The committee convenes on a bi-monthly basis and comprises three members from the Board. This apex body actively monitors the bank's overall risk management initiatives through engaging in comprehensive reviews, including determination of risk appetite, risk policies, risk frameworks, etc. The committee also provides assistance to the Board in fulfilling its responsibility to shareholders, prospective shareholders and the investing community. The committee's objective is to fulfill an effective role in mitigating impending risks arising from strategies/policies formulated by the Board and to carry out the responsibilities efficiently. After identifying and assessing several risk factors like credit risks, foreign exchange risks, ICC risks, AML risks, liquidity risks, etc., the committee scrutinizes whether appropriate risk management measures have been put in place and applied with consistency and whether adequate capital and provision is being maintained against the risks identified. The committee is also responsible for assessing and providing oversight to the management with regards to the identification and evaluation of major strategic, operational, regulatory, information and external risks inherent in the business. It also oversees the bank's risk management, compliance and control activities. Overseeing the integrity of the bank's operational control systems regarding legal and regulatory compliance is also within the purview of the RMC.

3.3 Scope of the Risk Management division:

At BRAC Bank, the Risk Management division has been instituted as per Bangladesh Bank's directives. The division is accountable for overseeing the management of risks inherent in the bank's operations. Moreover, this unit is responsible for ensuring that effective processes are in place for:

- Identifying current and emerging risks
- Developing risk assessment and measurement systems
- Establishing policies, practices and other control mechanisms to manage the risks

- Developing risk tolerance limits for the senior management and Board approval
- Monitoring positions against approved risk tolerance limits
- Reporting results of risk monitoring to the senior management and the Board

At the bank, along with the risk management officials, the business lines staff are responsible for the risks they take. Because it is indeed the front line personnel who are fully aware, more than anyone else, about the risks in the business they are opting to on board. Therefore, drawing a perfect synergy with the risk management objective.

3.4 Coverage of various risk types:

To ensure banking operations run smoothly and to support its objectives, BRAC Bank undertakes a number of risks. The judicious management of these risks is an integral part of the bank's business activities with accountability vested with particular staff. Prudent risk management also ensures that risk controls are well-developed and implemented effectively. The bank encounters different types of risks on a daily basis and focuses on addressing the risks that occur or has probability to occur or are predicted to occur.

Risk Mitigation Methodology

In the context of the banking business, risk is inherent and the impact of risk management is significant enough to have an impact on the financials. To thwart risks, the Central Bank of Bangladesh has identified key risks and has defined them as core to the function of the banking industry.

The year 2017 was a fairly decent one for the Bangladeshi banking industry, despite the rising incidence of non-performing loans, and governance deficit. Even in this scenario, BRAC Bank has always been aware of adverse situations and has embraced timely action to avoid loss arising out of risk-prone events. Throughout 2017, we have taken several initiatives to manage evolving uncertainties with prudence and conservatism. Broadly, we undertook the following measures to strengthen our bank's risk framework:

- Revised our credit policy, aligning it more closely with the central bank's guidance
- Instituted Credit Administration-CAD to brings forth more effectiveness in credit risk management
- Introduced environmental and social risk considerations into CRM as per the revised Environmental and Social Risk Management (ESRM) guidelines of Bangladesh Bank
- Formulated Risk Appetite Statement (RAS) to allocate sector- and industry-wise internal limits
- Enhanced the tool to flag risks at the individual level to facilitate the procedure of risk escalation in the risk register
- Emphasized to increase the portfolio of rated clients and strived to bring the maximum number of borrowers within the fold of rating. Eligible SME customers will also be progressively taken under the purview of rating
- Enterprise Risk Governance Forum (ERGF) formed
- Established a treasury mid-office for enhancing the quality of the treasury support functions
- Operational level of Risk committee Enterprise Risk Associate Forum (ERAF) restructured
- Streamlined the formation of Sustainable Finance Unit and committee, thereby ensuring greater governance of environmental and social risks

In addition to these activities, key risk areas were highlighted and placed to the senior management regularly through the submission of the risk management paper. In addition, significant risk issues with comprehensive analysis were also presented to the ERMC.

Year 2018 might pose a diverse scenario in the banking industry. The economy is hit by a spell of liquidity crisis and this liquidity pressure may continue to linger. On the other hand, FDI inflow is likely to fall due to sluggish investment with the probability of our Capital market to see a slump. Excessive credit growth may not be in the banks' priority list. Under such circumstances, banks are required to focus on low cost fund. We intend to bolster the monitoring and follow up endeavors of our existing clients. Also focus on asset quality more than ever before. As the role of technology increases, business risks due to underlying and unidentified system vulnerabilities also increases. Existence of these risks within the business ecosystem when exploited could lead to severe financial, regulatory and brand impacts. This makes implementation of adequate security controls mandatory. BRAC bank is committed to high levels of service quality and banking security.

Overview

By their very nature, risks are ever-evolving. Consequently, risk mitigation strategies have to be dynamic for an organization to successfully establish a sound risk management practice. However, there are certain types of risks that are most likely to occur and impede the business from attaining its goals. Hence, effective policy/action plans need to be put in place to ensure high levels of effectiveness in risk management.

In the context of the banking business, risk is inherent and the impact of risk management is significant enough to have an impact on the financials. To thwart risks, the Central Bank of Bangladesh has identified key risks and has defined them as core to the function of the banking industry.

- 1. Credit risk
- 2. Foreign exchange risk

- 3. Asset-liability risk
- 4. Money laundering risk
- 5. Information and communication technology risk
- 6. Internal control and compliance risk

Bangladesh Bank has issued policy guidelines for sound management of the core risks. Accordingly, at BRAC Bank, we embrace these guidelines and also formulate our own strategies in managing the core risks facing our Company.

1. Credit risk

Definition: Credit risk is the risk of default on a debt that may arise from a borrower failing to make required payments. In the first level, the risk is that of the lender and includes lost principal and interest, disruption to cash flows and increased collection costs.

Our approach to managing credit risk: At BRAC Bank, the core function of the Credit Risk Management (CRM) team is to optimize risk-adjusted returns from the bank's loans and advances portfolio by maintaining robust underwriting standards. BRAC Bank also embraces a holistic approach towards credit risk management, where socioeconomic and environmental impact of the decisions made are emphasized upon. To achieve holistic control of this risk, we take into cognizance the credit risk inherent in the bank's entire portfolio as well as the risks associated with individual credit proposals/transactions. We carefully appraise the relationship between credit risk and other risks while supporting the bank's transactions.

Mitigation measures: Considering the key elements of credit risk, the bank has segregated responsibilities of its officers/executives involved in credit-related activities. A unified platform for Corporate, SME and Retail divisions has been entrusted with the responsibilities of maintaining effective relations with customers, marketing credit products, exploring new business opportunities, etc. For ensuring operational transparency during the credit appraisal process, the following teams have been instituted:

- 1. Credit approval
- Asset operations
- Recovery unit and Special Asset Management

In addition, the following principles have been considered for effective credit risk management:

Portfolio composition:

Though BRAC Bank is dedicated to SME financing, the bank is also concurrently exploring opportunities

to grow its corporate and retail loan segments . The bank's portfolio comprises a variety of products based on the risk-return trade-off. The different types of loans (industrial loans, loans for trade and commerce, home loans, auto loans, sovereign-guaranteed loans, etc.) have uneven risk-return factors and hence opportunities are pursued accordingly, also depending upon the prevailing market conditions and industry prospects.

• Underwriting:

Underwriting plays a pivotal role in mitigating risks associated with lending while also enabling alignment with regulatory standards. A standard underwriting policy, robust credit scoring methodology, collateral support and other structure play a major role in ensuring sound credit risk management. Moreover, the customers' ability to meet principal/interest obligations is assessed considering borrower selection based on thorough credit appraisal.

Credit quality:

Determination of credit risk involves review of the borrower's credit history and his income/cash flow assessment. We have established a sound credit disbursement process, maintaining a robust administration and monitoring process and ensuring simultaneous control. We identify these risks by engaging in physical visits made by our relationship managers, credit appraisers as well as by the credit inspection team, across different disbursement phases. These checks also enforce corporate borrowers to improve their environmental and social performance while improving their credit record. Our credit quality appraisal includes:

- Developing internal awareness of environmental and social risks
- 2) Integrating environmental and social risks into the credit appraisal process
- Monitoring the effective implementation of environmental and social goals

The environmental and social performance of borrowers raises a variety of potential risks and opportunities for banks. Given this, we are meticulous in due diligence prior to funding commitment and have established an open credit culture through providing the delegation of authority among the mid-management of the CRM division. Moreover, to support our SME borrowers' businesses, which is geographically spread, we have established numerous CRM centers across the country. These centers conduct an independent pre-approval visit to ensure credit-worthiness of the proposal, hence covering 100% of the SME underwriting throughout the country. Our robust capabilities enable us to identify, measure, monitor and control credit risks, thereby enabling a rigorous control on our NPLs as well as

ensuring that adequate capital against these risks is maintained with satisfactory compensation against potential losses.

2. Foreign exchange risk

Definition: Foreign exchange risk is the risk of loss that a bank may suffer from as a result of adverse exchange rate movements during a period in which it has an open position in an individual foreign currency. In addition, a bank may also be exposed to interest rate and settlement risks on account of its foreign exchange business.

Mitigation Measure of Foreign Exchange Risk: BRAC Bank's treasury division is vested with dealing with risks associated with foreign exchange (FX) movements. Various risk elements are considered while dealing with FX transactions. Some important risk issues comprise credit risk, liquidity risk, interest rate risk, price risk, compliance risk, etc. While segregation of responsibilities is duly maintained, strict restrictions also exist for dealers under which a stop-loss limit is given to restrict his/her intuition beyond an acceptable limit. Moreover, they are restricted to deal in processing and generating revaluation rates, regulatory reporting, setting up counterparty limits, setting up market risk limits, own account trading, etc. Similar restrictions are also present for the back office team. Net open positions are strictly followed, as directed by Bangladesh Bank. Moreover, we possess FX risk management guidelines that are customized to serve our needs. These guidelines have been prepared as per Bangladesh Bank guidelines and have been appraised by our Board of Directors. Bangladesh Bank issued guidelines on FX risks in 2009. which were last updated in February 2016.

2.1 Mitigation strategy: Various risk elements are considered while managing with/dealing in FX transactions. The following aspects are covered to thwart FX risks:

2.1.1 Limits:

Foreign exchange dealing is done within the limits authorized by the Board to the CEO/Head of Business and Head of Treasury. Dealing limits are set considering the bank's own requirements, market conditions, counterparty, etc. The CEO usually delegates the limits to the Head of Treasury who, in turn, allocates limits to individual dealers.

2.1.2 Stop-loss limit:

Every dealer is assigned a stop-loss limit to restrict intuition-driven trades beyond acceptable limits, considering the organization's portfolio and risk appetite. Limits are also set for individual deals and

dealer portfolio positions. Stop-loss limits to the Head of Business/CEO and the Head of Treasury is set by the Board and, in turn, the Head of Treasury allocates individual limits to the dealers.

2.1.3 After-hours and off-premises dealings:

After-hours and off-premises dealings are strictly prohibited. The Head of Treasury, with the approval from the Head of Business/CEO, might engage in after-hours and/or off-premises dealings for taking/covering positions on a case-to-case basis.

2.1.4 Position and Nostro reconciliations:

All dealer positions are reconciled with the positions provided by the back-office before any deals are made during the next business day. Moreover, all Nostro accounts are reconciled on a monthly basis. Outstanding issues, if any, are reported to the CEO/Head of Operations for immediate reconciliation.

2.1.5 Valuation:

The treasury back office evaluates all outstanding positions at current market rates (mark-to-market) to determine their market value on a daily basis. The back office also gathers market rates from independent sources, i.e. other than the dealers of the same organization/s to avoid conflict of interest with reporting to the line manager. This exercise provides information with regards to the profitability/loss of outstanding contracts.

2.1.6 Internal audit:

The bank's internal audit team conducts an audit of the affairs of the treasury, which includes checking DCFCL, adherence to various limits, compliance requirements, statutory and management requirements, etc. In addition to regular audits, surprise audits are also conducted.

2.1.7 Deal making:

The process commences when a dealer strikes a deal in the market. He then maintains his own record for monitoring the exchange position and his own dealing position. Within a reasonable period, the dealer passes detailed deal information to the treasury back office. The back office arranges for the deal confirmation to the counterparty, arranges settlement, reconciles exchange position and advises the treasury. Certain processes that are crucial to achieve efficiency, profitability and control in the treasury function are mentioned below:

- Dealing room: Access to the dealing room is restricted only to dealers and other concerned personnel
- Taped conversations: The dealing room is equipped with a voice recorder for recording telephonic deals

- Deal recording: Deals are recorded as soon as they are struck in a register/electronic register where a dealer and Head of Treasury/Chief Dealer signs his initials
- Position blotter: Immediately after a deal is struck, the dealer records the deal on the position blotter and updates his position. The dealer maintains the blotter with utmost importance to avoid any mismatch and adverse position
- Deal slip: Immediately after a deal is struck, the dealer prepares a deal slip with the necessary details and passes the same to the back office for settlement and reconciliation
- Deal delay: The deal slip is sent to the treasury back office within the shortest possible time and without any abnormal delays
- Counterparty limits: A counterparty limit arises from the potential risk of the counterparty being unable to settle a deal with both pre-settlement and settlement risks. Counterparty limits are set by the Credit Committee and monitored by the Head of Treasury/financial analyst.

In addition to these, trigger levels, appropriateness of dealings, rate appropriateness, deals outstanding limits, daily treasury risk reports, code of conduct, etc., are also taken into consideration. Bangladesh Bank-approved limits are considered during the monitoring process. Daily management report portrays a real-time scenario to the top management. Moreover, FX open position limits are reported to Bangladesh Bank on a regular basis.

3. Asset-liability risk

Definition: Asset-liability management (ALM) plays a critical role in weaving together the different business lines within a financial institution. Besides, managing liquidity and the balance sheet are crucial to the existence of a financial institution. It is also essential for the profitable and sustainable growth of the balance sheet.

Our approach to managing asset-liability risk: Asset-liability management (ALM) is an integral part of the banking industry. Changes in market liquidity and interest rates exposes the bank's business to the risk of loss, which may, in extreme cases, threaten the survival of the institution. As such, it is important that balance sheet risks are effectively managed, appropriate policies and procedures are established to control and limit these risks and proper resources are available for evaluating and controlling these risks. When the central bank issued ALM guidelines over a decade ago that were last updated during 2017, we developed our own policy in line with the directives. Our Asset Liability Management Policy was approved by the Board in August 2004 and was

updated in April 2016. The Asset Liability Management Policy is prepared to monitor, measure and manage the risks associated with the balance sheet and guards the bank against any unforeseen losses/threats to survival. The policy is revised to accommodate regulatory and organizational changes over time. Moreover, we have several liquidity risk indicators that are used to monitor the status of our liquidity position:

- Advance-deposit ratio
- Liquidity ratio
- Wholesale borrowing limit utilization
- Maximum cumulative outflow (MCO)
- Liquidity coverage ratio (LCR)
- Net stable funding ratio (NSFR)
- Structural liquidity gap analysis
- Liquid asset to short-term deposit
- Liquid asset to short-term liability
- CRR
- SLR

Mitigation measures: Liquidity contingency plan as also the guidelines of Bangladesh Bank in respect to CRR, SLR and capital adequacy act as guides. The Asset Liability Committee (ALCO) is responsible for the overall balance sheet (asset-liability) risk management. Treasury is accountable for managing the balance sheet as per the recommendations of ALCO to minimize risk and maximize returns. The committee calls a meeting at least once a month to set and review ALM strategies. The meeting reviews the ALCO paper along with the prescribed agendas. The Head of Treasury puts forth his views on whether:

- Interest rates need to be re-priced
- The bank needs deposits or advances to grow
- The growth in deposits and advances should be for the short- or long-term
- The transfer price of funds among the divisions
- The kind of interbank dependencies the bank has

Based on the analysis, the committee takes decisions to reduce balance sheet risks while maximizing profits.

BRAC Bank also provides adequate emphasis to minimize balance sheet risks. Appropriate policies and procedures are established as per the guidelines of the Board, including relevant guidelines specified by Bangladesh Bank, to control and limit these risks. Apart from this, proper resources are ensured for the evaluation and control of these risks.

4. Internal control and compliance (ICC) risk

Definition: ICC risk refers to the gap in the internal system that fails to detect a breach either because of non-inclusion in sampling or due to a detection failure within the sample. Losses arising out of lapses in internal compliance are considered under operational risk. Internal control is the process that, guided by a company's Board, management and other personnel, is designed to provide reasonable assurance regarding the attainment of objectives in the efficiency of operations and reliability of financial reporting and compliance with applicable laws, regulations and internal policies. Internal controls represent policies/procedures established and implemented alone, or in coordination with other policies/ procedures, to control a particular risk/business activity, or a combination of risks/business activities, to which the company is exposed to or in which it is engaged. A sound internal control function plays an important role in contributing to the effectiveness of the internal control system. BRAC Bank has a Board-approved ICC policy.

Mitigation measures: Our approach to managing internal control and compliance risk:

Establishment of a compliance culture

Our robust organizational structures enables the prudent management of ICC risk. A well-formulated Audit Charter ensures transparency, accountability and authenticity. By virtue of this robust framework, our audit teams have access to information across the bank and are entitled to raise any query deemed fit during the audit process.

The bank's Board has established an Audit Committee to monitor the effectiveness of the internal control system. The Audit Committee meets the senior management periodically to discuss the effectiveness of the internal control system and ensures that the management has taken appropriate actions as per the recommendations of the auditors and the Internal Control and Compliance Division (ICCD). As per the approved audit plan, the ICCD has completed the audit and inspection tasks of branches (retail and SME) and head office divisions/departments in 2017. Significant deficiencies, if any, identified by the Internal Control team are reported to the Board's Audit Committee. In addition to the internal audit and inspection team, the monitoring team conducts surprise inspections at branches/SME unit offices.

With a view to prevent fraud and forgery, BRAC Bank has established a department to deal with such incidences. This wing exclusively deals with all kinds of fraud and forgery and acts independently as the first contact point/information unit where internal/external fraud and forgery incidences are investigated and reviewed. To protect the bank and its stakeholders' interest, this unit performs

thorough investigation to identify the perpetrator/s and the root cause of the reported incident. As a counteractive course of action, preventive and corrective measures are recommended to the business/functional unit to take necessary actions relating to process improvements, recovery of misappropriated amount and adjustment of the operational loss with appropriate action against the perpetrator/s. The investigation reports are also placed to the Board Audit Committee. This wing also ensures the implementation of the recommendations made in the investigation report by performing quarterly follow-up audit. Any violation/breach in compliance issues are dealt with rigorously.

Role of external auditors in evaluating internal control system

External auditors, by virtue of their independence from the bank's management, provide unbiased recommendations on the strengths/weaknesses of the bank's internal control system with regular periodicity. They examine records and transactions and evaluate the accounting policy, disclosure policy and methods of financial estimations. This allows the Board and the management to have an independent view on the bank's overall control system. Along with the periodic Bangladesh Bank audit, other external auditors conduct regular audits to ascertain control lapses within the system.

5. Money laundering risk

Definition: Money laundering is deemed as a financial crime that aims to conceal, misrepresent and disguise details with regard to illegal income sources, taking advantage of the vulnerability of the financial institution, mostly in developing countries. Due to the rapid incorporation of sophisticated technology in a globalized financial sector, money laundering has truly become a worldwide scourge that has widespread economic and social consequences. Hence, Bangladesh has reinforced its anti-money laundering system by introducing and updating legislations, enactments such as Anti-Money Laundering Act and Anti-Terrorism Act and enforcing compliance for reporting organization/s. In addition, being the principal regulatory body of banks/financial institutions, Bangladesh Bank has provided valuable guidance through guidance notes, policies, circulars, circular letters, instructions etc., in compliance with the laws of the land.

Our approach to managing money laundering risk: BRAC Bank recognizes its obligation to join governments, international organizations and other financial services organizations to close-off financial channels that money launderers and terrorist organizations use for illicit purposes. The bank's Board views money laundering prevention as part of its risk management strategy and not simply as a standalone requirement imposed

by legislation. The bank is fully committed to condemn money laundering and terror financing.

Mitigation measures: BRAC Bank has developed a comprehensive policy on money laundering prevention, combating terror financing and KYC (know your customer), approved by the Board. We strive to enhance our policies, procedures, systems and technological resources on the guidance of our Board and have issued multiple circulars, circular letters and instructions from time-to-time, in compliance with the updated regulations. As part of our anti-money laundering policy, every year, BRAC Bank communicates a statement to all employees through the CEO that clearly sets forth the way forward for the year and shares the initiatives taken over the last year pertaining to combating money laundering and terror financing.

The bank has also nominated a Chief Anti-Money Laundering Compliance Officer (CAMLCO) and Deputy CAMLCO who together ensure that the bank is compliant with all AML guidelines. In addition, the Branch Anti-Money Laundering Compliance Officer (BAMLCO) is accountable for AML compliance at the respective branch. As part of his responsibility, the BAMLCO reviews and verifies account transactions to make suspicious transaction reports (STR) and ensures fostering an AML-and CFT-compliant culture. Training is also conducted regularly for all officers for ensuring KYC compliance and identifying suspicious activities/transactions.

Monitoring: Once an account is opened, relevant customer activities and transactions are monitored on an ongoing basis. Inconsistencies are measured against the stated purpose of the accounts, i.e. the customer's declared transaction profile (TP). The following reports are generated at prescribed frequencies to ensure effective monitoring:

- Excessive Cash Movement Report: On a daily basis, every branch generates a large value Cash Transaction Report and reviews the transaction pattern.
- Exception Report/TP Breach Report: On a monthly basis, every branch generates an Exception Report of customers whose account transaction volume exceeds transaction limits (more than 20%) mentioned in the TP, for further review. If, after confirming with the client, the transaction trend continues, the dealing officer documents the reason behind the changed TP and amends the KYC profile accordingly.
- CTR (Cash Transaction Report): Cash transactions (deposits/withdrawal) that breach certain limits set by Bangladesh Bank are reported to the Central Bank. Before sending the report to BFIU and Bangladesh Bank, the respective branch reviews the transactions to detect suspicious transactions.

We consider transaction monitoring as a continuous process. High risk accounts are reviewed by the concerned branches annually and low risk accounts are reviewed based on specific incidents. Transaction profiles are also reviewed and updated on justified grounds with proper documents, wherever applicable.

While monitoring and reviewing these reports, if the branch staff identifies any customer activity/ transaction pattern suspicious, they are assigned to raise a Suspicious Transaction Report/Activity Report to BAMLCO. If BAMLCO finds the suspicion justified, he/she will forward the same for CAMLCO's judgment.

Apart from monitoring customer activity and transactions, the branch makes an overall assessment on AML/CFT activity. Self-assessment is documented in the form of a report comprising such details as its owner, its control and supervision and the resulting findings, conclusions and recommendations. A consolidated report on 'Self-assessment and independent procedure' is submitted to the bank's senior management, also indicating an analysis on whether the internal procedures/statutory obligations in combating AML/CFT were adequately discharged.

At BRAC Bank, we have incorporated KYC, due diligence and AML risks along with mitigation plans in our product program guideline (PPG) and have developed a comprehensive operations manual for both front line as well as backend employees to remain constantly vigilant to prevent the abuse of our products and services.

In addition to the regular return, we report suspicious activity/transactions to the Financial Intelligence Unit of Bangladesh Bank and respond to their queries with regard to the activity/transaction. In such cases, where there has been a report of a suspicious activity or the institution is aware of an ongoing investigation relating to a client/transaction, records relating to the transaction/ client are retained until confirmation is received that the matter has been resolved.

6. Information and communication technology (ICT) risk

Definition: Technology continues to be a strong pillar in the bank's emphasis on providing a superlative experience to its customers. In line with the key trends shaping technology today, the bank has rolled-out various initiatives leveraging mobility, digitalization and innovation in payments technology. BRAC Bank strictly adheres to the latest guidelines provided by Bangladesh Bank regarding ICT Security (Version 3). Our information security team works as the third-eye for information assurance and manages ICT risks. Its vision is to become the centre of excellence for information security management within the banking industry and to be a

frontrunner in this area as the bank develops a robust security architecture and embeds a culture of security awareness.

Our approach to managing ICT risk: We have an upto-date ICT security policy that is aligned with the latest Bangladesh Bank ICT guidelines as well as international standards, (COBIT, ITIL and ISO 27001). Our ICT policy provides a framework for best practices that are followed by all employees while also ensuring overall data and information assurance for the organization. It outlines the responsibilities and requirements of BRAC Bank and its employees with regards to its IT resources.

Mitigation measures: BRAC Bank has adopted information security of global-standards. The bank is a pioneer in the financial sector, achieving the prestigious ISO-27001 international certification for information security management, also fulfilling this regulatory mandate. ISO-27001 is the international standard for information security management and formally specifies a management system that is intended to bring information security under explicit management control. BRAC Bank has also embraced various core technological improvement initiatives including:

- Core Banking System version up-gradation
- E-commerce system up-gradation with real-time DR setup
- SMS alerts for all ADC transactions
- Version update of internet banking
- Introduction of home banking and disk-to-disk backup solution
- SWIFT version upgrade and automated RTGS system
- NID verification and bond management system
- New treasury system with upgraded trade finance module
- Nostro reconciliation system with integration between treasury and dealing platforms
- Mobile app-based internet banking with end-to-end branch service tracking
- DC-DR multiple link connectivity establishment, Microsoft Share Point and Office 365
- Server health monitoring system, CIB automation and call center system upgradation

For Cyber Security and ICT risk mitigation, bank has updated ICT security policy which is in line with latest Bangladesh Bank ICT guideline and the vastly practiced framework and international standards e.g. COBIT, ITIL & ISO 27001. BRAC Bank is the 1st and only bank in Bangladesh who achieved ISO 27001:2013 international certificate for information security management function.

7. Other risks impacting the business

Core risks represent the risks associated with the principal functions of the bank. However, there are some other evolving risks associated with the bank's operations. BRAC Bank remains watchful of these emerging risks and has likewise chalked out strategies for their management and control.. Such risks include:

7.1 Environmental and Social risk

Environmental and climate change risk refers to the uncertainty/probability of losses that may originate from any adverse environmental/climate change events (natural or manmade) and/or non-compliance with prevailing environmental regulations. The impact of climate change is undeniable in a country like Bangladesh. In 2017, the country was affected by severe floods. This adverse environmental calamity not only affects the health and wellbeing of the community but also has cascading economic effects. Since BRAC Bank's portfolio is concentrated among small- and medium-scale entrepreneurs, natural calamities tend to have a negative impact on our business. Yet, BRAC Bank deals with such challenges proactively. Moreover, additional capital is allocated as per the bank's ICCAP by considering the environmental and social risks.

The year 2017 has been an inflexion in sustainable banking with Bangladesh Bank issuing new ESRM guideline. As a result, sustainable finance unit (SFU) and a committee has been formed within the bank in order to enhance sustainability through collaboration between the CSR and green banking unit. The activities of SFU are conducted in line with Bangladesh Bank's SFD circular no. 2, dated December 2016. In addition, BRAC Bank, with support from its development partner, FMO, has arranged for a capacity development program for employees regarding the necessity of ESRM into lending considerations. The year 2017 was a test phase of incorporating the new ESRM guidelines which will be in force from January 2018.

We not only ensure proper mitigation strategy while extending credit facilities but also involve dedicated relationship managers zone-wise to closely monitor and council customers to help combat unforeseen situations with efficacy. Simultaneously, to safeguard our environment from further deterioration, we strongly emphasize on sustainable banking practices.

7.2 Human resource risk

Human resource risk is the risk that the bank may incur due to loss of valuable personnel, deterioration of morale, inadequate development of human resources, inappropriate working conditions with a threat to safety, inequality or inequity in human resource management or discriminatory conduct.

At BRAC Bank, all employees are inducted to comply with the Code of Ethics and conform to the relevant laws and regulations. The bank's HR division ensures that during recruitment, employees understand the Code of Ethics and Business Conduct and acknowledge the same. As a philosophy, we believe in the continuous development of our human resources for obtaining optimum efficiency and hence, BRAC Bank's employees are provided with several opportunities to further their career prospects and improve their performance.

Training programs organized in 2017

The HR division arranged as many as 300 different programs in 2017. Under these programs, the total participation was 24,759 and collective classroom training comprised 2,95,566 hours. As many as 88% of our total staff received training and the average training per participant stood at 43.96 hours.

7.3 Concentration risk

As defined in RBCA guidelines, concentration risk arises when a bank invests its majority, or all of its assets, into a single/handful of individuals/entities/sectors/instruments. When a bank fails to diversify its loan and investment portfolios, concentration risk emerges. Downturn in concentrated activities and/or areas may cause huge losses to a bank as far as its capital is concerned and can threaten the bank's health or ability to maintain its core operations. In the context of Pillar-II of Basel III, concentration risk can be of the following two types:

- Credit concentration risk: When a bank's credit portfolio is concentrated within a few individuals/ entities/sectors, credit concentration risk arises.
- Market concentration risk: When a bank's investment portfolio is concentrated within a few instruments/any instrument of a few companies/ any instrument of a small number of sectors, market concentration risk arises.

7.4 Mitigation measures

We try to manage our credit concentration risk by diversifying our portfolio both geographically as well

as sector/industry wise. Being a SME focused bank, inherently our portfolio is aptly dispersed among small and medium sized borrowers. As for Corporate clientele, many of them are market leaders and have affiliation with other banks. Thereby, their appraisal and assessment have been done by several parties.

7.5 Interest rate risk

Interest rate risk is the potential impact on a bank's earnings and NAV due to changes in market interest rates. In other words, interest rate risk arises when the bank is obliged to pay more interest for liabilities but cannot charge more on its assets. Such risks cannot be eliminated as the re-pricing period of assets and liabilities are different. Other than the re-pricing issue, other sources of interest rate risk include: yield curve risk, basis risk and embedded options. The immediate impact of a variation in interest is on the bank's net interest income, while a long-term impact is on the bank's net worth since the economic value of the bank's assets, liabilities and off-balance sheet exposures are affected. Re-pricing schedule is used as an interest rate risk measurement technique, which begins with a maturity/ re-pricing schedule that distributes interest sensitive assets, liabilities and off-balance sheet positions into a certain number of pre-defined time bands according to their maturity (fixed rate) or time remaining to their next re-pricing (floating rate).

7.6 Equity price risk

Equity risk is defined as losses incurring from changes in the market price of equity held by a bank. To measure and identify the risk, mark-to-market valuations of the share investment portfolios are done. Mark-to-market valuation is done against a pre-determined limit. Equity risk is also monitored through analysis of proprietary investment on shares by subsidiaries, margin loans against investments in shares by subsidiaries and loan statement against shares. Equity price risk could be systematic or unsystematic. The former refers to the sensitivity of a portfolio's value to changes in the overall level of equity prices, while the latter is associated with price volatility that is determined by a firm's specific characteristics.

Disclosure of Risk Reporting

As one of the frontline private sector banking institutions of Bangladesh with a robust track record, risk management and reporting is an integral part of BRAC Bank. While risk reporting enables the organization to quantify the level of risk and assess trends occurring over time for embracing corrective mitigation action, the analysis of major risk indicators is also significant while determining the bank's overall risk appetite. Hence, BRAC Bank's risk reporting procedure is anchored on a solid structure with regulatory compliance mechanisms firmly in place at all times.

1. BRAC Bank's risk reporting coverage:

Risk reporting can be explained as the process of defining and analyzing the risks associated with the business and a risk analysis report can be either quantitative or qualitative. At BRAC Bank, risk management reports cover disclosure requirements under Basel-III and reporting regulation under risk management guidelines. Risk reporting enables the bank in the decision-making process, enhancing the accuracy of the decisions and ensuring time-bound implementation.

	Risk reporting				
Risk Management Report	The Risk Management Report is prepared in accordance with the guidelines and supervision of Bangladesh Bank. The Risk Management Report provides a comprehensive overview of the bank's risk profile across all key risk dimensions.				
Capital-to-Risk- Weighted Asset Ratio	This metric represents an assessment to measure the adequacy of the bank's capital against its risk exposure. This ratio is calculated and reported in accordance with the risk-based capital adequacy guidelines of Bangladesh Bank.				
ICAAP Reporting	This provides a measure of the bank's capital requirement adequacy against the organisation's entire risk profile.				
Stress testing	Stress testing presents the effects of several assumptions applied to measure the capital base level in stressed scenarios.				
Pillar-III disclosure	This aims at ensuring transparency and bringing symmetry in the marketplace.				
Internal Risk Reporting	Several platforms exist within the organization through which the bank's employees can flag and report risks internally Via Risk Platforms				
	Through Risk Register				
	Other tools				

2. Our Internal Risk Reporting Coverage

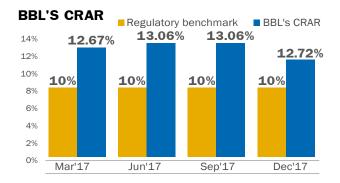

- A. Transaction Based Testing (TBT)
 - Prepare Terms of Reference to conduct TBT
 - Conducting the Txn based testing as per TOR
- B. Exception Transaction Monitoring (ETM)
 - Identify Exceptional Transaction
 - Coordinate with relevant stakeholder to verify authenticity and legitimacy
- C. Process Review & Reporting (PRR)
 - Communicate with stakeholders to understand the existing process
 - Identify the GAP and resolve (if required)

3. CRAR under Pillar-I of Basel-III:

The computation of the minimum capital requirement represents the basis of Pillar-I of Basel-III. The capital requirement is assessed against areas of the asset portfolio considered to be risk-prone. The credit portfolio and market exposures are considered along with the risks associated in the day-to-day operations while also determining the inherent risk within the assets. As per the prevailing Basel-III requirements (2017), banks have to maintain a minimum capital of 11.25% (including capital conservation buffer of 1.25%). BRAC Bank has been able to maintain adequate capital levels, which have not declined below statutory requirements at any time during 2017.

4. ICAAP Report under Pillar-II of Basel-III:

The Supervisory Review Process (the Second Pillar of Basel-III) of the risk-based capital adequacy framework is intended to ensure that banks have adequate capital

to support all the risks in the business and, concurrently, to encourage banks to develop and utilize superior risk management techniques in monitoring and managing risks. Importantly, the Supervisory Review Evaluation Process (SREP) of Bangladesh Bank ensure a constant dialogue between itself and the bank's SRP team, followed by the disclosure of findings/evaluation of the bank's ICAAP. The SRP team of BRAC Bank looks after the following areas:

5. Market disclosure: Pillar-III of Basel-III

The purpose of market discipline is to establish transparency and discipline in the financial markets so that stakeholders can assess the position of a bank with respect to the assets held by it as well as to identify the risks relating to these assets and the capital adequacy to meet probable losses. For this purpose, banks have to develop a set of disclosures containing information on the assets, risk exposures, risk assessment processes and the capital adequacy to meet the risks.

6. Adoption of Basel-III:

The Basel-III regime has commenced from January 1, 2015 and, accordingly, we have initiated to execute its directives as per the guidelines. Major changes from Basel-II to Basel-III have been done in the Minimum Capital Requirement (Pillar-I of Basel-III) assessment methodology, under which the definition and structure of regulatory capital has undergone significant amendments. However, Pillar-II and Pillar-III remain essentially unchanged with some minor inclusions.

6.1 Roadmap for Basel-III as per RBCA Guideline issued by Bangladesh Bank:

	2015	2016	2017	2018	2019	2020
Minimum Common Equity Tier-1 (CET-1) Capital Ratio		4.50%		4.50%		
Capital Conservation Buffer		0.625%	1.25%	1.875%	2.50%	2.50%
Minimum CET-1 plus Capital Conservation Buffer		5.125%	5.75%	6.375%	7.00%	7.00%
Minimum T-1 Capital Ratio		5.50%	6.00%	6.00%	6.00%	6.00%
Minimum Total Capital Ratio	10.00%	10.00%	10.00%	10.00%		
Minimum Total Capital plus Capital Conservation Buffer	10.00%	10.625%	11.25%	11.875%	12.50%	12.50%

7. Stress testing:

BRAC Bank conducts stress testing on an ongoing basis with a view to determine sensitivity and stability of its capital base. This technique is designed to ensure that the bank has enough capital to withstand unfavorable/unforeseen scenarios. Stress testing exercises are a routine practice in Bangladesh as an effective diagnostic and supervisory tool. The following situations are considered to assess the sensitivity of the bank's capital base with respect to each situation:

- Increase in NPLs due to default of a large borrower
- Increase in NPLs
- Increase in NPLs in two particular sectors
- Foreign exchange
- Negative shift in NPL categories
- Equity shocks
- Decrease in FSV in collateral
- Interest rates

The following methods are employed for measuring the impact of the above factors in an SRP context:

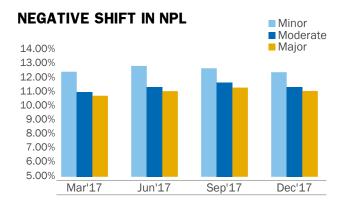

- a. Simple sensitivity tests that help determine shortterm sensitivity to a single risk factor.
- b. Scenario analyses that involve risk parameters (with low but positive probability), which change along a pre-defined scenario and the assessment of the impact of these parameters.

Stress testing is done assuming three different hypothetical scenarios comprising:

- a. Minor level shocks: These represent small shocks to the risk factors. The level for different risk factors can, however, vary.
- Moderate level shocks: These envisage medium level shocks and the level is defined in each risk factor separately.
- c. Major level shocks: These involve big shocks to all the risk factors and is also defined separately for each risk factor.

7.1 Negative shift in NPL categories:

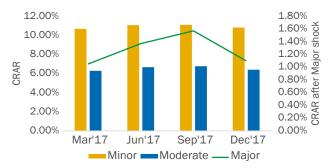

This parameter represents the loan shifting from one NPL category to the next NPL category. It is based on the assumption of 5%, 10% and 15% downward shift in the NPL categories in minor, moderate and major levels of shock, respectively. CRAR of BRAC Bank remains well above regulatory requirements upon absorbing all the three levels of shock.

7.2 Increase in NPLs:

This parameter represents the condition of the bank when NPLs increase significantly. It is based on the assumption that 3%, 9% and 15% of performing loans will be downgraded to the bad and loss category with 100% provisioning requirement in minor, moderate and major levels of shock, respectively. After the shock scenario, the Capital-to-Risk-Weighted Asset Ratio (CRAR) of BRAC Bank gets adversely impacted. In order to overcome this phenomenon, we are constantly working on improving our asset quality

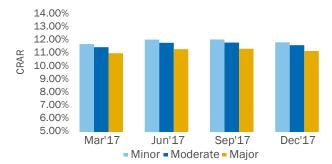

INCREASE IN NPL

7.3 Equity shock:

This metric represents the bank's status when the market value of its shares decline sharply. It is based on the assumption that the share price will change by 10%, 20% and 40% in minor, moderate and major levels of shock, respectively. Hence, considering the scenarios, BRAC Bank's CRAR remains above regulatory requirements after minor, moderate and major levels of shock.

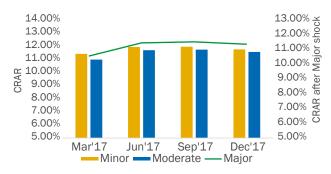

EQUITY SHOCK

7.4 Interest rate shocks:

This parameter represents the status of the bank when interest rates change significantly. It is based on the assumption that interest rates will change by 1%, 2% and 3% in minor, moderate and major levels of shock, respectively. CRAR of BBL remains above the minimum requirement even after undergoing minor, moderate and major levels of shock respectively.

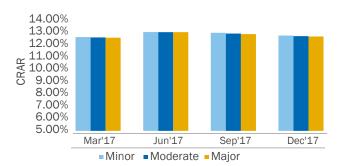

INTEREST RATE SHOCKS

7.5 Foreign exchange shocks:

This metric represents the status of the bank when exchange rates change significantly. It is based on the assumption that exchange rates will change by 5%, 10% and 15% in minor, moderate and major levels of shock, respectively. Hence considering the scenario, CRAR of BBL remains above the regulatory requirement after minor, moderate and major levels of shock respectively.

8. Risk Management Paper:

Bangladesh Bank, being the apex regulatory body for the banking industry of Bangladesh, acts as a catalyst for scheduled banks by providing regular guidance and procedures to mitigate risk. To enrich the risk management practice among banks, Bangladesh Bank has introduced a Risk Management Paper (RMP). RMP encompasses a bank's position based on several parameters under various risk indicators. RMP also enables banks to keep a track of the various risk indicators that, in turn, enables them to forecast business opportunities and threats. BRAC Bank submits its RMP to Bangladesh Bank on a monthly as well as half-yearly basis. Under the RMP, the following factors/issues, among others, are considered, each having numerous parameters:

- Capital adequacy
- Operational risk
- Credit risk
- Audit compliance
- Off-shore banking operations
- Reputational risk
- Market risk
- Money laundering risk
- Information about profitability (YTD)
- Compliance of risk management
- Liquidity risk
- Performance of Board of Directors

9. Internal Risk Reporting

There exists a dedicated team within the bank, which not only helps ensure proper risk escalation, mitigation and circumvention but also monitors the overall operational risks that are likely to occur across various business operations. Every month, probable as well as existing risks factors occurring across the bank are raised onto a common platform for the top management's immediate attention and guidance. Upon proper resolution and ensuring that adequate mitigation measures are put in place, they are further placed for Board-level oversight. There is also an emergency risk resolution platform that takes care of ad-hoc and unexpected risk events thereby ensuring that risks are identified, measured, mitigated and controlled on a holistic basis.

Bangladesh Bank, being the apex regulatory body for the banking industry of Bangladesh, acts as a catalyst for scheduled banks by providing regular guidance and procedures to mitigate risk.

Disclosure on Green Banking

The banking sector is one of the major sources of financing industrial projects, such as steel, paper, cement, chemicals, fertilizers, power, textiles, etc., which cause maximum carbon emissions. Therefore, the banking sector can fulfill an intermediary role between sustaining economic development on the one hand and improving environmental protection on the other,

Sustainable banking is, by definition, deploying funds with responsible consciousness about environmental, cultural and social impact and with active support from investors and other constituents of the ecosystem who aspire to make a difference by meeting present day needs without compromising on those of future generations.

In respect of this, ecological conservation and sustainable development are globally regarded as overriding imperatives for protection of our planet from the ill-effects of global-warming and climate change. Moreover, banks and financial institutions can play a pivotal role in global efforts to mitigate environmental risks and make the planet a better place to live.

Organizations worldwide are increasingly becoming interested in implementing strategies that help address environmental issues that contribute towards sustainable development. A major step in this direction is the emergence of prominent environmentally- and socially-responsible banks or 'green' banks. Thus, green banking is a broad concept that principally refers to those practices and guidelines that make banks environmentally-, economically- and socially-responsible. The concept also emphasizes on banking institutions to extend their reach to those industry segments that

would help in the overall reduction of external carbon emissions and also enable the minimization of their carbon footprint.

1. Purpose and scope:

The purpose of this disclosure is to demonstrate our banking philosophy that we adhere to in our daily operations. In parallel, it is also a part of our regulatory compliance practice. Importantly, our green banking practices are comprehensively aligned with regulatory guidelines and international best practices. In the year 2017, we explored several unchartered territories and embraced bold new strides in the realm of green banking. Moreover, new initiatives were taken to bolster the nation's economic growth and development in a more sustainable manner, while keeping in mind the expectations of key stakeholders as well as shareholders.

2. Introduction:

The most devastating phenomenon that the world is facing today is climate change. There have been continuous endeavors the world over to measure and mitigate climate change risks caused by human activities. Many countries, including Bangladesh, have committed to control the impact of climate risks. As socially-aware and ecologically-responsible corporate citizens, Bangladeshi banks have a major role and responsibility in supplementing governmental efforts towards ensuring substantial reduction in carbon emissions. Although banks are considered environmentfriendly and do not impact the ecology greatly through their internal operations, their external impact on the environment by way of their customer activities is substantial. The banking sector is one of the major sources of financing industrial projects, such as steel, paper, cement, chemicals, fertilizers, power, textiles, etc., which cause maximum carbon emissions. Therefore, the banking sector can fulfill an intermediary role between sustaining economic development on the one hand and improving environmental protection on the other, for promoting environmentally-sustainable and sociallyresponsible investments. In this context, 'Green banking'

refers to the banking business conducted in such areas and in a manner that helps the overall reduction of carbon emissions to minimize the carbon footprint. To aid the reduction of external carbon emissions, banks are looking to finance green technologies and those projects that aim to reduce pollution.

Attainment of the United Nation's Sustainable Development Goals (SDGs) has become an agenda of paramount significance across the globe. Hence, maintaining pace in this global endeavor, our Government is also amply emphasizing on achieving the goals, as enshrined in the SGDs, at the national level. In order to do so, co-operation from multiple stakeholders is pivotal for success. In this regard, banks and financial institutions have a lot to contribute as they are usually considered to be the lifeblood of the economy. Unambiguously, the two fundamentals of sustainable banking include:

- Environmental friendly or 'Green banking'
- Corporate social responsibility (CSR)

Collective and concerted efforts from both these segments can ensure long-term sustainability in the financial sector. In light of this, Bangladesh Bank has taken a commendable step through which banks' Green Banking Unit (GBU) and CSR desk are encouraged to collaborate for more impactful outcomes and sustainable solutions. Hence, to bring greater efficiency in streamlining processes, as per the directives from the regulators, we have established a Sustainable Finance Unit (SFU) under the auspice of credit risk management.

3. Internal sustainability framework

At BRAC Bank, we established a Sustainable Finance Unit (SFU) and a committee, Sustainable Finance Committee (SFC), to oversee the activities of the SFU. Both the unit and the committee were formed upon the approval of the Board. The SFC consists of top management officials and is chaired by our Deputy Managing Director and CRO. SFU is guided by the Sustainable Finance Committee and works according to the 'Terms of Reference' set forth by Bangladesh Bank. The apex authority to monitor and supervise all sustainability activities within the bank is the Board Risk Management Committee (RMC). They are made aware and kept updated with regards to every sustainability issue of the bank.

Attainment of the United Nation's Sustainable Development Goals (SDGs) has become an agenda of paramount significance across the globe.

The Board RMC has been entrusted with the authority to approve budgets for green / CSR activities. SFC convenes every month to guide and oversee all SFU deliverables.

Having started its journey only last year in 2017, SFU has allotted more than BDT 5,400 million under green budget during the year, whereby the achievement rate is way more. The SFU activities comprise green financing, climate risk fund disbursal, marketing and providing training and capacity building platforms. Moreover, we have developed a comprehensive green strategic plan that guides us to actively explore every corner of the bank for efficiency improvements. For instance, we have installed solar panels in some of our SME branches and our dedicated infrastructure management team regularly checks the working condition of the solar panels. In addition, we are in the process of building rain water harvesting systems and installing solar panels across select branches too. Moreover, the consumption of water, paper and energy has been optimized as we strive to utilize these resources more efficiently and responsibly. As far as our in-house green management efforts are concerned, we cautiously adhere to the guidelines prescribed in our Green Office Guide. While all the aforementioned aspects are duly addressed, SFU also ensures the creation and management of a climate risk fund, signing of participatory agreement for on-lending/on-blending re-finance, green marketing and also work to establish green branches. With a large number of CSR activities under the purview of the SFU, we aim to touch more lives in the society and enhance the wellbeing of citizens.

On the other hand, being a proponent of environmentfriendly banking practices, we extensively promote and

offer alternate banking services such as internet banking, SMS banking and e-statements to our valued clients. Through these alternate delivery channels (ADCs), we strive to ensure less commuting and lower footfalls in our service outlets, thereby ensuring lesser pollution and carbon emissions due to limited vehicular movement. As a part of our 3P (People, Planet, Profit) philosophy, we constantly strive to provide people- and planet-friendly solutions for our customers. In our endeavor to promote green banking and help preserve our planet's ecology, we continuously undertake various initiatives to enroll our customers for green services.

3.1. SMS banking:

BRAC Bank's SMS banking platform is a service that enables customers to access their account information via their mobile phone. Through BRAC Bank's SMS banking, a BRAC Bank account holder can access his / her account's latest information, such as account balance, the last few transactions and a range of other financial information, by typing a pre-defined key letter (like 'A' for account balance and 'T' for the last few transactions, etc).

3.2. E-statement:

An e-statement is an electronic ledger of a bank account statement that is sent to a customer's registered email address every month. E-statements are a safer, faster and greener alternative to paper statements. BRAC Bank's e-statement service is completely secured (password protected), easier, faster and free of charge. In our endeavor to promote comprehensive green banking solutions, we have taken several initiatives to enroll our accountholders to e-statement services instead of dispatching paper-based account statements. This initiative is expected to incur significant cost savings as well as help improve our service quality.

3.3. Internet banking:

BRAC Bank's internet banking enables its customers to avail various services such as fund transfers, credit card bill payments, utility bill payments, account statements checking, etc., through the bank's website. Our internet banking platform is secured by a state-of-the-art two-factor authentication system.

4. Incorporation of ESRM into credit risk management

In 2017, Bangladesh Bank issued new ESRM guidelines with a vision of integrating sustainability into the credit risk management process. In this context, the year 2017 was considered to be a phase-in period for the implementation of 'Guidelines on ESRM' and, from 1 January 2018, the guidelines have become enforceable under the Bank Company Act, 1991. Whatever the

source of funds, these guidelines will represent the master framework for the bank in assessing E&S risks in credit proposals. In line with this new legislation, we extend credit facilities upon duly appraising each eligible borrower against E&S standards. It is worth mentioning that the number of projects applicable for the environmental and social due diligence (ESDD) and the projects being rated (i.e. E&S risk rating) have been appreciably increasing over time. E&S rating is an integral part of our credit appraisal process. Our prudent credit risk management team has established a robust end-toend process for the appraisal of borrowers. BRAC Bank, with the support from different local and foreign experts, has also arranged learning and capacity development programs for employees regarding the importance of ESRM into lending considerations. The procedure for incorporating the requirements of ESRM for sustainable credit risk management has been focused with high priority. There is a strong support system in place from our regulator for any sort of assistance and guidance required.

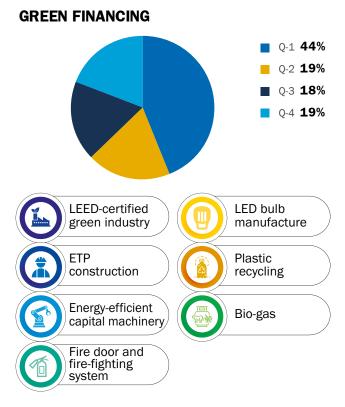

5. Green financing

Green financing can be referred to as financial investments flowing into sustainable development projects and initiatives, environmental products and policies that encourage the development of a more sustainable economy. Though not limited to it, green finance may include climate finance. It also refers to a wider range of other environmental objectives, for example, industrial pollution control or biodiversity protection. Combating climate change and environmental pollution are, without doubt, issues that are at the forefront of the global policy discourse. Today, the impact of climate change, particularly in a country like Bangladesh, is becoming evident more than ever before. By all accounts, Bangladesh remains a highly vulnerable nation affected by climate change and environmental pollution. There are specific sectors of the country that require intervention, namely, crops and fisheries, textiles and leather, brick manufacturing and renewable energy. In this context, we have strong support from the central bank. They offer various refinancing schemes for encouraging environment-friendly initiatives that enable entrepreneurs as well as banks to focus on green ventures.

BDT **11,000** mn

BRAC Bank's disbursements in green financing in 2017

BRAC Bank is aligned with the 'triple bottomline' approach. We emphasize on green financing and also strive to exceed our green financing targets set by the management. In the year 2017, we disbursed around BDT 11,000 mn in green financing (both direct and indirect). The investment areas included:

Green financing is considered to be the path to sustainable profits. Although green financing does not represent a substantial part of the industry, BRAC Bank strives to expand its footsteps in sustainable banking by means of actively engaging in green financing activities. Moreover, it also provides such services as:

Fact!

When it comes to supporting environmental causes, we have actively made donations for the flood-affected regions, directly and through the Prime Minister's Relief Fund. Moreover. BRAC Bank donated 50,000 blankets to help the cold-affected people as climate change is often attributed to causing severe cold spells in certain parts of Bangladesh. The bank also distributed 15,000 blankets in Nilphamari, Kurigram, Khulna and Barguna.

- Technical support to internal resources
- Technical support to clients (if required)
- Exploring green financing projects and providing advisory to clients
- Complying with the requirements of regulatory authorities with regards to green financing
- Assessing the scope and value of green projects

6. Capacity development programs and CSR

With the evolutionary nature of the banking business, it is imperative to constantly upgrade and update skills to align with a dynamic industry environment. Capacity building (or capacity development) is the process by which individuals and organizations obtain, improve and retain the skills and knowledge needed to do their jobs competently. This is precisely why more than 1,500 staff have been educated on E&S risk management and mitigation. By virtue of our affiliation with local and foreign counterparts, we ensure adaptation of best practices faster and with more efficiency. Our regulators also organize various training sessions by bringing professionals and experts from relevant fields.

Under capacity development, BRAC Bank has supported marketing campaigns in the digital space, i.e. Shohoz, Pickaboo and others. We have also partnered with e-commerce platform, Bagdoom.com and introduced the country's first-ever SME loan product for e-commerce under BRAC Bank – Bagdoom Merchant.

7. Conclusion

Banks are responsible corporate citizens and at BRAC bank we believe that every small 'green' step taken today will go a long way in building a greener tomorrow. We are certain that our proactive initiatives will assist to reduce our carbon footprint as well as build awareness and consciousness about the environment and the ecology. Green banking or ethical banking is indeed a strong approach for people to become more aware about global warming and will contribute to a better environment and make the planet a better place to live. There is definitely substantive opportunity in renewable energy technologies, emission reduction and reduced carbon transportation that can be progressively achieved with the cooperation from all sectors of the economy. Banks, being an integral part of our economy, must lead from the front. The concept of green banking is gaining momentum in Bangladesh and BRAC Bank is actively looking for ways to emerge as a pioneering green bank of Bangladesh.

Asset Liability Management Committee

The Asset Liability Management Committee (ALCO) comprises of Senior Management, which is responsible for overall Balance Sheet (Asset-Liability) management of the bank. Asset Liability Management desk, a unit of Treasury & Financial Institutions, analyzes the balance sheet composition and places recommendation to the ALCO through the Head of Treasury & Financial Institutions.

ALCO is comprised of the following members or their nominated representatives:

- Managing Director & CEO Chairman
- Head of Treasury and Financial Institutions Member Secretary
- Chief Financial Officer
- Chief Risk Officer
- Head of Corporate Banking
- Head of SME Banking
- Head of Retail Banking

The ALCO sits at least once in a month and whenever required to set and review strategies on ALM. Based on the analysis and views, the committee takes decisions to reduce balance sheet risk while maximizing return and keep the bank within all regulatory and internal limits. The major roles and responsibilities of the ALCO may be defined as follows:

- Monitor and review Balance sheet structure and composition to ensure efficiency
- Review of Deposit and Lending rate structure of the bank
- Ensure compliance of regulatory limits and ratios
- Decide on the major aspects of balance sheet structure, such as maturity and currency mix of assets and liabilities, mix of wholesale versus retail funding, deposit mix etc.
- Monitor and review the funding requirement of the bank considering business projections and take strategic decision accordingly
- Review contingency funding plan
- Understanding the market dynamics i.e. competition, potential target market etc.

		The Risk Management Committee advised that Relationship Managers (RM) of Corporate Division must ensure the client stock reports to be given to CAD.
		The Committee advised Credit Administration Department (CAD) to present the "Credit Inspection & Monitoring Report" in the Enterprise Risk Management Committee (ERMC) meeting before placing it in the RMC.
		The Head of CAD discussed the challenges that are being faced currently in the Credit Administration Department. The Committee suggested HoCAD to prepare & provide a formal proposal with the help of CRO regarding the requirements to overcome the challenges. The proposal/report must contain but not limited to:
		 Summary of HoCAD's previous expertise, current BBL CAD processes.
		 Finally come up with the "gap analysis" after analyzing the previous point together.
		 The report needs to have the responsibility/accountability matrix.
		Then the proposal for requirements after doing gap analysis.

Disclosure on Risk Based Capital under Basel III

For the Year Ended on December 31, 2017

Background of Market Discipline

Use of excessive leverage, gradual erosion of level and quality of capital base, insufficient liquidity buffer, procyclicality and excessive interconnectedness among systemically important institutions are identified as reasons of bank failures. In response to manage this, Bank for International Settlements (BIS) came up with new set of capital and liquidity standards in the name of Basel III. Bangladesh Bank vide its BRPD Circular No.18 dated December 21, 2014 implemented revised regulatory capital framework for banks in line with Basel III in Bangladesh with effect from January 01, 2015. Implementation process of this framework has started in January 2015 and will continue till December 2019. As part of Basel-III compliance, Pillar III- Market Discipline is formulated with a view to establish more transparent and more disciplined financial market, so that stakeholders can assess the position of a bank regarding holding of assets and to identify the risks relating to the assets and capital adequacy to meet probable loss of assets. The purpose of Market Discipline is to complement the minimum capital requirements and the supervisory review process. Providing accurate and timely information related to liquidity, solvency, performance and risk profile of a bank is of paramount significance for all stakeholders.

In compliance with the 'Revised Guidelines on Risk Based Capital Adequacy (RBCA)' issued by Bangladesh Bank in December 2014, Banks in Bangladesh have formally entered into the Basel III regime from 1st January 2015. The new capital and liquidity standards have greater business implications for banks. BRAC Bank Limited (BBL) has also adopted Basel III framework as part of its capital management strategy in line with the revised guideline. Under this framework, the bank has to maintain 2.5 percent additional capital buffer with the minimum capital requirement of 10%. Besides, in order to avoid building-up excessive on-and off-balance sheet leverage, the bank is required to maintain minimum 3 percent leverage ratio. Here, Leverage Ratio expresses total tier-I capital (after related deduction specified by BB) to total exposure i.e. on balance sheet and off-balance sheet exposure (after related deduction specified by BB) which is to be submitted to Bangladesh Bank on quarterly basis. All these aspects are required to be well formulated and shared with the valued stakeholders for better transparency and accountability.

Hence, to fulfill this objective, this Market Discipline disclosure under Basel III is made following 'Guidelines on Risk Based Capital Adequacy (Revised Regulatory Capital Framework for banks in line with Basel III)' for banks issued by Bangladesh Bank in December 2014.

Consistency and Validation

The quantitative disclosures are made on the basis of consolidated audited financial statements of BBL and its Subsidiaries for the year ended on December 31, 2017 and prepared in accordance with the relevant International Accounting and Financial Reporting Standards and related circulars/instructions issued by Bangladesh Bank from time to time. The assets, liabilities, revenues and expenses of the subsidiaries are combined with those of the parent company (BBL), eliminating inter-company transactions. The financial statements of the Bank have been prepared in accordance with the "First Schedule (Sec-38)" of the Banking Companies Act 1991 and amendment therein 2007 and 2013, BRPD Circular # 14 dated 25 June, 2003, other Bangladesh Bank Circulars, International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS) adopted by the Institute of Chartered Accountants of Bangladesh (ICAB), etc. The Bank complied with the requirements of laws and regulations from various Government bodies.

Assets of the subsidiaries were risk weighted and equities of subsidiaries were crossed out with the investment of BBL while consolidating. Therefore, information presented in the 'Quantitative Disclosures' section can easily be verified and validated with corresponding information presented in the consolidated audited financial statements 2017 of BBL and its Subsidiaries along with separate audited financial statements of the bank available on the website of the bank (www. bracbank.com). The report is prepared once a year and is available in the website.

2. Capital Structure

Qualitative Disclosure

a) Summary information on the terms and conditions of the main features of all capital instruments, especially in the case of capital instruments eligible for inclusion in CET1, Additional Tier 1 or Tier 2. The Basel Committee raised the resilience of the banking sector by strengthening the regulatory capital framework, building on the three pillars of the Basel II framework. The reforms raised both the quality and quantity of the regulatory capital base and enhanced the risk coverage of the capital framework. The regulatory capital under Basel-III is composed of (I) Tier-1 (Going-concern Capital) and (II) Tier-2 (Gone-concern Capital). From regulatory capital perspective, going-concern capital is the capital which can absorb losses without triggering bankruptcy of the Bank and gone-concern capital is the capital which will absorb losses only in a situation of liquidation of the bank.

The capital structure of the bank is categorized into two tiers: Tier 1 and Tier 2 Capital, as per the Risk Based Capital Adequacy Guideline of Bangladesh Bank. The components of total regulatory capital are enumerated as under:

◆ Tier 1 Capital (going concern capital)

◆ Tier 1 Capital (going concern capita)

Tier 1 Capital: This form of capital can absorb losses without triggering bankruptcy of the bank. Hence, it is the core measure of a bank's financial strength from regulator's point of view. The components of Tier 1 Capital are given below:

Common Equity Tier 1 (CET1):

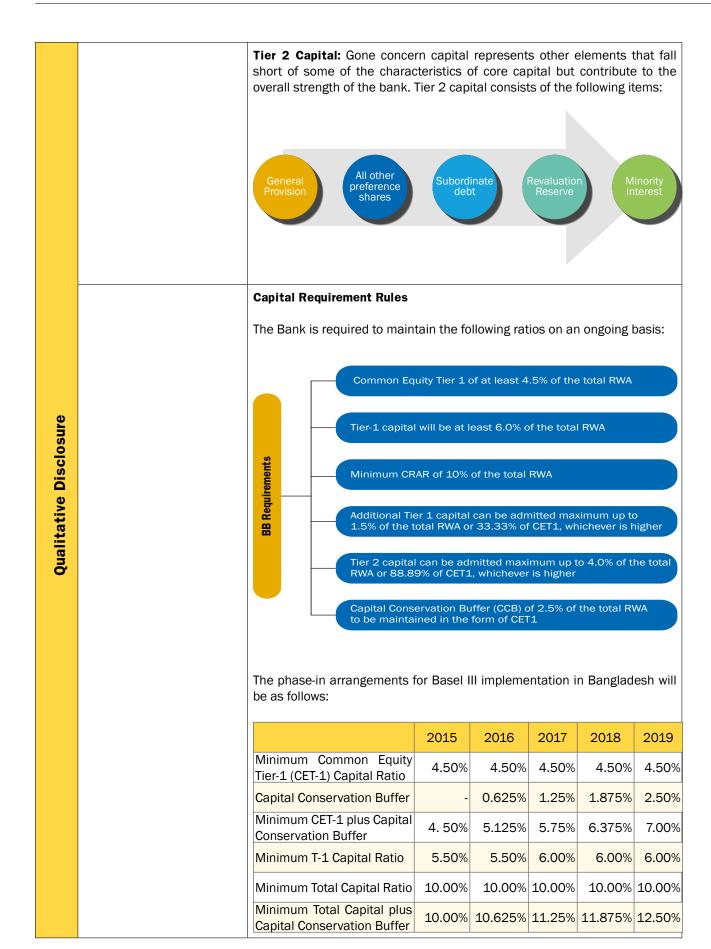

- 1. Paid up capital
- 2. Non-repayable share premium account
- 3. Statutory reserve
- 4. General reserve
- 5. Retained earnings
- 6. Dividend equalization reserve
- 7. Minority interest in subsidiaries

Additional Tier 1 (AT1):

Non-cumulative irredeemable preference share

Instruments issued by banks that meet the qualifying criteria for AT1 (the instrument is perpetual i.e. no maturity date)

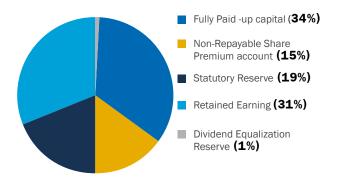

Minority interest (AT1 issued by consolidated subsidiaries to the third parties)

3. Capital Adequacy

Qualitative Disclosure

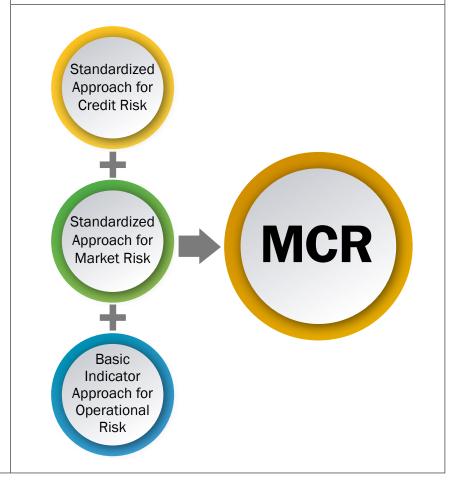

a) A summary discussion of the bank's approach to assessing the adequacy of its capital to support current and future activities.

BRAC Bank Limited with its focused strategy on risk management has always been consistent in maintaining capital adequacy ratio above the regulatory requirements. BRAC Bank Limited has been successfully managing the incremental growth of the Risk Weighted Assets by ensuring diversification of the portfolio in SME, Retail and Corporate segments. However, RWA is also managed by taking collaterals against loans. We strive to ensure external credit rating is duly done by the borrowers.

BRAC BANK LIMITED

The bank has adopted Standardized Approach (SA) for computation of capital charge for credit risk and market risk, and Basic Indicator Approach (BIA) for operational risk. Assessment of capital adequacy is carried out in conjunction with the capital adequacy reporting to the Bangladesh Bank.

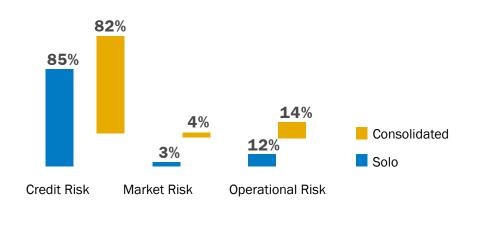

The bank's policy is to manage and maintain its capital with the objective of maintaining strong capital ratio and high rating. The bank maintains capital levels that are sufficient to absorb all material risks. The bank also ensures that the capital levels comply with regulatory requirements and satisfy the external rating agencies and other stakeholders including depositors. The main objective of the capital management process in the bank is to ensure that Bank has adequate capital to meet up its all sorts of obligations any time

Capital Requirement Under Pillar I

4. Credit Risk

Qualitative Disclosure

a) The general qualitative disclosure requirement with respect to credit risk:

Since 2005 we have a lending policy in place for the management of credit risk in the bank. This policy is reviewed every year. Loan processing system in our bank is centralized. Where the Relationship Manager (RM) markets for business keeping in mind the 5 Cs in a customer, then the RM prepares credit proposal and sends to Credit Risk Management (CRM) for analysis. CRM analyzes the proposal, decision is made (Approved/Declined/Query provided) and approved as per Delegation of Authority. Finally, documentation & disbursement are being done by Operation division. In each of the aforementioned step, very stringent and rigorous risk assessment is done. Whereby, we strive to eliminate every possibility of credit risk. Moreover, there is a Lending cap to single borrower/group borrower exposure limit fully complying as stipulated by the regulators.

Before approving any facility to a borrower, we follow a very robust and rigid credit assessment process. Starting from accumulating and analyzing borrower's business information, Business prospect, present scenario, Market position, market reputation, Industry growth and Peer group comparison, we embark in any deal. At the same time Experience & skill of Sponsor Directors and Key Management in primary business, succession plan, Financial statement analysis including projected cash flow and opportunity, CIB Report check, Search Report check, Requirement of loan, proposed facility, justification of requirement & facility structuring and related such avenues are closely scrutinized. If the status of the client is deemed to be satisfactory, all documents are prepared and negotiations are undertaken. The relationship manager visits the factory (for manufacturing concerns) or retail outlets (for trading concerns) to see if the conditions are satisfactory and justifiable to support facilities. To maintain thorough knowledge of factory / warehouse a visit report is prepared in this regard. Stock Verification Report is also prepared and record is kept in customer's file. The environmental and social aspects are also considered while opting for any lending decision.

Other banks' liability position and status, other banks' sanction advice. Credit risk grading, External rating (for Large & Medium Enterprise customer) Information, Proposed Security analysis, Compliance of regulatory and internal policy guidelines and relevant such covenants are considered before extending any credit facility. These are all done with the sole intention to combat credit risk.

i) Definitions of past due and impaired (for accounting purposes);

Credit risk is the risk of financial losses resulting from the failure by a client or counterparty to meet its contractual obligations to the Bank. Credit risk arises from the Bank's dealings with or lending to corporate, individuals, and other banks or financial institutions.

Interest on loans and advances is calculated daily on product basis but charged and accounted monthly and quarterly on accrual basis. Classification and provisioning for loans and advances is created based on the period of arrears by following Bangladesh Bank BRPD circulars no. 14, of 23 September 2012, 15 of 23 September 2012, 19 of 27 December 2012 and 05 of 29 May 2013 respectively. This is also reviewed by the management. Interest on classified loans and advances is calculated as per BRPD circular No. 27, dated August 31, 2010 and recognized as income on realization as per BRPD circular no. 14 and 15, dated September 23, 2012. Large loans are defined as number of clients with amount outstanding and classification status to whom loans and advances sanctioned exceeds 10% of the total capital of the Bank. With a view to strengthening credit discipline and bring classification and provisioning regulation in line with international standard, an apt classification and provisioning mechanism was undertaken as per Bangladesh Bank circulars issued from time to time. In this regard, all the loans and advances/investments are grouped into four categories for the purpose of classification, namely i) Continuous Loan, ii) Demand Loan, iii) Fixed Term Loan and iv) Short-term Agricultural and Micro Credit. They are classified as follow:

	Loan Classification				
Type of Facility	Sub Standard	Doubtful	Bad & Loss		
	Overdue period	Overdue period	Overdue period		
Continuous Loan & Demand Loan	3 months or more but less than 6 months	6 months or more but less than 9 months	9 months or more		
Fixed Term Loan more than Tk. 1 million	3 months or more but less than 6 months	6 months or more but less than 9 months	9 months or more		
Fixed Term Loan up to Tk. 1 million	6 months or more but less than 9 months	9 months or more but less than 12 months	12 months or more		
Short Term Agricultural & Micro Credit	12 months or more but less than 36 months	36 months or more but less than 60 months	60 months or more		

ii) Description of approaches followed for specific and general allowances and statistical methods;

Provision for loans and advances is created for covering the bank from possible loan losses in the future. General provision is made on the outstanding amount of loans and advances without considering the classification status following the prescribed rate of Bangladesh Bank. Classified loans and advances of the banks are categorized as Sub-Standard, Doubtful and Bad/Loss as per Bangladesh Bank circulars. For loans which are classified as sub-standard, doubtful or bad/loss, specific provision is created netting off security value and interest suspense from the amount outstanding. Provision for off balance sheet items is made as per BRPD circular no. 14 of September 2012 for covering the bank for possible losses on off balance sheet items in the future. Latest BB circulars are followed diligently. Interest accrued on Sub-Standard, Doubtful and Bad/Loss loans is transferred to interest suspense account and not considered as interest income. This interest is recognized as interest income when it is realized in cash by the bank. Loans and advances are written off to the extent that (i) there is no realistic prospect of recovery, (ii) and against which legal cases are filed and classified as bad loss as per BRPD circular no. 02 dated 13 January 2003 and 13 dated 07 November 2013. These write off however, will not undermine/affect the claim amount against the borrower. Detailed memorandum records for all such write off accounts are meticulously maintained and followed up.

Qualitative Disclosure

At each balance sheet date, BRAC Bank Limited assesses whether there is objective evidence that a financial asset or a group of financial assets i.e. loans and advances, off balance sheet items and investments are impaired. A financial asset or groups of financial assets are impaired and impairment losses are incurred if there is objectives evidence of impairment as a result of a loss event that occur after the initial recognition of the asset up to the balance sheet date; the loss event had an impact on the estimated future cash flows of the financial assets or the group of financial assets; and a reliable estimate of the loss amount can be made. In the event of impairment loss, the bank reviews whether a further allowance for impairment should be provided in the profit and loss statement in addition to the provision made based on Bangladesh Bank guidelines or other regulatory requirements.

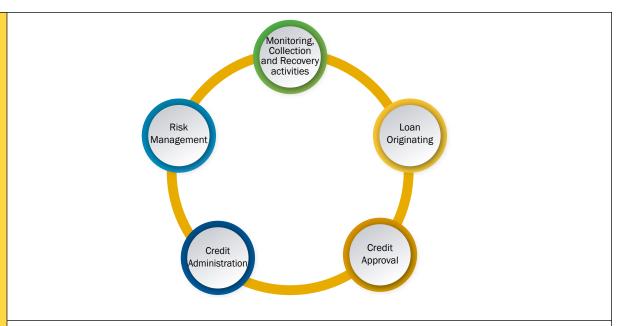

The bank is required to maintain the following general and specific provision in respect of classified and unclassified loans and advances / investments on the basis of Bangladesh Bank guidelines issued from time to time:

iii) Discussion of the bank's credit risk management policy;

Method used to measure credit risk: As per Bangladesh bank's guideline, the bank follows Standardized Approach for measurement of credit risk adopting the credit rating agencies as External Credit Assessment Institutions (ECAI) for claims on banks and FIs, corporate and eligible SME customers, and Credit Risk Mitigation against the financial securities and guarantees of loan exposure.

Credit Policy: BRAC Bank Limited is managing its Credit Risk through a Board directed and approved Credit Policy in line with the Bangladesh Bank Core Risk Management Guidelines, which outlined robust processes and procedures to ensure the quality of its assets portfolio. The Credit Policy also contains the general principles to govern the implementation of detailed lending procedures and risk grading systems of the borrowers. And, as such, it specifically addresses the areas as depicted in the graphic.

Credit Risk Mitigation: Potential credit risks are mitigated by taking primary and collateral securities. There are other risk mitigation approaches like netting agreements and other guarantees. The legal certainty and enforceability of the mitigation approach are verified by the professionals of the respected fields. Collateral types which are eligible for risk mitigation include: cash; residential, commercial and industrial property; plant and machinery; marketable securities etc. Collaterals are physically verified by the bank officials. At the same time these are also valued by independent third party surveyor in accordance with the credit policy and procedures.

Credit Assessment and Grading: Know Your Client (KYC) is the first step to analyze any credit proposal. Banker-Customer relationship is established through opening of accounts of the customers. Proper introduction, photographs of the account holders/ signatories, passports etc., and all other required papers as per Bank's policy are obtained during account opening. Physical verification of customer address is done prior to credit appraisal. The entire process involves relationship teams of respective Asset Portfolio (Retail, SME and Corporate.) booking customer; the Credit Division conducting thorough assessment before placing for approval of the facility. Risk assessment includes borrower risk analysis, Industry risk analysis, financial risk analysis, security risk analysis, account performance risk analysis & environmental & social risk analysis of the Customer. Post-approval, the Credit Administration Department ensures compliance of all legal formalities, completion of documentation including security of proposed facility and finally disburses the amount. The above arrangement has not only ensured segregation of duties and accountability but also helps in minimizing the risk of compromise with quality of the credit portfolio.

Credit Risk Management: Conventionally, the core function of a Credit Risk Management (CRM) Team is to optimize the risk adjusted return from Bank's Loans and Advances by maintaining an appropriate standard in the underwriting process. However, the scope of BRAC Bank's CRM is not just limited to this. At BBL, a more holistic approach towards risk management is taken, where socioeconomic and environmental impacts of the decisions made are emphasized upon. This particular practice is the hallmark of BRAC Bank's credit risk management objective. We believe in development rather than growth, and sustainability rather than mere financial return from a transaction. We strive to create value rather than be the consumer of the value. To achieve this goal, we manage the credit risk inherent in the entire portfolio of the bank as well as the risks associated with individual credit proposals or transactions. We believe that the effective management of credit risk is a critical component of a comprehensive approach to risk management. In the last couple of years, BRAC bank has been focusing on adopting environmental risk management programs through the assistance, guidance, and/or requirements provided by various international DFIs as well as clearly articulated regulatory guidelines. Bringing in social and environmental risk assessment into the credit approval process contributes to the wellbeing of the society. Moreover, as the lion share of the total revenue of BRAC Bank Limited comes particularly through SME lending, so the future prospect of the bank depends on quality of its asset portfolio. Thus efficient management of the Loans and Advances is of paramount importance for the bank.

There is a distributed collection model that consistently follows up with the borrowers for the timely repayments. A wing named 'Special Asset Management (SAM)' deals with nonperforming assets through amicable settlement, execution of decrees and arrangements of auctions to sell the mortgaged properties. SAM is also engaged to monitor Early Alert Accounts.

Final authority and responsibility for all activities that expose the bank to credit risk rests with the Board of Directors. The Board however delegated authority to the Managing Director and CEO or other officers of the credit risk management division. The Credit Policy Manual contains the core principles for identifying, measuring, approving, and managing credit risk in the bank and designed to meet the organizational requirements that exist today as well as to provide flexibility for future. The policy covers corporate, retail, small and medium enterprise exposures. Policies and procedures has structured and standardized credit risk management process both in obligor and portfolio level and also follow central bank guide line. Credit risk management function is Independent of business origination functions to establish better internal control and to reduce conflict of interest.

5. Equities: Disclosure for banking book positions

Qualitative Disclosure

a) The general qualitative disclosure requirement with respect to equity risk, including:

i) Differentiation between holdings on which capital gains are expected and those taken under other objectives including for relationship and strategic reasons:

Investment in equity securities are broadly categorized into two parts:

- Quoted Securities: Common or Preference Shares & Mutual Fund) that are traded in the secondary market.
- ◆ Unquoted securities: These include shares of Central Depository Bangladesh Limited (CDBL), Industrial and Infrastructure Development Finance Co. Ltd., Bangladesh Rating Agency of Bangladesh Limited., VIPB Income Fund, IDLC Balanced Fund.
- ii) Discussion of important policies covering the valuation and accounting of equity holdings in the banking book. This includes the accounting techniques and valuation methodologies used, including key assumptions and practices affecting valuation as well as significant changes in these practices

The primary aim is to investment in these equity securities for the purpose of capital gain by selling them in future or held for dividend income. As per BRPD Circular no. 14 dated 25 June 2003 investments in quoted shares and unquoted shares are revalued at the year end at market price and as per book value of last audited balance sheet of that company respectively. Provision should be made for any loss arising from diminution in value of investments (portfolio basis), otherwise investments are recognized at cost.

Recognition and Measurement, investments in shares and securities generally fall either under "at fair value through Profit or Loss Account" or under "available for sale" where any change in fair value at the year end is taken to Profit or Loss Account or Revaluation Reserve Account respectively..

The valuation methods of Marking to Market for investment used are

i. Held to Maturity (HTM) and by definition the investments which have "Fixed or determinable" payments and fixed maturity that the group has the positive intent and ability to hold to maturity other than those that meet the definition of 'Held at amortized cost others' are classified as held to maturity. Recognition and Measurement, T-bills and T-bonds fall under the category of "held for trading (HFT)" and "held to maturity (HTM)" where any change in the fair value of held for trading is recognized in Profit or loss Account and amortized cost method is applicable for held to maturity using an effective interest rate.

- ii. Held for Trading (HFT) is a method where investments are acquired principally for the purpose of selling or repurchasing or in short trading or if designated as such by the management. After initial recognition, investments are measured at present value and any change in the fair value is recognized in the statement of income for the period in which it arises. Transaction costs, if any, are not added to the value of investments at initial recognition.
- iii. Revaluation: According to DOS Circular no. 05 dated 26 May 2008 and subsequent clarification in DOS Circular 05 dated 28 January 2009, loss on revaluation of Government securities (T-bills/recorded under RT-bonds) which are categorized as held for trading should be charged through profit or loss account, but any gain on such revaluation should be recorded under Revaluation Reserve Account. However, at the revaluation loss for that particular held for trading T-bills/T-bonds. T-bills designated as held to maturity are measured at amortized cost method but interest income/gain should be recognized through other reserve as a part of equity.

6. Interest Rate Risk in the Banking Book (IRRBB)

Qualitative Disclosure

a) The general qualitative disclosure requirement including the nature of IRRBB and key assumptions, including assumptions regarding loan prepayments and behavior of non-maturity deposits, and frequency of IRRBB measurement:

Interest rate risk affects the bank's financial condition due to adverse movements in interest rates of interest sensitive assets. Changes in interest rates have two types of impact:

- **i. Earnings perspective:** It affects a bank's earnings by changing its net interest income and the level of other interest sensitive income and operating expenses.
- **ii. Economic value perspective:** The economic value of future cash flows changes when interest rate changes.

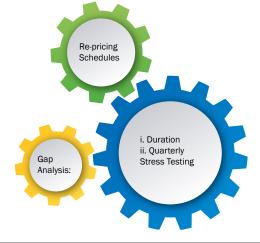

In BRAC Bank Limited, the Asset & Liability Management (ALM) unit under the supervision of Asset and Liability Committee (ALCO) is responsible for managing market risk arising from BRAC Bank's banking book activities. Our interest rate risk management involves the application of four basic elements in the management of assets, liabilities, and OBS instruments.

(a) appropriate senior management oversight

(b) adequate risk management risk measurement, monitoring, and control functions

(c) appropriate risk measurement, monitoring, and control functions

Techniques of Addressing IRRB: Following techniques for managing the IRRB in BRAC Bank Limited are applied

Re-pricing Schedules: It is the simplest techniques for measuring a bank's interest rate risk exposure and that is generating a maturity/re-pricing schedule that distributes interest-sensitive assets, liabilities, and OBS positions into a certain number of predefined time bands according to their maturity (if fixed-rate) or time remaining to their next re-pricing (if floating-rate). Those assets and liabilities lacking definitive re-pricing intervals (e.g. sight deposits or savings accounts) or actual maturities that could vary from contractual maturities are assigned to re-pricing time bands according to the judgment and past experience of the bank.

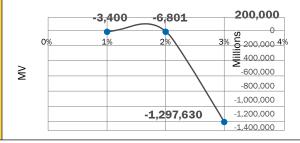

Gap Analysis: It helps to assess the interest rate risk of current earnings. To evaluate earnings exposure, interest rate-sensitive liabilities in each time band are subtracted from the corresponding interest rate-sensitive assets to produce a re-pricing "gap" for that time band. This gap is then multiplied by an assumed change in interest rates to yield an approximation of the change in net interest income that would result from such an interest rate movement.

- **i. Duration:** A maturity/re-pricing schedule is also used to evaluate the effects of changing interest rates on a bank's economic value by applying sensitivity weights to each time band. Typically, such weights are based on estimates of the duration of assets and liabilities that fall into each time band.
- **ii. Quarterly Stress Testing:** It is conducted on quarterly basis as per the directives of Bangladesh Bank to gain better insight into the vulnerable issue of IRRB.

7. Market Risk

Qualitative Disclosure

 a) Views of BOD on trading/ investment activities Market risk arises due to changes in the market variables such as interest rates, foreign currency exchange rates, equity prices and commodity prices. The financial instruments that are held with trading intent or to hedge against various risk, are purchased to make profit from spreads between the bid and ask price are subject to market risk.

We have Foreign Exchange Risk Management Guideline entirely customized as per our bank's need since 2004. The guidelines have been prepared as per Bangladesh Bank guidelines and appraised by our Board of Directors. All financial activities are susceptible to different degree of risks. Being a financial institution, to measure, monitor and manage these risks would be crucial for the survival and good health of the organization. Within the bank, treasury would be vested with the responsibility to measure and minimize the risks associated with bank's assets and liabilities. Managing foreign exchange risk would be one of the prime responsibilities of the treasury.

Liquidity Contingency plan and the guidelines of Bangladesh Bank in respect of CRR, SLR & Capital Adequacy are also there to guide in the proper direction. We have the Asset Liability Committee (ALCO) responsible for overall balance sheet (asset liability) risk management. Treasury would be responsible for managing the balance sheet as per recommendation of ALCO to minimize risk and maximize returns. The committee would call on a meeting at least once in every month to set and review strategies on ALM. The ALCO process or ALCO meeting reviews the ALCO paper along with the prescribed agendas. Head of treasury would put his views on whether the interest rates need to re-priced whether the bank needs deposit or advance growth, whether the growth on deposits and advances would be on short term or long term, what would be the transfer price of funds among the divisions, what kind of interbank dependency the bank would have. Based on the analysis and views, the committee would take decisions to reduce balance sheet risk while maximizing profits.

b) Methods used to measure Market limit and reviews compliance on a regular basis. The objective is to obtain the best balance of risk and return whilst meeting customers' requirements. There are several methods used to measure market risk and the bank uses those methods which deem fit for a particular scenario. For measuring interest risk from earnings perspective, the bank uses maturity gap analysis, Duration Gap analysis, Sensitivity Analysis. We use standardized (Rule Based) method for Calculating capital charge against market risks for minimum capital requirement of the bank under Basel-III.

At BRAC bank, the Board approves all policies related to market risk, sets

c) Market Risk Management system The Treasury Division manages market risk covering liquidity, interest rate and foreign exchange risks with oversight from Asset-Liability Management Committee (ALCO) comprising senior executives of the bank. ALCO is chaired by the Managing Director.

d) Policies and processes for mitigating market risk

Qualitative Disclosure

i. Asset Liability Management: BRAC Bank Limited gives adequate emphasis so that the level of balance sheet risks is effectively managed. Appropriate policies and procedures have been established as per the guidelines of Bank's Board of Directors (BOD) including relevant circular guidelines of Bangladesh Bank to control and limit these risks and proper resources are available for the evaluation and control of these risks. The Asset Liability Committee (ALCO) of the bank monitors Balance Sheet and liquidity risk of the bank.

ii. Foreign Exchange Risk Management: Foreign exchange risk (also known as FX risk, exchange rate risk or currency risk) is a financial risk that exists when a financial transaction is denominated in a currency other than that of the base currency. The risk is that adverse fluctuations in exchange rates may result in a loss in earnings. We have our own board approved policy for the management of FX risk.

The bank maintains various Nostro accounts in order to conduct operations in different currencies. The management of the bank sets limits for conducting Nostro account transactions. All Nostro accounts are reconciled on monthly basis and outstanding entries are reviewed by the management for its settlement/ adjustment. The position maintained by the bank at the end of the day is within the stipulated limit prescribed by the central Bank. Changes in market liquidity and/or interest rate exposes Bank's business to the risk of loss. Treasury department is vested with the responsibility to measure and minimize the risk associated with bank's assets and liabilities including Foreign Exchange Risk. All Treasury functions are clearly demarcated between Treasury Front Office and Back Office. The Front Office is involved only in dealing activities while the Back Office is responsible for related support and monitoring functions. All the Treasury Front and Back Office personnel are guided as per Bangladesh Bank Core Risk Management guidelines. And they have separate and independent reporting lines to ensure segregation of duties and accountabilities. Dealing room is equipped with Reuter's information, voice screen recorder.

8. Operational Risk

Qualitative Disclosure

a) Views of BOD on system to reduce Operational Risk

Operation risk is defined as the risk of losses resulting from inadequate or failed internal processes, people and system or from external events. This definition includes legal risk, but excludes strategic or reputation risk.

The Board of Directors (BOD) of BRAC Bank Limited and its Management firmly believe that efficient management of operational risks always contribute to the earnings of the bank and at the same time secure the interest of its customers and shareholders. To materialize this understanding into reality, there are dedicated risk management associates across the bank that consistently work for managing the Operational Risks using effective tools and techniques implemented through polices and processes.

b) Performance gap of executives and staffs

The bank has proper mechanism in place to identify the scope of improvement of the employees and executives and work towards addressing them on time. Development of human resources is pivotal for optimum efficiency and hence, BBL's employees are given with numerous learning and capacity development programs throughout the year by best resources available within the country and abroad. To reduce knowledge gap and assist in the development of our personnel, user friendly Operations Manual have been developed and enclosed with functional processes for all employees who are the end users of these processes. This is a critical initiative for the Bank because having a mapped out process enables users to operate more efficiently, enhances knowledge amongst staff and fills in the lapses in operations. All the policies and processes address clear responsibilities and accountabilities of all employees.

c) Potential external events

There are non-diversifiable external factors that can affect operations of the business directly or indirectly. BBL understand that business operates in an umbrella of inter connected socio-economic and political environment where macro-economic conditions, regulatory changes, change in demand, status of infrastructure have significant influence on bank's performance. The bank has separate mechanism to address such kind of events.

d) Policies and processes for mitigating operational risk

In BRAC Bank, a dedicated department under the Risk Management Division (RMD) consistently works in Operational Risk identification, assessment and implementing appropriate risk mitigation strategies across the bank. It helps to create awareness about various types of risks in pan bank and enhances management of significant risk exposures by escalating all risk issues timely and concisely to the MANCOM and Enterprise Risk Management Committee (ERMC). The team works in collaboration with all the departments in the bank for minimizing the Operational Risk exposures by collating information from key stakeholders of processes across all functions of the bank, Incident Reports, Potential Loss Reports, Internal Audit Reports, External Audit Reports and various other sources to identify gaps, risks, compliance and control failures to ensure reporting of significant risks and corporate governance issues.

Such maintenance of a bank-wide risk management framework enables every department to independently identify, assess and respond to changes in the operating environment.

Moreover, Internal Control and Compliance Division has key role in identifying and mitigating operational risk. This division works relentlessly under the guidance of Board Audit committee to manage operational risk issues of the bank. The audit committee delivers policies and directions from time to time to keep the operational efficiency of the bank up to the mark.

e) Approach for Calculating Capital Charges for Operational Risk Basic Indicator Approach (BIA) is followed to calculate the capital charges for Operational Risk as per the guidelines of Bangladesh Bank.

As per BIA, the capital charge for Operations Risk is a fixed percentage denoted by α (alpha) of average positive gross annual income of the bank over the past three years.

 $K = [(GI1 + GI2 + GI3)\square \alpha]/n$ Where:-

K = the capital charge under the Basic Indicator Approach

GI = only positive annual gross income over the previous three years (i.e. negative or zero gross income if any shall be excluded)

α= 15%

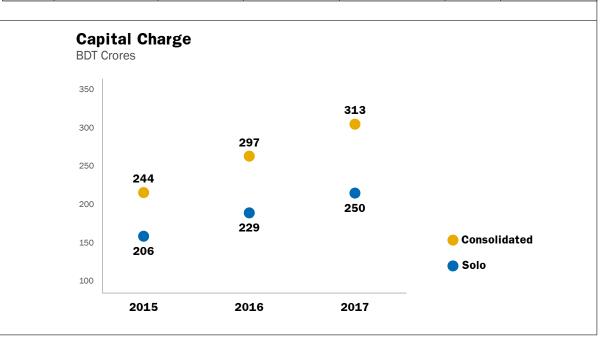

n = number of the previous three years for which gross income is positive.

9. Liquidity Ratio

Qualitative Disclosure

a) Views of BOD on system to reduce liquidity Risk

Liquidity risk is the risk that a given security or asset cannot be traded quickly enough in the market to prevent a loss (or make the required profit) or when a bank is unable to fulfill its commitments in time when payment falls due.

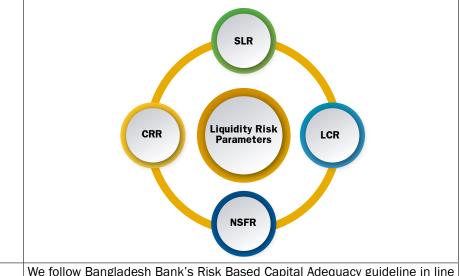

Types of Liquidity Risks

- a) Funding liquidity risk: the risk that a firm will be unable to meet its current and future cash flow and collateral needs without affecting its daily operations or its financial condition
- b) Market liquidity risk: the risk that a firm cannot easily offset or sell a position without incurring a loss because of inadequate depth in the market.

BBL's Board of Directors have always been giving utmost importance to minimize the liquidity risk of the bank. In order to reduce liquidity risk strict maintenance of Cash Reserve Ratio (CRR) and Statutory Liquidity Reserve (SLR) are also being emphasized on a regular basis. Apart from these as a part of Basel-III requirement Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) are also maintained under the guidance and sharp insight of our honorable Board of Directors.

Qualitative Disclosure

We follow Bangladesh Bank's Risk Based Capital Adequacy guideline in line with Basel III. We also follow DOS circular no. 1, dated 1st January, 2015, on Implementation of Basel III liquidity ratio. The calculation methodology is illustrated in detail in the guideline provided by Bangladesh Bank.

Liquidity Coverage ratio:

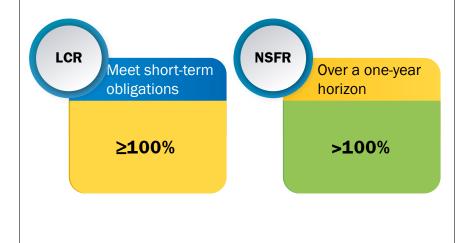

The liquidity coverage ratio (LCR) refers to highly liquid assets held by financial institutions in order to meet short-term obligations. The Liquidity coverage ratio is designed to ensure that financial institutions have the necessary assets on hand to ride out short-term liquidity disruptions. Banks are required to hold an amount of highly-liquid assets, such as cash or Treasury bonds, equal to or greater than their net cash over a 30 day period (having at least 100% coverage).

Net stable funding ratio (NSFR):

b) Methods used to measure Liquidity risk

Qualitative Disclosure

The NSFR presents the proportion of long term assets funded by stable funding and is calculated as the amount of Available Stable Funding (ASF) divided by the amount of Required Stable Funding (RSF) over a one-year horizon. This ratio must equal or exceed 100%.

c) Liquidity risk management system

Liquidity translates into the ability of a bank to generate fund for increasing assets and meet obligations as they come due, without incurring unacceptable cost. The fundamental role of banks in the maturity transformation of short-term deposits into long-term loans makes bank inherently vulnerable to liquidity risk. Effective liquidity risk management helps ensure a bank's ability to meet cash flow obligations, which are uncertain as they are affected by external events and other agents' behavior. Liquidity risk management is of paramount importance because a liquidity shortfall at single institution can have system-wide repercussions.

Responsibility of managing and controlling liquidity of BBL lies with Asset Liability Management Committee (ALCO) which meets at regular interval. Asset and Liability Management (ALM) desk closely monitors and controls liquidity requirements on a daily basis by appropriate coordination of funding activities and they are primarily responsible for management of liquidity in the bank.

d) Policies and processes for mitigating liquidity risk

Asset Liability Management (ALM) is the core job and integral part of Bank Management. Changes in market liquidity and in interest rate exposes Bank's business to the risk of loss, which may, in extreme cases, threaten the survival of the institution. As such, it is important that the level of balance sheet risks is effectively managed, appropriate policies and procedures are established to control and limit these risks, and proper resources are available for evaluating and controlling these risks. Asset Liability Management policy is prepared to monitor, measure and manage the risks associated with balance sheet and guards the Bank against any unforeseen loss/threat of survival. The Asset Liability Management policy was approved by the Board in August 2004. The policy is revised to accommodate regulatory and organizational change.

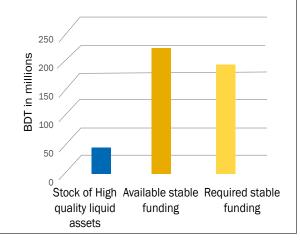

The Board of Directors approve the LRM Policy. Asset Liability Committee (ALCO) reviews the policy at least annually or as and when required by taking into consideration of any changes in the market dynamics and appropriateness and put recommendation for changes in policy to the Board for approval. The LRM Policy is guided by international best banking practices, local banking & regulatory environment and prudent guidelines of the central bank.

10. Leverage Ratio

Qualitative Disclosure

a) Views of BOD on system to reduce excessive leverage

In order to avoid building-up excessive on- and off-balance sheet leverage in the banking system, a simple, transparent, non-risk based leverage ratio has been introduced. The leverage ratio is calibrated to act as a credible supplementary measure to the risk based capital requirements.

Banks have a range of financial incentives to operate with high leverage. But it creates risk when it crosses a certain point. Therefore, the board' views that sound prudential controls are needed to ensure that the organization maintains a balance between its debt and equity. The board also believes that the bank should maintain its leverage ratio on and above the regulatory requirements which will eventually increase the public confidence in the organization.

BRAC Bank calculates leverage ratio on quarterly basis as per the RBCA guideline of the Bangladesh Bank and submits it to the Department of Offsite Supervision (DOS), Bangladesh Bank along with CRAR report.

b) Policies and processes for managing excessive on and off-balance sheet leverage

To manage excessive leverage, the bank follows all regulatory requirements for capital, liquidity, commitment, Advance Deposit Ratio (ADR), Maximum Cumulative Outflow (MCO), and other standards set by Bangladesh Bank. The aim is to ensure that the high leverage inherent in banking business models is carefully and prudently managed.

c) Approach for calculating exposure

Leverage ratio reflects the bank's tier 1 capital (the numerator) over total exposure (the denominator), which include its balance sheet exposures and certain off-balance sheet exposures. The capital measure for the leverage ratio is based on the Tier 1 capital.

The exposure measure for the leverage ratio follows the accounting measure of exposure. In order to measure the exposure consistently with financial accounts, the followings are applied by the bank:

- On balance sheet, non-derivative exposures are net of specific provisions and valuation adjustments
- 2. Physical or financial collateral, guarantee or credit risk mitigation purchased is not considered to reduce on-balance sheet exposure
- 3. Netting of loans and deposits is not considered.

Leverage Ratio: Tier 1 Capital (after related deductions)/Total Exposure (after related deductions)

BRAC BANK LIMITED

NOTES TO THE FINANCIAL STATEMENTS

As at and for the year ended 31 December 2017

SECTION - ONE: CORPORATE PROFILE AND SIGNIFICANT ACCOUNTING POLICIES

1.1 BRAC Bank Limited

BRAC Bank Limited (the "Bank" or "BRAC Bank") is a scheduled commercial bank established under the Banking Companies Act, 1991 and incorporated as a public company limited by shares on 20 May, 1999 under the Companies Act, 1994 in Bangladesh. The primary objective of the Bank is to carry on all kinds of banking businesses. The Bank could not start its operations till 3 June, 2001 since the activity of the Bank was suspended by the honorable High Court of Bangladesh. Subsequently, the judgment of the High Court was set aside and dismissed by the Appellate Division of the Supreme Court on 4 June, 2001 and accordingly, the Bank started its operations from 04 July, 2001. At present the Bank has 118 (One hundred and eighteen) branches, 68 SME service centers, 145 zonal offices and 457 SME unit offices. The registered address of the Bank is situated at Anik Tower, 220/B Tejgaon Gulshan Link Road, Tejgaon, Dhaka-1208. BRAC Bank Limited is listed with Dhaka Stock Exchange and Chittagong Stock Exchange as a publicly traded company from 28 January 2007 and 24 January 2007 respectively. A brief of the Subsidiaries and Associates of BRAC Bank Limited is provided in note - 1.2.

1.1.1 Principal Activities and Nature of operations of BRAC Bank Limited:

The principal activities of the Bank are banking and related activities including accepting customer deposits, Lending to Retail, SME and Corporate customers, trade financing, Lease financing, Project financing, issuing Letters of Credit, Inter Bank borrowing and lending, dealing in Government Securities, Equity shares etc. There have been no significant changes in the nature of the principal activities of the Bank during the financial year under review.

As a fully operational commercial bank, BRAC Bank Limited focuses on pursuing unexplored market niches in the Small and Medium Enterprises business, which hitherto has remained largely untapped within the country. Significant percentage of BRAC Banks clients had no prior experience with formal banking. With the view to reaching clients, the Bank has established 68 SME service centers and 457 SME Unit offices offering services in the heart of rural and urban communities and employed about 3,741 business loan officers.

The Bank operates under a "triple bottom line" agenda where profit and social responsibility shake hands as it strives towards a poverty free, enlightened Bangladesh.

1.1.2 Off Shore Banking Unit:

The Bank commenced its off-shore banking operation after obtaining permission from Bangladesh Bank in 2010. The Off-shore Banking Unit (OBU) is governed by the rules and guidelines of Bangladesh Bank. Apart from the reporting of OBU with Solo financial statements a separate Financial Statements of OBU is shown in Annexure I. The Principal activities of OBU are to provide all kinds of commercial banking services to its customers in Bangladesh in foreign currency.

1.1.3 Custodian Service:

The Bank obtained permission to work as a security custodian from Bangladesh Securities and Exchange Commission vide its certificate no. SC-10/2009, dated 12 November 2009 under the Securities and Exchange Commission (Securities Custodian Service) Rules 2003. Financial performance of Security Custodial Services have been separately reported in Annexure-J along with Bank's audited financial statements in compliance with the requirement u/s 10(2) of Security Custodial Services Rules 2003. The due certificate from external auditors has been obtained on internal control and financial statements of security custodial operations of the Bank and annexed with the financial statements.

2 Basis of preparation of Financial Statements:

2.1 A summary of accounting principle and policies which have been applied consistently (Unless otherwise stated), are set out below:

2.1.1 Statement of Compliance and basis of preparation

The financial statements of the Bank have been prepared in accordance with the "First Schedule (Sec-38)" of the Banking Companies Act 1991 and amendment therein 2007 and 2013, BRPD Circular # 14 dated 25 June, 2003, other Bangladesh Bank Circulars, International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS) adopted by the Institute of Chartered Accountants of Bangladesh (ICAB), etc.

The Bank complied with the requirements of following laws and regulations from various Government bodies:

- The Banking Companies Act, 1991 and amendment thereon
- ii) The Companies Act, 1994
- iii) Rules and Regulations Issued by Bangladesh Bank.
- iv) Bangladesh Securities and Exchange Rules 1987, Bangladesh Securities and Exchange ordinance 1969, Bangladesh Securities and Exchange Act 1993, Bangladesh Securities and Exchange Commission IPO Rules 2006.
- v) The Income Tax ordinance, 1984 and amendment thereon
- vi) The Value Added Tax Act, 1991 and amendment thereon
- vii) Dhaka Stock Exchange Limited (DSE), Chittagong Stock Exchange limited (CSE) and Central Depository Bangladesh Limited (CDBL) rules and regulations.
- viii) Financial Reporting Act 2015

As such the Group and the Bank has departed from those contradictory requirements of BAS and BFRS in order to comply with the rules and regulations of Bangladesh Bank which are disclosed below:

i) Investment in shares and securities

BAS/BFRS: As per requirements of BAS 39 Financial Instruments: Recognition and Measurement, investments in shares and securities generally fall either under "at fair value through Profit or Loss Account" or under "available for sale" where any change in fair value at the year end is taken to Profit or Loss Account or Revaluation Reserve Account respectively.

Bangladesh Bank: As per BRPD Circular no. 14 dated 25 June 2003 investments in quoted shares and unquoted shares are revalued at the year end at market price and as per book value of last audited balance sheet of that company respectively. Provision should be made for any loss arising from diminution in value of investments (portfolio basis); otherwise investments are recognized at cost.

ii) Revaluation gain/loss on Government securities

BAS/BFRS: As per requirement of BAS 39 Financial Instruments: Recognition and Measurement, T-bills and T-bonds fall under the category of "held for trading (HFT)" and "held to maturity (HTM)" where any change in the fair value of held for trading is recognized in Profit or loss Account and amortized cost method is applicable for held to maturity using an effective interest rate.

Bangladesh Bank: According to DOS Circular no. 05 dated 26 May 2008 and subsequent clarification in DOS Circular 05 dated 28 January 2009, loss on revaluation of Government securities (T-bills/recorded under RT-bonds) which are categorized as held for trading should be charged through profit or loss account, but any gain on such revaluation should be recorded under Revaluation Reserve Account. However, at the revaluation loss for that particular held for trading T-bills/T-bonds. T-bills designated as held to maturity are measured at amortized cost method but interest income/gain should be recognized through other reserve as a part of equity.

iii) Provision on loans and advances

BAS/BFRS: As per BAS 39 Financial Instruments: an entity should start the impairment assessment by considering whether objective evidence of impairment exist for financial assets that are individually significant. For financial assets which are not individually significant, the assessment can be performed on an individual or collective (portfolio) basis.

Bangladesh Bank: As per BRPD Circular no. 14 dated 23 September 2012, BRPD Circular no. 19 dated 27 December 2012, BRPD Circular no. 05 dated 29 May 2013 and BRPD Circular no. 16 dated 18 November 2014 a general provision at 0.25%-5% under different categories of unclassified (standard/SMA loans) should be maintained regardless of objective evidence of impairment. Also, specific provision for sub-standard loan, doubtful loans and losses should be provided at 20%, 50% and 100% respectively for loans and advances depending on the duration of overdue. Moreover, a general provision at 1% should be provided for all off balance sheet exposures. Such provision policies are not specifically in line with those prescribed by BAS 39.

iv) Other comprehensive income:

BAS/BFRS: As per BAS 1 Presentation of Financial Statements: other comprehensive income is a component of financial statements or the elements of other comprehensive income are to be included in single comprehensive income statements.

Bangladesh Bank: Bangladesh Bank has issued financial templates for the financial statements which would be followed by all banks. The templates of financial statements issued by Bangladesh Bank do not include other comprehensive income nor are the elements of other comprehensive income allowed to be included in single other comprehensive income (OCI) statements. As such the bank does not prepare the other comprehensive income statement.

v) Financial Instruments - presentations and disclosure

In several cases Bangladesh Bank guidelines categories, recognize, measure and present financial instruments differently from those prescribed in BAS 39 Financial Instruments. As such some disclosure and presentation requirements of BFRS 7 Financial Instruments: Disclosures and BAS 32 Financial Instruments: Presentation, cannot be made in the accounts.

vi) REPO transactions

BAS/BFRS: When an entity sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or similar assets) at a fixed price on a future date (REPO or stock lending), the arrangement is accounted for a deposit, and the underlying asset continues to be recognized in the entity's financial statements. This transaction will be treated as loan and the difference between selling price and repurchase price will be treated as interest expense.

Bangladesh Bank: As per DOS Circular letter no. 6 dated 15 July 2010 and subsequent clarification in DOS circular no. 2 dated 23 January 2013, when a bank sells a financial asset and simultaneously enters into an agreement to repurchase the asset (or a similar asset) at a fixed price on a future date (repo or stock lending), the arrangement is accounted for as a normal sales transactions and the financial assets are derecognized in the seller's book and recognized in the buyer's book.

However, as per DMD circular letter no. 7 dated 29 July 2012, non primary dealer banks are eligible to participate in the Assured Liquidity Support (ALS) programme, whereby such banks may enter collateralized repo arrangements with Bangladesh Bank. Here the selling bank accounts for the arrangement as a loan, thereby continuing to recognize the asset.

vii) Financial guarantees:

BAS/BFRS: As per BAS 39 Financial Instruments: Recognition and Measurement, financial guarantees are contracts that require an entity to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the term of debt instruments. Financial guarantee liabilities are recognized initially at their fair value, and the initial fair value in amortized over the life of the financial guarantee. The financial guarantee liability is subsequently carried at the higher of this amortized amount and the present value of any expected payment under the guarantee has become probable. Financial guarantees are prescribed to be included within other liabilities.

Bangladesh Bank: As per BRPD circular 14, dated 25 June 2003, financial guarantees such as Letter of Credit, Letter of Guarantee should be treated as off balance items. no liability is recognized for the guarantee except the cash margin.

viii) Cash and Cash equivalents

BAS/BFRS: Cash and cash equivalents items should be reported as cash item as per BAS 7 Statement of Cash Flows.

Bangladesh Bank: Some highly liquid assets such as money at call and short notice, T-bills, prize bonds are not prescribed to be shown as cash and cash equivalents rather shown as face item in the balance sheet. However, in the cash flow statement, money at call and short notice and prize bonds are shown as cash and cash equivalents beside cash in hand, balance with Bangladesh Bank and other banks.

ix) Non banking assets

BAS/BFRS: There is no particular/specific guideline about non banking assets in BAS/BFRSs.

Bangladesh Bank: As per BRPD circular no. 14, dated 25 June 2003, there must exist a face item named non banking assets.

x) Cash flow statement

BAS/BFRS: As per BAS 7 Statement of Cash Flows, Cash flow statement can be prepared either in direct method or in indirect method. The presentation is selected to present these cash flows in a manner that is most appropriate for the business or industry. The method selected is applied consistently.

Bangladesh Bank: As per BRPD 14, dated 25 June 2003, cash flow should be a mixture of direct and indirect method.

xi) Balance with Bangladesh Bank:

BAS/BFRS: Balance with Bangladesh Bank should be treated as other asset as it is not available for use in day to day operations as per BAS 7 Statement of Cash Flows.

Bangladesh Bank: Balance with Bangladesh Bank is treated as cash and cash equivalents.

xii) Presentation of intangible asset

BAS/BFRS: Intangible asset must be identified and recognized, and the disclosure must be given as per BAS 38 Intangible Assets.

Bangladesh Bank: There is no requirement for regulation of intangible assets in BRPD circular 14, dated 25 June 2003.

xiii) Off Balance Sheet items

BAS/BFRS: no requirement of disclosure for off balance sheet items in any BFRS; hence there in is no requirement of disclosure of off balance sheet items.

Bangladesh Bank: As per BRPD circular no. 14, dated 25 June 2003, off balance sheet items e.g. Letter of Credit, Letter of Guarantee, Acceptance should be disclosed separately on the face of balance sheet.

xiv) Disclosure of appropriation of profit

BAS/BFRS: There is no requirement to show appropriation of profit on the face of statement of Profit and Loss Account.

Bangladesh Bank: As per BRPD circular no. 14, dated 25 June 2003, an appropriation of profit should be disclosed on the face of profit and Loss Account.

xv) Loans and Advance Net of Provision

BAS/BFRS: Loans and advances should be presented net of provision.

Bangladesh Bank: As per BRPD circular no.14, dated 25 June 2003 provision on loans and advances are presented separately as liability and cannot be netted off against loans and advances.

[Also refer to (note 2.14) Compliance of Bangladesh Accounting Standards (BASs) and Bangladesh Financial Reporting Standards (BFRSs)]

2.1.2 Going Concern

The accompanying financial statements have been prepared on a going concern assumption that the Bank is a going concern and will continue in operation for the foreseeable future. Hence, it is assumed that the Bank has neither the intension nor the need to liquidate or curtail materially the scale of its operation. The accompanying financial statements do not include any adjustments should the Bank be unable to continue as a going concern.

2.1.3 Functional and presentation currency

These financial statements are presented in Bangladeshi Taka (BDT), which is the Bank's functional currency. The functional currency of Off-shore Banking Unit (OBU) and one of our Subsidiaries namely BRAC Saajan Exchange Limited is United States Dollar (USD) and Great Britain Pound (GBP) respectively. The financial statements of the above mentioned Unit and Subsidiary have been translated to the presentation currency i.e. Bangladeshi Taka (BDT). The functional and presentation currency of other subsidiaries and associates is Bangladesh Taka (BDT). Except as indicated, figures have been rounded off to the nearest Taka.

2.1.4 Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected. The key item which involve these judgments, estimates and assumptions are discussed below:

Impairment losses on loans and advances:

In addition to the provision made for loans and advances based on the guideline of Bangladesh Bank, the bank reviews its loans and advances portfolio on a monthly basis to assess whether a further allowance for impairment should be provided in the income statement. The judgments by the management is required in the estimation of these amounts and such estimations are based on assumptions about a number of factors though actual results may differ, resulting in future changes to the provisions.

2.1.5 Materiality and aggregation

Each material item considered by management as significant has been displayed separately in the financial statements. no amounts has been set off unless the Bank has a legal right to set off the amounts and intends to settle on net basis. Income and expenses are presented on a net basis only when permitted by the relevant accounting standards.

2.1.6 Comparative information

The accounting policies have been consistently applied by the bank and are consistent with those used in the previous year. Comparative information is rearranged wherever necessary to conform with the current presentation.

2.2 Basis of Consolidation

The consolidated financial statements include the financial statements of BRAC Bank Limited and its subsidiaries BRAC EPL Investments Limited, BRAC EPL Stock Brokerage Limited, bKash Limited and BRAC Saajan Exchange Limited as those of a single economic entity. The financial statements of BRAC IT Services Limited no longer consolidated with BRAC Bank Limited due to change in ownership and reduction of the BRAC Bank's holding to 49% from 51% during the year. However, profit and loss up to the date of disposal of shares in bITS has been consolidated in the financial statements.

The consolidated financial statements have been prepared in accordance with Bangladesh Accounting Standard (BAS) 27: Consolidated and Separate financial statements and Bangladesh Financial Reporting Standard (BFRS) 10: Consolidated Financial Statements. The consolidated financial statements are prepared to a common reporting year ended 31 December 2017.

Subsidiaries

Subsidiaries are all entities over which the bank has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. A parent of a subsidiary should present consolidated financial statements according to BAS-27: Separate financial statements and BFRS 10: Consolidated Financial Statements. The financial statements of subsidiary are included in the consolidated financial statements from the date that control effectively commences until the date that the control effectively ceases.

Intra-company transactions, balances and intra-group gains on transaction between group companies are eliminated.

Associates

An associate is an enterprise in which the investor has significant influence and which is neither a subsidiary nor a joint venture of the investor (BAS-28: Investments in Associates"). Significant influence is the power to participate in the financial and operating policy decisions of the investee but there is no control over those policies. Investment in associate is accounted for in the financial statements under the "equity method". Under the equity method, the investment is initially recorded at cost and the carrying amount is increased or decreased to recognize the investor's share of the profits or losses of the investee after the date of acquisition. The investor's share of the investee's profit or loss is recognized in the investor's profit and loss account. Distributions received from an investee reduce the carrying amount of the investment.

If holding in subsidiary disposed in such a way that the status of the holding now come to "Associate" then the fair value of the holding retained in the said entity at the date of such disposal has been considered as opening balance of Investment in associate in Consolidated Financial Statements and related gains and losses have been recognized directly in Consolidated Equity. Any share of profits and losses after such change/disposal have been recognized in Consolidated Profit and Loss as per equity method. During the year some 1,034 shares of BRAC Bank in one of the subsidiary bITS were disposed off and as a result bITS is no longer is a subsidiary of the Bank but remains as "Associate" of the Bank. Gain/loss due to this loss of control has been duly calculated and recognized in the consolidated profit and loss account of the Bank. As such the profit and loss of bITS has been consolidated up to the date of the disposal i.e. 23 October 2017 and equity method has been applied after this date till 31 December 2017.

2.3 Foreign Currency Translations

Monetary Items:

Foreign currency transactions are translated into equivalents Taka (Functional currency) currency at spot exchange rate at the date of transaction.

Non-monetary Items:

Assets and liabilities in foreign currencies are translated into Taka at mid rates prevailing on the balance sheet date, except bills for collection, stock of travelers cheque and import bills for which the buying rates are used on the date of transactions.

Gain and Losses

Gains or losses arising (on monetary items) from fluctuation of exchange rates are recognized in profit and loss account.

Commitments:

Commitments for outstanding forward foreign exchange have included in the profit and loss statement, except those arising on the translation of net investment in foreign subsidiaries.

Foreign operations

The results of financial statements of the Bank whose functional currency is not Bangladesh Taka are translated into Bangladesh taka as follows:

a. assets and liabilities for each statement of balance sheet have been translated at the closing rate on the date of balance sheet

b. income and expenses for the profit and Loss account have been translated at average rate.

2.4 Accounting for Provisions, Contingent Liabilities and Contingent Assets:

The Bank recognizes provisions only when it has a present obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate of the amount of the obligation can be made.

No provision is recognized for-

- a. Any possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Bank; or
- b. Any present obligation that arises from past events but is not recognized because-
 - * It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
 - * A reliable estimate of the amount of obligation cannot be made.

Such obligations are recorded as contingent liabilities. These are assessed continually and only that part of the obligation for which an outflow of resources embodying economic benefits is probable, is provided for except in the extremely rare circumstances where no reliable estimate can be made.

Contingent assets are not recognized in the financial statement since this may result in the recognition of income that may never be realized.

2.5 Taxation

Income tax on profit for the year comprises current and deferred tax and is based on the applicable tax law in Bangladesh. It is recognized in the income statement as tax expense.

2.5.1 Current Tax:

Current tax is the expected tax payable on taxable income for the year, based on tax rates and tax laws which are enacted at the reporting date, including any adjustment for tax payable in previous periods. Current tax for current and prior periods is recognized as a liability or asset to the extent that it is unpaid or refundable.

Provision for current income tax has been made @ 40% as prescribed in the Finance Act-2017 on the taxable income.

2.5.2 Deferred Tax:

The Bank accounted for deferred tax as per BAS - 12 "Income Taxes". Deferred tax is accounted for using the comprehensive tax balance sheet method. It is generated by temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax base.

Deferred tax assets, including those related to the tax effects of income tax losses and credits available to be carried forward, are recognized only to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences or unused tax losses and credits can be utilized.

Deferred tax liabilities are recognized for all taxable temporary differences. They are also recognized for taxable temporary differences arising on investments and it is probable that temporary differences will not reverse in the foreseeable future. Deferred tax assets associated with these interests are recognized only to the extent that it is probable that the temporary difference will reverse in the foreseeable future and there will be sufficient taxable profits against which to utilize the benefits of the temporary difference.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realized or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the reporting date. The measurement reflects the tax consequences that would follow from the manner in which the bank, at the reporting date, recovers or settles the carrying amount of its assets and liabilities.

2.6 Reporting period

These financial statements cover one calendar year from 01 January to 31 December 2017.

2.7 Significant accounting policies:

The accounting policies set out below have applied consistently to all the periods presented in these financial statements and have been applied consistently by the bank.

2.7.1 Assets and the basis of their valuation

2.7.1.1 Cash and cash equivalents

For the purpose of presentation in the cash flow statements, cash and cash equivalents includes cash in hand and cash at bank, highly liquid interest bearing investment/securities with original maturities of less than three month.

Cash flow statement is prepared in accordance with BAS-7 " Statement of Cash Flows". However cash flows from operating activities have been presented according to the format mentioned in BRPD circular 14, dated 25 June 2003. Due to disposal of shares in bITS the cash flow statement of bITS no longer consolidated with the parent in 2017 and hence opening balance of cash and cash equivalents in the consolidated cash flow statement has been duly adjusted.

2.7.1.2 Investments

All investments securities are initially recognized at cost, including acquisition charges associated with the investment. Premiums are amortized and discount accredited, using the effective yield method and are taken to discount income. The valuation method of Marking to Market for investments used are:

Held to Maturity

Investments which have "fixed or determinable payments' and fixed maturity that the group has the positive intent and ability to held to maturity, other than those that meet the definition of 'Held at amortized cost others' are classified as held to maturity. These investment are subsequently measured at amortized cost, less any provision for impairment in value. Amortized cost is calculated by taking into account any discount or premium in acquisition. Any gain or loss on such investments is recognized in the statement of income when the investment is derecognized or impaired as per IAS -39 " Financial Instruments: Recognition and Measurement"

Held for Trading

Investment classified in this category are acquired principally for the purpose of selling or repurchasing -in short trading or if designated as such by the management. After initial recognition, investment are measured at present value and any change in the fair value is recognized in the statement of income for the period in which it arises. Transaction costs, if any, are not added to the value of investments at initial recognition.

Revaluation

According to DOS Circular no.-05, dated 26 May 2008, DOS Circular no.-05, dated 28 January 2009, DOS Circular no.-02, dated 19 January 2012, the HFT securities are revalued once each week using Marking to Market concept and the HTM securities are amortized once a year according to Bangladesh Bank guidelines. The HTM securities are also revaluated if they are reclassified to HFT category with the Board's approval.

Value of Investments has been shown as under:

Investment Class	Initial Recognition	Measurement after Recognition	Recording of changes
Government treasury bills (HFT)	Cost	Marking to market/ fair	Loss to Profit & Loss account, gain
Government treasury bills (HFT)	Cost	value	to revaluation reserve

Quetod shares (ordinary)	Coot	Lower of cost or market	Loss to Profit & Loss account
Quoted shares (ordinary)	Cost	price at balance sheet date	LOSS to Profit & LOSS account

Available for sales

Available for sales investments are non-derivative investments that are designated as available for sale or are not classified as another category of financial assets. Unquoted securities whose fair value cannot reliably be measured are carried at cost. All other available for sale investments are carried at fair value.

Investment in quoted securities

These securities are bought and held primarily for the purpose of selling them in future or hold for dividend income which are reported at cost. Unrealized gains are not recognized in the profit and loss statement. But required provision kept for diminution in value of investment.

Investment in unquoted securities

Investment in unlisted securities is reported at cost under cost method. Adjustment is given for any shortage of book value over cost for determining the carrying amount of investment in unlisted securities.

As per Bangladesh Bank DOS Circular # 04 dated 24 November 2011, provision for diminution in value of investment was made by netting off unrealized gain/loss of shares from market price/book value less cost price.

Besides, bank complied with Bangladesh Bank BRPD Circular 14 dated June 25, 2003 as follows, "All investment in shares and securities (both dealing and investment) should be revaluated at the year- end. The quoted shares should be valued as per market price in the stock exchange(s) and unquoted shares as per book value of last audited balance sheet. Provision should be made for any loss arising from diminution in value of investment".

Investment in subsidiary

Investment in subsidiary is accounted for under the cost method of accounting and presented in the Bank's consolidated financial statements as that of a single economic entity in accordance with the BAS 27 "Separate Financial Statements" and BFRS 10 "Consolidated Financial Statements".

2.7.1.3 Loans and Advances

Interest on loans and advances is calculated daily on product basis but charged and accounted monthly and quarterly on accrual basis.

Classification and provisioning for loans and advances is created based on the period of arrears by following Bangladesh Bank BRPD circulars no. 14 of 23 September 2012, BRPD circulars no.15 of 23 September 2012,

b. BRPD circulars no.19 of 27 December 2012, BRPD circulars no.05 of 29 May 2013, BRPD circulars no.16 of 18 November 2014, BRPD circulars no.8 of 2 August 2015, BRPD circulars no.12 of 20 August 2017, BRPD circulars no.15 of 27 September 2017 and BRPD circulars no.1 20 February 2018.

The classification rates are given below:

- c. Interest on classified loans and advances is calculated as per BRPD circular no. 27, dated August 31,2010 and recognized as income on realization as per BRPD circular no. 14 and 15, dated September 23, 2012.
- d. Loans and advances are written off to the extent that (i) there is no realistic prospect of recovery, (ii) and against which legal cases are filed and classified as bad and loss as per BRPD circular no. 02 dated 13 January 2003 and 13 dated 07 November 2013. These write off however, will not undermine/affect the claim amount against the borrower. Detailed memorandum records for all such write off accounts are meticulously maintained and followed up.

2.7.1.4 Impairment of Financial Assets

At each balance sheet date, BRAC Bank Limited assesses whether there is objective evidence that a financial asset or a group of financial assets i.e., loans and advances, off balance sheet items and investments are impaired. A financial asset or groups of financial assets are impaired and impairment losses are incurred if there is objectives evidence of impairment as a result of a loss event that occur after the initial recognition of the asset up to the balance sheet date; the loss event had an impact on the estimated future cash flows of the financial assets or the group of financial assets; and a reliable estimate of the loss amount can be made.

In the event of impairment loss, the bank reviews whether a further allowance for impairment should be provided in the profit and loss statement in addition to the provision made based on Bangladesh Bank guidelines or other regulatory requirements.

2.7.1.5 Leases

Lease of assets where the group has substantially all the risks and rewards of ownership are classified as finance leases. Leases in which a significant portion of the risk and rewards of ownership are retained by another party, the lessor are classified as operation lease.

The Bank as Lesson

Amount due from lessees under finance lease are recorded as receivables at the amount of the Bank's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Bank's net investment outstanding in respect of the leases.

The Bank as Lessee

In compliance with the Bangladesh Accounting Standards (BAS) - 17 "Lease", cost of assets acquired under finance lease along with obligation there against have been accounted for as assets and liabilities respectively of the company, and the interest elements has been charged as expenses.

Assets held under finance leases are recognized as non-current assets of the Bank at their fair value at the date of commencement of the lease or lower at the present value of minimum lease payments. The corresponding liabilities to the lessor is included in the balance sheet as finance lease obligation. Lease payments are apportioned between finance charges and reduction of lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income.

2.7.1.6 Property, plant and equipment

a. Recognition and Measurement

All fixed assets are stated at cost less accumulated depreciation as per BAS 16 "Property Plant and Equipment" except Land. Land is initially measured at cost and then recognized at revaluated amount.

The cost of an item of property, plant and equipment is recognizes as an asset if- it is probable that future economic benefits associated with the item will flow to the entity; and the cost of the item can be measured reliably.

The cost of the items of property, plant and equipment comprises:

- i) its purchase price, including import duties and non refundable purchase tax, after deducting trade discount and rebates
- ii) any cost directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.
- iii) the initial estimate of the cost of dismantling and removing the item and restoring the site on which it is located, the obligation for which an entity incurs either when the item is acquired or as consequence of having used the item during a particular period of purpose other than to produce during that period.

Subsequent costs

Subsequent costs of enhancement of existing assets are recognized as a separate asset, only when it is probable that future economic benefits associated with the item will flow to the bank and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the profit and loss account during the financial period in which they are incurred.

b. Depreciation

Land is not depreciated. Depreciation is charged on straight-line basis. In case of acquisition of fixed assets, depreciation has been charged from the following month of acquisition, whereas no depreciation on assets disposed off has been charged from the month of disposal. Asset category wise depreciation rates are as follows:

Category of assets	BRAC Bank Limited	BRAC EPL Investments Limited	BRAC EPL Stock Brokerage Limited	bKash Limited	BRAC Saajan Exchange Limited
Furniture and fixture	10%	10%	12.5%	10%	10%
Building	2.5%	5%	2%	-	-
Office equipment	20%	20%	20%	20%	10%
IT equipment - Hardware	20%	25%	-	20%	-
IT equipment - PC, Laptop, UPS, Printer and Scanner	33.33%	33.33%	25%	33.33%	33.33%
IT equipment - Software	20%	33.33%	33.33%	20%	20%
Motor vehicles	20%	20%	20%	20%	-
Office Decoration	-	15%	15%	20%	10%

c. Gain or Loss on disposal of Fixed Assets:

Sale price of fixed assets are determined on the basis of fair value of the assets. Gain or loss on sale of assets are recognized in profit and loss account as per provision of BAS 16 Property plant and equipment.

d. Revaluation

The fair value of land and building is usually its market value. This value is determined by appraisal, normally undertaken by professionally qualified valuers.

The fair value of items of plant and equipment is usually their market value, determined by appraisal.

The frequency of revaluation depends upon the movements in the fair value of the items of property, plant and equipment being revalued.

Increases in the carrying amount as a result of revaluation is credited to shareholders equity under the heading of revaluation surplus. Decreases in the carrying amount as a result of revaluation is recognized as an expense. However, a revaluation decrease is charged directly against any related revaluation surplus to the extent that the decrease does not exceed the amount held in the revaluation surplus in respect of that same assets.

e. Impairment of Property, Plant and Equipment

At each balance sheet date, the bank assesses whether there is any indication that the carrying amount of the asset exceeds its recoverable amount. If any such indication exist, the bank should estimate the recoverable amount of the asset. An asset is carried at more than its recoverable amount if its carrying amount exceeds the amount to be recovered through use or sale of the asset. If this is the case, the asset is described as impaired and impairment loss is recognized as an expense in the profit and loss account unless the asset is carried at revalued amount in accordance with Bangladesh Accounting Standard (BAS) 16 property plant and equipment, in which case in any impairment loss of a revalued assets should be treated as revolution decrease under the accounting standard. no impairment loss was recognized up to the reporting period as there were no such indication existed as on balance sheet date.

f. Capital work in progress (CWIP)

Costs incurred but if the related asset is yet not ready or available to use are recognized as capital work in progress and disclosed as a part of fixed assets. Once the underlying asset is ready and available to use then it has been transferred to fixed assets. However no depreciation is calculated on CWIP.

2.7.1.7 Intangible assets

a) Goodwill

Goodwill that arises upon the acquisition of subsidiaries is included in intangible assets. Acquisitions of Minority interest (non-controlling interests) are accounted for as transactions with equity holders in their capacity as equity holders and therefore no goodwill is recognized as a result of such transactions. Subsequently Goodwill is measured at cost less accumulated impairment losses.

b) Software

Software acquired by the Bank is stated at cost less accumulated amortization and accumulated impairment losses. Subsequent expenditure on software assets is capitalized only when it increases future economic benefits embodied in specific asset to which it relates. All expenditure is expensed as incurred. Amortization is recognized in profit or loss on a straight-line basis over the estimated useful life of the software, from the date that it is available for use since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life of software is three to five years. Amortization methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

c) License

Value of the license is recognized at cost and since it has an indefinite useful life it is not amortized. The value of the license is not measured at fair value.

d) Impairment of intangible assets

Intangible assets with indefinite useful life like goodwill etc. are tested for impairment at the end of each year. As per BAS-36 any intangible assets with definite useful life are first reviewed for any indication of impairment. If any indication exists then impairment test is carried out.

2.7.1.8 Other assets

Other assets include mainly advance office rent, payment of advance income tax has not been closed yet and all other financial assets, fees and other unrealized income receivable, advance for operating and capital expenditure and stocks of stationery and stamps etc. Any part of uncollectible other assets is subject to making provision based on their ageing as per Bangladesh Bank circular no. 14 date 25 June 2001.

Interest Paid and other expenses

In terms of provision of the Bangladesh Accounting Standard (BAS) -1 "Presentation of Financial Statements", interest paid and other expenses are recognized on an accruals basis.

2.10 Earnings Per Share

Earnings Per Share (EPS) has been computed by dividing the basic earning by the weighted average number of ordinary Shares outstanding as at 31 December, 2017 as per Bangladesh Accounting Standard (BAS) - 33 "Earnings Per Share".

Basic earnings

This represents earnings for the year attributable to ordinary shareholders. Net profit after tax less preference dividend has been considered as fully attributable to the ordinary shareholders.

Weighted average number of ordinary shares outstanding during the year

This represents the number of ordinary shares outstanding at the beginning of the year plus the number of ordinary shares issued during the year multiplied by a time weighted factor. The time weighting factor is the number of days the specific shares are outstanding as a proportion of the total number of days in the year.

The basis of computation of number of shares is in line with the provisions of BAS 33 " Earnings per share". The logic behind this basis is, that the bonus shares are issued to the existing shareholders without any consideration, and therefore, the number of shares outstanding is increased without an increase in resources generating new earnings. In contrast, other shares were issued against consideration in cash or in kind, and accordingly there is an increase in recourses generating new earnings. Therefore, the total number of shares issued in 2017 has been multiplied by a time weighting factor which is the number of days the specific shares were outstanding as a proportion of total number of days in the period.

Diluted earnings per share

The objective of diluted earnings per share is consistent with that of basic earnings per share; that is, to provide a measure of the interest of each ordinary share in the performance of an entity taking into account dilutive potential ordinary shares outstanding during the year. In BRAC Bank Limited potential ordinary shares is in convertible subordinate Bond that may entitle their holders to ordinary shares.

- a. Balances with other bank and financial institutions, money at call and short notice etc. are on the basis of their maturity term.
- b. Investments are on the basis of their residual maturity term.
- c. Loans and advances are on the basis of their repayment/ maturity schedule.
- d. Fixed assets are on the basis of their useful life.
- e. Other assets are on the basis of their adjustment.
- f. Borrowing from other banks, financial institutions and agents as per their maturity/ repayment term
- g. Deposits and other accounts are on the basis of their maturity term and behavioral past trend.
- h. Other long term liability on the basis of their maturity term.
- i. Provisions and other liabilities are on the basis of their settlement.

2.12 Dividend

Dividend on ordinary shares are recognized as a liability and deducted from retained earnings when they are approved by the shareholders in the annual general meeting.

 $[\]ensuremath{^{\star}}$ Applied in the preparation of interim financial reports of the Bank

Reason for departure of BAS / BFRS:

The central Bank of Bangladesh (''Bangladesh Bank'') as regulator to the Banking Industry has issued a number of circulars/directives which are not consistent with the requirements specified in the BAS/BFRS as referred above. In such cases the bank has followed the regulatory requirements specified by the Bangladesh Bank.

A number of new standards amendments to standards and interpretation are effective for annual periods beginning from 1 January 2017 or later, and have not been applied in preparing these consolidated financial statements. none of these is expected to have a significant effect on the consolidated financial statements of the Group and the Bank. Although International Accounting Standards Board (IASB) has issued a new standard (IFRS 9) along with related amendments to existing standards (IAS/BAS 32,39). The ICAB has adopted IFRS 9; however it will be applicable on and after 1 January 2018. Therefore, we are not considering possible impact for the amendment or adoption of such BAS/BFRS.

2.15 Risk Management

Risk is an inherent part of the business activities and risk management is pivotal for the sustainability of business. This era of globalization enables hefty expansion of business activities that ultimately increases competition level for organizations drastically. Financial crisis and volatility in economic growth in some developed countries set the example of imperativeness towards comprehensive risk management. Types of risk, however, vary from business to business, but preparing a risk management plan involves a conjoint process. A comprehensive risk management plan must enumerate strategies for dealing with risks specific to any business but should not be limited to those.

When it comes to banking business, risk management is in the heart of this business. Banks are to strive for a prudent risk management discipline to combat unpredictable situation. These days, it is transparent that banking organizations are in need of setting up systematic and vigilant way to monitor the activities that are major influencers of this particular business.

The standards of Risk Management as guided by the Bank for International Settlements (BIS) and particularly Basel Committee on Banking Supervision (BCBS), has been applied by bank regulators across the world. The Central Bank of Bangladesh i.e. Bangladesh Bank also issued guidelines which forms the basis of risk management of all scheduled banks in Bangladesh. The guidelines require that the banks adopt enhanced policies and procedures of risk management. The risk management of banks broadly cover 6 (Six) core risk areas of banking i.e. a. Credit Risk Management, b. Foreign Exchange Risk Management, c. Asset liability Management, d. Prevention of Money Laundering, e. Internal Control and Compliance, and f. Information & Communication Technology as specified by Bangladesh Bank.

BBL's risk management strategy is based on a clear understanding of various risks, disciplined risk assessment, measurement procedures and continuous monitoring. BBL continues to focus on improving its risk management systems not only to ensure compliance with regulatory requirements but also to ensure better risk-adjusted return and optimal capital utilization keeping in mind of the business objectives. For sound risk management, BBL manages risk in strategic layer, managerial layer, and operational layer. The assets and liabilities of BRAC Bank Limited is managed so as to minimize, to the degree prudently possible, the Bank's exposure to risk, while at the same time attempting to provide a stable and steadily increasing flow of net interest income, an attractive rate of return on an appropriate level of capital and a level of liquidity adequate to respond to the needs of depositors and borrowers and earnings enhancement opportunities. These objectives are accomplished by setting in place a planning, control and reporting process, the key objective of which is the coordinated management of the Bank's assets and liabilities, current banking laws and regulations, as well as prudent and generally acceptable banking practices.

2.15.1 Credit Risk Management

Credit risk is most simply defined as the potential that a bank borrower or counterparty will fail to meet its obligations in accordance with agreed terms and conditions. The goal of credit risk management is to maximize a bank's risk-adjusted rate of return by maintaining credit risk exposure within acceptable parameters.

Considering key elements of Credit Risk, the bank has segregated duties of the officers/ executives involved in credit related activities. Separate Division for Corporate, SME, Retail and Credit Cards are entrusted with the duties of maintaining effective relationship with Customers, marketing credit products, exploring new business opportunities, etc. For transparency in operations during the entire credit process, teams for i. Credit Approval, ii. Asset Operations, iii. Recovery Unit and Special Asset Management have been set up.

The entire process involves relationship teams of respective Asset Portfolio (Retail, SME and Corporate.) booking customer; the Credit Division conducting thorough assessment before placing for approval of the facility. Risk assessment includes borrower risk analysis, Industry risk analysis, financial risk analysis, security risk analysis, account performance risk analysis & environmental & social risk analysis of the Customer. Post-approval, the Credit Administration Department ensures compliance of all legal formalities, completion of documentation including security of proposed facility and finally disburses the amount. The above arrangement has not only ensured segregation of duties and accountability but also helps in minimizing the risk of compromise with quality of the credit portfolio.

2.15.2 Foreign Exchange Risk Management

Foreign Exchange risk arises from fluctuation in currency prices influenced by various macro and micro economic factors. Today's financial institutions engage in activities starting from basic currency buy, sell, imports, exports and remittances to complex structured products. Within the Bank, the Treasury department is vested with the responsibility to measure and minimize the risk associated with bank's foreign currency position.

All treasury functions are clearly demarcated between treasury front office. mid office and back office. The front office is involved only in dealing activities, mid office is involved in monitoring of rate, limit etc. and the back office is responsible for all related processing functions. Treasury front and back office personnel are guided as per Bangladesh Bank core risk management guideline and their respective job description. They are barred from performing each other's job. 'Treasury Front Office', 'Mid office' and 'Treasury Back Office' has separate and independent reporting lines to ensure segregation of duties and accountability but also helps minimize the risk of compromise. The full function is operated under the foreign exchange risk management policy of the bank updated based on the latest Foreign Exchange Guideline of central bank.

Dealing room is well equipped with Reuter's dealing system, Eikon, Bloomberg, a number of FX trading platforms, voice logger etc. Counter party limit is set by the Credit Committee and monitored by mid office. Well-articulated dealers trading limit, stop-loss limit and currency wise open position limits are in place which are being monitored by Mid office. Trigger levels are set for the dealers, Chief Dealer and Head of Treasury. The entire FX transactions are carried on by a number of well trained, young and dynamic dealers ensuring all local and global regulatory compliances.

2.15.3 Asset Liability Management

Changes in market liquidity and or interest rate exposes Bank's business to the risk of loss, which may, in extreme cases, threaten the survival of the institution. Thus it is essential that the level of balance sheet risks are effectively managed, appropriate policies and procedures are established to control and limit these risks and proper resources are available for evaluating and controlling these risks. The Asset Liability Committee (ALCO) of the bank monitors Balance Sheet risk and liquidity risks of the Bank.

Asset liability Committee (ALCO) reviews the country's overall economic position, Bank's Liquidity position, ALM Ratios, Interest Rate Risk, Capital Adequacy, Deposit Advanced Growth, Cost of Deposit and yield on Advance, F.E. Gap, Market Interest Rate, Loan loss provision adequacy and deposit and lending pricing strategy.

2.15.4 Prevention of Money Laundering

In recognition of the fact that financial institutions are particularly vulnerable to be used by money launderers. BRAC Bank has established a Anti Money Laundering Policy. The purpose of the Anti Money Laundering Policy is to provide a guideline within which to comply with the laws and regulations regarding money laundering both at country and international levels and thereby to safeguard the bank from potential compliance, financial and reputational risks. KYC procedures have been set up with address verification. As apart of monitoring account transaction-the estimated transaction profile and high value transactions are being reviewed electronically. Training has been taken as a continuous process for creating/developing awareness among the officers.

2.15.5 Internal Control and Compliance

Internal Control is the mechanism to provide reasonable assurance to Bank on an ongoing basis regarding the achievement of objectives in the effectiveness and efficiency of operations, the reliability of financial reporting and compliance with applicable laws, regulations and internal policies. The primary objective of Internal Control and Compliance is to help the Bank perform better and add value through use of its resources. Through Internal Control system, Bank identifies its weaknesses associated with the process and adopts appropriate measures to overcome that.

The main objectives of internal control are as follows:

- ▶ Operations Objectives: achievement of bank's basic mission and vision.
- Reporting Objectives: timely, accurate, and comprehensive reporting, financial and non-financial, internal and external.
- ▶ Compliance Objectives: conducting activities and taking specific actions in accordance with applicable laws and regulations.

The Bank has established an effective internal control system whose primary aim is to ensure the overall management of risks and provide reasonable assurance that the objectives set by the Bank will be met. It has been designed to develop a high level risk culture among the personnel of the Bank, establish efficient and effective operating model of the Bank, ensure reliability of internal and external information including accounting and financial information, secure the Bank's operations and assets, and comply with laws, regulatory requirements and internal policies.

The Board of Directors of BRAC Bank, through its Board Audit Committee (BAC), periodically reviews the effectiveness of Bank's internal control system covering all the material controls, including financial, operational and compliance controls and risk management activities.

Board Audit Committee (BAC) also reviews the actions taken on internal control issues identified by the internal and statutory auditors and regulatory authorities. It has active oversight on the audit's independence, scope of work, resources and materialization of annual Internal and Concurrent audit plan and overall activities including Monitoring and Compliance functions of Internal Control and Compliance Division.

2.15.5.1 Internal Audit

Internal audit function plays a crucial role in ongoing assessment and monitoring and reporting on internal control, risk management and governance in the Bank and monitors compliance with policies and standards. Audit Department of the Bank carries out internal audit with a view to provide reasonable assurance on internal control and eventual achievement of organizational objectives.

BRAC Bank Limited has a strong internal audit team comprised of three units to carry out the audit activities, namely - Head Office Audit, Distribution Audit (which carryout audit on all Branches; including: AD, LAD, Corp. Branches, SME Krishi Branch, SME Service centre; SME Unit office and ATM service centre) and Information Systems and Vigilance Audit. BRAC Bank also introduced Risk Based Audit system and audit team conducts comprehensive, spot, surprise audits in various Branches, SME service centers, SME/Krishi branches, ATM service centers, SME unit offices, Information technology, Information Security, Cyber Security, Data Privacy and Protection, various Department & Division, centralized functional units in head office, Regional base functional Unit and subsidiaries of BRAC Bank Limited.

Internal Audit helps the organization to accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk Management, control and governance processes.

2.15.5.2 Compliance and Monitoring

BRAC Bank Limited establishes a best compliance culture throughout the organization by encouraging employees to comply with policies, procedures and regulation. BRAC Bank has strong compliance and monitoring department under Internal Control & compliance Division which is dedicated for ensuring compliance of guidelines/observations/recommendations of Regulatory and Internal Audit/Investigation.

To establish a compliance culture BRAC Bank has 4 (Four) separate unit under Compliance and monitoring Department of Internal Control & compliance Division, namely- Regulatory Compliance Unit, Internal Compliance Unit, Monitoring Unit & Investigation Unit. Compliance & Monitoring team firmly supports Bangladesh Bank Team in their inspection at branches/head office and ensures submission of compliance response to Bangladesh Bank appropriately and timely, monitor compliance activities of Branch, Division, Department and other offices, verify the internal control system of organization operational activities as per Bangladesh Bank Guideline. Also ensure required Internal & Regulatory reporting and conduct investigation and submit the report onward as per management directives and analyze fraud cases to ascertain responsible parties and recommend appropriate action.

2.15.5.3 Concurrent Audit

As per the directives provided by Bangladesh Bank as Guideline of Internal Control and Compliance in Banks, Concurrent Audit Department was formed to make it in line with the guideline. Concurrent audit team scrutinize whether the bank is following the guidelines of internal & regulatory bodies time to time. This unit exclusively conducts spot / surprise Audit of continuing operational activities in various branches, SME service centers, SME Krishi branches, ATM service centers, SME unit offices, ROC, CRM, centralized functional units in head office of BRAC Bank Limited.

2.15.5.4 Fraud and Forgery

Fraud & forgery have become very important issues in recent years. These have a major impact on our country's economy as a whole, impeding the economic development. BRAC Bank has always been very focused in controlling fraud & forgery by establishing and maintaining proper control systems

Now a day's fraud and forgery appears in diverse form. To prevent fraud and forgery, BRAC Bank Limited formed Investigation Unit under Compliance & Monitoring Department of Internal Control & Compliance Division to deal with such kind of incidences. This wing exclusively deals with all kinds of fraud and forgery and act independently as the first contact point/ information unit where internal and external fraud and forgery incidences are escalated, investigated and reviewed. To protect the bank and its stakeholder's interest, Investigation Team performs thorough investigation to identify the perpetrator and the root cause of the reported incident. As a remedial course of action, preventive measures are recommended to the business/functional unit to take necessary action relating to process improvement, recovery of misappropriated amount, adjustment of the operational loss and to take appropriate action against the perpetrator. The investigation reports are also place to the Board Audit Committee for their direction and guidance. All fraud and forgery which were identified in 2017 were also duly reported to Bangladesh Bank on a quarterly basis following their prescribed format and adequate provision has been maintained in the books of accounts. Management is exerting their all-out efforts to recover the aforesaid amount.

2.15.6 Information and Communication Technology (ICT) Security

As the role of technology increases, business risks due to underlying and unidentified system vulnerabilities also increases. Existence of these risks within the business ecosystem when exploited could lead to severe financial, regulatory and brand impacts. This makes implementation of adequate security controls mandatory. BRAC bank is committed to high levels of service quality and banking security. For Cyber security & ICT risk mitigation, bank has updated ICT security policy which is in line with latest Bangladesh Bank ICT guideline and the vastly practiced framework & international standards; e.g. COBIT, ITIL & ISO 27001. ICT policy provides a framework for best practice that followed by all employees while it ensures overall Data and Information assurance for the organization. It outlines the responsibilities and requirements of the BRAC Bank Limited (BBL) and its employees with regard to Information Technology (IT) resources.

BRAC Bank has already adopted Information security global standard. BRAC Bank is the 1st and only bank in Bangladesh who achieved ISO 27001:2013 international certificate for information security management function and fulfilled this regulatory mandate. ISO 27001 is the international standard for Information Security Management and formally specifies management system that is intended to bring information security under explicit management control. Accredited international certification to ISO 27001 demonstrates that our bank has a defined and focus on best-practice information security processes with continuous improvement.

BRAC Bank has developed its Cyber security road map and working accordingly to bring the best security solution, processes and practices. BRAC bank has also assessed its Cyber security standing by big4.

BRAC bank has already implemented security information and event management (SIEM), 2fa for internet banking, secure email gateway, 3Des for e-commerce transaction, exceptional transaction monitoring system and centralized network monitoring system.

Bank has enhanced Security through firewall up gradation, strengthen database security, port security, end point security, internet security.

Bank has gone through process re-engineering; during this process bank had involved global consultant to consider the best practices.

Bank regularly conduct application/system review, vulnerability assessment and penetration testing (VAPT), discovery and network analysis (DNA) to identify any gap and mitigate accordingly.

Bank regularly conduct face to face information security awareness sessions, Cyber security awareness campaign, awareness through email/sticker/booklet/e-book/poster etc. This awareness communication done externally also.

As a part of governance initiative, bank has formed ICT security steering committee and ICT steering committee. For emergency response handling bank has formed CERT and have developed BCP.

As a part of the Cyber security journey, bank has implemented SIEM (security information and event management) solution in 2017, which will ultimately be the backbone for 24x7 SOC (security operations center) and core of information security threat management.

Bank is already ongoing multiple security projects, e.g. privileged access management (PAM), anti-APT solution, network behavior analysis (NBA), data loss prevention, AML and fraud management, PCI-DSS compliance project, implementation of centralized authentication and management system for network devices, ATM channel security strengthen, review, database firewall and audit vault, building 24/7 security operation center (SOC) etc. Bank is already ongoing multiple security projects, e.g. privileged access management (PAM), anti-APT solution, network behavior analysis (NBA), data loss prevention, AML and fraud management, PCI-DSS compliance project, implementation of centralized authentication and management system for network devices, ATM channel security strengthen, review, database firewall and audit vault, building 24/7 security operation center (SOC) etc.

For ICT risk mitigation, BRAC bank has also taken multiple major core technological improvement initiatives. e.g.card management system up-gradation, core banking up-gradation, latest infrastructure technology adoption, EMV card issuance, e- commerce payment gateway up gradation, call center up gradation, internet banking system up gradation, flash storage system deployment, data centre environmental up gradation, data centre monitoring system up gradation, treasury automation, ERP solution implementation, agreement with software and hardware manufacturers etc.

BRAC bank has adopted ITIL framework of best practice guidance for it service management. among few other major initiatives like swift version up gradation, RTGS system automation, NID verification, bond management system, new treasury system, up – grade trade finance module, nostro reconciliation system, integration between treasury and dealing platform, mobile app based internet banking, end to end branch service tracking, document management system (is in progress), DC-DR multiple link connectivity establishment, microsoft share point, office 365, server health monitoring systems, CIB automation, call center system up-gradation etc. all are helping to manage risks of bank.

To ensure high level of quality and security of IT systems and comply with Bangladesh Bank regulatory requirement, in BRAC bank there is fully functional with Information security department with trained and certified resources (e.g. CISSO, CPISI, CEH, CPEH, LA-QMS, LA-ISMS, CLFI, LPM, Security+, COBIT etc.) and automated tools.

2.15.7 Enterprise Risk Management ("ERM"):

Enterprise Risk Management ("ERM") is a strategic business discipline that supports the achievement of an organization's objectives by addressing the full spectrum of its risks and managing the combined impact of those risks as an interrelated risk portfolio.

Enterprise Risk Management (ERM) enables the organizations to pragmatically deal with uncertainty and associated risk and opportunity thus enhancing the brand value and profitability. Enterprise risk management helps in identifying and selecting among alternative risk responses – risk avoidance, reduction, transfer, and acceptance. It helps to ensure effective reporting and compliance with laws and regulations, and avoid damage to the entity's reputation and associated consequences.

To make the ERM activity stronger and smoother, we drive and perform various activity like Enterprise Risk Associates Forum (ERAF) meeting through which all the stakeholders can raise risks from their own divisions and discuss in the meeting for proper solutions, ERMC (Enterprise Risk Management Committee) meeting which takes place on monthly basis consisting all the Divisional Heads where the high risk issues are discussed that need management attentions, RMC (Board Risk Management Committee) which takes place on bi-monthly basis consisting the few board members to provide an overview on the overall risk management framework and activities of the bank and management. Besides all these; we have established another common forum consisting of all the Heads who are involved with Risk, Control, Compliance, Governance and Security and that is; ERGF (Enterprise Risk Governance Forum). This forum acts as the single contact point for all the staff so that they can get emergency response for any query related to risk that they are unable to resolve. They get the immediate and urgent solutions of risk and hazards with the guidance of the Senior Management.

Key Risk Indicators (KRI):

To set up the Key Risk Indicators (KRI) and to monitor these KRIs of entire bank are one of the key jobs of Risk Management. Monitoring these KRIs of every department makes comfortable to assess the risk events of future. These KRIs play a very vital role in identifying and also to reduce the future unwanted events that may incur loss for the bank.

Business Continuity Plan (BCP):

The Business Continuity Plan (BCP) is another initiative that is being performed by ERM. To make the bank more robust and resilient to any type of sudden disaster; be it the natural disaster or network problem or even be it a human error, ERM prepares the BCP in such a way that the bank can resist all these types of disaster and can run smoothly with very minimal disruption vis-à-vis loss. Each and every branch has its own BCP which is being prepared by ERM and there will be some BCP testing to check whether this plan is working or not as well.

Subsidiary Risk Management:

The Subsidiary Risk Management is relatively new inclusion in ERM work. ERM team tries to ensure the proper risk management development for all the subsidiaries including the risk management framework development, top risks profiling, necessary process and policy implementation and as a whole help the subsidiaries to nurture the risk management best practices.

2.16 Implementation of BASEL- III

To cope up with the international best practices and to make the bank's capital shock absorbent Guidelines on Risk Based Capital Adequacy (RBCA) for banks' (Revised regulatory capital framework in line with Basel II) was introduced from 01 January 2009 as a parallel run with BRPD circular no. 10, dated 25 November 2002 (Basel I). At the end of parallel run, Basel II regime started from 01 January 2010 and the guidelines on RBCA came fully into force with its subsequent supplements/revisions. Instructions regarding Minimum Capital Requirement (MCR), Adequate Capital and Disclosure requirement as stated in the guidelines had to be followed by all scheduled banks for the purpose of statutory compliance. According to the BRPD circular no. 9, dated 31 December 2008 and subsequent updates on BRPD circular no. 10, 12, 24, 35 dated 10 March 2010, 29 March 2010, 3 August 2010, 29 December 2010 and BRPD circular no. 8, dated 23 July 2012. Basel framework has three main components referred to as pillars:

- i. Pillar I addresses minimum capital requirement.
- ii. Pillar II elaborates the process for assessing the overall capital adequacy aligned with risk profile of a bank as well as capital growth plan.
- iii. Finally, Pillar III gives a Framework of public disclosure on the position of a bank's risk profiles, capital adequacy, and risk management system.

Basel III reforms are the response of Basel Committee on Banking Supervision (BCBS) to improve the banking sector's ability to absorb shocks arising from financial and economic stress, whatever the source, thus reducing the risk of spillover from the financial sector to the real economy. "Basel III: A global regulatory framework for more resilient banks and banking systems" (known as Basel III capital regulations) in December 2010. Basel III reforms strengthen the bank-level i.e. micro prudential regulation, with the intention to raise the resilience of individual banking institutions in periods of stress. Besides, the reforms have a macro prudential focus also, addressing system wide risks, which can build up across the banking sector, as well as the pro-cyclical amplification of these risks over time. These new global regulatory and supervisory standards mainly addressed the following areas:

- ▶ Raise the quality and level of capital to ensure banks are better able to absorb losses on both a going concern and a gone concern basis
- ▶ Increase the risk coverage of the capital framework
- ▶ Introduce leverage ratio to serve as a backstop to the risk-based capital measure
- ▶ Raise the standards for the supervisory review process (Pillar 2) and
- ▶ Public disclosures (Pillar 3) etc.

To ensure smooth transition to Basel III, appropriate transitional arrangements have been provided for meeting the minimum Basel III capital ratios, full regulatory adjustments to the components of capital etc. Consequently, Basel III capital regulations would be fully implemented as on January 1, 2019.

Basel - III is to be calculated both on separate financial statements (SOLO) basis and consolidated basis and both are submitted to Bangladesh Bank accordingly.

We have fully complied with all the directives provided by the Central bank from time to time, starting from Pillar I, II and III reporting requirements to periodic Stress Testing activity etc. Formation of Basel Steering Committee chaired by the Managing Director of the bank help us to ensure supreme governance and strict regimentation at execution level.

2.17 Off Balance Sheet Items

^{**}As per BRPD circular no. 1 dated 20 February 2018, which is effective from 31 December 2017, Banks have to maintain 1% general provision instead of 2% against all unclassified Housing Finance loans under Consumer Financing. BRAC Bank has already made general provision on all unclassified Housing Finance loans under Consumer Financing at the rate of 2% as per earlier circular hence the required provision also disclosed as 2% of such loan accordingly.

17.1 Provision for loans, advances

Provision for loans and advances is created for covering the bank from possible loan losses in the future. General provision is made on the outstanding amount of loans and advances without considering the classification status following the prescribed rate of Bangladesh Bank. Classified loans and advances of the banks are categorized as Sub-Standard, Doubtful and Bad/Loss as per Bangladesh Bank circulars. For loans which are classified as sub-standard, doubtful or bad/loss, specific provision is created netting off security value and interest suspense from the amount outstanding.

Earnings Per Share (EPS) has been calculated as per BAS-33 "Earnings Per Share".

As per BAS-33 "Earnings Per Share", the calculation of diluted earning per share does not assume conversion, exercise or other issue of potential ordinary shares that would have an anti dilutive effect on earning per share. There is an antidilutive effect on earning per share of BRAC Bank convertible bond. That is why we are not considering the diluted earning per share.

Off-Shore Banking Units

NOTES TO THE FINANCIAL STATEMENTS

As at and for the year ended 31 December 2017

Continuation of Annexure - I

1.1 Status of the units

Off-shore Banking Units of BRAC Bank Limited, governed under the rules and guidelines of Bangladesh Bank. The bank commenced the operation of its Off-shore banking Unit from 2010 after obtaining necessary approval from Bangladesh Bank.

1.1.1 Principal Activities

The principal activities of the units are to provide all kinds of commercial banking services to its customers through its off-shore Banking units in Bangladesh.

2 Summary of Significant Accounting Policies and basis of preparation

2.1 A summary of the principle accounting policies which have been applied consistently (Unless otherwise stated), is set out below:

a) Basis of accounting

The Off-shore Banking Units maintain its accounting records in USD from which accounts are prepared according to the Bank Companies Act 1991, Bangladesh Accounting Standards and other applicable directives issued by Bangladesh Bank.

b) Use of estimates and judgments

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses, Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision of accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

c) Foreign currency transactions and translations to presentation currency

Foreign currency transactions are converted into equivalent functional currency i.e. USD using the exchange rates ruling on the dates of respective transactions as per BAS- 21 "The Effect of Changes in Foreign Exchange Rates".

All revenue items have been translated to presentation currency i.e. BDT at average rate and all balance sheet items except retained earnings were translated to presentation currency at the closing rate. Any resulting differences have been recognized as translation reserve.

Commitments for outstanding forward foreign exchange contracts disclosed in the financials are translated at contracted rates. Contingent liabilities/ commitments for letter of credit and letter of guarantee denominated in foreign currencies are expressed in Taka terms at the rates of exchange ruling on the balance date.

2.2 Reporting period

These financial statements cover half year from 01 January to 31 December 2017.

2.3 Cash and cash equivalents

For the purpose of presentation in the Cash flow statements, cash and cash equivalents includes Cash in Hand and Cash at Bank, highly liquid interest bearing investment/Securities with original maturities of less than three month.

As per BAS 7 Statement of Cash Flows, Cash flow statement can be prepared either in direct method or in indirect method. The presentation is selected to present these cash flows in a manner that is most appropriate for the business or industry. The method selected is applied consistently. As per BRPD 14 dated 25 June 2003, cash flow should be a mixture of direct and indirect method.

2.4 Loans and Advances / investment

- a) Loans and advances of Off-shore Banking Units are stated in the balance sheet on gross basis.
- b) Interest is calculated on a daily product basis but charged and accounted for on accrual basis. Interest is not charged on bad and loss loans as per guidelines of Bangladesh Bank. Records of such interest amounts are kept in separate memorandum accounts.

Continuation of Annexure - I

2.5 Provision for liabilities

A provision is recognized in the balance sheet when the unit has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefit will be required to settle the obligations, in accordance with the BAS 37 " Provisions, Contingent Liabilities and Contingent Assets".

2.6 Revenue and Expense recognition

As per the BAS - 18 "Revenue", revenue and expenses are recognized on accrual basis.

2.7 General

- a) These financial statements are presented in Taka, which is the Bank's functional currency. Figures appearing in these financial statements have been rounded off to the nearest Taka and rearranged wherever necessary.
- b) Assets and liabilities and income and expenses have been converted into Taka currency @ US \$ 1 = Taka 83.20 (Closing rate as at 31 December 2017).

Directors' Report

to the Shareholders of bKash Limited

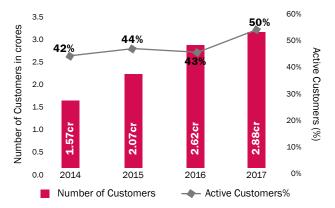

The Board of Directors of bKash Limited is pleased to present before you the Directors' Report on the operational and financial activities of bKash together with the Audited Financial Statements for the year ended 31 December 2017 for your valued consideration, approval and adoption. The Directors' Report has been prepared in compliance with Section 184 of the Companies Act, 1994 and the requirements mandated by the regulatory bodies.

bKash, a pioneer in the Mobile Financial Services (MFS) industry of Bangladesh, has played a key role in improving access to formal financial/banking services since its inception. In a nation like Bangladesh where less than 19% of the population have access to formal banking services, bKash provided the much needed bridge to minimize the gap and expand the net of financial inclusion.

In July 2011, bKash Limited started as a joint venture between BRAC Bank Limited, Bangladesh and Money in Motion LLC, USA. The International Finance Corporation (IFC) of The World Bank Group became an equity partner in April 2013 followed by the Bill & Melinda Gates Foundation in April 2014

With an extensive network of 178,322 agents sevring 2.88 million customers by 43 lackhs average daily transactions, bKash is the first success story of its kind in Bangladesh. All customers can avail bKash services on any of the 5 major mobile networks. Over 68% of Bangladeshis who have access to a mobile phone can easily register and avail instant bKash services such as Cash In, Cash Out, Send Money, Airtime Recharge, Receive Remittance, Receive Disbursements, Interest Savings and Pay Merchants. In 2017, 50% of the customer base was active (on the basis of at least one transaction in the last 90 days) and a total of BDT 217,350 crore was recorded in transactions.

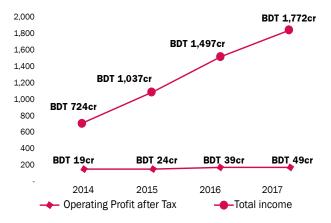

The convenience, affordability and reliability of bKash services are just a few of the characteristics that contribute to bKash's significant market share of 69.4% in terms of amount of transactions in December 2017.

With an annual revenue growth rate of 18.4% in 2017 over 2016, bKash continues to grow and contribute to the economic growth of the country. In 2017, there was an annual growth of 10.0% in the number of customers to reach 2.88 crore as of December 31, 2017. There were over 1,100 employees that bKash directly hires in addition to the thousands of employees at the 187 active distributing houses scattered throughout the country. This promotes employment opportunities and

economic growth especially in remote locations. In addition, bKash has paid BDT 339 crore to the government exchequer which also feeds back into the economy.

In addition to the underserved segments of the market such as the one for mom and pop shops, bKash services are also used regularly by online and in store retailers. This has led to improved access to funds, convenience and growth in the merchant market especially for those involved in e-commerce.

The financial statements have been prepared based on going concern concept and accrual basis of accounting in compliance with Bangladesh Accounting/Financial Reporting Standards as adopted by the Institute of Chartered Accountants of Bangladesh, Companies Act 1994 and other applicable laws of the land.

The Company made profit after tax of BDT 48.78 crore in 2017 compared to BDT 38.65 crore in 2016 resulting in a 26% growth in profit after tax over the year 2016. The retained earnings stood at BDT 90.34 crore as of December 31, 2017. Considering the growth potential of the Company, the Board is not proposing any dividend for the year 2017 to its shareholders.

The Company's statutory auditor M/s. Rahman Rahman Huq, Chartered Accountants have completed their audit and are eligible to be reappointed as statutory auditors of the Company for the year 2018. The Board is pleased to recommend honorable shareholders to appoint M/s. Rahman Rahman Huq, Chartered Accountant as statutory auditor of the Company for the year 2018.

The Board would like to express appreciation to the entire bKash team. It would be remiss if we do not acknowledge the exceptional efforts of our employees who worked in partnership to meet, embrace and accomplish various challenges in order to achieve the goals of the company while simultaneously maintaining the highest standards of service to our clients.

Finally, the Directors would like to thank our loyal clients and respected shareholders for their continued support to bKash. Taking this opportunity, the members of the Board would also like to all regulators and government agencies for their continuous support.

For and on behalf of the Board of Directors,

Independent Auditor's Report

to the Shareholders of bKash Limited

Report on the Financial Statements

We have audited the accompanying financial statements of bKash Limited ("the Company") which comprise the statement of financial position as at 31 December 2017, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with Bangladesh Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances,

but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Company as at 31 December 2017 and of its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards.

Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act 1994, we also report the following:

- a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- in our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books; and
- the statement of financial position and the statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account and returns.

Directors' Report

to the Shareholders of BRAC EPL Stock Brokerage Limited

Dear Shareholders,

The Board of Directors of BRAC EPL Stock Brokerage Limited (BESL) is pleased to present before you the Directors' Report on the operational and financial activities of you Company together with the Audited Financial Statements for the year ended 31 December 2017 for your valued consideration, approval and adoption. The Directors' Report has been prepared in compliance with Section 184 of the Companies Act, 1994 and the requirements mandated by the regulatory bodies.

Bangladesh Economy Review 2017

Bangladesh achieved a 7.24% percent real GDP growth in FY2016-17 against a target of 7.2% set by Bangladesh Bank. The growth was 7.11% and 6.55% in FY2015-16 and FY2014-15 respectively. The latest GDP growth rate is the highest ever recorded so far. Even at the back of such an exceptional economic performance, Bangladesh Bank projects a 7.40% real GDP growth for FY2017-18. Despite the global financial crisis and its aftermath, along with the adverse effects emerging from the domestic front, Bangladesh has been able to achieve GDP growth of more than 6% on an average during the last decade.

Benign inflation rate in the economy has been a strong catalyst in driving the country's household consumption. In spite of food and commodity inflationary pressures, the 12-month average inflation was 5.70% on December 2017 (government inflation target was 5.5% for FY 2017-18). With a 12-month average inflation of 5.44% for FY2016-17 against a target of 5.8% and considering the 7.24% real GDP growth in the last fiscal year as already mentioned, Bangladesh Bank has been successful in achieving its most important fiscal targets in the most recent time.

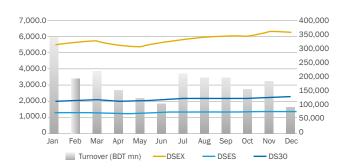

The current account deficit increased substantially over the year. At the end of November, the deficit stood at USD 4.43 billion, which was only USD 683 million deficit in the same period a year earlier. Growth in imports outweighed growth in exports by more than threefold owing to rise in global commodity and food prices as well as an increase in capital machinery imports. Bangladesh Bank projects the trade deficit to reach USD 13.10 billion in June 2018. The implication of this has been a gradual depreciation of BDT against the USD from 78.8 at the end of 2016 to 82.7 at the end of 2017. However, the central bank also projects remittance to pick up as early signs of upswing has already been witnessed at the end of 2017. The upswing in remittance growth should provide strength against the expected depreciation of the currency.

Capital Market Review 2017

2017 has been an exceptional good year for the capital market of Bangladesh. The stock market provided the highest return in last seven years since the market crash in 2010. DSEX - the benchmark free float weighted market index - gained a double-digit 24.0% in 2017, following last year's total return of 8.8%. The continued declining interest rates in the economy has been a bliss in the capital market. Turnover has also picked up significantly with increasing participation from retail investors.

Foreign Portfolio Investments (FPI) continued to rise in 2017, given the positive outlook on Bangladesh economy and political stability during the year. Total foreign turnover stood at BDT 114.5bn which was 30.5% YoY higher compared to last year. Net foreign investment stood at BDT 17.1bn in 2017. However, the foreign turnover as a percentage of total market turnover has declined to 5.3% this year compared to 7.4% in full year 2016, owing to increased participation from retail investors. The high quality foreign investors apparently focus on large-cap sector leaders, which are also the dividend aristocrats.

INDEX AND TURNOVER MOVEMENT IN 2017

BRAC EPL Stock Brokerage Ltd. (BESL)

BRAC EPL Stock Brokerage Limited (BESL) is the 3rd largest stock brokerage house among 250 brokers in the country with a 3% market share as of December 2017. BESL has a dominant market share of 42% in the foreign portfolio investment execution segment. The company also offers brokerage services to its 28,000 local clients which includes local institutions, retail clients, non-resident Bangladeshis (NRBs) and 60 foreign institutional clients through 8 branches and 148 employees.

Product and Services

BRAC EPL Stock Brokerage Limited offers stock brokerage services to all Bangladeshi and International Capital Market Investors.

Investment research & advisory services

BESL pioneered the investment research industry in Bangladesh. Currently the Research Department, with 6 analysts including 1 CFA charter holder and 3 CFA Level 3 candidates, has broader investment research and investment advisory mandates. The team has research partnership with Macquarie Securities Group –world's 8th largest sell-side equity research firm in addition to research partnership agreements with Bloomberg, Thomson Reuters, S&P Capital IQ and Fact Set. Following are some of the key achievements of the team in 2017:

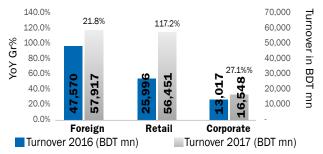

- The recommended investment composite of the team generated 45.3% return in 2017, outperforming the benchmark index by ~21.3%.
- Initiated coverage on two new companies: Confidence Cement and Golden Harvest (GHAIL). Since publication of the equity note, Confidence Cement has unlocked value and given a decent return to investors generating 42.1% return while Golden Harvest (GHAIL) posted a negative performance of 16.9% as on Feb 5, 2017.
- Completed the International Research work by Stewart Investors on "Financial Inclusion Project" and successfully won the bid after competing with Research Firms from other countries. The work, which includes analysing 30 companies across 16 countries, will generate USD 30,750 in advisory fees.
- Carried out "Investment Memorandum" for the Ahsania Mission Cancer and General Hospital (AMCGH), generating BDT 3 Million as advisory fees.
- In addition to the above, the team also generated USD 75,000.00 in Research and Advisory Fees from foreign investors and BDT 14 million from local institutional clients.

Financial Performance

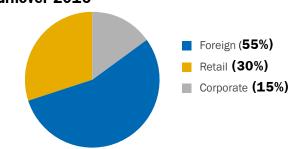

BRAC EPL Stock Brokerage has managed to maintain the 3rd position among 250 brokers. On average, BESL had 3% market share of DSE turnover, 0.7% of CSE turnover and 2.8% of total turnover.

Our total turnover stood at BDT 130.9 bn in 2017, up by 51.2% YoY compared to turnover in 2016. Average Daily Turnover increased by 76.8% YoY in 2017 compared to previous year. BESL net profit after tax in 2017 was BDT 204 mn; increased by 115% or BDT 110 mn.

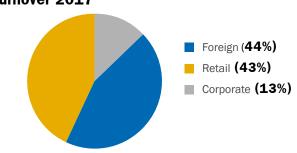

YoY Turnover Growth

Turnover 2016

Turnover 2017

Among the three verticals of our business, Retail business played a vital role in total turnover. Retail business was 43.0% of total turnover in 2017 compared to 30.0% in 2016. In this particular year retail turnover has been grown by 117.2% YoY compare to last year of 2016 whilst company's turnover have been increased by 51% compare to last year. Such strong retail business was driven due to our new strategies to increased client interaction, increased effort to acquire new clients and dynamic sales strategies with the new sales team. BESL has also organized two big Financial Literacy Program (FLP) in Comilla which had ~1,000 participation and another in Chowmuhani which has ~700 participants as part of our retail business strategy. In addition to these, we have organized multiple other FLPs and Investor Awareness Programs throughout the year around the country which performed as strong branding and client acquisition platforms.

Our corporate business has also witnessed a decent growth if 27.1% YoY in 2017. Currently this segment of the business only contributes 12.6% of the overall revenue pie. However, with the

new team and the strategies in place we expect this segment to be a sizeable portion of the company in the coming years.

Foreign Institutional Investment (FII) business continued to play a major role in total turnover. FII business was 44.2% of total turnover in 2017 compared to 54.9% in 2016. However, in this particular year FII turnover has been grown by 21.8% compare to last year of 2016.

Future Outlook of industry and Company position

We expect the capital market to be relatively volatile in 2018 compared to the bull trend we have witnessed in 2017. Considering 2018 an election year, political arena might get heated up causing disruption in business and investor sentiment. We observed record low rates last year, however, interest rates have bottomed out and are picking momentum faster than expected due to lower liquidity in the system. We do not expect the government to slash rates on savings tool prior to the upcoming election. However, good scripts are likely to stand out in the market and we expect them to continue to drive valuations through its persisting fundamentals and multiples expansion. We are expecting 40-45% increased turnover volume in next three years in the market and we aim to increase our market share to 4% and securing our leading position in both local and foreign market.

The main focus of BESL in 2018 will be to nurture the "Retail" segment. BESL plans to continue the existing sales campaigns and want to capitalize on the distribution network of BRAC and BRAC Bank to reach the mass. Along the lines, as a part of this strategy, BESL has increased its focus in the corporate business wing. The main focus for corporate business of 2018 is to structure the segment and ride along its growth, as majority of corporates houses currently manage its capital market investments on an ad-hoc and unstructured way, there is a significant scope to cater to that market. BESL intends to grab further market share in the foreign segment. We currently have trading partners from all around the globe but major contributors are from USA (33.9%), UK (22.4%) and Northern Africa (14%). In 2018, we want to priorities further on client service though superior trade flow management, better execution and further customer engagement through sales call in collaboration with Research Team.

Strategic Outlook of the Company

In this era of globalization, the business world is continuously changing and to keep pace with the changes every organization needs to ensure continuous development to achieve better competitive advantage and superior service quality over the competitors. In 2018 the key concentration areas of our management will be:

- 1. Retain market leadership.
- 2. Intact foreign business.
- 3. Focus, develop and structure the corporate business wing.
- 4. Strengthen retail business through increase of BO Account
- 5. Focus more on sales from retail unit
- 6. Corporate Access Desk
- 7. Arrange road show locally & internationally
- 8. Exploring new client segments.
- 9. Capitalizing on the brand value and group synergies.
- Investing in Technology for Better Data Management & Improved Trade Management.
- 11. Innovate and Implementing Planned Structural Changes.
- 12. Investing in our Staff.

We believe that our team work shall play a vital role in reaching our target and achieve the corporate mission to be the market leader by increasing market share.

Independent Auditor's Report

to the Shareholders of BRAC EPL Stock Brokerage Limited

We have audited the accompanying financial statements of BRAC EPL Stock Brokerage Limited, which comprise the statement of financial position as at 31 December 2017 and the statement of profit or loss & other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Financial Reporting Standards (BFRSs) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing (BSAs). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the

circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of BRAC EPL Stock Brokerage Limited as at 31 December 2017 and its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards (BFRSs) and comply with the Companies Act 1994 and other applicable laws and regulations.

We also report that:

- a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- in our opinion, proper books of account as required by law have been kept by the company so far as it appeared from our examination of those books;
- the company's financial statements dealt with by the report are in agreement with the books of account and returns; and
- The expenditure incurred were for the purpose of the company's business.

Directors' Report

to the Shareholders of BRAC Saajan Exchange Ltd.

The directors present their annual report and financial statements for the year ended 31 December 2017. Principal activities

The principal activity of the company continued to be that of money remittance.

Branches

The company operates through overseas branches in Italy, Portugal and Spain.

Directors

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

Mr Kazi Mahmood Sattar Mr Selim Raza Farhad Hussain Mr Abdus Salam

Results and dividends

Ordinary dividend were paid amounting to £66,792 in the year 2017. The directors do not recommend payment of a final dividend. This is to assist with maintaining Cash Flow and reinvesting into the growing business of BRAC Saajan.

Future developments

The Company is forecasting more than 90% year-on-year growth in 2018. Major growth is forecasted by the UK Retail Agent Network, Aggregator Network and Italy Retail Agent Network. The Company is also forecasting increase in payments to other countries, especially to Pakistan, Sri Lanka, Poland and Romania to reduce dependency on Bangladesh corridor. As per the strategic plan of the Company, payments from European

countries to African countries, especially to Nigeria shall also contribute to the 2018's growth. The Company has a strategic goal to spread its service to more than 30 countries by 2021. In view of that, the Company is also open to explore mergers and acquisition opportunities in 2018 and in the coming years.

IT and Compliance, again, will play a significant role; there are various implementation plans, including Data Loss prevention Software implementation, implementation of Risk Matrix (Compliance/MLP).

Our Strategic Plan for 2018 involves the rolling out of the Online Platform in the European countries.

Auditor

The auditor, Reddy Siddiqui LLP, is deemed to be reappointed under section 487(2) of the Companies Act 2006.

Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the company's auditor is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the company's auditor is aware of that information. On behalf of the board

Mr Abdus Salam Director 16March 2018

Independent Auditor's Report

to the Members of BRAC Saajan Exchange Ltd.

Opinion

We have audited the financial statements of BRAC Saajan Exchange Ltd. (the 'company') for the year ended 31 December 2017 which comprise the Statement of Comprehensive income, the Balance Sheet, the Statement of Changes in Equity, the Statement of Cash Flows and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 The Financial Reporting Standard applicable/e in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2017 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

 the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorized for issue.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006 In our opinion, based on the work undertaken in the course of our audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we

have not identified material misstatements in the Strategic Report and the Directors' Report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- Adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or certain disclosures of directors' remuneration specified by law are not made; or
- We have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or

to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: http://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Directors' Report

to the Shareholders of BRAC EPL Investments Ltd.

The Board of Directors of BRAC EPL Investments Limited (BEIL) is pleased to present before you the Directors' Report on the operational and financial activities of BEIL together with the Audited Financial Statements for the year ended 31 December 2017 for your valued consideration, approval and adoption. The Directors' Report has been prepared in compliance with Section 184 of the Companies Act, 1994 and the requirements mandated by the regulatory bodies.

BRAC EPL Investments Limited

BEIL is a public limited company, which has established itself as a full-fledged investment bank and portfolio manager, in Bangladesh. Today, it is a reputed investment bank for corporate advisory services in the market, as is evident from the transactions it closed such as its role as the advisor to the Dhaka Stock Exchange Limited to demutualise the exchange and cross border M&A transactions. BEIL also successfully completed a transaction to raise USD300 million debt and equity for the largest ever infrastructure project in Bangladesh. BEIL is also involved in raising a significant amount of money from capital market for largest power company of Bangladesh Government.

BEIL is strategically optimizing business growth and profitability for the year 2018. The focus of the strategies would be rationalizing costs, enhancing fee-based income, improving performance of negative equity portfolio and boosting performance for establishing a sustainable investment bank.

Products and services

1. Portfolio Management

BEIL provides two types of portfolio management services:

- Investor Discretionary Portfolio Management: Investor Discretionary Account very closely resembles a BO (Beneficial Owner) Account. Under this arrangement, full responsibility of buying or selling, taking margin and all other critical decisions rests on the investors. In this regard BEIL, provides two products, the Cap Edge and Cap Cash.
- Manager Discretionary Portfolio Management: Under Manager Discretionary Account, the authority to take all pertinent decisions regarding most aspects of Portfolio Management lies with the Portfolio Managers. Most Merchant Banks in Bangladesh provide only Investor Discretionary Management Services, whereas BEIL is one of the few companies currently providing both types of services.

The fundamental difference between these two lines of business is the legal discretion or power of security selection, portfolio construction, execution timing and actual execution of trades.

Our Portfolio Management Products are:

- a. Cap Edge: Non-Discretionary Portfolio Accounts: Cap Edge is an Investor controlled account. Investors retain all the authority and power to select the items to buy and sell, and the timing of trade while the portfolio managers assist them with trade execution and continuous advice. Under this arrangement, investors pay management fee and brokerage commissions for trading.
- b. Cap Cash: Non-Discretionary Portfolio Accounts: Cap Cash is a unique non-discretionary product of BEIL offering clients margin and non-margin services through individual BO Account. Clients can link their existing BO Accounts in BEIL with their existing accounts in other brokerage houses. Cap Cash is an Investor controlled account. Investors retain all the authority and power to select the items to buy and sell, and the timing of trade while the portfolio managers assist them with trade execution and continuous and expert advice.
- c. Managed Cap Edge Discretionary Portfolio Account: Managed Cap Edge is a Portfolio Manager controlled account. Managers retain all the authority and power to select the items to buy and sell, and the timing of trade while the investors can guide the managers by providing input on their return and risk preference. Under this arrangement, investors pay management fees (which are higher than those in Cap Edge) and settlement fees for trading.

2. Structured Finance Department

The Structured Finance Department widened its scope further to investment banking activities in 2017. Moreover, the Corporate and Institutional Banking department saw further transformation in 2017 with revamping the team as new recruits were brought in. Under the top management of the previous year and the newly recruited team, the Structured Finance department obtained two power project mandates as issue manager and arranger and one private equity mandate as the corporate advisor and arranger which are expected to be closed in 2018.

3. Debt Arrangement

BEIL focused on originating, structuring and distributing debt in the form of syndicated loans, corporate bonds, bridge finance, mezzanine debt, asset backed securities and other debt products for the corporate houses of Bangladesh. Our scope of work ranges from structuring the optimum financial structure to arranging the fund from the prospective lenders. Most common form of debt arrangement is syndicated loan. In general, syndicated loans help to finance large ticket size loans which are not feasible to be provided bilaterally by a lender.

4. Private Equity

In recent years, alternative investment asset classes such as private equity placement have become increasingly important pools of capital in the global financial system. With our vast network of foreign and local equity investors, we advice our clients on the optimum mode of financing requirement with alternatives to debt such as private equity and venture capital investments. Such investments provide great advantage to the clients as they get to have foreign investment banks/institutions sit at their board, and helps build their brand image.

5. Mergers & Acquisitions

BEIL provides best in-class merger & acquisition advisory solutions for its clients in buying, selling or consolidating companies across all industries and across international borders. BEIL acts as both buyers and sellers agent. BEIL would assist in finding potential sellers/ buyers, negotiating to achieve the best possible price, valuation of the company, thorough due diligence of BEIL and all related activities in bringing the transaction to closure.

6. Corporate Advisory

BEIL provides various corporate and financial advisory on project financing, corporate restructuring, financial duediligence, etc for its clients.

7. Distribution networks

We have seven offices that include a Corporate Head Office and six branches in Motijheel and Gulshan in Dhaka, Chittagong, Sylhet, Chowmuhani and Comilla.

Capital Market Review 2017

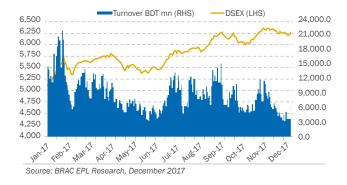

Capital market of Bangladesh has passed an exceptionally good year in 2017. The broad market gauge DSEX gained 24 percent and making it the best year after the market crash of 2010. Most of the sectors except for Cement, IT, Services & Real Estate, Tannery posted positive return in 2017. Among the 19 sectors, 9 posted double digit return.

From the above table, we see that among the major sectors, most of the sectors posted positive returns, whereas the other sectors lost slightly. In the advancing sectors, the internal breadth was positive as most of the companies of these sectors performed well.

Favorable macroeconomic indicators, supportive fiscal and monetary policy and relatively stable political situation will restore the confidence of the investors to inject money into the market in 2018. It is expected that 2018 will be a good year for capital market.

Financial Highlights for 2017

BRAC EPL Investments Limited has taken a number of steps to rationalize cost and effective and efficient management of its businesses.

Considering written off of uncollectable debt BDT 18.9 million from PMD & IBD departments, The operating expenses increased by 28% to 95 million for the year ended 31 December 2017 compared to 74 million in the year 31 December 2016.

- ▶ BEIL borrowed on an average BDT 1.13 billion in short term loans and overdrafts on an average borrowing rate of 6.18% in 2017 which was 9.23% per annum in 2016.
- We had to make income reversal BDT 958.7 million against prior years' income generated by negative equity accounts instead of making provision on doubtful debt.
- We have generated operating profit of BDT 59 million before adjustment of prior years' negative equity income in 2017 compared to loss of BDT 215 million in 2016.

The Board would like to express my appreciation to entire the BRAC EPL Investments Limited's team. It would be remiss if we do not acknowledge the exceptional efforts of our employees who worked in partnership to meet many challenges of a difficult year. They were called upon to embrace some major challenges while at the same time maintaining the highest standards of service to our clients. They met the challenges well.

Finally, the Directors would like to thank our loyal clients and respected shareholders for their continued support to BEIL. Taking this opportunity, the members of the Board would also like to thank the Bangladesh Securities and Exchange Commission, Dhaka & Chittagong Stock Exchanges, Central Depository Bangladesh Limited who were the partners in the growth of BEIL.

For and on behalf of the Board of Directors,

Chairman

Tihad Kalur

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion

on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of BRAC EPL Investments Limited as at 31 December 2017 and its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards and comply with the Companies Act, 1994 and other applicable laws and regulations.

We also report that:

- We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- In our opinion, proper books of account as required by law have been kept by the company so far as it appeared from our examination of those books;
- The company's financial statements dealt with by the report are in agreement with the books of account and returns; and
- d) The expenditure incurred were for the purpose of the company's business.
